## **INTRODUCTION**

Dear Colleague:

For many years the New Hampshire Department of Justice has had the distinction of receiving the Governor's selection as the state-administering agency for several federal grant initiatives. These grant initiatives have been pivotal in the creation of many innovative criminal justice projects around the state, which have enhanced the service delivery of the state's criminal justice system.

Generally, the grant funding that is received and administered by the Department of Justice to the State of New Hampshire from the federal government arrives in one of two forms: 1) formula grants – funding is allocated to each state based on a statistical equation, such as population data or violent crime statistics; or 2) discretionary grants – funding is successfully secured in a competitive application process for a specific program area. There is also very limited funding available from state resources to assist service programs for victims of violent crime.

The funding is sub granted to state and local agencies through specific sub grant application processes at varying times of the year, depending on the purpose, guidelines and conditions of the federal grant program. A relatively small portion of the funding is retained by the Department of Justice for administration expenses.

While this document does not contain information on all possible federal grant resources, I believe that it will be a helpful start in your grant funding research. Please feel free to contact my staff in the Grants Management Unit if you have any questions concerning the material contained in this document.

Kelly A. Ayotte  
Attorney General

## **MISSION STATEMENT**

The Grants Management Unit of the Department of Justice exists to make a difference in the lives of the citizens of New Hampshire by ensuring the proper use of federal funds for criminal justice purposes. The Grants Management Unit does this through:

- the professional administration of grant resources;
- the adherence to all underlying federal and state requirements;
- the coordination of federal criminal justice resources available to the state; and
- efficient service and assistance.

## **EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT PROGRAM**

**FY 2003 Funds: \$3,087,951**

**FY 2004 Funds: \$2,986,870**

**FY 2005 Funds: \$1,849,020**

**FY 2006 Funds: \$1,192,435**

**FY 2007 Funds: \$1,732,614**

Edward Byrne Memorial Justice Assistance Grant Program (Byrne JAG is authorized by Title I of the Omnibus Crime Control and Safe Streets Act of 1968, 42 U.S.C. 3711 et seq., as amended. The Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice is designated to administer this grant to the States. The Governor has designated the Department of Justice to administer this program for the State of New Hampshire.

The Byrne JAG program is the combination of two previous federal grant programs, the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program and the Local Law Enforcement Block Grant Program, which were combined in the federal fiscal year 2005 budget to create the Byrne JAG program. Each State's annual grant entitlement under the Byrne JAG Program is determined by a modified population-based formula to the total amount of the appropriation. To receive grant funds, each State must develop a strategic, multiyear violence prevention and drug control strategy to demonstrate that funds will be used in accordance with the purposes of the law.

There are six broadly described purpose areas that define the nature and scope of programs, which might be funded under the Byrne JAG Program. Historically, New Hampshire's statewide strategy has concentrated primarily on the following areas: 1) Multi-jurisdictional task force programs; 2) Juvenile/Community Crime Prevention Programs; 3) Criminal Justice Records Improvement; 4) Cyber Crime; and 5) Program Evaluations.

The Edward Byrne Memorial Law Enforcement Block Grant Program was the larger of the two. It was named after a young New York City Police Officer murdered while protecting a witness in a drug investigation. New Hampshire uses the majority of its Byrne JAG funding to support the statewide Attorney General's Drug Task Force, the very purpose for which these funds were named. The Attorney General's Drug Task Force is comprised of state, county and local law enforcement officers all working together to improve public safety by reducing the availability of illegal narcotics. In the course of targeting illegal narcotics, a host of other crimes arising from the pursuit, acquisition, distribution and use of illegal narcotics, are also reduced.

The other large-scale project funded most recently is our statewide Cybercrime effort that has made New Hampshire the center of attention for many other federal and state law enforcement agencies. This project involved the creation of a new capability at the NH State Police Crime Laboratory to conduct computer crime related investigations remotely. In concert with the enhanced Crime Lab capabilities is an enhanced training program that trains law enforcement on the use of this new system. Through this system, hardware assets can be located with State Police while trained forensic examiners can be located throughout the state in state, county and local law enforcement agencies. This marks a vast improvement over having both

the resources and the trained forensic examiners located in only a handful of state, county or local agencies statewide.

The principal benefit of the Byrne JAG program is that these funds, like the majority of the funds managed by this office, benefit the entire state and not just one region. The statewide Drug Task Force, currently accounting for the majority of the Byrne JAG funding is a program that targets illegal narcotics activities from the Canadian border to Massachusetts and from Maine to Vermont. While other regions conduct similar activities, the Drug Task Force is the only organization that combines state, county and local officers, all in the same organization, working throughout the entire state. The Drug Task Force is the only multi-jurisdictional task force in New Hampshire targeting illegal narcotics activities that has the capability to work anywhere in the state. It is the only organization of its' type that is available to the smallest of jurisdictions to the largest of jurisdictions in New Hampshire. It is also the only statewide counter narcotics agency that provides both interdiction and investigation services as well as providing counter narcotics training to state, county and local law enforcement officers who are then returned to their local agencies to disseminate that knowledge amongst their co-workers. Through this process, the Drug Task Force provides investigation and training to state, county and local law enforcement agencies. The Drug Task Force is entirely supported through Byrne JAG funding in New Hampshire. Without this resource, counter narcotics efforts across New Hampshire will suffer.

Within the past several years, the Byrne JAG program has seen significant cuts. The Federal Fiscal Year 2008 budget will show a 65% cut to the Byrne JAG program with the Presidents Federal Fiscal Year 2009 budget showing an additional 65% cut. These resultant cuts will virtually eliminate the Byrne JAG program, which is currently the only general-purpose law enforcement funding available to states to do this type of critical work.

