Ms. Pamela McGuffey  
Country Peddler  
Kentucky US

We are a small company. We understand that the Federal DNC program has worked "exceptionally well" and can see no logical reason to require monthly updates. Our fear is that our costs would increase - in terms of manpower, time and purchasing the technology that would be required. The FTC statistics are clear that the new DNC laws have met their goal of reducing unwanted calls. Abuse is extremely low. The cost to businesses is not worth the insignificant change that would result..
