SUBJECT: Child and Adult Care Food Program (CACFP) Policy # 06-2005:
Extension of Waivers Due to Emergency Conditions Caused by
Hurricane Katrina

TO: Special Nutrition Programs
All Regions

State Agencies
Child Nutrition Programs
All States

This memorandum announces the extension of waivers pertaining to CACFP. A chart summarizing the previous waivers, and the action being taken in this memorandum, is attached, and a narrative description of these extensions follows.

- “CACFP Policy # 04-2005: Emergency Feeding in the . . . (CACFP) in Areas Affected by Hurricane Katrina” (memorandum issued on September 2, 2005): All provisions in this memorandum will remain in effect at least through November 30, 2005. Center officials or the family day care home provider must still review an emergency eligibility determination 45 days after making that determination. In addition, the provision permitting institutions affected by Hurricane Katrina to submit late claims without a waiver request is extended to include September claims, which may be submitted as late as December 31, 2005; October claims, which may be submitted as late as January 31, 2006; and November claims, which may be submitted as late as February 28, 2006.
- “CACFP Policy # 05-2005: Additional Waivers Relating to Hurricane Katrina in the . . . (CACFP)” (memorandum issued on September 9, 2005): All provisions in this memorandum scheduled to expire on September 30, 2005, or on November 1, 2005, will remain in effect through November 30, 2005. The delayed implementation of the block claim edit check in areas affected by Hurricane Katrina remains in effect until January 1, 2006.

Finally, we have been asked to specify the difference between “declared disaster areas” and “areas affected by Hurricane Katrina”. Waivers for declared disaster areas are limited to those counties or parishes designated on the Federal Emergency Management Agency website (www.fema.gov/index2.shtm, then click on “2005 Federally Declared Disasters”) as eligible for “individual assistance”, that is, assistance to individuals and households. Waivers for areas affected by Hurricane Katrina include the above disaster areas plus any other areas where the State agency determines that the hurricane’s impact (in terms of displaced persons, food shortages, etc.) will have a significant impact on Program operations.

Regional Directors

Page 2

We will continue to monitor the situation in these areas to determine if additional extensions are appropriate. If there are any questions concerning this memorandum, State agencies should contact their Regional office.