The Byrne JAG Program and its' predecessor programs have also funded a variety of other programs, such as: Mentoring Programs, Youth-at-Risk Crime Prevention Programs, Criminal History Records Improvement Projects, School Resource Officer positions, law enforcement related equipment purchases and Juvenile Restorative Justice efforts.

Please refer to Appendix A for a list of subgrant awards for federal fiscal years 2002 – 2006.

**VICTIMS OF CRIME ACT  
CRIME VICTIMS ASSISTANCE FORMULA GRANT**

**FY 2005 Funds: \$2,009,000**

**FY 2006 Funds: \$2,109,000**

**FY 2007 Funds: \$1,992,000**

The Victims of Crime Act of 1984 (VOCA), 42 U.S.C. 10601, et seq., as amended, designated the Office of Victims of Crime (OVC) as the bureau within the Office of Justice Programs, U.S. Department of Justice to administer this formula grant program to the States. The Governor has designated the Department of Justice to administer this program to this State.

The funding mechanism for this program is the federal Crime Victims Fund, which is derived from fines, penalty assessments, and bail forfeitures collected from federal criminal offenders, not taxpayers. The main objective of this grant program is to support programs providing direct services to crime victims and, to a limited degree, to provide training for those persons providing the services. With the exception of 5% of the award, these funds must be spent in support of direct services to crime victims.

This grant program identifies sexual assault, domestic violence, and child abuse programs to be given priority. This priority status requires that each of these areas receive a minimum of ten percent of the total State victims' assistance award. The New Hampshire Department of Justice is further required to award ten percent of the total State grant award to provide services to previously underserved populations of victims of crime. (i.e., survivors of homicide victims, DUI/DWI victims and survivors of those victims, assault, elder abuse, etc.). Up to 1% of the funds may also be used to support victim assistance training activities and up to 5% may be used for grant administration and the training combined.

Generally, in New Hampshire, these grant funds have been awarded to agencies providing direct services to victims of domestic and sexual abuse, child and adult incest, child and adult sexual assault and other programs designed to assist victims of violence and trauma. The Department of Justice has partnered with the New Hampshire Coalition Against Domestic & Sexual Violence as a conduit agency to fund its fourteen victims services agencies, supporting victim services through 25 offices and crisis shelters throughout the State. In addition, the Department of Justice subgrants funding to other victim services programs such as Court Appointed Special Advocates (CASA), law enforcement and prosecution based victim advocates, rural mental health agencies, child advocacy centers and an agency serving victims of DUI/DWI and other crimes (Victim's Inc.). VOCA funds also support the Department of Corrections' Victim Services Program, which provides notification to victims of incarcerated offenders whenever the offender's status changes. Grant funds have also been used to enhance the health, safety and handicap accessibility of crisis shelters and to enhance the security and technology infrastructure of victim services offices. Training efforts have been leveraged through combining efforts with the States of Maine and Vermont for the annual Tri – State Advanced Advocate Training Conference and the annual Maine – New Hampshire Victim Assistance Academy. Please refer to Appendix B for a complete list of subgrant awards for federal fiscal years 2005 – 2007.

**VICTIMS OF CRIME ACT  
CRIME VICTIMS COMPENSATION GRANT PROGRAM**

**FY 2005 Funds: \$159,000**

**FY 2006 Funds: \$210,000**

**FY 2007 Funds: \$80,000**

The Victims of Crime Act of 1984 (VOCA), 42 U.S.C. 10601, et seq., as amended, not only established the Crime Victims Assistance Grant Program, but also designated the Office of Victims of Crime to administer the Victims Compensation formula grant program. This program is also funded through the federal Crime Victims Fund. The Department of Justice is designated by the Governor to administer this program. In addition to grant funds, New Hampshire's victims' compensation program receives a majority of its funding from State motor vehicle and criminal penalty assessments or fines. The federal Victims Compensation funding level is 60% of the State funds expended to recompense victims.

The victims' compensation program in New Hampshire consists of the Victim Compensation Coordinator, one support staff and the New Hampshire Victims' Assistance Commission who work to help innocent victims of violent crime with expenses directly relating to crime injuries as authorized under NH RSA 21-M:8-h. The Coordinator reviews claims and makes recommendations to the Commission. The Commission, consisting of five members including a physician, an insurance professional, a victim, an attorney, and a mental health provider, meets monthly and makes the final decision regarding all payment issues.

The compensation program helps 1) any person who sustains physical and/or mental injuries in a felony (misdemeanors were included as of 07/01/97) which occurred in NH on or after 11/02/89; 2) any person who sustains personal injury as a result of persons driving under the influence of alcohol or controlled substances in NH on or after 11/02/89; 3) immediate family members of a homicide victim who was killed on or after 11/02/89 in NH; 4) any person who is a victim of sexual abuse, which occurred in NH and is under the age of 18 at the time the claim is filed, regardless of when the crime occurred; and 5) NH residents injured by any of the above crimes in a State without a compensation program. Furthermore, the Antiterrorism and Effective Death Penalty Act of 1996 provides that crimes involving terrorism shall also be included as a compensable crime.

Compensation includes medical, dental, and mental health counseling expenses; lost wages; loss of support for the dependents of homicide victims; funeral and burial costs for homicide victims; relocation expenses for victims of domestic violence; and other out-of-pocket expenses such as property damage/clean-up for security purposes, transportation to obtain medical assistance and attorney fees for purposes other than applying for compensation or filing suit.

