TITLE VI—CONGRESSIONAL COMMISSION ON CIVIC SERVICE

SEC. 6101. SHORT TITLE.

This title may be cited as the “Congressional Commission on Civic Service Act”.

SEC. 6102. FINDINGS.

Congress finds the following:

- (1) The social fabric of the United States is stronger if individuals in the United States are committed to protecting and serving our Nation by utilizing national service and volunteerism to overcome our civic challenges.
- (2) A more engaged civic society will strengthen the Nation by bringing together people from diverse backgrounds and experiences to work on solutions to some of our Nation’s major challenges.
- (3) Despite declines in civic health in the past 30 years, national service and volunteerism among the Nation’s youth are increasing, and existing national service and volunteer programs greatly enhance opportunities for youth to engage in civic activity.
- (4) In addition to the benefits received by nonprofit organizations and society as a whole, volunteering and national service provide a variety of personal benefits and satisfaction and can lead to new paths of civic engagement, responsibility, and upward mobility.

SEC. 6103. ESTABLISHMENT.

There is established in the legislative branch a commission to be known as the “Congressional Commission on Civic Service” (in this title referred to as the “Commission”).

SEC. 6104. DUTIES.

- (1) improve the ability of individuals in the United States to serve others and, by doing so, to enhance our Nation and the global community;
- (2) train leaders in public service organizations to better utilize individuals committed to national service and volunteerism as they manage human and fiscal resources;
- (3) identify and offer solutions to the barriers that make it difficult for some individuals in the United States to volunteer or perform national service; and
- (4) build on the foundation of service and volunteer opportunities that are currently available.

- (4) Whether existing databases are effective in matching community needs to would-be volunteers and service providers.
- (5) The effect on the Nation, on those who serve, and on the families of those who serve, if all individuals in the United States were expected to perform national service or were required to perform a certain amount of national service.
- (6) Whether a workable, fair, and reasonable mandatory service requirement for all able young people could be developed, and how such a requirement could be implemented in a manner that would strengthen the social fabric of the Nation and overcome civic challenges by bringing together people from diverse economic, ethnic, and educational backgrounds.
- (7) The need for a public service academy, a 4-year institution that offers a federally funded undergraduate education with a focus on training future public sector leaders.
- (8) The means to develop awareness of national service and volunteer opportunities at a young age by creating, expanding, and promoting service options for elementary and secondary school students, through service learning or other means, and by raising awareness of existing incentives.

(9) The effectiveness of establishing a training program on college campuses to recruit and educate college students for national service.

(10) The effect on United States diplomacy and foreign policy interests of expanding service opportunities abroad, such as the Peace Corps, and the degree of need and capacity abroad for an expansion.

(11) The constraints that service providers, nonprofit organizations, and State and local agencies face in utilizing federally funded volunteer programs, and how these constraints can be overcome.

(12) Whether current Federal volunteer programs are suited to address the special skills and needs of senior volunteers, and if not, how these programs can be improved such that the Federal Government can effectively promote service among the “baby boomer” generation.

III. SUMMARY OF THE BILL

PURPOSE

The purpose of H.R. 1388, the Generations Invigorating Volunteerism and Education (the GIVE Act), is to renew the spirit of service within our nation by reauthorizing the national service laws. The GIVE Act sets a goal for the Corporation for National and Community Service to recruit 250,000 volunteers by 2014. The bill also increases service opportunities for middle school and high school students through the Summer of Service program. Alumni of the national service programs are encouraged to re-engage in service activities through an alumni network and a Reserve Corps. H.R. 1388 calls upon our nation's scientists, technicians, engineers, and mathematicians (the STEM Professionals) to participate in service to increase America's competitiveness in the global knowledge economy and to reduce the digital divide in low-income and rural communities. Finally, the bill improves program integrity and emphasizes the critical role of service in meeting the national priorities of emergency and disaster preparedness.

LEARN AND SERVE AMERICA

The service-learning community and the Corporation have rebranded the name of the program from Service-Learning to Learn and Serve America. H.R. 1388 recognizes this modification by changing the program title to Learn and Serve America.

Elementary and secondary programs

H.R. 1388 commits 60 percent of funds authorized for Learn and Serve America to programs in elementary and secondary schools. The bill eliminates the competitive grants, and authorizes civic engagement in service-learning as an allowable use of funds. The bill

sets the match requirement for existing programs at fifty percent, and increases the match requirement for new programs. H.R. 1388 eliminates the ability for grantees to count other federal funding sources toward the match, however, Title I funds may be used toward the match at the discretion of the Corporation. The bill raises the amount of grant funds that may be used for administrative purposes from five to six percent. The bill creates a small-state minimum funding requirement of \$65,000 for a fiscal year in which the Learn and Serve America Program appropriations exceed \$50,000,000. H.R. 1388 eliminates the cap on capacity building activities. The bill strengthens the consultation between Learn and Serve America and the U.S. Department of Education.

Higher education

The GIVE Act continues to provide 25 percent of the authorized funds to support higher education service-learning programs. The bill expands the allowable use of funds for programs in institutions of higher education (IHE's) to programs that incorporate service-learning in the curricula of health, criminal justice, public policy and public administration professions. Special consideration is given to applications received from Historically Black Colleges and Universities, Hispanic-serving Institutions, and Tribal Colleges and Universities. In order to be eligible for funds under this part, the bill requires IHEs to be in compliance with the federal work study requirements under section 443(b)(2) of the Higher Education Act.

The bill creates a new program, Campuses of Service. This program identifies and recognizes as model service-learning IHE's, those institutions that engage students in community service activities, provide service-learning courses, and encourage or assist graduates to pursue careers in public service, the nonprofit sector or government. The program permits the Corporation to designate twenty-five IHEs as Campuses of Service annually. Designated IHE's receive funding which may be used to develop and disseminate service-learning best practices.

Innovative Service-Learning Programs and Research

The GIVE Act restructures the Community-Based Service Programs for School-Age Youth into the Innovative Service-Learning Programs and Research and provides 15 percent of authorized funds for this part. H.R. 1388 authorizes the Corporation to award traditional or fixed amounts grants (discussed below) for service-learning projects that are focused on STEM education, energy conservation, emergency and disaster preparedness, reducing the digital divide, mentoring, research and evaluations (including research on middle school service-learning), and other programs the Corporation deems appropriate. The bill gives priority to programs that involve students and community stakeholders in the design and implementation of the program, programs that implement service-learning in low-income or rural communities, and programs that utilize adult volunteers, particularly retired or retiring adults. The bill moves the Learn and Serve Clearinghouse into Subtitle H, the National Service Programs Clearinghouse.

H.R. 1388 authorizes two new service-learning programs under this section. The Summer of Service program offers students in grades 6–12 service-learning opportunities during the summer

months. The bill gives priority to programs that enroll youth in grades 6 through 9. Students who complete 100 hours of service during the program earn a Summer of Service Educational Award of \$500 to be used to pay part of the cost of college. H.R. 1388 also gives the Director of the Corporation discretion to raise the education awards to \$1000 for economically disadvantaged youth. Students may earn two Summer of Service education awards. The number of Summer of Service education awards does not count against the student's potential for earning the aggregate of two full-time National Service education awards through the AmeriCorps State and National programs or through the VISTA program. The bill also creates Youth Engagement Zone Programs. These programs provide competitive grants for partnerships between local educational agencies (LEAs) that serve high-need, low-income communities and community-based organizations (CBOs) or state entities to engage with secondary students and out-of-school youth.

The GIVE Act allows the use of fixed-amount grants for programs in this part. Fixed amount grants are structured such that the Corporation funds a fixed amount for operational and member support costs, including the funds for the National Service Education Award. The bill gives the Corporation the opportunity to add a fourth year of funding if the program is meeting agreed upon performance measures and other criteria the Corporation requires. The GIVE Act requires an independent evaluation of the program upon completion and the dissemination of effective strategies and recommendations for improvement based on the evaluation.

THE NATIONAL SERVICE TRUST

Limitations on grants to federal agencies

H.R. 1388 restricts the Corporation from making grants directly to other federal agencies to operate national service programs. However, the GIVE Act does not prohibit interagency agreements, cost-sharing agreements, or contracts between federal agencies. As in the Learn and Serve subtitle, the bill increases the allowable percentage of the grant to be used for administrative costs from 5 percent to 6 percent. H.R. 1388 combines the separate matches of 75 percent for program operation and 85 percent for member support into one match, which begins at 75 percent and over a period of ten years reaches 50 percent. This change is consistent with current regulations.

National Service trust programs

The GIVE Act expands opportunities for participants to serve by increasing the number of programs that may be offered by the Corporation and establishing new service corps to address key needs in low-income communities, including a Clean Energy Corps, an Education Corps, a Healthy Futures Corps, a Veterans Corps and an Opportunity Corps. Furthermore, the GIVE Act increases opportunities for disadvantaged youth and individuals with disabilities to become involved in national and community service.

The bill requires participants who serve as tutors to have a high school diploma, pass a proficiency exam, and complete provided training. H.R. 1388 increases the grant available for State Commis-

sions to new amounts ranging from \$250,000 to \$1,000,000. The bill also changes the match requirements for State Commissions operating grants.

Formula allocations

H.R. 1388 creates a new funding stream that provides 35.3 percent for formula grants and 62 percent for competitive grants, maintaining the 2 percent set-aside for tribes and territories. The GIVE Act also raises the small-state minimum from \$500,000 to \$600,000.

H.R. 1388 authorizes the Corporation to award fixed amount grants. Fixed amount grants have been authorized in the Education Awards Only Program since fiscal year 2004. But H.R. 1388 expands the Corporation's authority to award fixed price grants across the national service programs. In the first year following enactment, fixed amount awards may be used for the Education Award Only Program and for programs with full-time participants. In subsequent years, the Corporation may award fixed amount grants to any national service program.

