16.606 STATE CRIMINAL ALIEN ASSISTANCE PROGRAM

(SCAAP)

FEDERAL AGENCY:

OFFICE OF JUSTICE PROGRAMS, BUREAU OF JUSTICE ASSISTANCE, DEPARTMENT OF JUSTICE

AUTHORIZATION:

Omnibus Appropriations Act, Public Law 106-113, Division B, Section 1000(a); Immigration and Nationality Act, 8 U.S.C. 1252, Section 242 as Amended; Title II, subtitle C, Section 20301; Violent Crime Control and Law Enforcement Act of 1994, Public Law 103-322.

OBJECTIVES:

The State Criminal Alien Assistance Program (SCAAP) is a payment program designed to provide federal assistance to states and localities that incur costs for incarcerating undocumented criminal aliens who are being held as a result of state and/or local charges or convictions. BJA administers this program in conjunction with the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services branches.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use.

USES AND USE RESTRICTIONS:

The Department of Justice Reauthorization Act of 2005 (Public Law 109-162, Title XI) included the following requirement regarding the use of SCAAP funds: "Amounts appropriated pursuant to the authorization of appropriations in paragraph (5) that are distributed to a State or political subdivision of a State, including a municipality, may be used only for correctional purposes." Beginning with FY 2007 SCAAP awards, all funds must be used for correctional purposes only. To be eligible for reporting, inmates must have been convicted of a felony or second misdemeanor for violations of state or local law, and housed in the applicant's state or local correctional facility for 4 or more consecutive days during the reporting period. Once a person meets these criteria, all pre-trial and post-conviction time served from July 1, 2005 through June 30, 2006 may be included in the FY 2007 application. Salary information reported in the SCAAP application must reflect the total salaries and wages paid to full and part-time correctional officers and others who meet the SCAAP definition. See the FY 2007 SCAAP Guidelines at http://www.ojp.usdoj.gov/BJA/grant/2007_SCAAP_Guidelines.pdf.

Applicant Eligibility:

Eligible applicants include States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions exercising authority with respect to the incarceration of an undocumented criminal alien. This covers state prison facilities (including those housing juveniles convicted as adults of felony offenses or two or more misdemeanors) and local jails, whether operated by counties or cities. Applicants are generally State and units of local government. Note: Only one application is accepted from each separate political division (i.e., State, county, city).

Beneficiary Eligibility:

States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions.

Credentials/Documentation:

Applicants who are seeking funding must complete an electronic application form via the Office of Justice Programs Grant Management System (GMS). The authorized official certifies compliance with all SCAAP requirements, including that: the applicant has been authorized by the Chief Executive Officer of the applicable unit of government; the inmate identifiers required have been submitted to BJA in the proper format(s) for the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services verification within the prescribed deadlines; all inmates counted by the applicant have been convicted of either a felony or two misdemeanor offenses under the applicant's law; and, only salary costs for corrections officers were included in the Total Salary Costs. By certifying on-line, the authorizing signing official is also assuring that all federal certifications and assurances are being met. The certification and assurance forms (Assurances, OJP Form 4000/3 and Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements, OJP Form 4061/6) are provided on-line to allow applicants to review and accept them electronically.

Preapplication Coordination:

No formal preapplication coordination is required. While informal preapplication coordination is not required, it is encouraged that applicants coordinate with any facilities for which they have responsibility to detain or incarcerate undocumented criminal aliens. This program is excluded from coverage under E.O. 12372 "Intergovernmental Review of Federal Programs."

Application Procedure:

SCAAP applications are administered via the Office of Justice Programs Internet-based Grants Management System. Inmate data, including the proper inmate identifiers, may either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of their inmate databases. Awards are announced after the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services inmate

verification process is done. Technical assistance is available to applicants for preparation of the on-line application process by calling the OJP Grants Management System Hotline at 1-888-549-9901.

Award Procedure:

The final payment process requires that all applications and all data be fully processed and verified before any payments are made. Inmate data will be verified by the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services. They will attempt to match the inmate data records provided to records in its databases to obtain the maximum number of confirmed matches. These matches are expected to include three categories: 1) those positively identified (matched) as qualifying undocumented criminal aliens; 2) those unknowns and 3) those positively identified as non criminal aliens. Applicants will be given credit for a percentage of inmates whose eligibility cannot be determined through positive identification or "match," but have valid foreign countries of birth. Payments will be based on the days of incarceration for the verified number of aliens incarcerated by each applicant. Payments are granted by the Director of the Bureau of Justice Assistance, Office of Justice Programs, Department of Justice. The payment must be accepted on-line and the acceptance will effect a simultaneous assurance of compliance with conditions. Acceptance of the payment online initiates the automatic electronic transfer of funds from OJP to the recipient.

Deadlines:

Varies annually. See current solicitation.

Range of Approval/Disapproval Time:

None.

Appeals:

None.

Renewals:

If additional funding for the State Criminal Alien Assistance Program is allocated by Congress, applications can be submitted annually.

Formula and Matching Requirements:

This program has no statutory formula. Payments are based on the days of incarceration for the verified number of aliens incarcerated by each applicant and cost considerations which are used to determine relative percentage of total available funding each applicant is eligible to receive.

Length and Time Phasing of Assistance:

Payments are made within 90 days of application end date.

Reports:

No reports are required under this payment program.

Audits:

Recipients who expend \$500,000 or more of Federal funds during their fiscal year are required to submit an organization-wide financial and compliance audit report in accordance with OMB Circular No. A-133, as amended, and as stated in the on-line payment process. Receipt of SCAAP payments is considered in establishing the requirement for an audit under the Single Audit Act. In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Nonprofit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Eligible jurisdictions must be general purpose units of local government, Federally-recognized Indian tribes, the 50 state governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The validity of the on-line registration process is verified through independent reviews which may include certification by the banking institutions serving the jurisdiction, the U.S. Census Bureau, and agencies within the U.S. Department of Justice.

Preapplication Coordination:

This is an Internet-based program. The jurisdiction is required to complete and submit an on-line registration form, providing information about the jurisdiction's chief executive officer, program contact person, and electronic banking information. The registration process is handled through the program's web site <http://vests.ojp.gov>. For jurisdictions without Internet capability, other means of registration are available. Only those jurisdictions with approved registrations are permitted to make application. This program is excluded from coverage under E.O. 12372.

Application Procedure:

The jurisdiction submits the application to BJA via the Internet web site <http://vests.ojp.gov>. On-line instructions guide the jurisdiction through the application process. Law enforcement agencies or agencies with law enforcement functions which meet the Act's definition, will assist in completing the jurisdiction's on-line application by indicating the types, numbers, and costs of vests they intend to order. For jurisdictions and/or agencies without Internet capability, other means of application are available. Only those jurisdictions that complete and submit applications will be eligible for matching funds from

BJA.

Award Procedure:

Applications received by BJA are reviewed for completeness, accuracy, and compliance with all program requirements. Each application is then checked against the availability of funds to cover up to 50 percent of the application's total cost, in keeping with established criteria for program fund allocation.

When all checks are complete and the application approved, the jurisdiction is notified through e-mail that the necessary funds have been obligated.

Deadlines:

Jurisdictions are permitted to apply only once per Federal fiscal year.

Range of Approval/Disapproval Time:

A minimum of 15 working days may be required for complete registration validation, although jurisdictions and law enforcement agencies will have immediate access to certain program components during this validation process. A minimum of 20 working days may be required after the program closes for approval of the jurisdiction's application for funding. A minimum of 25 working days may be required for the electronic transfer of funds from the U.S. Treasury to the jurisdiction's bank account, once the request for funds has been received, reviewed, and approved by the Office of Justice Programs.

Appeals:

None.

Renewals:

None.

Formula and Matching Requirements:

The program requires that each applicant jurisdiction be responsible for providing at least 50 percent of the cost of each vest purchased. Tribal governments may use Federal funds to provide this match; all other jurisdictions must use nonfederal match funds. Nonfederal fund sources include State and/or local jurisdiction revenues, private or personal funds, and contributions from insurance or workman's compensation consortiums. Asset forfeiture funds may also be used to meet the jurisdiction's matching requirement. Beginning in FY 2002, changes (Bulletproof Vest Partnership Act of 2000) (Public Law 106-517) gives preference to small jurisdictions (those populations below 100,000) guaranteeing them the full 50 percent match payment before payments are calculated and approved for larger jurisdictions.

Length and Time Phasing of Assistance:

Jurisdictions with approved applications must request the federal match no later than September 30th of the fourth federal fiscal year following the end of the federal fiscal year in which their application was approved. In other words, the jurisdiction has four years beyond the year of their application to request payments for vests contained in that application. Payments of the federal match will be made whenever the jurisdiction indicates that at least part of the approved vest order was received and invoiced.

Reports:

None.

Audits:

Payments and transactions are subject to audits by the General Accounting Office, Department of Justice's Office of the Inspector General, state or local government auditors, and auditors from independent public accounting firms. Jurisdictions must follow their local procurement policies and procedures, including maintenance of reliable and accurate accounting systems, record keeping, and systems of internal control.

Records:

Recipients of federal funds are expected to retain documentation supporting all program transactions for at least three years after the closure of audit reports related to such funding. If any litigation, claim, negotiation, audit, or other action involving records has been started before the expiration of the three year period, the records must be retained until completion of the action and resolution of all related issues, or until the end of the regular three year period, whichever is later.

Obligations:

FY 07 \$26,616,840; FY 08 \$23,970,000; and FY 09 est not available.

Range and Average of Financial Assistance:

PROGRAM ACCOMPLISHMENTS:

This program approved 5,129 applications from states, territories, municipalities and tribal governments. These applications are expected to result in the purchase of approximately 190,000 vests. BJA experiences over a 4 year period of program operations show that system design, technology and hardware adequately supported the program. The technical support help desk successfully fielded thousands of calls and e-mail inquiries from participants.

OBJECTIVES:

To provide delivery of specialized, multi-agency anti-terrorism preparedness training. This training, along with related research, law enforcement intelligence, operational issues development, and technical assistance support activities, is delivered to state and local law enforcement and prosecution authorities. While state and local law enforcement preparation and readiness issues addressed in this project are tailored to interventions in domestic terrorism, major portions of the program's preparedness and operational readiness outcomes are equally applicable to any terrorist threat or incident whether domestically or internationally inspired.

TYPES OF ASSISTANCE:

Training; Dissemination of Technical Information; Advisory Services and Counseling.

USES AND USE RESTRICTIONS:

Grant program funds are intended to: (1) provide state and local law enforcement (including prosecution authorities) a general awareness and working knowledge of domestic terrorist and "political" extremist movements; (2) disseminate information relating to vital elements of law enforcement anti-terrorism preparedness and readiness; (3) provide a general planning orientation to State and local law enforcement pertaining to crisis and consequence management and incident command, including essential elements requisite to conducting criminal investigations and prosecutions of terrorist threats and incidents; and 4) maintain and enhance a domestic terrorism public source database. Standard restrictions as outlined in OJP's Financial Guide apply.

Applicant Eligibility:

For-profit (commercial) organizations; nonprofit organizations; faith-based and community organizations; institutions of higher education; and consortiums with significant and demonstrated experience in terror prevention strategies and in delivering training and technical assistance to law enforcement and tribal communities are eligible to apply. For-profit organizations must agree to waive any profit or fees for services. Joint applications from a consortium must identify the primary applicant and co-applicant(s), and letters of support that outline the partners' responsibilities must be provided. Faith-Based and other community organizations consistent with President George W. Bush's Executive Order 13279, dated December 12, 2002, and 28 C.F.R. Part 38. It is DOJ's policy that faith-based and other community organizations that statutorily qualify as eligible applicants under DOJ programs are invited and encouraged to apply for assistance awards to fund eligible grant activities. Faith-based and other community organizations will be considered for awards on the same basis as other eligible applicants and, if they receive assistance awards, will be treated on an equal basis with all other grantees in the administration of such awards. No eligible applicant or grantee will be discriminated for or against on the basis of

its religious character or affiliation, religious name, or the religious composition of its board of directors or persons working in the organization. Faith-based organizations receiving DOJ assistance awards retain their independence and do not lose or have to modify their religious identity (e.g., removing religious symbols) to receive assistance awards. DOJ grant funds, however, may not be used to fund any inherently religious activity, such as prayer or worship. Inherently religious activity is permissible, although it cannot occur during an activity funded with DOJ grant funds; rather, such religious activity must be separate in time or place from the DOJ-funded program. Further, participation in such activity by individuals receiving services must be voluntary. Programs funded by DOJ are not permitted to discriminate in the provision of services on the basis of a beneficiary's religion.

16.727 ENFORCING UNDERAGE DRINKING LAWS PROGRAM

FEDERAL AGENCY:

OFFICE OF JUVENILE JUSTICE AND DELINQUENCY PREVENTION,
OFFICE OF JUSTICE PROGRAMS, DEPARTMENT OF JUSTICE

AUTHORIZATION:

The statutory authority for the EUDL Block Grant Program may be found within Section 504 of the Juvenile Justice and Delinquency Prevention Act, 42 U.S.C. 5783. Congress has delegated the authority to administer the EUDL Program to the Office of Juvenile Justice and Delinquency Prevention (OJJDP), in the U. S. Department of Justice's (DOJ's) Office of Justice Programs (OJP) under the Consolidated Appropriations Act, 2008, P.L. 110-161.

OBJECTIVES:

The EUDL Program supports and enhances states' and local jurisdictions' efforts to prohibit the sale of alcoholic beverages to minors and the purchase and consumption of alcoholic beverages by minors. (For the purpose of this solicitation, "minors" are defined as individuals under the age of 21.) Activities under the EUDL Program may include: -Statewide task forces of state and local law enforcement and prosecutorial agencies to target establishments suspected of a pattern of violations of state laws governing the sale and consumption of alcohol by minors. -Public advertising programs to educate establishments about statutory prohibitions and sanctions. -Innovative programs to prevent and combat underage drinking.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

The Enforcing Underage Drinking Laws (EUDL) Program allocates block grants for every state and the District of Columbia to enforce state laws prohibiting the sale of alcoholic beverages to minors and to prevent the purchase or consumption of alcoholic beverages by minors. From fiscal years (FYs) 1998 to 2008, Congress appropriated \$25 million annually to OJJDP for its EUDL program. In fiscal year 2008, a total of \$25 million will be awarded as block and discretionary grants in the following manner: Funds will be dispersed in the amount of \$350,000 to each State, each Territory, and the District of Columbia in block grants totaling \$19,600,000.00 to support and enhance efforts by States, in cooperation with local jurisdictions, to prohibit the sale of alcoholic beverages to, or consumption of alcoholic beverages by minors. Funds will be dispersed to support discretionary program activities in local jurisdictions, as well as training and technical assistance to all States. To support local discretionary programming activity, funds plan to be competitively awarded to State agencies receiving block grants. The local programs implement the comprehensive approach to curtailing access and consumption of alcoholic beverages by minors, including the enforcement of laws pertaining to underage alcohol purchase, possession, and use. For purposes of this initiative, minors are defined as individuals under 21 years of age. These funds cannot be used to supplant existing programs and activities (Supplanting means to deliberately reduce State or local funds because of the existence of Federal funds).

Applicant Eligibility:

To receive a Block Grant, Governors and the Mayor of the District of Columbia designated an agency to serve as the point of contact to apply for, receive, and administer the targeted grant funds. The designated State agencies may apply to receive a Discretionary Grant. Their applications must detail a comprehensive approach to curtailing access and consumption of alcoholic beverages by minors, including the enforcement of underage drinking laws and how that approach will be implemented by State-selected local communities. States are encouraged to link with ongoing public and private efforts (including those of foundations and national organizations). Training and technical assistance were made available through a separate application process.

Beneficiary Eligibility:

States are eligible to apply for discretionary funds through a separate application process.

Credentials/Documentation:

Each applicant applying for funds must submit a completed application, including signed assurances that it will comply with administrative requirements.

Application Procedure:

Applicants must submit completed Standard Form 424 and other information outlined in the Application Kit to the Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention. Each applicant must detail a comprehensive approach to enforcing underage drinking laws and describe how the Federal funds will be used to contribute to the implementation of that comprehensive approach. States are encouraged to link with ongoing public and private efforts (including law enforcement agencies and those of foundations and national organizations). PROGRAM ACCOMPLISHMENTS:

OJJDP's Safe Start Initiative, originally funded through a Congressional set aside of \$10 M annually, promotes practice innovation, research, and evaluation to build knowledge in the emerging area of children's exposure to violence. The purpose of the initiative is to prevent and reduce the impact of violence on children (particularly young children) and their families. The initiative currently encompasses both an original Safe Start demonstration project and the Safe Start Promising Approaches pilot project, and includes several evaluation components such as case level outcomes studies, experimental and quasi-experimental evaluation of the pilot project, and development of a first-ever national incidence and prevalence study on children's exposure to violence. Both the demonstration and pilot programs are designed to create evidence-based practice innovation through expanding current partnerships among service providers in key areas

such as early childhood education, health, mental health, child welfare, family support, substance abuse prevention/intervention, domestic violence/crisis intervention, law enforcement, the courts, and legal services. These projects are aimed at enhancing the accessibility, delivery, and quality of services provided young children who have been exposed to violence or who are at high risk for exposure. In addition, other key initiative components include capacity-building work such as training and technical assistance, publications, information dissemination, and public and professional awareness. Through the Safe Start program, more than 15,000 children have been identified and provided with appropriate services in the aftermath of their exposure to violence. Close to 44,000 children serving professionals have been trained to identify and respond appropriately to these child victims in the Safe Start sites. In addition to the 27 communities directly funded to develop new practices to serve these children, national efforts to increase professional knowledge and specialized training to identify these children and get them critical services to ameliorate the impact of trauma from this exposure to violence in their daily lives. The Safe Start program supports the development of a long-range strategic plan for knowledge building in the area of children's exposure to violence. This plan relies on innovation and an evidence base for research, evaluation, practice, and capacity-building in information dissemination and training on children's exposure to violence (CEV).

REGULATIONS, GUIDELINES, AND LITERATURE:

The Safe Start solicitation/guideline is published in the Federal Register and awards are governed by the OJP Financial Guide, which is available upon request. Reports and studies developed through the OJJDP National Institute are available and can be secured by contacting OJJDP in Washington, DC.

EXAMPLES OF FUNDED PROJECTS:

In fiscal year 2001, nine 5-1/2 year demonstration sites and three 2-year program sites continued and completed strategic planning efforts and OJJDP later made awards to an additional two demonstration sites in tribal communities. The National Center for Children Exposed to Violence continues to provide training and technical assistance to Safe Start communities and serves as a clearinghouse for information about violent traumatization and successful approaches to intervention, while further promoting public and professional awareness of the effects of violence on children. In FY05 OJJDP funded the Safe Start Promising Approaches Pilot Sites (SSPA) as the second phase of the Safe Start Initiative. SSPA is a four-year project that will provide funds to communities to implement evidence-based services for children exposed to violence and their families. The National Study on the Incidence and Prevalence of Children's Exposure to Violence is a five-year two-tiered study that will collect national data on the children's exposure to violence to inform the field about the types of exposure and the intensity, frequency and chronicity of such exposure. These numbers will provide the first robust comprehensive numbers on children's exposure to violence as well as providing a tool for local communities to collect their own local data.

CRITERIA FOR SELECTING PROPOSALS:

Applications are judged according to their consistency with the policies and program priorities established by the Juvenile Justice and Delinquency Prevention Act. Specific criteria are published in the Federal Register as part of the individual program announcement. Awards ranged from \$300,000 to \$500,000 and were based on the size of the population the tribe serves. A broad spectrum of geographically diverse tribal communities responded to the TYP solicitation, an indication that OJJDP is achieving its goal of working with tribes and communities of various population sizes and geographic locations. OJJDP also noted a marked increase in the number of applications from Alaska and in the number of first-time applicants for TYP funds, another indication that the Office's outreach efforts are succeeding. Tribal Youth Mental Health Initiative: OJJDP is also supporting a mental health program, which will provide diagnostic and treatment services to tribal youth involved in juvenile justice systems. The four objectives of this program are the same as those of the Tribal Youth Program discussed above, except that each objective must have a specific mental health and juvenile

justice focus. OJJDP awarded grants under this program to nine American Indian and Alaskan Native tribal communities. The grants totaled nearly \$1 million in awards up to \$300,000. Research Projects: OJJDP also supports a number of research and evaluation activities through the Tribal Youth Program. Based on suggestions and feedback from numerous meetings and focus groups with Indian practitioners and researchers, OJJDP established three principles to guide the TYP research and evaluation activities it funds. First, the research should provide practical results that are useful to the parties who are the focus of the research. Second, the projects should include local community members in decision making and in implementing the project. Third, researchers must understand and be sensitive to local customs, traditions, value, and history. OJJDP's TYP research activities, which will provide empirical evidence about juvenile justice and delinquency prevention policies and practice for American Indian and Alaska Native youth.

EXAMPLES OF FUNDED PROJECTS:

The Suquamish Tribe, Washington is addressing substance abuse related delinquency among Indian youth through a prevention program targeting young people ages 10 to 21. The program consists of after school activities focusing on teaching youth leadership skills, communication skills, and traditional survival skills. The program includes cultural activities and opportunities for youth to become involved with the community. The goal of the activities and skills building is to improve young people's ability to avoid involvement with drugs and alcohol and delinquent behavior, and to strengthen youth, family, and community interactions. s implementing a graduated sanctions program for youth convicted of underage drinking and curfew violations. The program is administered through the joint effort of the Tribal Court and the Menominee Office of Family Preservation and Support. Juveniles are referred to the program by the Tribal Court. The program seeks to reduce recidivism amongst juveniles that enter the program. The program includes alcohol abuse education classes to teach juveniles about the danger, both physically and spiritually, that alcohol can cause. The program also provides drug and alcohol abuse assessment and treatment along with a community service component. Muscogee (Creek) Nation proposes to establish a Juvenile Delinquency Prevention and Services Program to provide prevention services to impact risk factors for delinquency and improve its juvenile justice system. The Nation's proposed project will promote delinquency prevention by providing intervention and education, resource, and support activities to tribal youth identified as at-risk; provide advocacy to tribal youth entering the state juvenile justice system; and develop and implement juvenile probation services. During the three year project period, the Nation will provide the following: delinquency prevention services, including individual/family needs assessment, service plan development, and individual/family home-based counseling, to at least seventy-five 12-17; advocacy to at least thirty (30) youth under the age of 17 entering the State of Oklahoma juvenile justice system; and probation services, including home visits, community service, and case management, to between 10-15 youth under the age of 17, who are identified as delinquent by the Nation's District Court. The Cheyenne and Arapaho Tribes of Oklahoma intend to develop a program that will reduce the high incidence of violence among the Tribal Youth that reside within the eight county service area through a community-based approach. The project will be developed in order to prevent the widespread use of alcohol and drugs through the use of education awareness, recreational activities, and tradition/cultural activities by developing on-site classes and on-site activities in the four target communities during the summer months for the tribal youth, ages 6 - 17. The other objective of this grant shall be to reduce the high incidence of school truancy, the high percentage rate of dropouts from the local school system through increased awareness of the importance of a formal education from the local school districts. The project will work with the whole family unit by providing a Mentor within the communities that will strive to increase the self-esteem of the Cheyenne and Arapaho students, and to reduce the incidence of child neglect, teen pregnancy, through the use of Parenting Skills Training and Sex Education classes. The Southern Ute Indian Tribe in Colorado is attempting to reduce delinquency and substance abuse among at-risk and court-involved Native American youth. Using FY04 Tribal Youth Program funds, the Southern Ute Tribe is supporting the collaborative efforts of two tribal government departments (the Southern Ute Social Services Division and the Southern Ute Tribal Court) and a tribally affiliated nonprofit (Youth Services Division of

SouthernUteCommunity Action Programs, Inc.) to address juvenile delinquency on multiple fronts. The program, which serves approximately 85 juveniles a year (ages 8 to 17), includes a variety of elements such as an evidence-based parenting program which aims to improve the communication, problem solving, and life skills of at-risk youth and their parents, and a Teen Court which allows Native American youth to participate in the sentencing portion of certain juvenile misdemeanor and felony cases. In addition, the Teen Court is developing its sentencing procedures to use sentencing circles, a process that engages youth in meaningful interactions with defendants and is design d t increase their connection to the community. The Swinomish Indian Tribal Community of Washington is a relatively small rural community, gripped by significant drug and alcohol abuse. Recognizing the importance of stemming the tide of youth substance abuse and delinquent behavior, the Swinomish Tribal Community has established a team of tribal court and social services personnel to plan and implement the Swinomish Youth Wellness Court (SYWC). The focus is to improve the tribal juvenile justice system and provide alcohol and drug abuse prevention programs. The expected target population for the SYWC is youths between the ages of 12 and 17. There are currently 64 tribal members within the target age and 228 members under the age of 18. It is anticipated that the SYWC will provide services to 10 to 15 clients yearly when fully operational.