## **S\*T\*O\*P VIOLENCE AGAINST WOMEN FORMULA GRANT**

**FY 2005 Funds: \$ 972,000**

**FY 2006 Funds: \$ 996,233**

**FY 2007 Funds: \$ 932,446**

The authorization for the S\*T\*O\*P Violence Against Women Formula Grant Program (VAWA) comes from the enactment of Title IV of the Violent Crime Control and Law Enforcement Act of 1994, Pub. L. No. 103-322; the Violence Against Women Act of 2000, enacted as Division B of the Victims of Trafficking and Violence Protection Act of 2000, Pub. L. No. 106-386; and the STOP Violence Against Women Formula Grant Program Regulations, 28 C.R.F. Ch. 1 §90.1-90.24. The Violence Against Women Grants Office, Office of Justice Programs administers the program out of the U.S. Department of Justice. The Governor has designated the Department of Justice to administer this program to the State of New Hampshire.

The objective of this grant is to assist States, Indian tribal governments, and units of local government to develop and strengthen effective law enforcement and prosecution strategies to combat violent crimes against women and to develop and strengthen victim services in cases involving crimes against women. States must certify that a minimum of 30 percent of the total grant award is allocated to victim services; 25 percent to law enforcement; 25 percent to prosecution and 5 percent to the Courts. Programs under VAWA may support both direct services and prevention activities.

Generally, the State of New Hampshire has awarded VAWA grant funds in three (3) areas. First, programs have been funded that have lead to the creation of specialized domestic violence and sexual assault units, combining the roles of law enforcement, prosecution and victim services. In this regard, grant awards have been given to fund prosecutorial positions, victim-witness advocate positions, investigator positions, and probation/parole officer positions. Second, grant funds have been awarded to agencies that provide direct services to victims and emergency legal representation, such as the New Hampshire Coalition Against Domestic and Sexual Violence, Sexual Assault Support Services and the New Hampshire Bar Association. Third, grant funds have been expended on programs that provide training and coordination on a statewide basis such as the Administrative Office of the Courts, where funding is made available to train Judges and Court personnel and to help distribute revised domestic violence protocols for the Courts.

Please refer to Appendix C for a complete list of subgrant awards for federal fiscal years 2005 – 2007.

## CHILDREN'S JUSTICE ACT GRANT

**FY 2005 Funds: \$112,749**

**FY 2006 Funds: \$114,135**

**FY 2007 Funds: \$110,151**

The Victims of Crime Act of 1984, as amended by the Children's Justice Act (CJA) and the Violent Crime Control and Law Enforcement Act of 1994, provides that a certain portion of funds deposited in the Crime Victims Fund in any fiscal year will be made available to the Department of Health and Human Services for CJA grants to the States. The Department of Justice has been designated to serve as fiscal agent for this program.

Grants are to be used to develop, establish and operate programs designed to improve:

1. Handling of child abuse and neglect cases, particularly cases of child sexual abuse and exploitation, in a manner, which limits additional trauma to the child victim;
2. Handling of suspected cases of child abuse or neglect related fatalities; and
3. Investigation and prosecution of cases of child abuse and neglect particularly those cases of child sexual abuse and exploitation.

The CJA grant requires each State to maintain a multidisciplinary Task Force whose purpose is to implement recommendations in the following three categories:

1. Investigative, administrative and judicial handling of cases of child abuse, neglect, sexual abuse, exploitation and abuse related fatalities;
2. Experimental, model and demonstration programs for testing innovative approaches and techniques, which may improve the prompt and successful resolution of civil and criminal court proceedings or enhance the effectiveness of judicial and administrative action in child abuse cases; and
3. Reform of State laws, ordinances, regulations, protocols and procedures to provide comprehensive protection for children from abuse.

The Attorney General's Task Force on Child Abuse and Neglect currently is comprised of 35 professionals from throughout the State representing the following disciplines: law enforcement, defense, prosecution, civil and criminal court, medical and mental health, CASA, education, parent groups, and children with disabilities. Task Force projects include: Annual Conference on Child Abuse, advanced multidisciplinary and discipline specific training, interviewing facility set up, publication of a newsletter and court brochures for children and teens, protocol survey and Child Fatality review Committee coordination.

## **ENFORCING THE UNDERAGE DRINKING LAWS GRANT PROGRAM**

**FY 2004 Funds: \$356,211**

**FY 2005 Funds: \$350,000**

**FY 2006 Funds: \$350,000**

**FY 2007 Funds: \$350,000**

The Enforcing Underage Drinking Laws Grant Program is a formula grant program administered through the Office of Juvenile Justice and Delinquency Prevention, Office of Justice Programs, U.S. Department of Justice.

The Appropriation Act for the Department of Commerce, Justice, State and the Judiciary, and Related Agencies for the fiscal year ending September 30, 2001, and for other purposes (Public Law 106-553, December 31, 2000), appropriated \$25 million to the Office of Juvenile Justice and Delinquency Prevention (OJJDP) to support and enhance State efforts, in cooperation with local jurisdictions, to enforce laws prohibiting the sale of alcoholic beverages to, or the consumption of alcoholic beverages by, minors.

The Department of Justice worked in conjunction with the Attorney General's Combating Underage Drinking Task Force to develop a strategy for the use of these funds. Grant funds from this grant program will be utilized to support the implementation of increased enforcement and education activities by law enforcement in communities around the State.

Programs include compliance checks utilizing an underage buyer, saturation patrols, party patrols, and other innovative programs designed to reduce or eliminate underage drinking. The Portsmouth Police Department has partnered with area hotels to monitor their hotel rooms for underage drinking parties, and to inform the police department when one is suspected to be going on.

The New Hampshire State Liquor Commission Bureau of Enforcement and the Dover Police Department were recognized nationally for their efforts in combating underage drinking. The Liquor Commission's Bureau of Enforcement created a "Buyer Beware" media campaign that was designed to educate adult buyers/suppliers of alcohol as to the consequences of supplying alcohol to minors. The Dover Police Department has its very successful Youth to Youth program, involving two hundred or more youth in wholesome activities and endeavors.