The Education Award Only program gives \$600 per participant or up to \$800 per participant if the program has 50 percent disadvantaged youth as participants. The amount will be adjusted for inflation annually. The Corporation will determine the appropriate grant amount per member depending on the time commitment of the member. If a participant does not complete a term of service, the organization is required to return a pro rata amount to the Corporation, based on the amount of time performed by the individual.

The National Service trust

H.R. 1388 includes provisions clarifying the disbursement of the National Service Education Awards, the Summer of Service Education Awards, and associated waivers and limitations. In particular, H.R. 1388 changes the limits on the National Service Education Award to equal the aggregate of two full time awards. The aggregate value of the Summer of Service Education Awards shall have no affect on the aggregate value of the National Service Education Awards an individual may receive. Further, the GIVE Act links the value of the full-time Education Award to the maximum authorized Pell Grant award. Further, H.R. 1388 requires the Corporation to maintain a reserve account to ensure adequate funding for the education awards.

NATIONAL CIVILIAN CONSERVATION CORPS (NCCC)

H.R. 1388 includes technical amendments to the NCCC. The GIVE Act emphasizes the purpose of the NCCC as a residential program to be deployed in times of national need including emergencies and disasters. In addition, H.R. 1388 requires the NCCC to carry out projects and activities when not deployed including infrastructure improvement, environmental stewardship and conservation, energy conservation, and urban and rural development and other unmet needs.

H.R. 1388 directs the NCCC to increase the percentage of disadvantaged youth participants to 50 percent by 2011. H.R 1388 authorizes, to the extent practicable, that each NCCC participant re-

ceives training in CPR, first aid, and other skills related to disaster and emergency preparedness. The bill also expands the Advisory Board of the NCCC to include the Administrator of the Federal Emergency Management Agency, the Secretary of Transportation, the Chief of the United States Forest Service, the Administrator of the Environmental Protection Agency, and the Secretary of Energy to help coordinate activities when the Corps is not deployed and to coordinate the mobilization and coordination of the NCCC in emergency and disaster responses.

ADMINISTRATIVE PROVISIONS

H.R. 1388 modifies provisions that limit program grant costs. The bill also includes provisions to increase parental involvement in program development and operation, and requires programs to obtain parental permission when transporting minors.

STATE COMMISSIONS

The GIVE Act clarifies that State Commissions shall employ an open process for developing the national service plan, include measurable goals and outcomes in the plan, and ensure outreach to diverse communities. Furthermore, the national service plan shall include recommendations on how to recruit the Baby Boom generation and older adults for service, including coordination among appropriate agencies.

PROGRAM EVALUATION

H.R. 1388 provides new parameters for program evaluation, including performance measures that must be agreed upon by the grantee and the Corporation. The bill also includes a structure for corrective action plans that distinguishes between programs that have received assistance for less than three years and programs that have received assistance for three years or more. It further describes the actions that shall take place if programs do not meet performance levels after the corrective action plan has been attempted and failed.

CONSOLIDATED APPLICATIONS

H.R. 1388 requires the Corporation to consolidate or modify application procedures to ease the burden on applicants and grantees. Additionally, the bill requires the Corporation to set sustainability goals supported by policies and procedures, such as technical assistance. H.R. 1388 sets the length of grants at three years unless otherwise stated, and clarifies limitations on the costs per participant for AmeriCorps State and National programs.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

The GIVE Act establishes a five year term for each appointed Board member. A voting member of the Board whose term has expired may serve up to one year beyond his or her term until a successor is appointed. The bill also augments the Board's responsibilities to include setting policy for the Corporation, reviewing the budget proposal before it is sent to the Office of Management and Budget, and annually reviewing the work of the Chief Executive Officer of the Corporation.

Full-time participants

H.R. 1388 requires the Chief Executive Officer (CEO) to establish a strategic plan for increasing the number of full-time participants in national service programs to 50 percent by 2012. In addition, the CEO must obtain the opinions of peer reviewers in evaluating applications for programs under Title I of NCSA. The GIVE Act includes a provision to allow the Corporation to accept the donated services of individuals and organizations.

Employees

The GIVE Act designates the Chief Financial Officer as a competitive service position rather than a political appointment. Additionally, the CEO's salary is increased to Executive Schedule III plus three percent, equal to that of the Inspector General.

H.R. 1388 amends the duties of the CEO to increase public awareness of service opportunities, increase recruitment efforts, and collaborate with outside organizations to increase diversity of participants, including those with disabilities. The GIVE Act adds new evaluation reports and studies for which the CEO is responsible.

INVESTMENT FOR QUALITY AND INNOVATION

H.R. 1388 authorizes new activities including service projects that help to reduce the recidivism of court-involved youth and adults; programs that recruit court-involved youth and adults; programs that support mentoring and programs that engage disadvantaged youth. H.R. 1388 authorizes the use of traditional grants or fixed amount grants for these activities. The three year grant may be extended an additional year if the program is meeting agreed upon performance measures and other criteria the Corporation requires. H.R. 1388 also requires an independent evaluation of the programs and dissemination of effective strategies and recommendations for improvement. In addition, H.R. 1388 moves the activities of the national service-learning clearinghouse and AmeriCorps clearinghouse into Subtitle H.

Further, the GIVE Act establishes a Call to Service Campaign to encourage all Americans to serve. The bill also recognizes September 11th as a National Day of Service, and authorizes the Corporation to make grants to support its activities.

ServeAmerica Fellowships

H.R. 1388 introduces ServeAmerica Fellowships as a new service opportunity. The fellowships are for individuals who want to serve in their communities through an independent experience. An individual applies through the State Commission with an idea to serve. If approved, the fellow finds a sponsor organization, which is not served by other national service funding. Following an agreement between the organization and the fellow, the individual receives a grant from the State Commission. H.R. 1388 requires that one third of the grants made to the State Commissions be used to fund fellows in organizations with less than ten full-time employees. A fellow receives a grant in the amount of 50 percent of the VISTA living allowance, with the sponsor organization agreeing to pay an additional amount.

Silver Scholarships and Encore Fellowships

H.R. 1388 establishes Silver Scholarships and Encore Fellowships as new opportunities to encourage baby boomers and seniors to get involved in service. The Silver Scholarships are for individuals age 55 or older who complete 500 hours of service in a year. Scholars must focus their service on meeting unmet human, educational, public safety, or environmental needs. In exchange for their service, scholars will receive a \$1,000 educational award.

The Encore Fellowships, similar to the ServeAmerica Fellowships, permit individuals age 55 or older to seek out a volunteer opportunity within their communities. Fellows are placed for one-year with an approved nonprofit organization to carry out service projects in areas of national need. These fellowships are specifically targeted to individuals who want to transition into a second career in the nonprofit sector or in government. In addition to volunteering, fellows will receive training and leadership development to prepare them for their new careers. Approved organizations that participate in the program, will receive \$11,000 to pay for the living expenses and training of Encore Fellows. In addition, fellows who complete their service will receive a National Service Educational Award.

TRAINING AND TECHNICAL ASSISTANCE

H.R. 1388 consolidates the training and technical assistance activities authorized throughout the National and Community Service Act of 1990 (NCSA) and the Domestic Volunteer Service Act of 1973 (DVSA) into a single subtitle. The GIVE Act requires the Corporation to provide training and technical assistance to programs receiving assistance under these Acts. Training and technical assistance includes assistance in applying for financial assistance authorized under the acts; promoting leadership; improving quality of programs; developing management and budgetary skills; providing or improving the training available to participants; training in volunteer recruitment, management, and retention; training in evaluation and performance measures; training in accommodating participants with disabilities and establishing networks to better leverage resources to coordinate community wide planning and service. The bill increases training and technical assistance for programs in underserved rural and urban areas, as well as programs serving out-of-school youth, and older adults.

TITLE II: DOMESTIC VOLUNTEER SERVICE ACT

Volunteers in Service to America Act

H.R. 1388 adds new program assignments for VISTA participants, including assignments to assist in the re-entry and re-integration of formerly incarcerated youth and adults; financial literacy and financial planning; after-school programs serving children in low-income communities; community economic development activities; veterans and their families; and in addressing the health and wellness of low-income communities. The bill places priority on the recruitment of disadvantaged youth and retired adults (including those whose careers would be useful in low-income communities). In addition, H.R. 1388 permits an organization to pay all or a portion of the costs to support a VISTA position. H.R. 1388 also pro-

vides funding for programs of national significance, similar to the programs of national significance authorized in section 221 of the DVSA.

H.R. 1388 raises the stipend for a VISTA participant to a minimum of \$125 per month with a maximum of \$150 per month subject to the availability of funds. The stipend may be increased to \$250 for participants who provide service for at least one year and have been designated as volunteer leaders. H.R. 1388 repeals the VISTA University Year, the VISTA Literacy Corps, and the Literacy Challenge Grants.

NATIONAL SENIOR SERVICE CORPS

Retired Senior Volunteer Program

H.R. 1388 places a priority on projects that utilize retired STEM professionals, retired health care professionals, retired military and emergency professionals, and retired computer science professionals. The bill phases in competition of grants over a five year period and requires the Corporation to consult and coordinate with RSVP grantees on the development and implementation of the competitive process. Further, H.R. 1388 requires that any grant awarded under recompetition must continue to support the same number of volunteer service years, offer a similar program distribution, and minimize disruption of volunteers.

Foster Grandparent Programs

H.R. 1388 lowers the age of participation for the Foster Grandparent Program to 55 years of age. H.R. 1388 authorizes the continuation of services by a foster grandparent if it is in the best interest of the child after the age of 21. H.R. 1388 also includes a provision that if a foster grandparent is suspended or discontinued, then all parties involved shall agree upon the replacement of the foster grandparent.

