

**TOTAL QUANTITIES AND COSTS
OF MAJOR WEAPON SYSTEMS PROCURED
1974 - 1993**

March 24, 1992

March 24, 1992

The following tables provide information on the numbers and costs of most weapons bought from 1974 through 1993. The primary source for this information is the Department of Defense procurement document commonly referred to as the "P-1". Costs include prior year advance procurement budget authority but excludes current year advance procurement, initial spares, and/or outfitting and post delivery costs--that is, the "top-line" P-1 data are used. Costs are presented in current and constant 1993 dollars--pages numbered with the prefix "A-" are in current dollars and those with the prefix "B-" are in constant 1993 dollars.

The tables are organized as follows:
