Requestor Information

Member: Latta,Robert,oh05
Staff Contact: Allison Witt
Phone #: 6-4329
Email Address: allison.witt@mail.house.gov

 Member's Signature
 Member of Congress

Project Information

Name of Project: Friction Stir Welding for Armored Vehicles

Project Description: A reconfigurable manufacturing cell has been installed and has completed performance demonstration phases using automatic processes. GDLS has enhanced the capability of this cell by procuring Friction Stir Welding (FSW). This request will provide for the necessary resources required to develop machine stir weld parameters/specifications for support of armored vehicle production requirements. Investment and application development of the FSW process will provide performance improvements for future armored vehicles such as Future Combat Systems family of vehicles, the Expeditionary Fighting Vehicle for the US Marine Corps and others.

Check this box if this request includes an attachment with additional project description information

Name of Intended Recipient: Joint Systems Manufacturing Center
City: Lima
State: OH

ID: FY10-090312007350000 (continued)

 Initial:

Funding Information

FY10 Funding in PB (in thousands of dollars): \$0.0

Your Requested Net Change to the FY10 PB (+/-/0): +\$3,000,000.0
