Introduction

Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance is a government-wide compendium of Federal programs, projects, services, and activities that provide assistance or benefits to the American public. It contains financial and nonfinancial assistance programs administered by departments and establishments of the Federal government.

In 1984, Public Law 98-169 authorized the transfer of responsibilities of the Federal Program Information Act from the Office of Management and Budget to the General Services Administration (GSA). The transfer took place in July 1984. These responsibilities include the dissemination of Federal domestic assistance program information through the Catalog of Federal Domestic Assistance, pursuant to the Federal Program Information Act, Public Law 95-220, as amended by Public Law 98-169. GSA now maintains the Federal assistance information database from which program information is obtained. The Office of Management and Budget serves as an intermediary agent between the Federal agencies and GSA, thus providing oversight to the necessary collection of Federal domestic assistance program data.

As the basic reference source of Federal programs, the primary purpose of the Catalog is to assist users in identifying programs that meet specific objectives of the potential applicant, and to obtain general information on Federal assistance programs. In addition, the intent of the Catalog is to improve coordination and communication between the Federal government and State and local governments.

The Catalog provides the user with access to programs administered by Federal departments and agencies in a single publication. Program information is cross referenced by functional classification (Functional Index), subject (Subject Index), applicant (Applicant Index), deadline(s) for program application submission (Deadlines Index), and authorizing legislation (Authorization Index). These are valuable resource tools that, if used carefully, can make it easier to identify specific areas of program interest more efficiently.

Other sections of the Catalog provide users with information on programs added and deleted since the last edition of the Catalog, a crosswalk of program numbers and title changes, regional and local offices, intergovernmental review requirements, definitions of the types of assistance under which programs are administered, proposal writing, grant application procedures, and additional sources of information on Federal programs and services.

Programs selected for inclusion in the Federal assistance data base are defined as any function of a Federal agency that provides assistance or benefits for a State or States, territorial possession, county, city, other political subdivision, grouping, or instrumentality thereof; any domestic profit or nonprofit corporation, institution, or individual, other than an agency of the Federal government.

A "Federal domestic assistance program" may in practice be called a program, an activity, a service, a project, a process, or some other name, regardless of whether it is identified as a separate program by statute or regulation. It will be identified in terms of its legal authority, administering office, funding, purpose, benefits, and beneficiaries.

"Assistance" or "benefits" refers to the transfer of money, property, services, or anything of value, the principal purpose of which is to accomplish a public purpose of support or stimulation authorized by Federal statute. Assistance includes, but is not limited to grants, loans, loan guarantees, scholarships, mortgage loans, insurance, and other types of financial assistance, including cooperative agreements; property, technical assistance, counseling, statistical, and other expert information; and service activities of regulatory agencies. It does not include the provision of conventional public information services.

For years, GSA has published a printed version of the Catalog of Federal Domestic Assistance (CFDA or Catalog), as required by legislation dating to 1977 and 1983. That same legislation allowed GSA to distribute free copies of the printed Catalog to designated recipients. In fiscal year 2003, nearly 10,000 paper copies of the Catalog were distributed at no cost to the recipients.

Current legislation, however, authorizes GSA to determine in what form to prepare and publish the Catalog. Consistent with the Administration's Electronic-Government initiatives, the Government Paperwork Elimination Act, and a move to a paper free environment, GSA will now disseminate the Catalog electronically through the CFDA website on the Internet. As a result, effective immediately, GSA will no longer print and distribute free copies of the Catalog.

The Internet and GSA's free CFDA website at <http://www.cfda.gov> will be the primary means of disseminating the Catalog. The CFDA website will also contain a PDF file version of the Catalog that, when printed by any user, will have the same layout as the printed document that the Government Printing Office (GPO) has provided.

GPO will continue printing and selling the CFDA to interested buyers. For information about purchasing the Catalog of Federal Domestic Assistance from GPO, call the Superintendent of Documents at 202-512-1800 or toll free at 866-512-1800, or you may reach GPO's on-line bookstore at <http://bookstore.gpo.gov>.

Types Of Assistance

Currently, programs in the Catalog are being classified by GSA into 15 types of assistance. (Cooperative Agreements as a type of assistance is used for programs administered under that mechanism. However, the definition does not appear in this section.) Benefits and services of the programs are provided through seven financial types of assistance and eight nonfinancial types of assistance. The following list defines the types of assistance that are available through the programs. Code letters below (A through O) which identify the type of assistance) will follow program titles in the Agency Index, Applicant Eligibility Index, the Functional Index, Deadlines Index, and in the list of added programs.

- A** Formula Grants - Allocations of money to States or their subdivisions in accordance with distribution formulas prescribed by law or administrative regulation, for activities of a continuing nature not confined to a specific project.
- B** Project Grants - The funding, for fixed or known periods, of specific projects. Project grants can include fellowships, scholarships, research grants, training grants, traineeships, experimental and demonstration grants, evaluation grants, planning grants, technical assistance grants, survey grants, and construction grants.
- C** Direct Payments for Specified Use - Financial assistance from the Federal government provided directly to individuals, private firms, and other private institutions to encourage or subsidize a particular activity by conditioning the receipt of the assistance on a particular performance by the recipient. This does not include solicited contracts for the procurement of goods and services for the Federal government.
- D** Direct Payments with Unrestricted Use - Financial assistance from the Federal government provided directly to beneficiaries who satisfy Federal eligibility requirements with no restrictions being imposed on the recipient as to how the money is spent. Included are payments under retirement, pension, and compensatory programs.
- E** Direct Loans - Financial assistance provided through the lending of Federal monies for a specific period of time, with a reasonable expectation of repayment. Such loans may or may not require the payment of interest.
- F** Guaranteed/Insured Loans - Programs in which the Federal government makes an arrangement to identify a lender against part or all of any defaults by those responsible for repayment of loans.
- G** Insurance - Financial assistance provided to assure reimbursement for losses sustained under specified conditions. Coverage may be provided directly by the Federal government or through private carriers and may or may not involve the payment of premiums.
- H** Sale, Exchange, or Donation of Property and Goods - Programs which provide for the sale, exchange, or donation of Federal real property, personal property, commodities, and other goods including land, buildings, equipment, food and drugs. This does not include the loan of, use of, or access to Federal facilities or property.
- I** Use of Property, Facilities, and Equipment - Programs which provide for the loan of, use of, or access to Federal facilities or property wherein the federally owned facilities or property do not remain in the possession of the recipient of the assistance.
- J** Provision of Specialized Services - Programs that provide Federal personnel directly to perform certain tasks for the benefit of communities or individuals. These services may be performed in conjunction with nonfederal personnel, but they involve more than consultation, advice, or counseling.

- K** Advisory Services and Counseling - Programs which provide Federal specialists to consult, advise, or counsel communities or individuals to include conferences, workshops, or personal contacts. This may involve the use of published information, but only in a secondary capacity.
- L** Dissemination of Technical Information - Programs that provide for the publication and distribution of information or data of a specialized or technical nature frequently through clearinghouses or libraries. This does not include conventional public information services designed for general public consumption.
- M** Training - Programs that provide instructional activities conducted directly by a Federal agency for individuals not employed by the Federal government.
- N** Investigation of Complaints - Federal administrative agency activities that are initiated in response to requests, either formal or informal, to examine or investigate claims of violations of Federal statutes, policies, or procedure. The origination of such claims must come from outside the Federal government.
- O** Federal Employment - Programs that reflect the Governmentwide responsibilities of the Office of Personnel Management in the recruitment and hiring of Federal civilian agency personnel.

Organization of the Catalog

The Catalog is divided into three basic sections -- the indices, the program descriptions, and the appendices.

INDICES --To locate specific programs of interest, determine eligibility, and to obtain information on the dates applications for assistance should be submitted to the funding agency, users may consult the Agency Program Index, the Functional Index, or the Subject Index; the Applicant Eligibility Index, and the Index listing deadlines for program applications.

The Agency Index Summary provides a description of the functions and activities of Federal agencies responsible for administering programs in the Catalog. Program numbers are also listed with the administering agency.

The Agency Program Index lists all programs in the Catalog in numerical order by the five-digit program identification number, the program title, the Federal agency responsible for administering the program, and whether the program offers financial assistance, nonfinancial assistance, or a combination of both.

The Functional Index Summary lists the basic functional categories and the subcategories that further identify specific areas of interest. Following the Summary is the Functional Index listing each program number and title under the appropriate basic category and subcategory.

The Subject Index provides a detailed listing of programs by various topics, popular name, general functional terms, categories of services, and selected beneficiaries, and is followed by the applicable program numbers.

The Applicant Eligibility Index is a listing in program number sequence, along with program titles, indicating the applicants eligible to apply. The index lists programs that may be applied for by:

- Any of the several States of the United States, the District of Columbia, or any agency or instrumentality of a State exclusive of State institutions of higher education and hospitals;
- Local governments which include a county, parish, municipality, city, town, township, village, State-designated Indian tribal government, local public authority, school district, special district, intrastate district, council of governments, sponsor group representative organizations, and other regional or interstate government entity, or any agency or instrumentality of a local government;
- U.S. Territories (and possessions) of the United States which include the Commonwealths of Puerto Rico and the Northern Mariana Islands, the Virgin Islands, Guam, Trust Territory of the Pacific Islands, and American Samoa;
- Federally-recognized Indian Tribal governments which include the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in Section 3 of the Alaska Native Claims Settlement Act, 85 Stat. 688) certified by the Secretary of the Interior as eligible for the special programs and services provided through the Bureau of Indian Affairs;
- Nonprofit organizations and institutions which include quasi-public, public and private institutions of higher education and hospitals, Native American Indian Organizations, and other quasi-public and private nonprofit organizations such as, but not limited to, community action agencies (CAAs), Head Start agencies, research institutes, educational associations, and health centers. Excluded under this definition are government-owned contractor operated facilities or research centers providing support for mission-oriented, large scale programs that are government-owned or controlled, or are designed as federally-funded research and development centers; and

- Private individuals such as Native Americans, homeowners, students, farmers, artists, scientists, consumers, small business, refugees, aliens, veterans, senior citizens, low-income persons, health and education professionals, builders, contractors, developers, handicapped persons, the physically afflicted.

The Deadlines Index (for program applications) is a listing of program numbers and titles and the deadline date(s) by which funding agencies must receive applications. This information is also contained in the Deadlines Section of the program descriptions.

Users should also consult the following listings:

The Deleted Programs list identifies programs that have been deleted since the previous edition of the Catalog due to: expiration of budget authority; rescission of budget authority for the current fiscal year; program consolidation which has rendered the former program number(s) obsolete; the replacement of a categorical grant program by a block grant program; the replacement of two or more categorical programs by a block grant program; the abolishment of an agency; or the criteria for including a program in the Catalog no longer valid being (e.g., a program which no longer operates under Federal funding).

The Added Programs list identifies programs that have been added since the previous edition of the Catalog due to: the appropriation of new budget authority; the consolidation of two or more programs creating a new program; the splitting of elements from a former program creating two or more new programs; the transformation of a single categorical grant program into a block program; or the consolidation of two or more categorical grant programs into a block program.

The Crosswalk of Changes to Program Numbers and Titles which lists programs that have undergone a title change, or a program number change due to restructuring of programs, or reorganization of a Federal agency.

PROGRAM DESCRIPTIONS -- The center section of the printed Catalog and the listings available on this web site contain descriptions of Federal programs listed by program number in the same numerical sequence as in the Agency Program Index. Detailed information concerning programs is contained under the description headings of each Catalog program. The following is an explanation of each program description heading followed by examples of the type of information found under each heading.

NOTE: The program used in the example below does not exist. It is provided for the purpose of illustration only.

PROGRAM NUMBER, TITLE, AND POPULAR NAME -- Each program in the Catalog is preceded by a five-digit program identification number. The first two digits identify the Federal department or agency that administers the program, and the last three numbers are assigned in numerical sequence. Thus, program number 10.500 is administered by the Department of Agriculture, 11.500 by the Department of Commerce, 12.500 by the Department of Defense, 93.500 by the Department of Health and Human Services, and so on. (In the numerical sequence of program numbers, some numbers do not appear due to program deletions or consolidations. To accommodate users' systems and records, the numbers are not reassigned to other programs but are reserved for the reinstated programs.) The program title is the descriptive name given to a program. The popular name, which is less descriptive than the program title, is the name by which programs are commonly known or most often used by applicants and agencies.

Example: 93.259 Mental Health -- Children's Services

FEDERAL AGENCY -- The Federal agency is the Federal department, agency, commission, council or instrumentality of the government, and the primary organizational sub-unit (the administering office) that has direct operational responsibility for managing a program.

Example: SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION -- This section lists the legal authority upon which a program is based (acts, amendments to acts, Public Law numbers, titles, sections, Statute Codes, citations to the U.S. Code, Executive Orders, Presidential Reorganization Plans, and Memoranda from an agency head). Information provided here is used to produce Appendix II, the Authorization Appendix.

Example: Community Mental Health Centers Act of 1975, Part A, Section 203(e), Public Law 94-63, 42 U.S.C. 2689.

OBJECTIVES -- This is a brief statement of specific objectives stated in terms of what the program is intended to accomplish along with the goals toward which the program is directed.

Example: To stimulate innovative approaches to children's mental health problems emphasizing prevention and coordination of community services; to expand training activities; and, to broaden resources for children's mental health services.

TYPES OF ASSISTANCE -- This section indicates the form in which the assistance is transmitted from the Federal government and is initially received for use or distribution by the applicant.

Example: Project Grants.

USES AND USE RESTRICTIONS -- This section describes the potential uses for the assistance provided to meet stated objectives, and the specific restrictions placed upon the use of funds. The section cites one or more applications depending upon the nature of a particular program. Since this section translates objectives into the uses of a program, users may develop a clearer understanding of the program's objectives.

Example: Support for Continuation Grants only. Program authorizes funds on a matching basis for initial staffing of facilities offering mental health services for children. Staffing grants may be used for a portion of the costs of professional and technical personnel to operate a facility for child mental health services; a higher percentage may be paid if an area has been designated a poverty area by the Secretary, HHS. The proposed program must provide consultation and coordinating services with other community agencies serving children in service area, and must include a plan with the means by which it will be evaluated.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility -- This section indicates who can apply to the Federal government for assistance and the criteria the potential applicant must satisfy. For example, individuals may be eligible for research grants, and the criteria to be satisfied may be that they have a professional or scientific degree, 3 years of research experience, and be a citizen of the United States. Universities, medical schools, hospitals, or State and local governments may also be eligible. Where State governments are eligible, the type of State agency will be indicated (State welfare agency or State agency on aging) and the criteria that they must satisfy.

Certain programs in the Catalog (e.g., the Pell Grant program which provides grants to students) involve intermediate levels of application processing, i.e., applications are transmitted through colleges or universities that are neither the direct applicant nor the ultimate beneficiary. For these programs, the criteria that the intermediaries must satisfy are also indicated, along with intermediaries who are not eligible.

Example: To be eligible for staffing grants, applicants must be part of, or affiliated with, a community mental health center, unless there is no center serving the community. Applicants may then be any public or private nonprofit agency providing, or coordinating with programs that will provide a full range of mental health services for children and their families residing in the service area.

Beneficiary Eligibility -- This section lists the ultimate beneficiaries of a program, the criteria they must satisfy and who specifically is not eligible. The applicant and beneficiary will generally be the same for programs that provide assistance directly from a Federal agency. However, financial assistance that passes

through State or local governments will have different applicants and beneficiaries since the assistance is transmitted to private sector beneficiaries who are not obligated to request or apply for the assistance.

Example: Children and their families in the service area as well as personnel of schools and other community agencies serving children.

Credentials/Documentation -- This is a brief description of the credentials or documentation required prior to, or along with, an application for assistance. The eligibility factors that must be proven, certified, or established are indicated in this section. This section also indicates whether OMB Circular No. A-87 requirements, "Cost Principles Applicable to Grants and Contracts with State and Local Governments," are applicable. In cases where specific Federal circulars or other regulatory requirements are not applicable to the program, disclaimer statements may be included referencing the requirement(s) from which the program is excluded, e.g., "This program is excluded from coverage under (applicable requirement)."

