A person repairing, replacing parts, or performing body work on a motor vehicle that is less than nine (9) years old shall provide a statement to the owner of the motor vehicle when the motor vehicle has sustained motor vehicle damage requiring disclosure under this section. The owner shall disclose this damage when ownership of the motor vehicle is transferred. When a vehicle is damaged in excess of seventy-five percent of its retail value as determined by the national automobile dealers association official used car guide, the person repairing, replacing parts, or performing body work on the motor vehicle that is less than nine (9) years old shall also advise the owner of the motor vehicle that the owner of the vehicle must comply with section 39-05-20.2. (See Below)

The amount of damage to a motor vehicle is determined by adding the retail value of all labor, parts, and material used in repairing the damage. When the retail value of labor has not been determined by a purchase in the ordinary course of business, for example when the labor is performed by the owner of the vehicle, the retail value of the labor is presumed to be the product of the repair time, as provided in a generally accepted autobody repair flat rate manual, multiplied by thirty-five dollars.

If a vehicle for which a salvage certificate of title has been issued is reconstructed, a regular certificate of title may be obtained by completing an application for the certificate. The applicant shall include with the application a certificate of inspection in the form required by the department, the salvage certificate of title, and a five dollar fee.