Each group conducted gap analysis, compiled current resources and developed a training curriculum that was piloted at a national level. The developed curriculum has been adapted to include relevant state statutes that will be delivered by State agencies. NDAA conducted pilot trainings in AR and FL; NJC conducted pilot trainings in AR, VA, NC, TX and PA; and NLADA conducted pilot trainings in CA, TX, SC, PA, and IL. CRITERIA FOR SELECTING PROPOSALS:

Applications will be reviewed by the OVC Point-of-Contact for the project, using the following criteria: Problem(s) to be Addressed and Goals and Objectives, Project Design/Implementation Plan, Organizational Capability, Plans for Measuring Progress and Outcomes, and Budget and Budget Narrative. The problem statement must provide a strong rationale for the project and clearly describe how the proposed project will be of value to the victims' field by meeting a stated goal. The goals and objectives must be clearly specified and related directly to the problem statement. The goal(s) should state the overall purpose of what is to be accomplished. If the application is for continuation funding, these new goals and objectives should be addressed within the context of what the project has already accomplished. The program strategy/methodology must include sufficient detail so that the OVC Point-of-Contact or other reviewers can understand what will be accomplished, how it will be accomplished, and who will accomplish it. Finally, the OVC Point-of-Contact will examine the identified project tasks, milestones, and assignment of staff resources within the framework of the proposed budget. They must demonstrate that there is sufficient staff and time to accomplish the proposed tasks in a cost-effective manner. Applicants must show cost effective and efficient use of grant

resources, demonstrating that all grant-related expenses are necessary for project completion. All identified costs should accurately reflect the tasks, staff time, supplies, and travel necessary to accomplish the grant-related work, if applicable.

16.748 CONVICTED OFFENDER AND/OR ARRESTEE DNA BACKLOG REDUCTION PROGRAM (IN-HOUSE ANALYSIS AND DATA REVIEW)

FEDERAL AGENCY:

NATIONAL INSTITUTE OF JUSTICE, OFFICE OF JUSTICE PROGRAMS, DEPARTMENT OF JUSTICE

AUTHORIZATION:

For FY 06, Science, State, Justice, Commerce, and Related Agencies Appropriations Act, 2006, Public Law 109-108. FY 07 authorization as yet undetermined.

OBJECTIVES:

The objective of this program is to accelerate the analysis of convicted offender and/or arrestee DNA samples collected by States pursuant to applicable law for databasing purposes (hereinafter, "DNA database samples"), in order to provide timely Combined DNA Index System (CODIS)- compatible data for all 13 CODIS core STR loci for State and national DNA databases. Funds are to be used by a State's designated existing and accredited DNA database laboratory to reduce the backlog of DNA database samples in one of three ways: a) Through in-house analysis. The DNA database laboratory will determine what its backlog is and can apply for \$35.00 per sample to be analyzed. If the database laboratory lacks funding to ensure timely review of the profiles generated, it may apply for an additional \$5.00 per DNA profile generated in-house for a total of \$40.00 per sample tested in-house. b) Through sending samples to be tested by accredited fee-for-service laboratories. Funding requests for this option are to be calculated in exactly the same fashion as for the in-house testing option above. c) Through data review of sample profiles generated by an accredited fee-for-service laboratory. If the database laboratory lacks funding to ensure timely review of the profiles generated, it may apply for an additional \$5.00 per DNA profile generated. All profiles obtained from DNA database samples with funding provided under this announcement must be entered in the Combined DNA Index System (CODIS) within 90 days of completion of analysis and uploaded to the National DNA Index System (NDIS). Laboratories that receive funds from awards made under this announcement for sample testing and review must track and report the number of DNA database samples analyzed and/or reviewed under this fiscal year (FY) 2008 program and the number of resulting CODIS hits.

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

All expenditures from DNA Backlog Reduction Program Awards must directly relate to analysis and data review of Convicted Offender and/or Arrestee DNA database samples by the State's designated DNA database laboratory or to data review profiles generated by an accredited-fee for service laboratory from such samples. Types of expenditures from awards under this program for in-house testing may include the following: Overtime - funds may be used for overtime of in-house laboratory staff directly engaged in (a) handling and analyzing DNA database samples, including handling and analyzing quality assurance samples, and (b) data review of profiles generated by an accredited fee-for-service vendor from DNA database samples that, due to the lack of laboratory resources, have yet to be reviewed and entered into NDIS; Salary and Benefits of Additional Laboratory Employees - funds may be used to hire additional full-time or part-time laboratory employees who will be directly engaged in the handling or analysis of DNA database samples, or the data review of DNA profiles generated from such samples (including profiles generated by accredited fee-for-service vendors); Consultant and Contractor Services for Data Review - Funds may be used to hire consultants and/or temporary contract staff to conduct data review of profiles generated by an accredited fee-for-service vendor from DNA database samples that, due to the lack of laboratory resources, have yet to be reviewed and entered into NDIS; Laboratory and Computer Equipment for the DNA database laboratory - funds may be used for upgrading, replacing, and purchasing laboratory equipment, instrumentation, and computer hardware or software (e.g., expert systems and Laboratory Information Management Systems) for use in the DNA database laboratory; Certain Supplies - funds may be used to acquire commercially available PCR kits accepted by NDIS, and other laboratory supplies for analysis of DNA database samples, including analysis of quality assurance samples; Renovations - funds may be used for the renovation of facilities that will directly and specifically improve the effectiveness or efficiency of the DNA database laboratory operation; and Administrative Expenses - up to 3 percent of the Federal portion of the award may be used for administrative and grant management expenses directly related to the performance of the project. Types of expenditures from awards under this program for sending samples out for analysis by an accredited fee-for-service laboratory may include the following: O review of DNA database profiles

generated by an accredited fee-for-service laboratory. Any payments for overtime must be in accordance with the applicable provisions of the OJP Financial Guide, available at <http://www.ojp.usdoj.gov/financialguide/>. Contracts. Funds may be used to establish a contract for testing DNA Database samples with an accredited fee-for-service laboratory. Agencies will follow their own procurement procedures for establishing these contracts. Any sole source requests in excess of \$100,000 must be submitted and approved through GMS as required in the OJP Financial Guide. Contracts may only be established under this solicitation with accredited fee-for-service laboratories that are on the GSA Blanket Purchase Agreement list for Convicted Offender DNA Backlog Reduction Program (Outsourcing) used by the OJP Contract Office. Consultant and Contractor Services for Data Review. Funds may be used to hire consultants and/or temporary contract staff to conduct data review of profiles generated by an accredited fee-for-service laboratory that, due to the lack of laboratory resources, have yet to be reviewed and entered into NDIS. National Apprenticeship Act of 1937, as amended, Public Law 75-308, 50 Stat. 664, 57 Stat. 518, 29 U.S.C. 50, 50a, 50b.

OBJECTIVES:

To stimulate and assist industry in the development, expansion, and improvement of registered apprenticeship and other training programs designed to provide the skilled workers required by U.S. employers, ensure equal employment opportunities in registered apprenticeship and other training programs, and ensure the quality of all new and existing registered apprenticeship programs.

TYPES OF ASSISTANCE:

Advisory Services and Counseling; Project Grants.

USES AND USE RESTRICTIONS:

Under the Office of Apprenticeship (OA) apprenticeship training programs and

apprentices are registered in 23 States. OA also provides technical assistance and works closely with State Apprenticeship Councils/State Apprenticeship Agencies (SACs/SAAAs) in the remaining 27 States, the District of Columbia, and three territories that register programs and apprentices in accordance with Federal standards. OA provides information on existing and recommended standards of training in registered apprenticeship as well as on other types of industrial skill improvement programs. The wage rates of apprentices in registered programs (Federal and State) are exempt from the prevailing wage requirements of the Davis-Bacon Act and the Service Contract Act. Registered Apprenticeship is the combination of learning on-the-job and related technical and theoretical instruction in a skilled occupation. Registered programs are driven directly by the demands of the labor market. The training is industry-driven, voluntarily sponsored by individual employers, employer associations, and/or by joint employer-employee groups. OA brings these entities together, as appropriate, to formulate registered apprenticeship training programs which meet the federal standards. Various educational institutions and sponsors provide theoretical and related instruction. Special efforts are being made to introduce the apprenticeship concept of training into high-growth industries and occupations. The Advisory Committee on Apprenticeship, representing employers, labor, vocational education, and others with an interest in skill training, advises the Secretary of Labor on apprenticeship and training issues. Special grants are provided to eligible organizations to assist employer and labor unions in placement and retention of women in apprenticeship and nontraditional occupations.

Applicant Eligibility:

Employers, a group of employers, or an association of employers, or individual employers with or without in each case the participation of a labor union. For grants: community based organizations, which may be faith based - see announcement of solicitation for grant applications.

Beneficiary Eligibility:

Individuals applying for acceptance into an apprenticeship training program must be at least 16 years old and must satisfy the apprenticeship program sponsor that they have sufficient ability, aptitude, and education to master the rudiments of the trade/occupation and to satisfactorily complete the related theoretical instruction required in the program.

Credentials/Documentation:

Along with the completed application form, each prospective apprentice may be required by the sponsor to submit a transcript of school subjects and grades, proof of age, an honorable military discharge (if applicable), and a high-school diploma or equivalency certificate (if applicable). References from all previous employers may be required.

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Prospective program sponsors must meet with an OA or SAC/SAA field representative, as appropriate, to draw up a set of apprenticeship training program standards. These include the age and educational background of apprentices, and a schedule of the work processes and related theoretical instruction subjects to be covered during the training program. The program will be registered if it meets Federal requirements covering (a) the apprenticeability of the occupation(s) and (b) the suitability of the training standards for providing apprentices with sufficient knowledge to become skilled workers. Grants for projects are awarded on a competitive basis, announced in Solicitation for Grant Applications (SGAs) in the Federal Register and also on ETA's Internet website at <http://www.doleta.gov>. To compete for a grant, organizations develop a proposal and budget that demonstrate how the organization will provide services to a targeted population. The SGA provides all of the necessary information for applying for federal assistance.

Award Procedure:

Not applicable for advisory services and counseling type of assistance. Procedures for grant projects are specified in the applicable request for proposals. Generally, the procedure is as follows: A technical review panel composed of staff from ETA program offices as well as peer reviewers evaluates eligible submitted applications. The panel prepares a report for the ETA Grant Officer identifying the strengths and weaknesses of the application and the cumulative rating. Once selections are made by the Grant Officer, an Award Notification is sent through the appropriate congressional channels for notification. After awardees are notified, the list of awardees is posted on the ETA website at www.doleta.gov. If an application is rejected, a letter is sent to the applicant as notification that they were not selected as a recipient of the grant.

Deadlines:

For grants, specified in the applicable request for proposals, but generally 45 to 60 days from announcement.

Range of Approval/Disapproval Time:

For grants, from 45 to 90 days.

Appeals:

OA refusal to register programs and OA deregistration of existing programs may be appealed to the Secretary of Labor as provided in Title 29 CFR Part 29. For grants, procedures for each project are specified in the applicable request for

proposals.

The statistical sources used for fund allocation are based on census data. Below the state level, funds are distributed on the basis of persons over the age of 55 at or below 125 percent of the poverty guidelines as determined by the DHHS and Census P-60 Current Population Reports. Grantees must provide or arrange through third parties at least 10 percent of the cost of the project from non-Federal sources. The grantee share of the cost may be contributed in cash or in-kind. RELATED PROGRAMS:

17.258, WIA Adult Program.

EXAMPLES OF FUNDED PROJECTS:

The Employment and Training Administration makes grant awards available to 50 states, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, and Virgin Islands, along with 18 national non-profit organizations.. A variety of organizational arrangements are used to administer the SCSEP projects. Many of the grantees have contractual relationships and agreements with local government and non-profit organizations. In many cases the SCSEP program is operated by the state aging agency and within sub-state areas by area agencies on aging. Some of the national grantee organizations administer the SCSEP local projects directly through their affiliates, while others sub-grant funds to local agencies. Most of the projects operated under the auspices of the SCSEP provide service through host agencies to the community at large or to the elderly community. Some of the activities have included transportation for the elderly, serving the community as librarians, teachers' aides, nutritional aides, etc. The ultimate goal of the program is to place participants into unsubsidized employment and foster economic self-sufficiency.

CRITERIA FOR SELECTING PROPOSALS:

The Department annually renews grant agreements. The Department may have an open competition from time to time to select national grantees. National grants were competed in 2003 and 2006. The next competition opportunity, as specified in the authorizing legislation, will be in 2011. When such a competition occurs, a notice will be published in the Federal Register.

17.245 TRADE ADJUSTMENT ASSISTANCE

FEDERAL AGENCY:

EMPLOYMENT AND TRAINING ADMINISTRATION, DEPARTMENT OF LABOR

AUTHORIZATION:

Trade Act of 1974, Title II, Public Law 93-618, 88 Stat. 1979, 19 U.S.C. 2271-2322, as amended; Omnibus Budget Reconciliation Act of 1981, Title XXV, Public Law 97-35, as amended; Miscellaneous Revenue Act of 1983, Public Law 97-362, as amended; Amendment to the International Coffee Agreement Act of 1980, Public Law 98-120, as amended; Deficit Reduction Act of 1984, Public Law 98-369, as amended, Public Law 99-190; Third Continuing Resolution for Fiscal Year 1986 Funds, as amended; Consolidated Omnibus Budget Reconciliation Act of 1985, Title XIII, Public Law 99-272; Omnibus Trade and Competitiveness Act of 1988, Title I, Public Law 100-418; North American Free Trade Agreement Implementation Act, Title V, Public Law 103-182; Consolidated Appropriations Act of 2000, Public Law 106-113; Trade Act of 2002, Title I-II, Public Law 107-210.

OBJECTIVES:

To provide adjustment assistance to qualified workers adversely affected by foreign trade which will assist them to obtain suitable employment.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

State Workforce Agencies (SWAs) serve as agents of the United States for administering the worker adjustment assistance benefit provisions of the Trade Act. SWAs, through the local offices, provide testing, counseling, and job placement services; job search and relocation assistance; training; and payment of weekly trade readjustment allowances (TRA). State unemployment compensation and extended benefits must be exhausted before TRA is paid to eligible claimants. Trade impacted workers are eligible to receive job search and relocation allowances in addition to the costs of training. They may be paid

subsistence and transportation allowances to attend approved training outside the normal commuting distance of a worker's regular place of residence.

Applicant Eligibility:

A petition for Trade Adjustment Assistance (TAA) may be filed by a group of adversely affected workers and be signed by at least three workers; alternatively, a petition may be filed by a company official, one-stop operators or one-stop partners, including State employment security agencies or the State dislocated worker unit, union representative, or other authorized representatives, requiring only one signature. After receiving a TAA petition, Division of Trade Adjustment Assistance (DTAA) investigators will establish if the workers' company produces a product and that a required minimum of the workforce has been laid off in the 12 months preceding the date of the petition or is threatened with layoffs (3 workers in groups of fewer than 50, 5 percent of the workforce in groups of 50 or more, or at least 50 workers in groups of 1000 or more). Additionally, DTAA will analyze facts contributing to the workers' layoffs or work reductions in order to determine one of the following sets of conditions have been met: (1) Increased imports contributed importantly to an actual decline in sales or production and to a layoff or threat of a layoff; or (2) There has been a shift in production to certain countries which contributed to a layoff or threat of a layoff; or (3) there has been a shift in production outside of the United States and there has been or is likely to be an increase in the import of like or similar articles; or (4) loss of business as a supplier of component parts, a final assembler, or a finisher where workers were TAA certified and contributed importantly to an actual decline in sales or production, and to a layoff or threat of a layoff. In accordance with the requirement of Section 246 of the Trade Adjustment Assistance Reform Act of 2002, the Secretary implemented on August 6, 2003, the Alternative Trade Adjustment Assistance (ATAA) for Older Workers. A request for ATAA consideration is part of the TAA petition and is filed at the same time the TAA petition is filed. In order for the Department to certify a worker group eligible to apply for the ATAA, the petitioning worker group must be determined eligible to apply for TAA. The criteria that the Department must consider for ATAA certification are: (1) a significant number of workers in the firm must be 50 years of age or older, (2) whether the workers possess skills that are easily transferable in the local area, and (3) the competitive conditions within the workers' industry.

Beneficiary Eligibility:

A TAA beneficiary must: (1) be found by the Labor Department to have been adversely affected by increased imports or a shift in production to certain countries, (2) be certified by the Secretary of Labor as eligible to apply for adjustment assistance, and (3) meet the following individual requirements: (a) his or her unemployment or underemployment must have begun on or after the impact date specified in the Secretary's certification as the beginning of the import-impacted unemployment or underemployment; (b) his or her unemployment must begin before the expiration of the two-year period beginning on the date on which the Secretary issued the certification for his or her group or before the termination date, if any, specified in the certification. In addition, to be eligible for weekly trade readjustment allowance (TRA) payments he or she must: (1) have been employed with wages at a minimum of \$30 per week by the import-affected firm for at least 26 of the previous 52 weeks including the week of total layoff (up to seven weeks of employer-authorized leave may be counted as qualifying weeks of employment or up to 26 weeks of disability compensation); and (2) be enrolled in or have completed a TAA approved job training program, unless the determination is made that training is either not feasible or not appropriate, in which case a waiver of the training requirement may be issued. To receive TRA, the claimant must be enrolled in an approved training program within eight weeks of the Secretary's issuance of the certification or within 16 weeks of the worker's most recent qualifying separation, whichever is later.

Credentials/Documentation:

None.

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

Application Procedure:

To apply for TAA under the Trade Act of 1974, as amended, a "Petition for Trade Adjustment Assistance" must be filed directly with the Division of Trade Adjustment Assistance at the address listed below and with the State official or organization designated by the Governor of the State in which the workers' firm or subdivision is located. DTAA and State contact information, as well as petition forms in English and Spanish, are available through the State Workforce Agencies or from the Division of Trade Adjustment Assistance listed below. The Petition forms may also be downloaded from our web-site at:

<http://www.doleta.gov/tradeact>. Filing a petition also constitutes an application for Alternative Trade Adjustment Assistance (ATAA). Petitions must be filed with both the DTAA and the State agency in which the worker group's plant is located. Notice of such filing shall be promptly published in the Federal Register. Within 10 days after publication, the petitioner or any other person found by the Secretary to have a substantial interest may request a hearing and be afforded the opportunity to be present, to present evidence, and to be heard.

Award Procedure:

A Certification of Eligibility to apply for worker adjustment assistance and

alternative trade adjustment assistance may be issued by the Secretary of Labor to groups of workers who have been found by the Department of Labor to have met the requirements concerning foreign trade-affected separations from employment. Individual workers covered by the certification can apply to the local office of their State Workforce Agency for individual determinations of eligibility to receive benefits.

Deadlines:

None.

Range of Approval/Disapproval Time:

For the TAA program, eligibility investigations begun by the receipt of a valid petition are completed, and a determination issued, within 40 calendar days of the receipt of the petition.

Appeals:

There are two courses of appeal, one administrative and the other judicial. Petitioners aggrieved by a final determination by the Secretary may, within 30 days after notice of such determination is published in the Federal Register, file an application for reconsideration with the Director of the Division of Trade Adjustment Assistance. If the determination following reconsideration is negative, they may, within 60 days after notice of the negative determination upon reconsideration, file a petition for review of such determination with the United States Court of International Trade in New York City. Aggrieved petitioners may request judicial appeal without first seeking administrative reconsideration, within 60 days after notice of such determination is published in the Federal Register.

Renewals:

None.

Formula and Matching Requirements:

Base funding of grants to States for training services uses a formula based on States' previous year allocations, accrued expenditures and participant levels; additional funds may be requested by States based on additional needs above the base funding provided.

Length and Time Phasing of Assistance:

Cash trade readjustment allowances (TRA) become payable only after workers have exhausted their entitlement to State unemployment compensation including extended benefits. For TAA certifications on petitions filed on or after November 4, 2002, the maximum number of weeks of State unemployment compensation, extended benefits and trade readjustment allowances cannot exceed 52 weeks except that up to 52 additional weeks may be paid to workers while participating in approved training and an additional 26 weeks for workers whose approved training program includes remedial education. Participation in ATAA allows older workers, for whom retraining may not be appropriate, to accept reemployment at a lower wage and receive a wage subsidy instead of benefits under the regular TAA program. The ATAA allows for payments of 50 percent of the wage difference between old employment and new employment, not to exceed \$10,000 for up to two years. The individual must obtain employment within 26 weeks of layoff, earn not more than \$50,000 a year in wages in reemployment, and must not return to employment from which the worker was separated. Base formula funding grants for training services are provided to States at the beginning of the year; additional funds may be requested by States based on additional needs above the base funding provided.

Reports:

Quarterly financial reports on grants for administration of TAA/TRA program are required.

Audits:

Subject to audits by the U.S. Department of Labor or other authorized Government agencies. In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), Audits of States, Local Governments, and Non-Profit Organizations, nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. 17.258 WIA ADULT PROGRAM

(WIA-Adult Program)

FEDERAL AGENCY:

EMPLOYMENT AND TRAINING ADMINISTRATION, DEPARTMENT OF LABOR

AUTHORIZATION:

Workforce Investment Act of 1998 (WIA), Title I, Subtitle B, Chapter 5, Public Law 105-220, 20 U.S.C. 9201.

OBJECTIVES:

The purpose of this program is to improve the quality of the workforce, reduce welfare dependency, and enhance the productivity and competitiveness of the nation's economy by providing workforce investment activities that increase the employment, retention, and earnings of participants, and increase occupational skill attainment by the participants. This program is designed to increase employment, as measured by entry into unsubsidized employment, retention in unsubsidized employment after entry into employment, and earnings. For cross-cutting goals, the program intends to enhance customer satisfaction for participants and for employers. The employment goals will be measured using Unemployment Insurance Wage Records systems and customer satisfaction goals will be measured by sampling.

TYPES OF ASSISTANCE:

Formula Grants.

USES AND USE RESTRICTIONS:

The Act specifies that most services for adults will be provided through One Stop Career Centers. The Act authorizes three levels of service, which are available to all jobseekers. "Core" services include outreach, job search, placement assistance, and labor market information, and are available to all jobseekers. "Intensive" services include more comprehensive assessments, development of individual employment plans and counseling, and career planning, and are available to all those who could not find employment through core services. Those customers who cannot find employment through intensive services may receive "training" services linked to job opportunities in their communities, including both occupational training and training in basic skills. To promote customer choice and involvement in career decisions, participants use an "individual training account" to select an appropriate training program from a qualified training provider. The Act also authorizes the provision of supportive services (e.g., transportation and child care assistance) to enable an individual to participate in the program.

Applicant Eligibility:

Under WIA, the organizations eligible to receive funding from the Department are the 50 States, Puerto Rico, the District of Columbia and the outlying areas. Funds are allotted based on a statutory formula. The states in turn allocate funds to local workforce investment boards (approximately 600), by formula.

Beneficiary Eligibility:

All adults 18 years and older are eligible for core services. Priority for intensive and training services must be given to recipients of public assistance and other low-income individuals where funds are limited. States and local areas are responsible for establishing procedures for applying the priority requirements.

Credentials/Documentation:

Formula-funded programs are subject to Governor/Secretary Agreement and State Plan. States sign a grant document agreeing to comply with the Act and regulations for the formula-allotted program.

OBJECTIVES:

The purpose of the program is to reemploy dislocated workers, improve the

quality of the workforce, and enhance the productivity and competitiveness of the nation's economy by providing workforce investment activities that increase the employment, retention, and earnings of participants, and increase occupational skill attainment by the participants. This program is designed to increase employment, as measured by entry into unsubsidized employment, retention in unsubsidized employment after entry into employment, and extent of recovery of prior earnings. For cross cutting goals, the program intends to enhance customer satisfaction for participants and for employers. The employment goals will be measured using Unemployment Insurance Wage Records systems and customer satisfaction goals will be measured by sampling.

TYPES OF ASSISTANCE:

Formula Grants; Project Grants.