Example: Proof of nonprofit status is required of nonprofit organizations and institutions. This program is excluded from coverage under OMB Circular No. A-87.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination -- This section indicates whether any prior coordination or approval is required with governmental or nongovernmental units prior to the submission of a formal application to the Federal funding agency. For example, programs may require: (1) State agency approval prior to the submission of an application to a Federal agency; (2) the submission of environmental impact information as required by the National Environmental Policy Act of 1969, and Executive Order 11514 of March 4, 1970; (3) coordination with the policies of the recently revised OMB Circular No. A-102, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments" (referenced here for construction, land acquisition, and land development projects for which Federal funding exceeds \$100,000); (4) coverage for eligibility under Executive Order 12372, "Intergovernmental Review of Federal Programs"; or (5) a preapplication or preapplication conference. Applicants should also ascertain from the Federal agency the existence of other circular requirements not indicated by this section, and from the State, any State requirements that may be in effect. In cases where E.O. 12372 is not applicable to the program, a disclaimer statement is included referencing the exclusion, e.g., "This program is excluded from coverage under E.O. 12372."

Example: Preapplication consultation with the Substance Abuse and Mental Health Services Administration (SAMHSA) Branch of the HHS Regional Office is not mandatory. Application must be accompanied by evidence of approval and recommendation by the appropriate State agency or agencies. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. This program is excluded from coverage under E.O. 12372.

Application Procedure -- This section discusses the basic procedural steps required by the Federal agency in the application process, beginning with the lowest level (e.g., State and local government units, institutions or organizations) and ending eventually with the Federal government. Each program will indicate whether applications are to be submitted to the Federal headquarters, regional or local office, or to a State or local government office. Numerous programs in the Catalog require the standard application forms in OMB Circular No. A-102 (Attachment M). Other applications may be in the form of a written request to the funding agency stating the need for assistance and requesting available services, or a formal proposal prepared in response to an announcement in the Federal Register or the Commerce Business Daily. Also indicated in this section is guidance concerning the applicability of OMB Circular No. A-110, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations." In cases where specific Federal circulars or other regulatory requirements are not applicable to the program, disclaimer statements may be included referencing the requirement(s) from which the program is excluded, e.g., "This program is excluded from coverage under (applicable requirement)."

Example: Continuation Application Form ADM-115 should be used for staffing. Instructions and consultation may be obtained from the mental health section of the appropriate HHS Regional Office. Applications are sent to the Regional Office with copies to Acting Director, Division of Mental Health Service Programs, Substance Abuse and Mental Health Services Administration, 5600 Fishers Lane, Rockville, MD 20857. This program is subject to the provisions of OMB Circular No. A-110. This program is excluded from coverage under OMB Circular No. A-102.

Award Procedure -- This section lists the basic procedural steps for awarding assistance, beginning with the organizational components of the Federal agency that has final approval authority for the application and ending with the lowest level at which Federal resources are expended. Also indicated is whether assistance passes through the initial applicant for further distribution by intermediate level applicants to groups or individuals in the private sector.

Accepted applications are subject to evaluation by the headquarters, regional, local or district office to determine the feasibility of the proposed project to include consistency with Federal and individual agency policies concerning its scope and purpose. Grant payments may be made by a letter of credit, advance by Treasury check, or reimbursement by Treasury check. The headquarters office may make awards directly to the applicant, an agency field office, a regional office, or by an authorized county office.

Example: The Regional Health Administrator makes awards to approved applicants.

Deadlines -- When available, this section indicates the deadlines for applications to the funding agency that will be stated in terms of the date(s) or between what dates the application should be received. Reference is made to new applications, continuations, renewals, and supplementals. Application deadline information is also indicated in the Deadlines Index, in the agency's program guidelines, or announced in the Federal Register. Where not available, applicants should contact the funding agency for deadline information.

Example: Staffing: Determined by award period (contact the Regional Office).

Range of Approval or Disapproval Time -- This section informs the applicant of the representative range of time required for the application to be processed (in terms of days or months) at the Federal level.

Example: From 90 to 120 days.

Appeals -- In some cases, there are no provisions for appeal. Where applicable, this section discusses appeal procedures or allowable rework time for resubmission of applications to be processed by the funding agency. Appeal procedures vary with individual programs and are either listed in this section or applicants are referred to appeal procedures documented in the relevant Code of Federal Regulations (CFR).

Example: Not applicable. (An appeal was not applicable in this case. A related program (93.231) allows applicants to reapply if revised applications are submitted.)

Renewals -- This section advises the applicant as to whether renewals or extensions of applications are available and indicates the appropriate procedures to follow. In some instances, renewal procedures may be the same as for the application procedure, e.g., for projects of a non-continuing nature renewals will be treated as new, competing applications; for projects of an ongoing nature, renewals may be given annually. Example: This program is renewed annually. Grantees are required to update their plan and submit a current year budget.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements -- This section indicates the formula and matching requirements prescribed in the allocation of funds or maintenance of effort requirements. A formula may be based on population, per capita income, and other statistical factors. Applicants are informed whether there are any matching requirements to be met when participating in the cost of a project. In general, the matching share represents that portion of the project costs not borne by the Federal government. Usually, a minimum

percentage for matching share is prescribed by program legislation, and matching share requirements are included in the grant agreement. Attachment F of OMB Circular No. A-102 sets forth the criteria and procedures for the evaluation of matching share requirements which may be cash or in-kind contributions made by State and local governments or other agencies, institutions, private organizations, or individuals to satisfy matching requirements of Federal grants or loans.

Cash contributions represent the grantees' cash outlay, including the outlay of money contributed to the grantee by other public agencies, institutions, private organizations, or individuals. When authorized by Federal regulation, Federal funds received from other grants may be considered as the grantees' cash contribution.

In-kind contributions represent the value of noncash contributions provided by the grantee, other public agencies and institutions, private organizations or individuals. In-kind contributions may consist of charges for real property and equipment, and value of goods and services directly benefiting and specifically identifiable to the grant program. When authorized by Federal legislation, property purchased with Federal funds may be considered as grantees' in-kind contribution.

Maintenance of effort (MOE) is a requirement contained in certain legislation, regulations, or administrative policies stating that a grantee must maintain a specified level of financial effort in a specific area in order to receive Federal grant funds, and that the Federal grant funds may be used only to supplement, not supplant, the level of grantee funds. Programs that have maintenance of effort requirements and have total allocations over \$100 million (current FY) should have the following statement in this section: This program has maintenance of effort (MOE) requirements; see funding agency for further details.

Example: Staffing: Federal funds on a decreasing percentage basis over a period of 8 years 90 percent - 1st and 2nd years; 80 percent - 3rd year; 75 percent - 4th and 5th years; 70 percent - 6th, 7th and 8th years. Nonpoverty areas are entitled to: 80 percent - 1st and 2nd years; 75 percent - 3rd year; 60 percent - 4th year; 45 percent - 5th year; 30 percent - 6th, 7th and 8th years.

Length and Time Phasing of Assistance -- This section indicates the time period during which the assistance is normally available, whether there are any restrictions placed on the time permitted to use the funds awarded, and the timing of disbursement of the assistance, e.g., lump sum, annually, quarterly, or as required.

Example: Staffing grants are limited to 8 years by law. Payments are made on a Monthly Cash Request System or under a Letter of Credit.

POST ASSISTANCE REQUIREMENTS:

Reports -- This section indicates whether program reports, expenditure reports, cash reports or performance monitoring is required by the Federal funding agency, and specifies at what time intervals (monthly, annually, etc.) this must be accomplished.

Example: Interim progress reports must be submitted annually as part of a non-competing application; reports of expenditures are due annually. Immediate reporting of any inventions is required.

Audits -- This section discusses audits required by the Federal agency. The procedures and requirements for State and local governments and nonprofit entities are set forth in OMB Circular No. A-133. These requirements pertain to awards made within the respective State's fiscal year -- not the Federal fiscal year, as some State and local governments may use the calendar year or other variation of time span designated as the fiscal year period, rather than that commonly known as the Federal fiscal year (from October 1st through September 30th).

Example: In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that receive financial assistance of

\$300,000 or more in Federal awards will have an audit made for that year. Nonfederal entities that expend less than \$300,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records -- This section indicates the record retention requirements and the type of records the Federal agency may require. Not included are the normally imposed requirements of the General Accounting Office. For programs falling under the purview of OMB Circular No. A-102, record retention is set forth in Attachment C. For other programs, record retention is governed by the funding agency's requirements.

Example: Records must be retained at least 3 years; records shall be retained beyond the 3-year period if audit findings have not been resolved.

FINANCIAL INFORMATION:

Account Identification -- This 11-digit budget account identification code represents the account that funds a particular program. This code should be consistent with the code given for the program area as specified in Appendix III of the Budget of the United States Government. (See Appendix III for further information on the meaning of the 11 digits of this code.)

Example: 75-1361-0-1-550.

Obligations -- The dollar amounts listed in this section represent obligations for the past fiscal year (PY), estimates for the current fiscal year (CY), and estimates for the budget fiscal year (BY) as reported by the Federal agencies. In each succeeding edition of the Catalog, the dollar amounts are revised to reflect changes that may result from supplemental appropriations or amendments. Each program indicates what the obligation figures represent in terms of the type of assistance provided. Obligations for nonfinancial assistance programs indicate the administrative expenses involved in the operation of a program as an indication of the magnitude of the services being provided, or the items involved in obligations.

Example: (Grants) PY \$19,853,000; CY est. \$20,407,000; and BY est. \$14,830,000.

Range and Average of Financial Assistance -- This section lists the representative range (smallest to largest) of the amount of financial assistance available. These figures are based upon funds awarded in the past fiscal year and the current fiscal year to date. Also indicated is an approximate average amount of awards that were made in the past and current fiscal years.

Example: Formula: \$26,355 to \$691,481; \$235,305.

FAS fulfills its role as the promotional agency for the world's largest agricultural export business through its network of agricultural counselors, attaches, and trade officers stationed overseas and its backup team of analysts, marketing specialists, negotiators, and related specialists. FAS maintains a worldwide agricultural intelligence and reporting system through its attached service. FAS also has a continuing market development program to develop, service, and expand commercial export markets for U.S. agricultural products. By virtue of the Agricultural Trade Act of 1978, FAS received authority to open at least 6 and not more than 25 agricultural trade offices overseas to develop, maintain and expand international markets for U.S. agricultural commodities. Ten of these offices have been established and are located in such key markets as West Germany, Saudi Arabia, Singapore, and Mexico City. To improve access for U.S. farm products abroad, FAS international trade policy specialists coordinate and direct USDA's responsibilities in international trade agreement programs and negotiations. FAS also manages the Public Law 480 Program, Titles I and III (Food for Peace Program), and the Commodity Credit Corporation (CCC) Export Credit Guarantee Programs. Title I, the concession sales section of Public Law 480, provides for low-interest, long-term credit to recipients of U.S. farm commodities. The Title II program authorizes the donation of agricultural commodities to foreign governments, voluntary relief agencies, or intergovernmental organizations. Title III permits multiyear programming and forgiveness of dollar payments, provided the recipient country undertakes specific agricultural and economic development projects for commodities delivered under Title I agreements. FAS focuses on sharing knowledge of agriculture through development assistance and cooperation with other countries. These land and service ethics are applied by the Forest Service through ecosystem management. Ecosystem management is the integration of ecological, economic, and social factors in order to maintain and enhance the quality of the environment to meet current and future needs. The four strategic goals of the Forest Service are to: (1) protect ecosystems, (2) restore deteriorated ecosystems, (3) provide multiple benefits for people within the capabilities of ecosystems, and (4) ensure organizational effectiveness. The Forest Service Natural Resource Agenda identifies four key areas of national focus. They are: watershed, health and restoration; sustainable forest ecosystem management; forest roads management; and recreation enhancement. Implementation of the agenda will help bring people together and help them find ways to live within the limits of the land. This in turn will ensure that future generations will forever be endowed with the rich natural bounty of our Nation.

Risk management tools include a variety of risk management options and strategies developed to assist producers in mitigating the risks inherent in agricultural production. Risk management tools may include financial management tools to mitigate price and production risks; tools to enhance measurement and prediction of risks in order to facilitate risk diversification; tools to improve production management, harvesting, record keeping or marketing.

(B) Provide women, limited resource, socially disadvantaged, and other traditionally underserved producers of Priority Commodities with risk management training, informational opportunities, and assistance necessary to understand:

- (1) The kind of risks addressed by existing and emerging risk management tools;
- (2) The features and appropriate use of existing and emerging risk management tools; and
- (3) How to make sound risk management decisions.

Drawing on the resources of the Library of Congress, the Center works closely with other organizations to explore important issues in the book and educational communities, to encourage reading, and to encourage research about books and about reading. Its goal is to serve as a useful catalyst by bringing together authors, publishers, librarians, booksellers, educators, scholars, and readers to discuss common concerns and work toward the solution of common problems. The Library provides technical information related to the preservation and restoration of library and archival material. A series of leaflets on various preservation and conservation topics has been prepared by the Preservation Office. Information and publications are available from the National Preservation Program Office, Library of Congress. Its \$16.5 billion appropriation comprises close to 3 percent of total Federal discretionary spending DOE Funds the largest environmental cleanup in history, and research and development that supports the Nation's defense and its energy and economic security. DOE employs over 11,000 Federal employees and about 108,000 contract employees. DOE owns and manages over 50 major installations located on 2.4 million acres in 35 States and is the fourth largest Federal landowner in the United States. DOE is an energy policy, supply, and technology enterprise. It invests in developing a secure, clean, and sustainable energy system. It helps the Nation meet its environmental challenges by administering the largest pollution prevention and efficiency program in the world, with partners from every sector of the economy. It enhances the Nation's energy security by increasing the diversity of energy, and fuel choices and sources; bringing renewable energy sources into the market, strengthening domestic production of oil and gas, maintaining the U.S. nuclear energy option, and increasing the efficiency with which we use energy and generate electricity. The Department also maintains the Strategic Petroleum Reserve and operates five Power Marketing Administrations that sell and distribute over \$3 billion of electric power generated at Federal hydroelectric plants. DOE is a national security enterprise. It is a key player in the Administration's furtherance of the Comprehensive Test Ban Treaty and its overall goal of reducing the global danger from nuclear weapons. It ensures the safety and reliability of the U.S. nuclear weapons stockpile without underground testing. At the same time, it manages and safely dismantles excess nuclear materials, and ensures the security of vital departmental nuclear assets. It provides policy and technical assistance to curb global proliferation of weapons of mass destruction, emphasizing U.S. nonproliferation, arms control, and nuclear safety objectives in the states of the former Soviet union and worldwide. Further, it develops and ensures the safety and reliability of nuclear reactor plants to power U.S. Navy warships. DOE is an environmental remediation enterprise. It cleans up the 50-year environmental legacy left at the industrial complexes where nuclear weapons were designed and manufactured. It manages the problems associated with the large quantities of various types of radioactive wastes, surplus nuclear materials, and spent nuclear fuels that remain at the sites of the Nation's nuclear weapons facilities and at nuclear energy research and development sites. In addition, it must address the growing inventory of spent nuclear fuel from commercial nuclear reactors that is awaiting disposal. These wastes must be dealt with responsibly to ensure the safety and health of the public. DOE is a science and technology enterprise. At the center of all we do are our 27 laboratories, our additional scientific user facilities, and our researchers at the Nation's universities. These form the backbone of U.S. scientific leadership by conducting and facilitating breakthrough research in energy sciences and technology, high energy physics, global climate change, genomics, superconducting materials, accelerator technologies, environmental sciences, and super-computing in support of DOE's mission. The laboratories, described as the crown jewels of the Nation's science establishment, and the Department's funding of research at universities have resulted in 66 Nobel prize winners, including three in 1996.

The Department is also an investor in the Nation's most precious resource - its youth -

by supporting science and mathematics education in our schools through grants, educational programs, and fellowships. DOE is global enterprise. The outcome of our work is the technology that stimulates the private market for the expansion of clean energy to meet national and global energy requirements of almost 500 quadrillion Btu's by the year 2010 - a staggering 36 percent increase over 1995. Overseas energy market needs include coal, nuclear power, oil and gas exploration, energy efficiency, and renewable energy technologies that are available for export now or that will soon be available for the international marketplace. DOE supports the export of U.S. energy services and technologies by assisting the nations in Asia, South America, Eastern Europe, an Africa, and the states of the former Soviet Union in developing private markets for environmentally responsible, sustainable energy. These alliances support U.S. competitiveness in a global economy of growing energy infrastructure requirements and create jobs in the U.S. at all skill levels.

