

Addictions and Mental Health Division (AMH)
Re-evaluation Process and Form for Evidence-Based Practices (EBPs)
June 2007

A practice is included on the AMH approved list of EBPs once an application of the practice has been reviewed by internal staff, external reviewers and has been found to meet the AMH definition and criteria for EBPs. AMH has two designated practice levels: approved and not approved. See DHS/AMH EBP Web site: (<http://egov.oregon.gov/DHS/mentalhealth/ebp/main.shtml>) for definition and criteria.

If you have questions or concerns and believe that the placement of a practice is incorrect, contact Greta Coe or by email: greta.coe@state.or.us for further information. To begin the re-evaluation process, please complete this form and return to Arlenia Elmore-Jeggliie, AMH, 500 Summer Street NE, E86, Salem, OR 97301, via email: Arlenia.elmore-jeggliie@state.or.us.

Name:

Organization/Agency (optional):

Mailing address:

Phone:

Email Address:

Practice title:

Action requested: To add a practice that has been disapproved or to delete a practice that has been approved.

Reason for the re-evaluation (include supporting materials and research):

Once the re-evaluation form is received, the AMH EBP Manager will assign the practice to a second external reviewer. The reviewer will have four months to complete the review and make recommendations to AMH. A letter will be sent to inform the requestor of the results.

Any further appeals will be directed to the AMH Assistant Director.
