Applicant Eligibility:

Public Housing Agencies established in accordance with State law are eligible. The proposed program must be approved by the local governing body. Pursuant to the Native American Housing Assistance and Self Determination Act of 1996, Indian Housing Authorities (IHAs) are no longer eligible for funding under the U.S. Housing Act (of 1937) or the Indian Housing Act.

Housing and Community Development Act of 1992, as amended; Public Law 102-550; 106 Stat. 3739; 12 U.S.C. 1515z-13a.

OBJECTIVES:

To provide homeownership opportunities to Native Americans, Tribes, Indian Housing Authorities including Tribally Designated Housing Entities (TDHEs), and Indian Housing Authorities on Indian land, through a guaranteed mortgage loan program available through private financial institutions.

TYPES OF ASSISTANCE:

Guaranteed/Insured Loans.

USES AND USE RESTRICTIONS:

Mortgage loans are for the acquisition or rehabilitation of existing homes, purchase and rehabilitation of a home or construction of a new home; and refinancing of existing debt (FY 03). The financial institution which originates the mortgage loan must meet certain requirements noted in the law.

Applicant Eligibility:

The loan applicant must be members of a federally recognized Indian tribe, band or community, which includes Native Americans, Alaska Natives, or an Indian Housing Authority including a Tribally Designated Housing Authority (TDHE) or a Tribe which meets certain requirements. Applicant eligibility is validated by current enrollment in a federally recognized tribe.

Beneficiary Eligibility:

The homeowner is the ultimate beneficiary of the program. When the Indian Housing Authority, TDHE or Tribe is the homebuyer, they may then rent the property. In these cases, the person renting the home would be an indirect beneficiary.

Credentials/Documentation:

Loan applicants must provide the lender with documentation on eligibility, assets, income, debts and liabilities to show ability to obtain and repay the mortgage loan.

Preapplication Coordination:

A Tribe must develop eviction, foreclosure, and priority of lien procedures and adopt a residential mortgage lease acceptable to HUD and the BIA for any property on trust land within their jurisdiction to be eligible for this program. The loan applicant must find an existing property or a builder to construct a home. The proposed home site must be in an Indian area as defined in the statute. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Applications are submitted to eligible financial institutions. With the loan application, the homebuyer must submit documentation such as pay stubs, W-2 forms (income tax returns if self-employed), evidence of assets such as bank accounts, and any other documentation requested by the lender to support the applicant's ability to obtain and repay the mortgage. The lender verifies the land status of the proposed property.

Award Procedure:

The financial institution obtains and reviews all documentation and forwards it to HUD's Office of Native American Programs. HUD sends the Section 184 Loan Guarantee Firm Commitment Form to the Lender, if the mortgage meets the Section 184 Program underwriting criteria. The financial institution is responsible for assuring Tribal eligibility, land status, property acceptability and the creditworthiness of the loan applicant. HUD has responsibility for the approval or disapproval of the loan (the application for loan guarantee). Eligible lenders may originate loans under the Direct Guarantee Program. Direct Guarantee lenders underwrite, approve and close the loan prior to submission to HUD for the Loan Guarantee Certificate.

Deadlines:

None.

Range of Approval/Disapproval Time:

There are no specific time requirements for the processing of these loans.

Appeals:

Applicants whose loans are disapproved may appeal the disapproval if the applicant can provide additional documentation to resolve the issues which lead to the disapproval.

Renewals:

None.

Formula and Matching Requirements:

The loan amount is calculated based on 97.75 percent of the appraised value of the property if over \$50,000 and 98.75 percent if the property is valued at or under \$50,000. The applicant must have sufficient assets in cash (or their equivalent) to make the downpayment. The applicant's total debts (including the mortgage loan) should not exceed 41 percent of their income (unless valid compensating factors are presented).

Length and Time Phasing of Assistance:

The term of the loan cannot exceed 30 years. The processing time varies from

time of application to the time the loan closes, but in general will average from 30 to 120 days unless there are significant land issues; then 6 to 12 months is possible.

Reports:

Participating financial institutions must provide HUD with copies of loan files and must report to HUD on the status of the loan, once it has closed.

Audits:

Participating lenders, and closed loan files, are reviewed to assure compliance with the program's requirements.

Records:

Copies of loans files are maintained by HUD. The lender that originates the loan must maintain a copy of the loan file for 2 years after loan closing. The lender that services the loan must maintain the loan file for the life of the loan plus 3 years.

Section 502 of the Public Housing Reform Act states that a purpose of the legislation is "consolidating the voucher and certificate programs for rental assistance under Section 8 of the United States Housing Act of 1937 (the "USHA") into a single market-driven program that will assist in making tenant-based rental assistance more successful at helping low-income families obtain affordable housing and will increase housing choice for low-income families."

Applicants are limited to public housing agencies. A public housing agency (PHA) is defined as any State, county, municipality or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of housing for very low income families; and, a consortium of PHAs; any other nonprofit entity that was administering a Section 8 tenant-based program on October 21, 1998; or, for an area outside the jurisdiction of a PHA administering a voucher program, a private nonprofit entity or a governmental entity or public body that would otherwise lack jurisdiction to administer the program in such area.

Beneficiary Eligibility:

This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

The Department will publish a Notice of Funding availability (NOFA) in the Federal Register identifying allocation areas, amount of funds available for each area, and the selection criteria for rating and ranking applications. EXAMPLES OF FUNDED PROJECTS:

Replacement School Construction: A pre-Kindergarten through Grade 12 school complex was funded in the State of Washington. Because of the size of the project, funds were appropriated in increments for this project. In recent years funds have been provided to build elementary and middle schools in North Dakota, New Mexico, and Mississippi, a high school in South Dakota and a library in Mississippi. Facilities Improvement and Repair: The emphasis of this program is minor replacement construction, major and minor repairs, and emergency projects to remedy life safety and health related deficiencies in facilities. Examples of projects include: boiler repair and replacement; roofing repair and replacement of gymnasium; removal of underground storage tanks; installation of fire exit lights, emergency lights, fire rated doors, and other safety related items; and replacement of water storage tanks.