PENSION BENEFIT GUARANTY CORPORATION (PBGC) (86.001)

The Pension Benefit Guaranty Corporation guarantees payment of nonforfeitable pension benefits in covered, private-sector-defined benefit pension plans. Title IV of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1301 et seq.) provides for coverage of most private-sector-defined benefit pension plans that provide a benefit based on factors such as age, years of service, and average or highest salary. The Corporation administers two benefit insurance programs separately covering single-employer and multi-employer plans. Nearly 40 million workers participate in more than 112,000 covered plans. Single-Employer Insurance: Under the single-employer program, the Corporation guarantees payment of a covered plan's basic benefits if that plan terminates without sufficient assets to pay those guaranteed benefits. Multi-employer Insurance: Under Title IV of the Act, as originally enacted, the Corporation guaranteed nonforfeitable benefits for multi-employer plans in a similar fashion as for single-employer plans. However, the payment of guaranteed benefits was at the agency's discretion under the provisions of the law that remained in force until August 1, 1980. The Multi-employer Pension Plan Amendments Act of 1980 (29 U.S.C. 1001) revised the law applicable to multi-employer pension plans by changing the insurable event from plan termination to plan insolvency. In accordance with the Act, the Corporation provides financial assistance to plans that are unable to pay basic benefits. The plans are obligated to repay such assistance. The act also made employers withdrawing from a plan liable to the plan for a portion of its unfunded vested benefits. Premium Collections: All defined benefit pension plans covered by Title IV of Employee Retirement Income Security Act are required to pay premiums under prescribed rates to the Corporation.

UNITED STATES INSTITUTE OF PEACE (91.001-91.002)

The United States Institute of Peace was established as an independent, Federal, nonprofit corporation by act of October 19, 1984 (22 U.S.C. 4603). It was established to strengthen the Nation's capacity to promote international peace and the peaceful resolution of conflicts among the peoples and nations of the world. The purpose of the Institute is to develop and disseminate knowledge about the peaceful resolution of international conflict. To accomplish this the Institute has set the following goals: To provide creative practical insights through research, education, and training on negotiation, mediation, and other skills to those actively engaged in resolving international conflicts; to expand the body of knowledge about the nature and processes of peace, war, and international conflict management; and to disseminate information to the public about these subjects. Among the Institute's instruments are grants, fellowships, a library, and in-house projects. The grants program provides financial support to nonprofit organizations, including private colleges and universities; official public institutions, including public schools, colleges, universities, libraries, and Federal, State, and local agencies; and individuals, whether or not they are associated with nonprofit or official public institutions. The Jennings Randolph Program for International Peace offers senior fellowships annually to practitioners or scholars in the U.S. and around the world who join the Institute for about ten months to work on projects concerning the sources and nature of international conflict and ways of managing conflict and sustaining peace. The program also awards Peace Scholar Dissertation Fellowships annually to outstanding doctoral students enrolled in an accredited university in the U.S. who are researching or writing a dissertation that promises to contribute knowledge relevant to the formulation of policy on international peace and conflict issues. The Jeannette Rankin Library Program is developing four main components on international peacemaking: a specialized research library; a network with and support for other libraries, both specialized and public; an oral history resource; and bibliographic as well as other data bases. Institute-directed projects under the Education and Public Information Program include an educational TV program and cassette programs on such topics as U.S.-Soviet summitry and a National Peace Essay Contest for high school students. The in-house Research and Studies is completing a broad, systematic examination of peace and conflict management theories and features workshops and seminars. Institute publications include biennial report to Congress and the President; a newsletter, The United States Institute of Peace Journal; and short issue papers, in brief. For more information please visit the Institute's web site at www.usip.org.

SOCIAL SECURITY ADMINISTRATION (SSA) (96.001-96.020)

On March 31, 1995, the Social Security Administration (SSA) became an independent agency. SSA administers a national program of contributory social insurance. Employees, employers, and the self-employed pay contributions which are pooled in special trust funds. When earnings cease or are reduced because the worker retires, dies, or becomes disabled, monthly cash benefits are paid to replace part of the earnings the family has lost. Part of the workers contribution goes into a separate hospital insurance trust fund. This fund helps disabled workers, retirees, and their dependents with their hospital bills. They may also elect to receive assistance with medical expenses. This is done by the workers paying a percentage of supplementary medical insurance premiums. The Federal government pays the balance. Together, these two programs are often referred to as "Medicare." Medicare protection is also provided, under certain conditions, to Railroad Retirement beneficiaries based on a disability. The principal functions of SSA include, but are not limited to; research and recommendations oriented to the problems of poverty; health care for the aged, blind, and disabled; long-range planning, design, and development of SSA administrative plans; data processing systems used in establishing and maintaining records essential to its' various programs; statistical measurement and systematic evaluation of its' programs; policy guidance for the administration of the OASDI and SSI programs;

and development of programs and materials to assure that Congress, Federal and State agencies, and the general public have an adequate understanding of the protections, rights, and responsibilities under SSA administered programs. In addition, SSA, through a world-wide organization of ten regional offices, six program service centers, and over 1,300 field offices, guides and directs all aspects of the cash benefit program operations of SSA

OBJECTIVES:

To improve and stabilize farm income, to assist in bringing about a better balance between supply and demand of the commodities, and to assist farmers in the orderly marketing of their crops.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use; Direct Loans.

USES AND USE RESTRICTIONS:

Loans and loan deficiency payments (LDP's) give farmers a means of promoting more orderly marketing. Loans to producers may be "nonrecourse" which means that producers have the option of forfeiting the collateral to CCC at loan maturity in full satisfaction of the loan obligation; or "recourse" for low quality grain, or un-ginned seed cotton, which means that producers must repay the loans by maturity." If market prices are above the support level producers may repay their loans at the original loan principal plus interest and market their commodities. When market prices are low, most nonrecourse commodity loan repayments are less than the original loan principal plus interest. Eligible commodities for loans are feed grains, wheat, rice, peanuts, tobacco, upland cotton, extra-long staple cotton, sugar, soybeans, crambe, canola, flaxseed, mustard seed, rapeseed, safflower, and sunflower seed. LDP's are offered for feed grains, wheat, upland cotton, rice, soybeans, crambe, canola, flaxseed, mustard seed, rapeseed, safflower, and sunflower seed. If the loan repayment rates for these commodities are less than the established loan levels, producers may, for most commodities that are eligible for a nonrecourse loan, agree to forego such loan and elect to receive an LDP. The LDP payment rate equals the amount by which the loan rate exceeds the loan repayment rate in effect at the time the LDP application is approved, or the delivery date for commodities delivered directly to processor, buyer, or warehouse from the field. LDP's and any gain realized from repaying a loan at a level lower than the original loan level are subject to a \$75,000 per "person" payment limitation, except for crops produced in 1999, for which the payment limitation is \$150,000 per "person".

Applicant Eligibility:

Owner, landlord, tenant, or sharecropper on an eligible farm that has produced the eligible commodities or, in the case of sugar, a processor or refiner who meets program requirements as announced by the Secretary.

Beneficiary Eligibility:

Owner, landlord, tenant, or sharecropper on a farm that has produced the eligible commodities, meets program requirements as announced by the Secretary, and maintains beneficial interest in the commodity.

Credentials/Documentation:

Record of farming operation must be on file in the FSA county office. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372 and OMB Circular No. A-102.

Application Procedure:

In the case of warehouse-stored commodities, producer or Cooperative Marketing Association presents warehouse receipts to the FSA county office (warehouse-stored peanut and tobacco loans are made through producer associations). In the case of farm-stored commodities (including sugar), producer/processor or Cooperative Marketing Association requests a loan at the FSA county office. This program is excluded from coverage under OMB Circular Nos. A-102 and A-110.

Award Procedure:

Applications are approved by the FSA upon determination that applicant and commodity are eligible.

Deadlines:

Loans and LDP's are available for wheat, barley, oats, canola, flaxseed, crambe, and rapeseed and loans are available for quota peanuts pledged as collateral for farm-stored loans through March 31 of the year following the year in which the crop is normally harvested. Loans and LDP's are available for rice, corn, grain sorghum, cotton, soybeans, safflower, sunflower seed and mustard seed through May 31 of the year following the year in which the crop is normally harvested. Eligible drought situations for water enhancing measures must be determined by the Deputy Administrator for Farm Programs, FSA.

FARM SERVICE AGENCY, DEPARTMENT OF AGRICULTURE

AUTHORIZATION:

Food Security Act of 1985, Title XII, Public Law 99-198, as amended; Food, Agriculture, Conservation, and Trade Act of 1990, Public Law 101-624; Federal Agriculture Improvement and Reform Act of 1996, Public Law 104-127.

OBJECTIVES:

To protect the Nation's long-term capability to produce food and fiber; to reduce soil erosion and sedimentation, improve water quality, and create a better habitat for wildlife.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use.

USES AND USE RESTRICTIONS:

Eligible owners or operators may place highly erodible or other environmentally sensitive land into a 10-15 year contract. The participant, in return for annual payments, agrees to implement a conservation plan approved by the local conservation district for converting highly erodible cropland or other environmentally sensitive land to a long-term resource conserving cover i.e., eligible land must be planted with a vegetative cover, such as, perennial grasses, legumes, fobs, shrubs, or trees. The participant agrees to reduce the aggregate total of allotments and quotas by an amount based on the ratio of the total cropland acreage on each farm, to the total acreage on each farm subject to the CRP contract. Financial and technical assistance are available to participants to assist in the establishment of a long-term resource conserving cover.

Applicant Eligibility:

An individual, partnership, association, Indian Tribal ventures corporation, estate, trust, other business enterprises or other legal entities and, whenever applicable, a State, a political subdivision of a State, or any agency thereof may submit an offer to enroll acreage.

Beneficiary Eligibility:

If their offer is accepted for enrollment, an individual, partnership, association, Indian Tribal ventures, corporation, estate, trust, other business enterprises or other legal entities and, whenever applicable, a State, political subdivision of State, or any agency thereof may earn benefits.

Credentials/Documentation:

The land must be owned or operated for not less than 12 months prior to the close of the signup period, unless the land was acquired by will or succession or FSA determines that ownership was not acquired for the purpose of placing the land in the CRP. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

An environmental impact assessment has been prepared for this program. This program is excluded from coverage under OMB Circular No. A-102 and E.O. 12372.

Application Procedure:

FSA has three methods for enrolling acreage in the CRP. One method is a continuous signup process where acreage suitable for certain environmental priority practices, including but not limited to grass waterways, riparian buffers or filterstrips, and acreage within wellhead protection areas may be offered and accepted without going through a competitive offer process. The second method is similar to continuous signup and is available only in distinct geographic areas. These areas are targeted by FSA and State governments under partnership agreements. The third method is to offer acreage during a general signup period where eligible offers to enroll highly erodible and other environmentally sensitive acreage are submitted and ranked competitively based on an environmental benefits index. Regardless of the method of enrollment, the local FSA office that serves the area in which the farm or ranch is located will provide the maximum payment rate CCC will accept to enroll certain acreage in the program. Producers may submit a rental rate per acre offered that may be equal to or less than CCC's maximum payment rate. This program is excluded from coverage under OMB Circular Nos. A-102 and A-110.

Award Procedure:

FSA will notify persons whose offers are determined acceptable as soon as practicable after the close of the signup.

Deadlines:

The offer must be filed at the county FSA office by the end of the announced signup period.

Range of Approval/Disapproval Time:

From 7 to 120 days.

Appeals:

Producers may appeal any determination to county FSA committee, State committee, or National Appeals Division. Matters that are generally applicable to all producers are not appealable.

Formula and Matching Requirements:

Not applicable.

Length and Time Phasing of Assistance:

The goals of the Bioenergy Program are to encourage increased purchases of eligible commodities for the purpose of expanding production of such bioenergy and support new production capacity for such bioenergy.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use.

USES AND USE RESTRICTIONS:

Bioenergy producers may increase their purchases of eligible commodities as compared to the previous fiscal year purchases and convert that commodity into increased commercial fuel grade ethanol and biodiesel production as compared to previous fiscal year ethanol and biodiesel production. The Program defines eligible commodities as barley, corn, grain sorghum, oats, rice, wheat, soybeans, sunflower seed, canola, crambe, rapeseed, safflower, sesame seed, flaxseed, mustard seed, and cellulosic crops, such as switchgrass and short rotation trees, grown on farms, for the purpose of producing ethanol and/or biodiesel or any other commodity or commodity by-product as determined and announced by CCC used in ethanol and biodiesel production which is produced in the United States and its territories.

Applicant Eligibility:

All bioenergy producers are eligible to participate in the program. To participate, ethanol producers must provide USDA with evidence of increased production of bioenergy and increased purchase and utilization of agricultural commodities related to that increased production. Biodiesel producers must provide evidence of production and purchase and utilization of agricultural commodities related to that production.

Beneficiary Eligibility:

Bioenergy producers.

Credentials/Documentation:

USDA will collect information from bioenergy producers that request payments under the Bioenergy Program as the Secretary may require to ensure that benefits are paid only to eligible bioenergy producers for eligible commodities.

Bioenergy producers seeking program payments will have to meet minimum requirements by providing information concerning the production of bioenergy. Applicants must certify that they will abide by the Bioenergy Program Agreement's provisions. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

There is no preapplication coordination related to this program. This program is excluded from coverage under E.O. 12372.

None.

Formula and Matching Requirements:

USDA will pay eligible producers up to \$150 million each FY on a quarterly basis. Payments to each producer are capped at 5 percent of available funding (up to \$7.5 million) each FY. Payments will be structured to encourage participation of producers with less than 65 million gallons annual production capacity. Producers with total annual production of: (a) less than 65 million gallons are reimbursed 1 feedstock unit for every 2.5 used for increased production; (b) 65 million gallons or more are reimbursed 1 feedstock unit for every 3.5 used for increased production. In addition, biodiesel producers are reimbursed for base production at 50 percent the rate of increased production. If the applications exceed the program's available funding, USDA will apply a factor to payments to hold program expenditures to available funding for the

applicable FY.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use.

USES AND USE RESTRICTIONS:

Eligible owners must execute all required documents, comply with all applicable noxious weed laws, and complete the TAP funded practice within 12 months of application approval. Participants must allow representatives of FSA to visit the site for the purposes of certifying compliance with TAP requirements.

Applicant Eligibility:

To be eligible for TAP payments the owner must: (1) Own the stand on which the claim for benefits is based; (2) Have owned it at the time the natural disaster occurred; (3) Have continuously owned the stand until the TAP application is submitted; (4) Annual gross revenue not to exceed \$2.5 million for the preceding tax year; (5) Federal, State, local governments and agencies as well as political subdivisions thereof are not eligible for benefits.

be visible and obvious to the County Committee except that if the damage is no longer visible, the County Committee may accept other evidence of the loss as it determines is reasonable. County Committee may require information from an expert in the case of plant disease or insect infestation.

Deadlines:

To be announced.

Range of Approval/Disapproval Time:

About 30 days.

Renewals:

The payment shall be the lesser of the actual costs for the replanting or the amount calculated using rates established by the County Committee (not to exceed the maximum amount the Deputy Administrator establishes). (1) When lost stands are replanted, the types planted may be different than those originally planted if the new types have the same general end use, as the County Committee determines. Payments will be based on the lesser of rates established to plant the types actually lost or the cost to establish the alternative used. (2) If the species of plantings, seedlings or cuttings differs significantly from the species lost, as the County Committee determines, the costs may not be reimbursed. (3) Owners may elect not to replant the entire eligible stand. If so, the County Committee shall calculate payment based on the number of qualifying trees, bushes or vines actually replanted. (4) The cumulative total quantity of acres planted to trees, bushes or vines for which a person may receive assistance shall not exceed 500 acres. (5) The cumulative amount of TAP payments, which any person may receive, shall not exceed \$75,000 per program year. OBJECTIVES:

The purpose of this program is to provide benefits to dairy operations under Public Law 105-277, 112 Stat. 2681; Sections 805 and 825 of Public Law 106-78; and section 805 of Public Law 106-387 only, in order to provide financial assistance to dairy operations in connection with normal milk production that is sold on the commercial market.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use.

USES AND USE RESTRICTIONS:

The dairy operation requesting benefits must certify with respect to the accuracy and truthfulness of the information provided in their application for benefits. All information provided is subject to verification and spot checks by CCC. Refusal to allow CCC or any other agency of the Department of Agriculture to verify any information provided will result in a determination of ineligibility. Providing a false certification to the Government is punishable by imprisonment, fines and other penalties.

Applicant Eligibility:

(a) To be eligible to receive cash payments, a dairy operation must: (1) Have produced and marketed milk commercially in the United States anytime during the fourth quarter of 1998; (2) Indicate all milk commercially marketed by all persons in the dairy operation during calendar year 1997 and 1998 to establish the base period for determining the total pounds of milk that will be converted to hundredweight (cwt) used for payment; and (3) Apply for payments during the application period. (b) A dairy operation must submit a timely application and comply with all other terms and conditions of 7 CFR Part 1430 Subpart D and those that are otherwise contained in the application to be eligible for benefits. (c) To be eligible for the program under Pub. L. 108-324, dairy producers must have produced milk in the United States during the 2004 calendar year in a dairy operation located in a county declared a disaster by the President due to hurricanes in 2004.