A Request for Proposals was issued statewide in New Hampshire recently. Only law enforcement agencies are eligible to receive grant funds. Applications are due in the spring of 2008 and awards will be announced shortly thereafter.

Please refer to Appendix D for a complete list of subgrant awards for federal fiscal years 2004 – 2006.

## **RESIDENTIAL SUBSTANCE ABUSE TREATMENT FOR STATE PRISONERS**

**FY 2005 Funds: \$177,992**

**FY 2006 Funds: \$53,074**

**FY 2007 Funds: \$51,254**

The Violent Crime Control and Law Enforcement Act of 1994, Pub.L. 103-322, amended Title I of the Omnibus Crime Control and Safe Streets Act (42 U.S.C. 3711, et seq.) by adding 42 U.S.C. Section 3796 ff – Residential Substance Abuse Treatment for State Prisoners. The Residential Substance Abuse Treatment Formula Grant Program assists States and units of local government in developing and implementing residential substance abuse treatment programs within State and local correctional and detention facilities in which prisoners are incarcerated for a period of time sufficient to permit substance abuse treatment. The program is administered by the Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice. The grant award is made to the State office that is designated to administer the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program, which is the Department of Justice.

The Department of Justice utilizes these funds to support the Adolescent Drug and Alcohol Program (ADAP) for boys and girls at the Sununu Youth Services Center in Manchester, the State's only juvenile detention facility, as well as jail-based substance abuse treatment programs at four county departments of. The ADAP program is an intensive juvenile substance abuse treatment program. With a high percentage of juveniles entering the Youth Services Center with substance abuse issues, the program provides a treatment option for those juveniles who are ready to address these substance abuse problems. RSAT funds were instrumental in creating the very first ADAP program at the Sununu Youth Services Center and have been used to support it in various ways ever since.

The jail-based programs foster a partnership between correctional staff and the treatment community to create programs in secure settings that help offenders overcome their substance problems and prepare for reentry into society. The jail-based programs are important, in that that mark a change in the original language of the program. The RSAT program was originally designed to support treatment and services for those offenders who were incarcerated for a period of no less than 6 months. That program was designed to be administered over a six-month period and was intended for those inmates with between 6 and 12 months left on their sentence, so that they could receive services and be released shortly thereafter, so that those services could, more effectively, assist in their reentry.

The jail-based programs are based on a shorter, three-month, period. The intent is to be able to provide these crucial services to a larger target audience by including those offenders in our jail systems, who usually cannot meet the 6 to 12 month requirement of the original program, but could meet the reduced 3 month requirement and still reap great benefit. Reductions in the RSAT funding have reduced our ability to expand this program beyond the Sununu Youth Services Center and the four Counties currently receiving these funds. Those four Counties currently include Strafford, Grafton, Belknap and Hillsborough.

## **STATE JUSTICE STATISTICS PROGRAM FOR STATISTICAL ANALYSIS CENTERS**

**FY 2005 Funds: \$49,999**

**FY 2006 Funds: \$49,999**

**FY 2007 Funds: \$55,496**

The Bureau of Justice Statistics, Office of Justice Programs, U.S. Department of Justice is specifically authorized by statute (42 U.S.C. 3732) to provide assistance in the development of State and local government justice information systems, and directed to give primary emphasis to the problems of State and local justice systems (42 U.S.C. 3731). The Bureau of Justice Statistics works in cooperation with the States through a network of Statistical Analysis Centers (SAC). These SACs were established with support from Bureau of Justice Statistics and its predecessor agency, the National Criminal Justice Information and Statistics Service.

The more specific purpose of this grant program is to provide financial and technical assistance to State governments to encourage the development of State capabilities for the collection, analysis, and dissemination of criminal justice statistical information. The New Hampshire Department of Justice has designated these funds for a SAC program, wherein these funds have been used to support work on grant related statistical analysis data.

Since FY 2000 the NH SAC, through the Department of Justice, has contracted with Justiceworks at the University of New Hampshire to help implement a number of important research and evaluation projects. Justiceworks began as a research and evaluation partner to criminal justice professionals in Vermont, Maine and New Hampshire. It is located in the Institute for Policy and Social Science Research at the University of New Hampshire. It represents a broad group of researchers, state planners, policy makers, and professionals in the criminal justice system. Examples of SAC projects include the New Hampshire Crime Victimization Survey, the development of a Data Map and Flow Chart of the New Hampshire Criminal Justice System, the development of user-friendly New Hampshire based data applications to demonstrate the utility of data collected in the National Incident Based Reporting System format, the development and dissemination of a survey instrument on New Hampshire cyber crime issues, support for the Governors Crime Commission, support for the statewide J-ONE system and a number of other important projects.

Justiceworks has also conducted research evaluations on our statewide Attorney General's Drug Task Force and has presented a strategy regarding the future operation of that organization. Justiceworks is currently using SAC funds to continue the development work on the J-ONE system in collaboration with the NH Department of Safety, the NH Department of Corrections, the NH Administrative Office of the Courts and the NH Department of Justice.

**PAUL COVERDELL  
NATIONAL FORENSIC SCIENCE IMPROVEMENT ACT GRANT**

**FY 2005 Funds: \$140,051**

**FY 2006 Funds: \$91,015**

**FY 2007 Funds: \$143,177**

The Paul Coverdell National Forensic Sciences Improvement Act was created by Public Law 106-561 on December 21, 2000. It was designed to improve the quality, timeliness, and credibility of forensic science services for criminal justice purposes, and for other purposes. It received initial funding when President Bush signed the Omnibus Consolidated Appropriations Act of 2002 on November 28, 2001, covering the Department of Justice's programs for Fiscal Year (FY) 2002.