USES AND USE RESTRICTIONS:

The Act authorizes three levels of service, which are available to all job seekers. "Core" services include outreach, job search and placement assistance, and labor market information, and are available to all jobseekers. "Intensive" services include more comprehensive assessments, development of individual employment plans and counseling, and career planning, and are available to those who could not find employment through core services. Those customers who cannot find employment through intensive services may receive "training" services linked to job opportunities in their communities, including both occupational training and training in basic skills. To promote customer choice and involvement in career decisions, participants use an "individual training account" to select an appropriate training program from a qualified training provider. The Act also authorizes the provision of supportive services (e.g., transportation and child care assistance) to enable an individual to participate in the program. National Emergency Grants (NEGs) are used to provide targeted services to workers affected by mass layoffs, natural disasters, Federal government actions, or other specific circumstances. Funds reserved by the Secretary are also used for technical assistance and training and demonstration programs.

Applicant Eligibility:

Under WIA, the organizations eligible to receive formula-based funding from the Department are the 50 states, Puerto Rico, the District of Columbia, and the outlying areas. Funds are allotted based on a statutory formula and states in turn allocate funds to local workforce investment boards (approximately 600), by formula prescribed by the governor. Applicants for NEGs may be states, outlying areas, local workforce boards, and non-profit and private organizations whose purpose is to provide targeted services to eligible beneficiaries.

Beneficiary Eligibility:

Individuals eligible for assistance through the applicants receiving the funds include workers who have lost their jobs, including those dislocated as a result of plant closings or mass layoffs, and are unlikely to return to their previous industry or occupation; formerly self-employed individuals; and displaced homemakers who have been dependent on income of another family member, but are no longer supported by that income. NEG Program has National Emergency Grants have identical eligibility to the above and also includes certain military personnel and defense employees. Services through NEGs are targeted on individuals affected by mass layoffs, natural disasters, Federal government actions, and other circumstances specified by the Secretary.

Application for National Emergency Grant funds is made through a governor's or other authorized applicant's submission of a proposal in accordance with guidelines issued by the Secretary of Labor. EXAMPLES OF FUNDED PROJECTS:

In PY 2006, ETA maintained oversight and continued support of on-going multi-year studies such as Project Gate, a large scale demonstration testing the impact of micro-enterprise assistance as a workforce development tool. ETA continues large-scale cooperative research efforts with the Departments of Housing and Urban Development (HUD), and Health and Human Services (HHS) addressing the needs of low wage workers. In PY 2006, ETA initiated projects to carry out its goal of building a demand-driven system. These projects support the President's High Growth Job Training Initiative (HGJTI), the Community Board Job Training grants (CBJTG), and the Workforce Innovation in Regional Economic Development (WIRED) initiative. These efforts draw on public-private partnerships. Other new research efforts in FY 2006 focused on existing and emerging target groups such as migrant and seasonal farm workers, people with limited English proficiency, women, ex-offenders reentering their communities through the President's Reentry Initiative (PRI), and workers seeking to start their own businesses. Many of these activities make use of partnerships among federal agencies, state and local agencies, and research institutions. These efforts help to increase the cost effectiveness of projects by making use of administrative data for research and evaluations of ETA programs. 17.258, WIA Adult Program.

EXAMPLES OF FUNDED PROJECTS:

Projects assist farmworkers to complete educational goals and learn specific job skills in order to acquire the qualifications employers require for occupations offering permanent full-time employment, or to advance into other, more stable agricultural employment. Projects also assist farmworkers seeking to remain in farmwork by providing emergency assistance and other supportive services that promote their continued participation in the agricultural workforce.

Consortium applicants must include a formal consortium agreement with attachments specified in 20 CFR 668.200. A Comprehensive Services Plan is to be submitted by the designated grantees. It will include, among other things: (1) a program narrative description; (2) a planning summary; and (3) a brief budget summary. Individuals requesting services through this grant must provide documentation of Native American Descent such and Certificate Degree of Indian Blood (CDIB). Individuals must also provide documentation that they are low income or unemployed, or working part-time but are seeking full-time work or employed in a job that is not commensurate with the individual's demonstrated level of education or skill achievement. Males eligible for Selective Service must provide proof of registration. Youth receiving services under the Supplemental Youth Services Program (SYSP) must be low income and be between the age of 14 and 21.

Preapplication Coordination:

The standard application forms (SF-424) as furnished by the Federal agency must be used for this program. This program is excluded from coverage under E.O. 12372.

Application Procedure:

The Employment and Training Administration publishes a Solicitation for Grant Application (SGA) in the Federal Register every two years. The SGA provides the application and award process for interested entities to apply for funding to serve specified geographic areas. The latest SGA was published in the Federal Register on February 13, 2006, and can be found on the Internet at: <http://www.doleta.gov/dinap/cfm/docs/CompetitionWaivers.cfm>. After prospective grantees have filed a notice of intent, and new applicants have additionally provided the information cited in 20 CFR 668.240, designation decisions are made. Subsequently, designated grantees must submit a Comprehensive Services Plan to the Employment and Training Administration, Office of Workforce Investment, Indian and Native American Programs (INAP), Department of Labor. In addition, grantees must describe the administrative, planning, and operational elements needed to implement a WIA Section 166 program. Instructions for completing these documents are issued by the Employment and Training Administration through a Training and Employment Guidance Letter (TEGL).

Award Procedure:

Grants will be made directly to eligible grantees for their service areas.

Deadlines:

Notices of intent to apply for a grant are due by October 1 of every odd-numbered year. Designation decisions are made by March 1 of the following even-numbered year. Submission of the Comprehensive Services Plan generally occurs in mid-March or April, after designated grantees have been notified of their approximate allocation amount.

Range of Approval/Disapproval Time:

From 30 to 90 days.

Appeals:

Applicants will be notified of approval or disapproval of the Comprehensive Services Plan and if disapproved, given a reasonable time to make adjustments and resubmit the Plan. Final disapproval of an application or plan submitted by a designated grantee will not be made without affording the grantee an opportunity for reconsideration.

Renewals:

Grant awards may be renewed annually, while designation as a grantee applies for two years.

Formula and Matching Requirements:

This program has no matching requirements. All of WIA Section 166 funds are distributed by formula codified at 20 CFR 668.296 based on the number of unemployed Indians and other Native Americans within the grantee's geographic service area and the number of members of Indian and other Native American households whose income is at or below the poverty level, within the grantee's geographic service area. Supplemental Youth Services funding is similarly distributed to grant recipients based on the number of Native American youth between the ages of 14 and 21 living in poverty on reservation areas or the States of Oklahoma, Alaska, or Hawaii, in the grant recipient's designated service area.

Length and Time Phasing of Assistance:

Funds are made available through annual program year grants. The program year runs from July 1 to June 30, except that the Supplemental Youth Services Program runs from April 1 to March 31. Funds obligated for any program year may be expended by each recipient during the program year and the two succeeding program years.

Reports:

Grant recipients must submit quarterly financial reports and quarterly participant reports to the Employment and Training Administration.

In accordance with the provisions of OMB Circular No. A-133, (Rev. June 27, 2003) "Audits of states, local governments, and nonprofit organizations," nonfederal entities that receive financial assistance of \$500,000 or more in Federal awards in a year will have a single or program specific audit conducted for that year. Nonfederal entities which receive less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

17.266 WORK INCENTIVE GRANTS

FEDERAL AGENCY:

EMPLOYMENT AND TRAINING ADMINISTRATION, DEPARTMENT OF LABOR

AUTHORIZATION:

Key provisions are included in Sections 121, 134(c), and 189(c)(c) of the Workforce Investment Act (29 U.S.C 2841, 2864 (c), and 2939(c)) and the Wagner-Peyser Act (29 USC 49f). Key regulations governing the Workforce Investment Act (WIA) and Wagner-Peyser Act programs are at 20 CFR Parts 651-652 and 660-671.

OBJECTIVES:

The Work Incentive Grants (WIGs) and Disability Program Navigators (DPNs) have been established to increase the labor force participation and career advancement of persons with disabilities by effecting systemic change in the One-Stop Career Centers. These programs support the capacity of the One-Stop Career Center system to achieve integrated, seamless, and comprehensive services for people with disabilities, thereby increasing their employment, retention, and earnings. The competitive WIG Program has been reoriented from a competitive solicitation to the Disability Program Navigator (DPN) cooperative agreement, thereby assuring that the essential goals of the WIGs are achieved in the workforce investment system. The Department of Labor (DOL) and the Social Security Administration (SSA) jointly established a new position, the Disability Program Navigator (DPN), in the DOL's One-Stop Career Centers. The DPN guides the One-Stop Career Center staff in helping people with disabilities access and navigate the various programs that impact upon their ability to gain/retain employment. Complex rules surrounding entitlement programs, along with the fear of losing cash assistance and health benefits, can often discourage people with disabilities from working. Consequently, the DPN initiative was established to better inform beneficiaries and other people with disabilities about the work support programs now available at the DOL-funded One-Stop Career Centers. The major objectives of the DPN initiative are: (1) creating systemic change and transforming the culture of how the One-Stop Career Center system serves customers with disabilities; (2) promoting meaningful and effective access, both physical and programmatic, to the One-Stop Career Center system for all customers, including persons with disabilities; (3) creating attitudinal change about the abilities of people with disabilities to work in a variety of jobs and industries; (4) developing new/ongoing partnerships to achieve comprehensive services to people with disabilities; (5) expanding and enhancing the workforce development system's capacity to serve customers with disabilities and employers through the implementation of effective DPN strategies and practices; and (6) increasing the number of people with disabilities served under the WIA and achieving quality employment outcomes for jobseekers with disabilities through accessing WIA Title I and Wagner-Peyser Programs.

Awardees must comply with the all other applicable administrative standards and national policy provisions (listed in the SGA).

Indirect costs cannot exceed 10 percent of the award. The DOL will negotiate performance goals with successful applicants that will be consistent with the Department's GPRA goals.

Reports:

Awardees will be required to submit quarterly financial reports. Additional data or narrative reports may be required. In addition, ETA will continue to evaluate the DPN program consistent with the evaluation process for the first 17 DPN states. This will include a qualitative evaluation for the DPN program, Submission of Workforce Investment Act Standard Record Data (WIASRD), and Wagner-Peyser Act data related to services and outcomes for customers with disabilities may also be required. Awardees must also provide to DOL semi-annual data for the workforce investment areas served by the DPN that includes Wagner-Peyser and WIA Title I data on individuals with disabilities who are participants, entered employment, are retained in employment, and their average earnings compared to the same data for individuals without disabilities., consistent with the requirements that will be in place under the common measures. Range and Average of Financial Assistance:

Forty-five states and the District of Columbia and Puerto Rico have been awarded statewide cooperative agreements under the SGAs to eligible applicants. The cooperative agreement awards will be for a two-year period and will range from \$300,000 to \$2,000,000, depending upon the request of the State applying for the cooperative agreement and its size and population.

PROGRAM ACCOMPLISHMENTS:

There has been continued expansion and implementation of disability resource specialists or DPNs in One-Stop Career Centers to assure access to comprehensive, seamless services, and expertise. Currently, there will be approximately 450 Navigators in One-Stop Career Centers in One-Stop Career Centers across the country funded under this initiative as of June 2007. WIASRD data for PY 2005 for workforce investment boards (WIBs) with Navigators show the following outcome data for people with disabilities: 6.90 percent exiters; 80.4 percent employment retention rate; 69.9 entered employment rate; and \$3,256 earnings change. Universal access has been promoted in the One-Stop Career Centers by expanding the availability of assistive technologies, training One-Stop Career Center staff and workforce investment boards on the utilization of assistive technology, reasonable accommodation resources and strategies, disability etiquette, WIA Section 188 non-discrimination regulations, Section 504 of the Vocational Rehabilitation Act, and the Americans with Disabilities Act provisions. Enhanced partnerships have been expanded at the Federal, regional, state, and local levels with both mandated and other WIA partners by coordinating access to services in the One-Stop Career Centers. This included outreach to public and non-profit agencies that serve individuals with disabilities and facilitating coordinated services to this customer group. By including non-WIA mandated partners (e.g., the state Medicaid agencies or the SSA's Ticket to Work implementation) in their efforts, the WIGs/DPNs have demonstrated that expanding the scope of available services through innovative partnerships can have a positive effect on long-term employment outcomes of people with disabilities. A number of DPNs facilitated access to new Medicaid demonstration and waiver projects that are intended to remove health care barriers and facilitate employment for beneficiaries of the SSA. The One-Stop Toolkit (<http://onestoptoolkit.org>) Web site was utilized to share tools and products that grantees have developed for their state and local areas. These include training curriculum, self-assessment accessibility tools, memoranda of understanding with Vocational Rehabilitation or other agencies, mystery shopping protocols, effective strategies, etc. The Webcourse (www.wiawebsite.org) for One-Stop-Career Center staff: "At Your Service: Welcoming Customers with Disabilities" was revised and disseminated.

REGULATIONS, GUIDELINES, AND LITERATURE:

Regulations governing the WIA are at 20 CFR Parts 651 through 652, 660 through 671 (65 FR 49294, August 11, 2000). The Uniform Requirements for Grants and Cooperative Agreements to State and Local Governments (also known as the "Common Rule") are applicable. The "Common Rule" is codified at 29 CFR Part 97 (97.22).

17.268 H-1B JOB TRAINING GRANTS**FEDERAL AGENCY:**

EMPLOYMENT AND TRAINING ADMINISTRATION, DEPARTMENT OF LABOR

AUTHORIZATION:

American Competitiveness and Workforce Improvement Act of 1998, Section 414 (c), Public Law 105-227.

OBJECTIVES:

The H-1B Job Training Grant Program consists of two parts the High Growth Job Training Initiative and the Workforce Innovation in Regional Economic Development (WIRED) Initiative. The President's High Growth Job Training Initiative represents the first step in a series of actions that the Department of Labor's Employment and Training Administration (ETA) has taken to engage business, education and the workforce investment system to work together to develop solutions to the workforce challenges facing high growth industries. By expanding the local workforce system's capacity to be market-driven, responsive to local economic needs, and a contributor to the economic well-being of the community, the Employment and Training Administration is promoting workforce quality, enhanced productivity, and economic competitiveness. The High Growth Job Training Initiative continues to invest in national models and demonstrations of workforce solutions in these sectors designed to achieve the following outcomes: Targeted investment of workforce development resources and support for private and public sector partnerships to ensure the development of workers skills in occupations where industry has identified needs. Increased integration of community and technical college efforts with business and the public workforce system activities to meet the skills training needs of high-growth industries. Increased opportunities for employers to use apprenticeship training as skills development methodology, combining on-the-job training and academics, to ensure a pipeline of skilled workers. Providing workers with paths to career enhancing opportunities in high-growth occupations. The goal of the

WIRED initiative is to expand employment and advancement opportunities for American workers and catalyze the creation of high-skill and high-wage opportunities in the regional economies. The WIRED Initiative focuses on labor market areas that are comprised of multiple jurisdictions within state or across state borders. It supports innovative approaches to workforce development, economic development, and education that go beyond traditional strategies preparing workers to compete and succeed both within the United States and globally. This initiative is designed for regions that have been affected by global trade, are dependent on a single industry or are recovering from natural disasters.

One of the key elements of the WIRED Initiative is a strong regional partnership composed of all the organizations necessary to transform the regional economy, including workforce, civic, business, investor, education, government, entrepreneurial, and philanthropic organizations. WIRED grantees have a unique opportunity to design and implement strategic approaches that will transform their economies and the systems that support those economies.

The sectors include: Advanced Manufacturing, Aerospace, Automotive, Biotechnology, Construction, Energy, Financial Services, Geospatial Technology, Health Care, Homeland Security, Hospitality, Information Technology, Retail, and Transportation. Funds are to be used to provide job training services and related capacity-building activities that are designed to assist workers in gaining the skills and competencies needed to obtain or upgrade career ladder employment positions in high-growth industries and economic sectors. In order to facilitate these job training services, funds may be used to assist in the development and implementation of model activities such as developing appropriate curricula to build core competencies and train workers, identifying and disseminating career and skill information, and increasing the integration of community and technical college activities with activities of businesses and the public workforce investment system to meet the training needs for high-growth industries and economic sectors.

CRITERIA FOR SELECTING PROPOSALS:

17.269 COMMUNITY BASED JOB TRAINING GRANTS**FEDERAL AGENCY:**

EMPLOYMENT AND TRAINING ADMINISTRATION, DEPARTMENT OF LABOR

AUTHORIZATION:

Workforce Investment Act of 1998, Title I, Subtitle D, Section 171 (d), Public Law 105-220.

OBJECTIVES:

Technology and innovation, globalization, and the aging of America's workforce are continuously changing the nature of work and, indeed, the workplace. Businesses in high-growth, high-demand industries face increasing difficulties in finding workers with the right skills. As a result, community colleges are important training providers for workers needing to develop, retool, refine, and broaden their skills in high-growth, high-demand occupations because of their close connection to local labor markets. Community Based Job Training Grants strengthen the role of community colleges in promoting the U.S. workforce's full potential. Community Based Job Training Grants are awarded through a competitive process to support workforce training for high-growth industries through the national system of community and technical colleges. The primary purpose of these grants is to build the capacity of community colleges to train workers to develop the skills required to succeed in: (i) local industries and occupations that are expected to experience high growth; and (ii) industries where demand for qualified workers is outstripping the supply. These competitive grants build on the High Growth Job Training Initiative, a national model for demand-driven workforce development, implemented by strategic partnerships among the workforce investment system, employers, and community colleges. All grantees engage in a combination of capacity-building and training activities.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

The funds must be used for both of the following activities: (1) increasing the capacity of community colleges to provide training in a local high-growth, high-demand industry through activities such as the development of training curricula with local industry, hiring qualified faculty, arranging on-the-job experiences with industry, and using up-to-date equipment; and (2) training new and experienced workers in identified high-growth, high-demand industries, with the aim of employing and/or increasing the retention and earnings of trained workers, while meeting the skill needs of businesses within targeted industries in the context of the regional economy.

Applicant Eligibility:

Eligible applicants, under the second Solicitation for Grant Applications (SGA) for Community-Based Job Training Grants, included (1) community colleges, as defined by 20 U.S.C. 2371. 20 U.S.C. 2371 states: The term community college (A) means an institution of higher education as defined in 20 U.S.C. 1001 that provides not less than a two-year program that is acceptable for full credit towards a bachelor's degree; and (B) includes tribally-controlled colleges and universities; (2) community college districts; (3) State community college systems; and (4) One-Stop Career Centers who meet specific criteria. Under the exception to eligible applicants for rural and other educationally underserved areas with no access to community colleges, additional eligible applicants included: Publicly-funded Institutions of Higher Education, as defined in 20 U.S.C. 1001; and Alternate Educational Entities that are governmental or not-for-profit organizations that directly deliver, or broker for delivery, post secondary education opportunities.

Beneficiary Eligibility:

Generally, the scope of potential trainees under Community-Based Job Training Grants is very broad. WIA Section 171(d) authorizes demonstration programs to serve dislocated workers, incumbent workers, and new entrants to the workforce. This authorization supports a broad range of training for a variety of populations, including: incumbent workers who need new skills for jobs in demand up the career ladder or because the skill needs for their current job have changed; untapped labor pools such as immigrant workers, individuals with disabilities, veterans, older workers, youth, etc; or entry level workers who need basic skills and/or specific occupational skill training. The identification of targeted and qualified trainees should be part of the larger project planning process undertaken by the required partnership and should relate to the workforce issue that is being addressed by the training.

Credentials/Documentation:

Grantees must demonstrate an adequate organization capacity, including a project management structure. Additionally, grantees must provide evidence of the use of data systems to track outcomes in a timely and accurate manner.

Preapplication Coordination:

None except as specified in solicitations. This program is excluded from coverage under E.O. 12372.

The SGA provides all of the necessary information for applying for Federal assistance.

Procedures for each project are specified in the applicable Solicitation for Grant Applications. Generally, the procedure is as follows: A technical review panel composed of staff from ETA program offices as well as peer reviewers evaluates eligible submitted applications. Once selections are made by the Grant Officer, an Award Notification is sent through the appropriate congressional channels. After awardees are notified, the list of awardees is posted on the ETA Web site at www.doleta.gov. If an application is rejected, a letter is sent to the applicant as notification that they were not selected as a recipient of the grant.

OBJECTIVES:

To protect the jobs of American workers; ensure the wages and working conditions of U.S. workers will not be adversely affected by the admission of permanent foreign workers; and assist employers by supplementing the work force with needed skills.

TYPES OF ASSISTANCE:

Provision of Specialized Services.

USES AND USE RESTRICTIONS:

Under Section 212 (a)(5)(A) of the Immigration and Nationality Act, foreign workers who seek to immigrate to the United States for employment shall be excluded from admission unless the Secretary of Labor determines and certifies to the Secretary of State and to the Secretary of Homeland Security that there are not sufficient U.S. workers available for the position, and that the employment

of such foreign workers will not adversely affect the wages and working conditions of U.S. workers similarly employed. The certified employer must hire the foreign worker as a full-time employee; there must be a bona fide job opening available to U.S. workers; job requirements must adhere to what is customarily required for the occupation in the U.S. and may not be tailored to the worker's qualifications. In addition, the employer shall document that the job opportunity has been and is being described without unduly restrictive job requirements, unless adequately documented as arising from business necessity. The employer must pay at least the prevailing wage for the occupation in the area of intended employment.

Applicant Eligibility:

(1) Any employer who is unable to find qualified U.S. workers to meet his or her needs and seeks to hire a foreign worker to fill a given job vacancy on a permanent basis is eligible to file an application for permanent labor certification with the Department of Labor. (2) An employer who seeks to employ a foreign worker whose category of employment is included in the Department of Labor, Schedule A list of precertified occupations contained in Part 656, Title 20, Code of Federal Regulations is eligible to file an application directly with the appropriate U.S. Citizenship and Immigration Services Office.

Beneficiary Eligibility:

Employers and foreign workers.

Credentials/Documentation:

Employers seeking labor certification, and thereafter filing an immigration petition to sponsor a foreign worker for employment-based permanent residency, must document that worker's education, experience, and job qualifications to the satisfaction of the U.S. Citizenship and Immigration Services.

Precertification Coordination:

Prior to filing the application for permanent employment certification, the employer must request a prevailing wage determination from the State Workforce Agency (SWA) having jurisdiction over the proposed area of intended employment and must attest, in addition to a number of other conditions of employment, to having conducted recruitment prior to filing the application. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Employers must file labor certification applications for permanent employment directly with the appropriate National Processing Center (except for Schedule A occupations). See <http://workforsecurity.doleta.gov/foreign/perm.asp> for additional details.

Award Procedure:

If the appropriate National Processing Center approves the application, the application form is "certified" (stamped) by the Certifying Officer and returned to the employer/agent who submitted the application. The labor certification is then filed by the sponsoring employer in support of its immigrant worker petition with USCIS.

Deadlines:

None.

Range of Approval/Disapproval Time:

From six months to one year.

Appeals:

The permanent labor certification program provides for reconsideration by a Certifying Officer of denial of an application, upon the employer's request. Instead of or following a request for reconsideration, requests for administrative review of final determinations (denials of permanent labor certification applications) may be made directly to the Department of Labor's Board of Alien Labor Certification Appeals (BALCA).

17.273 TEMPORARY LABOR CERTIFICATION FOR FOREIGN WORKERS

FEDERAL AGENCY:

EMPLOYMENT AND TRAINING ADMINISTRATION, DEPARTMENT OF LABOR

AUTHORIZATION:

Immigration and Nationality Act of 1952, as amended, Sections 101(a)(15)(H), 212(n), 214(c) and 214(i); Public Law 82-414, 66 Stat. 163, 8 U.S.C. 1101 et seq.; Immigration Act of 1990, Public Law 101-649, 104 Stat. 4978, 8 U.S.C. 1182(n) and 1184; Public Law 102-232, 105 Stat. 1733, 8 U.S.C. 1182 note. Public Law 82-414, 66 Stat. 163, 8 U.S.C. 1101, et seq.; Immigration Reform and Control Act of 1986, Public Law 99-603, 100 Stat. 3359, 8 U.S.C. 1186.

OBJECTIVES:

To provide greater protection for U.S. and foreign workers without interfering with an employer's right to obtain temporary foreign workers. Also, to enable agricultural and other employers to obtain foreign workers for temporary or seasonal jobs when domestic workers are not available; to protect domestic workers against unfair competition from foreign workers; and to assure adequate working and living conditions for domestic and foreign workers employed in similar tasks.

TYPES OF ASSISTANCE:

Provision of Specialized Services; Formula Grants.