Beneficiary Eligibility:

Under DMLA-III, payments will be made to producers who were paid under DMLA-II as well as new dairy producers who began production in calendar year 2000. Under Pub. L. 108-324, payments will be made to producers who have recently suffered dairy production and milk spoilage losses due to hurricanes in 2004.

Credentials/Documentation:

A request for benefits under this subpart must be submitted on a completed Form CCC 1040. The Form CCC 1040 should be submitted to the county FSA office serving the county where the dairy operation is located. All persons who share in the milk production of a dairy operation that marketed milk must certify on the same CCC 1040 in order to obtain the total milk production of the dairy operation before the application is complete.

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Dairy operations may obtain an application, Form CCC 1040 (Dairy Market Loss Assistance Program Payment Application), in person, by mail, by telephone, or by facsimile from any county FSA office. In addition, applicants

may download a copy of the CCC 1040 at <http://www.fsa.usda.gov/dafp/psd/>.

Award Procedure:

Payments under this subpart may be made to dairy operations only on the first 26,000 cwt of milk produced by them from cows in the United States actually marketed in the United States during the base period. Supplemental payments under Public Law 106-387 will be made available to dairy operations in connection with normal milk production that is sold on the commercial market. For supplemental payments made under this section, the payment rate shall be \$0.6468 per cwt. For dairy operations that received a payment under sections 805 and 825 of Public Law 106-78 on less than 12 months production, an annual production level will be calculated by subtracting from the dairy operation's production level for the period of October 1, 1999 through September 30, 2000 the production level on which previous payments were received.

Deadlines:

Applicants must apply for benefits during the sign-up period to be announced by the Deputy Administrator for Farm Programs. Eligible dairy producers can apply for program benefits anytime during this sign-up time frame. New announcements are posted on <http://www.fsa.usda.gov/pas/>.

Range of Approval/Disapproval Time:

Appeals:

Any producer who is dissatisfied with a determination may request reconsideration or appeal of such determination under part 11 or 780 of 7 CFR part 1430.

Renewals:

Not applicable.

Formula and Matching Requirements:

A payment rate will be determined after the conclusion of the application period, and shall be calculated by: (1) Converting whole pounds of milk to cwt; (2) Totalling the eligible cwt (not to exceed 26,000 cwt) of milk marketed commercially during the base period from all approved applications; and (3) Dividing the amount available for Dairy Market Loss Assistance Program by the total eligible cwt submitted and approved for payment. Each dairy operation payment will be calculated by multiplying the payment rate determined above by the dairy operation's eligible production. In the event that approval of all eligible applications would result in expenditures in excess of the amount available, CCC shall reduce the payment rate in such manner as CCC, in its sole discretion, finds fair and reasonable.

Length and Time Phasing of Assistance:

Payments under this subpart may be made to dairy operations only on the first 26,000 cwt of milk produced by them from cows in the United States actually marketed in the United States during the base period.

Reports:

Examples of supporting documentation include, but are not limited to: tank records, milk handler records, milk marketing payment stubs, daily milk marketings, copies of any payments received as compensation from other sources, or any other documents available to confirm the production and production history of the dairy operation. In the event that supporting documentation is not presented to the county FSA office requesting the information, dairy operations will be determined ineligible for benefits.

Audits:

Recipients under this program are subject to audit by the Office of the Regional Inspector General, USDA.

Competitive annual grants providing for a limited number of graduate stipends are awarded to selected U.S. institutions of higher education so as to distribute support for graduate study to promising food and agricultural scientists and professionals. Individuals selected initially by the institution must enroll in a program leading to a graduate, master's or doctoral degree in one of the targeted national needs areas of the food and agricultural sciences. Such persons may not have been enrolled previously in the program at the same degree level. Current fellows are eligible to receive supplemental grants of \$3,000 to cover travel and living expenses for special international study or thesis/dissertation research experiences. Funding for the supplemental grants will be awarded on a competitive basis using no-year funds drawn from expired fellowship grants with unspent funds remaining as set forth in the annual program guidelines.

Applicant Eligibility:

Proposals may be submitted by all U.S. colleges and universities that confer a master's or doctoral degree in at least one area of the food and agricultural sciences targeted for national needs fellowships. As defined in Section 1404 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3103), the terms "college" and "university" mean "an educational institution in any State which: (a) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate; (b) is legally authorized within such State to provide a program of education beyond secondary education; (c) provides an educational program for which a bachelor's degree or any other higher degree is awarded; (d) is a public or other nonprofit institution; and (e) is accredited by a nationally recognized accrediting agency or association." OBJECTIVES:

To increase the ethnic and cultural diversity of the food and agricultural scientific and professional work force, and to advance the educational achievement of minority Americans, by providing grants to colleges and universities that have a demonstrable capacity to attract, educate, and graduate minority students for careers as agriscience and agribusiness professionals, and have unique capabilities for achieving the objective of full representation of minority groups in the fields of agriculture, natural resources, forestry, veterinary medicine, home economics, and disciplines closely allied to the food and agricultural system.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

Competitive annual grants to selected U.S. institutions of higher education provide for a limited number of four-year undergraduate scholarships to support minority students pursuing baccalaureate degrees in the food and agricultural sciences. Institutions also receive an annual cost-of-education allowance for each scholar supported by a grant. The scholars are selected by the institutions and students must apply for the scholarships through procedures established by the individual institutions. No scholarship grants are made directly to students and students cannot apply directly to USDA for scholarships. Scholarship monies may be used for tuition, fees, room, board, and other educational expenses as announced in a Federal Register notice inviting applications for new awards. The institutional cost-of-education allowance may be used by the selected institutions to defray program expenses including, but not limited to, travel and publications costs incurred for student recruitment, and salaries of project personnel.

Applicant Eligibility:

Proposals may be submitted by all U.S. colleges and universities with baccalaureate or higher degree programs in agriculture, natural resources, forestry, veterinary medicine, home economics, and disciplines closely allied to the food and agricultural system, including land-grant colleges and universities, colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences.

Beneficiary Eligibility:

Funds awarded under this program are used to support full-time undergraduate students pursuing a baccalaureate degree in an area of the food and agricultural sciences or a closely allied field. Persons eligible to receive scholarships under this program are students who either are enrolled or have been accepted as full-time baccalaureate or DVM degree candidates, and who are members of groups traditionally under-represented in food and agricultural scientific and professional fields.

Credentials/Documentation:

Each prospective grantee institution must furnish the information and assurances specified in the program guidelines and the Federal Register notice inviting applications for new awards. This program is excluded from coverage under OMB Circular No. A-87.

Formal proposals should be submitted to the Office of Extramural Programs, CSREES, in accordance with instructions provided in a Federal Register notice inviting applications for new awards. Application guidelines are contained in the CSREES Application Kit. This program is subject to the provisions of OMB Circular No. A-110 as implemented by 7 CFR Part 3019.

Award Procedure:

Proposals are reviewed and evaluated by Higher Education Programs staff and other CSREES professional staff members with the assistance and advice of a peer panel of qualified educators, scientists, administrators, and other appropriate persons who are specialists in the fields covered by the proposals. Proposals are supported in order of merit to the extent permitted by available funds.

Deadlines:

All deadlines are announced in the Federal Register notice inviting applications for new awards.

Range of Approval/Disapproval Time:

From 90 to 180 days.

Appeals:

None.

Renewals:

None. Contingent upon appropriations, funds are allocated to provide support for undergraduate scholars for 48 months.

Formula and Matching Requirements:

For each scholarship supported under this program, a college or university receiving a grant must provide 25 percent of the scholarship funds from their own or other non-Federal sources.

Length and Time Phasing of Assistance:

Grants are awarded for a five-year period, however, scholars are supported for four years during that five-year period. One year of the grant period is available for student recruitment and for short interruptions of a scholar's educational advancement due to personal circumstances or emergencies.

Reports:

Documentation of scholarship appointments must be submitted by project directors upon request of CSREES. An undergraduate scholar exit report must be submitted by project directors for each scholar supported by a grant as soon as the scholar graduates or is officially terminated from the program. Annual and final technical and financial reports must be submitted by the project directors to CSREES.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Nonprofit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Grantees are expected to maintain separate records for each grant to insure that funds are used for the purpose for which the grant was made. Records are subject to inspection during the life of the grant and for three-years thereafter. 10.224 FUND FOR RURAL AMERICA-RESEARCH, EDUCATION, AND EXTENSION ACTIVITIES

(Fund for Rural America)

FEDERAL AGENCY:

COOPERATIVE STATE RESEARCH, EDUCATION, AND EXTENSION SERVICE, DEPARTMENT OF AGRICULTURE

AUTHORIZATION:

Federal Agriculture Improvement and Reform Act of 1996, Section 793, 7 U.S.C. 2204(f); Public Law 105-185.

OBJECTIVES:

The funding for Rural America (FRA) provides funds for rural development programs and for a competitive grant program to support research, education, and extension activities. CSREES administers the competitive grant program for the research, education, and extension component of the Fund for Rural America. The competitive grant program supports unique, innovative, and high-impact research, education, and extension projects to aid farmers, ranchers, and rural communities to address changes and challenges facing agriculture and rural communities as a result of fundamental reforms to Federal farm programs. The broad range of purposes of these projects are to: increase international competitiveness, efficiency, and farm profitability; reduce economic and health risk; conserve and enhance natural resources; develop new crops, new crop uses, and new agricultural applications of biotechnology; enhance animal agricultural resources; preserve plant and animal germplasm; increase economic opportunities in farming and rural communities; and expand locally- owned, value-added processing. The information provided under this Catalog entry applies only to the competitive grant program administered by CSREES for research, education, and extension activities supported by the Fund for Rural America.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

The CSREES Fund for Rural America competitive grants program will support applied, developmental, and adaptive research; technology transfer; extension and related outreach activities; and education. The program will emphasize biological, physical, and social sciences to address systems-based problems. This requires involvement of affected parties within the system (such as producers, commodity groups, environmental interests, rural communities, and other program beneficiaries); therefore, this program will give priority to projects that are designed and proposed by eligible grant recipients in collaboration with institutions, organizations, and communities of interest. Strong partnerships will be critical to leverage and apply research, education, and extension investments to address user needs and solve community-defined problems. The program is segmented into two initiatives: (1) The Fund Core Initiative, which addresses and links international competitiveness, profitability; and efficiency; environmental stewardship; and rural community enhancement; and (2) the Secretary's Initiative to Ensure a Safe, Competitive, Nutritional and Accessible Food System. Examples of potential research, education, and extension activities to be funded under the Fund Core Initiative include, but are not limited to: extension to improve producers' risk management knowledge, skills, and practices; adaptive research to develop new strategies for animal waste management to reduce environmental contaminants in animal waste; and innovations in delivery of education and information in rural areas. As part of the Fund Core Initiative, CSREES also intends to provide funding for FRA Center Grants which are aimed at bringing together individuals, institutions, States, and/or regions in support of research, education, and extension in a collaborative process towards a common goal. Initially, CSREES will award

FRA Center Planning Grants to support only the planning stages of FRA Centers, and only those organizations successful in receiving a FRA Center Planning Grant will be eligible to receive follow-on funding for a FRA Center. Proposals for FRA Center Planning Grants and for follow-on FRA Center Grants may be solicited in separate announcements. Examples of research, education, and extension activities to be funded under the Secretary's Initiative to Ensure a Safe, Competitive, Nutritional and Accessible Food System include, but are not limited to: assessment of educational needs of small and very small meat and poultry processing plants to achieve Hazard Analysis and Critical Control Points (HACCP) implementation; research, development and on-farm extension education about low-cost production facilities, such as hoop housing for swine production, combined with management systems and genetics appropriate to these facilities; research to create foods that have increased amounts of the beneficial components found in fruits, vegetables and grains; and research and extension efforts to develop and implement mechanisms such as community-operated canneries or dehydration facilities to extend the "shelf-life" of food available through gleaned and food recovery programs. Funds provided under the CSREES Fund for Rural America competitive grants program may not be used for the construction of a new building or for the acquisition, expansion, remodeling, or alteration of an existing building (including site grading and improvement and architect fees), or for the purchase of fixed equipment.

Applicant Eligibility:

Proposals may be submitted by Federal research agencies, national laboratories, colleges or universities or research foundations maintained by a college or university, or private research organizations. National laboratories include Federal laboratories that are government-owned contractor-operated or government-owned government operated. If the applicant is a private organization, documentation must be submitted that the organization has an established and demonstrated capacity to perform research or technology transfer. A programmatic decision on the eligibility status of the private organization will be made based on the information submitted.

Beneficiary Eligibility:

The beneficiaries of this program are expected to be parties affected by the fundamental reforms to Federal farm programs. These parties include, but are not limited to producers, commodity groups, environmental interests, and rural communities.

Credentials/Documentation:

Organizations must furnish the information and assurances specified in the program guidelines and/or proposal solicitation with each proposal it submits. In addition, if a proposal is recommended for funding and the submitting organization has not previously received funding from CSREES, that organization will be asked to furnish specific management information relating to the organization as part of the pre-award process.

Preapplication Coordination:

All proposal solicitations are published in the Federal Register. Any preapplication requirements will be specified in the program guidelines and/or proposal solicitations. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Application procedures are outlined in the annual program guidelines and/or proposal solicitations.

Award Procedure:

Proposals are reviewed and evaluated by CSREES staff members with the assistance and advice of peer panels of specialists who are uniquely qualified by training and experience in their respective fields to render expert advice on the merit of proposals being reviewed. Proposals are recommended for funding in order of merit to the extent permitted by available funds. The National Agricultural Research, Education and Economics Advisory Board will review collective groups of proposals recommended for funding to ensure the relevance of the work proposed for funding toward achieving the programmatic goals of the Fund for Rural America. Proposals recommended for funding as a result of the merit and programmatic relevance evaluations then undergo a financial and administrative review. 10.307 ORGANIC AGRICULTURE RESEARCH AND EXTENSION INITIATIVE

(ORGANIC AGRICULTURE RESEARCH AND EXTENSION INITIATIVE)

FEDERAL AGENCY:

COOPERATIVE STATE RESEARCH, EDUCATION, AND EXTENSION SERVICE (CSREES), DEPARTMENT OF AGRICULTURE

AUTHORIZATION:

The Farm Security and Rural Investment Act of 2002, Section 7218, as amended; The Food, Agriculture, Conservation, and Trade Act of 1990, Section 1672B, 7 U.S.C. 5925b).

OBJECTIVES:

Facilitate the development of organic agriculture production, breeding, and processing methods. Functionally identify soil microbial communities and ways to manage microbial dynamics to enhance nutrient cycling and disease suppression; Develop systemic approaches to weed, insect and disease management; Prevent, control, and treat internal and external parasites in various livestock species; and Breed crops for disease and insect resistance, good yield in a biologically diverse system, compatibility with intercrops, good response to organic fertility sources, horizontal resistance (traits determined by multiple genes). Evaluate the potential economic benefits to producers and processors who use organic methods. Analyze potential economic costs, returns and risks of organic production systems; Use environmental valuation tools to quantify externalities of producing food, and compare externalities of producing organic and conventional food; - Analyze price and market structures, including ability of small, medium-, and large-scale growers to access different markets, in order to frame policies that minimize concentration within the industry; and Analyze marketing channels to document how organic food is distributed, what share of the organic food dollar is returned to the farmer, and the implications of large-scale manufacturers entering the organic market. Explore international trade opportunities for organically grown and processed agricultural

commodities. Compare compatibility of certification standards used in different parts of the world, with the ultimate goal of harmonization and reciprocity; Undertake marketing studies of international consumer demand for U.S. produced organic goods; and Perform Welfare analyses (quantified gains and losses for producers and consumers) of trade policies affecting international competitiveness, including implementation of the National Organic Program, domestic support programs such as the Conservation Security Act, country of origin labeling, GMO labeling, etc. Determine desirable traits for organic commodities. Examine relationships between nutrients in the soil and nutrients in the food grown on that soil, including long-term soil nutrient and crop nutrient profiles under conventional and organic management; Perform comparisons of nutrient levels between organic and conventional crops and relationship, if any, between taste and nutrient profile; Investigate the role of post-harvest handling and treatment in the maintenance of quality in fresh market organic products; and Determine the reasons for consumer preferences for organic goods. Identify marketing and policy constraints on the expansion of organic agriculture. Analyze opportunities and constraints to organic agriculture resulting from provisions of the Farm Security and Rural Investment Act of 2002; Investigate specific barriers to markets, such as scale-based regulations that restrict family farm access to processors and/or markets; Study negative lender perception of organic farming and ways to change this; and Analyze regulatory barriers, such as lack of access to Federal farm programs, and developing solutions to these challenges. Conduct advanced on-farm research and development that emphasizes observation of, experimentation with, and innovation for working organic farms, including research relating to production and marketing and to socioeconomic conditions. (Note: Many topics from other goal areas can be conducted on working farms.) Develop rigorous on-farm systems research designs; and Conduct long-term, interdisciplinary systems research.