The Coverdell program allows for the funding of:

- Laboratory and Computer Equipment
- Supplies
- Personnel
- Facilities
- Accreditation and Certification
- Education and Training

Funding is available to established forensic science laboratories or laboratory systems that employ one or more full-time scientists or the Office of the Chief Medical Examiner. In order to qualify, either of those agencies must employ generally accepted practices and procedures and be either accredited by the American Society of Crime Laboratory Directors-Laboratory Accreditation Board, the National Association of Medical Examiners, or some other appropriate board, or they must submit paperwork to become accredited within two years of being funded under this program.

In preparing for the initial round of grant funding, a comprehensive meeting of forensic services providers, law enforcement personnel, victim's advocates, prosecutors, and others was convened to determine the best use of these funds. It was determined that the New Hampshire State Police Forensic Crime Laboratory and the Office of the Chief Medical Examiner would each receive funding. The State Police Forensic Crime Laboratory was awarded funding to provide for the cost of the Accreditation process application. The Office of the Chief Medical Examiner was awarded funding for a part time staff position to work on both the accreditation process and to eliminate case backlogs.

Subsequent funding has been dedicated to both the Office of the Chief Medical Examiner or the New Hampshire State Police Forensic Crime Laboratory to continue those efforts. Funds dedicated for both agencies have been used to achieve full accreditation and to support and enhance the delivery of forensic science services in New Hampshire, which has a direct benefit to the greater law enforcement community and to the citizens of the State of New Hampshire.

## **PROJECT SAFE NEIGHBORHOODS**

### **Project Safe Neighborhoods Gun Crime Program**

**FY 2003 to 2005 Funds: \$ 571,311**

**FY 2006 Funds: \$ 63,389**

**FY 2007 Funds: \$ 94,452**

### **Project Safe Neighborhoods Anti Gang Program**

**FY 2006 Funds: \$ 121,955**

**FY 2007 Funds: \$ 135,697**

Project Safe Neighborhoods Formula Grant Program (“PSN”) is authorized by the FY 2003 Consolidated Appropriations Act (Public Law 108-7). PSN began as a comprehensive approach to combating illegal attempts, by convicted felons, to purchase or attempt to purchase guns by linking together local, state, and federal law enforcement officials, prosecutors, and community leaders to implement a multi-faceted strategy to deter and punish gun violence from all sides. The effectiveness of this program is based on the ability of federal, state, and local agencies to cooperate in a unified offensive.

In the federal fiscal year 2006 budget process the PSN program was split into two separate programs, the PSN Gun Crime Program and the PSN Anti-Gang Program. Each program was then funded separately. The PSN Gun Crime Program continued with its original goal of reducing gun related violence; however, in recognition of the growing threat being faced by gangs across America, the PSN Anti-Gang Program was created to address those gang related needs directly. These two programs fall under the common umbrella of the PSN program as it is recognized that gangs and guns are often related. The PSN Gun Crime Program is designed to target only the illegal use of firearms and does not impact legitimate uses. The PSN Anti-Gang Program is designed to provide education and enforcement aimed at the growing gang problem in New Hampshire.

Several gun-related tragedies have plagued New Hampshire. These incidents demonstrate that the illegal use of firearms is still a major threat to the safety of the citizens of New Hampshire. Other recent events in Manchester and other areas have also shown us that gangs are becoming an increasing problem in New Hampshire. From Outlaw Motorcycle Gangs to homegrown juvenile street gangs, New Hampshire is now home to a variety of these types of gangs. This funding is helping us to address some of the issues created by these changing conditions.

The Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice is designated to administer this grant to the states through the United States Attorney’s Offices in each District. The United States Attorney for the District of New Hampshire has requested that the New Hampshire Department of Justice act as the fiscal agent for this grant program.

New Hampshire has used these funds to create a prosecutorial team consisting of a prosecutor and investigator duo. The prosecutor carries the authority of a federal, state and county prosecutor, thus is able to prosecute crimes in both federal and state courts. The

investigator is authorized to investigate crimes and make arrests for violations of both federal and state law. Both programs have supported youth-related efforts to keep kids away from gangs and guns through community programs and media campaigns and other direct enforcement programs.

Please refer to Appendix H for a complete list of subgrant awards.

## **HELP AMERICA VOTE ACT OF 2002**

**FY 2005 Funds: \$127,443**

**FY 2006 Funds: \$138,000**

**FY 2007 Funds: \$137,000**

Public Law 107-252, 107th Congress, established The Help America Vote Act of 2002. A program to provide funds to States to replace punch card voting systems, to establish the Election Assistance Commission to assist in the administration of Federal elections and to otherwise provide assistance with the administration of certain Federal election laws and programs, to establish minimum election administration standards for States and units of local government with responsibility for the administration of Federal elections, and for other purposes.

The New Hampshire Department of State received authorization from RSA 5:6-d to collect and distribute funds to help New Hampshire meet the requirements of the Help America Vote Act. In meeting their obligations under the act, the Department of State has requested the Department of Justice assistance in such areas as: the implementation of a statewide database of voters; assistance to voters with disabilities; training and monitoring local election officials; and, the establishment of an administrative complaint procedure.

## **YOUNG OFFENDER INITIATIVE REENTRY GRANT PROGRAM**

**FY: 2002 Funds: \$1,476,333**

The Young Offender Initiative: Reentry Grant Program was a grant award originally applied for and awarded to the New Hampshire Department of Corrections as a Federal Fiscal Year 2002 award. As the program neared its final end date of December 31, 2006, the New Hampshire Departments of Justice, Corrections, and Health and Human Services determined to work together, with the NH Workforce Opportunity Board, to seek an end date extension on these funds that would allow for the continued operation of this program and the expenditure of the approximately \$1.5 million in remaining program funds.

