APPLICATION FOR SEWER CONNECTION PERMIT

On behalf of _____ ,
(Project Name or Description)

The Town/City of _____ hereby requests authorization to

A. Connect additional domestic wastewater to its existing wastewater collection, treatment and disposal system, in the amount of :

_____ gallons / day;

and/or

B. Extend its existing wastewater collection system by installing the following :

_____ LF of _____-inch sewer at _____ Street

_____ " _____ " " _____

This proposed sewer connection and/or sewerage design plans meet with the approval of the local jurisdictional authorities. The municipal sewage collection system has no history of surcharge and there is no record of objections from persons presently connected to this system.

Name: _____ Title: _____
(Municipal Official; Please Print or Type)

Signature: _____ Date: _____

See reverse side for additional instructions. Contact the NHDES/Wastewater Engineering Bureau at the address on the masthead if you need clarification regarding this form or connection permit requirements.

INSTRUCTIONS - APPLICATION FOR SEWER CONNECTION PERMIT

GENERAL: Use this Sewer Connection Permit application form to request:

(A) DES authorization to connect additional domestic wastewater flow to the municipal collection system. See details below.

and/or

(B) DES review/approval of designs for *any* proposed sewerage (sanitary sewers; pump stations; force mains; etc.). See See details below.

A. WASTEWATER CONNECTIONS: An APPLICATION FOR SEWER CONNECTION PERMIT must be submitted to DES for any proposed domestic wastewater connection in excess of 5,000 gallons/day ADF. Provide pertinent information on the lines provided on the form. The form must be signed by an authorized municipal official to signify local approval, and forwarded to DES together with a \$50 review fee payable to *Treasurer, State of New Hampshire*. (Applications need not be submitted for domestic connections smaller than 5,000 gallons/day *provided that* no new sewerage construction is proposed.)

B. DESIGN SUBMITTALS: Under RSA's 485 and 485-A, engineering designs for new sewerage facilities -- whether publicly or privately owned, and regardless of design flow -- must be submitted to NHDES for review/approval action at least 30 days prior to construction. Design submittals must include 2 sets of design plans/specs, pertinent design calculations, and an APPLICATION FOR SEWER CONNECTION PERMIT, as signed by an authorized municipal official.

The design submittal must also be accompanied by a review fee payment as based on the project's average daily design flowrate -- \$0.10 per gal/day ("a dime a gallon") for design flows up to 10,000 gal/day, plus \$0.05 per gal/day for any flows in excess thereof. Make checks payable to *Treasurer, State of New Hampshire*.

NOTE: A separate INDUSTRIAL WASTEWATER DISCHARGE PERMIT REQUEST is required for industrial waste contributions, regardless of quantity or quality. Contact the Wastewater Engineering Bureau at the address on the masthead for further information.