H.R. 1388 sets the minimum stipend for a foster grandparent at \$2.65, which shall not exceed 75 percent of minimum wage. The bill adjusts the income limitation to 200 percent of poverty for participants in this program eligible for a stipend. H.R. 1388 allows grantees to have 15 percent of the participants who do not meet the low-income eligibility requirement if the program can show that it is unable to effectively recruit and place low-income volunteers. Furthermore, an individual who is not a low-income person may not become a volunteer under this part if it would prevent a low-income person from participating in the program. Over-income volunteers are not eligible to receive a stipend. The Director may provide a stipend or allowance that is 10 percent more than the amount earned to volunteer leaders who take on coordination and training roles.

Senior Companions Program

H.R. 1388 parallels the provisions relating to age eligibility, stipend level, and income eligibility of the Foster Grandparents Program in the Senior Companions Program. Similarly, the bill allows grantees to have 15 percent of the participants who do not meet the low-income eligibility requirement if the program can show that it is unable to effectively recruit and place low-income volun-

teers, and an individual who is not a low-income person may not become a volunteer under this part if it would prevent a low-income person from participating in the program. Over-income volunteers are not eligible to receive a stipend. The Director may provide a stipend or allowance that is 10 percent more than the amount earned to volunteer leaders who take on coordination and training roles.

Programs of National Significance for the NSSC

H.R. 1388 allows programs of national significance to include programs that engage older adults with children and youth in energy conservation, environmental stewardship, or other environmental needs of the community and programs that collaborate with criminal justice professionals and organizations in prevention programs aimed at disadvantaged youth or those youth re-entering society after incarceration and their families. The bill requires that 50 percent of the applicants of grants under this section are not currently receiving funding from the Corporation and, when possible, in locations where there are not current National Senior Service Corps programs.

Donations

H.R. 1388 includes a provision to allow the National Senior Service Programs to accept cash or in-kind donations.

IV. COMMITTEE VIEWS

OVERVIEW

H.R. 1388, the GIVE Act, reflects the Committee's interest in renewing the spirit of service in the United States by engaging individuals, organizations, and communities in activities that help meet unmet national needs and solve local challenges. Under previous leadership, the Committee performed oversight of the Corporation for National and Community Service that focused primarily on the financial and accounting practices of the Corporation. This term the Committee turns its focus to the next generation of service: increasing the number of AmeriCorps volunteers to 250,000 by 2014; increasing the numbers of participants engaged in full-time service and focusing participants on core issues facing communities in need; recruiting disadvantaged youth, veterans, science, technology, engineering, and mathematics professionals; and engaging the Baby Boom generation into service for their communities and the nation; and fostering the spirit of service and civic engagements in young people at an early age through programs such as the Summer of Service and Youth Engagement Zones.

Through the GIVE Act, the Committee also seeks to remove barriers for the many organizations that work with volunteers in carrying out service activities and provide new mechanisms to invest in community based non-profit organizations that have proven expertise in addressing local challenges and unmet needs, as well as organizations that are eager to try out new ideas and new ways for addressing local issues. These organizations will play a critical role in introducing service to a new generation and re-engaging individuals and communities in service to the country.

LEARN AND SERVE AMERICA

School-based programs

Service-learning is a teaching and learning strategy that integrates meaningful community service with instruction and reflection to enrich the learning experience, teach civic responsibility, and strengthen communities. Service-learning provides structured time for students to reflect on their service by thinking, discussing and/or writing about their service experience. The Committee recognizes that when service-learning is integrated into the academic curricula, students apply the substance of what they are learning, using their skills and knowledge to solve real-life community challenges through service. When students appreciate the relevance of their learning, motivation increases. This appreciation leads to increased levels of engagement in school. In addition, they are more likely to successfully master the content of their studies. Research confirms that students are more likely to learn academic content when it is relevant to their lives. Service-learning empowers students by connecting their service with concrete results in their community. The benefits of service-learning include students gaining a sense of pride and ownership in their service and their community. According to the Corporation for Community and National Service, one of the primary ways that schools provide opportunities for students to become active in their communities is through school-based service. In the report by the Corporation titled, *Youth Helping America*, only 38 percent of the youth surveyed reported current or past participation in school-based service-learning and of those, 64 percent were enrolled in one class that included school-based service-learning. The report also found that high school students are 37 percent more likely than middle school students to participate in school-based service-learning. Given these results, the Committee modified the Learn and Serve program to give greater emphasis to school-based service-learning.

The Committee recognizes the importance of improving the understanding of how our government functions and its foundations, and has expanded funding uses to civic engagement service-learning programs. The bill adds a new provision which strengthens the consultation between Learn and Serve America and the U.S. Department of Education. Service-learning programs can have a significant impact on meeting the U.S. Department of Education's benchmarks for academic achievement, engaged learning, 21st century skill development and student resilience. It is critical that the two agencies coordinate and collaborate to the extent that they have a shared mission to increase students' engagement in their curriculum and improve students' academic performance.

H.R. 1388 changes the match requirements for Learn and Serve programs. While H.R. 1388 establishes a prohibition against using federal funds as a source for matching funds, funds allocated under Title I of the Elementary and Secondary Act are allowable under special circumstances. Title I funds qualify as the source as long as the funds are used consistent with Title I activities and for service-learning programs serving schools in local education agencies that meet the requirements of Section 1114 and 1116 of Title I. The Committee expects the Corporation to consult with the Department of Education on the implementation of this provision and to provide

guidance to eligible applicants based on guidance provided by the Department.

HIGHER EDUCATION

According to the Center for Information and Research on Civic Learning and Engagement:

Volunteering is the single activity that draws the greatest number of youth participants [18–25 year olds]. In 2006, 42 percent of current students said that they had volunteered in the 12 months, while 45 percent of college graduates, 24 percent young people with college experience but not currently enrolled, and 24 percent of non-college youth said that they had volunteered in the last 12 months.

According to the Corporation, the number of college student volunteers in 2008 was three million. The Corporation continues to work to expand the number of educational institutions that are building strong community connections to further service within their student body. The Committee recognizes that colleges and universities and the students who attend them are critical to renewing the spirit of service in America.

The GIVE Act enables the strengthening of leadership and instructional capacity for service-learning in the pre-service components of health care professions (including nursing, pre-medicine, medicine and dentistry), criminal justice professions (including law enforcement and the judicial system), those professions that interact with the criminal justice system (including social work and counseling), and public policy and public administration professions. The Committee expects that as service-learning is integrated into the pre-service curricula of these programs, the leadership, knowledge, and skills of the graduates of the programs will increase, the programs will be more effective in training professionals, the faculty of the programs will continue to engage students in service-learning and participate themselves, and the community in which the programs are implemented will further benefit from the service-learning programs. The Committee recognizes that some of these curricula already contain a pre-service clinical component, but it is the intent of the Committee in including such professions in this section to encourage a coordinated effort that integrates service-learning into the clinical or pre-service curricula of these professions. Ideally, over time the faculty and students would expand service-learning to other disciplines not mentioned here. The GIVE Act provides special consideration to Hispanic Serving Institutions, Historically Black Colleges and Universities, Predominantly Black Institutions and Tribal Colleges and Universities, which tend to apply less often for service grants, to encourage the increased participation of minorities in community and national service. In order to be eligible for funds under this part, the bill requires Institutions of Higher Education (IHE) to be in compliance with the Federal Work Study requirements under section 443(b)(2) of the Higher Education Act. Finally, the bill creates a new program: Campuses of Service. This program identifies and recognizes IHE's that serve as a model Campus of Service by engaging students in community service activities, providing service-learning

courses, and encouraging or assisting graduates to pursue careers in public service in the nonprofit sector or government. The program permits the Corporation to designate twenty-five IHEs as Campuses of Service annually. Designated IHE's receive funding which may be used to develop and disseminate service-learning best practices.

Innovative service-learning and research programs

The Committee recognizes that there is an opportunity for service-learning to play a significant role in educating a new generation of youth who can contribute to America's ability to compete in the global knowledge economy. America's greatest hope for maintaining this country's global competitiveness resides within the classrooms across the nation.

H.R. 1388 replaces the Community-Based programs in current law with Innovative Service-Learning and Research programs. Grant making entities previously defined and eligible prior to H.R. 1388 remain eligible if they meet the new definition for community-based organizations in Sec. 101 of H.R. 1388. The Committee believes that Learn and Serve America should have a substantial focus on service-learning. The Committee emphasizes that this does not lessen the opportunity for community-based and non-profit organizations to apply or participate in the Innovative Service-Learning and Research grant programs (or in school-based service learning) authorized in this section. The authorized activities in this section are focused on areas of service that lend themselves to community-wide innovations such as using the relevance of science, technology, engineering, and mathematics to devise and implement solutions to community challenges.

H.R. 1388 authorizes two new service-learning programs under this section. The Summer of Service program offers students in grades 6–12 service-learning opportunities during the summer months. The bill gives priority to Summer of Service programs that enroll youth in grades 6 through 9. Students who complete 100 hours of service during the program earn a Summer of Service Educational Award of \$500 to be used to pay part of the cost of college. H.R. 1388 also gives the Director discretion to raise the education award to \$1000 for a youth who is economically disadvantaged. Students may earn two Summer of Service education awards. The number of Summer of Service education awards does not count against the student's potential for earning the aggregate of two full-time National Service education awards through the AmeriCorps State and National programs or through the VISTA program. The bill also creates Youth Engagement Zone Programs. These programs provide competitive grants for partnerships between LEAs that serve high-need, low-income communities and CBOs or state entities to engage with secondary students and out-of-school youth.

Innovative Service-Learning and Research program grants may be awarded for energy conservation, emergency and disaster preparedness, programs aimed at improving access to and receiving the benefits from technology, and programs designed to enlist high school youth in mentoring middle school students. The Committee encourages grantees of this program to be innovative and creative

in addressing service-learning and the needs of schools and their communities.