The Reentry Grant Program is designed to provide services and support for offenders transitioning from the state prison system back to their communities. Eligible participants for this program are those offenders who have served a minimum of 12 months incarceration and are under the age of 35. By developing a coordinated system of services for this population, it is hoped that their recidivism rate, or their chances of re-offending, will be greatly reduced, thus increasing the overall safety and security of the community to which they return.

In this instance, this program was designed to be implemented in the city of Manchester and to target those offenders who had a legitimate reason to return to that community. In implementing this program, the intent is to not increase the offender population going to Manchester, but to increase the services for those offenders already scheduled to return to that community. Through the combined efforts of the Manchester Police Department and the Hillsborough County Attorney's Office at the local level, and the NH Departments of Justice, Corrections and Health and Human Services with the NH Workforce Opportunity Board, we are already seeing the program succeed for the city of Manchester.

The program is housed at the Manchester Department of Employment Security and employs a director, an assistant director, three case managers, a licensed alcohol and drug abuse counselor ("LADAC"), a mental health professional, and an executive assistant. New Hampshire's four prisons have identified more than 200 eligible offenders and the program continues to receive applications. The budget includes money to assist the offenders with housing, education, prescriptions, medical treatment, day care, employment, and any other services that the offender may require. Ideally, contact with the offender starts six months prior to release, but as the grant will expire on March 31, 2009, plans are being made to assist any offender who resides in Manchester and meets the requirements, pre- or post-incarceration.

## **NATIONAL CRIMINAL HISTORY IMPROVEMENT PROGRAM**

**FY 2003 Funds: \$1,865,531**

**FY 2005 Funds: \$384,000**

**FY 2006 Funds: \$84,691**

The National Criminal History Improvement Program (NCHIP) implements the grant provisions of the Brady Handgun Violence Prevention Act and the National Child Protection Act of 1993, and those provisions of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, and Violent Crime Control and Law Enforcement Act of 1994 which pertain to the establishment, maintenance, or use of criminal history records and criminal record systems. The program is administered to States by the Bureau of Justice Statistics, Office of Justice Programs, U.S. Department of Justice. The Department of Justice was directed by the Governor to submit an application and administer the program to the State. The NCHIP grant program goal is to improve the nation's public safety by: a) facilitating the accurate and timely identification of persons who are ineligible to purchase a firearm; b) ensuring that persons with responsibility for child care, elder care, or care of the disabled do not have disqualifying criminal records; and c) enhancing the quality, completeness and accessibility of the nation's criminal history record systems.

New Hampshire's NCHIP grant program has focused primarily on improving the State's Criminal History Record Information System (CHRI), facilitating participation in the National Crime Information Center's Interstate Identification Index System, and establishing the Interstate Automated Fingerprint Identification System. More specifically, the initial grant funds have been used for the creation of the Tri-State (Maine, New Hampshire and Vermont) Automated Fingerprint Identification System (AFIS) and for the hardware, software and system management necessary to effect the required communication between the police departments, courts and central repository. Supplemental grant funds were used to acquire Printrak LSS 2000 Livescan Units, utilized in capturing and storing fingerprint images and data in conjunction with the Tri-State AFIS system, for computer network hardware and software assets, and for additional staffing at both State Police and the Courts. Additionally, grant funds provided under the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program have been expended on this project to assist in upgrading State Police communications equipment, preparing for the new technology and integrating the judiciary, corrections, and prosecutors into the CHRI system.

These funds have been used to enhance the computer capabilities of the New Hampshire State Police, Administrative Office of the Courts, and the Department of Corrections. The Administrative Office of the Courts is currently receiving these funds to support the continued entry of Domestic Violence Protective Orders into State and National databases. These funds support two staff positions at the Administrative Office of the Courts responsible for entering restraining orders into the those State and National databases. Immediate access to Protective Order Files is an invaluable aid to law enforcement, charged with protecting the safety of victims of abuse, as law enforcement no longer needs to rely on a victim having a copy of a Protective Order with them to prove one exists.

## **BULLETPROOF VEST PARTNERSHIP PROGRAM**

**FY 2006 State Funding: \$ 5,774.26**

The Bulletproof Vest Partnership (BVP) program is a discretionary program administered by the Bureau of Justice Assistance, Office of Justice Programs, U. S. Department of Justice. It was authorized under the Bulletproof Vest Partnership Grant Act of 1998, which was signed into law on June 16, 1998 as Public Law 105-181. The purpose of the Act is to save the lives of law enforcement officers by helping States and units of local government and tribal governments equip their law enforcement officers with ballistic vests. The program is designed to provide up to 50% funding towards the purchase of ballistic vests for law enforcement personnel. The Department of Justice is the State Administrative Agency for this program, and as such, administers the program for state agencies. Local jurisdictions are able to apply for funding through the Bureau of Justice Assistance directly.

Most recently under this program, priorities have shifted to giving preference to jurisdictions with populations under 100,000. Due to diminishing state awards, it is uncertain if this program will continue to be offered to States' in the future. State agencies that have benefited from this program include the NH State Police, NH Fish and Game, NH Dept. of Resources and Economic Development, and the NH Dept. of Corrections. Additional agencies benefiting from this program have included the Plymouth State College Police Department and the University of New Hampshire Police Department.

Due to the increased demand for these funds and the shift in priority to jurisdictions under 100,000, New Hampshire's state awards have been relatively small.

