

Joint Committee on Ways and Means

Co-Chairs' 2009-11 Recommended Budget

Moving Forward Together

Senator Margaret Carter Representative Peter Buckley

May 18, 2009

Co-Chairs' Principles:

- o Focus on jobs and the economy.
- o Protect children, seniors, and Oregonians with disabilities.
- Oregonians depend on opportunities in education, access to affordable health care, a level playing field for business, and safe communities. We are committed to addressing these needs and to building for our future even in the midst of the harshest economic downturn of our lifetimes.
- With dedicated teachers, innovative businesspeople, passionate community leaders, top flight public safety personnel, inspiring front line health care providers and caregivers, and productive working men and women in every region—along with a state government that listens, understands, and responds--Oregon will move forward once again, together.

Budget Overview:

We are proposing a balanced approach to addressing the fiscal crisis our state faces.

After public hearings throughout the state, and after consultation with our colleagues, educators, students, parents, seniors, health care providers, law enforcement personnel, judges, farmers, commercial fishermen, small business owners, and Oregonians from all walks of life, it is clear that we can neither simply cut services to solve this problem or raise enough revenue to do so. We must do both.

We are proposing strategic cuts in every area of the state budget, following the principles we have put forth, with the intention of making sure that the core mission of every agency can continue to be addressed. These strategic cuts, along with the greatly appreciated resources provided by the federal stimulus dollars and prudent use of our state reserves, are the main tools we are using to address Oregon's fiscal crisis.

We are also proposing, with Senate and House leadership, to bring in a targeted amount of additional revenue from individuals and businesses in our state that have prospered through and depend on state services and can afford to contribute towards a fair and balanced budget.

Along with most every Oregon family right now, we are tightening our belts and doing everything we can to protect our kids and our vulnerable citizens, addressing short-term needs but keeping our eyes on the future as well.

We have no doubt that with the dedication and shared commitment of all Oregonians, we will weather this storm and emerge even stronger when it is over.

Budget Detail:

The following tables describe the Co-Chairs' 2009-11 Recommended Budget

- o 2009-11 Revenues and Essential Budget Level
- o 2009-11 Ways and Means Co-Chair Recommended Budget
- o Program Area Spending Changes

Net Final Reserves with SSF Trigger		\$326.6						

^{*} DHS budget includes \$542 million from enhanced FMAP as Federal Funds

LFO 5/18/2009 2:07 PM

^{**} Co-Chair plan includes a conditional economic trigger to provide an additional \$400 million to the SSF from reserves; if trigger met, SSF would be at \$6.0 billion for the 2009-11 biennium; 2009-10 appropriation will be \$2.9 billion

Education Program Area Notes

At \$5.6 billion with a \$400 million dollar reserve fund to be triggered in 2010, we intend to offer a total of \$6 billion to our K-12 school system over the next two years. We believe we must hold back the \$400 million in a reserve fund at present to balance against another "freefall" such as our state has experienced in the past year.

If our state economist is correct, we will have prepared our budget in such a way as to be able to release the full \$400 million to our K-12 system next year, and use our ending balance to address any other needs which might arise in human services or public safety.

If we do experience another freefall, we will work with Senate and House leadership and all of our colleagues in a planned for supplemental session in early 2010 to rebalance our budget as needed, using all resources to address education and other vital needs.

With record enrollment in our community colleges and our university system, we have chosen to follow a path that attempts to balance reductions to programs, limit tuition increases, and continue commitment to financial aid to provide the greatest access we can to quality higher education for the greatest number of Oregonians. We seek to protect programs that help lead to student retention and success, and will continue to work with our community college and university leaders to mitigate the impact of cuts wherever possible.