SUBTITLE C: NATIONAL SERVICE TRUST PROGRAM

Federal agencies

H.R. 1388 prohibits the Corporation from making grants to other Federal agencies to operate national service programs, which is consistent with appropriations language. However, the Committee does not seek to inhibit collaboration and cooperation between the Corporation and other Federal agencies in fostering national and community service. Accordingly, the Committee encourages the Corporation to enter into interagency agreements, cost sharing agreements, and where appropriate, contracts for activities and programs that foster volunteerism and service.

Administrative funds

According to Voices for National Service, the National Service-Learning Partnership, the National Association of Community Health Centers, Experience Corps, and other stakeholders, grantees are challenged by the 5 percent limit on administrative uses of funds. The Committee also recognizes that State Commissions will have additional administrative responsibilities under H.R. 1388. Accordingly, the GIVE Act raises the amount of the grant permitted to be used for administration costs to 6 percent.

Matching requirements

H.R. 1388 restructures the matching requirements for grantees. Under current law, an AmeriCorps program has separate matching requirements for the federal share of the operating costs of the program and the federal share of the member support costs, including member living allowances, employment-related taxes, health care coverage, and workers compensation. In 2004, the Corporation entered into a Rulemaking process that resulted in the issuance of regulations in 2005 which combined the two requirements into one. To ease the burden of change for existing programs, the regulations provided that the combined requirements be phased in over ten years. H.R. 1388 adopts these regulations. In addition, H.R. 1388 includes an accommodation for programs in rural or severely economically distressed communities, which may have challenges meeting this matching requirement.

Modernizing AmeriCorps State and National Programs

As part of the Committee's effort to renew the spirit of service and engage more youth in service, H.R. 1388 modernizes the AmeriCorps State and National Programs. H.R. 1388 builds on the national service corps program framework that exists in current law while adding four new Corps that will target human capital to address pressing needs facing our country. These Corps concentrate national efforts on meeting certain education, health, environmental, and veterans' needs.

The Corps were designed to strengthen existing service programs and allow for new and innovative service projects to address key needs in low income communities:

- The Education Corps will help increase student engagement, achievement and graduation in low-income schools. Corps participants will be used to expand after-school opportunities, help coordinate school-based serving learning activities or augment the teaching force in low-income communities by providing certified professional teachers. H.R. 1388 includes a provision that suggests that fellows who are working toward a degree or certificate in youth development from a two-year or four-year institution of higher education should be allowed to participate in projects funded under the Education Corps. The Committee believes that this hands-on experience will be extremely helpful to both the fellow and the students being served by this fellow. However, the Committee does not believe this language requires that all individuals who are working on projects funded under this provision need to have college degrees. The Committee recognizes that there are many qualified individuals in our country that may have taken a different path in life and can still offer high-quality instruction and guidance in after-school programs and 21st Century Community Learning Centers. The Committee believes that participants in this program should work towards this goal but, in including this language, the Committee in no way intends to limit these individuals from participating in national service projects.

- The Clean Energy Corps directs service resources toward clean energy and “green” efforts. Through such activities as helping weatherize and retrofit housing units for low-income individuals, the Clean Energy Corps will leverage volunteers toward making our communities more energy efficient.

- The Healthy Futures Corps is dedicated to activities that will improve and expand health care access and help disadvantaged individuals navigate the healthcare system, with an emphasis on the medically underserved.

- The Veterans Corps will not only provide services to veterans but also take advantage of the skills and experience they have to offer this country. It will also promote community based efforts to meet the unique needs of military families while a family member is deployed and when they return home.

In addition to the four specialized corps, H.R. 1388 establishes an Opportunity Corps to build upon current law by promoting service programs to address the needs of rural communities, including rural poverty and job training; a program to help eliminate hunger through service; an E-Corps program to help increase access to technology in communities; a program that engages citizens in public safety, public health, and emergency and disaster preparedness; a program to expand the number of mentors of youth, including disadvantaged youth; and a program to re-engage court-involved youth and adults with the goal of reducing recidivism.

H.R. 1388 establishes performance indicators for each of the new corps. The Committee intends these indicators to serve as a benchmark for the Corporation to evaluate and measure the outcome and success of these programs. While there are indicators for each of the Corps, the Committee does not intend for these indicators to be exhaustive or final. As such, H.R. 1388 requires the Corporation to consult with the various Secretaries, including Education, Health and Human Services, Energy, Veterans Affairs, Department of the Interior, the Administrator of the Environmental Protection Agen-

cy, and the Attorney General, as appropriate, to develop additional performance indicators for the Corps.

The Committee requires the Corporation to encourage national service programs to establish, if consistent with the purposes of the program, an intergeneration component students, out-of-school youths, disadvantaged youth, and older adults as participants. The Committee recognizes the need to engage Americans of all generations in service, and views these Corps as an opportunity to encourage greater interactions between the youth and older communities.

H.R. 1388 requires the Corporation to select at least two Corps as national priorities. One of the Corps created is a Veterans Corps aimed at helping those who have served our country in the military but may now require assistance for themselves or their families. For example, through the Veterans Corps, participating organizations agree to provide assistance to military families when their service member has been sent to fight and upon that service member's return home. Many of these families are also participating in their own form of service through activities to support other military families and other service members. The Committee strongly encourages the Corporation to select the Veterans Corps as one of the national priorities to honor the service veterans have had to our country and to take advantage of the skills they have developed during their military service.

State Commissions

In recognition of the work of the State Commissions on Community and National Service, and the expected larger role to be assumed by State Commissions in coordinating, developing, and executing national service programs throughout their respective states, H.R. 1388 includes an increase in the grant amount allocated to State Commissions.

Formula allocations

The GIVE Act also changes the percentages of funds allocated for AmeriCorps State and National programs to more accurately reflect how funds are currently allocated through appropriations. Indian Tribes and Territories continue to receive 1 percent each; however, for Indian tribes, H.R. 1388 converts the program from a formula distribution to a competitive grant. The current formula allotment is based on population, which has resulted in few tribes applying for their allotment and smaller tribes not applying at all. The new competitive grant allows the Corporation to give larger grants and serve more Indian tribes, including smaller tribes. The Committee expects the Corporation to coordinate the necessary training and technical assistance to aid Indian tribes in competing for and carrying out national service programs to improve their communities.

The bill also merges State Competitive and National Direct funding into one competitive funding stream, allowing the Corporation to improve collaboration between state and national entities. The Committee changes the funding distribution in order to provide States, National Directs and smaller organizations with greater resources to focus on local impacts. The Committee encourages the continued effort of National Directs working with communities and State Commissions to leverage resources, engage more volunteers,

and increase the reach of national service to include more low-income and rural areas across our nation. H.R. 1388 provides 62.7 percent for State Competitive grants and 35.3 percent for the State Formula grants. In addition, H.R. 1388 raises the small state minimum from \$500,000 to \$600,000.

The Committee encourages State Commissions to conduct a service needs assessment for each State and strategically work to engage underserved areas, including rural and low income areas, in national service. Ideally, the national direct providers would engage each State in which they operate and work to facilitate programs in these underserved areas as well. It will take an organized effort by all stakeholders to further the spirit of service across our nation.

Fixed amount grants

The Committee endorses fixed amount grants for use throughout national service programs. The Education Award Only (EAO) program, a form of fixed amount grants, was first established in FY97 appropriations for the Corporation. In an effort to reach the 250,000 goal set out by the President, there was an interest in the field to engage smaller organizations in national service programs. Many of these organizations do not have the administrative capacity to account for the match that is required under national service laws. Fixed amount grants allow smaller organizations to participate in national service programs by easing the administrative burden and allow for more efficient and cost-effective program operation. In the EAO Program, grantees provide the member costs of the program and the Corporation provides a portion of the administrative costs per participant and funds for the National Service Education Award.

SUBTITLE D: THE NATIONAL SERVICE TRUST

H.R. 1388 addresses concern from participants in and providers of national service programs about the National Service Education Award. Under current law, a participant is limited to two terms, regardless of the length of the term or the level of participation (i.e., full time or part-time participation). This limitation has prevented national service part-time participants from earning the entire amount of two National Service Education Awards. Since the Corporation supports programs that have part-time participants, the Committee authorizes that participants have the opportunity to earn the aggregate value of two national service awards for full-time service.

H.R. 1388 also provides for the Trust to administer the Summer of Service Education Award, the Silver Scholarship, the Encore Fellowship Award and the ServeAmerica Award. In recognition of the increasing cost of tuition and the Committee's desire to increase access to higher education for all youth, especially disadvantaged youth and underserved populations, the Committee includes an increase in the National Service Education Award by linking it to the maximum authorized Pell Grant award in order to keep up with rising college costs.

Strengthen AmeriCorps Act

H.R. 1388 integrates the Strengthen AmeriCorps Program Act (P.L. 108–145), which was enacted in response to the mismanagement of the National Service Trust and the ensuing challenges faced by the Corporation. By incorporating the Strengthen AmeriCorps Program Act, H.R. 1388 codifies the manner in which the Corporation approves and records obligations relating to approved national service positions. H.R. 1388 requires the Corporation to record as an obligation an estimate of the net present value of the National Service Educational Award associated with each position. Furthermore, the Corporation must establish a reserve account within the National Service Trust and take necessary steps to ensure the availability of adequate funds to support the awards of approved positions for each fiscal year.

SUBTITLE E: NATIONAL CIVILIAN COMMUNITY CORPS (NCCC)

Program activities and participants

The National Civilian Community Corps (NCCC) is the only national service program operated solely by the Corporation. The NCCC is a residential program with multiple campuses across the United States with a focus on rapid response to emergencies and disasters within the region near the campus. H.R. 1388 adds a new focus on infrastructure improvement, environmental stewardship and conservation, energy conservation, and urban and rural development. The Committee believes that when the corps is not deployed for emergencies or disasters, the NCCC program can play an important role in addressing these national needs.

