## Road Safety Audits for Local Governments Workshop

September 21-23, 2009

Royal Plaza Hotel  
Orlando

Hosted by  
Florida T<sup>2</sup> Center  
and the  
Florida Department of Transportation

## ***Road Safety Audit Forum*** **September 21-22, 2009**

RSAs are a comprehensive and effective tool for proactively improving the safety performance of a road while it is still in the planning or design stage. RSAs can also be used to identify and mitigate safety concerns on existing roads and intersections. The RSA Forum will focus on common emphasis areas shared between States including current progress, success stories, and ways to advance the implementation of RSAs. The Forum will also serve as a peer exchange to facilitate discussion about RSAs.

Speakers from across the country will be joining the Forum to share details about their RSA programs and experiences.

## ***Road Safety Audits for Local Governments Workshop*** **September 22-23, 2009**

This optional training is designed to introduce participants to RSAs as an effective tool to reduce injuries and fatalities on your road network. The workshop will help local road agency professionals understand basic road safety audit concepts, risk and safety, and common issues.