**RURAL DOMESTIC VIOLENCE AND CHILD VICTIMIZATION  
ENFORCEMENT GRANT PROGRAM**

**FY 2004 Funds: \$398,290**

**FY 2006 Funds: \$371,922 (supplement)**

The Rural Domestic Violence and Child Victimization Enforcement Grant Program (42 U.S.C. §13971) implements certain provisions of the Violence Against Women Act, which was enacted in September 1994 as Title IV of the Violent Crime Control and Law Enforcement Act of 1994. This grant program is administered to States through the Violence Against Women Grants Office, Office of Justice Programs, U.S. Department of Justice. The New Hampshire Department of Justice serves as applicant and fiscal agent for these grant funds, however the actual administration of this grant program will be a collaborative effort between the Department of Justice, the New Hampshire Coalition Against Domestic and Sexual Violence, Division for Children, Youth and Families and the Commission on the Status of Women. This is the fourth time this discretionary grant, awarded on a competitive basis by the Violence Against Women Grant Office, has been received by this state.

With the grant funds and through collaboration between the New Hampshire agencies listed above, five domestic violence program specialists have been hired and placed in the State's four most rural counties – Carroll, Coos, Grafton and Sullivan. Each of the DV program specialists spend half of their time in the local crisis center and the other half in the local district office of DCYF. They collaborate with child protective service workers and assist in assessing and coordinating services where domestic violence is occurring in DCYF's child abuse/neglect cases. In addition, the project has launched a public awareness and education/training campaign in the local communities with one of the goals being to reach those victims who are isolated and unaware of the services, which may be available to them.

In our FY 2004 and 2006 grants we will continue with many of the project begun in the previous years grant. We will be cutting back to three Domestic Violence Program Specialists who will work primarily in Grafton County in partnership with the Greenbook projects. Our most significant increase is the addition of a mental health component. A variety of obstacles prevent women in the most rural areas of the state from seeking mental health services. These obstacles can include the lack of mental health service providers, long waiting lists and affordability. This project will allow six domestic violence crisis centers serving Grafton, Carroll, Coos and Sullivan Counties to support appropriate mental health services for battered women and their children through local therapists.

**SAFE HAVENS: SUPERVISED VISITATION  
AND SAFE EXCHANGE GRANT PROGRAM**

**FY 2002 Funds: \$745,031**

**FY 2004 Funds: \$749,451**

**FY 2006 Funds: \$649,881**

The Safe Havens Grant Program implements certain provisions of the Violence Against Women Act, which was enacted in 1994 by Title IV of the Violent Crime Control and Law Enforcement Act of 1994, Pub. L. No. 103-322; the Violence Against Women Act of 2000, enacted as Division B of the Victims of Trafficking and Violence Protection Act of 2000, Pub. L. No. 106-386. This grant program is administered to States through the Violence Against Women Grant Office, Office of Justice Programs, U.S. Department of Justice. The Department of Justice serves as applicant and fiscal agent for these grant funds. This is a discretionary grant awarded on a competitive basis by the Violence Against Women Grant Office.

This grant program is designed to create safe places for visitation with and exchange of children in cases of domestic violence, child abuse, sexual assault or stalking. Most of these services are provided under court order.

New Hampshire has been the recipient of the Safe Havens: Supervised Visitation and Safe Exchange Grant Program for several years. Currently we fund six centers in New Hampshire and a seventh center on the state boarder in Vermont. With this new award we plan to continue supporting these seven Centers. Emerge Family Advocates and Brian's House has plans to expand their services into the surrounding area by establishing satellite offices. All visitation centers operate under the guidelines of the Family Visitation and Access Cooperative. The Safe Havens funding has gone a long way towards upgrading visitation centers by providing armed security (when required), security equipment, hiring of additional staff, training opportunities for all visitation staff and the development of outreach methods to serve underserved segments of population. This funding has also allowed expansion of education to community leaders, law enforcement, judges and attorneys on the necessity of having a safe and supervised location when a court order provides a non-custodial parent access to their children.

Through this funding, New Hampshire has been able to provide a large portion of the state with services that benefit a particularly vulnerable victim population.

## HAROLD ROGERS PRESCRIPTION DRUG MONITORING PROGRAM

**FY 2005 Funds: \$50,000**

Beginning in FY 2002, Congress appropriated funding to the U.S. Department of Justice to support the Prescription Drug Monitoring Program. Prescription monitoring programs help prevent and detect the diversion and abuse of pharmaceutical controlled substances, particularly at the retail level where no other automated information collection system exists. States that have implemented prescription monitoring programs have the capability to collect and analyze prescription data much more efficiently than states without such programs, where the collection of prescription information requires the manual review of pharmacy files, a time-consuming and invasive process.

The increased efficiency of prescription monitoring programs allows the early detection of abuse trends and possible sources of diversion. One indication of the effectiveness of prescription monitoring programs is the prevalence of abuse in states with monitoring programs compared with the prevalence in states without monitoring programs. Studies have found that the five states with the lowest number of OxyContin<sup>®</sup> prescriptions per capita have long-standing prescription monitoring programs and report no significant diversion problems associated with the drug. Conversely, the five states with the highest number of OxyContin<sup>®</sup> prescriptions per capita do not have prescription monitoring programs and have reported severe abuse problems.

The purpose of the Prescription Drug Monitoring Program is to enhance the capacity of regulatory and law enforcement agencies to collect and analyze controlled substance prescription data. The program focuses on providing help for states that want to establish a prescription drug monitoring program. However, resources also will be available to states with existing programs. Program objectives include:

- Building a data collection and analysis system at the state level.
- Enhancing existing programs' ability to analyze and use collected data.
- Facilitating the exchange of collected prescription data among states.
- Assessing the efficiency and effectiveness of the programs funded under this initiative.

New Hampshire has applied for and received a planning grant used to assist with the development of a Prescription Drug Monitoring Program in this state. At this time, legislative efforts are underway to pass a bill that would authorize such a program. In addition to the existing legislative efforts, New Hampshire has submitted a follow-on application in the requested amount of \$400,000.00 to help create a Prescription Drug Monitoring Program in New Hampshire. This funding would be contingent on our having suitable legislation in place authorizing such a program.