H.R. 1388 includes a provision that requires NCCC to set a goal of 50 percent participation by disadvantaged youth (as defined in the bill) in the program by 2011. Programs such as the NCCC provide youth with opportunities to learn marketable skills for employment, to further their education, and to gain self-confidence and increased empowerment in a structured, safe environment. The Committee acknowledges that the NCCC programs will need assistance in recruiting disadvantaged youth to participate and encourages the Corporation and State Commissions to work jointly in the recruitment of disadvantaged youth. Furthermore, it is not expected that every campus will be able to recruit a large percentage of disadvantaged youth from neighboring communities and other States. However, given the fact that the NCCC is a residential program, this should not negatively affect the program, but rather expand the diversity of the pool of participants and enrich the service experience for each NCCC member.

NCCC Advisory Board

H.R. 1388 increases the NCCC Advisory Board membership to include those Federal agencies who are stakeholders in projects being implemented by the NCCC participants who are not deployed for disasters and emergencies. In addition, the Committee expects the Advisory Board to coordinate the rapid and efficient response of the NCCC in times of emergencies and disasters in conjunction with other response organizations in order to assist in the coordination of recovery efforts.

SUBTITLE F: ADMINISTRATIVE PROVISIONS

Parental involvement

H.R. 1388 requires that parents be involved in the development and operation of national service programs which serve children. The Committee recognizes that having parents involved is more likely to engage the community as a whole. Furthermore, H.R. 1388 requires parental permission when transporting minors.

State Commissions on national and community service

The GIVE Act clarifies the role of State Commissions. H.R. 1388 requires that the state plan for national service be developed through an open process (including regional forums and hearings), which provides for maximum participation and input from companies, organizations, and public agencies using service and volunteerism as a strategy in meeting critical community needs. The intent is to create an environment where all stakeholders in a state or a region can together determine the service and volunteer needs in a State or region, and collaborate to leverage resources, and knowledge. The State Commissions should utilize this process to gather information from the entire State to formulate a State service plan with implementation steps. Although not required by H.R. 1388, the Committee believes that the forums and hearings can serve as a mechanism for developing the national service plan for the State and can serve as a community service needs assessment tool. The State Commission can use this information to direct funds and organizations (such as National Direct programs) to locations in the State where the need is great and service opportunities are lacking. In addition, H.R. 1388 requires that the State Service Plan include measurable goals and outcomes, in part to help States determine if they are meeting their most pressing needs through service and volunteerism.

H.R. 1388 provides that States develop a comprehensive plan for Baby Boomer and older adult volunteer and paid service. These state plans must include recommendations for public policy initiatives, for example, how to best tap older adults as sources of social capital, and ways to address community needs. In addition, it is expected that the State will utilize working networks or establish networks in the State and across the nation to connect volunteers to opportunities in the State. The Committee expects collaboration between the Corporation and State Commissions to help improve their recruitment plans, including those plans directed at older Americans and members of the Baby Boom generation. Furthermore, the plan must be updated annually to ensure active engagement of the State Commission with regard to changing policies and procedures that will improve the coordination and effectiveness of the Federal, State, and local resources for service and volunteerism in the State. The Corporation may permit waivers to administrative requirements that States find impede the coordination and effectiveness of resources directed towards service and volunteerism.

Evaluation and performance measures

H.R. 1388 reflects the Committee's interest in strengthening accountability for programs receiving federal funds authorized under this bill. H.R. 1388 clarifies that the Corporation will establish per-

formance measures in consultation with the grantees that receive assistance. Consultation with the grantees is critical to the integrity of accountability and accommodates the unique outcomes of grantees funded under this Act. The performance measures may include the number of volunteers recruited from the community in which the program is being implemented and the number of disadvantaged and underrepresented youth participants. To maximize the impact and cost-effectiveness of the program, H.R. 1388 also expects programs to evaluate the effectiveness of the structure and mechanisms for delivery of services, the management of the participants, and the ease with which recipients receive service.

Corrective action plans

H.R. 1388 provides a structure for corrective action for a grantee that fails to reach the performance measures agreed upon by the Corporation and the grantee. H.R. 1388 requires that when a new grantee (for programs which have received assistance for less than three years) fails to reach the agreed upon performance measures, the Corporation must provide technical assistance to the grantee to address the targeted performance problems. In addition, the bill requires quarterly reports on the program's progress towards achieving the agreed upon performance measures to both the Corporation and the appropriate State (or the State Commission), Territory, or Indian tribe. For established programs, the Corporation is not required to provide technical assistance (although it is not prohibited from doing so either).

Inspector General

H.R. 1388 extends a new authority to the Inspector General to carry out oversight of grantees and Corporation programs and operations, similar to that provided to the Comptroller General and the Chief Financial Officer.

Consolidated application

H.R. 1388 requires the Corporation to consolidate or modify the application or reporting requirements for programs under the national service laws. The Committee realizes that this is a critical requirement for the Corporation in this reauthorization. According to the grantees and the Corporation, the lengthy and onerous application process deters entities from applying for grants and consistently challenges those applicants who do apply. The Corporation has also requested the authority to create a consolidated application and the Committee is in full support of such measures. The Committee encourages the Corporation to work with current grantees and those that did not apply to determine the effective sections as well as aspects of the application which need improvement, with the intention of easing the application process for both the grantee and the Corporation. The Committee is of the opinion that such endeavors will ultimately lead to a richer, more diverse applicant pool seeking to meet the needs of our nation's communities through service and volunteerism.

Sustainability

The Committee applauds the work of current national service grantees and therefore wishes to ensure that programs being car-

ried out under the national service laws are sustainable. H.R. 1388 establishes that the Corporation shall, in consultation with grantees and State Commissions, set sustainability goals to be supported by policies and procedures. The sustainability goals shall build the capacity of programs to service the community while working to establish non-Federal funding streams to support the project beyond the life of the grant. H.R. 1388 requires the Corporation to provide technical assistance in finding non-Federal funding sources and to implement measures to ascertain whether a project is generating sufficient community support. The Committee believes that with community support comes non-Federal dollars, thus furthering sustainability. By focusing and reaching sustainability for current national service programs, new grantees and new service projects can emerge in high need areas across our nation. H.R. 1388 furthers this goal by directing the Corporation to take into consideration, in the approval process for applications, the ability of a grantee to generate volunteers, consistent with the mission of the applicant. In addition, H.R. 1388 creates a Community Solutions Fund pilot program that awards competitive matching grants to social venture funds to use the grants to provide competitive matching sub grants to community organizations for use in replicating or expanding proven solutions to specifically identified community challenges.

Limits on the cost of programs

H.R. 1388 sets the limit on the amount of funds approved to support individual participants in an approved national service position to \$17,000. The bill includes a waiver of up to \$19,500 to meet the compelling needs of a particular program, such as the training needs for a program serving disadvantaged youth, increased costs relating to the participation of individuals with disabilities, and the start-up costs associated with a first time grantee, and up to \$22,000 for Tribal residential programs. This waiver reflects the Committee's expectation that in trying to reach the goal of 250,000 members of a diverse population of providers and participants, some of whom may require more support and services. Even with this waiver, the Committee expects that all grantees will continue to run cost-effective and sustainable programs. The limits will also be adjusted annually for inflation.

SUBTITLE G: CORPORATION FOR NATIONAL AND COMMUNITY SERVICE
BOARD OF DIRECTORS

The Committee recognizes the role of the Board of Directors for the Corporation and augments the role of the Board with respect to the workings of the Corporation. H.R. 1388 authorizes the Board to participate in the review of the budget proposal before it is sent to the Office of Management and Budget and in the performance appraisal of the Chief Executive Officer (CEO). H.R. 1388 sets the term of a Board Member at 5 years, which can be extended one year for voting members when no successor has been appointed. The Board of Directors is a fertile resource for the Corporation and the skills, experience, and expertise of the Board should be fully utilized in the management of the Corporation. The Committee believes that as the grantees are asked to run cost-effective, high quality programs of national service, that the Corporation be held to similar standards and expectations.

Full-time participants

In recognizing the goal of the Corporation to maintain 75,000 AmeriCorps volunteers, which the Corporation has met, the Committee has chosen to set a goal for the Corporation of reaching 250,000 volunteers by 2014. Further, H.R. 1388 requires a report within 18 months of enactment on the status of reaching 50 percent full-time participants. The Committee believes the presence of full-time participants will yield greater benefits in addressing pressing community needs.

Peer review

Peer review is an established, effective method for evaluating the merits of an application for a program or project. H.R. 1388 requires the CEO to obtain the opinions of peer reviewers in evaluating the applications to the Corporation for assistance under this title. The Committee expects that the implementation of peer review in the approval process for applications at the Corporation will further ensure the impartiality in the grant-making process.

Personal service contracts

H.R. 1388 authorizes the Corporation to enter into personal service contracts to carry out research, evaluation, and public awareness activities.

Donations to the corporation

The Committee recognizes that there are various service organizations, academic institutions, and other entities and individuals with the expertise to contribute to the improvement or structure of national service. Currently, the Corporation may accept donations of property or money, and some volunteer service. Under H.R. 1388, the Committee extends this authority to include the volunteer services of an individual or an organization.

The bill gives new authority to the Chief Executive Officer (CEO) to bolster the public awareness of and recruitment efforts for the wide range of service opportunities for citizens of all ages. The CEO has the authority to identify and implement methods of recruitment including strategies to recruit and train bilingual volunteers.