Project Grants.

USES AND USE RESTRICTIONS:

The Integrated Organic Program is particularly interested in proposed projects that emphasize research and outreach that assist farmers and ranchers with whole farm planning and ecosystem integration. Projects should plan to deliver applied production information to producers. Loans and grants are available to States, Puerto Rico, the U.S. Virgin Islands, political subdivisions of States, broad-based public or private nonprofit organizations, federally recognized Indian Tribes and non-profit corporations of farm workers. The NOFA application period is 2 months from the date of the announcement. The NOFA deadline is May 14, 2006. Funds available for off-farm new construction and acquisition and rehabilitation are as follows: Section 514 Loan \$36,116,887; Section 516 Grant \$13,860,000; Rental Assistance (RA) and Operating Assistance (only for migrant workers) will be available for all new construction funds. Two points will be awarded for each resident service included in the tenant services plan up to a maximum of 10 points,(0 to 10 points). Application selection process: (1) States will review and score the applications and submit a list of applications in rank and point score order to the National Office; (2) the National Office will rank applications on a nation-wide basis and will advise States of the results.

Deadlines:

Please contact the program contact listed in the Information Contacts section below.

Range of Approval/Disapproval Time:

RHS uses a two-stage application process for the Farm Labor Housing Program. First, applicants submit preapplications, which are used to determine preliminary eligibility and feasibility. RHS then invites some applicants to submit formal applications. Section 514/516 funds are divided between off-farm housing and on-farm housing. The off-farm program provides loans and grants to organizations that assist farmworkers at off-farm locations with no restrictions that workers be employed on a particular farm. Under new regulations effective June 1999, preapplications for the off-farm program funds must be submitted in response to a Notice of Funding Availability (NOFA) published in the Federal Register every year. RHS scores the preapplications, using a ranking process to determine which applicants will be invited to submit formal applications. The on-farm program makes loans to eligible farmers (or a group of farmers) to provide Housing, usually for their own laborers. Preapplications for on-farm units, or for repair And rehabilitation of existing off-farm units, may be submitted at any time are processed on a first-come, first-served basis.

Appeals:

A person or organization who is directly and adversely affected by an administrative decision by Rural Development should follow the procedures found in 7 CFR Part 1900, Subpart B of "Rural Development Administrative Appeal Procedures."

Renewals:

Not applicable; although, applicants may apply under subsequent funding cycles.

Formula and Matching Requirements:

In case of a grant, 10 percent or more of the total development cost must be obtained from other sources. This may include funds made available through the power to levy taxes, assessments or charges, or from other credit sources including an Rural Development Labor Housing loan under Section 514.

Length and Time Phasing of Assistance:

Loans are usually made for 33 years at 1 percent interest. Grants may cover up to 90 percent of development cost. The balance may be (and usually is) a Section 514 loan. RHS rental assistance (RA) subsidy can be used to limit tenant payments to 30 percent of their income. RA can be used as an operating subsidy for projects or units with Section 516 funding that serve migrants. It is RHS policy to attempt to use less than a 90 percent grant when RA is utilized.

Reports:

Monthly progress reports are to be made to the Rural Development District/State Offices during the first year of operation or until requirement is waived by Rural Development.

Audits:

For borrowers not covered under OMB Circular No. A-133, annual audits are required from borrowers with 25 or more units in one or more projects. TYPES OF ASSISTANCE:

Direct Loans; Guaranteed/Insured Loans.

USES AND USE RESTRICTIONS:

Direct and guaranteed loans may be used to buy, build, or improve the applicant's permanent residence. New manufactured homes may be financed when they are on a permanent site, purchased from an approved dealer or contractor, and meet certain other requirements. Under very limited circumstances, homes may be re-financed with direct loans. Dwellings financed must be modest, decent, safe, and sanitary. The value of a home financed with a direct loan may not exceed the area limit. The property must be located in an eligible rural area. Assistance is available in the States, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Northern Mariana's, and the Trust Territories of the Pacific Islands. Payment assistance is granted on direct loans to reduce the installment to an "effective interest rate" as low as one percent, depending on adjusted family income. Payment assistance is subject to recapture by the government when the customer no longer resides in the dwelling. There is no funding provided for deferred mortgage authority or loans for deferred mortgage assumptions. Guaranteed loans may be made to refinance either existing RD Guaranteed Housing loans or RHS Section 502 Direct Housing loans. Guaranteed loans are amortized over 30 years. The interest rate is negotiated with the lender.

EXAMPLES OF FUNDED PROJECTS:

Funded projects generally provide financial assistance to very low-income persons for bringing their dwellings up to local code standards through an HPG grant combined with other Federal funding, such as HUD's community development block grants or HHS's weatherization program. Other variations funded includes using HPG funds to establish a revolving loan fund that provides homeowners a long term, interest subsidized loan; "lending homeowners the money and "forgiving" 20 percent per year until the loan becomes a grant after five years; using the grantee's own employees to perform the rehabilitation work to reduce the costs; and, in a few instances, leveraging State resources for repair loans or grants. In most cases, grantees that are currently active in home repair and rehabilitation were selected and were able to leverage their existing programs with the new HPG funds.

CRITERIA FOR SELECTING PROPOSALS:

Projects must provide a feasible repair rehabilitation program and serve areas

with a concentration of substandard housing and very low and low-income persons. In addition, the following criteria will be considered in the selection of grant recipients. Each preapplication and its accompanying statement of activities will be evaluated on: (1) The percentage of very low-income persons assisted; (2) the percentage of use of HPG funds to total cost of housing preservation; (3) the applicant's administrative capacity and experience in (i) housing rehabilitation or weatherization, (ii) assisting very low and low-income persons attain housing assistance and (iii) prior programs no outstanding audits findings; (4) the proposed program will be undertaken in non-Metropolitan Statistical Areas identified by Rural Development as having populations below 10,000 or in remote parts of other rural areas, (i.e., rural areas contained in Metropolitan Statistical Areas with less than 5,000 population); (5) the program will minimize the use of grant funds for administrative purposes, i.e., less than 20 percent of grant funds; (6) the program will alleviate overcrowding in rural residences inhabited by very low and low-income families; and (7) if an existing grantee has met the objectives of its current grant.

10.435 STATE MEDIATION GRANTS

FEDERAL AGENCY:

FARM SERVICE AGENCY, DEPARTMENT OF AGRICULTURE

AUTHORIZATION:

Agricultural Credit Act of 1987, Title V, Public Law 100-233; Food, Agriculture, Conservation, and Trade Act of 1990, Public Law 101-624; Agricultural Credit Improvement Act of 1992; Federal Crop Insurance Reform Act of 1994, Department of Agriculture Reorganization Act of 1994, Public Law 103-354; the United States Grain Standards Act of 2000, Public Law 106-472.

OBJECTIVES:

To assist States in establishing and administering mediation programs and services for agricultural producers, creditors of producers (as applicable), and persons directly affected by actions of the Department of Agriculture.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

Grants are to be used for the operation and administration of a State's mediation program which has been certified by the Administrator of the Farm Service Agency (FSA) as meeting the requirements of Section 501 (c) of Title V of the Agricultural Credit Act of 1987 (U.S.C. 510), as amended. A grant will not exceed 70 percent of the total fiscal year funds that a qualifying State requires to operate and administer its mediation program, or \$500,000, whichever is less. Eligible costs are limited to those that are reasonable and necessary to carry out the mission of the State's mediation program and may include activities related to the intake and scheduling of cases, the provision of background and selected information regarding the mediation process, financial advisory and counseling services, and the mediation session.

Applicant Eligibility:

State governments.

Beneficiary Eligibility:

Agricultural producers, creditors of producers (as applicable) and persons directly affected by actions of the Department of Agriculture.

Credentials/Documentation:

Have a mediation program which has been certified by the Administrator of FSA, and for which certification has not been withdrawn; provide evidence to justify the estimated costs of operating and administering the State's mediation program. The Governor of a State or head of an entity designated by the Governor of a State must make a written request to FSA on or before August 1 of each year to receive a matching grant during the fiscal year commencing on October 1, of that same year. Request for certification are accepted after August 1 of each year; however, the State will be considered in order of date received for reserved grant funds. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. To be certified as a qualifying State, the mediation program of the State must mediate issues involving agricultural loans (regardless of whether the loans are made or guaranteed by the Secretary of Agriculture or made by third party); and may provide mediation services for disputes involving wetlands determinations, compliance with farm programs including conservation programs, rural water loan programs, grazing on National forest system lands, pesticides, and such other issues, under the jurisdiction of the Secretary meeting the requirements of Section 501 of Title V of the Agricultural Credit Act of 1987 (7 U.S.C. 510), as amended.

Award Procedure:

Grant funds will be distributed on a first come, first served basis to qualifying States. If, however, when funds for a fiscal year become available, there are not sufficient funds to give all qualifying States 70 percent of their justified

estimated expenses for the fiscal year, the percentage allocation will be reduced so as to give all States the same percentage of their expenses. FSA views the use of grant funds to provide financial advisory or other services in an advocacy context to be inconsistent with the premise of a mediation program, which is to provide a neutral forum for resolution of disputes.

Deadlines:

Contact FSA National Office for application deadlines.

Range of Approval/Disapproval Time:

Thirty days from receipt of a complete application package.

If a certified State mediation program is available as part of the informal appeal hearing process, the participant will be offered the right to choose such mediation.

OBJECTIVES:

To promote the national welfare by improving the economic stability of agriculture through a sound system of crop insurance and providing the means for the research and experience helpful in devising and establishing such insurance.

TYPES OF ASSISTANCE:

Insurance.

USES AND USE RESTRICTIONS:

The Federal Crop Insurance Corporation (FCIC) is a wholly owned government corporation created February 16, 1938 (7 U.S.C. 1501.) Public Law 96-365, dated September 26, 1980, amended the program to provide for nationwide expansion of a comprehensive crop insurance plan. The Federal Agriculture Improvement and Reform Act of 1996 (P.L.104-127) required the Secretary of Agriculture to establish an independent office for supervision of the FCIC. The

Risk Management Agency (RMA) administers the FCIC and promotes the national welfare by serving America's agricultural producers through effective, market-based risk management solutions and promoting, supporting and regulating sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. RMA fully subsidizes catastrophic crop insurance protection (CAT) except for minor administrative fees paid by the producer. CAT coverage compensates the producer for yield losses exceeding 50 percent of yield and at a price equal to 55 percent of maximum price (or equivalent amounts for dollar-based programs). RMA offers additional protection at higher levels of coverage and variable levels of premium subsidy. The Farm Service Agency (FSA) administers the Noninsured Assistance Program (NAP). NAP is available to provide coverage for food or fiber crops equivalent to the catastrophic crop insurance protection in areas where catastrophic crop insurance protection is not available. FCIC offered insurance on the following crops or commodities for the 2007 crop year, with some available only in limited areas: Adjusted Gross Revenue, Adjusted Gross Revenue-Lite, Almonds, Apples, Apricots, Avocado Trees (Florida), Avocados (Revenue, Actual Production History (APH)), Banana Trees, Bananas, Barley (APH, Income Protection (IP), Revenue Assurance (RA)), Blueberries, Cabbage, Canola (APH, RA), Cherry (Dollar), Chile Peppers, Citrus, Citrus Tree (Texas), Clams, Coffee, Coffee Trees, Corn (APH, Crop Revenue Coverage (CRC), Group Risk Income Protection (GRIP), Group Risk Protection (GRP), IP, Indexed Income Protection (IIP), RA), Cotton (APH, CRC, GRIP, GRP, IP, RA), Cranberries, Cultivated Wild Rice, Dry Beans, Dry Peas, Extra Long Staple Cotton, Figs, Flax, Florida Fruit Tree, Forage, Forage (APH, GRP), Forage Seed (Alfalfa), Forage Seeding, Fresh Market Sweet Corn, Fresh Market Tomatoes (APH, Dollar), Grain Sorghum (APH, CRC, GRIP, GRP, IP), Grapefruit, Grapes, Green Beans for Canning, Green Peas, Hybrid Corn Seed, Hybrid Grain Sorghum Seed, Lemons, Limes, Livestock, Macadamia Nuts, Macadamia Trees, Mandarins, Mango Trees (Florida), Millet, Mint, Murcotts, Mustard, Naval Oranges (Citrus Dollar, APH), Nectarines, Nursery, Oats, Onions, Oranges, Papaya, Papaya Trees, Pasture, Peaches, Peaches, Peanuts (APH, GRP), Pears, Pecan Revenue, Peppers, Plums, Popcorn, Potatoes, Prunes, Raisins, Rangeland, Rangeland (GRP), Rice (APH, CRC, RA), Rye, Safflower, Silage Sorghum, Soybeans (APH, CRC, GRIP, GRP, IP, IIP, RA), Stonefruit, Strawberries, Sugar Beets, Sugarcane, Sunflowers (APH, RA), Sweet Corn for Canning, Sweetpotatoes, Table Grapes, Tangelos, Tangerines, Tobacco, Tomatoes (Canning and Processing), Walnuts, and Wheat (APH, CRC, GRIP, GRP, IP, RA).to more affordable risk management tools and improved protection from production and income loss, and to improve the efficiency and integrity of the Federal crop insurance program. Due to the new legislation, RMA has improved basic products by implementing higher premium subsidies to make buy- up coverage more affordable for producers; made adjustments in actual production history guarantees; and revised the administrative fees for CAT coverage. Other major provisions of ARPA include: expanded authority of general pilot programs; expansion of the Dairy Options Pilot Program and Risk Management Education; tightening of program compliance and integrity; establishment of expert reviewpanels and procedures for reviewing policies, plans of insurance, and related material or modifications; mandating availability and acceptance of electronic information; and strengthening of "good farming practices" by including scientifically sound sustainable and organic farming practices. RMA has implemented a cost-share program to producers in eleven historically underserved states in the Northeast to purchase AGR insurance. Under this program, RMA will pay 50 percent of the producer-paid premium and the entire administrative fee. RMA anticipates more crops and/or commodities will become insurable through pilot programs approved by the FCIC Board of Directors.

Applicant Eligibility:

Unless otherwise restricted by the insurance policy, owners or operators of farmland, who have an insurable interest in a crop in a county where insurance is offered on that crop are eligible for insurance. Producers will be covered under the Noninsured Assistance Program (NAP) which is available to provide coverage similar to the catastrophic risk protection in areas where catastrophic risk protection is not available, if such crop is produced for food or fiber and the area is authorized.

Beneficiary Eligibility:

Any insured producer who has a financial loss caused from a covered peril for the particular crop insured or covered by the Noninsured Assistance Program (NAP).

Credentials/Documentation:

10.553 SCHOOL BREAKFAST PROGRAM

FEDERAL AGENCY:

FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE AUTHORIZATION:

Child Nutrition Act of 1966, as amended, 42 U.S.C. 1773, 1779, Public Laws 104-193, 100-435, 99-661, 97-35.

OBJECTIVES:

To assist States in providing a nutritious nonprofit breakfast service for school children, through cash grants and food donations.

TYPES OF ASSISTANCE:

Formula Grants.

USES AND USE RESTRICTIONS:

Federally appropriated School Breakfast Program funds are available to reimburse participating public and nonprofit private schools, of high school grade and under and residential child care institutions, for breakfasts, meeting the nutritional requirements prescribed by the Secretary of Agriculture, served to eligible children. The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2007 through June 30, 2008, the rates of reimbursement are 24.0 cents for paid breakfasts, 105.0 cents for each reduced price breakfast, and 135.0 cents for each free breakfast. The maximum reduced price charged for breakfast is 30 cents. Schools serving 40 percent or more free and reduced price lunches in the second preceding school year get up to 131.0 cents and 161.0 cents for each breakfast served to children qualifying, respectively, for a reduced price and a free breakfast. All participating schools must agree to serve free and reduced price meals to eligible children, and to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability. Federal program funds for the School Breakfast Program are provided to each State agency in a Child Nutrition block grant along with program funds for the National School Lunch Program, the Special Milk Program for Children, the Summer Food Service Program for Children, and the Child and Adult Care Food Program. Congress has given some leeway to States to determine how this block of money will actually be allocated among these programs at the State level based on program needs.