CRITERIA FOR SELECTING PROPOSALS:

Replacement School Construction: Funds are appropriated based on the "Education Facilities Replacement Construction Priority List" as published in the FEDERAL REGISTER on March 24, 2004. Criteria emphasizes providing safe, functional, code-compliant, economical and energy-efficient educational facilities that meet applicable accreditation standards and space guidelines. Facilities Improvement and Repair: Criteria to evaluate projects emphasize eliminating critical health and safety-related deficiencies and reducing the substantial backlog of needed improvements and repairs. Potential projects are identified by facility users, regional office facilities personnel and the Office of Facilities Management and Construction. Facilities Improvement and Repair projects are then prioritized on a Bureau-wide basis using a computerized formula that evaluates the seriousness of the deficiencies and the relative risks of those deficiencies to facility users. To be considered it is essential that deficiencies and projects for a Bureau funded school or dormitory be identified in the automated inventory of Bureau facilities. In addition there are limited funds provided under this program to address safety and health deficiencies on an immediate or interim basis as well as funds for emergency repairs under certain conditions, and for other purposes. For more information on these other programs or on the priority ranking process for Replacement School Construction or Facilities Improvement and Repair projects, contact the Headquarters Office listed above or the local Bureau of Indian Affairs agency or regional office as listed in Appendix IV of the Catalog.

EXAMPLES OF FUNDED PROJECTS:

In one project, the site has 30 miles of streams, with 17 miles severely impacted by drainage from abandoned coal mines in the watershed. Two different limestone treatment systems were used. With the first system limestone was added to the streams and two windmills that operated air pumps pumping air into the water causing the metals to fall out of solution. The second system was an underground anoxic limestone drain that the acidic water flows through dissolving the limestone in the water and raising the pH enough cause the metals to fall out in the wetlands.

CRITERIA FOR SELECTING PROPOSALS:

Section 404 of Public Law 95-87, State certification of eligibility is required. No opposition to the project from the State Abandoned Mine Land (AML) agency. All applicable Federal and State clearances and permits must be

secured. The project should propose to use proven or innovative technology that has a high probability of success and produce tangible results, e.g., fishery restored, stream miles improved, educational and community benefits, pollutants removed from the streams. Funds must be used for the construction phase of a project and there must be demonstrated public support for the project. Also, there must be a plan to address any ongoing operation/maintenance considerations.

15.255 APPLIED SCIENCE PROGRAM COOPERATIVE AGREEMENTS RELATED TO COAL MINING AND RECLAMATION

FEDERAL AGENCY:

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT,
DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

Surface Mining Control and Reclamation Act of 1977 (SMCRA), Public Law 95-87; Public Law 95-224.

OBJECTIVES:

To support of two efforts: (1) develop and demonstrate improved technologies to address public safety and environmental issues related to the mining of coal and reclamation of the lands affected after mining; and (2) encourage efforts to collect, preserve and convert into digital format, maps of underground mines that provide valuable information regarding protection of public and miner safety, mine pool evaluation, and mine subsidence investigation for previously mined areas.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

Projects must focus on issues related to mining in the United States and its territories. Funding will be limited to projects that can be completed without additional funding from the Office of Surface Mining (OSM) beyond those funds awarded in the current fiscal year. Applicants may request funding not to exceed an amount established each year prior to the solicitation for proposals. OSM encourages cost-sharing through an advantaged score in the rating process, but cost-share is not required for the applicant to supply a proposal.

Applicant Eligibility:

Applied Science Projects: Recipients may be any public, private, nonprofit, state, local or Tribal governments, colleges, and universities located in the USA. Mine Mapping: Recipients may be any state or Indian Tribal agency or U.S. Territory.

Beneficiary Eligibility:

Communities impacted by coal mining and reclamation of the land after mining.

Credentials/Documentation:

Applied Science Projects: All proposals must either be initiated by or include a letter of endorsement, (on official letterhead) from an appropriately authorized management official representing a State, Indian, or Federal Title IV or V Surface Mining Control and Reclamation Act (SMCRA) Mining Regulatory or Abandoned Mine Land Reclamation Authority. Mine Map Projects: Proposals must be from an official State or Tribal agency or U.S. territory within whose borders underground mining has occurred.

Preapplication Coordination:

