Dear Chairman Obey and Ranking Member Lewis:

I am requesting \$1,300,000 for the Vista-Carlsbad Joint Wastewater Project. The entity to receive funding for this project is the City of Carlsbad located at:

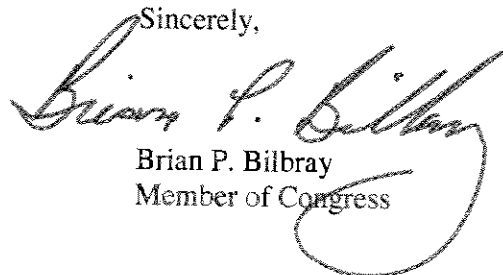

1200 Carlsbad Village Drive
Carlsbad, CA 92008

The Vista/Carlsbad Interceptor Sewer is the largest sewer for both the City of Carlsbad and the City of Vista and is projected to convey 33 million gallons of wastewater per day to the to the Encina Water Pollution Control Facility for treatment. Additionally, a significant portion of the pipeline is located adjacent to environmentally sensitive areas such as the Buena Vista Lagoon and the Agua Hedionda Lagoon. The cities experienced a sewer line rupture in spring 2007 that resulted in the release of approximately 7.3 million gallons of effluent into the Agua Hedionda Lagoon. Expansion of these facilities will help protect the local environment and wildlife from future sewer spills. The Agua Hedionda Lagoon is an important tidal wetland that the cities of Carlsbad and Vista would like to protect.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting Member of Congress (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for "Silvio O Conte National Fish and Wildlife Refuge" as part of the Fiscal Year 2010 appropriations process. The proposed recipient of funding for this project is:

The Nature Conservancy
55 High Street
Middletown, CT 06457

Requested funding will be used to acquire a key parcel on Pine Brook, an important tributary of the Salmon River in Haddam, to serve as part of the Silvio Conte National Fish and Wildlife Refuge. The Pine Brook parcel proposed for acquisition contains a half mile of frontage on Pine Brook, one of whose most unique features is the absence of upstream-downstream barriers. This project would protect a unique natural resource from development, as well as furthering state and federal goals of aquatic and wildlife conservation. The Salmon River is recognized by USFWS as a high-priority Special Focus Area. The Salmon River Division of the refuge is comprised of a range of important natural features, including free-flowing rivers, thriving freshwater tidal marshes, forested watersheds, floodplain forests, and rare plants and animals.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your consideration of this request.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for a **Clean Water Supply Drinking Well** in fiscal year 2010.

The entity to receive funding for this project is:

City of La Vernia
P.O. Box 225
La Vernia, TX 78121

The funding would be used for a **project to provide the City of La Vernia with a new water well to supply water to its customers. The well construction site is on property the city currently owns. The water well will be drilled to a depth of approximately 1000 feet. To prevent corrosion that had deteriorated the previous well, a coating will be applied to the casing. The well will be gravel packed and completed with a stainless steel screen to prevent sanding. New electrical controls and instrumentation will power the well and the remaining water system. The water will require pretreatment to reduce iron and manganese, as well as a new chlorination system. A twelve inch well casing will be installed to allow for increased pump up to 750 gallons per minute in order to meet future growth needs.**

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY2010 Interior Appropriations Bill, Environment Protection Agency Account, STAG for Glen Cove Clean Water. The entity to receive funding for this project is the City of Glen Cove, located at 9 Glen Street, Glen Cove, NY 11542. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Interior Appropriations bill for the City of Galt Wastewater Treatment Plant (WWTP) Upgrade. The entity to receive funding for this project is City of Galt at 495 Industrial Drive Galt, CA 95632. It is my understanding that the funding would be used to upgrade treatment levels (no expansion of capacity) for five constituents and to meet new limits for an additional 14 constituents to comply with the National Pollutant Discharge Elimination System (NPDES) permit for the WWTP. The existing WWTP was not designed to meet most of the new standards, and therefore must be upgraded. The City must comply with the new requirements in the NPDES permit by May 2010 or face significant monthly fines.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. The Honorable David R. Obey, Chairman
The Honorable Jerry Lewis, Ranking Member
Committee on Appropriations
H-218, The Capitol
Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Western Wake Water Reclamation Facility** in fiscal year 2010.

The entity to receive funding for this project is:

Town of Cary

316 North Academy Street

P.O. Box 8005

Cary, NC 27513

The funding would be used for **construction costs associated with Cary's portion of the Western Wake Regional Water Reclamation facility**. The State of North Carolina issued an interbasin water transfer requirement that mandates that Cary, Apex, Morrisville and the Wake County portion of the Research Triangle Park return reclaimed water to the Cape Fear basin by 2011. To meet the state mandate, the Town of Cary and neighboring localities have initiated the **Western Wake Regional Wastewater Management Facilities project**. The **Western Wake Regional Wastewater Management Facilities project** will increase wastewater treatment capacity through the construction of wastewater pumping stations and force mains to deliver raw wastewater to the new **Western Wake Regional Water Reclamation Facility** for treatment .

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Brad Miller

The entity to receive funding for this project is Oakland County Water Resources, One Public Works Dr. Building 95 West, Waterford, MI 48328. I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for Mare Island Sanitary Sewer and Storm Drain Project in fiscal year 2010.

The entity to receive funding for this project is the City of Vallejo, located at 555 Santa Clara Street Vallejo, CA 94590.

The current sanitary sewer and storm drain system on Mare Island is in a severely degraded condition because it evolved from a system built in the 1800's, which combined sanitary and storm water into one system. A modernization and upgrade of the current sanitary sewer and storm water drain system is critical to improving the overall water quality of the region. Federal funding is needed to replace the existing sanitary sewer pipes, and expand the storm water drainage system.