Applicant Eligibility:

State and U.S. Territory agencies; (except territories subject to the requirements to the Compact of Free Association) public and nonprofit private schools of high school grade and under; public and nonprofit private residential child care institutions, except Job Corps Centers. Schools desiring to participate must agree to operate a nonprofit breakfast program that is available to all children regardless of race, sex, color, National origin, age, or disability.

Beneficiary Eligibility:

All children attending schools where the breakfast program is operating may participate. Breakfast is served free to children who are determined by local educational agencies to have household income levels at or below 130 percent, and at a reduced price to children from households with incomes higher than 130 but at or below 185 percent of the federal poverty line, respectively. Meals served to non-needy children also get cash assistance. Such determinations are

made in accordance with income eligibility guidelines prescribed by the Secretary and cross reference household income with household size. The Secretary prescribes these income eligibility guidelines by July 1; the statistical source used in making such revisions is the Federal Income Poverty Guidelines. Children from households certified to receive food stamps, the Food Distribution Program on Indian Reservations, Temporary Assistance for Needy Families and some children in Head Start Programs are automatically eligible for free meals. Homeless children, children in certain runaway and homeless youth grant programs, and migrant children are automatically eligible for free meals.

Credentials/Documentation:

Applicant organizations must furnish evidence of nonprofit status. Costs will be determined in accordance with USDA Uniform Federal Assistance Regulations (7 CFR Part 3015 or 3016 and 3019).

Preapplication Coordination:

The application forms as furnished by the State agency or FNS, as applicable, must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance.

Application Procedure:

Public schools in all States make application to the State Educational Agency unless the State applies or is approved for a waiver to designate an alternate agency. Appropriate forms may be obtained from this agency. Nonprofit private schools should also apply to the State Educational Agency in most States. In some States, however, the State Educational Agency is prohibited by statute from disbursing Federal funds to nonprofit private schools. In such instances, the application will be referred to the alternate State agency or the appropriate Food and Nutrition Service regional office.

Award Procedure:

When application is approved, schools make agreements with appropriate agency.

Deadlines:

Please contact the program contact listed in the Information Contacts section below.

Range of Approval/Disapproval Time:

Agreements become effective upon approval by the State Agency or FNSRO, where applicable.

Appeals:

None. The State Agency or Food and Nutrition Service regional office, where applicable, is responsible for determining a school's eligibility.

Renewals:

Permanent, amended as necessary.

Formula and Matching Requirements:

Federal funds are made available for breakfast assistance in accordance with Section 4 of the Child Nutrition Act on a performance basis by: (1) multiplying the number of paid breakfasts served to eligible children during the fiscal year by a National Average Payment (NAP); (2) multiplying the number of breakfasts served free to eligible children by a NAP prescribed by the Secretary for free breakfasts; and, (3) multiplying the number of reduced price breakfasts served to eligible children by a NAP prescribed by the Secretary for reduced-priced breakfasts. The amount of Federal funds given the grantee is the sum of the products obtained from these three computations, plus an additional 6 cents for every breakfast served. Schools with a high percentage of needy may receive additional payments. The statistical factors used in this formula are: (1) The NAP's; (2) the number of paid breakfasts served; and (3) the number of breakfasts served free or at reduced price to eligible children. The NAP's are prescribed by the Secretary and adjusted each July 1, in accordance with the Food Away From Home component of the Consumer Price Index for All Urban Consumers. The source of this adjustment factor is the Bureau of Labor Statistics. The source of the numbers of breakfasts served, including the number served free or at reduced price, is the monthly programmatic reports submitted to Food and Nutrition Service. This program has no maintenance of effort (MOE) requirements.

Length and Time Phasing of Assistance:

For the period covered by the agreement on a fiscal-year basis.

Reports:

State Agencies, schools and institutions file monthly reports on the number of meals served, by type, to claim for reimbursement. Schools and institutions must submit final meal claims to the State no later than 60 days after claiming month. States must submit final program reports to Food and Nutrition Service no later than 90 days after the claiming month. States must submit a final fiscal year grant closeout report to the Food and Nutrition Service no later than 120 days after the end of the fiscal year to which they pertain.

Audits:

In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Nonprofit Organizations," State and local governments, and non profit organizations that expended \$500,000 or more under Federal awards within any fiscal year shall have either a single audit or (in certain cases) a program specific audit made for that year. Audits may be

conducted less frequently under conditions specified in OMB Circular A-133.

Records:

Schools must maintain full and accurate records of the breakfast program. Such records shall be retained for a period of 3 years after the end of the fiscal year to which they pertain, except that if audit findings have not been resolved, records shall be retained beyond the 3 year period until audit findings have been resolved.

Account Identification:

12-3539-0-1-605.

(Grants) FY 07 \$2,228,842,422; FY 08 est \$2,367,186,000; and FY 09 est \$2,522,286,000.

Range and Average of Financial Assistance:

Average Federal cash assistance for school year 2007 ranged from 24.0 to 157.0 cents per meal depending upon income levels of the individual participant and upon the number of free and reduced price meals served by the school. Individual State grants vary according to participation in the program.

PROGRAM ACCOMPLISHMENTS:

The number of schools and children participating in the breakfast program has been increasing. In fiscal year 2007, over 1.71 billion breakfasts were served, 80.3 percent to needy children. School breakfasts must provide, over a school week, 1/4 of the Recommended Dietary Allowances for key nutrients and 1/4 of the calories needed by growing children. They also must conform to the recommendations of the Dietary Guidelines for Americans, including limitations on calories from fat (no more than 30 percent of total calories) and saturated fat (less than 10 percent of total calories).

Deadlines:

Please contact the program contact listed in the Information Contacts section below.

Range of Approval/Disapproval Time:

Range of Approval/Disapproval Time Agreements become effective upon approval by the State agency or FNSRO, where applicable.

Appeals:

None. The State agency or FNSRO, where applicable, is responsible for determining a school's eligibility.

Renewals:

Permanent, amended as necessary.

Formula and Matching Requirements:

The funding formula for the general cash for food assistance phase of the program is set forth in Section 4 of the National School Lunch Act, as amended; the formula for special cash assistance is described in Section 11 of the Act. The program is funded on a performance basis. For every lunch served during the applicable fiscal year, the State receives a payment from funds made available under Section 4. In addition, the State receives a payment from Section 11 funds

for each lunch served to a child eligible for free or reduced price lunches. The amounts of such per-lunch payments are determined by "National Average Payment" (NAP) factors. The amount due the State under this program is obtained by: (1) multiplying the total number of eligible paid lunches and free and reduced price lunches served during the fiscal year by the Section 4 NAP factor for lunches; (2) multiplying the number of free lunches served by the Section 11 NAP factor for free lunches; (3) multiplying the number of lunches served at reduced price by the Section 11 NAP factor for reduced price lunches; (4) multiplying the total number of lunches served during the fiscal year in school food authorities which served 60 percent or more free or reduced price lunches in the second preceding school year by \$.02; and (5) adding together the four products obtained thereby. The NAP factors are prescribed by the Secretary in accordance with Sections 4 and 11, respectively, of the Act; the numbers of lunches are obtained from programmatic reports submitted to Food and Nutrition Service. In addition, the funding formula for snacks in after school care programs is described in Section 17 A of the Act. Section 11(a)(3) of the Act requires that the NAP factors be adjusted annually, according to changes in the Food Away From Home series of the Consumer Price Index for All Urban Consumers; the source is the Bureau of Labor Statistics. Each State must appropriate from State revenues and use, for program purposes, an amount equal to 30 percent of the Section 4 funds made available to the State in the 1980-81 school year. Also, commodity schools are eligible to receive donated commodities equal in value to the sum of section 6 and section 4 assistance rates, except that up to 5 cents of this amount may be received in cash for processing and handling commodities. In addition, commodity schools are eligible for Section 11 free and reduced price meal reimbursements.

Length and Time Phasing of Assistance:

For the period covered by the agreement on a fiscal-year basis.

Reports:

State agencies and schools file monthly reports on the number of meals served, by type, to claim program funds. School food authorities must submit final meal claims to the State no later than 60 days after the claiming month, and States must submit final program reports to Food and Nutrition Service no later than 90 days after the claiming month. States must submit final fiscal year grant close out reports to Food and Nutrition Service within 120 days after the end of the fiscal year to which they pertain.

Audits:

In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Nonprofit Organizations," State and local governments, and nonprofit organizations that expended \$500,000 or more under Federal awards within any fiscal year shall have either a single audit or (in certain cases) a program specific audit made for that year. Audits may be conducted less frequently under conditions specified in OMB Circular No. A-133.

Records:

Schools must maintain full and accurate records of their lunch programs. Such records shall be retained for a period of 3 years after the end of the fiscal year to which they pertain, except that if audit findings have not been resolved, the records shall be retained beyond the 3 year period as long as required for the resolution of audit findings.

10.556 SPECIAL MILK PROGRAM FOR CHILDREN

FEDERAL AGENCY:

FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE
AUTHORIZATION:

Child Nutrition Act of 1966, as amended, 42 U.S.C. 1772 and 1779.

OBJECTIVES:

To provide subsidies to schools and institutions to encourage the consumption of fluid milk by children.

TYPES OF ASSISTANCE:

Formula Grants.

USES AND USE RESTRICTIONS:

Funds are made available to State agencies to encourage the consumption of fluid milk by children in public and private nonprofit schools of high school grade and under, public and private nonprofit nursery schools, child-care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children, except Job Corps Centers, provided that these schools and institutions do not participate in a meal service program authorized under the National School Lunch Act or the Child Nutrition Act of 1966. The Child Nutrition Amendments of 1986 expanded eligibility in the program to include children in split session kindergarten and pre-kindergarten programs in nonprofit schools and institutions who do not have access to the Federal meal service program operating in schools the children attend. Disbursement to States is made on the basis of the number of half pints of milk served to non-needy children, using a reimbursement rate specified by law. Milk served free to eligible needy children is reimbursed at the average cost of a half pint of milk. Federal program funds for the Special Milk Program for Children are provided to each State agency in a Child Nutrition block grant along with program funds for the School Breakfast Program, the National School Lunch Program, the Summer Food Service Program for Children, and the Child and Adult Care Food Program. Congress has given some leeway to States to determine how this block of money will actually be allocated among these programs at the State level based on program needs.

Applicant Eligibility:

Any State or U.S. Territory (except territories subject to the requirements of the Compact of Free Association). Any public and nonprofit private school of high school grade or under, and public and private nonprofit residential and nonresidential child care institutions, except Job Corps Centers, may participate in the Special Milk Program upon request if it does not participate in a meal service program authorized under the National School Lunch Act or the Child Nutrition Act of 1966. This generally includes nonprofit nursery schools, child-care centers, settlement houses and summer camps. Schools with split session kindergarten and pre-kindergarten programs can receive subsidies for milk served to children in the split session kindergartens and pre-kindergartens who do not have access to another meal service program operating in the school. All schools and child care institutions which participate must agree to operate the program on a nonprofit basis for all children without regard to race, sex, color, National origin, age or disability.

Beneficiary Eligibility:

All children enrolled in schools and institutions in which the Special Milk Program is in operation may participate in the program.

Credentials/Documentation:

Applicant organizations must furnish evidence of nonprofit status. Costs will be determined in accordance with USDA Uniform Federal Assistance Regulations (7 CFR Part 3015 or 3016 and 3019).

Preapplication Coordination:

The application forms as furnished by the State agency or Food and Nutrition Service, as applicable, must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance.

Application Procedure:

Public schools in all States make application to the State educational agency unless the state applies and is approved a waiver to designate an alternate agency. Appropriate forms may be obtained from this agency. In most cases, nonprofit private schools and institutions also apply to the State educational agency. However, in some States, the State educational agency is prohibited by

State statute from disbursing Federal funds to nonprofit private schools and institutions. In such instances, the application will be referred to the appropriate alternate State agency or the appropriate Food and Nutrition Service regional office.

Award Procedure:

The State agency or the FNSRO, where applicable, reviews the written application of school or child care institution and, upon determination of eligibility, makes a written agreement with school or sponsor for participation in the program.

Deadlines:

Federal/State agreement must be signed.

Range of Approval/Disapproval Time:

Agreements are effective upon approval of the State Agency or the FNSRO, where applicable.

Appeals:

None. State agencies or the FNSRO, where applicable, are responsible for determining eligibility of a school or institution.

Renewals:

Permanent, amended as necessary.

Formula and Matching Requirements:

The reimbursement rate for each paid half pint of milk served to children with household income levels above 130 percent of the poverty line in schools and institutions that participate in the Special Milk Program during school year 2007-08 is 17.0 cents, and the reimbursement rate for each 1/2 pint of milk served free (in pricing programs with a free milk option) to children with household income levels at or below 130 percent of poverty is the average cost of 1/2 pint of milk. This rate is adjusted each school year to correspond to the change in the Producer Price Index for Fluid Milk Products published by the Bureau of Labor Statistics. The statistical factor used for beneficiary eligibility for free milk is 130 percent of the poverty line and the source is the Federal income poverty guidelines. There is no matching guideline. The cost of milk in excess of the Federal reimbursement must be borne by sources within the States (7 CFR Part 215). Disbursement to States is based on the number of half pints served to children. This program has no maintenance of effort (MOE) requirement.

Length and Time Phasing of Assistance:

For the period covered by the agreement on a fiscal year basis.

Reports:

State agencies, schools and institutions file monthly reports on program operations to claim for reimbursement. Schools must submit final claims to the State agency no later than 60 days after the claiming month, and States must submit final program reports to Food and Nutrition Service no later than 90 days after the claiming month. For each fiscal year, States must submit final grant close out reports to the Food and Nutrition Service not later than 120 days after the close of the fiscal year to which they pertain.

Audits:

In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Nonprofit Organizations," State and local governments, and nonprofit organizations that expended \$500,000 or more under Federal awards within any fiscal year shall have either a single audit or (in certain cases) a program specific audit made for that year. Audits may be conducted less frequently under conditions specified in A-133.

Records:

Schools and institutions must maintain full and accurate records of Special Milk Program operations. Such records shall be retained for a period of 3 years after the end of the fiscal year to which they pertain except that, if audit findings have not been resolved, the records shall be retained as long as required for their resolution. This program is subject to periodic audits.

(WIC Program)

FEDERAL AGENCY:

FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

AUTHORIZATION:

Child Nutrition Act of 1966, as amended, Section 17, 42 U.S.C. 1786.

OBJECTIVES:

TYPES OF ASSISTANCE:

Formula Grants.

USES AND USE RESTRICTIONS:

Grants are made to State health departments or comparable agencies, Indian tribes, bands, or intertribal councils, or groups recognized by the Bureau of Indian Affairs, Department of the Interior, or the Indian Health Service of the U.S. Department of Health and Human Services. These agencies distribute funds to participating local public or nonprofit private health or welfare agencies. Funds are expended to pay for supplemental foods, nutrition education and health care referrals for participants, as well as specified administrative costs, including certification services. State agencies are provided Federal funds according to legislative and regulatory formulas. Only local agencies qualifying under State agency applications with formal agreements may operate WIC programs.

Applicant Eligibility:

A local agency is eligible to apply to deliver locally the services of the WIC Program, provided that: (1) it serves a population of low-income women, infants, and children at nutritional risk; and (2) it is a public or private nonprofit health or human service agency. All local agencies must apply through the responsible State, Indian Tribal Organization or U.S. Territory agency.

Beneficiary Eligibility:

Pregnant, breastfeeding and postpartum women, infants, and children up to 5 years of age are eligible if: (1) they are individually determined by a competent professional to be in need of the special supplemental foods supplied by the program because of nutritional risk; and (2) meet an income standard, or receive or have certain family members that receive benefits under the Food Stamp, Medicaid or Temporary Assistance for Needy Families Programs. They must also reside in the State in which benefits are received.

Credentials/Documentation:

Individuals are certified as meeting an income standard, or as participating in certain other means-tested Federal programs. Certification regarding nutritional need for supplemental foods is determined by local level professionals. As of April 1999, all State agencies were using uniform criteria to determine nutrition risk. Costs are determined in accordance with OMB Circular No. A-87 for State and local governments. The State designated official responsible for ensuring that the program is operated in accordance with program requirements must sign the State Plan and Federal-State Agreement pursuant to program regulations.