A preapplication proposal is required to be considered for this program. OSM will announce the opportunity for interested parties to submit preapplication proposals in Grants.gov/, and/or on other Federal government websites generally viewed by the public to access such solicitations, and through direct mailings or email to organizations that have shown a past interest in SMCRA related activities. Specific details of the items to be addressed in the pre-application proposal may also be itemized on an OSM web site. The application process consists of two parts, a preapplication proposal with is used in the project review and selection process, and a formal application that will be submitted only by those organizations whose projects are selected for further consideration. The specifics of the project solicitation, review and selection process are itemized below for Applied Science Projects and for Mine Map Projects. Applied Science Projects: Following is a description and approximate timeline for Applied Science Projects: (1) On an annual basis, OSM announces the solicitation of preapplication proposals for eligible projects during the first quarter of each fiscal year that funding is available for the Applied Science Program. (2) OSM allows at least 60 days for interested parties to submit preapplication proposals. (3) Approximately 60 days after the last date to submit proposals, OSM staff and appropriate regional and national technology team members complete initial reviews of preapplication proposals and forward rankings to the National Technology Team Leader (all reviewers are required to sign confidentiality agreements assuring protection of information contained in pre-applications and fairness of the selection process). (4) Approximately 30 days later the National Technology Transfer Team reaches consensus on final ranking of preapplication proposals and submits a final recommendation of pre-application proposals for funding to be submitted to the OSM Core Leadership Team. 5) Within 30 days of receipt from the National Technology Team Leader, the OSM Core Leadership Team may make a final decision of which preapplication proposals to fund (pending receipt by OSM of a complete formal cooperative agreement application within the allowed timeframe). Mine Mapping Projects: (1) On an annual basis, OSM announces the solicitation of preapplication proposals for eligible projects during the first quarter of each fiscal year that funding is available. In addition, OSM notifies the individuals responsible for SMCRA Title IV and Title V programs, and the state geologist for each state where coal mining has occurred. (2) OSM allows approximately 60 days for interested parties to submit preapplication proposals. (3) Approximately 60 days after the last date to submit proposals, members of the Underground Mine Map UGMM) Steering Committee excluding OSM members, plus one representative from each OSM region, one representative from OSM headquarters, and one representative from the Mine Map Repository, will review and rank all of the proposals; (4) Approximately 30 days later, the UGMM Steering Committee Review Team reaches consensus on final ranking of preapplication proposals and submits a recommendation for funding to the OSM Core Leadership Team; (5) Within 30 days of receipt from the Team Leader, the OSM Core Leadership Team may make a final decision of which preapplication proposals to fund (pending receipt by OSM of a complete formal cooperative agreement application within the allowed timeframe). This program is excluded from coverage under E.O.12372.

Application Procedure:

CRITERIA FOR SELECTING PROPOSALS:

Applied Science Projects: In order for a preapplication proposal to be considered, it must include the following: Electronic submission must be received on or before the due date. The proposal must follow the application instructions. Instructions for providing the 1st round ranking of projects is as follows: (1) Individual reviewers rank the proposals such that the best proposal receives the highest rank. When the scores are averaged this will give the best

proposals the highest numerical value. (Every reviewer must fill out a non-disclosure agreement in order to access the proposal website.) (2) Regional Team Ranking: Each regional team AR, WR, and MCR will allow each state/Tribe team member to provide one ranking of proposals. Each state may have more than one person involved in the ranking in order to get the appropriate technical expertise. (3) Each technology transfer member must provide their ranking to the National Technology Team Leader by a specified date each year. (4) National Technology Transfer Team scoring Each National Team member needs to score all projects based upon the following criteria: (a) Does the proposal address a topic of special interest to OSM as identified in the annual solicitation of proposals; (b) What is the level of external financial support; (c) What is the technology transfer potential; (d) What is the technical merit; (e) What is the overall proposal quality, innovation, and viability; Project score spreadsheets should be sent to the National Technology Team Leader by a specified date each year (see Application Process above for 2007 dates). The national technology transfer team is composed of members from OSM and from States that administer coal mining activities. The members from OSM represent Headquarters, the National Technical Training Program (NTP), Technical Innovation and Professional Services (TIPS) program, and the three OSM Regions (Appalachian, Mid-Continent, and Western). The States are represented by the Interstate Mining Compact Commission and the Western Interstate Energy Board. Each regional team is composed of one representative from the OSM region and one from each of the State regulatory authorities within that region. Mine Map: After all proposals are received, the first review will be conducted as follows: (1) members of the Underground Mine Map Steering Committee excluding OSM members, one representative from each OSM region, one representative from OSM headquarters, and one representative from the Mine Map Repository, will review and rank all of the proposals. The voting members must rank each proposal in ascending order. The summation of each voting member's score for each proposal will be used to compute the overall ranking. The proposal/severable piece with the lowest score will have the highest priority for funding. Likewise the proposal/severable piece with the highest score will have the least priority for funding. If there is a proposal that a member feels should not be considered, the rank should be filled in with a score of 40 rather than the concurrent ascending numerical value. (2) the highest ranked proposals will then be submitted to the OSM Core Leadership Team for decisions concerning final approval of proposed projects.

15.421 ALASKA COASTAL MARINE INSTITUTE

(ALASKA CMI)

FEDERAL AGENCY:

MINERALS MANAGEMENT SERVICE, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

43 U.S.C. 1345 (e); 43 U.S.C. 1346 Section 20.

OBJECTIVES:

The Minerals Management Service Offshore Minerals Management and Minerals Revenue Management programs provide major economic and energy benefits on a national and local level to the taxpayers, states and the American Indian community. The Offshore Minerals Management program oversees the exploration and development of oil, natural gas and other minerals and renewable energy alternatives on the nations outer continental shelf. MMS continues to look for better ways to serve the American people and to ensure that the nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of Interior, but also provides coastal states and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. Outer Continental Shelf Lands Act (OCSLA) Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas or other mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint

monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The purpose of the Alaska Coastal Marine Institute is to use highly qualified scientific expertise at local levels to collect and disseminate environmental information needed for OCS oil and gas and marine minerals decisions; address local and regional OCS-related environmental and resource issues of mutual interest; and strengthen the MMS-State partnership in addressing OCS oil and gas and marine minerals information needs.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

The Environmental Studies Program allocates up to \$750,000 per year for cooperative research at the University of Alaska. The University of Alaska invites proposals that are reviewed by a Technical Steering Committee including the University, State of Alaska, and MMS, and funds individual awards. Applications must be for scientific research projects which are within the MMS' area of responsibility. The majority of funds are used to support research that will enhance understanding of long-term effects of oil and gas, and marine minerals projects. Funds can also be used for attendance at national conferences for the dissemination of project results. Funds are not normally used for capitalization.

Applicant Eligibility:

University of Alaska may make application for support by a named principal investigator. Non-UA scientists may participate in collaboration with a UA principal investigator.

Research scientists, Federal, State and local decision-makers, Native American Organizations, and the general public will ultimately benefit from the program.

