Index of Housing Characteristic Tables

Table	Page
-------	------

Characteristics of New One-Family Houses Completed

Presence of Air Conditioning	4
Number of Bathrooms	32
Number of Bedrooms	60
Number of Bedrooms by Number of Bathrooms	88
Type of Construction Method	112
Principal Type of Exterior Wall Material	124
Secondary Type of Exterior Wall Material	152
Secondary Wall Material by Brick Primary Wall Material	164
Secondary Wall Material by Wood Primary Wall Material	176
Secondary Wall Material by Stucco Primary Wall Material	188
Secondary Wall Material by Vinyl Siding Primary Wall Material	200
Secondary Wall Material by Aluminum Primary Wall Material	212
Secondary Wall Material by 'Other' Primary Wall Material	220
Number of Fireplaces	228
Type of Financing	256
Type of Foundation	268
Type of Heating Fuel	296
Heating Fuel by Type of Heating System	324
Type of Heating System	356
Median and Average Square Feet by Location	384
Median and Average Square Feet by Type of Financing	388
Presence of Outdoor Features	392
Type of Parking Facility	408
Square Feet of Floor Area	436
Number of Stories	452

Characteristics of Units in New Multi-Family Buildings Completed

Number of Floors	480
Units per Building	489
Presence of Air Conditioning	498
Type of Heating Fuel	507
Presence of Heat Pump	516
Number of Bathrooms	525
Number of Bedrooms	534
Square Foot Ranges	543
Median and Average Square Feet of Floor Area	549
Design Type	551
Presence of Fireplace	557

Characteristics of New Multi-Family Buildings Completed

Number of Floors	563
Units per Building	572
Presence of Air Conditioning	581
Type of Heating Fuel	590
Presence of Heat Pump	599
Presence of Fireplace	608
Construction Method	614

Characteristics of New One-Family Houses Sold

Presence of Air Conditioning	620
Number of Bathrooms	632
Number of Bedrooms	644
Number of Bedrooms by Number of Bathrooms	656
Principal Type of Exterior Wall Material	665
Secondary Type of Exterior Wall Material	681
Secondary Wall Material by Brick Primary Wall Material	696
Secondary Wall Material by Wood Primary Wall Material	702
Secondary Wall Material by Stucco Primary Wall Material	708
Secondary Wall Material by Vinyl Siding Primary Wall Material	714
Secondary Wall Material by Aluminum Primary Wall Material	720
Secondary Wall Material by 'Other' Primary Wall Material	726
Number of Fireplaces	732
Type of Financing	744
Type of Foundation	760
Type of Heating Fuel	772
Heating Fuel by Type of Heating System	784
Type of Heating System	796
Lot Size	808
Design Type	827
Type of Parking Facility	831
Price per Square Foot	846
Median and Average Price Per Square Foot	861
Sales Price Range	864
Median and Average Sales Price	867
Square Feet of Floor Area and Geographic Area	873
Median and Average Square Feet	889
Number of Stories	892

Characteristics of New Contractor Built Houses Started

Contract Price Range	904
Median and Average Contract Price	908
Contract Price per Square Foot Range	909
Median and Average Contract Price per Square Foot	911

Presence of Air-Conditioning in New One-Family Houses Completed

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

RSE	3	6	16	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	5	8	15	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Presence of Air-Conditioning in New One-Family Houses Completed: Contractor-Built¹

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Presence of Air-Conditioning in New One-Family Houses Completed: Owner-Built¹

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

RSE	3	20	13	6	7	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹Includes 2 1/2 bathrooms or more for years 1986 and earlier.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	13	45	17	24	9	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Number of Bathrooms in New One-Family Houses Completed: Owner-Built¹

(Components may not add to total due to rounding. Percents computed from unrounded figures.)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Number of Bathrooms in New One-Family Houses Completed

by Number of Bedrooms: Built For Sale¹

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes panelized and precut units.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.
 NA Not available. RSE Relative Standard Error.
 S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.
 Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.
 Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Principal Type of Exterior Wall Material of New One-Family Houses Completed: Built for Sale¹

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Principal Type of Exterior Wall Material of New One-Family Houses Completed: Contractor-Built¹

RSE	13	76	27	12	37	(NA)	31	43	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Secondary Type of Exterior Wall Material of New One-Family Houses Completed

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

Secondary Type of Exterior Wall Material of New One-Family Houses Completed: Contractor-Built¹

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

**Secondary Type of Exterior Wall Material of New One-Family Houses Completed
With Primary Exterior Wall Material of Brick**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

**Secondary Type of Exterior Wall Material of New One-Family Houses Completed
With Primary Exterior Wall Material of Brick: Owner-Built¹**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

**Secondary Type of Exterior Wall Material of New One-Family Houses Completed
With Primary Exterior Wall Material of Stucco**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

**Secondary Type of Exterior Wall Material of New One-Family Houses Completed
With Primary Exterior Wall Material of Vinyl Siding**

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹Includes concrete block, stone, aluminum siding, and other types.

²Includes concrete block, stone, aluminum siding, and other types that are different from the primary type of "other" material.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

**Secondary Type of Exterior Wall Material of New One-Family Houses Completed
With Primary Exterior Wall Material of Other¹: Built for Sale²**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

RSE	3	6	5	12	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Number of Fireplaces in New One-Family Houses Completed: Built For Sale¹

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.
 NA Not available. RSE Relative Standard Error.
 S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.
 Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Type of Foundation in New One-Family Houses Completed: Owner-Built¹

RSE	3	32	14	21	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	3	6	26	96	68	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹Includes wood, coal, solar and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	5	7	27	(A)	92	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes wood, coal, solar and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes wood, coal, solar and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.
 NA Not available. RSE Relative Standard Error.
 S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.
 Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes wood, coal, solar and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹Includes wood, coal, solar and other types.