USES AND USE RESTRICTIONS:

The Department of Labor issues labor certifications for temporary employment under several programs: H-1B Specialty (Professional) Worker Program, H-1B1 Specialty Worker Program (professionals from Chile or Singapore working in specialty occupations), E-3 Specialty Worker Program (professionals from Australia working in specialty occupations), H-2A Temporary Labor Certification (Agricultural), H-2B Temporary Labor Certification (Non-Agricultural), and D-1 Crewmember Program. Under Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act, nonimmigrant foreign workers cannot be admitted to work in a specialty occupation or as a fashion model unless the Secretary of Labor determines and certifies to the Secretary of Homeland Security the intending employer filed with and had approved by the Secretary an application under section 212(n)(1). The labor condition application requires the employer to attest to compliance with program requirements, including certain working conditions and wages for foreign and U.S. workers. Employers who need workers for temporary agricultural jobs may be certified to use foreign workers after the Secretary of Labor has determined that there are not sufficient domestic workers capable of performing the job duties and that the employment of foreign workers will not adversely affect the wages and working conditions of similarly employed domestic workers. The Secretary of Labor will render only advisory opinions to the Secretary of Homeland Security on applications for foreign worker employment for temporary nonagricultural work under Section 101(a)(15)(H)(ii) of the Act. Certifications will be made only after efforts to recruit domestic workers through the Federal-State employment service system are unsuccessful. Performance of longshore work at U.S. ports by D-1 crewmembers on foreign vessels is generally prohibited with few exemptions. The Department of Labor is responsible for administering two of those exemptions. Employers in these ports are required to file an attestation stating that the use of alien crewmembers to

perform longshore work is the prevailing practice for the activity at that port, there is no strike or lockout at the place of employment, and that notice has been given to U.S. workers or their representatives. Another exception requires that, before using alien crewmen to perform longshore activities in the State of Alaska, the employer will make a bona fide request for and employ U.S. longshore workers who are qualified and available in sufficient numbers from contract stevedoring companies, labor organizations recognized as exclusive bargaining representatives of U.S. longshore workers, and private dock operators. State Workforce Agencies receive grants to perform the following labor certification activities: provide prevailing wage determinations for all non-agricultural labor certification programs; process H-2B temporary non-agricultural labor certification applications; and receive new applications for H-2A temporary agricultural labor certifications, performing prevailing wage and prevailing practice surveys, ensuring housing inspections are conducted and processing job orders.

Applicant Eligibility:

H-2A Program: An agricultural employer who anticipates a shortage of U.S. workers needed to perform agricultural labor or services of a temporary or seasonal nature. The employer may be an individual proprietorship, a partnership or a corporation. An association of agricultural producers may file as a sole employer, a joint employer with its members, or as an agent of its members. An authorized agent, whether an individual (e.g., and attorney) or an entity (e.g., an association), may file an application on behalf of an employer. Associations may file master applications on behalf of their members. H-2B Program: The job and the employer's need must be one time, seasonal, peak load or intermittent; the job must be for less than one year; and there must be no qualified and willing U.S. workers available for the job. An employer can file an application for labor certification with the appropriate National Processing Center of the Employment and Training Administration. State Workforce Agencies are federally funded to issue prevailing wage determinations for foreign labor certification programs.

Beneficiary Eligibility:

Employers and foreign workers to be employed in specialty occupations or as fashion models or in temporary agricultural or non-agricultural employment.

Credentials/Documentation:

In most of these programs, employers sponsoring aliens for employment-based permanent residency file the certification from the Department of Labor as documentation in support of their respective I-140 immigrant worker petitions with the Department of Homeland Security, United States Citizenship and Immigration Services (USCIS). In the H-1B1 and E-3 programs, a USCIS petition is not needed for initial visa issuance, and the alien may use proof of certification in support of the visa application.

Preapplication Coordination:

None, this program is excluded from coverage under E.O. 12372.

Application Procedure:

Employers contact the appropriate office of the Employment and Training Administration. Also see <http://www.doleta.gov/business/gw/guestwkr/> for additional details on specific programs.

Award Procedure:

Certifications are sent to the employer in support of the petition to be filed with the U.S. Citizenship and Immigration Services which makes the final decision whether to grant or deny the admission of foreign workers. Certified copies of accepted attestations for the D-1 Crewmember program are returned to the employer and the USCIS is notified of the filing in writing. Grants: State Workforce Agencies receive funds upon acceptance of their work plans.

Deadlines:

None.

Range of Approval/Disapproval Time:

From one to seven days. H-1B: From one to seven days. H-2A: Statute requires an initial acceptance by ETA within seven days of filing, and a final determination 30 days prior to the employer's date of need.

Appeals:

There is no procedure for appealing Employment and Training Administration determination to accept or reject a Labor Condition Application. Complaints regarding misrepresentation in the attestation or failure of the employer to carry out the terms of the attestation may be filed with the Wage and Hour Division, Employment Standards Administration, Department of Labor.

Renewals:

OBJECTIVES:

To provide standards protecting wages of working persons by requiring a minimum hourly wage rate and overtime pay, or prevailing hourly wage rates, fringe benefits and overtime pay under the Government Contract Acts. Additional standards apply to child labor, to wage payment standards for professional performers and related or supporting professional employees of productions assisted by grants from the National Endowments for the Arts and Humanities, to curtail employer use of lie detector tests, including polygraph tests, for pre-employment screening or during the course of employment and to enforce contractual obligations regarding wages and other working conditions between certain temporary, alien agricultural workers (H-2A) and their employers, to enforce worker protection provisions applicable to nonimmigrant workers in "specialty occupations" (H-1B) and foreign crew members performing longshore work, and to require private employers with 50 or more employees and all schools and public employers to provide eligible employees up to 12 weeks of unpaid leave, job restoration, and continued employer provided health insurance due to the employee's serious health condition, the

birth of or placement for adoption/foster care of a child or for the care of a child, spouse or parent with a serious health condition.

TYPES OF ASSISTANCE:

Advisory Services and Counseling; Investigation of Complaints.

USES AND USE RESTRICTIONS:

Federal wage and hour standards apply generally to employees engaged in interstate or foreign commerce or in the production of goods for such commerce or in enterprises so engaged and, in addition, to employees of Federal, State and local governments, hospitals, businesses providing medical or nursing care for residents, schools and preschools. Generally, for covered employment the minimum hourly wage is \$5.15 per hour (effective September 1, 1997) with time and one-half the regular rate of pay required for hours worked over 40 in a workweek. There are special rules applicable to employees of State and local governments, including provisions concerning volunteer work, compensatory time-off, and outside employment. To the extent necessary to prevent curtailment of employment opportunity, certificates authorizing special minimum wage rates are issued for learners, workers with disabilities, full-time students, student workers, and apprentices. In nonagricultural employment, the basic minimum age is 16 years for general employment, 14 for work outside school hours in certain occupations under specified conditions, and 18 in occupations found hazardous by the Secretary. In agricultural employment, the basic minimum age is 16 years during school hours and in occupations found hazardous by the Secretary; otherwise, age 14 for work outside school hours except for 12- and 13-year-olds with written parental consent or on farms where their parents are employed, or under age 12 with written parental consent on a farm not subject to Federal minimum wage or under a limited waiver for local 10- and 11-year-old hand-harvesters of short-season crops under specified conditions. Failure to comply with the child labor provisions of the Fair Labor Standards Act or regulations issued there under may result in an assessment of a civil money penalty not to exceed \$11,000 for each minor involved in violations. Employees of contractors performing on most federally financed or assisted construction projects, or providing services under contract to Federal agencies, are subject to special standards. These special standards require that employees receive no less than the wages and fringe benefits prevailing in the locality as determined by the Secretary of Labor, and that overtime compensation, with few exceptions, be paid for hours worked on such contracts in excess of 40 in a week. The standards apply to performance on direct Federal contracts and also to most construction projects financed in whole or in part by the Federal Government (e.g., projects under the National Housing Act). Under current law, for Federal and federally assisted construction contracts over \$2,000 and Federal service contracts over \$2,500 subject to prevailing wage requirements, contracting agencies must obtain a wage determination issued by the Wage and Hour Division. Also under current law, employees working on Federal contracts in excess of \$10,000 calling for the manufacture or furnishing of supplies are required to be paid not less than the Federal minimum wage and overtime pay for hours worked in excess of 40 a week. Labor standards are set under the Arts and Humanities Act which require the payment of the prevailing minimum compensation as determined by the Secretary of Labor to professional performers or supporting personnel who work on projects or productions assisted by grants from the National Endowments for the Arts and Humanities. The Employee Polygraph Protection Act prohibits most private employers from administering lie detector tests to employees or prospective employees but permits the use of polygraph tests under certain conditions. The H-2A provisions of the Immigration and Nationality Act provide for the enforcement of contractual obligations concerning wages and other working conditions between certain temporary, alien agricultural workers and their employers. Section 203 of the Immigration Act of 1990 places limitations on the performance of Longshore work by alien crew members in U.S. ports; Section 212(n) places limitations on the employment of nonimmigrant workers in H-1B Specialty Occupations. The Family and Medical Leave Act requires a private employer of 50 or more employees and all public employers and schools to grant up to 12 weeks of unpaid leave in a 12-month period to any employee who was employed at least 12 months for 1,250 hours of service during the preceding 12 months, and is employed at a work site where there are 50 employees within 75 miles.

Applicant Eligibility:

Any covered employee, unless specifically exempt, is entitled to be paid in accordance with applicable monetary standards in the United States, District of Columbia, Puerto Rico, Virgin Islands, American Samoa, Guam, Wake Island, Johnston Island, and the Outer Continental Shelf Lands defined in the Outer Continental Shelf Lands Act. (Geographic application varies under the respective statutes and eligibility is dependent upon specific statutory language.) For family and medical leave, coverage includes any employer with 50 or more employees but excludes any employer at a worksite with fewer than 50 employees within a 75-mile radius.

Beneficiary Eligibility:

Employees.

The number of workers receiving back wages has increased by over 33 percent since fiscal year 2001. The average number of cases concluded by WHD investigators in each fiscal year has shown a steady increase from just over 40 cases concluded per investigator in 2001 to 46 in 2004, as WHD increased its enforcement productivity. WHD investigators have also significantly decreased the number of days it takes to conclude a complaint case. The agency concluded some 37,842 compliance actions in fiscal year 2004. WHD assessed nearly \$9 million in civil money penalties this past fiscal year, a slight decrease from the nearly \$10 million assessed in 2003.

AUTHORIZATION:

Consumer Credit Protection Act, Public Law 90-321, 5 U.S.C. 1671-1677, as amended; Public Law 95-30.

OBJECTIVES:

To provide restrictions on the amount of an employee's wages or salary which may be garnished, and prohibit employers from discharging employees by reason of garnishment for any one indebtedness.

TYPES OF ASSISTANCE:

USES AND USE RESTRICTIONS:

The general rules for applying the Federal restrictions on garnishment, effective September 1, 1997, are: If an individual's weekly disposable earnings are \$154.50 or less, no amount may be garnished; if the weekly disposable earnings are more than \$154.50 but less than \$206.00, only the amount in excess of \$154.50 may be garnished; and if the weekly disposable earnings are in excess of \$206.00 or more, 25 percent of disposable earnings may be garnished. The Act, as amended, limits court orders for the support of any person to 50 percent of the disposable earnings of an individual supporting another spouse or child and to 60 percent of disposable earnings if not. An additional 5 percent may be garnished for support payments more than 12 weeks in arrears. The order must be issued by a court of competent jurisdiction or in accordance with an administrative procedure, which is established by law, which affords substantial due process, and which is subject to judicial review. The restrictions do not apply under Federal bankruptcy proceedings for wage-earners, nor do they apply to debts due for State or Federal taxes. In addition, garnishments issued under the laws of any State may be exempted from the operation of the Federal law where the Secretary of Labor determines that such laws provide substantially similar restrictions. Under no circumstances may an employee be discharged from employment by reason of garnishment for any one indebtedness, although State laws may provide additional protection.

Applicant Eligibility:

Any person whose earnings have been subjected to garnishment is entitled to the protection provided by the Act in the United States, the District of Columbia, Puerto Rico, the Virgin Islands; Outer Continental Shelf lands defined in the Outer Continental Shelf Lands Act (Chapter 345, 67 Stat. 462); American Samoa, Guam, Wake Island; and Johnston Island. TYPES OF ASSISTANCE:

USES AND USE RESTRICTIONS:

The program requires the contractor, agricultural employer or agricultural association to keep certain records and to comply with appropriate Federal and State safety and health standards for transportation and housing. It requires that contractors, agricultural employers and agricultural associations transporting migrant or seasonal farmworkers obtain motor vehicle liability insurance or, in some instances, Workers' Compensation Insurance and that they insure the migrant/seasonal agricultural worker and his/her personal property against injury or damage arising out of a transportation accident. Contractors, agricultural employers and agricultural associations must also comply with the applicable regulations of the Department of Transportation, Bureau of Motor Carrier Safety. It provides important worker protections such as vehicle safety and insurance coverage against both personal liability and property damage while being transported in connection with their employment; housing safety and health; disclosure of wages, hours and working conditions; maintenance of necessary records and furnishing to workers itemized information concerning pay and withholding. It further provides exemptions for both family businesses and small businesses. Any farm labor contractor who, for any money or other valuable consideration paid or promised to be paid, recruits, solicits, hires, employs, furnishes, or transports any migrant or seasonal agricultural worker (excluding members of his/her immediate family) for agricultural employment, must register under the Act, unless qualified for specific exemptions. Agricultural employers and agricultural associations must comply with the worker protection standards, but are not required to register. Information should be provided describing the type of business activity and the nature of the work performed. The names of persons making inquiries are treated in complete confidence. PROGRAM ACCOMPLISHMENTS:

During Fiscal Year 2007, the Women's Bureau continued to support and develop on-going projects and also designed and implemented several major projects in its effort to promote an environment that is responsive to the demands and challenges of the 21st century workforce. These targeted initiatives were designed to enhance opportunities for women under the Department's goals of A Competitive Workforce, A Prepared Workforce, and Strengthened Economic Protections. The following examples are highlights of the Bureau's accomplishments: A COMPETITIVE WORKFORCE -- The Women's Bureau continued its Flex-Options for Women project, which started in January 2004. The project links corporate mentors who have experience in developing flexible workplace policies and procedures with women business owners who want to develop flexible workplace policies and procedures. A PREPARED WORKFORCE -- The Bureau's Working Women in Transition (WWIT) program continued its efforts in support of women who are making a transition in their work lives. Building on the best practices of Better Jobs! projects, WWIT uses the Bureau's unique high-touch and high-tech strategy that

combines online and face-to-face resources. Participants have access to online mentors (e-mentoring), online employment tools, and distance learning opportunities while working with local service providers. A SECURE WORKFORCE -- WiSeUp is a financial education demonstration project targeted to Generation X women ages 22 to 35. The centerpiece of the program is an eight-module curriculum offered online, as well as in a classroom setting in educational institutions and other organizations. In the online program, the curriculum is complemented by an "Ask the Experts" feature, which permits participants to send questions by e-mail to volunteers with financial expertise. Another feature available to participants in both the online and classroom-based versions is a series of monthly one-hour teleconference calls with featured speakers and a question and answer session. The Women's Bureau also continues to host financial security and education events throughout the country. OUTREACH -- Through its National and Regional offices, web page, speaking engagements, and publications, the Women's Bureau continued to provide up-to-date, consistent, and relevant information and resources to employees, employers, and interested constituents on a variety of work-related topics, including job options, training and employment, flexible work schedules, and women's employment-related statistics.

PROGRAM ACCOMPLISHMENTS:

Documenting the Unemployment Rate of People with Disabilities Multi-year collaborative effort between ODEP and the Bureau of Labor Statistics (BLS) to develop a valid and reliable method of measuring the unemployment rate of people with disabilities. The results will, for the first time, document the actual unemployment rate of people with disabilities. Improving Professional Development of Youth Service Practitioners: ODEP developed the "Knowledge, Skills, and Abilities of Youth Service Practitioners: The Centerpiece of a Successful Workforce Development System," which outlines the knowledge,

skills, and abilities (KSAs) needed by professionals to better connect youth with disabilities to workforce development opportunities. 4,500 members of the National Association of Workforce Development Professionals (NAWDP), an organization created in 1989 with start-up funding from DOL, are now offered a youth credential based on the KSAs. The 900 member organizations at the National Partnership for Juvenile Services used the KSAs to develop their Youth Workforce Development Training Curriculum. Increasing Access to Youth Services for Youth with Disabilities: ODEP drafted the language in the Youth Vision Training and Employment Guidance Letter No. 28-05 (TEGL) and other Employment and Training Administration (ETA) policy guidance that specifically identifies and includes youth with disabilities and their needs with regard to Workforce Investment Act (WIA)-funded programs and services. WIA-funded youth services now explicitly recognize the accommodation needs of youth with disabilities in programs, removing disincentives to serving youth with disabilities, and increasing their access to ETA youth services resources. Improving Transition Plans for Youth with Disabilities: ODEP developed the "Guideposts for Success" (Guideposts), a common language guide of key educational and career development interventions for youth transitioning from high school to post-secondary education and/or employment. Forty-six states are now using the Guideposts to develop better transition improvement plans for thousands of school districts and their students. Maryland and Iowa are using the Guideposts as the basis for developing statewide cooperative agreements with local school districts and evaluating state transition programs, respectively. South Carolina, Indiana, Wisconsin and Texas are using the Guideposts to replicate ODEP's High School/High Tech demonstration programs. Influencing Employer Policies and Practices: Thousands of employers now have updated, valid and credible information on the low cost of workplace accommodations and the increase in overall company productivity that results from providing accommodations for employees with disabilities. Through an Alliance Agreement with the 210,000 member-strong Society for Human Resource Management (SHRM), SHRM has committed to promoting the employment of people with disabilities through jointly developed training, education, outreach, and technical assistance activities. Promoting Workplace Safety and Security for Federal Employees with Disabilities: ODEP led the development of "Preparing the Workplace for Everyone: Accounting for the Needs of People with Disabilities: A Framework of Emergency Preparedness Guidelines for Federal Agencies" (Framework), for all Federal agencies to use to evaluate and strengthen their emergency plans. Thousands of personnel responsible for effective emergency preparedness, including Federal building managers at the national, regional, and field levels through GSA; human resource and disability program managers through OPM; Federal safety and health officials through OSHA; and others are now using the Framework to ensure that the needs of agency employees with disabilities are considered in all aspects of emergency planning. Ensuring Access to One-Stop Career Centers for People with Disabilities: ODEP and the DOL's Employment and Training Administration jointly produced the WIA Section 188 Disability Checklist and ODEP developed "Strategies and Practices for Effectively Serving all One-Stop Customers: A Framework for Systems Change," both of which increase access to One-Stop Career Centers for people with disabilities. Thousands of One-Stop Career Centers in the workforce system now have a way to measure their compliance with Section 188 of the Workforce Investment Act (WIA). The Workforce System now acknowledges people with disabilities as potential entrepreneurs, encouraging the workforce system to make entrepreneurial training opportunities available. Improving the Workforce Investment System's Effectiveness with 'hard to serve' Customers: ODEP developed customized employment policy for the WIA system that set forth successful models of partnership and leveraging of funds and expertise so that 'hard to serve' customers can realize increased employment outcomes. SSI and SSDI; Medicaid; TANF; transition programs under IDEA; and other programs (e.g., mental health agencies, agencies serving persons with mental retardation and developmental disabilities, and independent living programs); and thousands of workforce investment system professionals now use customized employment strategies. Improving Coordination of Employment-Related Transportation Efforts: ODEP collaborated on drafting Executive Order in 2004, which created "United We Ride", comprised of private and public sector partners. Up to \$80 million in new funding has been authorized through the Safe, Accountable, Flexible, and Efficient Transportation Equity Act (SAFETEA-LU) for new resources to assist communities in meeting the mobility needs of people with disabilities seeking employment. Thousands of transportation professionals and service providers now have access to employment-related mobility management models (travel navigators, transportation brokers, and trip planners) to enhance transportation options for workers and job seekers with disabilities.

Instead, a new funding distribution formula was mandated based upon the ratio of the

number of veterans residing in the State that are seeking employment compared to the total number of veterans seeking employment in the State. Of resultant amounts, States determine the amount attributed to this and other programs funded under the Jobs for Veterans State grants. No matching is required.

17.806 VETERAN'S PREFERENCE IN FEDERAL EMPLOYMENT

FEDERAL AGENCY:

OFFICE OF THE ASSISTANT SECRETARY FOR VETERANS' EMPLOYMENT AND TRAINING, DEPARTMENT OF LABOR

AUTHORIZATION:

Veterans Preference Act of 1944, Public Laws 78-359, 93-508, 94-502, 95-520, 95-454, 97-72, 97-306, 98-543, 99-576, 101-237, 102-16, 102-568, 105-339, and 106-117; 109-163; Executive Order 11521, March 26, 1970.

OBJECTIVES:

To provide assistance to preference eligible individuals who believe that their rights under veterans' preference statutes and regulations have been violated. Recognizing their sacrifice, Congress enacted laws to prevent veterans seeking Federal employment from being penalized for their time in military service. Veterans' preference recognizes the economic loss suffered by citizens who have served their country in uniform, restores veterans to a favorable competitive position for Government employment, and acknowledges the larger obligation owed to disabled veterans. Veterans' preference is not so much a reward for being in uniform as it is a way to help make up for the economic loss suffered by those who answered the nation's call to arms. Historically, preference has been reserved by Congress for those who were either disabled or who served in combat areas. Eligible veterans receive many advantages in Federal employment, including preference for initial employment and a higher retention standing in the event of layoffs. However, the veterans' preference laws do not guarantee the veteran a job, nor do they give veterans' preference in internal agency actions such as promotion, transfer, reassignment, and reinstatement. By law, veterans who are disabled or who served on active duty in the Armed Forces during certain specified time periods or in military campaigns are entitled to preference over others in hiring from competitive lists of eligibles and also in retention during reductions-in-force. Preference applies in hiring for virtually all Federal jobs, whether in the competitive or excepted service. In addition to receiving preference in competitive appointments, veterans may be considered for special noncompetitive appointments for which only they are eligible.

TYPES OF ASSISTANCE:

Federal Employment.

USES AND USE RESTRICTIONS:

To assist persons who perform service in the uniformed services to secure Federal employment and to ensure a higher retention standing in the event of a reduction-in-force. To provide information and assistance to veterans, employers, labor organizations, and other elements of the community concerned with veterans' preference in Federal employment and retention. The Department of Labor - Veterans' Employment and Training Service investigates complaints with the goal of voluntary resolution of veterans' preference problems. Unresolved complaints can be pursued by the complainant veteran to the Merit Systems Protection Board.

Applicant Eligibility:

(1) Five-point preference is given to those honorably separated veterans (this means an honorable or general discharge) who served on active duty (not active duty for training) in the Armed Forces: During any war (this means a war declared by Congress, the last of which was World War II); during the period April 28, 1952, through July 1, 1955; for more than 180 consecutive days, any part of which occurred after January 31, 1955, and before October 15, 1976; during the Gulf War period beginning August 2, 1990, and ending January 2, 1992; for more than 180 consecutive days, any part of which occurred during the period beginning on September 11, 2001, and ending on the date prescribed by Presidential proclamation or by law as the last date of Operation Iraqi Freedom; or in a campaign or expedition for which a campaign medal has been authorized, such as El Salvador, Lebanon, Granada, Panama, Southwest Asia, Somalia, and Haiti. Medal holders and Gulf War veterans who originally enlisted after September 7, 1980, or entered on active duty on or after October 14, 1982, without having previously completed 24 months of continuous active duty, must have served continuously for 24 months or the full period called or ordered to active duty. Effective on October 1, 1980, military retirees at or above the rank

of major or equivalent, are not entitled to preference unless they qualify as disabled veterans. Ten-point preference is given to those honorably separated veterans who: (1) Qualify as disabled veterans because they have served on active duty in the Armed Forces at any time and have a present service-connected disability or are receiving compensation, disability retirement benefits, or pension from the military or the Department of Veterans Affairs; or (2) are Purple Heart recipients; the spouse of a veteran unable to work because of a service-connected disability; the unmarried widow of certain deceased veterans; and the mother of a veteran who died in service or who is permanently and totally disabled. When applying for Federal jobs, eligible veterans should claim preference on their application or resume. Applicants claiming 10-point preference must complete form SF- 15, Application for 10-Point Veteran Preference. Veterans who are still in the service may be granted 5 points tentative preference on the basis of information contained in their applications, but they must produce a DD Form 214 prior to appointment to document entitlement to preference. Note: Reservists who are retired from the Reserves but are not receiving retired pay are not considered "retired military" for purposes of veterans' preference. (2) Veterans who have been separated from the armed forces under honorable conditions shortly before completion of 3 years, or completion of 3 years or more of active duty military service are eligible to compete for vacant Federal positions for which the agency making the announcement will accept applications from individuals outside its own workforce under merit promotion procedures. This does not make them preference eligible, but allows access to certain Federal job openings for which they would otherwise not be entitled to apply. (3) Public Law 94-502 authorizes Federal agencies to provide unpaid training or work experience, as a part of the Department of Veterans Affairs vocational rehabilitation for a disabled veteran. Such training may be designed to provide noncompetitive appointment.