At the current time, the legislation to create a Prescription Drug Monitoring Program has not yet been made law, thus New Hampshire is not able to request additional PDMP funding.

## **TRAFFIC SAFETY RESOURCE PROSECUTOR PROGRAM**

**FY 2007 Funds: \$71,233**

New Hampshire is, in large part, a rural state. Traffic safety violations are traditionally investigated and prosecuted by local law enforcement agencies. The prosecutors, who are often relatively inexperienced attorneys or police officers with minimal legal training, typically are not affiliated with larger prosecutors' offices. Instead, they are housed in police departments with few legal resources. The prosecutors are often pitted against highly experienced defense attorneys who specialize in DWI defense, and who are fully conversant in the law and evidentiary rules. Because of their isolation, the prosecutors do not have the benefit of obtaining regular legal guidance on how to deal with issues raised by these opponents, nor do they have the resources to keep abreast of new developments in the law and legal trends. As a result, cases are often lost simply because a prosecutor was "out-lawyered."

Starting in the early 1990's there was one attorney in the Attorney General's Office responsible for providing training and technical assistance to law enforcement officers and prosecutors on DWI cases. The prosecutor conducted regional trainings throughout the state on legal and investigatory issues relating to impaired driving cases, and was available on-call to prosecutors and police officers to answer technical questions relating to DWI and negligent homicide cases. However, the Office was last able to fund an attorney dedicated to this work in 1995.

While the Attorney General's Office strives to provide support and training for these prosecutors, the time it can devote current staff to such efforts has diminished significantly in the past several years. There was a critical need to do more, thus the TSRP position. The TSRP would focus efforts in three areas: providing formal training to law enforcement officers to enhance their ability to conduct comprehensive investigations of an impaired driving or other traffic cases; providing formal training to prosecutors on evolving traffic safety laws, prosecutorial techniques, and new trends; providing case-specific technical assistance to prosecutors and law enforcement agencies.

In addition to these broad areas of responsibility, the TSRP will serve as a member of an Impaired Driving Task Force or other similar task force or commission, if created; develop and maintain a working relationship with the National Highway and Traffic Safety Administration; National Association of Prosecutor Coordinators, and the National Traffic Law Center.

## PEW CHARITABLE TRUSTS ELECTION LAW PROJECT

### **FY 2007 Funds: \$189,000**

This grant was awarded to DOJ to address the critical deficiencies in reaching election officials by initiating a statewide project to train election official and voters using an interactive on-line learning system to be piloted during the lead up to New Hampshire's 2008 General Election.

Currently, training programs are predominantly localized with input from the state level. The Secretary of State distributes an Election Procedure manual to each town and city. The moderators and town and city clerks are then responsible for delivering this information to staff members, poll workers, and the public. Often, knowledge is distributed informally, in meetings and at conferences, rather than in formal training sessions. Turnover of election officials is also a significant issue. The Secretary of State provides extensive one-on-one telephone consultation with local election official, and the Attorney General's Office maintains a toll free line for voters, receiving complaints and providing education on the election laws and proper Election Day procedures. The Secretary of State also maintains a web site providing access to information on registering, voting, polling places and elections laws. During each election cycle, the Secretary of State and the Attorney General conduct live training, typically a four-hour class. In the 2004 and 2006 election cycles, this program was repeated 22 times at different locations and times of day and week across the State. Approximately 1/3 of election officials participated in these trainings.

The implementation of this on-line learning program will allow access to interactive training on election laws and procedures.

## NEW HAMPSHIRE STATE VICTIM ASSISTANCE GRANTS

**FY 2006 State Funds: \$727,000**

**FY 2007 State Funds: \$555,094**

**FY 2008 State Funds: \$537,000**

This is a State grant program authorized by the State Legislature in 1988 (RSA 21- M:8-e) to allow the Attorney General to make grants from the victims' assistance fund, for the establishment and maintenance of victim assistance programs. The victims' assistance fund is supported by penalty assessments and fines paid to the State. The goal of the State Victim Assistance Program is to reduce the emotional, financial and physical impact of criminal victimization, to prevent further victimization by the criminal justice system, and to assist victims and witnesses with problems that result from their victimization.

The grant fund dollars are used to support: Victim Witness Advocate positions in six rural County Attorneys' Offices; the Americorps Victim Assistance Program (AVAP, which provides Victim Advocates to many programs across the state); the Sexual Assault Nurse Examiner program (SANE); nonprofit crisis center sexual assault victim services; and Child Advocacy Centers across the state (CAC's). This program was also utilized to fund a three-year Sexual Assault Awareness Campaign, which paid to develop and run television ads targeted to raise public awareness about sexual assault issues while reaching out to victims.

The Victim Witness Advocate positions are designed to provide a resource for victims as they navigate their way through the criminal justice system. They become the 'voice' for those victims who, often times, are not able to find their own voice due to what has transpired. Among the locations served by these Advocates are County Attorney's Offices in Coos, Grafton, Carroll, Belknap, Sullivan and Cheshire; areas where services such as this are often difficult to find.

The SANE program provides for specially trained nurses for victims of sexual assault. These specially trained nurses provide an enhanced level of protection for these especially vulnerable victims in their time of need. The Child Advocacy Centers provide a resource for law enforcement when working with child victims. Previously, child victims would be interviewed a number of times by various criminal justice professionals in the course of a prosecution. This has the effect of re-traumatizing the child victim. Through the CAC process, interactions with the child victim are more limited as each member of the criminal justice investigation and prosecution system work together to conduct a limited number of interviews in a format much more 'child friendly'.

Some of the more recent grants awarded with these funds may be found in Appendix E.