SUBTITLE H: INVESTMENT FOR QUALITY AND INNOVATION

Innovative and Model Program Support

H.R. 1388 creates a new part of Subtitle H titled, "Innovative and Model Program Support," which authorizes grants to encourage the innovative and creative work of the AmeriCorps State and National Programs. The Committee intends to challenge both the Corporation and the applicants to craft the cutting-edge programs that will engage citizens from all walks of life in service activities. Although there are specific programs identified in the bill, the Committee encourages the Corporation to fund innovative, creative, and more challenging programs. To further promote the innovation encouraged by this section, H.R. 1388 includes the option of funding these programs through traditional grants or fixed amount grants. In addition, a fourth year of funding may be authorized based on criteria determined by the Corporation, including whether

the program met its performance measures. This extension will provide unsteady or inexperienced programs additional time to develop into successful, sustainable programs, and to meet other outcomes that the Corporation determines to be appropriate.

The Committee encourages the Corporation to implement fixed amount grants to programs under Subtitle H, if appropriate. Fixed amount grants can ease administrative burdens for grantees while maintaining high quality, innovative programs offered in this part and in the Innovation Service-Learning programs in subtitle B, while encouraging new organizations to implement service programs.

Innovative Model Programs in this part include programs where no less than 75 percent of the participants are disadvantaged youth and whose program type can be any of the programs offered in section 122(a) of this title; programs that incorporate learning and thinking skills determined necessary for success in the 21st century global knowledge economy; programs that engage youth under the age of 17 in service; programs to re-engage court involved youth and adults to reduce recidivism; programs focused on the recruitment of court-involved youth and adults as participants or volunteers; programs to establish and support statewide and national mentoring partnerships, and other innovative and creative programs. H.R. 1388 also encourages collaboration with other programs under the national service laws.

The first phase of the baby boom generation began to go into retirement in 2008 and this massive demographic shift will have far-reaching effects on our society over the next decade. As these retirements go into effect, employers across all sectors will struggle to fill these positions with experienced employees. Additionally, due to the current financial crisis and their own financial circumstances, a majority of boomer households will not be able to sustain their current lifestyle in retirement and many will need to continue to work.

Since baby boomers are the healthiest and most highly educated generation to retire, there is a tremendous opportunity to harness their volunteerism for the greater good and encourage boomers to explore second career paths in the public or nonprofit sector. Through the Silver Scholarship and Encore Fellowship Program, boomers provide important services that our nation needs, but the boomers themselves also receive health and well-being benefits from their involvement in service.

Call to Service and September 11th Day of Service

The bill establishes a Call to Service Campaign and September 11th Day of Service. The Call To Service Campaign encourages our nation's citizens to engage in full or part time national service. As part of the broader Call to Service Campaign, the Corporation may carry out ceremonies and activities in observance of September 11th as a National Day of Service and Remembrance as a meaningful way to pay tribute to the victims of September 11th and recognize the contributions of the countless volunteers and rescue workers. The Corporation may participate in federal activities and make grants to community based organizations to carry out charitable service and remembrance activities at the local level. These activities should enable individuals and organizations to engage in a di-

versity of activities that reflect and promote a renewed spirit of national unity emblematic of that which existed in the aftermath of September 11th.

H.R. 1388 creates a new program, the ServeAmerica Fellowships. The ServeAmerica Fellowships represent the Committee's effort to engage individuals who want to serve their communities without joining a formal corps. H.R. 1388 requires that the Sponsor Organization not be a recipient of any other national service awards and must apply to the State Commission to become eligible to receive a Fellow. The State Commissions are responsible for deeming organizations as eligible for recipients and must maintain a website with all eligible Sponsor Organizations. By limiting sponsor organizations to organizations that do not receive funding under the national service programs, the Committee intends to engage a new set of community based organizations.

National Service clearinghouses

H.R. 1388 merges the service-learning and AmeriCorps clearinghouses into a single part, the National Service Programs Clearinghouse. The Committee does not expect other existing clearinghouses to merge.

SUBTITLE I: TRAINING AND TECHNICAL ASSISTANCE

For transparency and ease of implementation, H.R. 1388 collects sections throughout both National and Community Service Act of 1990 (NCSA), and Domestic Volunteer Service Act of 1973 (DVSA), on training and technical assistance and establishes a single subtitle on training and technical assistance. It is expected that the Corporation will provide training and technical assistance for those programs receiving or applying for assistance under the national service laws. Training and technical assistance is expected (but not limited to) the following areas:

- application assistance
- leadership development
- management and budgetary skills
- providing or improving the training of participants
- risk management procedures
- recruitment, management, and retention of volunteers
- program evaluation and performance measures
- accommodation for participants with disabilities
- establishing networks and collaboration among stakeholders to further leverage community resources

H.R. 1388 gives priority for technical assistance to applicants or existing programs that intend to implement programs in areas where they are needed most, where national service programs currently do not exist, or in underserved rural and urban areas. Priority is also provided for applicants or programs with an intergenerational focus.

SUBTITLE J: POINTS OF LIGHT FOUNDATION

H.R. 1388 repeals the Points of Light Foundation. The Committee determined it was appropriate to remove legislative earmarks from the national service laws. The repeal is consistent with appropriations in both the Senate and the House.

SUBTITLE K: AUTHORIZATION OF APPROPRIATIONS

H.R. 1388 provides \$97 million for Subtitle B for fiscal year 2010 and such sums as may be necessary for fiscal years 2011 through 2014. The funding for Subtitle B includes \$20 million for the Summer of Service program; \$20 million for Youth Engagement Zones; and \$7 million for Campuses of Service. H.R. 1388 includes such sums as may be necessary for Subtitles C, D, and H and \$35 million to carry out Subtitle E. H.R. 1388 reserves up to 2.5 percent to carry out subtitle J and such sums as may be necessary to execute the Corporation's administration of the national service laws.

TITLE II: THE DOMESTIC VOLUNTEER SERVICE ACT (DVSA)

Subtitle A: the Volunteers in Service to America (VISTA)

The Domestic Volunteer Service Act has a central purpose of establishing and supporting anti-poverty programs for our nation. DVSA authorizes the Volunteers in Service to America (VISTA) program, the equivalent to the Peace Corps in America, whose focus is to help the poor, the disadvantaged, the vulnerable, and the elderly in America. The VISTA participant is expected to live in the same conditions as those they serve and to remain available to the community on a 24 hour basis, as are Peace Corps volunteers. The VISTA participant's role is to build the capacity in the community for improvement and service, and leverage resources so that when the VISTA participant leaves the community, the infrastructure, knowledge, and continued service remains in the community. The VISTA participant may receive a National Service Education Award, or he or she may opt for a \$1220 stipend.

New VISTA program assignments

H.R. 1388 increases the number of program assignment opportunities for a VISTA participant. For example, under the bill a VISTA participant is eligible for assignments to assist a community or program in the re-entry or re-integration of formerly incarcerated youth and adults into society; to develop and implement financial literacy and budgetary programs; to initiate and support before and after-school programs serving children in low-income communities; to establish and support community economic development initiatives; to assist veterans and their families with legal assistance, health care, employment counseling or training, education counseling or training, and other support services; and to address generally the health and wellness of a community. Each of these assignments addresses unmet needs in low-income communities and fall within the intent of the VISTA program to create the capacity of a community to battle poverty and empower its citizens for change in the United States.

Recruitment priorities

H.R. 1388 allows court-involved youth and adults, including previously incarcerated individuals, to serve as VISTA participants. The GIVE Act contains age guidelines for each program, but does not prohibit any citizen from engaging in national service. The Committee agrees that national service can be an effective vehicle for reducing recidivism, and that court-involved individuals should be actively recruited for participation in the program.

H.R. 1388 gives priority to the recruitment of retired adults, particularly those who had careers as health care professionals, engineers, managers or technicians. This priority reflects the Committee's intent to harness the vast knowledge, experience, and expertise of retirees. The Committee recognizes the substantial contributions of the VISTA program to our nation's communities and seeks to include the Baby Boom generation as they retire.

Public or non-profit VISTA support

The Committee recognizes that some organizations or companies are unable to sponsor a VISTA participant within their institution, but may seek ways to support the work of a VISTA participant financially. Accordingly, H.R. 1388 authorizes public or nonprofit organizations to pay all or a portion of the costs of the support services for VISTA participants.

VISTA PROGRAMS OF NATIONAL SIGNIFICANCE

H.R. 1388 includes "programs of national significance" (PNS), similar to those found in the National Senior Service Corps, in VISTA. PNS are implemented when the amounts appropriated for VISTA exceed the amount sufficient to maintain the number of projects and volunteers funded in the preceding fiscal year. Of the funds that exceed the costs of the previous fiscal year, one third is allocated for the support of VISTA programs of national significance, which are reflected in the new programs listed previously. The PNS VISTA participants cannot supplant other VISTA participants.

VISTA Stipend

The Committees supports the commitment of the VISTA participants to live among and at the economic level of those receiving services, but also recognizes that the low stipend inhibits some participation in the VISTA program. Therefore, H.R. 1388 raises the stipend of a VISTA participant to a minimum of \$125/month, and a maximum of \$150/month (if sufficient funds are appropriated).

SUBTITLE B: THE NATIONAL SENIOR SERVICE CORPS (NSSC)

The National Senior Service Corps programs have engaged seniors in meeting the needs of their communities for over four decades. The NSSC is composed of three programs: the Retired Senior Volunteer Program (RSVP), the Foster Grandparents Program (FG), and the Senior Companions Program (SC). H.R. 1388 sets the minimum age for participation in all programs in the National Senior Service Corps at 55 years. The Committee recognizes that even at such a young age, our older Americans wish to be of service to our nation.

Since 1965, the FG participants have provided support and service to children and youth with exceptional needs in a variety of settings, including schools, hospitals, drug treatment centers, correctional institutions, and Head Start and child care centers. FG participants serve from 15-20 hours per week providing one-on-one service to children and youth. In addition, FG participants who meet the low-income eligibility requirements may receive a stipend of \$2.65 per hour for their service.