I certify that neither I nor my spouse has any financial interest in this project.

The entity to receive the funding for this project is:

Brownsville Public Utilities Board
1425 Robinhood Drive

The proposed Brownsville and Matamoros Weir and Reservoir Project is intended to capture and store excess river flows and develop a long-term water supply for the communities in the lower Rio Grande Valley through the construction and operation of an on-channel reservoir. The project location, about four miles southeast of Brownsville, provides significant opportunities for improvements in water conservation and management in the lower Rio Grande.

The entity to receive the funding for this project is:

U.S. Fish & Wildlife Service

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Village Hall Renovation/Restoration** in fiscal year 2010.

The entity to receive funding for this project is:
Township of South Orange Village
101 South Orange Ave.
South Orange, NJ 07079

The funding would be used for the renovation and restoration of the town's historic Village Hall, which was constructed in 1890 and is listed on both the National Register of Historic Places and the New Jersey Historic Register. In addition, Village Hall is a part of the town's only historic district—the Montrose Park Historic District. Finally, it has national significance as it shows a clear pattern of urban development, both from the City of Newark and from New York City, as well as being one of the oldest town halls in the country. The structure has not been renovated in at least 35 years, although both minor and major necessary repairs have been conducted due to deferred maintenance. The roof is leaking, a large part of the structure is deteriorating or has already deteriorated, holes in the roof have resulted in rodent and bird infestations, and the renovations must include some asbestos remediation. In addition, due to the historic nature of the building, most work will have to be done by contractors experienced in working with historic sites. Almost all residents use this facility periodically if not frequently for any number of reasons, including attending governing body meetings, paying taxes, obtaining parking and building permits, marriage licenses and death certificates, etc. At this point, due to deterioration, the building is unsightly and unsafe, and its historic nature is threatened.

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Bill Pascrell Jr

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Interior and Environment Appropriations bill, Environmental Protection Agency, STAG account. The entity to receive funding for this project is St. Tammany Parish, 21490 Koop Drive, Mandeville LA, 70471. It is my understanding that the funding is for a project where an on-line retention pond would be created at the western intersection of Bayou Chinchuba and US Hwy 59. The goal is to reduce floodwater heights in order to reduce risk of home, street, and highway flooding in the area of Twin Oaks Subdivision, Oak Island Subdivision, Wing Haven Subdivision, Laurelwood Subdivision, Timber creek Subdivision and Pineview Road. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the Fiscal Year 2010 Interior and Environment Appropriations bill, Clean Water State Revolving Fund account, for Omaha, Nebraska. The entity to receive funding for this project is the City of Omaha Public Works Department, located at 1819 Farnam Street, Suite 600, Omaha, NE 68183.

The City of Omaha requests \$33.8 million to be used for the design and construction of improvements to portions of the City's combined sewer system. These projects will allow the City of Omaha to reduce the amount of sewage overflowing to receiving streams. These efforts are consistent with the latest requirements from the Environmental Protection Agency (EPA) and Nebraska Department of Environmental Quality (NDEQ) to achieve the goal of improved water quality in the United States.

These projects also will allow the City of Omaha to work toward meeting some of the requirements of the Clean Water Act and Omaha's Combined Sewer Overflow (CSO) Permit, and will eliminate the backup of sewage into the basements of the citizens of Omaha. The combined sewer system is restricted to the eastern portion of the City of Omaha and serves approximately 130,000 people. Wet weather conditions result in discharge of raw sewage into the environment and residents' basements. Upon completion, the planned projects will reduce the CSO volume to the Missouri River and improve water quality and public health. Total separation of the system is estimated to cost \$1.5 billion. I certify that neither I nor my spouse has any direct financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting member of Congress; (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, and I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

I am requesting funding for **Gowanus Canal Water Quality Improvement** in fiscal year 2010.

The entity to receive funding for this project is:

Gowanus Canal Conservancy

509 Court Street
Brooklyn, NY 11218

The funding would be used for **two strategies to improve the water quality of the Gowanus Canal. The first strategy integrates sidewalk filtration swales and street-end planted terraces to divert, collect and absorb storm water runoff to prevent future CSO overflows. Limiting discharge from the CSO's will prevent sewage and solid waste from further polluting the canal water. The second strategy is through utilization of phytoremediative plants in the vegetated terraced basins that remediate contaminants such as Volatile Organic Compounds (VOCs), lead, oil, and Polychlorinated Biphenyls (PCBs). After the water is treated through the phytoremediative qualities of the plant communities, the cleaned water would be slowly released in to the canal.**

Chairman Norm Dicks
Subcommittee on Interior, Environment and Related Agencies
B308 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Dicks:

I am requesting funding for the Storm Water – Trash Removal Devices on Catch Basins project. The entity to receive funding for this project is the City of Culver City, located at 9770 Culver Boulevard; Culver City, CA 90232. The funding for the proposed project would install trash removal devices in 834 catch basins city-wide to comply with Total Maximum Daily Load regulations regarding trash. The devices will consist of Automatic Retractable Screens (ARS) along the curb face to keep larger solids out of catch basins and Connector Pipe Screens (CPSs) inside catch basins to retain all debris larger than 5mm. Also, Federal and State mandates require the elimination of trash from storm water by 2013 through the Ballona Creek Trash Total Maximum Daily Load (TMDL). The only approved method of compliance is the installation of Automatic Retractable Screens (ARS) and Connector Pipe Screens (CPSs) on all of the City's 834 catch basins. I certify that I have no financial interest in this project.

If you have any questions, please call Abdul Henderson at (202) 225-7084.

Sincerely,

Diane E. Watson
