Project Information

Project Name

Willard & Kelsey Solar Park I

Project Description

The overall project, projected for completion in 2014 is a Solar Park that will have 750,000 square feet of production facilities in addition to an existing 250,000 square foot facility. There will be 16 production lines employing 3,600 people producing 1.2 Gigawatts of Solar panels annually. Specifically, requested funds will be used to begin the construction of the new 750,000 square foot facility and production lines. The facility produces Cadmium Telluride ("CdTe"), solar photovoltaic ("PV") panels. This construction phase will provide further employment and business development for the Northwest Ohio area.

How does this project relate to the agency's mission?

The project uses a proven alternative energy technology and will allow the US to become more self sustaining in the area of solar energy