Credentials/Documentation:

Evidence of the applicants qualifications for performance of the proposed research including past professional publications, resumes, and lists of past projects.

Preapplication Coordination:

Limited discussions regarding funding availability and program interest are permitted. Environmental Impact Statements are not required for these projects. Executive Order 12372 does not apply.

Application Procedure:

Proposals are requested for mission-relevant research likely to provide needed information for OCS oil and gas resource management decisions. Proposals must include a full statement of work, estimated budget, and resumes. The standard SF-424 application forms required by 2 CFR Part 215.12, and the Department of the Interior Code of Federal Regulations at 43 CFR Part 12, Subpart F, or its revisions, must be used.

Award Procedure:

Awards are made on the basis of a competitive peer review of proposals by a panel consisting of government research managers and external reviewers, as appropriate. Criteria for judging proposals include mission relevance, technical merit, and the quality and appropriateness of the personnel including past performance and publication record, project management, logistics plan, safety management, permits and interagency coordination, budget/matching funds, and where appropriate, minimization of impacts. Notification of an award is issued. It is anticipated that 6-12 applications will be received and 6 awards will be granted in FY 2009.

Deadlines:

Proposals are due by November 15, 2008.

Recipients share costs on a one-dollar-for-one-dollar contribution across the program. In any fiscal year, the collective CMI match commitment must equal or exceed MMS contributions. On rare occasions exceptions may be considered.

Length and Time Phasing of Assistance:

Cooperative agreements will normally be awarded for 1 to 5 years, with funding awarded as a lump sum, or added as funds become available.

Reports:

Quarterly progress reports and an annual report on the progress of the project funded under the cooperative agreement and presentations at a session of the publicly held MMS Information Transfer Meetings are required. A draft final, proof copy, and final report; draft and final technical summary; articles based on the research published in journals, and presentation slides are required for each award. Dissemination of the research results conducted under the CMI at professional society meetings and symposia is encouraged. Annual financial reports using OMB Standard Form SF-269 are also required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Nonprofit Organizations",

MMS continues to look for better ways to serve the American people and to ensure that the nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of Interior, but also provides coastal states and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments.

Outer Continental Shelf Lands Act Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas or other mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The purpose of the Louisiana State University Coastal Marine Institute (CMI) is to use highly qualified scientific expertise at local levels to collect and disseminate environmental information needed for OCS oil and gas and marine minerals decisions; address local and regional OCS-related environmental and resource issues of mutual interest; and strengthen the MMS-State partnership in addressing OCS oil and gas and marine minerals information needs.

15.426 COASTAL IMPACT ASSISTANCE PROGRAM (CIAP)

(CIAP)

FEDERAL AGENCY:

MINERALS MANAGEMENT SERVICE (MMS), DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

Outer Continental Shelf (OCS) Lands Act, as amended; 31 U.S.C. 6301-6305.

OBJECTIVES:

The intent of the program is to disburse funding to eligible producing states and coastal political subdivisions for the purpose of conservation, protection, or restoration of coastal areas including wetlands; mitigation of damage to fish, wildlife, or natural resources; planning assistance and the administrative costs of complying with these objectives; implementation of a federally-approved marine, coastal, or comprehensive conservation management plan; and mitigation of the impact of outer Continental Shelf activities through funding of onshore infrastructure projects and public service needs.

TYPES OF ASSISTANCE:

Formula Grants.

USES AND USE RESTRICTIONS:

Can only be used to directly benefit an authorized use to conserve, restore, enhance, and protect renewable natural resources. Funding cannot be used for projects that would not provide a direct benefit, including but not limited to, supporting litigation or to fund publicity or lobbying efforts for purposes of influencing or attempting to influence a member of the U.S. Congress or an agency of the Federal government.

Applicant Eligibility:

States eligible to receive funding are: Alabama, Alaska, California, Louisiana, Mississippi, and Texas and 67 coastal political subdivisions among the six

states.

Beneficiary Eligibility:

The producing coastal states, their eligible coastal political subdivisions, and the general public will ultimately benefit from the program.

Credentials/Documentation:

Applicants must provide documentation that they have met state and local permitting requirements.

Preapplication Coordination:

Prior to submitting any grant applications an eligible state must submit to MMS, for approval, a State Plan that provides detail on how a State and its Coastal Political Subdivisions (CPS) will use the CIAP funds and implement the state plan. To assist the States in developing a plan the MMS issued final Coastal Impact Assistance Program Guidelines, and published a Notice of Availability in the Federal Register, September 29, 2006. Coastal Political Subdivisions and State are required by the Act to work together to develop their Plan. The plan should contain prescribed components from Section 384 of the amended OCS Lands Act, which includes an implementation program representing both parties' interests. The State point of contact submits the Plan to the MMS for approval. The MMS will determine within 20 calendar days after receipt of a Plan or Plan amendment whether additional information is needed. If no deficiencies are identified and the required number of copies has been received, the Plan or amendment will be deemed complete. Once a Plan or amendment is determined complete, MMS will have 90 calendar days to notify the State in writing that the Plan or amendment is approved, disapproved, or remains under review (in which case the Plan or amendment is neither approved nor disapproved). If MMS fails to provide such written notice to the State, the Plan or amendment is deemed to be disapproved. If MMS notifies the State that the Plan or amendment remains under review, MMS will also provide the State with an estimate of the amount of additional time necessary to complete its review. If a Plan or amendment is disapproved, the State may revise and resubmit it. The MMS will then have 20 calendar days to determine completeness; once MMS determines that the revised Plan or amendment is complete, MMS will then have 90 calendar days to approve or disapprove the revised Plan or amendment. On April 16, 2007 MMS released the recipient allotment amounts that will be eligible to spend in 2007 and 2008. The States and CPSs will use this information to develop grant project applications with detailed descriptions of their individual projects, including detailed breakdowns of costs. The recipients will provide in each application the current status of Federal, State and local permits required for the project. A completed grant project application is to be submitted electronically through Grants.gov. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Specific projects submitted to the MMS for funding are subject to the Department of the Interior Regulations at 43 CFR Part 12, Subparts C and E, or any subsequent revisions. The OMB SF-424 application forms must be used for this program. Applications are submitted electronically through Grants.gov.

