STAG Water and Wastewater Infrastructure Project

Project Information

Grantee State

OH

Grantee Name

Village of Tiro

Project Name

Village of Tiro Water Distribution System

Project Location

Purpose of Project

Detailed Project Description

The project consists of purchasing treated water from the City of Shelby and transporting it to Tiro via a 32,500 ft. of water main. 10,700 ft. of water main will be constructed in the Village for distribution of water. A booster pumping station, storage tower, and fire hydrants will be included. The Village of Tiro currently has no municipal water system. Water is collected or hauled into shallow wells or cisterns. The Village has tried for several years to secure a source of water and funding. The current project is the closest they have come for a safe water supply.

Total estimated cost of the project based on facilities plan or preliminary engineering report

\$2,617,790

Amount requested (cannot be greater than 55% of the total project amount)

\$500,000

Amount received from past appropriations

None

Does the community have a financing plan certified by an authorized local official

demonstrating how it will cover the 45% matching funds?

Yes

Intended Recipient of Funds

Village of Tiro
P.O. Box 31
Tiro, OH 44887

Is the recipient a for-profit entity?

No

Explanation of the request (must include purpose and why it is a valuable use of taxpayer funds)

The project is located in Richland and Crawford Counties. The main beneficiary is the Village of Tiro which is in the 5th District. The residents of Tiro are using groundwater wells that are barely adequate to meet daily needs. In addition the groundwater quality is poor (sometimes containing extreme amounts of sulphur). In addition, many of these private wells are in close proximity to home septic systems. The Crawford County Health Department has documented fecal coliform bacteria six separate wells. This project will have tremendous impact in (and near) the Village of Tiro. A reliable source of potable drinking water is not currently available.