Since 1971, the RSVP program has provided a wide variety of opportunities for older Americans to meet the needs identified in their communities. RSVP offers the most flexibility among the NSSC programs. Volunteers choose where, when, and how often they will serve. Depending on the program, RSVP participants may choose time commitments from a few hours a week up to forty hours per week.

Since 1974, SC participants offer aging, frail, or homebound individuals with daily living tasks, enabling the recipients to age with dignity and independence. SC participants also provide companionship and may assist a social service case manager. SC participants serve 15 to 40 hours per week and may receive a stipend of \$2.65 per hour for their service if they meet the low income eligibility requirements.

Retired Senior Volunteer Program

For the Retired Senior Volunteer Programs, H.R. 1388 includes a requirement that programs be designed and implemented with the advice of experts in the field of service being offered, as well as with those who have expertise in the recruitment and management of volunteers. To be competitive in the global economy, the Committee recognizes that this nation needs a healthy, scientifically and technologically literate society. Accordingly, H.R. 1388 aims to tap into the talents of the retiring members of the Sputnik generation. Priority in grant evaluation is given to projects that utilize retired STEM professionals, retired health care professionals, retired military and emergency professionals, and retired computer science professionals to serve our nation through the multiple opportunities in RSVP and through the national service laws.

RECOMPETITION

H.R. 1388 phases in competition into the RSVP program over a five year period and requires the Corporation to consult and coordinate with RSVP on the development and implementation of the competitive process. Current grantees remain eligible to compete for program funds. If a grant is awarded, the project may be renewed for an additional three year grant period. After the second grant period the grant must be re-competed. Any grant re-competition within RSVP must continue to support the same number of volunteer years and similar program distribution. In addition, it is the Committee's intent that the re-competition program minimizes any disruption to volunteers. The Committee recognizes the exceptional work of RSVP grantees, but notes that there are few opportunities to motivate program improvement, remove poorly performing grantees, or to encourage and invigorate innovation and evolution among high performing programs. Competition, in concert with the new performance measures and evaluations, is expected to improve or terminate underperforming programs. For highly effective and highly performing programs, competition is expected to drive the innovation and creativity of programs to new levels.

Foster Grandparents and Senior Companions

H.R. 1388 modifies the eligibility requirement for the Foster Grandparents and Senior Companion programs by raising the income level for participants to be eligible for an hourly stipend from 125 percent of poverty to 200 percent of poverty. The GIVE Act also sets the minimum for such stipend at \$2.65/hour. According to Foster Grandparent and Senior Companion service providers, it can be challenging for a program to recruit enough low-income volunteers to fill the number of available volunteer positions. H.R. 1388 allows up to 15 percent of volunteers to have incomes above the income eligibility threshold; as long as the program can demonstrate that it was unable to recruit enough low-income volunteers. Participants allowed under this provision are not eligible for a stipend. Programs shall not engage non-low-income volunteers when there are still low-income individuals to be recruited.

National Senior Service Corps Programs of National Significance

H.R. 1388 changes the programs of national significance (PNS). Under current law, each National Senior Corps program may only apply for particular programs of national significance. H.R. 1388 permits RSVP, FG, and SC to apply for any of the programs of national significance. This change will further the innovation and creative application of outcomes to program models. Furthermore, the Committee requires that the Director of the Corporation ensure that at least 25 percent of the PNS applications are from new program sponsors (that is, an organization not currently receiving assistance from the Corporation), in order to open the applicant pool and encourage National Senior Service Programs in new locations. Included in the PNS are programs that collaborate with criminal justice professionals and organizations in prevention programs aimed at disadvantaged youth or youth re-entering society after incarceration. These programs may include mentoring, counseling, and employment counseling. This opportunity in particular is aimed at serving the youth in our communities who are most at-risk for entering into gangs or other lifestyles resulting in destroyed lives and an economic drain on society. Research shows that prevention saves the nation money in the long term, and that investing in youth early is a wise investment in our nation's future.

Demonstration Programs

H.R. 1388 establishes a demonstration program that supports older Americans while enhancing the capacity of community members to serve each other through reciprocal service centers, service credit banking, community economic scripts, barter services, time-banking, and other similar programs. The program is based on an exchange of services, under which both parties are compensated with reciprocal amounts of volunteer service, and no money changes hands. Such services are a promising and mutually beneficial system that lends legitimacy and compensation to the everyday work that goes financially unpaid. The Committee recognizes that many Americans provide unpaid services to friends and neighbors and that this generosity produces lasting relationships which strengthens communities. To encourage the development of such a system of service reciprocity in communities, H.R. 1388 includes the demonstration program.

CONCLUSION

The Committee believes that national service can help our nation meet local and national challenges, and the GIVE Act is the start of a new direction for national service. The Corporation for National and Community Service, providers, and participants together play a central role in meeting our nation's unmet critical needs. The reauthorization of the National Community Service Act and the Domestic Volunteer Service Act are a priority for the Committee and reflect its intent to renew the spirit of service in our nation in a manner that engages new volunteers and inspires innovation in service.

(d) The Director, in accordance with regulations the Director shall prescribe, may provide to low-income persons serving as volunteers under this part, such allowances, stipends, and other support as the Director determines are necessary to carry out the purpose of this part. [Any stipend or allowance provided under this section shall not be less than \$2.45 per hour on and after October 1, 1993, and shall be adjusted once prior to December 31, 1997, to account for inflation,] *Any stipend or allowance provided under this part shall not exceed 75 percent of the minimum wage under section 6 the Fair Labor Standards Act of 1938 (29 U.S.C. 206), and the Federal share shall not be less than \$2.65 per hour, provided that the Director shall adjust the Federal share once prior to December 31, 2012, to account for inflation, as determined by the Director and rounded to the nearest five cents, except that (1) such stipend or allowance shall not be increased as a result of an amendment made to this sentence unless the funds appropriated for carrying out this part are sufficient to maintain for the fiscal year in question a number of participants to serve under this part at least equal to the number of such participants serving during the preceding fiscal year, and (2) in the event that sufficient appropriations for any fiscal year are not available to increase any such stipend or allowance provided to the minimum hourly rate specified in this sentence, the Director shall increase the stipend or allowance to such amount as appropriations for such year permit consistent with clause (1) of this exception. In establishing the amount of, and the effective date for, such adjustment, the Director, in consultation with the State Commissions on National and Community Service (as established under section 178 of the National and Community Service Act of 1990) and the heads of the State offices established under section 195 of such Act, shall consider the effect*

such adjustment will have on the ability of non-federally funded volunteer programs similar to the programs under this title to maintain their current level of volunteer hours.

(e) For purposes of this part, the terms “low-income person” and “person of low income” mean—

(1) any person whose income is not more than **[125]** 200 per centum of the poverty line defined in section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2)) and adjusted by the Director in the manner described in such section; and

(2) any person whose income is not more than 100 per centum of such poverty line**],** as so adjusted and determined by the Director after taking into consideration existing poverty guidelines as appropriate to local situations**].**

[(B) The regulations issued by the Director to carry out this part (other than any regulations relating to allowances, stipends, and other financial support authorized by subsection (d) to be paid under this part to low-income persons) shall apply to all volunteers under this part, without regard to whether such volunteers are eligible to receive a stipend under subsection (d).

[(C) Individuals who are not low-income persons may not serve as volunteers under this part in any community in which there are volunteers serving under part A of this title unless such individuals have been referred previously for possible placement as volunteers under part A and such placement did not occur.

[(2)(A) Except as provided in subparagraph (B), each recipient of a grant or contract to carry out a project under this part shall give equal treatment to all volunteers who participate in such project, without regard to whether such volunteers are eligible to receive a stipend under subsection (d).

[(B) An individual who is not a low-income person may not become a volunteer under this part if allowing such individual to become a volunteer under this part would prevent a low-income individual from becoming a volunteer under this part or would displace a low-income person from being such a volunteer.

[(3) The Director may not take into consideration or require as a condition of receiving a grant or contract to carry out a project under this part, any applicant for such grant or contract—

[(A) to accept or recruit individuals who are not low-income persons to serve as volunteers under this part; or

[(B) to solicit locally generated contributions, in cash or in kind, to support such individuals.

The Director may not coerce any applicant for, or recipient of, such grant or contract to engage in conduct described in subparagraph (A) or (B).

[(4) Funds appropriated to carry out this part may not be used to pay any cost, including any administrative cost, incurred in connection with volunteers under this part who do not receive a stipend under subsection (d). Such cost incurred with respect to a volunteer may be paid with—

- [(A) funds received by the Director as unrestricted gifts;
- [(B) funds received by the Director as gifts to pay such cost;
- [(C) funds contributed by such volunteer; or
- [(D) locally generated contributions in excess of the amount required to be contributed under subsection (a), in the discretion of the recipient of a grant or contract under such subsection.]

(f)(1) Subject to the restrictions in paragraph (3), individuals who are not low-income persons may serve as volunteers under this part. The regulations issued by the Director to carry out this part (other than regulations relating to stipends or allowances to individuals authorized by subsection (d)) shall apply to all volunteers under this part, without regard to whether such volunteers are eligible to receive a stipend or allowance under subsection (d).

(2) Except as provided under paragraph (1), each recipient of a grant or contract to carry out a project under this part shall give equal treatment to all volunteers who participate in such project, without regard to whether such volunteers are eligible to receive a stipend or allowance under subsection (d).

(3) An individual who is not a low-income person may not become a volunteer under this part if allowing that individual to become a volunteer under this part would prevent a low-income person from becoming a volunteer under this part or would displace a low-income person from being a volunteer under this part.