Beneficiary Eligibility:

Non-disabled veterans, disabled veterans and certain wives or husbands, widows, widowers, and mothers of veterans.

Credentials/Documentation:

For veterans' preference, general proof of honorable separation such as discharge certificate or DD Form 214. In addition, for 10-point preference, a letter from the Department of Veterans Affairs or military department certifying existence of service-connected disability. When the 10-point preference is based on the award of a Purple Heart, official documentation of the award is sufficient.

Preapplication Coordination:

This program is excluded from coverage under E.O. 12372.

Application Procedure:

Application forms are available from Service Centers of the Office of Personnel Management and from Federal agency personnel offices. Veterans eligible for noncompetitive appointment should make personal contact with the Federal agency where they would like to be considered for employment. Veterans who believe that they have not been properly accorded their rights have several different avenues of complaint, depending upon the nature of the complaint and the individual's veteran status: The Veterans Employment Opportunities Act of 1998 allows preference and other eligibles to file a complaint with the Department of Labor's Veterans' Employment and Training Service (VETS) when the person believes an agency has violated his or her rights under any statute or regulation relating to veterans' preference. Eligible veterans seeking employment who believe that an agency has not properly accorded them their veterans' preference, or failed to provide special placement consideration noted above, may file a complaint with the local Department of Labor VETS representative (located at State employment service offices). To be eligible to file a complaint a veteran must: Have served on active duty for more than 180 days and have other than a dishonorable discharge; have a service-connected disability; or served on active duty during a period of war, or received a campaign badge or expeditionary medal (e.g., the Southwest Asia Service Medal). The Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) prohibits discrimination in employment, retention, promotion, or any benefit of employment on the basis of a person's service in the uniformed services. Complaints under this law should also be filed with the local Department of Labor VETS representative (located at State employment service offices). Since a willful violation of a provision of law or regulation pertaining to veterans' preference is a Prohibited Personnel Practice, a preference eligible who believes his or her veterans' preference rights have been violated may file a complaint with the local department of Labor VETS representative, as noted above. A disabled veteran who believes he or she has been discriminated against in employment because of his or her disability may file a handicapped discrimination complaint with the offending agency under regulations administered by the Equal Employment Opportunity Commission.

Award Procedure:

None.

Deadlines:

Under Public Law 95-454, retired members of the armed forces will no longer be considered preference eligible as of October 1, 1980, unless they are disabled veterans or retired below the rank of Major or the equivalent. Under Public Law 97-306, enacted October 14, 1982, a 2-year minimum active duty service condition for those entering military service after September 7, 1980, or the full

period for which called or ordered to active duty, must be met, unless they are disabled veterans.

The Veterans' Employment Opportunities Act of 1998 is available free of charge from USDOL-VETS offices listed in Appendix IV of the Catalog. The Department of Labor's Office of the Assistant Secretary for Policy and Veterans' Employment and Training Service developed an "expert system" to help veterans receive the preferences to which they are entitled. Two versions of this system are currently available, both of which help the veterans determine the type of preference to which they are entitled, the benefits associated with the preference and the steps necessary to file a complaint due to the failure of a Federal Agency to provide those benefits. 19.431 EDUCATIONAL EXCHANGE-SCHOLAR-IN-RESIDENCE (U.S. INSTITUTIONS OF HIGHER EDUCATION HOST LECTURING FACULTY FROM ABROAD)

FEDERAL AGENCY:

BUREAU OF EDUCATIONAL AND CULTURAL AFFAIRS, DEPARTMENT OF STATE

AUTHORIZATION:

Public Law 87-256, as amended, 22 U.S.C. 2451 et seq.

OBJECTIVES:

To improve and strengthen the international relations of the United States by promoting mutual understanding among the people of the world through educational exchanges.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

Grants enable accredited U.S. institutions of higher education to host a faculty lecturer from abroad for a semester or an academic year. Preference is given to institutions that are traditionally less involved in international exchange programs, including hosting visiting scholars and/or those serving minority audiences. Priority institutions include historically Black colleges and universities, Hispanic serving institutions, tribal colleges and universities, small liberal arts colleges and community colleges. Institutions sometimes propose to formally or informally share the visiting scholar with neighboring institutions or consortia, and consortia applications are welcome. Institutional applications may designate a specific scholar by name or request that U.S. Embassies or binational Fulbright Commissions abroad recruit one for them. The Scholar-in-Residence's primary role is teaching at the undergraduate level. Teaching assignments often focus on global issues, or on courses where a foreign lecturer's services can provide a cross-cultural or international perspective. Subject fields are generally in the social sciences and humanities but may be in a wide range of other fields as well, such as education, law, architecture, urban planning, intercultural studies, geography, religious studies, journalism, women's studies, etc. Institutions requesting scholars from countries with significant Muslim populations in the fields of Islamic history, culture and society broadly defined are particularly encouraged to apply. In addition to teaching courses, scholars give campus-wide lectures, help initiate international programs and contribute to curriculum development. Beyond campus activities, host institutions are

expected to involve the scholar with professional organizations and with community associations, with outreach often including the K-12 education community. Fulbright scholars-in-residence often play an important role in assisting colleges and universities to begin to internationalize curricula by providing a unique addition to academic offerings and activities on campus. They also may offer institutions already engaged in international activities, the opportunity to broaden or deepen their international or world area-specific capacities. Individual grant benefits generally include round-trip transportation for the grantee and in some cases for one dependent, a monthly stipend, a dependents allowance, a settling in allowance, a professional enhancement allowance for books and services and basic accident/sickness insurance. (Note that all Fulbright Scholar-in-Residence funds are paid to the scholar, not to the U.S. host institution.)

Applicant Eligibility:

Accredited U.S. institution of higher education.

Beneficiary Eligibility:

Accredited U.S. institutions of higher education.

Credentials/Documentation:

None.

Preapplication Coordination:

Not applicable. This program is excluded from coverage under E.O. 12372.

Telephone: (202) 686-7866. In many cases this material is also available from U.S. college and university Fulbright campus contacts.

Award Procedure:

The U.S. Department of State and the Presidentially-appointed J. William Fulbright Foreign Scholarship Board make final selection of grantees.

Deadlines:

Subject to change, but generally applications are to be submitted by mid-October.

Range of Approval/Disapproval Time:

The scholar was engaged in all aspects of university life, from teaching, to curriculum development to student advising. A community college in the Northwest, in order to serve its growing resident immigrant and refugee population, hosted a scholar from Nicaragua. The scholar taught courses and advised in the fields of indigenous peoples, economic development and environment protection, in assisting the college in developing a new Latin American Studies program. A rural, Hispanic-serving community college in the West hosted a scholar from Slovakia, to help internationalize its nursing program. A small, private, liberal arts college in New England hosted a Javanese puppet-master, musician and scholar from Indonesia to help support and enhance its growing gamelan music program and the development of its Asian Studies program. The scholar taught beginning gamelan, two courses on shadow puppet theatre (wayang), gave guest lectures, and participated in community outreach in the local schools and museum. Two institutions in New York State jointly hosted a Chinese environmental ecologist. The scholar helped initiate a new environmental science major at one institution, where he taught their undergraduate environmental science courses and contributed to the second institution's Center for Environmental Policy. He also became involved with local environmental organizations. As a consequence of hosting the Fulbrighter, both institutions are seeking a long-term, ongoing relationship in environmental science and policy with the scholar's home university.

CRITERIA FOR SELECTING PROPOSALS:

Is the institution within the preferred institutional profile? Does the proposal adequately describe the institution's short-term and long-term international education objectives? Does the proposed scholar adequately meet those goals and objectives? Is the proposed program for the scholar practical and feasible? Is rationale provided for requesting a scholar from a specific country or region? If a particular scholar is requested, does that scholar's qualifications and experience mesh with the institution's goals and the proposed teaching assignment and other duties? Does the proposal include plans for other campus activities? Does the proposal include plans for community involvement and outreach? Does the proposal demonstrate how the scholar's impact will be sustained after the grant is completed? Has the institution provided monetary or in-kind cost sharing?

CRITERIA FOR SELECTING PROPOSALS:

The Bureau's main objective is to help ensure that refugees and victims of conflict have access to basic life-sustaining resources in ways that meet internationally accepted standards of care in shelter, food supply, nutrition, water supply, sanitation, and public health. NGO proposals should clearly use SPHERE standards as the basis for design, implementation, and evaluation, including proposed objectives and indicators. Underlying PRM's support for humanitarian assistance is a commitment to protection, targeted support to women, vulnerable individuals, coordination with relevant UN agencies and other NGOs, sustainability of programming, security, and capacity building. NGOs in search of Bureau funding would do well to address these specific areas in any proposals sent for funding.

19.519 OVERSEAS REFUGEE ASSISTANCE PROGRAM FOR NEAR EAST AND SOUTH ASIA

FEDERAL AGENCY:

BUREAU OF POPULATION, REFUGEES, AND MIGRATION,
DEPARTMENT OF STATE

AUTHORIZATION:

The Migration and Refugee Assistance Act of 1962, as amended (MRA), 22 U.S.C. 2601 et seq.

OBJECTIVES:

In the Near East: Return and reintegration assistance of up to two million Iraqi refugees, recent returnees, and internally displaced persons (IDPs) is a high

priority to the Bureau. Programs will support return and reintegration activities for voluntary returnees, as well as assist existing populations in neighboring countries until refugees elect for voluntary return. Programs inside Iraq will also help strengthen local structures so that Iraqi government policies and programs will be responsive to refugees and other victims of conflict. The Bureau supports UN programs that provide some stability in the lives of the 4.3 million Palestinian refugee population in an increasingly difficult environment and contributes to building a climate conducive to a peaceful resolution of regional problems. In South Asia: The Bureau will continue support for the unprecedented, large-scale return and reintegration programs for Afghan refugees and IDPs, although at reduced financial levels. The Bureau will also continue supporting protection and assistance activities for many of the 3.5 million refugees who remain in Pakistan and Iran and who may not repatriate in 2006 due to the security situation, persecution of certain ethnic groups, and Afghanistan's limited capacity to absorb additional returnees. India is host to over 130,000 Tibetan refugees. Congressionally earmarked funds administered by PRM supports the Tibet Fund's assistance of approximately 2,500 new Tibetan refugees who arrive in India each year. PRM's regional contribution to UNHCR also supports protection, care and maintenance for 106,000 Bhutanese refugees in southeastern Nepal.

CRITERIA FOR SELECTING PROPOSALS:

The Bureau's main objective is to help ensure that refugees and victims of conflict have access to basic life-sustaining resources in ways that meet internationally accepted standards of care in shelter, food supply, nutrition, water supply, sanitation, and public health. NGO proposals should clearly use SPHERE standards as the basis for design, implementation, and evaluation, including proposed objectives and indicators. Underlying PRM's support for humanitarian assistance is a commitment to protection, targeted support to women, vulnerable individuals, coordination with relevant UN agencies and other NGOs, sustainability of programming, security, and capacity building. NGOs in search of Bureau funding would do well to address these specific areas in any proposals sent for funding.

PROGRAM ACCOMPLISHMENTS:

Continued to implement Aviation and Space Education (AVSED) Local Counselor Program (volunteer FAA employees); provided consultant assistance to schools and colleges; continued to establish "Partnerships-in-Education" among industry, education, and government. Priorities established by the AVSED Strategic Plan included creative leadership that commits FAA to become the internationally recognized authority on aviation and space education. This would be both consistent and reinforcing of FAA's mission to maintain America's preeminence in aviation. In addition, creative leadership in education demonstrates FAA's commitment to support the President's initiative of No Child Left Behind. AVSED's plan is the integration of aerospace thematic Science Technology Engineering and Mathematics (STEM) curriculum into education and to expand and create synergistic partnerships that support this inclusion into state education frameworks. FAA's existing base of enthusiastic volunteers, aviation and space education national, regional, and center program managers offer a national network focused upon promoting U.S. aviation. For example, we continue to work with the National Association of State Aviation Officials (NASAO) and the National Coalition for Aviation Education (NCAE) to emphasize and expand outreach linkages. The states have Constitutional authority for education; therefore, State partnerships provide the infrastructure and mechanism for implementing and sustaining federally initiated programs on a national level. Thus, to achieve this goal, FAA must continue to pro-actively increase FAA's internal and external partnerships. Consistent with the National Performance Review, the AVSED plan calls for a refocusing and reengineering of aviation and space education programs. Refocusing permits the FAA to better accomplish its mission to "foster the growth of aviation." Also, declining resources and new technologies makes it imperative that aviation programs be reengineered. Following is the list of aviation and space education programs. (1) Aviation and Space Education web site, www.faa.gov/education, is an on-line computer-based information service that links the education community and the Federal government to educational information services. The web site provides a complete agency organizational and program profile for university administrators, professors, teachers, students and the general public. Information on aviation and space education programs and resources available from FAA national, regions, and centers, and facilities may be included in the database. Details on aviation and space education initiatives and aviation industry special interest groups are also available. All FAA Aviation and Space Education materials and curriculum are located on the web site and are down loadable for reproduction. (2) FAA Aviation and Space Education Volunteer Counselor Program: FAA will select, provide orientation, and appoint volunteer resource personnel to coordinate with headquarters, region and center aviation and space education program managers to implement FAA aviation and space education programs. FAA volunteers are designed as official Aviation and Space Education Counselors. The Counselors will assist FAA in promoting aviation and space education and fostering a wider knowledge, and better understanding of FAA, the National Airspace System, and civil aviation in America. There has been one counselor workshop conducted in headquarters in 2006 and there are plans to conduct six counselor workshops in regions in 2007. (3) Government-Industry-Education Partnerships: partnerships such as, NASAO, Organization of Black Airline Pilots (OBAP), International Black Aerospace Council (IBAC) and NCAE, increase public awareness and enhancement of the role of aviation, and support aviation and space education programs at all levels of the educational system. These private/public sector or government educationpartnerships are increasingly important as we move towards our goal of increasing STEM educational awareness. Each partnership yields additional resources to support the FAA's aviation and space education program initiatives. In fiscal year 2004, FAA formalized two new partnership: one with Women in Aviation International and one with the Experimental Aircraft Association. In 2005, FAA formed a partnership with Civil Air Patrol.

20.106 AIRPORT IMPROVEMENT PROGRAM

(AIP)

FEDERAL AGENCY:

FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

AUTHORIZATION:

Public Law 103-272.

OBJECTIVES:

To assist sponsors, owners, or operators of public-use airports in the development of a nationwide system of airports adequate to meet the needs of civil aeronautics.

TYPES OF ASSISTANCE:

Project Grants; Advisory Services and Counseling.

USES AND USE RESTRICTIONS:

Grants can be made for integrated airport system planning in a specific area; and airport master planning, construction, or rehabilitation at a public-use airport or portion thereof. Authorizing legislation refers to an airport as any area of land or water used or intended to be used for the landing or taking off of aircraft and includes, within the five categories of airports listed below, special types of facilities such as seaplane bases and heliports. The statute further defines airports by categories which include commercial service, primary, cargo service, reliever, and general aviation airports. They are defined as follows: Commercial Service Airports are publicly owned airports that have at least 2,500 passenger boarding each year and receive scheduled passenger service. Passenger boarding refer to revenue passenger boarding on an aircraft in service in air commerce. The definition also includes passengers who continue on an aircraft in international flight that stops at an airport in any of the 50 states for a non traffic purpose. Passenger boarding at airports that receive scheduled passenger service are also referred to as Enplanements. Nonprimary Commercial Service Airports are Commercial Service Airports that have at least 2,500 and no more than 10,000 passenger boarding each year. Primary Airports are Commercial Service Airports that have more than 10,000 passenger boarding each year. These airports are further categorized as Hub Airports, based on the level of passenger boarding. Hub categories for Primary Airports are defined as a percentage of total passenger boarding in the most current calendar year ending before the start of the current fiscal year. The definition and formulae used for designating Primary Airports by Hub Type and Percentage of Annual Passenger Boarding are: Large 1 percent or more; Medium - at least 0.25 percent, but less than 1 percent; Small - at least 0.05 percent, but less than 0.25 percent; and Non hub - more than 10,000, but less than 0.05 percent. Cargo Service Airports are airports that, in addition to any other air transportation services that may be available, are served by aircraft providing air transportation of only cargo with a total annual landed weight of more than 100 million pounds. Reliever Airports are airports designated by the FAA to relieve congestion at a Commercial Service Airport and to provide more general aviation access to the overall community. The remaining airports, while not specifically defined in Title 49 U.S.C., are referred to as General Aviation Airports and comprise the largest single group of airports in the U.S. airport system. Eligible work at airports consists of: (1) airport master plans; (2) airport noise compatibility plans; (3) land acquisition; (4) site preparation; (5) construction, alteration, and rehabilitation of runways, taxiways, aprons, and certain roads within airport boundaries; (6) construction and installation of airfield lighting, navigational aids, and certain offsite work; (7) safety equipment required for certification of airport facility; (8) security equipment required of the sponsor by the Secretary of Transportation by rule or regulation for the safety and security of persons and property on the airport; (9) snow-removal equipment; (10) terminal development; (11) aviation-related weather reporting equipment; (12) equipment to measure runway surface friction; (13) burn area training structures and land for that purpose, on or off airport; (14) agency-approved noise compatibility projects; (15) relocation of air traffic control towers and navigational aids (including radar) if they impede other projects funded under AIP; (16) land, paving, drainage, aircraft deicing equipment and structures for centralized deicing areas; and (17) projects to comply with the Americans with Disabilities Act of 1990, Clean Air Act, and Federal Water Pollution Control. Under limited criteria construction of hangars and automobile parking is eligible. Grants may not be made for the construction of hangars, most automobile parking facilities, buildings not related to the safety of persons on the airport, decorative landscaping or artwork, or routine maintenance and repair. Technical advisory services are also provided. Formula funds are available to primary commercial service airports and to cargo service airports. Discretionary funds may be used at any eligible facility.

Applicant Eligibility:

States, counties, municipalities, U.S. Territories and possessions, other public agencies including an Indian tribe or pueblo, the republics of the Marshall Islands and Palau, and the Federated States of Micronesia, are eligible for airport development grants if the airport on which the development is required is listed in the National Plan of Integrated Airport Systems (NPIAS). Certain units of local government may be eligible for grants to implement noise compatibility projects. Private owners of public-use reliever airports or airports having at least 2,500 passenger boarding annually and receiving scheduled passenger aircraft service are eligible.

Beneficiary Eligibility:

States, counties, municipalities, U.S. Territories and possessions, and other public agencies including an Indian tribe or pueblo, the republics of the Marshall Islands and Palau, The Federated States of Micronesia, and private owners of reliever airports or airports having at least 2,500 passenger boarding annually and receiving scheduled passenger aircraft service.

USES AND USE RESTRICTIONS:

Centers of Excellence are established for long term continuing mission critical research in specific areas of technology. Funding may be used for the establishment and operation of the Centers of Excellence and the related training, education and research projects. The FAA determines a need for a Center of Excellence in a specific area of technology and publishes a Notice of Availability of Solicitation in Grants.gov. In response to this announcement, each applicant submits a description of their institutional capabilities, available faculty, facilities and equipment, and additional information as required in the solicitation. Researchers at each Center are expected to maintain a close working relationship with relevant FAA program offices that have responsibility in areas related to their research. Centers conduct semi-annual reviews, and a major symposium at the conclusion of each 3-year phase of research to satisfy Congressional requirements to disseminate results to a broad audience.

CONGRESSIONAL RESTRICTIONS: (1) Matching Funds - Federal grants awarded shall be 50 percent of the cost of establishing and operating the Center of Excellence and related research activities. (2) Maintenance of Effort - Each recipient will maintain its aggregate expenditures from all other sources for establishing and operating the Center and related research activities at or above the average level of such expenditures in its 2 fiscal years preceding November 5, 1990. (3) Locations shall be geographically equitable. 4. Contract tasks are awarded on a negotiable cost share basis*.

Applicant Eligibility:

Applicants are limited to colleges and universities with the financial resources to meet statutory requirements for matching Federal funds and maintenance of effort. Academic institutions may partner with industry affiliates and other government laboratories.

Beneficiary Eligibility:

Recipients are limited to colleges and universities with the financial resources to meet statutory requirements for matching Federal grants and maintenance of effort. In conducting research, a Center of Excellence may contract with nonprofit research organizations and other appropriate persons.

Required documentation is outlined in each solicitation package. After each Notice of Solicitation is published, copies of the Solicitation are available during a Public Meeting and/or from the FAA Centers of Excellence Program Office,

FAA Technical Center, Atlantic City International Airport, NJ 08405. To establish a Center of Excellence, a competitive process is conducted to include a public announcement, publication of a solicitation, a management/fiscal review and technical evaluation. Public Law 101-508 established the following six selection criteria: (1) The extent to which the needs of the State in which the applicant is located are representative of the needs of the region for improved air transportation services and facilities. (2) The demonstrated research and extension resources available to the applicant for carrying out this program. (3) The capability of the applicant to provide leadership in making national and regional contributions to the solution of both long- range and immediate air transportation problems. (4) The extent to which the applicant has an established air transportation program. (5) The demonstrated ability of the applicant to disseminate results of air transportation research and educational programs through a State-wide or region-wide continuing education program. (6) The projects which the applicant proposes to carry out under the grant.* Each proposal must include the following: (a) description of current research projects being conducted in the specified research area, (b) a schedule of anticipated expenses for establishing and operating the Center of Excellence, (c) a plan for meeting the 50 percent nonfederal contribution toward the matching requirements, (d) a statement showing its aggregate expenditures from all other sources for aviation research in its 2 fiscal years preceding November 5, 1990, (e) all data sufficient for the evaluation team to determine the extent to which the applicant is able to satisfy the six selection criteria outlined. Each proposal must contain: 1. a completed Application for Federal Assistance (SF-424 Research and Related); 2. table of contents; 3. a technical statement addressing the problems inherent in the specific topic area(s) and probable solutions; 4. a summary of research results from FAA funding in the past five years; 5. biographical sketches of senior personnel and a list of their principal accomplishments and publications during the past five years; 6. proposed budget for the initial three years including the anticipated costs of managing a new Center of Excellence, and a management plan; 7. current and pending support on all research awards from all sources; 8. available facilities and major items of equipment to be available to conduct research, and that which is necessary to acquire. 9. letters of support from various industry representatives, state and local officials, etc. Other required forms are Disclosure of Lobbying Activities form SF-LLL and certification of Compliance with Civil Rights Act.

Preadmission Coordination:

FAA may hold a public information meeting prior to submission of proposals. Questions may be submitted to the FAA Centers of Excellence Program Director, AAR-400, FAA Technical Center, Atlantic City International Airport, NJ 08405. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure:

Colleges and universities may apply after the FAA has published a Notice of Availability of Solicitation for a Center of Excellence in a specific research area on the Grants.gov website. Solicitation and application packages are available from the FAA Centers of Excellence Program Office, FAA Technical Center, Atlantic City International Airport, NJ 08405.

Award Procedure:

Each Air Transportation Center of Excellence is awarded on behalf of the FAA Administrator. The FAA Centers of Excellence Program Director, issues solicitations, receives all proposals, convenes evaluation teams to evaluate eligible institutions for Centers of Excellence awards. Applicants should be prepared to host an onsite inspection of existing research facilities.

Deadlines:

Contact the FAA Center of Excellence Program Office for applications and application deadlines. Deadlines will also be published in the Notice of Solicitation.

Range of Approval/Disapproval Time:

From the closing date for applications, the FAA requires at least 6 months for evaluation and selection procedures.

Appeals:

None.