²Includes both air source and geothermal (ground source) versions.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes wood, coal, solar and other types.

³Includes both air source and geothermal (ground source) versions.

⁴Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes wood, coal, solar and other types.

³Includes both air source and geothermal (ground source) versions.

⁴Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes wood, coal, solar and other types.

³Includes both air source and geothermal (ground source) versions.

⁴Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

RSE	3	7	26	31	42	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹Includes both air source and geothermal (ground source) versions.

²Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	5	8	19	39	50	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	3	11	5	5	36	16	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Data prior to 1992 include garages for 3 cars or more.

Type of Parking Facility of New One-Family Houses Completed: Built For Sale¹

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.
 NA Not available. RSE Relative Standard Error.
 S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.
 Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

²Data prior to 1992 include garages for 3 cars or more.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

²Data prior to 1992 include garages for 3 cars or more.

RSE	16	28	21	15	59	38	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.
 NA Not available. RSE Relative Standard Error.
 S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.
 Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

²Data prior to 1992 include garages for 3 cars or more.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ "Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ Includes houses 1 1/2, 2 1/2, and 3 stories.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

² Includes houses 1 1/2, 2 1/2, and 3 stories.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes houses 1 1/2, 2 1/2, and 3 stories.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes houses 1 1/2, 2 1/2, and 3 stories.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Number of Multifamily Units Completed by Number of Floors in Building

RSE	11	16	12	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Fewer than 500 units or less than 0.5 percent.

Number of Multifamily Units Completed by Number of Units Per Building

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Year	Number of units (in thousands)								Percent distribution

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Fewer than 500 buildings or less than 0.5 percent.

¹Data prior to 1999 include 3-4 units.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	5	16	6	9	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.
NA Not available. RSE Relative Standard Error.
S Withheld because estimate did not meet publication standards on the basis of response rate,
associated standard error, or a consistency review.
Z Less than 500 units or less than 0.5 percent.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.
 NA Not available. RSE Relative Standard Error.
 S Withheld because estimate did not meet publication standards on the basis of response rate,
 associated standard error, or a consistency review.
 Z Less than 500 units or less than 0.5 percent.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	5	30	24	12	30	(NA)	18	45	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Principal Type of Exterior Wall Material of New One-Family Houses Sold by Sales Price

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.
 NA Not available. RSE Relative Standard Error.
 S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.
 Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.
 Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

**Secondary Type of Exterior Wall Material of New One-Family Houses Sold
With Primary Exterior Wall Material of Brick**

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

**Secondary Type of Exterior Wall Material of Detached New One-Family Houses Sold
With Primary Exterior Wall Material of Brick**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

**Secondary Type of Exterior Wall Material of Detached New One-Family Houses Sold
With Primary Exterior Wall Material of Wood**

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement, but not aluminum siding. Data prior to 1992 include vinyl siding.

**Secondary Type of Exterior Wall Material of New One-Family Houses Sold
With Primary Exterior Wall Material of Vinyl Siding**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Prior to 1999, includes 1 or more fireplaces.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes wood, coal, solar and other types.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹Includes wood, coal, solar and other types.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹Includes wood, coal, solar and other types.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

¹Includes wood, coal, solar and other types.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

RSE	5	6	22	63	54	(NA)	(NA)	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes both air source and geothermal (ground source) versions.

²Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar and other types.

Type of Heating System Used in Attached New One-Family Houses Sold

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Beginning in 1992, lot sizes greater than 25 acres are tabulated as 25 acres. Prior to 1992, lot sizes greater than 2.5 acres were tabulated as 2.5 acres. Prior to 1999, data included condominiums, but totals included only those house reporting size of lot.

RSE	3	3	16	19	4	5	4	6	6	19	20	13	9	8	

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Beginning in 1992, lot sizes greater than 25 acres are tabulated as 25 acres. Prior to 1992, lot sizes greater than 2.5 acres were tabulated as 2.5 acres. Prior to 1999, data included condominiums.

**Lot Size of New Attached One-Family Houses Sold
Excluding Condominiums**

(Medians and averages computed from unrounded figures)

RSE	5	17	5	(NA)	(NA)	(NA)

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	2	(NA)	(NA)	7	6	3	3	2	(NA)	(NA)	7	5	3	3

A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Note: Data for 1992 through 1999 have been recomputed using a revised tabulation methodology.

Number of New One-Family Houses Sold by Sales Price and Location

(Sales price includes value of improved lot. Components may not add to totals because of rounding.)

Year	Number of housing units (in thousands) by sales price										Percent distribution

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Z Less than 500 units or less than 0.5 percent.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

- Represents zero. A Represents an RSE that is greater than or equal to 100 or could not be computed.

NA Not available. RSE Relative Standard Error.

S Withheld because estimate did not meet publication standards on the basis of response rate, associated standard error, or a consistency review.

Z Less than 500 units or less than 0.5 percent.

Median and Average Contract Price per Square Foot of New Contractor-Built One-Family Houses Started by Location

(Contract price excludes value of improved lot. Medians and averages computed from unrounded figures.)

Year	Median contract price per square foot							Average contract price per square foot

RSE	3	4	4	8	6	4	9	3	4	4	9	5	4	7

RSE Relative Standard Error.

Note: Data for 1992 through 2001 have been recomputed using a revised tabulation methodology. Beginning with the data for 1999, an adjustment for extreme values is made when calculating the average contract price per square foot.