(g) The Director may also provide a stipend or allowance in an amount not to exceed 10 percent more than the amount established under subsection (d) to leaders who, on the basis of past experience as volunteers, special skills, and demonstrated leadership abilities, may coordinate activities, including training, and otherwise support the service of volunteers under this part.

(h) The program may accept up to 15 percent of volunteers serving in a project under this part for a fiscal year who do not meet the definition of “low-income” under subsection (e), upon certification by the recipient of a grant or contract that it is unable to effectively recruit and place low-income volunteers in the number of placements approved for the project.

Dear Mr. Chairman:

Due to other legislative duties, I was unavoidably detained during Committee consideration of H.R. 1388, "Generations Invigorating Volunteerism and Education (GIVE) Act of 2009." Consequently, I missed roll call number 1, the vote on final passage of the bill. Had I been present, I would have voted in favor of the bill.

I would appreciate your including this letter in the Committee Report to accompany H.R. 1388. Thank you for your attention to this matter.

Sincerely,

ADDITIONAL VIEWS

Committee Republicans appreciate the bipartisan efforts undertaken in order to bring forward H.R. 1388, the Generations Invigorating Volunteerism and Education (GIVE) Act. Committee Republicans have historically had concerns about AmeriCorps and the other programs within the Corporation for National and Community Service, particularly during the Clinton Administration, when there was vast federal mismanagement of these programs. However, many of these concerns have been eliminated due to reforms implemented during the Bush Administration over the last eight years. For example, the Corporation's leadership has instituted significant improvements in efficiency and quality. Some of these efforts include streamlining the grants and application reporting processes, consolidating five field service centers into one, and automating education award payments, time and attendance, and travel.

While reforming the administration of the agency, President George W. Bush used his State of the Union address in 2002 to call on all Americans to serve their country for the equivalent of two years of their lifetime. A few months later, President Bush unveiled his "Principles and Reforms for a Citizen Service Act," a document intended to guide the reauthorization of the national service programs. Specifically, the President called for legislation to: (1) support and encourage greater engagement of citizens in volunteering; (2) make federal funds more responsive to State and local needs; (3) make Federal support more accountable and effective; and (4) provide greater assistance to community-based organizations (which include faith-based organizations).

In response to the President's call to reauthorize the national service laws, Rep. Pete Hoekstra (R-MI), along with Rep. Tim Roemer (D-IN), introduced H.R. 4854, the Citizen Service Act of 2002. That bill sought to reform and strengthen the programs under the Corporation for National and Community Service by implementing accountability measures for grantees and making the Corporation for National and Community Service an effective outlet for leveraging community service among the many service organizations across the country. These reforms were intended to complement the ongoing efforts of the Corporation to strengthen these programs. After years of mismanagement under the Clinton Administration, the Corporation received its ninth consecutive clean audit opinion for FY 2008.

SUPPORT, FOR REPUBLICAN IDEAS

Committee Republicans are pleased that the new Administration has been anxious to build on the reforms and developments of the Bush Administration and the USA FreedomCorps by continuing the dialogue on national service. We are also pleased that the Ma-

majority has agreed that such reforms are necessary and has included many of the key provisions from H.R. 4854 in H.R. 1388. Additionally, Committee Republicans appreciate the Majority's willingness to build on the progress made last Congress with the bill and work in a bipartisan manner again this Congress to continue to improve the bill and incorporate many of the Republican ideas into the product as it moves forward in the legislative process.

Committee Republicans strongly believe that organizations receiving federal funds should utilize those funds, and the participants the funds help support, to leverage federal assistance to encourage other Americans to dedicate some of their time and resources to volunteerism. We appreciate the Majority's willingness to maintain a provision from H.R. 4854 that would require the Corporation to take the ability of generating volunteers into account when reviewing the applications of organizations that are applying for funds under the national service laws. However, Committee Republicans also recognize that the mission of some organizations may not lend themselves to easily meet this goal because of the nature of the activity being performed. In those cases, Committee Republicans believe that organizations should make every effort to promote some form of volunteerism in their projects. Promoting volunteerism will help inspire more individuals to serve and will help leverage the federal funds being provided to these organizations.

Committee Republicans are pleased at the acceptance of an amendment offered by Rep. Vernon Ehlers (R-MI) to clarify that activities for older adults who participate in the National Senior Volunteer Programs may include conducting energy audits, insulating homes, and conducting other activities to promote energy efficiency. The number of participants in the Senior Corps programs will be increasing as the almost 79 million members of the "Baby Boomer" generation retire and look for other activities to fill their days. Many of these individuals have unique skill sets that could be put to use in helping our country become more energy efficient. Also, in the modern home, insulation and other energy efficiency techniques have become very sophisticated. This program will provide participants with the opportunity to learn about these new methods. These participants can also pass their knowledge on to the younger generations through the relationships developed with youth, including disadvantaged youth, through the Senior Corps programs. The concept of energy efficiency provides multidisciplinary learning opportunities in math, science, and language arts—subjects that America's Baby Boomers and seniors can assist students with by using hands-on, real-world projects. This amendment clarifies that activities like conducting energy audits, insulating homes and conducting other activities to promote energy efficiency are activities that would be supported by the national priorities in the Senior Corps programs.

Committee Republicans, particularly Rep. Mark Souder (R-IN), were pleased to see the inclusion of a provision in the Energy Corps that would allow the Corporation to provide grants to projects designed to renew and rehabilitate National Park resources. This amendment was included in the Manager's Amendment offered by Chairman Miller at the markup. Through this amendment, organizations can work to rejuvenate the National

Park system and help connect the parks to the surrounding communities and educational institutions.

ALLOWING INDIVIDUAL CHOICE & REMOVING RED TAPE FOR SMALL ORGANIZATIONS

Committee Republicans are pleased at the inclusion of a provision, building on an amendment offered last Congress by Rep. Souder, to provide the Corporation with authority to create the Serve America Fellowship. The Fellowship requires that one-third of the funds for the Fellowship shall go to individuals serving organizations with not more than 10 full-time employees and 10 part-time employees. This program is an opportunity to provide innovative ways to support small, faith-based and other community-based charities. These smaller organizations are often doing the bulk of the work in our communities serving those in need, but may not have the administrative capacity to support a full AmeriCorps grant. By providing individuals greater choice and small organizations greater opportunities to attract participants, while including accountability measures to ensure that the service is meaningful, this Fellowship could deliver resources to local communities more efficiently.

This reauthorization will also help smaller entities participate in the national service programs by removing needless bureaucracy and red tape. By allowing fixed grant awards, participants will still meet rigorous program requirements but the administrative burden of detailed recordkeeping that has prevented smaller organizations from participating in the past will be eliminated. The bill also allows a two-step implementation of fixed grant awards so we can ensure that the Corporation is able to change its operations without a disruption in funding to the grantees or opening the system up to waste, fraud and abuse.

GREATER OPPORTUNITY FOR VETERANS

H.R. 1388 creates a Veterans Corps aimed at helping those who have served our country in the military but may now require assistance for themselves or their families. For example, through the Veterans Corps, participating organizations agree to provide assistance to military families when their service member has been sent to fight and upon that service member's return home. Many of these families are also participating in their own form of service through activities to support other military families and other service members and this proposal would help foster their ability to continue with those efforts. The bill also requires the Corporation to keep track of what grantees in the national service programs are doing to help veterans and active duty service members. Committee Republicans agree with the Majority and strongly encourage the Corporation to direct organizations to assist veterans, their families and active duty service members as it selects its national priorities.

The bill requires the Corporation to select at least two Corps as national priorities. Committee Republicans strongly encourage the Corporation to select the Veterans Corps as one of the national priorities. Establishing a Veterans Corps recognizes not only veterans' military service to the nation, but also the skills and work ethic gained by that service and it is to the nation's advantage to con-

tinue to use those qualities. Many veterans reenter the civilian world superbly prepared to assume leadership in positions that require a dedication to success, a sense of integrity, and the ability to work collaboratively. In addition, there are veterans, like those that were injured during their service to our nation, that need the help of grantees under the national service laws. The nation's 23–24 million veterans are one of the most diverse workforces in the nation and prioritizing their needs under this Act is the best way to help volunteerism reach all sectors of our nation.

CAMPUSES OF SERVICE

Despite the bipartisan support this bill received in Committee, Committee Republicans do have some concerns about the inclusion of the Campuses of Service provision. This provision would allow the Corporation to select 25 institutions of higher education from among those nominated by the States to be designated as “Campuses of Service.” Upon receiving this award, these institutions could receive up to \$280,000. In order to be nominated for this reward, an institution must demonstrate that they are a leader in national service—the institution has service-learning programs at both the undergraduate and graduate levels; the students attending the institution participate in community service projects through the Federal Work-Study program; students volunteer around the local community; and a large percentage of graduates from the institution find jobs in the public service sector. Committee Republicans believe that these institutions should be highlighted but feel strongly that having the designation is a sufficient reward. Institutions are already eligible for large amounts of federal funds through the service-learning program, the student aid programs, and many of the new programs created as part of the Higher Education Opportunity Act. Additionally, H.R. 1, the American Recovery and Reinvestment Act, included an additional \$200 million in federal work-study funds and included modernization and renovation funds for institutions. Committee Republicans believe that if there are even more funds designated under this bill for institutions, the funds should be directed at those campuses that need to improve their campus record on public service, not help those leaders in the area continue to build up their programming.

CONCLUSION

Committee Republicans appreciate the inclusion in H.R. 1388 of many provisions that were initially proposed in the Citizen Service Act of 2002. In particular, we applaud the inclusion of reforms that Committee Republicans have long championed to ensure that recipients of taxpayer funds are held accountable for results. We are pleased to join with the Majority in supporting bipartisan efforts to strengthen the national service laws and improve service delivery throughout the country. We look forward to working with the Majority as the legislation moves forward.
