

April 17, 1989

Attached is the current version of "Selected Weapons Costs from President Reagan's 1990-1991 Program." The primary sources for the budget authority were the Congressional Data Sheets (CDS) and the Selected Acquisition Reports (SAR) submitted to Congress in March 1989. CBO outlay rates were used to estimate the outlays. Details from President Bush's budget priority options were not available. For those systems where an "*" was used, the data were either classified or to-be-determined, according to DoD.

Any questions, please call Raymond Hall or Ben Wolters at (202) 226-2840.
