

Application for Employer Reporting Internet Access

General Instructions—This form may be used by employers covered under the Railroad Retirement and Railroad Unemployment Insurance Acts to add, modify, or terminate employee access to the Railroad Retirement Board's (RRB) Internet employer reporting site. You may request system access for one or more employees, and you may authorize different levels of access for each employee. You may also request that an individual employee file online reports on behalf of one or more subsidiary or affiliate employers. In each case, your employees must certify that they will adhere to the RRB's security guidelines, which include use of an authoritative electronic signature. The *Security Guidelines* are on the RRB's web site at www.rrb.gov/employer.

To request new or modified system access, complete the entire form. To terminate an employee's access, complete only Sections A, B (1-4), C (1), and D.

Making representations on this form to gain unauthorized access to the RRB Employer Reporting System or using an authorized access for fraudulent purposes is a violation of federal law punishable by fine, imprisonment, or both.