Award Procedure:

The MMS provides a notice of award to the recipient.

Deadlines:

A Plan or acknowledgement of good intent to provide a Plan must be submitted no later than July 1, 2009.

Range of Approval/Disapproval Time:

MMS will have 90 days or as time is needed to approve or disapprove State Plans. No time limit is established for review of projects.

Appeals:

Applicants can appeal disapproval of Plans or project applications no later than December 2010.

Renewals:

Proposals are submitted for a project period. Projects that were approved and funded during the previous project period may be submitted as renewals for subsequent project periods.

Formula and Matching Requirements:

In accordance with the language of the Act no State will receive less than 1 percent of the \$250 million to be disbursed per year. Of the percentage received by a State, 65 percent remains with the State, and 35 percent is awarded to the coastal political subdivisions (CPS).

Length and Time Phasing of Assistance:

Grants will normally be awarded in 12-month budget periods.

Reports:

Annual and final technical and financial reports (using the SF-269) are required.

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations", nonfederal entities that receive financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

EXAMPLES OF FUNDED PROJECTS:

A Coastal Impact Assistance Program is managed by the National Oceanic and Atmospheric Administration. It was a one-year (2001) disbursement of \$150 million to 7 states and 147 coastal political subdivisions. It was enacted with language similar to that guiding the CIAP presently under MMS direction. "Bayou Lamoque Floodgate Removal." Remove existing floodgates from a freshwater introduction structure to allow for the unimpeded flow of water from the Mississippi River into Bayou Lamoque and the surrounding marshes. This will create approximately 620 acres of new marsh over 20 years providing the coastline needed buffering and reduction in coastline erosion.

CRITERIA FOR SELECTING PROPOSALS:

Criteria for approving proposals are identified in the Coastal Impact Assistance Program Guidelines located at: <http://www.mms.gov/offshore/CIAP/PDFs/CIAPFinalGuidelines100206.pdf> and the program announcement found on Grants.gov.

15.504 WATER RECLAMATION AND REUSE PROGRAM

FEDERAL AGENCY:

BUREAU OF RECLAMATION, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

Reclamation Wastewater and Groundwater Study and Facilities Act, Title XVI, Public Law 102-575, as amended; Reclamation Recycling and Water Conservation Act of 1996, Public Law 104-266; Oregon Public Lands Transfer and Protection Act of 1998, Public Law 105-321; Consolidated Appropriation Act of 2000, Public Law 106-544; Hawaii Water Resources Act of 2000, Public Law 106-566; Lakehaven Utilities District, WA, Project, 2002, Public Law 107-344; Consolidated Appropriations Resolution, 2003, Public Law 108-7; San Diego Creek Watershed, CA, Project, 2004, Public Law 108-233; Williamson County, TX, Project, Public Law 108-316; Hawaii Water Resources Act of 2005, Public Law 109-70.

OBJECTIVES:

This Title gives Reclamation general authority to conduct appraisal and feasibility studies on water reclamation and reuse projects. It also provides general authority for research and demonstration programs to test water reclamation and reuse technologies. Reclamation may also participate in construction of reuse projects after congressional authorization of the project. The original Act provided authority to participate in the design and construction of five specific projects in California and Arizona. The 1996 Act authorized 16 additional recycling projects and 2 desalination demonstration projects. Subsequent amendments to Title XVI and other individual acts authorized nine additional construction projects.

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

Reclamation is restricted by law to activities in the 17 Western States, unless otherwise authorized by Congress, as was done by Public Law 106-566, which extended Reclamation's authority to conduct Title XVI investigations to include Hawaii. The nonfederal sponsor must complete a feasibility study, including NEPA (National Environmental Policy Act) compliance, complete a cost-share agreement with Reclamation, and furnish a statement of financial capability of the project sponsor to fund the nonfederal share to Reclamation prior to receiving construction appropriations from Congress for the Federal cost share. Operation and Maintenance (O&M) costs for the constructed project must be furnished by the nonfederal sponsor. Federal contributions for demonstration projects that exceed 25 percent of the cost cannot be made unless the Secretary (of the Interior) determines that the project is not feasible without such Federal contribution. Although the Act provides that Reclamation may furnish up to 50 percent of O&M costs for demonstration projects, it is Reclamation policy not to provide funds for this purpose.

Applicant Eligibility:

A legally organized nonfederal entity to sponsor the project is required, such as an irrigation district or a municipality. The applicant must be able to furnish the nonfederal cost share and be able to assume the operation and maintenance of the project upon completion of construction. Research projects may also be

undertaken by colleges and universities and architectural and engineering firms.

Beneficiary Eligibility:

A legally organized nonfederal entity such as an irrigation district or an organization within a municipality, such as the water department.

Credentials/Documentation:

A feasibility report must be completed, either by the nonfederal sponsor alone or with the assistance of the Federal government. A statement of financial capability by the nonfederal sponsor must be provided to Reclamation. This statement demonstrates the capability of the sponsor to fund its portion of the feasibility report, its share of construction costs, and the ability to fund and assume responsibility for the operation and maintenance of the completed project. A cost-share agreement must be completed with Reclamation before funds can be requested for appropriation for construction.

Preapplication Coordination:

An environmental impact assessment or environmental impact statement may be required. This program is excluded from coverage under E.O. 12372. It is recommended nonfederal entities contact the appropriate Reclamation office to discuss the processes and procedures for participation.