Renewals:

Not applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Funds - The Federal share shall be 50 percent of the costs of establishing and operating the Center of Excellence and related research activities. Maintenance of Effort - Each recipient will maintain its aggregate expenditures from all other sources for establishing and operating the Center and related research activities at or above the average level of such expenditures in its 2 fiscal years preceding November 1990.

Length and Time Phasing of Assistance:

The FAA intends to support a Center of Excellence in three year increments over a maximum of ten years. Each Center will undergo a reassessment every three years. Research is reviewed semi-annually. Budgets and research projects are

negotiated yearly. As a consequence of changing needs, or diminished requirements, the agency reserves the right not to renew support for a Center of Excellence at any time. Funds from program offices and additional appropriations may increase at any time providing the institution can demonstrate matching funds.

Reports:

Technical Reporting Requirements per Attachment H of OMB Circular No. A-110 and Attachment I to OMB Circular No. A-102. Financial reporting requirements as per Attachment G of OMB Circular No. A-110 and Attachment H of OMB Circular No. A-102. Semi-annual reports on matching Funds and technical reports, as well as an annual review of the research completed and in progress at each Center of Excellence. The annual review focuses on the relevance, merit and direction of research efforts in the designated area, and negotiation of projects and budget for the next year. A symposium is required by the end of each 3-year period as part of close-out activities and serves to highlight research results and discuss plans for the next 3-year phase. The symposium helps satisfy legislative requirements to disseminate information.

Audits:

Single Audit Act assigns responsibility to either the Department of Health and Human Services or the Department of Defense for most institutions. The FAA calls for an audit of each Center every 3 years as a part of close-out activities, and reserves the right to conduct individual audits annually, and as needed, within the constraints of applicable laws and regulations.

20.205 HIGHWAY PLANNING AND CONSTRUCTION

(Federal-Aid Highway Program, Federal Lands Highway Program).

FEDERAL AGENCY:

FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

AUTHORIZATION:

Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), Public Law 109-59, 23 U.S.C. 101 et seq., as amended.

OBJECTIVES:

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; and for transportation improvements to most other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, the Northern Mariana Islands, and the Alaska Highway. The Federal Lands Highway Program (FLHP), as an adjunct to the Federal Aid Highway Program, provides assistance to the Federal Land Management Agencies (FLMAs) for Federally owned roads. It provides transportation engineering services for planning, design, construction, and rehabilitation of the highways and bridges providing access to federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

TYPES OF ASSISTANCE:

Formula Grants; Project Grants.

USES AND USE RESTRICTIONS:

Federal-aid highway funds are generally apportioned by statutory formulas to the States. They are generally restricted to roads open to the public and not functionally classified as rural minor collectors or local. Exceptions to this highway functional classification restriction include: planning and research activities; bridge, bicycle and pedestrian, and safety improvements that may be on any public road; transportation enhancement activities; the recreational trails program (see program 20.219); safe routes to school, nonmotorized

transportation, the FLHP, and public transportation improvement. The FLHP is not a grant program. For highway projects, funds may be used for environmental studies, engineering and design services, right-of-way acquisition and relocation assistance, and construction for capital improvement projects classified as new construction, reconstruction, restoration, rehabilitation, and resurfacing, or for functional, geometric, or safety reasons. Funds may also be used for planning; research, development, and technology transfer; intelligent transportation systems projects; roadside beautification; wetland and natural habitat mitigation, traffic management and control improvements; improvements necessary to accommodate other transportation modes, development and establishment of transportation management systems; billboard removal; construction of bicycle facilities and pedestrian walkways; fringe and corridor parking; car pool and van pool projects; transportation enhancements such as scenic and historic highway improvements; and recreational trails. Funds generally cannot be used for routine highway operational activities, such as police patrols, mowing, snow plowing, or maintenance, unless it is preventative maintenance. Also, funds authorized for the NHS, Surface Transportation Program (STP), Congestion Mitigation and Air Quality (CMAQ) Improvement Program, Equity Bonus (BE) program, and some additional programs may be used for mass transportation improvements; CMAQ funds are limited to projects and programs in air quality, non-attainment and maintenance areas for ozone, carbon monoxide, and small particulate matter that reduce transportation related emissions. Eligibility criteria for the programs differ, so program guidance should be consulted. Projects in urban areas of 50,000 or more population must be based on a transportation planning process carried out by a Metropolitan Planning Organization (MPO) in cooperation with the State and transit operators, and the projects must be included in metropolitan transportation plans and improvement programs. Projects in non-metropolitan areas of a State must be consistent with a statewide transportation plan. Projects in both metropolitan and non-metropolitan areas must also be included in a fiscally constrained Statewide Transportation Improvement Program (STIP) developed as part of the required statewide transportation planning process. The FHWA and the Federal Transit Administration (FTA) must approve the STIP jointly.

Applicant Eligibility:

By law, the Federal-aid highway program is a federally assisted State program that requires each State to have a suitably equipped and organized transportation department. Therefore, most projects are administered by or through State transportation departments (State DOTs). Projects to be funded under the Federal-aid highway program are generally selected by State DOTs or MPOs, in cooperation with appropriate local officials, as specified in 23 U.S.C. and implementing regulations. Territorial highway projects are funded in the same manner as other Federal aid highway projects, with the territorial transportation agency functioning in a manner similar to a State transportation department. Most FLHP projects are administered by the FHWA Office of Federal Lands Highway and its Divisions or by the various FLMAs. Under the FLHP, projects in the Indian Reservation Road (IRR) Program are selected by Tribal governments and are approved by the Bureau of Indian Affairs (BIA) and the Federal Highway Administration. Due to recent legislation, Tribal governments meeting certain requirements may now administer various IRR projects on behalf of the BIA and FHWA. The Fish and Wildlife Service (FWS) and the National Park Service (NPS) select projects in the Refuge Road and Park Roads and Parkways programs, respectively. For the Forest Highway Program, the Forest Service, the States and the Federal Highway Administration jointly select projects.

Beneficiary Eligibility:

State transportation departments, and in some instances, Federal agencies, other State agencies, local agencies, and private, community-based organizations.

Credentials/Documentation:

Eligible activities and allowable costs will be determined in accordance with Title 23 and the OMB cost principles applicable to the recipient/sub-recipient.

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An environmental impact assessment is required for most projects under this program, although the level of review varies with the project. Projects under the FLHP have similar requirements; however, an interested applicant would need to contact the designated FLMA or the local FLH Division for more information.

Application Procedure:

In general, projects/programs proposed for funding must be included in a fiscally constrained STIP, submitted by the State DOT, and approved jointly by the FHWA and the FTA. In addition, the State DOT may need to submit statements of work or plans, specifications, and estimates for certain proposed projects to the FHWA division office located in each State for approval. The FHWA has an agreement with each State that details the extent to which the State assumes the responsibilities of the FHWA for projects in that State. For projects on the Interstate System costing more than \$1 million, FHWA oversight of design and construction is required. For projects that are on the National Highway System

but not on the Interstate System, the State may assume the responsibilities of the FHWA for oversight of design and construction, unless the State or the FHWA determines that such assumption is not appropriate. For projects that are not on the National Highway System, the State shall assume the responsibilities of the FHWA for oversight of design and construction, unless the State determines that such assumption is not appropriate. For the discretionary portion of public lands highways, State DOTs submit desired projects to the FHWA division office located in each State. Following the appropriate project selection process, a Transportation Improvement Program (TIP) for the Park Roads and Parkways, Forest Highway and Refuge Road programs is developed by one of the Federal Lands Highway Division offices, and forwarded to the respective State for inclusion in the appropriate MPO TIP and STIP. For the Indian Reservation Roads program, a TIP is submitted to the FHWA Office of Federal Lands Highway for approval and then forwarded to the respective State for inclusion in the appropriate MPO TIP and STIP. Projects under the FLHP are subject to the metropolitan and statewide planning requirements.

Award Procedure:

The State DOTs generally decide which projects will be developed within funding levels but the FHWA division office located in each State makes the final decision on the eligibility of specific projects. There are several categories where funding is allocated at the discretion of the Secretary of Transportation and administered by the FHWA. Candidate projects for discretionary allocations are usually solicited before the start of the Federal fiscal year (October 1) and must be submitted by the State DOTs. FHWA approval of a project and execution of a project agreement constitute a commitment to pay the Federal share of the project's allowable costs. Projects administered by the FHWA Office of FLH or the FLMAs are subject to procurement processes identified in the Federal Acquisition Regulations. Project awards are subject to the availability of funds.

Deadlines:

There are no deadlines for applications for projects using apportioned funds. For discretionary project allocations, applications are usually considered late in the fiscal year before the year for which the funds are available. Allocations to specific projects are generally made early in the fiscal year. Contact Federal agency for deadline date(s). All allocations are made through the State DOT, which is advised of schedules for submission of candidates.

Range of Approval/Disapproval Time:

From 1 day to 5 months.

Appeals:

None.

Renewals:

None.

Formula and Matching Requirements:

Most Federal-aid highway funds are distributed by statutory formula. Eligibility requirements for most programs are also determined by legislative criteria. Some categories, including part of the bridge and Interstate Maintenance funds, are distributed on a discretionary basis. The normal maximum Federal share is 90 percent for the EIS projects, and 80 percent for most other projects. The Federal share for some programs may be increased in the case of States with large areas of Federal lands. Some projects, including territorial highway projects, FLHP projects, certain safety improvements, and emergency relief projects require no matching of Federal funds.

Length and Time Phasing of Assistance:

Federal-aid highway funds generally become available at the beginning of the fiscal year for which they are authorized and must be obligated within 3 years after the close of that fiscal year. However, some categories of funds are available until expended.

Reports:

Except for projects that a state has oversight responsibility for, the FHWA division office in each State monitors and reviews State projects and programs during highway project location, design and construction. After the project is completed State maintenance of the project is reviewed periodically. Certain non-construction activities, such as transportation planning, require periodic progress reports. Similar procedures apply to the FLMAs and FLHP projects with the FHWA Office of FLH providing the mandatory stewardship and oversight. A value engineering analysis or other cost-reduction analysis is required for each project on the Federal-aid system with an estimated total cost of \$25,000,000 or more, a bridge project with an estimated total cost of \$20,000,000 or more; and any other project determined to be appropriate. Annual financial plans are required for projects with an estimated total cost of \$100,000,000 or more. In addition, a project management plan must be submitted for projects with an estimated total cost of \$500,000,000 or more.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), Audits of States, Local Governments, and Nonprofit Organizations, nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards from all sources during their fiscal year must have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Project records and documents must be retained by the State or other governmental recipients/ subrecipients as specified in 49 CFR Part 18 or by non-profit recipients/subrecipients as specified in 49 CFR Part 19. For the Federal Lands Highway Program, the Federal Lands Highway Divisions maintain the project records.

(Grants) FY 07 \$34,154,000; FY 08 est. \$40,068,000; and FY 09 est. \$37,849,000.

Range and Average of Financial Assistance:

From \$100,000 to \$3,505,000,000. Average \$700,000,000.

PROGRAM ACCOMPLISHMENTS:

The Federal-aid Highway Program has made significant contributions to the safer operation of the nation's highways, to the better intermodal connectivity of roads to other forms of transportation, and to the improvement of pavement and bridge conditions throughout the country, while helping to safeguard environmental conditions. It has provided funding for a wide range of alternatives to traditional highway construction projects to better serve transportation needs. It has developed and advanced critical new technologies, such as Intelligent Transportation Systems, and shared them with the States. The FLHP works to create the best transportation system in balance with the values of the Federal and tribal lands. The mission of the program is to improve transportation access to and within Federal and tribal lands and provide technical services to the highway community.

20.219 RECREATIONAL TRAILS PROGRAM

FEDERAL AGENCY:

FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

AUTHORIZATION:

Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), Public Law 109-59, 23 U.S.C. 104, 206.

OBJECTIVES:

To provide funds to the States to develop and maintain recreational trails and trail-related facilities for both nonmotorized and motorized recreational trail uses.

TYPES OF ASSISTANCE:

Formula Grants; Project Grants.

USES AND USE RESTRICTIONS:

Funds from this program may be used for: (1) Maintenance and restoration of existing trails; (2) development and rehabilitation of trailside and trailhead facilities and trail linkages; (3) purchase and lease of trail construction and maintenance equipment; (4) construction of new trails (with restrictions for new trails on Federal lands); (5) acquisition of easements or property for trails or trail corridors; (6) assessment of trail conditions for accessibility and maintenance; (7) development and dissemination of publications and operation of educational programs to promote safety and environmental protection (as those objectives relate to one or more of the use of recreational trails, supporting non-law enforcement trail safety and trail use monitoring patrol programs, and providing trail-related training), (limited to 5 percent of a State's funds); and (8) State administrative costs related to this program (limited to 7 percent of a State's funds). Funds may not be used for: property condemnation; constructing new trails for motorized use on National Forest or Bureau of Land Management lands unless the project is consistent with resource management plans; or facilitating motorized access on otherwise non motorized trails. The USDOT encourages States to enter into contracts and cooperative agreements with qualified youth conservation or service corps to perform construction and maintenance of recreational trails under this program.

Applicant Eligibility:

The Governor of each State must designate the State agency or agencies responsible for administering this program. The State must have a State recreational trail advisory committee that represents both motorized and nonmotorized recreational trail users, which shall meet not less than once per fiscal year. The State agency may accept project proposals from private organizations, or from municipal, county, State, or Federal government entities, and other government entities. The projects must satisfy one or more of the permissible uses.

Beneficiary Eligibility:

The State agency designated by the Governor.

Credentials/Documentation:

Allowable costs will be determined in accordance with applicable cost principles listed in 49 CFR Part 18.22 for the kind of organization receiving the grant or subgrant.

Preapplication Coordination:

Some States require preapplication submittals. Trail and trail-related projects must be planned and developed under the laws, policies, and administrative procedures within each State, and be identified in, or further a specific goal of, a recreational trail plan, or a statewide comprehensive outdoor recreation plan required by the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601 et seq.), that is in effect. This program is excluded from coverage under E.O. 12372.

Application Procedure:

The States must submit project proposals to the FHWA division office located in each State for approval. The State may submit individual projects or consolidate similar projects for the purposes of program approval. FHWA approval

constitutes a commitment to pay the Federal share of the project's cost. The State's projects also must be included in State transportation improvement programs and applicable metropolitan transportation improvement programs.

Award Procedure:

The State agency or agencies designated by the Governors decide which projects will be developed within funding levels, but the FHWA division office located in each State makes the final decision on the eligibility of specific projects for funding.

Deadlines:

There are no Federal deadlines for funding requests. Each State establishes deadlines for projects within that State.

Range of Approval/Disapproval Time:

From 5 days to 5 months.

Appeals:

None.

Renewals:

None.

Formula and Matching Requirements:

Funds are distributed to the States by statutory formula: 50 percent of the funds are apportioned equally among all States, and 50 percent are apportioned in proportion to the estimated amount of non highway recreational fuel use in each State. In general, the Federal share is determined in accordance with 23 U.S.C. 120(b); generally 80%, with higher Federal shares in States with larger proportions of Federal lands. A Federal agency project sponsor may provide additional Federal funds, provided the total Federal share does not exceed 95 percent. Funds from any other Federal program may be used for the non Federal match if the project also is eligible under the other program. Recreational Trails Program funds may be used to match other Federal funds if the project also is eligible under the other program. States also may allow a programmatic match: if some project sponsors in a State provide more match funds than required, other sponsors in the State may provide less. Some in-kind materials and services may be credited toward the project match. States may allow some pre-approval planning and environmental assessment costs toward the project match.

Length and Time Phasing of Assistance:

Funds generally become available at the beginning of the fiscal year for which they are authorized, and must be obligated within 3 years after the close of that fiscal year.

Reports:

Generally, the FHWA division office in each State monitors and reviews State projects and programs.

In accordance with the provisions of OMB Circular No. A- 133 (Revised, June 27, 2003), Audits of State, Local Governments, and Nonprofit Organizations, nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 in a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Project records and documents must be retained by the State for 3 years following the final submission for Federal payment in accordance with 49 CFR 18.41.

Account Identification:

69-8083-0-7-401.

Funding is apportioned on the basis of legislative formulas. For urbanized areas with populations 50,000 to 199,999 the formula is based on population and population density, and performance statistics for those areas eligible for funding under the Small Transit Intensive Cities formula. For urbanized areas with populations of 200,000 or more, the formula is based on a combination of bus revenue vehicle miles, bus passenger miles, fixed guideway revenue miles, and fixed guideway route miles as well as population and population density. Also, funding made available to an urbanized under the Growing States and High Density States formula factors (49 USC 5340) are combined with funds apportioned to an area under the Urbanized Area Formula program. The program operates under the statutory formula prescribed in 49 USC 5336. The Federal share is not to exceed 80 percent of the net project cost. The Federal share may be 90 percent for the cost of vehicle-related equipment attributable to compliance with the American with Disabilities Act and the Clear Air Act. The Federal share may also be 90 percent for projects or portions of projects related to bicycles facilities. The Federal share may not exceed 50 percent of the net cost for operating assistance.

Eighty percent are allocated by the ration of nonurbanized population of each State to the nonurbanized population of all of the states. In addition to the funds made available to States under section 5311, approximately 16 percent of the funds authorized for the new section 5340 Growing States and High Density States formula factors will be apportioned to States for use in nonurbanized areas. Rural Transit Assistance Program (RTAP) is funded as a two percent takedown from the amount authorized and appropriated for Section 5311 and can be used for technical assistance, training. Research and related support activities. From the amounts made available for RTAP, up to 15 percent may be used by the Secretary to carry-out projects of national scope with the remaining balance to the states. Funds are allocated annually based on an administrative formula that provides a base amount to each state and allocates the balance according to the nonurbanized area population. The maximum Federal share eligible capital and project administration costs is 80 percent, except for three categories of projects that can be funded at 90 percent share: projects designed specifically to increase the accessibility of public transportation to bicycles and vehicle related equipment required to comply with the ADA or the Clean Air Act. The maximum FTA share for operating assistance is 50 percent of the net operating deficit. Other Federal funds may be used for half of the local match requirement. Income from purchase of service contracts with human service agencies may be used for the entire local share for operating assistance. There is no matching requirement for RTAP or for state administration.

Length and Time Phasing of Assistance:

Funds are apportioned annually to the States. Sums apportioned are available for obligation by the State designated agency for a period of 2 years following the close of the fiscal year for which sums are apportioned, and amounts remaining unobligated at the end of such period shall be apportioned among the States for the succeeding fiscal year. EXAMPLES OF FUNDED PROJECTS:

Selective traffic enforcement programs, both at the State and local level - Funds were used for equipment (police vehicles, communications, speed detection devices, breath testing devices, etc.), training of police personnel, and overtime salaries. Upgrading of Emergency Medical Services (EMS) at the local level: Funds were used for training of emergency medical personnel improved ambulance medical equipment, survey of EMS needs, and salaries for statewide EMS coordinators. Programs to reduce alcohol-related crashes: Funds were used for studies to identify the magnitude of the problem, personnel services (police, investigators, and court personnel), equipment (breath testing devices, radar equipment), and training of involved personnel to detect the drinking driver and to use testing equipment. Traffic records system improvement projects: Funds were used for survey of needs and requirements, system designs, system implementation, ADP equipment and supplies, traffic records, personnel, and training. Occupant Protection programs: Funds were used to develop and distribute public information and education materials relating to the use of safety belts and infant/child safety seats, and the implementation of infant/child safety seat loaner programs. CRITERIA FOR SELECTING PROPOSALS:

The Federal/State relationship for the highway safety grant program is a partnership. Each State is given flexibility in the administration of its own highway safety program. Federal funds are obligated in support of a highway safety program based on problems identified by the State. States have latitude in determining projects upon which they spend their Federal monies.

20.601 ALCOHOL TRAFFIC SAFETY AND DRUNK DRIVING PREVENTION INCENTIVE GRANTS

FEDERAL AGENCY:

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION,
DEPARTMENT OF TRANSPORTATION

AUTHORIZATION:

Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) of 2004, Section 2007, Public Law 109-59, as amended, 23 U.S.C. 410.

OBJECTIVES:

To encourage States to adopt effective programs to reduce crashes resulting from persons driving while under the influence of alcohol and other controlled

substances.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

Incentive grant funds are available to States to implement effective programs to reduce drunk and drugged driving, in compliance with established criteria.

Applicant Eligibility:

States, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands. States are provided with two alternative means to qualify for a Section 410 grant. Under the first alternative, States may qualify as a low fatality rate State if they have an alcohol-related fatality rate of 0.5 or less per 100 million vehicle miles traveled (VMT). Under the second alternative, States may qualify as a programmatic State if they demonstrate that they meet three of eight grant criteria for fiscal year 2006, four of eight grant criteria for fiscal year 2007, and five of eight grant criteria for fiscal years 2008 and 2009. Qualifying under both alternatives would not entitle the State to receive additional grant funds. SAFETEA-LU directs that States with low alcohol-related fatality rates, based on the agency's Fatality Analysis Reporting System (FARS), be awarded grants without the need to satisfy any of these programmatic criteria. There is also an additional Section 410 grant available to assist the 10 States with the highest impaired driving related fatalities as determined by the most recent FARS data.

Beneficiary Eligibility:

State Highway Safety Agency.

Credentials/Documentation:

State submits certification and application that it meets eligibility requirements; after being informed by the National Highway Traffic Safety Administration (NHTSA) that it is eligible for a grant, State submits to the agency a plan that describes the programs the State will implement using the funds.

Preapplication Coordination:

Low fatality rate States: Prior to the start of the application period (on or about June 1 of that fiscal year), the agency will inform States that qualify for a grant based on low fatality rates. These States will not be required to submit an application demonstrating compliance with the programmatic requirements. They will, however, be required to submit information that identifies how the grant funds will be used in accordance with the requirements of SAFETEA-LU. If the agency experiences a delay in making fatality rate information available, all States should prepare and submit information demonstrating compliance with the required number of programmatic criteria. A State should not assume qualification for Section 410 funding as a low fatality rate State until the information is made available by the agency. Programmatic states: To qualify for a Section 410 grant in FY 2006 based on programmatic criteria, SAFETEA-LU requires a State to demonstrate compliance with three of the following eight criteria: A high visibility impaired driving enforcement program; a prosecution and adjudication outreach program; a BAC testing program; a high-risk drivers program; an alcohol rehabilitation or DWI court program; an underage drinking prevention program; an administrative driver's license suspension or revocation system; and a self-sustaining impaired driving prevention program. States will be required to meet four of eight criteria to qualify in FY 2007 and five of eight criteria to qualify in each subsequent fiscal year. High Fatality Rate States: Any State that is determined to have one of the ten highest fatality rates will be eligible for a separate grant under Section 410. The agency will calculate the alcohol fatality rate per 100 million vehicle miles traveled (VMT) for each State using the most recent final FARS data available prior to the date of the grant. A qualifying high fatality rate State would be required to submit a plan that details expenditures for the funding provided. NHTSA Regional Administrator coordinates qualification process with Office of Injury Control Operations and Resources. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure:

State submits certification and application that it meets eligibility requirements; after being informed that it is eligible for a grant, State submits to the agency a plan that describes the programs the State will implement using the funds.

Award Procedure:

The State submits information that reflects its eligibility for the award based on the criteria for which it is applying. NHTSA staff review the information to determine the eligibility of the State. If the State is deemed eligible to receive an award, it will be notified by the Region and will also receive an official letter of award from the NHTSA Administrator. The release of grant funds shall be subject to the availability of funds for that fiscal year.

Deadlines:

Applications would be required to be submitted to the agency no later than August 1 of the fiscal year in which the States are applying for grant funds.

Range of Approval/Disapproval Time:

Applicant should receive a response, from the agency, between 30 to 90 days.

Appeals:

Not applicable.

Renewals:

States are eligible for up to 4 years under the 410 program. Certification and plan must be approved each year.

Formula and Matching Requirements:

Authorizes \$515 million for Fiscal Years 2006-2009. No more than 15 percent of Section 410 funding in a fiscal year shall be made available for High Fatality Rate Grants. High Fatality Rate Grants will be allocated to States that qualify on the basis of the Section 402 apportionment, except that no State may receive more than 30 percent of the funds available for this subsection. After a deduction for High Fatality Rate Grants, available Section 410 funds will be allocated to States that qualify under the Low Fatality Rate or Programmatic Criteria on the basis of the Section 402 apportionment. The Federal share of programs funded under this section shall not exceed 75 percent in the first and second years in which a State receives a grant, and 50 percent in the third and fourth years in which a State receives a grant. The Secretary may transfer any amounts remaining available under Sections 405, 408, and 410 to the amounts made available under any other of these programs to ensure, to the maximum extent possible, that each State receives the maximum incentive funding for which it is eligible. This program has MOE requirements; see funding agency for further details.