Human Services Program Area Notes

We have worked within the Human Services budget areas with the following priorities:

- o Maintain county level services for mental health and drug/alcohol rehabilitation programs to the greatest extent possible, since these are the front line services that provide effective, proactive assistance to Oregonians in a way that saves lives in the most cost efficient manner available.
- O Maintain the low cost, effective in-home services for seniors and Oregonians with disabilities to the greatest extent possible for the very same reasons. We are continuing to work with Senator Morrisette, Representative Cowan, and other colleagues on proposals to enhance in-home care as well as senior and disabled transportation, and we look forward to positive steps in this area over the remaining weeks of the legislative session.
- o Support programs that support families to the greatest extent possible as we weather this recession.
- O Support health care reform with the goal of holding down costs for all and providing access to health care for 80,000 more kids in our state and tens of thousands of low income Oregonians. We look forward to including a cost containment package and expansion plan that meets these goals in our final budget next month.

Public Safety and Judicial Program Area Notes

We have worked within the Public Safety/Judicial budget areas with the following priorities:

- o Maintain services in county community corrections and the Oregon Youth Authority to the greatest extent possible.
- o Keep our commitment to bringing on 39 additional Oregon State Police troopers during 2009/11 to finally return to 24 hours per day/7 days per week coverage for our state.
- o Maintain our criminal justice system through strategic cuts and investments at different points of entry, incarceration, and post-incarceration to realize short term and long term savings. Our legislative work group, led by Senators Verger and Prozanski and Representatives Shields and Barker, is working with district attorneys, public defenders, judicial, and law enforcement personnel on a proposal to save between \$75 to \$100 million in our 2009-11 budget. It is our hope to be able to use a portion of these savings to mitigate cuts that are currently listed for the Oregon Youth Authority and the Oregon State Police.
- O Maintain a court system available to all Oregonians, including our innovative drug courts and our Public Defense services, by mitigating cuts to the courts with small increases in fees. We are working in partnership with the Chief Justice on this effort. Senator Walker and Representative Nathanson are leading a work group this week to review specific fee proposals to ensure access to justice and effective operation of the court system.

Agency	Description	Co-Chair GF	Co-Chair LF	Co-Chair CFAA	Positions	FTE
Dept. of Corrections	Total EBL	1,455,542,591

Natural Resources Program Area Notes

We have worked within the Natural Resource budget areas with the following priorities:

- Maintain vital services provided by the Department of Agriculture and the Department of Fish & Wildlife to the greatest extent possible.
- o Hold down any additional costs associated with Oregonian's use of our state parks to the greatest extent possible while still maintaining and building a first rate park system.
- o Address long standing water issues and provide sustainable funding for the Oregon Water Resources Department through proposals still in development by Representative Jenson, Senator Walker and Representative Jefferson Smith.
- o Ensure the completion of the processing of Measure 49 claims by the end of June 2010.
- o Fund the priorities of the bipartisan legislative Coastal Caucus for marine reserves and ocean floor mapping.

Transportation and Economic Development Program Area Notes

We have worked within the Transportation and Economic Development budget areas with the following priorities:

- o The Co-Chairs support the proposals by Senator Metzger, Representative Beyer, and the other parties involved in the transportation work group and look forward to including a robust transportation and jobs package in the final legislative budget.
- O We will continue to seek ways to further limit reductions to Oregon InC and to programs in the arts in order to do everything we can to fuel our state's economic recovery.

Administration and All Other Program Area Notes

We have worked within the Administration and remaining budget areas with the following priorities:

- o Representative David Edwards is continuing his work to stabilize funding for the Oregon Liquor Control Commission and increase general fund revenue at the same time. We plan to add his final proposal to the targeted cuts and additions to the OLCC contained in our budget.
- o Final budgets for agencies within the Administration program area, including the Legislative Branch and the Emergency Board will be presented by Senate and House leadership later this session.

Administration Area Spending Changes (\$ GF/LF/Selected OF)

Final Note

A capital construction package, including selected projects recommended by the Governor's budget and by the Legislature, is currently in development and will be included in the final Legislatively Adopted Budget this year.

We would like to express our sincere appreciation for the work of our subcommittee Co-Chairs, the members of the Joint Committee on Ways & Means, the members of each of our subcommittees, and the staff of the Legislative Fiscal Office in the preparation of this budget.

Our budget is now the working document for the remainder of the 2009 legislative session, and we look forward to the hearings, discussions, negotiations, and completion of the budget process over the next few weeks.