Preapplication Coordination:

Application is made through submission of a "State Plan of Program Operation and Administration," as required by legislation. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. The standard application forms as furnished by FNS and required by OMB Circular No. A-102, as implemented by 7 CFR part 3016, must be used for this program by State and local agencies.

Application Procedure:

Local agencies must apply to the State agency in writing. Individual participants apply for WIC benefits at an approved local agency.

Award Procedure:

Funds are awarded by the Department on the basis of funding formulas to State agencies for distribution to approved local agencies subject to available funds.

Deadlines:

A State plan for the next fiscal year is required by August 15. Only substantive changes to the currently approved State plan must be submitted.

Range of Approval/Disapproval Time:

Approval determination is made within 30 days of submission of a completed plan or amendment.

Appeals:

Local agency or food vendor appeals: The State agency provides a hearing appeal procedure for a food vendor or local agency adversely affected by certain State or local agency actions. The adverse action may be postponed until a hearing decision is reached. Participant appeals: The State agency provides a hearing appeal procedure for any individual that receives a State or local agency action that results in a claim for repayment of the cash value of improperly issued benefits, denial of participation, or disqualification from the WIC Program.

Renewals:

The program is authorized through September 30, 2009; it presently operates under the authority of the Child Nutrition Act of 1966, as amended.

Formula and Matching Requirements:

Grants are allocated on the basis of formulas determined by the Department of Agriculture which allocate funds for food benefits, and nutrition services and administration costs. No matching funds are required, but some States contribute nonfederal funds in support of a larger WIC Program in their State.

Length and Time Phasing of Assistance:

Grants are released for the fiscal year using an electronic transfer system. State agencies may withdraw funds only as needed.

Reports:

Monthly report of participation, value of food or food instruments issued, operating expenses, and funds withdrawn from the Federal letter of credit.

Audits:

In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Nonprofit Organizations," State and local governments and Nonprofit organizations that expend a total amount of Federal awards equal to or in excess of \$500,000 in any fiscal year shall have either a single audit or (in certain cases stated in the Circular) a program-specific audit made for such fiscal year. Audit rules provided by OMB Circular A-133 must be applied for audits of grantee and subgrantee fiscal years that began on or after July 1, 1996. Authority to conduct such audits less frequently than annually is limited to: (1) State or local governments required by constitution or statute, in effect on January 1, 1987, to undergo audits less frequently than annually; and (2) nonprofit organizations that had biennial audits for all biennial periods ending between July 1, 1992 and January 1, 1995. If a biennial audit is authorized, the audit must cover the two year period.

Records:

Full and complete records concerning program operations including financial operations, food delivery systems, food instrument issuance and redemption, equipment purchases and inventory, certification, nutrition education, civil rights and fair hearing procedures.

Account Identification:

12-3510-0-1-605.

Obligations:

(Grants for food) FY 07 \$5,547,776,650; FY 08 est \$6,250,280,000; and FY 09 est not reported.

Range and Average of Financial Assistance:

\$71,977 to \$891,953,017. Average: \$59,056,900 in fiscal year 2006 for the 90 State Agencies.

PROGRAM ACCOMPLISHMENTS:

For fiscal year 2007, FNS approved the operation of the WIC Program in 90 State agencies. This figure includes 50 States, 34 Indian agencies, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Marianas and the District of Columbia. As of September 2007, an average of approximately 8,285,249 women, infants and children received WIC benefits every month. Although food package costs varied widely among the States, the monthly average food package cost as of September 2007 was approximately \$39.09 per person. For fiscal year 2007, the WIC Program realized over \$1.9 billion in savings generated by infant formula rebates, which allowed approximately 2.2 million additional participants to be served with the WIC grant. In its continuing effort to advance new technologies, FNS awarded approximately \$5.2 million in Electronic Benefits Transfer (EBT) grants to 6 WIC State agencies in FY 2007, in support of EBT projects. The WIC Program State Agency Model (SAM) Project is a FNS initiative to plan, develop and deploy model information systems (IS) in WIC State agencies. The SAM project was initiated by FNS at the request of the Office of Management and Budget, with the expectation that these modern, state-of-the-art systems will be transferred to other WIC State agencies at a lower cost than regular development/transfer efforts. FNS has awarded funding to 3 State Agency Model (SAM) consortia across the country. Funding in FY 2006 totaled \$20,214,463; an additional \$553,433 was awarded in FY 2007. As part of its efforts to revitalize quality nutrition services, in FY 2007 FNS continued to take steps to increase training and technical assistance opportunities and facilitate communication among its

partners. In collaboration with the National Agricultural Library-Food and Nutrition Information Center, FNS continues to enhance the WIC Works Resource System (WWRS), an on-line system for WIC educators to talk, share successes, receive training on counseling strategies, and find educational materials and tools for assessment, and review current research. A new feature of WWRS is the WIC Bulletin Board Exchange; a database of ideas collected from WIC local agencies. The data base contains over 40 ideas many with photos from the waiting rooms and offices. The goal is to allow WIC staff to share ideas on how to reinforce nutrition messages through bulletin board displays. The online staff learning modules were enhanced with the addition of 3 modules on the topic of infant feeding (Infant Formula Basics, Feeding Infants 0-6 Months, and Feeding Infants 6-12 Months). Additionally a series of Web pages were created to post resources that assist State and local agencies in planning, developing and implementing the Value Enhanced Nutrition Assessment initiative. As part of our ongoing commitment to promote breastfeeding to WIC participants and their families through the USDA national breastfeeding promotion campaign, Loving Support Makes Breastfeeding Work, a marketing project, Partnering with WIC for Breastfeeding Success, was launched. This project invites stakeholders and health care professionals to partner with WIC to create a national environment that encourages mothers to breastfeed. In FY 2006, FNS and the National WIC Association continued to work together on the Value Enhanced Nutrition Assessment (VENA) initiative. Part of the continuing effort to improve and revitalize nutrition services in the WIC Program, VENA is WIC nutrition assessment guidance to enhance and ensure the collection and interpretation of accurate and relevant assessment information for all WIC Program participants. In FY 2006, FNS worked with the Rochester Institute of Technology to provide training to all WIC State agencies on the competencies necessary to implement VENA: critical thinking, rapport building, and positive health outcome-based approaches to nutrition assessment. critical thinking, rapport building, and positive health outcome-based approaches to nutrition assessment.

10.558 CHILD AND ADULT CARE FOOD PROGRAM**FEDERAL AGENCY:**

FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

AUTHORIZATION:

Richard B. Russell National School Lunch Act, as amended, Sections 9, 11, 14, 16 and 17, as amended, 89 Stat. 522-525, 42 U.S.C. 1758, 1759a, 1762a, 1765 and 1766.

OBJECTIVES:

To assist States, through grants-in-aid and other means, to initiate and maintain nonprofit food service programs for children, elderly or impaired adults in nonresidential day care facilities and children in emergency shelters.

TYPES OF ASSISTANCE:

Formula Grants.

USES AND USE RESTRICTIONS:

Funds are made available for disbursement to eligible institutions to reimburse their costs in providing meals and snacks to homeless children in emergency shelters and children and adults receiving nonresidential day care, including after school programs. Disbursement is made on the basis of the number of lunches, suppers, breakfasts, and snacks served, using annually adjusted reimbursement rates specified by law. Program institutions may receive reimbursement for not more than three meals per day, per participant. The Program is available in child care centers and day care homes to children through the age of 12 years, except for the children of migrant workers, who may participate through the age of 15 years, and individuals with disabilities without

regard to their age, if participating in a center or home where the majority of children are 18 years of age or younger. In addition, the Program is available to children in emergency shelters through the age of 18. In after school care programs, reimbursement is available for snacks (and suppers in eight States) served to children through age 18. In adult day care centers, functionally impaired adults 18 years of age and older and adults 60 years of age and older who are not residents of an institution are eligible. Meals must meet minimum requirements of the United States Department of Agriculture (USDA). Federal program funds for the Child and Adult Care Food Program are provided to each State agency in a Child Nutrition block grant along with program funds for the School Breakfast Program, the Special Milk Program for Children, the Summer Food Service Program for Children, and the National School Lunch Program. Congress has given some leeway to States to determine how this block of money will actually be allocated among these programs at the State level based on program needs.

Applicant Eligibility:

The State or U.S. Territory agency applies for, and signs an annual agreement to receive Federal funds for disbursement. In Virginia, where the State does not administer the program, institutions may receive funds directly from USDA. If the institution is a school food authority that operates another Child Nutrition Program (NSLP, SMP, SBP, SFSP), the institution must have a single, permanent agreement with the State agency.

Beneficiary Eligibility:

Approved institutions providing nonresidential day care services may participate in the program. Emergency shelters which provide shelter and meals to homeless children are eligible. Eligible public and nonprofit private organizations may include day care centers, outside-school-hours care centers, settlement houses, family and group day care homes, Head Start programs, and institutions providing day care services to children with disabilities. Private for-profit centers may also participate if at least 25 percent of the children in care (enrolled or licensed capacity, whichever is less) are eligible for free or reduced price school meals or receive benefits under Title XX. Also eligible for participation are nonprofit centers which provide nonresidential adult day care, and private for-profit adult day care centers which receive compensation under Title XIX or Title XX, if not less than 25 percent of their enrolled eligible adults receive benefits under Title XIX, Title XX, or a combination of Title XIX and Title XX. Any eligible institution may participate in the Child and Adult Care Food Program upon request with State agency approval.

Credentials/Documentation:

The allow ability of costs incurred by States in administering the program will be determined in accordance with USDA Uniform Federal Assistance Regulations (7 CFR Part 3016 and 3019). Applicant organizations must furnish evidence of tax-exempt status under the Internal Revenue Code of 1986. This requirement does not apply to public agencies or proprietary institutions.

Preapplication Coordination:

This program is subject to the provisions of E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process required by the State.

Application Procedure:

Institutions apply to the responsible State agency. In Virginia, where the State does not administer the program, the application is directed to the USDA Food and Nutrition Service (FNS) Mid-Atlantic Regional Office. This program is subject to the provisions of USDA Uniform Federal Assistance Regulations (7 CFR Parts 3016 and 3019).

Award Procedure:

When the application is approved, the institution signs an annual agreement with the administering agency.

Deadlines:

None.

Range of Approval/Disapproval Time:

Not applicable to States. States must approve or disapprove an application from an institution within 30 calendar days after receipt of a completed application.

Appeals:

The administering agency must provide a hearing procedure for local institution (i.e., center and sponsoring organization) grievances.

Renewals:

Not less frequently than every three years.

Formula and Matching Requirements:

Program funds are provided to the States through letters of credit to reimburse institutions for costs of food service operations, including administrative expenses. Appropriate rates of reimbursement, multiplied by the number of meals served to enrolled participants, represent the basic program payment that an institution receives for each meal served. The assigned rates of reimbursement are adjusted annually on July 1. For child care centers, adult day care centers, and emergency shelters for homeless children, the annual adjustment reflects changes in the Food Away from Home series of Consumer Price Index for All Urban Consumers. For day care homes, the adjustment reflects changes in the Food at Home series of the Consumer Price Index for All Urban Consumers. Donated foods or cash in lieu of donated foods are also

made available. Program payments to child care or adult day care centers depend on the number and types of meals served to enrolled participants, multiplied by the appropriate rate of reimbursement. Rates for meals served to enrolled children and eligible adults in day care centers are determined by the participants' eligibility for free, reduced price, or paid meals using USDA Income Eligibility Guidelines. All children through age 18 in eligible emergency shelters receive free meals without application. After school care programs, which must be located in low-income areas, are reimbursed at the free rate for all snacks--and meals in the States of Missouri, Delaware, Michigan, Pennsylvania, New York, Oregon, Illinois and West Virginia--served to children through age 18. Sponsoring organizations of day care homes for children are reimbursed at a graduated administrative rate based on the number of homes they operate. The level of reimbursement for meals served to enrolled children in day care homes is determined by economic need based on either the location of the day care home; or the income of the day care provider; or the income of an individual child's household. Meals served in day care homes to the provider's own children are reimbursable only if those children are determined eligible for free and reduced price meals, and at least one other nonresidential child is participating in the meal service. The reimbursement for food service is passed on by sponsoring organizations to the day care home providers under their auspices. This program does not have maintenance of effort (MOE) requirements.

Length and Time Phasing of Assistance:

For the period covered by the agreement.

Reports:

Institutions file monthly reports on program operations to claim reimbursement for meals served and must submit final meal claims no later than 60 days after the claiming month. States, then, must submit final program reports to FNS no later than 90 days after the claiming month.

Audits:

In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Nonprofit Organizations," States and Local Governments, and Nonprofit organizations that expend \$500,000 or more under Federal awards within any fiscal year shall have either a single audit or (in certain cases) a program specific audit made for that year. Audits may be conducted less frequently under conditions specified in OMB Circular No. A-133. For-profit institutions are subject to audit by their administering State agencies.

Records:

Institutions must maintain full and accurate records of program operations for a period of 3 years after the end of the fiscal year to which they pertain. However, where there are unresolved audit findings, records must be retained until there is satisfactory resolution of audit issues.

Meals may be served to children 18 and younger, and to individuals over 18 who participate in State approved school programs for persons with disabilities. The program generally operates during the months of May through September at site locations where regularly scheduled food services are provided for children. Sites may also participate in the program from September through May if the school is closed because of an emergency situation. Service institutions operating food programs for children on school vacation under a continuous year-round calendar may apply for participation in other months. Federal program funds for the Summer Food Service Program for Children are provided to each State agency in a Child Nutrition block grant along with program funds for the School Breakfast Program, the Special Milk Program for Children, the National School Lunch Program, and the Child and Adult Care Food Program. Congress has given some leeway to States to determine how this block of money will actually be allocated among these programs at the State level based on program needs.

Such institutions include public or private nonprofit school food authorities; public or private nonprofit colleges or universities operating the National Youth Sports Program during the months of May to September; and units of local, municipal, county, or State governments. Other private nonprofit organizations are eligible to participate under certain conditions. Service institutions which develop food service programs for children during school vacations under a continuous school calendar may also participate. Public or private nonprofit residential or nonresidential summer camps may also participate; however, at camps, reimbursement will only be paid for meals served to enrolled children who are individually determined to be eligible for free and reduced price school meals under USDA Income Eligibility Guidelines.

Credentials/Documentation:

The allowability of costs incurred by States in administering the program will be determined in accordance with USDA Uniform Federal Assistance Regulations (7 CFR Parts 3016 and 3019).

10.560 STATE ADMINISTRATIVE EXPENSES FOR CHILD NUTRITION

FEDERAL AGENCY:

FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

AUTHORIZATION:

Child Nutrition Act of 1966, as amended, 42 U.S.C. 1776, 1779.

OBJECTIVES:

To provide each State agency with funds for its administrative expenses in supervising and giving technical assistance to local schools, school districts and institutions in their conduct of Child Nutrition Programs. State agencies that administer the distribution of USDA donated commodities to schools or child or adult care institutions are also provided with State Administrative Expense (SAE) funds.

TYPES OF ASSISTANCE:

Formula Grants.

USES AND USE RESTRICTIONS:

SAE funds must be used for purposes specified in the legislation, consistent with

the cost principles and constraints on allowable and unallowable costs, and indirect cost rates as prescribed in OMB Circular No. A-87. These funds may be used, under certain conditions, for the procurement of supplies, equipment, and services. Five FNS programs comprise the Child Nutrition grants to States funding block. Federal funds for State administrative expenses allocated to the National School Lunch Program, the School Breakfast Program, the Special Milk Program for Children, the Summer Food Service Program for Children, and the Child and Adult Care Food Program are combined and provided to each State agency as a "block distribution." Congress has given some leeway to States to determine how this block of money will actually be allocated among these programs at the State level based on program administrative needs.

Applicant Eligibility:

State agencies responsible for the conduct of Child Nutrition Programs, and agencies responsible for the distribution of USDA donated commodities to schools, and/or child or adult care institutions, including agencies in the U.S. Territories.

Beneficiary Eligibility:

State agencies responsible for the conduct of Child Nutrition Programs, and agencies responsible for the distribution of USDA donated commodities to schools, and/or child or adult care institutions, including agencies in the U.S. Territories.

Credentials/Documentation:

Costs are to be determined and documented in accordance with agency regulations (7 CFR 235) and USDA Uniform Federal Assistance Regulations (7 CFR Parts 3015 or 3016 and 3019).

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure:

The State agency enters into a written agreement with the Food and Nutrition Service (FNS) on a form prescribed by the FNS. The standard application forms as furnished by the Federal agency must be used for this program. This program is excluded from coverage under OMB Circular No. A-110.