Length and Time Phasing of Assistance:

Federal share is reimbursed on claims submitted in vouchers covering costs incurred. All participants have converted to the Electronic Transfer of Funds method. Funds placed in obligation are available until expended.

Reports:

Annual program plan for next year's funding must include a progress report on the prior year's program and accomplishments.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), Audits of States, Local Governments, and Nonprofit Organizations, nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Range and Average of Financial Assistance:

\$258,000 to \$9,770,407.

PROGRAM ACCOMPLISHMENTS:

Implementation of impaired driving activities found in the Programmatic Criteria section, as well as costs for high visibility enforcement; the costs of training and equipment for law enforcement; the costs of advertising and educational campaigns that publicize checkpoints, increase law enforcement efforts and target impaired drivers under 34 years of age; the costs of a State impaired operator information system, and the costs of vehicle or license plate impoundment. In FY 2007, 50 states and Puerto Rico received grants.

The Federal Pipeline Safety Law authorizes Federal reimbursement of up to 50 percent of a State's expenditure during the year for personnel, equipment, and activities reasonably required by the State agency for the conduct of its pipeline safety program. The Law further stipulates that the State expenditures in any given year, without Federal assistance, cannot be less than the average amount expended by the State for gas pipeline safety during fiscal years 1967 and 1968 and for the last 2 fiscal years preceding the date of enactment of the Pipeline Safety Acts. The State agency must also agree to provide the remaining cost of the safety program(s). Within these limitations, the available funds are allocated by a method designed to reflect the degree to which a State has met certain goals established. The allocation is determined by assigning point values to the States for having achieved certain levels of program participation, dividing this point score by the sum of the States' point scores, and multiplying this ratio by the amount available for the distribution. PHMSA distributed the remaining funds according to certain criteria designed to seek improvements in State programs. The criteria used by PHMSA were the extent of intrastate jurisdiction, inspector qualifications, recommended number of inspection person-days, State adoption of applicable Federal regulations, and other relevant criteria. In 2006, the Federal allocations represented 42 percent of the estimated State requests in the natural gas program (range: 37 to 43 percent) and the Federal allocations represented 42 percent of the estimated State requests in the hazardous liquid program (range: 34 to 43 percent).

Length and Time Phasing of Assistance:

Expenditures made by a State during the calendar year are eligible for Federal reimbursement. States receiving Federal assistance submit claims for reimbursement in July for the Federal share of the cost of actual expenditures between January 1 and June 30 of the year, and in January for Federal share of the cost of actual expenditures between July and December 31 of the year.

20.703 INTERAGENCY HAZARDOUS MATERIALS PUBLIC SECTOR TRAINING AND PLANNING GRANTS

(Hazardous Materials Emergency Preparedness Training and Planning Grants, (HMEP))

FEDERAL AGENCY:

PIPELINE AND HAZARDOUS MATERIALS SAFETY ADMINISTRATION,
DEPARTMENT OF TRANSPORTATION

AUTHORIZATION:

Federal Hazardous Materials Transportation Act, 49 U.S.C. 5105 et seq.

OBJECTIVES:

To increase State, local, territorial and Native American tribal effectiveness to safely and efficiently handle hazardous materials accidents and incidents; enhance implementation of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA); and encourage a comprehensive approach to emergency planning and training by incorporating response to transportation standards.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

The grant program will be used to increase the emphasis on transportation in ongoing efforts and to improve the capability of communities to plan for and respond to the full range of potential risks posed by accidents and incidents involving hazardous materials. The grants have two principal uses: First, to assist States, Territories and Native American Tribes in developing, improving and implementing emergency response plans under EPCRA; including the determination of flow patterns of hazardous materials within a State, between States and Native American lands; determining the need for regional hazardous materials response teams. Second, to stimulate support for training of Public Sector employees to respond to accidents and incidents involving hazardous materials.

Applicant Eligibility:

States, U. S. Territories and Federally recognized Native American Tribes may apply for either or both planning and training grants. The Governor or Official of each eligible applicant has been asked to designate an agency responsible for managing the program. DOT will work with the designated organization.

Beneficiary Eligibility:

All segments of the U.S. including Territories and Native American tribal populations that are involved with management of or possible exposure to

hazardous materials are benefited. Specifically Federal, State, and local responsibilities are assisted through the HMTA grant program. Students and trainees in emergency response and local emergency planning activities are program beneficiaries since grant funds will be used to benefit local programs.

Credentials/Documentation:

Applicants must certify that they meet or exceed a nonfederal maintenance of effort level equivalent to the average of aggregate nonfederal applicant expenditures for the preceding 2 years. They must also certify that the State, Territory or Native American Tribe is complying with sections 301 and 303 of EPCRA. Those States, Territories or Native American Tribes must agree to make at least 75 percent of the Federal planning funds awarded available to Local Emergency Planning Committees (LEPCs) for developing, improving, or implementing emergency plans, and 75 percent of the benefit of training funds available to local emergency responders.

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." Applicants are to complete and submit an original and 1 copy of Standard Form 424. The application must follow guidance provided in the HMEP Application Kit that was transmitted to the Governor's designated agency in each State, Territory or Native American Tribe. The kit may be obtained from the HMEP Grants Manager. However, nonfederal cost sharing of at least 20 percent of total project costs is required under provisions of HMEP, Section 117A(d). This program has maintenance of effort requirements; see funding agency for further details.

Length and Time Phasing of Assistance:

The length of project periods may extend from time of initial award through fiscal year 2010; however phased accomplishments or budget periods will limit the time frame for the funds awarded. Applicant Eligibility:

Length and Time Phasing of Assistance:

The period of time for awards will vary with the complexity of the project. Minimum grant duration is one year. The statute limits use of grant funds for air carrier subsidy to a maximum period of three years. The same limitation applies to other forms of ongoing support for air carrier programs. APPALACHIAN REGIONAL COMMISSION

23.001 APPALACHIAN REGIONAL DEVELOPMENT (SEE INDIVIDUAL APPALACHIAN PROGRAMS)

(Appalachian Program)

FEDERAL AGENCY:

APPALACHIAN REGIONAL COMMISSION

AUTHORIZATION:

Appalachian Regional Development Act of 1965, Public Law 89-4, as amended, 40 U.S.C. 14101-14704; Appalachian Regional Development Act Amendments of 2002, Public Law 107-149.

OBJECTIVES:

To help the regional economy become more competitive by putting in place the building blocks for self-sustaining economic development, while continuing to provide special assistance to the Region's most distressed counties and areas. This program focuses on activities which support ARC's mission to be a strategic partner and advocate for sustainable community and economic development. Activities funded must advance ARC's strategic plan. Specific program goals are: (1) Increase job opportunities and per capita income in Appalachia to reach parity with the nation; (2) Strengthen the capacity of the people of Appalachia to compete in the global economy; (3) Develop and improve Appalachia's infrastructure to make the Region economically competitive; and (4) Build the Appalachian Development Highway System to reduce Appalachia's isolation. Specific objectives were developed for each goal. Grants are made either directly by the Commission or grants may supplement other Federal grants.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

Appalachian funds enable the States and local areas to develop networks of facilities and services. Individual programs following this description illustrate the types of investments that can be made. In considering programs and projects to be given assistance under this Act, and in establishing a priority ranking of the requests for assistance presented to the Commission (ARC), the ARC follows procedures insuring consideration of the following factors: (1) The relationship of the project or class of projects to overall regional development and the reduction of economic distress; (2) the population and area to be served including the relative per capita income and the unemployment rates in the area; (3) the relative financial resources available to the State or political subdivision or instrumentalities thereof which seek to undertake the project; (4) the importance of the project or class of projects in relation to other activities which may compete for the same funds; (5) the prospects that the project for which assistance is sought will improve the opportunities for sustained employment, income growth, or socioeconomic development of the area; and (6) the degree and manner of private sector involvement. No financial assistance can be used to assist establishments relocating from one area to another. Each State is required to file a State Appalachian development plan, appraising prospects for development in its Appalachian area and relating to them a strategic program for which Appalachian funding is requested in that year. Once an application is submitted for the individual projects and given final approval, the grant is administered either by the basic Federal agency involved in that type of program or directly by the ARC. The counties (including any political subdivision located within such area) in which investment under the Appalachian Act (40 U.S.C. 14102) can be made are: in Alabama, the counties of Bibb, Blount, Calhoun, Chambers, Cherokee, Chilton, Clay, Cleburne, Colbert, Coosa, Cullman, DeKalb, Elmore, Etowah, Fayette, Franklin, Hale, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Limestone, Macon, Madison, Marion, Marshall, Morgan, Pickens, Randolph, Saint Clair, Shelby, Talladega, Tallapoosa, Tuscaloosa, Walker, and Winston; in Georgia, the counties of Banks, Barrow, Bartow, Carroll, Catoosa, Chattooga, Cherokee, Dade, Dawson, Douglas, Elbert, Fannin, Floyd, Forsyth, Franklin, Gilmer, Gordon, Gwinnet, Habersham, Hall, Haralson, Hart, Heard, Jackson, Lumpkin, Madison, Murray, Paulding, Pickens, Polk, Rabun, Stephens, Towns, Union, Walker, White, and Whitfield; in Kentucky, the counties of Adair, Bath, Bell, Boyd, Breathitt, Carter, Casey, Clark, Clay, Clinton, Cumberland, Edmonson, Elliott, Estill, Fleming, Floyd, Garrard, Green, Greenup, Harlan, Hart, Jackson, Johnson, Knott, Knox, Laurel, Lawrence, Lee, Leslie, Letcher, Lewis, Lincoln, McCreary, Madison, Magoffin, Martin, Menifee, Monroe, Montgomery, Morgan, Owsley, Perry, Pike, Powell, Pulaski, Rockcastle, Rowan, Russell, Wayne, Whitley, and Wolfe; in Maryland, the counties of Allegany, Garrett, and Washington; in Mississippi, the counties of Alcorn, Benton, Calhoun, Chickasaw, Choctaw, Clay, Itawamba, Kemper, Lee, Lowndes, Marshall, Montgomery, Monroe, Noxubee, Oktibbeha, Panola, Pontotoc, Prentiss, Tippah, Tishomingo, Union, Webster, Winston, and Yalobusha; in New York, the counties of Allegany, Broome, Cattaraugus, Chautauq, Chemung, Chenango, Cortland, Delaware, Otsego, Schoharie, Schuyler, Steuben, Tioga, and Tompkins; in North Carolina, the counties of Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Cherokee,

Beneficiary Eligibility:

General public.

Credentials/Documentation:

(See individual Appalachian program descriptions.)

Preapplication Coordination:

General Nature and Administration of Appalachian Regional Development Program. The Appalachian Regional Development program is a joint Federal-State partnership for the development of the Appalachian region. Responsibility for the development of plans and programs authorized under the Act is vested in the ARC, composed of the 13 State Governors (who may appoint alternates) and a Federal Co-Chairman. General policies and procedures, and the allocation of Appalachian funds among the various programs and States are established by the ARC. Application for assistance may only be made through a State member of the ARC. The State Alternate's Offices are the coordinators for the Governors for Appalachian investments. Preapplication conferences can determine within a few weeks if the project conforms to the State Appalachian Development Plan. The appropriate local development district director should be the first contact. The State Alternate's Offices will provide guidance on specific problems and technical assistance in the preparation of applications. (See individual Appalachian program descriptions.) This program is excluded from coverage under E.O. 12372.

Application Procedure:

Applications for individual projects must be submitted through and with the approval of the State Alternate to the Appalachian Regional Commission (listed in the appendix). (See individual Appalachian program description.)

Award Procedure:

Upon receipt of project applications approved by the State, the Federal Co-Chairman determines that the project satisfies all requirements for assistance under the Act and approves the application. If a basic Federal agency will administer the project, it is then notified and will disburse funds when appropriate. The ARC notifies Congressional offices and the office of the Governor of grant awards. (See individual Appalachian program descriptions.)

Deadlines:

(See individual Appalachian Program descriptions.)

Range of Approval/Disapproval Time:

(See individual Appalachian program descriptions.)

Appeals:

There are no appeal procedures as such, project review allows for full and free interchange with applicants.

Renewals:

Generally renewals are not applicable except for administrative expenses, including technical services, of local development districts (23.009).

Length and Time Phasing of Assistance:

Not applicable except for operating assistance beyond start-up and the first year of operation.

Reports:

Reporting and performance monitoring as required by the basic Federal agency or ARC for those programs directly administered by the Commission. The Commission requires semi-annual reports of local development districts and technical assistance grants and annual reports on housing grants. (See individual Appalachian program descriptions.)

Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

USES AND USE RESTRICTIONS:

The grants may be used for providing supplemental funds under Federal grant-in-aid programs. To be eligible for special basic grants, projects must be of high priority in the State's Appalachian development plan and be either of critical importance to a phased investment and development program for a multicounty area, or of unusual economic benefit to such area. Refer to "General Provisions for Area Development Program" of the Appalachian Regional Commission Code for additional use restrictions.

Applicant Eligibility:

States, their subdivisions and instrumentalities and private nonprofit agencies.

Beneficiary Eligibility:

General public.

Credentials/Documentation:

Any finding, report, certification, or documentation required to be submitted to the head of the department, agency, or instrumentality of the Federal Government responsible for the administration of the basic Federal grant-in-aid program shall be accepted by the Federal Co-chairman with respect to a supplemental grant for any project under such program. If a basic Federal agency will administer the project it is then notified and will disburse the grant funds when appropriate. The ARC notifies Congressional Offices and the Office of the Governor of grant awards.

For projects in counties designated as competitive (those that are approaching national economic norms), funding is usually limited to 30% of project costs. Funding is usually not available for projects located in counties that have attained or exceeded national economic norms. If otherwise eligible for funding, projects involving construction assistance for housing under the Appalachian Regional Development Act (ARDA) (40 U.S.C. 14503) cannot exceed 10% of total project costs regardless of location. Health operations continuation projects under ARDA (40 U.S.C. 14502) are limited to 75% of project costs after the second year of operations, even in distressed counties. The ARC Code and "Appalachian Regional Commission Project Guidelines" furnish details.

accordance with State Highway department and Federal Highway Administration procedures.

Preapplication Coordination:

An environmental impact statement is required for this program. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. The Federal Highway Administration provides the ARC with periodic reports on the progress and status of projects. Each participating State makes fiscal year reports to the Commission of its allocations expected to be obligated during the fiscal year with the following information concerning each project to be funded: highway corridor segment description, project number, type of work, and estimated cost.

Audits:

The Federal Highway Administration, DOT, supervises audits for the Commission. In accordance with the provisions of OMB Circular No. A-133 (revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. USES AND USE RESTRICTIONS:

Individuals are protected from discrimination on the basis of race, color, religion, sex and national origin by employers with 15 or more employees, by Federal, state, and local governments, by employment agencies, and by labor organizations. Charges of discriminatory employment practices by or on behalf of an individual or group of individuals claiming to be aggrieved are received. Mediation of the dispute may be offered. If mediation is not used or is not successful, investigations ensue. If reasonable cause is not found, the Commission issues a right to sue letter. If reasonable cause is found, the charge is conciliated. If conciliation proves to be unsuccessful and the employer is not a State or local government, the Commission may bring a civil action against respondent(s) named in the charge or issue a right to sue letter. If conciliation fails on a charge against a State or local government, EEOC refers the case to the Department of Justice for consideration of litigation or issuance of a right to sue letter.

Applicant Eligibility:

Any aggrieved individual, or any individual, labor union, association, legal representative, or organization filing on behalf of an aggrieved individual, who has reason to believe that an unlawful employment practice within the meaning of Title VII, as amended, has been committed by an employer with 15 or more employees, an employment agency, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining. Award Procedure:

A charge is sufficient when the Commission receives from the person making the charge a written statement sufficiently precise to identify the parties and to describe generally the action or practices complained of.

Deadlines:

Individuals with complaints or desiring to bring their own suit under Title VII must file a charge of discrimination alleging discrimination with the EEOC within 180 days of the alleged unlawful practice (or within 300 days if there is a State or local agency with its own discrimination law and authority to grant relief). When EEOC completes its investigation without obtaining relief for persons covered by a charge, covered persons will be given written notice of their right to sue. Persons can also request a notice of right to sue before EEOC finishes its investigation after the charge has been on file 180 days. When a right to sue is issued on request, EEOC usually stops investigating. Suit must be brought within 90 days of receipt of the notice of right to sue.

OBJECTIVES:

To prohibit age discrimination in hiring, advancement in employment, terms and conditions, and other employment practices, promote the employment of older workers based on ability rather than age, and help employers and employees find ways to meet problems arising from the impact of age on employment.

TYPES OF ASSISTANCE:

Advisory Services and Counseling; Investigation of Complaints.

USES AND USE RESTRICTIONS:

Individuals 40 years of age and older are protected from age discrimination by private employers who have 20 or more employees, by Federal and local governments, by employment agencies and by labor organizations. It is unlawful for employers, employment agencies, or labor organizations to use advertisements indicating any preference, limitation, specification, or discrimination based on age. Exceptions to the Act's provisions are provided where age is a bona fide occupational qualification, the differentiation is based on reasonable factors other than age or if an otherwise prohibited practice is in observance of the terms of a bona fide seniority system or employee benefit plan (except that no such seniority system or employee benefit plan shall excuse the failure to hire, or require or permit the involuntary retirement of any individual).

Exemptions are provided for the mandatory retirement of bona fide executive and high policy making employees 65 years of age and older who are entitled to at least \$44,000 a year from a retirement plan. Some maximum hiring ages and mandatory retirement are permitted for police and firefighters. The EEOC may establish such reasonable exemptions as it may find necessary and proper in the public interest. Charges of discriminatory employment practices by or on behalf of an individual or group of individuals claiming to be aggrieved are received. Mediation of the dispute may be offered. If mediation is not used or is not successful, investigations ensue and if reasonable cause is found, the charge is conciliated. If conciliation proves to be unsuccessful the Commission may bring a civil action against respondent(s) named in the charge.

Applicant Eligibility:

Individuals age 40 and over who believe that they have been discriminated against because of age or who believe that such discrimination is occurring against others 40 and over.

Charges may be filed either by mail or in person at the appropriate field office of the EEOC. (The names of persons making inquiries are held in confidence if requested.)

Award Procedure:

A charge is sufficient when the Commission receives from the person making the charge a written statement sufficiently precise to identify the parties and to describe generally the action or practices complained of.

Deadlines:

Individuals who wish to assert their rights under the Age Act must file a charge with the Commission or its designated agent within 180 days of the alleged discriminatory action (or in a case where the alleged discrimination occurs in a State which has its own age discrimination law, within 300 days of the alleged discriminatory action, or 30 days after receipt of notice of termination of State proceedings, whichever is earlier). A civil action may be commenced at any time 60 days after a charge has been filed with the EEOC. When EEOC completes its investigation without obtaining relief for persons covered by a charge, covered persons will be given written notice of their right to sue. A civil action may be brought within 90 days after the date of the receipt of such notice.

39.012 PUBLIC BUILDINGS SERVICE

FEDERAL AGENCY:
GENERAL SERVICES ADMINISTRATION, PUBLIC BUILDINGS SERVICE

AUTHORIZATION:
Public Law 110-161, Consolidated Appropriations Act, 2008; Division D-Financial Services and General Government Appropriations Act, 2008; Title V, General Services Administration.

OBJECTIVES:
To cultivate innovative regional coordination, design, and planning practices for accommodating federal offices in the Washington region over the next half-century. Decisions about the form, nature, and location of federal work will have a tremendous influence on the long-term social, economic, environmental,

and cultural health of the region. Developing an urban planning vision for how to locate and develop federal work places will require close collaboration with both public and private stakeholders. The federal government seeks to encourage this effective regional coordination and plan intelligently, guided by mutual regional concerns such as sustainability, energy consumption, transportation infrastructure, security, new technologies, including those that facilitate telework opportunities, as well as the changing regional economics of land, housing, and workforce issues. In order to promote a guiding vision for the future of federal work in the Washington region, the General Services Administration's (GSA) Public Building Service (PBS) will award competitive grants in the range of \$50,000 to \$500,000 for coordination, planning, and research efforts that explore fundamental questions related to the form, location, and design of federal offices over the next 10 to 50 years in the National Capital Region. The maximum aggregate value of the grants is \$500,000. Regarding the above, the government may choose to fund multiple proposals that take very different approaches to these issues, if such proposals meet the government's interests.

TYPES OF ASSISTANCE:

Provision of Specialized Services.

USES AND USE RESTRICTIONS:

Through this competitive grant opportunity, GSA seeks to facilitate the research and coordination efforts that would help regional stakeholders better understand how long-term federal facility needs may be met in concert with long range regional transportation, housing, employment, telework opportunities, sustainability, and socio-economic goals and trends; the range of risks and opportunities affecting federal facility siting and development decisions; and the long-range planning and coordination needed to meet related regional challenges. The envisioned grants may be for the purposes of directly assisting in the coordination of long-term federal workplace siting decisions with regional stakeholders; providing the research needed to better inform such coordination; or a combination of the above purposes. GSA is not soliciting positions on policy issues pending before Congress, the executive branch, or other domestic bodies and will not fund grant proposals of a partisan political nature. However, projects that lead to policy recommendations for governments, international organizations, or nongovernmental organizations are welcome and indeed encouraged, although such recommendations will be those of the grantee and not GSA.

Applicant Eligibility:

Institutions of higher education, nonprofit organizations, commercial organizations, State or local governments, or individuals with experience in the analysis or coordination of the planning issues described above. Joint ventures between any of these types of entities are welcome.

Beneficiary Eligibility:

Institutions of higher education, nonprofit organizations, commercial organizations, State or local governments, or individuals with experience in the analysis or coordination of the planning issues described above.

Credentials/Documentation:

Applicants who wish to be considered for these competitive grants must submit a grant proposal that includes an executive summary describing the proposed work; an SF-424 Facesheet, as referenced in OMB Circulars A-102 and A-110, a description of proposed work, detailed explanation of your funding request in a SF-424a, as referenced in Circulars A-102 and A-110; a description of the grantee's prior experience; and three references outside of the requesting entity who the government may contact as a reference for the entity's past performance.

CRITERIA FOR SELECTING PROPOSALS:

GSA will give preference to those proposals that it believes would best promote the purpose stated in Public Law 110-161 to encourage better understanding and coordination among State and local governments, the commercial sector, and other major stakeholders in the region about federal facilities siting decisions and long term regional needs and trends, as described above. Additionally, important factors for consideration of the grant proposals will include assessment of the following: The potential for effective use by relevant stakeholders, including the federal and regional governments, the private sector, and other key regional decision makers; the potential to advance regional understanding or coordination in a new or creative way; the ability of the requesting organization to deliver their proposed work effort; how the proposed grant funding would be leveraged by other investments or efforts, to maximize its effect; and how the proposed work supports GSA's mission and goals of leveraging the buying power of the federal government to acquire best value for taxpayers and our federal customers to deliver superior workplaces. Finally, GSA will consider the totality of submitted proposals and award grants based, in part, on how the collective body of work proposed by all the grantees would best advance the goals expressed in this grant opportunity.

40.002 GOVERNMENT PUBLICATIONS SALES AND DISTRIBUTION

(The Government Bookstore)

FEDERAL AGENCY:

GOVERNMENT PRINTING OFFICE

AUTHORIZATION:

44 U.S.C. 17.

OBJECTIVES:

To make U.S. Government publications available for purchase.

TYPES OF ASSISTANCE:

Sale, Exchange, or Donation of Property and Goods; Dissemination of Technical Information.