Application Procedure:

Discretionary funding opportunities will be posted on Grants.gov. The standard application forms furnished by the Federal agency and required by 43 CFR Part 12, Subparts C and F, must be used for this program. The required documents must be furnished to Reclamation prior to authorization for construction. Upon satisfactory completion of these documents, Reclamation may seek authorization for the project and initiate appropriation requests. Reclamation has limited funding authority for this program, therefore requests for project construction authority may be delayed until a funding request can be made that is within the authorized limit.

Award Procedure:

After funds are appropriated, Reclamation will complete the necessary paperwork to transfer funds.

Deadlines:

None.

Range of Approval/Disapproval Time:

Authorization of a project and appropriation of funds for its construction are dictated by the schedule of Congress with respect to appropriating funds. Because of the limitation on the ability of Reclamation to request funding for this program, delay can be anticipated in requesting funds for construction. Depending on the number of requests for funding, this delay could be several years.

Appeals:

None.

Renewals:

Continuation of funding from one fiscal year to the next to complete a project is at the discretion of the Congress.

Formula and Matching Requirements:

Appraisal level studies are nonreimbursable, that is, if the Federal government either completes or participates in an appraisal study, its funding requirements are nonreimbursable. Reclamation can cost share up to 50 percent of the cost of a feasibility study with the nonfederal sponsor supplying the balance. Environmental compliance costs are considered to be part of the planning costs and are cost shared accordingly. If the project proceeds to construction, the Federal share of planning becomes part of the total project cost. Reclamation may furnish up to 25 percent of the total project cost up to a maximum of \$20 million per project. The balance of the construction cost must be furnished by the nonfederal sponsor. The entire O&M cost for the project must be borne by the nonfederal sponsor. Ownership of the completed facilities is with the sponsor.

Length and Time Phasing of Assistance:

There are no time restrictions placed on the use of the funds and the funds have generally been made available periodically throughout the year on a reimbursable basis. A schedule is planned between Reclamation and the recipient when the cost share agreement is arranged. However, this schedule can be impacted by funds availability during the year.

Reports:

Reporting requirements are as prescribed by 43 CFR 12, Subparts C and F, as applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Nonprofit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

The required records will be specified as part of the audit procedure discussed above.

Account Identification:

14-0680-0-1-301.

Obligations:

FY 07 \$10,100,000; FY 08 est \$9,780,000; FY 09 est \$9,780,000.

Range and Average of Financial Assistance:

Construction funding is limited to 25 percent of the total project cost or \$20 million per project, which ever is less.

PROGRAM ACCOMPLISHMENTS:

The Arsenic Wellhead Demonstration Project in Albuquerque, NM has been completed, and the Mission Basin Brackish Groundwater Desalting Demonstration Project in Oceanside, CA should be completed in 2006. Construction projects in El Paso, TX, and San Diego, San Gabriel, Watsonville and San Jose, CA, and Albuquerque, NM are progressing. The Long Beach (CA) Desalination Research and Development Project is in the pilot development stage. The comprehensive studies for Southern California and the San Francisco Bay area have been completed. Feasibility studies in Phoenix and Tucson, AZ, Santa Fe, NM, Pasadena and Desert Hot Springs, CA, and Austin and Williamson County TX, are underway. In addition, four new construction projects in southern California were initiated in 2000. They are the North San Diego County Area Water Recycling Project, the Orange County Regional Water Reclamation Project (Phase 1), the Calleguas Municipal Water District Recycling Project, and the Long Beach Area Water Reclamation and Reuse Project.

CRITERIA FOR SELECTING PROPOSALS:

Reclamation will place priority on funding projects that are economically justified and environmentally acceptable in a watershed context, not eligible for funding under another Federal program, and that directly address Administration priorities for the Reclamation program, such as providing instream flows for Federally endangered or threatened species, meeting the needs of Native American communities, and meeting international commitments.

15.506 WATER DESALINATION RESEARCH AND DEVELOPMENT PROGRAM

(Desal R&D Program)

FEDERAL AGENCY:

BUREAU OF RECLAMATION, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

Water Desalination Act of 1996, Public Law 104-298, 42 U.S.C. 10301.

OBJECTIVES:

The Water Desalination Act of 1996 is based on the fundamental need in the United States and world-wide for additional sources of high quality water. Therefore, the primary objective of the program is to develop more cost-effective, technologically efficient, and implementable methods by which usable water can be produced from saline water or water otherwise impaired or contaminated. The two principal parts of the program are: (1) perform research on desalination technologies and related issues to advance the state of the art forward (research and studies), and (2) conduct development and demonstration activities to test technological advancements, confirm economics, and gain public acceptance (development projects).

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

To be used to support research and studies, demonstration and development projects and related activities, as described in the Act.

Applicant Eligibility:

Any responsible source, to include individuals, State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, small businesses, profit

organizations, private nonprofit institutions/organizations, quasi-public nonprofit institutions/organizations, and other private institutions/organizations may submit a proposal which will be considered by Reclamation. Foreign entities, other than United States-Mexico binational research foundations and inter-university research programs established by the two countries, are not eligible for funding under the Act. Federal agencies are not eligible to apply.

Beneficiary Eligibility:

Individuals, State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, small businesses, profit organizations, private nonprofit institutions/organizations, quasi-public nonprofit institutions/organizations, other private institutions/organizations, and United States-Mexico binational research foundations and inter-university research programs established by the two countries.

Credentials/Documentation:

(1) A detailed written technical proposal including the current status of the technology supporting the proposed research, technical approach proposed to accomplish the work, a scope of work which separates the work into major tasks, applicability to local and/or national water problems, type of personnel participating in the research, type and location of facilities and equipment that will be utilized by the project applicant, experience in this type of research, the environmental impact of the research, an estimate of the costs and/or cost savings (\$/1000 gal) and economic benefit of the technology, and other information that may be useful for proposal evaluation. (2) A detailed project cost proposal including a budget covering salaries and wages, fringe benefits, travel, equipment, supplies, subcontracts, indirect cost rates, funding sources and commitments, cost-sharing, and a breakdown of costs by task.