Award Procedure:

Release of funds to a State agency is contingent upon receipt and approval of their plan for disbursement of SAE funds. A State agency must submit an initial Plan in fiscal year 1997 and their estimated funding needs for the duration of fiscal year 1997. Thereafter, in accordance with Public Law 104-193 which deleted the requirement for an annual plan unless there are substantive changes, a State agency would only submit revisions to the initial plan.

Deadlines:

Data on additional funds needed or funds not needed and to be returned as applicable, are due by May 1 of each year.

Range of Approval/Disapproval Time:

None.

Appeals:

None.

Renewals:

Annually.

Formula and Matching Requirements:

For the National School Lunch Program, the School Breakfast Program, and the Special Milk Program, funds are allocated on the basis of an amount equal to one percent of the total funds used in the State for these programs during the second preceding year based on FNS program and fiscal data. However, no State receives less than \$200,000 or the amount it received in fiscal year 1981, whichever is larger. For the Child and Adult Care Food Program, a sliding grant is made based on FNS program and fiscal data. In addition, the Secretary has discretionary authority to provide funds to States for program improvement, based on FNS program and fiscal data. The authorizing legislation which establishes eligibility for SAE funds is the Child Nutrition Act of 1966, as amended, Section 7 (42 U.S.C. 1776). This program has a State Funding Requirement (SFR). See funding agency for details. Any reduction of funds from State sources below the fiscal year 1977 level will result in a withdrawal of Federal funds under this grant.

Length and Time Phasing of Assistance:

Funded each fiscal year during the period covered by the agreement. A State agency may carry over up to twenty percent of SAE funds allocated to it for obligation and expenditure during the succeeding fiscal year.

Reports:

Each State agency shall submit quarterly financial status information on SAE funds on forms provided by FNS and will continue to report information on the use of SAE funds, after the end of the fiscal year to which they pertain, until all unpaid obligations have been liquidated.

Audits:

In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Non-profit Organizations," State governments that expended \$500,000 or more under Federal awards within any fiscal year

shall have either a single audit or (in certain cases) a program specific audit made for that year. Audits may be conducted less frequently under conditions specified in A-133.

Records:

Each State agency shall keep records on administrative expenses conforming with the applicable SAE plan and shall maintain current accounting records of SAE funds that shall adequately identify fund authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

Account Identification:

12-3539-0-1-605.

10.572 WIC FARMERS' MARKET NUTRITION PROGRAM (FMNP)

FEDERAL AGENCY:

FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

AUTHORIZATION:

WIC Farmers' Market Nutrition Act of 1992, Public Law 102-314, 106 Stat. 281; Child Nutrition Act of 1966, as amended, Section 17(m), 42 U.S.C. 1786.

OBJECTIVES:

(1) To provide fresh, nutritious unprepared locally grown fruits and vegetables from farmers markets to women, infants, and children who participate in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC); and (2) to expand the awareness and use of farmers' markets and increase sales at such markets.

TYPES OF ASSISTANCE:

Formula Grants.

USES AND USE RESTRICTIONS:

Grants are made to State health, agriculture and other agencies (or Indian tribes,

bands, or intertribal councils or groups recognized by the Department of the Interior, or the Indian Health Service of the Department of Health and Human Services.) Participating State agencies must provide program income or State, local, or private funds for the program in an amount that is equal to at least 30 percent of the administrative cost of the program except Indian Tribal Organizations which may receive a negotiated match contribution that is less than 30 percent but not less than 10 percent. The matching requirement may be satisfied from State contributions that are made for similar programs. Federal FMNP benefits (coupons) may be issued only to participants in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) or to persons who are on a waiting list to receive WIC benefits.

Applicant Eligibility:

All State agencies that desire to receive a FMNP grant must submit, for each fiscal year, a State plan to the Food and Nutrition Service (FNS), USDA. States that received Federal assistance under the Farmers' Market Coupon Demonstration Project, which was administered by FNS from 1989-1992, were "grandfathered" into the FMNP by Public Law 102-314. Other States interested in participating in the FMNP must first submit a State plan to the appropriate FNS regional office for approval. Approved plans are then reviewed and evaluated by the National office (Supplemental Food Programs Division). New State agencies are then selected based on the evaluation and the availability of funds. Local FMNP sites are selected by participating State agencies based on concentration of eligible WIC participants and access to farmers' markets.

Beneficiary Eligibility:

WIC participants (i.e., pregnant, postpartum or breastfeeding women; infants over 4 months of age; and children up to 5 years of age) and (at the State's discretion) those who are on a waiting list to receive WIC benefits are eligible to receive FMNP coupons. State agencies may also designate subcategories of WIC participants, e.g., pregnant and breastfeeding women only, to be FMNP recipients.

Credentials/Documentation:

WIC participants (except infants under 4 months of age) and persons on WIC waiting lists certified for WIC eligibility who live in areas with a FMNP are eligible to receive benefits. A signed and executed Federal/State Agreement is necessary before funds can be allocated to a participating FMNP State agency. Costs will be determined in accordance with 7 CFR Part 3016, and FNS guidelines and instructions.

Preapplication Coordination:

Application is made through submission of a "State Plan of Program Operation and Administration" as required by law. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Farmers or farmers' markets (depending on whether State agencies have agreements with farmers or markets) located in communities with WIC Program sites may apply to be authorized to accept FMNP coupons under the program. The State agency reviews the applications for completeness and compliance with authorization requirements. The State agency contacts the farmer/farmers' market to inform them of qualification. Individual participants apply for FMNP benefits at approved local WIC agencies.

Award Procedure:

Funds are awarded by the Department on the basis of funding formulas to State agencies.

Deadlines:

A State plan for the next fiscal year is required by November 15.

Range of Approval/Disapproval Time:

An eligibility determination will be made within 30 days of submission.

Appeals:

Farmer/farmers' market appeals: The State agency shall provide a hearing procedure whereby a farmer/farmers' market adversely affected by a State agency action may appeal the action. The right of appeal shall be granted when a farmer/farmers' market is denied or, during the course of the contract or agreement, when a farmer/farmers' market is disqualified or any other adverse action which affects participation is taken.

Renewals:

This Program is authorized through September 30, 2009.

Formula and Matching Requirements:

Statutory formula can be found at Section 17(m)(3) of the Child Nutrition Act. As a prerequisite to the receipt of Federal funds, a State agency must agree to contribute program income or State, local or private funds equal to at least 30 percent of its administrative program cost. Indian Tribal Organizations may receive a negotiated match contribution that is less than 30 percent but not less than 10 percent. State contributions for similar programs may satisfy the State matching requirement. Provided that sufficient funds are available, each current State agency will be funded at its most recent year's level. Remaining funds are divided between current States for expansion and new States, based on a 75 to 25 percent ratio, respectively.

Length and Time Phasing of Assistance:

Grants have been released for the duration of the fiscal year using Federal Reserve Bank letters of credit. State agencies may withdraw funds only as needed.

Reports:

Annual reports submitted to FNS specifying the following data: Number and type of recipients (Federal and nonfederal); number of authorized farmers, farmers' markets, and farm or roadside stands; value of coupons issued and redeemed; and financial expenditure data.

Audits:

State and local agencies shall obtain either a single audit or a program-specific audit in accordance with 7 CFR 3016.26 or 3019.26 and 3052, as applicable.

Records:

State agencies must maintain full and complete records including recipient and financial data; coupon issuance and redemption data; equipment purchases and inventory; nutrition education and civil rights procedures.

Account Identification:

12-3510-0-1-605.

Obligations:

FY 07 \$22,109,323; FY 08 est \$19,860,000 and FY 09 est not reported.

Range and Average of Financial Assistance:

Range and Average of Financial Assistance \$6,337 to \$4,452,384; \$621,155.

PROGRAM ACCOMPLISHMENTS:

FNS has approved the operation of the FMNP in 46 State agencies, which include 37 States, the District of Columbia, Guam, Puerto Rico and 5 Indian Tribal Organizations for fiscal year 2006, thereby increasing the consumption of fresh fruits and vegetables from farmers' markets by many more WIC recipients. This is consistent with the nutrition goals of WIC and FMNP to motivate WIC participants to make healthy food choices.

FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE
AUTHORIZATION:
Farm Security and Rural Investment Act of 2002, Public Law 107-171, 116 Stat. 334; Section 4402, 7 U.S.C. 3007.

OBJECTIVES:
(1) To provide fresh, nutritious, unprepared, locally grown fruits, vegetables and herbs from farmers markets, roadside stands and community supported agriculture programs to low-income seniors, and (2) to increase the consumption of agricultural commodities by expanding, developing, or aiding in the development and expansion of domestic farmers markets, roadside stands, and community supported agriculture programs.

TYPES OF ASSISTANCE:
Project Grants.

USES AND USE RESTRICTIONS:
Grants are made to State departments such as health, agriculture and aging, United States territories and Federally-recognized Indian tribal governments, or any other agency approved by the chief executive officer of the State. Grant funds may be used only to support the costs of the foods that are provided under the SFMNP; no administrative funding is available.

Applicant Eligibility:
All States, United States territories, and federally recognized Indian tribal governments are eligible to apply for a grant.

Beneficiary Eligibility:
Persons eligible for the program are low-income seniors, generally defined as individuals who are at least 60 years old and who have household incomes of not more than 185% of the federal poverty income guidelines (published each year by the Department of Health and Human). Some State agencies accept proof of participation or enrollment in another means-tested program, such as the Commodity Supplemental Food Program or Food Stamps, for SFMNP eligibility.

Credentials/Documentation:
In addition to submitting an application based on the requirements of the grant solicitation, potential grantees must submit a standard SF-424, Application for Federal Assistance, form. In addition, potential grantees must submit forms in which they agree to comply with USDA regulations and Office of Management and Budget circulars, including: Uniform Federal Assistance Regulations, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, Government-wide Debarment and Suspension; Government-wide Requirements for Drug-free Workplace; and, New Restrictions on Lobbying.

Preapplication Coordination:

Each State applying for a SFMNP grant must designate a lead State agency. Each State may only submit one application on behalf of all interested State agencies, local governments, and non-profit organizations in the State. However, the lead State agency may make subgrants to other State agencies, Indian tribal governments, local governments, and non-profit organizations. Also, Indian tribal governments may make subgrants to local governments and non-profit organizations in the areas they serve. Interested agencies are encouraged to contact the Governor's office or Indian tribal governments to work together on an application. If multiple applications are received from more than one agency within the same State, FNS reserves the right to contact the Governor's office in that State for a final designation of the lead State agency. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Under the competitive grant process, FNS announces the opportunity for States, including territories and Federally recognized Indian tribal governments, to submit grant applications for the SFMNP for each fiscal year in which funds are available. All applications are due by a specified date to FNS Headquarters.

Award Procedure:

Applications are reviewed and evaluated by a panel of FNS staff to determine the technical merit of each grant application. Two separate panels evaluate applications; one panel reviews applications from current State agencies that are seeking expansion funds and another panel reviews applications from new State agencies. In the event that all available SFMNP funds for a given year are needed to provide base grants to currently participating State agencies, applications for program expansion or new programs will not be solicited by FNS. If the available funds are insufficient to meet the base grant levels for current SFMNP grantees, a pro-rata reduction will be applied to the grant levels awarded to all participating SFMNP State agencies. If additional funds become available for the SFMNP, such funds would first be distributed evenly among the current grantees to make whole their base grants for that fiscal year. Grant payments are made by a letter of credit.

Deadlines:

A deadline for the submission of grant applications is set forth in the announcement by FNS. In general, applications are due approximately 60 days after the announcement to request grant applications.

Range of Approval/Disapproval Time:

In general, FNS will announce SFMNP awards, and notify each State agency that did not receive an award, approximately 60 days after the date applications are due to FNS.

Appeals:

All decisions by the FNS selecting officials are final. However, unsuccessful applicants are offered a debriefing to discuss the strengths and weaknesses of their proposals.

Renewals:

Current State agencies are required to submit updated information annually.

Formula and Matching Requirements:

SFMNP grant funds are provided only to support the costs of the foods that are provided under the SFMNP; no administrative funding is provided.

Length and Time Phasing of Assistance:

SFMNP funds are provided using Federal Reserve Bank letters of credit, for a program period that begins when the grant agreement is signed by FNS and ends on November 30 of each year.

Reports:

Grantees are required to submit two financial status reports and two progress reports to FNS. The progress reports must indicate the number of outlets authorized to receive coupons (i.e., farmers, farmers markets, roadside stands and/or community supported agriculture programs) by category and the number of recipients who have been issued coupons.

Audits:

In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Nonprofit Organizations," State governments that expend Federal financial assistance of \$500,000 or more within any fiscal year shall have either a single audit or (in certain cases) a program specific audit made for that year. Audits may be conducted less frequently under conditions specified in A-133.

Records:

State agencies must maintain records as necessary to support the SFMNP funds. Such records must be retained for a period of 3 years after the date of submission of the final report for the fiscal year to which the records pertain, except that if audit findings have not been resolved, the records shall be retained beyond the three year period as long as required for the resolution of the issues raised by the audit.

Russell National School Lunch Act, as amended, 42 U.S.C. 1751, 1758, 1759a, 1761, 1765, 1766, 1769, 1772, 1773, 1779; School Breakfast Program (SBP); Child Nutrition Act of 1966, as amended, Public Laws 108-265, 104-193, 100-435, 99-661, 97-35; Special Milk Program (SMP); Child Nutrition Act of 1966, as amended; Child and Adult Care Food Program (CACFP); 89 Stat. 522-525, Summer Food Service Program (SFSP).

OBJECTIVES:

NSLP: To assist States, through cash grants and food donations, in making the school lunch program available to school children and to encourage the domestic consumption of nutritious agricultural commodities. SBP: To assist States in providing a nutritious nonprofit breakfast service for school children, through cash grants and food donations. SMP: To provide subsidies to schools and institutions to encourage the consumption of fluid milk by children. CACFP: To assist States, through grants-in-aid and other means, to initiate and maintain nonprofit food service programs for children, elderly or impaired adults in nonresidential day care facilities and children in emergency shelters. SFSP: To assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for low-income children during the summer months and at other approved times, when schools are out of session or are closed for vacation.

TYPES OF ASSISTANCE:

Project Grants (Discretionary).

USES AND USE RESTRICTIONS:

Determined by the legislation providing the grants. Examples of grants in this category include the Child Nutrition and WIC Reauthorization Act of 2004 (P.L. 108-265) which authorized funds for State agencies to perform administrative reviews and training of selected local education agencies participating in the NSLP. The purpose of these funds is to improve program integrity and administrative accuracy by decreasing administrative errors in those local education agencies identified by the States as having problems or where problems are likely to arise. The funds cannot be used to replace or augment funding allocated for existing review requirements and they cannot be used for local level expenses associated with administrative reviews or training activities. In addition, P.L. 108-265 authorized funding for grants under the SFSP to increase participation at congregate feeding sites through innovative approaches for overcoming limited transportation resources in rural areas. These multi-year grants were awarded in December 2005 on a competitive basis to Mississippi (6 sponsors), New York (7 sponsors), Oregon (8 sponsors), Texas (2 sponsors), and West Virginia (7 sponsors). The projects may not comprise pre-award costs associated with the development of a grant application or the cost of obtaining food. Over the course of 3 years, \$4 million will be available to the 5 States. Additional examples of grants in this category include the Consolidated Appropriations Resolution for Fiscal Year 2003 (Public Law 108-7) which provided funds for eligible schools to cover costs associated with implementing the SBP. The purpose of these grants was to increase the number of schools participating in the SBP, particularly those serving low-income children. The grants were used for State level costs associated with the administration of the SBP grant activities and local level costs that were allowable, reasonable, and necessary for an approved school to implement the SBP. The State agency could retain no more than 17.5% of the grant award for State level costs associated with the administration of the grant activities.

Cooperator funds are authorized through program agreements with nonprofit U.S. trade associations called Cooperators, that provide for partial reimbursement of generic promotional activities in a Unified Export Strategy application approved by the Foreign Agricultural Service (FAS), the agency which administers the program for the Commodity Credit Corporation (CCC). CCC notifies each applicant of the final disposition of its application and also issues a public announcement concerning the allocation of resources among the applicant organizations. Each approved applicant receives a program agreement and an allocation/marketing plan approval letter which specifies any special terms and conditions applicable to a cooperator's program. Final agreement occurs when both the participating organization and the Administrator of FAS in the Administrator's capacity as Vice President, CCC, sign the program agreement.