USES AND USE RESTRICTIONS:

The United States Government Printing Office, Information Dissemination Department (Superintendent of Documents), is an authorized sales agent for information published by the various departments and agencies of the Federal Government. Approximately 5,860 titles covering nearly every field of interest are available for purchase at nominal prices. If purchasers order 100 copies or more of one publication to be mailed to a single address, they will receive a 25 percent discount. Bookdealers, regardless of the quantity purchased, will be allowed a 25 percent discount when the publications, pamphlets, periodicals or subscription services are mailed, delivered, or forwarded to the dealer's normal place of business. No discounts are allowed when the publication, pamphlet, periodical, or subscription service is mailed to a third party (unless in quantities of 100 or more), or on those periodicals and subscription services which fall into a special pricing category as noted in, "U.S. Government Subscriptions" which is described below. Generally speaking, there are no restrictions on reprinting or quoting from U.S. Government Publications, as the code of laws of the United States provides that they cannot be copyrighted. However, Government publications occasionally contain copyrighted material which was used with permission of the copyright owner, and publication in a Government document does not authorize any use or appropriation of such copyright material without the consent of the owner. As the Government Printing Office serves merely as a printing and distribution agency for Government publications and has no jurisdiction over their content or subject matter, it is suggested that the originating department or agency or its successor be consulted prior to reprinting or quoting from any given publication. In those instances in which permission to reprint material from Government publications is granted, customary credit should be given to the Government Department which prepared the material. By law, every publication printed through the GPO, whether it is designated for sale or not, must be cataloged and indexed. The "Monthly Catalog of United States Government Publications" is produced to fulfill this obligation. The approximately 5,860 titles sold by the Superintendent of Documents include about 358 subscription services. These subscription items are listed in the Superintendent of Documents, "U. S. Government Subscriptions," <http://bookstore.gpo.gov/collections/subscriptions/index.jsp> which is revised quarterly. All titles sold by GPO are listed in maybe browsed by subject at <http://bookstore.gpo.gov>. The Sales Product Catalog list the entire inventory. The Sales Product Catalog is on the Internet at: <http://bookstore.gpo.gov>.

OBJECTIVES:

To insure that technologies resulting from Government-sponsored civilian aerospace research and development are made available to the widest extent practicable and appropriate for the Nation's benefit.

TYPES OF ASSISTANCE:

Dissemination of Technical Information.

USES AND USE RESTRICTIONS:

Discoveries, innovations, inventions, and improvements developed throughout the aeronautics and space program are brought to the attention of private industry, academic institutions, and Federal, State and local government organizations in several ways. These technologies can be accessed with NASA's TechTracS data system via the Internet. NASA Tech Briefs is a monthly periodical with an industrial readership of approximately 500,000 containing articles which describe such innovations. Subscription is currently free to qualified engineers, scientists and business people in U.S. industry and to technology transfer agents. NASA technology transfer offices at NASA field centers work with public sector organizations, medical institutions, industry associations and others to identify problems of national scope and significance suitable for joint-sponsored NASA/industry applications engineering projects. The objective of such projects is to apply or otherwise adapt existing aerospace technology to meet identified non-aerospace needs in the public and private sectors of the Nation's economy.

Applicant Eligibility:

Engineers and managers of domestic enterprises, professionals, and others involved in technology transfer are entitled to free subscriptions to NASA Tech Briefs. Technical information search and retrieval services beyond that available via the Internet (<http://www.nasatech.com>), and NASA-owned computer programs/documentation are available to domestic organizations on a free or paying basis. Technology Transfer products are available to those who can demonstrate a national public need and would be served by applying NASA technology.

PROGRAM ACCOMPLISHMENTS:

The NASA Innovative Partnerships Program has helped many industrial, educational, and government organizations develop new products, increase productivity, reduce costs, and improve the quality of life for US citizens. Typically, the IP Program provides user access to aerospace technology in support of technical problem solving. For example, sensor technology, microelectronics and telemetry systems have been adapted and applied in the development of a range of biomedical implantable devices to control or otherwise administer corrective treatment of diseases or bodily functions or ailments, such as diabetes or intractable pain. Many industrial uses of aerospace technology have occurred, including: wireless infrared communications systems; manufacturing scheduling enhancements; structural analysis of industrial products and systems, and a host of materials applications in new and improved products. NASA computer programs are routinely adapted and used by hundreds of U.S. companies annually, with substantial savings in software development costs. During the past year, over 200,000 individuals and firms were given access to new ideas and improvements from NASA resulting in new products and processes. Over 27,000 technical innovations from the space program have been published and are now available for use by American industry by subscribing to NASA Tech Briefs.

45.025 PROMOTION OF THE ARTS-PARTNERSHIP AGREEMENTS

FEDERAL AGENCY:

NATIONAL ENDOWMENT FOR THE ARTS, NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

AUTHORIZATION:

National Foundation on the Arts and the Humanities Act of 1965, as amended, Public Law 89-209, 20 U.S.C. 951 et seq.

OBJECTIVES:

To develop and maintain partnerships with the state and jurisdictional arts agencies (SAAs) and their regional organizations (RAOs) to advance the mission of the National Endowment for the Arts.

TYPES OF ASSISTANCE:

Formula Grants; Project Grants; Advisory Services and Counseling.

USES AND USE RESTRICTIONS:

SAA Partnership Agreements support four components: 1) the state arts plan for priorities identified at the state level (including activity for Poetry Out Loud); 2) elements of the state plan that address arts education; 3) elements of the state plan that foster the arts in underserved communities; and 4) projects that strengthen a state or region's infrastructure of support for the folk & traditional arts. RAO Partnership Agreements offer support for: 1) a regional arts plan; 2) touring intended to give all Americans access to excellent, live performing arts; and 3) projects that strengthen a region's infrastructure of support for the folk & traditional arts. (State and regional activities addressing the Arts Endowment's Challenge America and American Masterpieces initiatives are now included in the components noted above.) Limited Partnership funds also are available for national services provided by membership organizations of SAAs and RAOs. Arts Endowment Partnership Agreement funds must be used to supplement and not to supplant non-Federal funds.

Applicant Eligibility:

Agencies officially designated as the state arts agency by its state government in each of the 50 States and six special U.S. jurisdictions; regional arts organizations representing state arts agencies; and organizations providing support services to state and regional arts agencies at a national level.

Beneficiary Eligibility:

The official arts agencies of the 50 states and six U.S. jurisdictions, regional arts organizations, and organizations providing support services to SAAs and RAOs at the national level. Through activities and services supported, beneficiaries include local arts agencies, nonprofit organizations, artists, and the general public.

Credentials/Documentation:

The State Partnership Agreement requires that the agency be legally designated as the official State arts agency. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. Where applicable, applications from State government agencies for Partnership Agreements must be reviewed under the State's intergovernmental review process, if one has been established, per E.O.12372, "Intergovernmental Review of Federal Programs." The Regional Partnership Agreement stipulates that the regional organization must be authorized by two or more state arts agencies to apply for funds on their behalf.

Preapplication Coordination:

Applicants should consult the Partnership Agreements guidelines (available at www.arts.gov). This program is eligible for coverage under E.O.12372,

"Intergovernmental Review of Federal Programs." If the program has been selected for review in an applicant's state, the applicant should consult the state office or official designated as the single point of contact for more information.

Application Procedure:

Applicants must obtain current Partnership Agreements guidelines and adhere to instructions. This program is covered under OMB Circular Nos. A-102 (State agencies) and A-110 (regional organizations).

Award Procedure:

Applications receive three independent levels of review. First, they are reviewed by an independent, national panel of individuals with expertise in the arts and the state and regional arts agency field. Panel recommendations are forwarded to the National Council on the Arts, which then makes recommendations to the Chairman of the National Endowment for the Arts. The Chairman reviews the Council's recommendations and makes the final decision on all grant awards. Partnership Agreements receive panel review on a three-year cycle -- one-third of the states are reviewed each year -- with funding subject to annual recommendation and approval by the Council and the Chairman.

Deadlines:

The Partnership Agreements deadline is generally in October. See the Arts Endowment's Web site at www.arts.gov for the specific date.

Range of Approval/Disapproval Time:

Dependent on meetings of the National Council on the Arts.

Appeals:

Information on requests for reconsideration may be obtained from the headquarters office.

Renewals:

The Arts Endowment uses staggered, multi-year review for Partnership Agreements. Funding is subject to annual review and approval.

Formula and Matching Requirements:

Formula and competitive grants must be matched at least 1:1 with non-federal funds. The Congress has stipulated that no less than 40 percent of all grantmaking funds appropriated for the Arts Endowment be reserved for grants to SAAs and RAOs. It also has directed that support for program activity in underserved rural and inner-city communities within each state be established as a funding priority. Formula: State Partnership Agreement awards: 1) Of the SAA-RAO reserve, at least \$200,000 will be allotted to each SAA with an approved state plan. Up to a quarter of any funds remaining in this reserve will be apportioned in line with Arts Endowment policy. Any funds still remaining will be divided equally among the 52 SAAs serving populations over 200,000. Funds available for the Poetry Out Loud initiative will be allotted equally among SAAs in the 50 states and participating jurisdictions. 2) Funds available to SAAs for arts education first will be apportioned by formula among SAAs with plans meeting relevant review criteria; funds will not exceed \$50,000 per state. The remaining arts education funds will be awarded competitively among SAAs with the strongest plans and accomplishments according to the review criteria. The annual maximum awarded to any one SAA for arts education is \$100,000. 3) Underserved funds to be administered through Partnership Agreements first will be apportioned by formula among SAAs with plans that meet the review criteria, with remaining funds awarded on the basis of competition to those SAAs with the strongest plans and accomplishments in relation to the review criteria. 4) Funds for Folk & Traditional Arts Infrastructure support will be awarded competitively among SAAs that request such funds and have the strongest plans and accomplishments in relation to the review criteria. Funding to any one SAA will range from \$10,000 to \$50,000. Formula: Regional Partnership Agreement awards: 1) Funds available will be distributed in equal base amounts per regional organization and shares per state. 2) For the NEA Regional Performing Arts Touring program, funds will be allotted based on fixed historic amounts, equal shares per region, and regional population. 3) Funds for Folk & Traditional Arts Infrastructure support will be awarded competitively among RAOs that request such funds and have the strongest plans and accomplishments in relation to the review criteria. Funding to any one RAO will range from \$10,000 to \$50,000. National services funding is derived from the portion of the agency's appropriation for the SAAs and RAOs.

Length and Time Phasing of Assistance:

Each award is for the full fiscal year or as designated. Generally, requests for payment to cover immediate allowable project expenses may be received at any time. FY 2009 grants support activities scheduled to begin on or after July 1, 2009.

Reports:

Progress reports are required for all grants and must be submitted at the time the cumulative amount of grant funds requested exceeds two-thirds of the grant amount. Final reports are required within 90 days after the end of the grant period.

Audits:

Applicant and grantee-initiated audits: In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Nonprofit Organizations," State governments expending \$500,000 or more in federal awards within the state's fiscal year shall have an audit made for that year. Recipients other than State governments must comply with audit requirements for nonprofit institutions mandated by A-133. Nonprofit institutions expending

\$500,000 or more in federal awards shall have an audit made in accordance with A-133's provisions.

Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. For nongovernmental recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-110, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations Uniform Administrative Requirements" and with OMB Circular No. A-133. Preapplication Coordination:

Prior to submitting a proposal, applicants are encouraged to contact program officers who can offer advice about preparing the proposal, and review draft proposals. These comments are not part of the formal review process and have no bearing on the final outcome of the proposal, but applicants in other programs have found them helpful in strengthening their applications. Program staff recommend that draft proposals be submitted six weeks before the deadline. Time restraints may prevent staff from reviewing draft proposals submitted after that date. Draft proposals may be submitted by E-mail attachment (DHI@neh.gov), Fax: (202) 606-8216, or overnight mail (Digital Humanities Start-Up Grants, c/o OIRM, Room 203, 1100 Pennsylvania Avenue N.W. 45.301 MUSEUMS FOR AMERICA

FEDERAL AGENCY:

OFFICE OF MUSEUM SERVICES, INSTITUTE OF MUSEUM AND LIBRARY SERVICES, NATIONAL FOUNDATION OF THE ARTS, AND THE HUMANITIES

AUTHORIZATION:

Museum and Library Services Act, codified at 20 U.S.C. Section 9101 et seq.

OBJECTIVES:

To support projects and activities that strengthen museums as active resources for lifelong learning and as important institutions in the establishment of livable communities.

TYPES OF ASSISTANCE:

Project Grants; Direct Payments for Specified Use.

USES AND USE RESTRICTIONS:

Funds can be used for ongoing museum programs, exhibitions, or activities, research, institutional planning, collections management, purchase of equipment or services, or other activities that support the efforts of museums to upgrade and integrate new technologies into their overall institutional effectiveness.

Applicant Eligibility:

All types of museums, large and small, are eligible for funding. Eligible museums include aquariums, arboretums and botanical gardens, art museums, general museums, historic houses and sites, history museums, nature centers, natural history and anthropology museums, planetariums, science and technology centers, specialized museums, youth museums, and zoological parks. Federally operated and for-profit museums may not apply for funds. An eligible applicant must be: (1) either a unit of state or local government or a private nonprofit organization that has tax-exempt status under the Internal Revenue Code; (2) located in one of the 50 states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau; and (3) a museum that, using a professional staff, (i) is organized on a permanent basis for essentially educational or aesthetic purposes, (ii) owns or uses tangible objects, either animate or inanimate, (iii) cares for these objects, and (iv) exhibits these objects to the general public on a regular basis through facilities which it owns or operates. An organization uses a professional staff if it employs at least one professional staff member, or the full-time equivalent, whether paid or unpaid, primarily engaged in the acquisition, care, or exhibition to the public of objects owned or used by the institution. An organization "exhibits objects to the general public" if such exhibition is a primary purpose of the institution. Further, an organization that exhibits objects to the general public for at least 120 days a year shall be deemed to exhibit objects to the general public on a regular basis. An organization that exhibits objects by appointment may meet the requirement to exhibit objects to the general public on a regular basis if it can establish, in light of the facts under all the relevant circumstances, that this method of exhibition does not unreasonably restrict the accessibility of the institution's exhibits to the general public. Please note that an organization which does not have as a primary purpose the exhibition of objects to the general public, but which can demonstrate that it exhibits objects to the general public on a regular basis as a significant, separate, distinct, and continuing portion of its activities, and that it otherwise meets the museum eligibility requirements, may be determined to be eligible as a museum under these guidelines. A museum located within a parent organization that is a state or local government or multipurpose nonprofit entity, such as a municipality, university, historical society, foundation, or cultural center, may apply on its own behalf if the museum: (1) is able to independently fulfill all the eligibility requirements listed above, (2) functions as a discrete unit within the parent organization, (3) has its own fully segregated and itemized operating budget, and (4) has the authority to make the application on its own. When any of the last three conditions cannot be met, a museum may apply through its parent organization. Prospective applicants that cannot fulfill all of these requirements should contact IMLS to discuss their eligibility before applying. IMLS may require additional supporting documentation from the applicant to determine the museum's autonomy. Each eligible applicant within a single parent organization should clearly delineate its own programs and operations in the application narrative. A parent organization that controls multiple museums that are not autonomous but are otherwise eligible may submit only one application per grant program; the application may be submitted by the parent organization on behalf of one or more of the eligible museums.

45.302 MUSEUM ASSESSMENT PROGRAM

(MAP)

FEDERAL AGENCY:

OFFICE OF MUSEUM SERVICES, INSTITUTE OF MUSEUM AND LIBRARY SERVICES, NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

AUTHORIZATION:

Museum and Library Services Act, codified at 20 U.S.C. Section 9101 et seq.

OBJECTIVES:

To help museums assess their strengths and weaknesses, and to plan for the future. The Museum Assessment Program is supported through a cooperative agreement between the Institute of Museum and Library Services and the American Association of Museums.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use (Cooperative Agreements).

USES AND USE RESTRICTIONS:

The program provides technical assistance for four kinds of assessments: (1) collections management, (2) governance, (3) institutional, and (4) public dimension. Collections management assessment supports a review of collections use, planning, and policies and procedures in the context of overall museum operations. Governance assessment supports an examination of the roles, responsibilities, and performance of governing authorities and advisory boards. The assessment improves the ability of the museum's governing authority to fulfill its stewardship responsibilities and contribute to the success of the organization. Institutional assessment supports an overview of the management and operations of the entire museum and helps the museum set priorities, prepare for strategic planning, and operate more efficiently, thereby improving its services to the community and increasing its base of support. Public dimension assessment supports an evaluation of the way in which the museum serves its community and audiences through exhibits, programs, and other services, and communicates with its audience through public relations, planning, and evaluation.

A public or private nonprofit organization, such as a municipality, college, or university which is responsible for the operation of a museum, if necessary, may apply on behalf of the museum. A museum operated by a department or agency of the Federal government is not eligible to apply. Under the IMLS definition, a museum is a public or private nonprofit institution which is organized on a permanent basis for essentially educational or aesthetic purposes and which, using a professional staff: (1) Owns or uses tangible objects, whether animate or inanimate; (2) cares for these objects; and (3) exhibits them to the general public on a regular basis. A museum must have at least one staff member, paid or unpaid, who devotes his or her time primarily to the acquisition, care or exhibition of objects. To support projects that address the preparation of museum professionals for the future by updating and expanding their knowledge and skills.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

The program supports a range of activities, including professional training in all areas of museum operations and leadership development. Examples of activities may include development and implementation of classes, seminars, or workshops; resources and activities to support the development of museum leaders; organizational support for the development of internship and fellowship programs; support for the enhancement of preprofessional training programs; collection, assessment, or development of information that leads to better museum operations; dissemination of information to museum professionals; and activities that increase or strengthen the use of contemporary technology tools. Grants under the 21st Century Museum Professionals program are intended to affect multiple museums by reaching broad groups of museum professionals throughout a city, county, state, region, or the nation, and increase their capacity to serve their audiences. Grant funds may not be used for construction, contributions to endowment funds, social activities, ceremonies, entertainment, collection acquisition, fundraising costs, or pre-grant costs.

Applicant Eligibility:

An eligible applicant must (1) be either a unit of state or local government or a private nonprofit organization that has tax-exempt status under the Internal Revenue Code; (2) be located in one of the 50 states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau; and (3) qualify as one of the following three types of organizations: (i) a museum that, using a professional staff, is organized on a permanent basis for essentially educational or aesthetic purposes; owns or uses tangible objects, either animate or inanimate; cares for these objects; and/or exhibits these objects to the general public on a regular basis through facilities which it owns or operates (an institution uses a professional staff if it employs at least one professional staff member, or the full-time equivalent, whether paid or unpaid, primarily engaged in the acquisition, care, or exhibition to the public of objects owned or used by the institution. An institution exhibits objects to the general public if such exhibition is a primary purpose of the institution. An institution that exhibits objects to the general public for at least 120 days a year is deemed to exhibit objects to the general public on a regular basis. An institution that exhibits objects by appointment may meet the requirement to exhibit objects to the general public on a regular basis if it can establish, in light of the facts under all the relevant circumstances, that this method of exhibition does not unreasonably restrict the accessibility of the institution's exhibits to the general public. An institution that does not have as a primary purpose the exhibition of objects to the general public, but that can demonstrate that it exhibits objects to the general public on a regular basis as a significant, separate, distinct, and continuing portion of its activities, and that otherwise meets the museum eligibility requirements, may be determined to be eligible as a museum under these guidelines); (ii) an organization or association that engages in activities designed to advance the well-being of museums and the museum profession; or (iii) an institution of higher education, including public and nonprofit universities. A museum located within a parent organization that is a state or local government or multipurpose nonprofit entity, such as a municipality, university, historical society, foundation, or a cultural center, may apply on its own behalf if the museum: (1) is able to independently fulfill all the eligibility requirements listed above, (2) functions as a discrete unit within the parent organization, (3) has its own fully segregated and itemized operating budget, and (4) has the authority to make the application on its own. When any of the last three conditions cannot be met, a museum may apply through its parent organization. Prospective applicants that cannot fulfill all of these requirements should contact IMLS to discuss their eligibility before applying. IMLS may require additional supporting documentation from the applicant to determine the museum's autonomy. Each eligible applicant within a single parent organization should clearly delineate its own programs and operations in the application narrative. A parent organization that controls multiple museums that are not autonomous but are otherwise eligible may submit only one application per grant program; the application may be submitted by the parent organization on behalf of one or more of the eligible museums.

45.312 NATIONAL LEADERSHIP GRANTS

FEDERAL AGENCY:

INSTITUTE OF MUSEUM AND LIBRARY SERVICES, NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

AUTHORIZATION:

Museum and Library Services Act, codified at 20 U.S.C. Section 9101 et seq.

OBJECTIVES:

To enhance the quality of library and museum services nationwide and to provide coordination between libraries and museums.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

The Institute restored the research component to its Library-Museum Community Collaboration category. Collaboration grants provide opportunities for libraries and museums to partner with each other and with a host of other community organizations, including public broadcasters, schools, universities,

cultural and performing arts organizations, and health and social service providers. A partnership of at least one eligible library entity and one eligible museum entity is required. This category supports projects that address community civic and educational needs; increase the organizations' capacity to serve as effective venues and resources for learning; use technology in innovative ways to serve audiences more effectively; conduct collaborative research; or advance knowledge and best practices through collaborative digital projects. The Building Digital Resources category, renamed Advancing Digital Resources, supports the creation, use, preservation, and presentation of significant digital resources as well as the development of tools to manage digital assets incorporating new technologies or new technology practice. Projects should enhance learning and innovation by ensuring that the digital assets promote individual and community access to museum and library resources. This category encourages explorations of all types of digital resources, from use of resources on the Web to digital content through video, audio, or television. IMLS will support projects that digitize, preserve, and aggregate digital content from libraries, museums, and/or archives on a large-scale, statewide, or thematic basis; develop and disseminate new tools to enable libraries and museums to effectively manage, preserve, present, and/or use digital resources; increase community access to institutional resources through innovative approaches and/or improved practice; increase community access to institutional resources by improving practice in use, dissemination, and support of existing technology-based tools; develop or advance participation in museum and/or library communities using social technologies in new ways; or develop new approaches or tools for digital curation. The Research and Demonstration category has been split into two separate categories. Research grants support projects that have the potential to improve museum and library practice, resource use, programs, and services. Both basic and applied research projects are encouraged. Research proposals should pose a question and explain through the plan of work how the question will be investigated, how the data will be gathered and analyzed, and how the results will be evaluated and disseminated. Additionally, methodologies must be replicable and results valid and predictable. Successful proposals will place the proposed work within the context of current research. Applied research may include testing in a real-world environment, but must be carried out through investigative methodology. Results of research must be generalizable and of broad benefit to the library or museum field. Research conducted by a collaboration between a library and a museum should be submitted under the Library-Museum Collaboration Grants category. This category supports projects that evaluate the impact of library or museum services; investigates how learning takes place in museums and libraries and how use of library and/or museum resources enhances learning; investigates how to improve the quality, effectiveness, or efficiency of library or museum management, programs, or services; investigates ways to enhance the archiving, preservation, management, discovery, and use of digital assets and resources; or investigates or conducts research to add new knowledge or make improvements on the conservation and preservation of collections. Demonstration projects use available knowledge to address key needs and challenges facing libraries and museums, transforming that knowledge into formal practice. Projects applying under this category should produce a replicable model usable by other institutions for improving practice. The new category supports projects that: demonstrate and/or test new practices in museum and/or library operations; demonstrate how museums and/or libraries serve their communities by fostering public value, and how they implement systemic changes in the field; establish and/or test standards and tools for innovative learning; or demonstrate and/or test an expansion of preservation or conservation practices. Across all categories, IMLS particularly encourages projects that meet community needs through innovative collaborations between museums and libraries and with other organizations as appropriate. Partnerships between libraries and museums are particularly encouraged under this program. In addition, collaborative planning grants of \$40,000 are available to enable project teams from more than one institution to work together to plan a collaborative project in any of the four categories. The lead applicant must be an eligible library or museum entity. Applicants in this category are expected to have a basic framework (concept, team, work plan) that has the potential for national leadership. The planning grant will support the activities required to develop the idea fully. Planning grants should result in such products as plans, prototypes, or proofs of concept, which could lead to a National Leadership Grant implementation project. Applicants must have at least one formal partner. Applicants may submit a planning grant application under any of the National Leadership Grant categories listed above. Funds may support the full range of planning activities, including salaries, consultant fees, travel, convenings, services, and materials and supplies. The receipt of a collaborative planning grant neither guarantees nor implies continued support beyond the completion of the planning grant.

Applicant Eligibility:

Eligible libraries include public, school, academic, special, private (not-for-profit), archives, library agencies, library consortia, and library associations. Projects should enable libraries and museums to address current problems in creative ways, develop and test innovative solutions, and expand the boundaries within which cultural heritage institutions operate. The results of these projects will help equip tomorrow's libraries and museums to better meet the needs of a Nation of Learners. Successful proposals will show evidence that they will have national impact and generate results--whether new tools, research, models, services, practices, or alliances--that can be widely adapted or replicated to extend the benefit of federal support. Proposals will reflect an understanding of current issues and needs, showing the potential for far-reaching impact throughout the museum and library communities. Projects will provide creative solutions to issues of national importance and provide leadership for other organizations.