Preapplication Coordination:

On an annual basis, a pre-proposal solicitation announcement is issued by Reclamation. Submission of a pre-proposal is not mandatory; however, offerors are strongly encouraged to do so in order to receive the benefit of the initial pre-proposal screening process and thereby eliminate the possibility of submitting a full proposal that would not be considered for award. The pre-proposal application limits the description of a proposed project to six pages. The project description must address each of the following areas: (1) Description of the project objective(s). (2) Description of the approach to be taken to meet the project objectives. (3) Description of the relevance of the project to the Program objectives and specific research Task area. (4) Estimate of the costs and/or cost savings (\$/1000 gal) and economic benefits of the technology. (5) Anticipated funding partners, if any. Applicants must submit an SF-424 with their pre-proposal. Questions regarding the pre-proposal process should be directed to the Grants and Cooperative Agreements Officer identified in the pre-proposal solicitation package. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure:

A full proposal solicitation package is issued annually by Reclamation. There will be a general solicitation and one for pilot plants or a demonstration project in FY02. Submission of full technical and cost proposals in accordance with the instructions stated in the solicitation document is mandatory. Additionally, applicants must submit all applicable SF-424 forms and a DI-2010 form which will be included in the solicitation document.

Award Procedure:

The number of awards, maximum funding amount per award, and areas of interest for which proposals will be considered, are determined on an annual basis and are dependent upon the annual appropriation from Congress. Proposals received in response to the annual solicitation are reviewed on the basis of a competitive, merit- review process, and are rated in accordance with evaluation criteria stated in the solicitation document. Reclamation will make awards for the highest rated proposals based on the amount of funding available each year. Reclamation reserves the right to make awards to maintain balance among the program objectives listed in the solicitation document.

Deadlines:

Contact Reclamation for solicitation and proposal dates and deadlines.

Range of Approval/Disapproval Time:

Contact Reclamation for the range of time when proposals are approved or disapproved.

Appeals:

Not applicable. Reclamation will, however, provide all applicants with information on why their proposals were not selected.

Renewals:

Continuation of funding for the Program from one fiscal year to the next is at the discretion of the Congress. Yearly solicitation is made for projects of 12 months duration or less (follow-on funding may be available for additional research studies, pilot-plant projects, or demonstration projects). No-cost extensions to awarded agreements are provided for unique projects that can justify additional time beyond the 12-month duration.

Formula and Matching Requirements:

The Federal share of the cost of a project or activity carried out under this Act shall not exceed 50 percent of the total cost of the project or activity. A Federal contribution in excess of 25 percent for a project carried out under this Act may not be made unless the Secretary of the Interior determines that the project is not feasible without such increased Federal contribution. Costs of operation, maintenance, repair, and rehabilitation of facilities funded under the authority of this Act shall be nonfederal responsibilities. In each fiscal year, up to \$1,000,000 may be awarded to institutions of higher education, including United States-Mexico binational research foundations and interuniversity research programs established by the two countries, for research grants or cooperative agreements without any cost-sharing requirement.

Length and Time Phasing of Assistance:

Solicitation is made for projects of 12 months duration or less (follow-on funding may be available for additional research studies, pilot-plant projects, or demonstration projects). No-cost extensions to awarded agreements are provided for unique projects that can justify additional time beyond the 12-month duration.

Reports:

The Recipient shall furnish quarterly reports and a final report as a permanent record of the work accomplished under the agreement. A midterm project review shall be held at the Recipient's site approximately 3 to 6 months after project award. Approximately at the time of delivery of the draft final report, the Project Manager shall make a presentation in Denver on the overall progress of the project.

Audits:

In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Nonprofit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

This requires that costs be directly relatable to items in the research work plan, reasonable, and be appropriate to the project in terms of dollar amount and quantity. (2) Cost-share. Offerors proposing to provide the most cost-share shall be given greater consideration.

15.507 WATER 2025

(Water 2025 Challenge Grant Program)

FEDERAL AGENCY:

BUREAU OF RECLAMATION, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

Energy and Water Development Appropriations Act, 2006, Title II, Section 205, Public Law 109-103.

OBJECTIVES:

To prevent crises and conflict over water in the western United States. The Challenge Grant Program is designed to contribute to this goal by providing 50 percent funding for projects that will conserve water, increase water use efficiency, or enhance water management, using advanced technology, improvements to existing facilities, and water banks and markets.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

To be used for projects that will result in water conservation, more efficient water use, or better management of existing water supplies, which can be completed within 24 months from the date of award. Types of eligible projects include: (1) use of water banks and water markets; (2) modernization of existing facilities using new technology; (3) canal lining; (4) installation of measuring devices; and (5) the development of analytical tools to better manage water resources. Financial assistance under this program is limited to 50% of the total project cost, and generally may not exceed \$300,000 per project. Congress may also authorize the Secretary to enter into grants or cooperative agreements with universities or non-profit institutions to fund water use efficiency research.

Applicant Eligibility:

Irrigation and/or water districts, state governmental entities with water management authority (e.g., state agencies, departments, boards, etc), and other entities with water delivery authority, located in the states identified in the Reclamation Act of June 17, 1902, as amended, specifically, Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming; universities and non-profit research institutions.

Beneficiary Eligibility:

The general public, irrigation or water districts, and state governmental entities with water management authority, located in the states identified in the Act of June 17, 1902.

