New Feature on Addiction MMR?

Last month we announced that the Chemical Dependency Treatment MMR is going to be different in the near future.

This created a lot of concerns in our CPMS community. It was not our intent to upset anyone but we did want your attention and we did manage to do just that.

The idea that there is going to be a trick performed and make all your clients disappear is not true. There will be a change and that is the asterisk "*" to indicate those chemical dependency clients that have been open longer than three years.

It will not be very soon however. At first the project has to be prioritized and the amount of work involved still needs to be established. It is not going to be a permanent feature. Our intention is to create the special Addictions Treatment Monthly Management Reports (MMR 24-233) annually or bi-annually.

We were pleased to receive all the termination information. And we hope that you continue to be willing to make the time to ensure the highest quality possible of the data that you send to us.

It's very important that our data systems have accurate information. We make many decisions, affecting Oregonians and CD Providers, based upon that information. If you have any questions or concerns, please give us a call.

¹ Client Process Monitoring System (data system for mental health and chemical dependency treatment services).

Training Needed ?

Give us a call

Currently we have a few abbreviated trainings scheduled. They were added to the schedule because of special requests from a provider that is in the process of streamlining their administrative processes. We sometimes visit a provider if they guarantee us at least 8 people attending and have a meeting room available large enough to do the training. These condensed trainings can be Alcohol and Drug and Mental Health paper and/or e-form. The downsized versions we are currently giving last for about 2 hours. These trainings cover the most important issues we like to address but are not as much

fun as the full version. We have less time for questions and answers and of course

there is no time for “Family Feud”

Can you find your CPMS manual?

We enjoy hearing from our providers. We appreciate your calls to find out more about a certain form or box on a form. This shows that you care about what you send us. During the past year it’s been great getting out and meeting with all of you. We are working hard at the Addiction and Mental Health Division (AMH) to make sure that your forms (paper and electronic) process on time. This keeps us very busy.

When you have a question, first consult your CPMS Users Manual. Both manuals were recently updated. They are set up as a reference guide, so that you can find the boxes you are looking for quickly. Remember that your CPMS manual should be in a binder so that when we send out replacement pages, you can insert them easily.

If you still have questions after reviewing the manual, feel free to give us a call. If you need to order a manual, call Bonnie at 503-945-6188. You can also go on line and print the manual yourself. The address is:

www.oregon.gov/DHS/addiction/tools.shtml

Many thanks to Keisha Sanchez from Edgefield Children’s Services for the prompt response to our CPMS questions. Having the answers so quickly makes our job much easier and makes you reports reflect accurate information.

IS THERE CPMS AFTER BEN??

“Partir c’est mourir un peu” is a pretty French saying and it means something like “To leave is to die a little”. And I am sad to announce that Ben Kahn is leaving us. After 17 great years Ben took the next step and is promoted to “BHIP Project Manager”. The good news is that he is still working for AMH and hopefully will be a regular guest columnist of this newsletter to keep us posted on the BHIP developments. We will miss his enthusiasm, dedication and positive attitude. Starting this edition if you have any questions or suggestions please send them to: piet.j.vermeer@state.or.us

Changes to Referral source(s) for A&D

July 1st 2007 we introduced a new box called: “recent arrest within the last 30 days” on the CPMS A&D form. This was because of a change in the Federal reporting requirements. We took the opportunity to make a few more changes to synchronise the Mental Health and Alcohol & Drug form. It involved Boxes **15 & 53** Referral Source(s) and Box 22 Living Arrangement.

The changes on Living arrangement were minor but the wording is now equal to the wording on the Mental Health form and the numbering sequence makes sense. The impact on Box **15/53** was a lot bigger and a lot of codes and descriptions have changed. If you did not attend one of our trainings this summer you might have missed the announcement about the

changes. For those of you who were unable to attend one of our trainings I am using this medium to get you the current list of correct codes.

A&D Referral Codes:

(Choose the first appropriate code from the top of the list.)

Local or State Agencies

- 80 - Oregon Health Plan
- 07 - Support Programs for Adults (TANF/Food Stamps)
- 08 - Support Programs for Children (Child Welfare)
- 11 - Vocational Rehabilitation
- 35 - Seniors and People with Disabilities
- 04 - Developmental Disabilities Services
- 05 - School
- 37 - Youth/Child Social Service Agencies, Centers, or Teams
- 06 - Other Community Agencies

Behavioral Health Providers/Agencies

- 83 - Community-based Mental Health and/or Addictions Service Provider
- 84 - Other Mental Health/Addiction Services Providers
- 85 - Acute or Sub-Acute Psychiatric Facility
- 86 - State Psychiatric Facility (i.e., OSH or BMRC)
- 49 - Mental Health Organization (MHO)

Health Providers

- 31 - Private Health Professional (Primary Care Provider, Physician, Psychiatrist, Hospital, etc.)
- 48 - Fully Capitated Health Plan (FCHP)