Credentials/Documentation:

(1) A detailed written technical proposal including background data regarding the applicant, such as location, total project diversions, and relevant water use efficiency measurements, a detailed scope of work separating the work into major tasks, including any engineering or design work already completed, and describing the conservation measures and/or water banking activities to be undertaken, how the amount of saved water will be estimated, the level of cooperation with other parties involved in the proposal, and how the proposal will reduce conflict over water resources. (2) When applicable, a funding plan showing how the applicant will pay for its 50 percent cost share requirement, and an official resolution adopted by the irrigation or water district's governing board of directors, resolving that, if selected, it will negotiate and execute a grant or cooperative agreement with Reclamation. (3) A detailed project cost proposal, including a budget with the annual estimated project costs, including salaries and wages, fringe benefits, travel, equipment, supplies, contracts, and indirect costs, an estimate of annual operation and maintenance costs, and the value of in-kind contributions of goods and services.

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

Application Procedure:

A request for proposals (RFP) is posted annually by Reclamation at Grants.gov. Submission of a complete technical proposal and a project budget proposal in accordance with the instructions in the RFP is mandatory. In addition, applicants must submit all applicable SF-424 forms, which are referenced in the RFP.

Award Procedure:

The number of awards, maximum funding amount per award, and areas of interest for which proposals will be considered, are determined on an annual

basis and are dependent upon the annual appropriation from Congress. Proposals received in response to the RFP are reviewed on the basis of a competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the RFP. Reclamation will make awards to the highest rated proposals based on the amount of funding available each year. Reclamation reserves the right to prioritize projects based on availability of funds and to ensure balance among the program objectives listed in the RFP.

Deadlines:

Visit the Department of the Interior Water 2025 website, <http://www.doi.gov/water2025/>, for current information on any upcoming RFP dates and deadlines, or contact Reclamation.

Range of Approval/Disapproval Time:

Contact Reclamation for the range of time when proposals are approved or disapproved.

Appeals:

Not applicable. Reclamation will, however, provide all applicants with information on why their proposals were not selected.

Renewals:

Continuation of funding for the Program from one fiscal year to the next is at the discretion of Congress. Yearly solicitation is made for projects of 24 months in duration or less, although multi-year projects may be considered if annual accomplishments can be demonstrated.

Formula and Matching Requirements:

The Federal share of the cost of a project or activity carried out under the Program shall not exceed 50 percent of the total cost of the project or activity. Costs of operation, maintenance, repair and rehabilitation of facilities funded under the authority for this Program shall be nonfederal responsibilities. When funding is available to universities and nonprofit institutions for research projects, the 50% cost share may not be applicable.

Length and Time Phasing of Assistance:

Proposals are requested for projects of 24 months in duration or less. However, funding for multi-year projects may be considered if annual accomplishments can be demonstrated.

Reports:

The recipient must furnish quarterly and final financial reports; quarterly, annual and final performance reports; and significant development reports as needed.

Audits:

In accordance with the provisions of OMB Circular A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Nonprofit Organizations," nonfederal entities that expend \$500,000 or more a year in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in OMB Circular A-133.

EXAMPLES OF FUNDED PROJECTS:

A total of 68 Water 2025 Challenge Grant projects have been funded to date, including 43 projects by irrigation and water districts and other local entities, and 6 more by western states. The funded projects include, among others, 28 projects that will save water by eliminating evaporation and seepage by

converting a total of 74 miles of dirt canals to pipeline and lining a total of 8.6 miles of dirt canals; 46 projects that will improve the efficiency and control of water deliveries by installing water measurement and SCADA devices, and automating delivery systems; and 10 projects that involve marketing water to other water users in conformance with state laws. Short descriptions of each project funded under Water 2025 are available at <http://www.doi.gov/water2025/grant.html>.

CRITERIA FOR SELECTING PROPOSALS:

Evaluation factors may include, but are not limited to the following: (1) inclusion of water banking or marketing elements; (2) amount of water conserved as a percent of normal supplies; (3) reasonableness of the costs for the benefits gained; (4) the degree to which conserved water contributes toward an established or new water market or bank; (5) documentation of the projected results (i.e. identified the number of acre-feet to be managed, conserved or marketed), and tracking of the post-project results; (6) consistency with applicable water plan(s); (7) ability to pay for project cost and any increase in operation and maintenance costs; (8) costs are reasonable and appropriate for work proposed (including consideration of the percentage of the proposal used for capital improvements); (9) whether more than 50% non-federal funding was proposed; and (10) the relevance to Water 2025, including, the degree of stakeholder involvement and likelihood of reducing conflict, whether the project is in a hot spot, and whether the project is "in a basin with connections to Reclamation project activities."

15.508 PROVIDING WATER TO AT-RISK NATURAL DESERT TERMINAL LAKES

(Desert Terminal Lakes)

FEDERAL AGENCY:

BUREAU OF RECLAMATION, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

Farm Security and Rural Investment Act of 2002, Sec. 2507, Public Law 107-171; Energy and Water Development Appropriations Act, 2003, Title II, Sec. 207, Public Law 108-7 (to implement the Truckee River Settlement Act, Public Law 101-618); and Energy and Water Development Appropriations Act, 2004, Title II, Sec. 217, Public Law 108-137; and Public Law 109-103, Energy and Water Development Appropriations Act, 2006, Title II, Sec. 208.

OBJECTIVES:

Under this authority, Reclamation will fund various activities that will provide water to at-risk natural desert terminal lakes or fund earmarked activities.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

Funding is directed to be used to provide water only to Walker Lake, Pyramid Lake, and Summit Lake in the State of Nevada. Funding is earmarked in legislation for other specific projects. Reclamation is restricted from using the funds to purchase or lease water rights, unless specifically directed otherwise.

Applicant Eligibility:

State and local public agencies, Indian tribes, nonprofit organizations, and individuals may submit a proposal which will be considered by Reclamation. Foreign entities and Federal agencies are not eligible to apply.

Beneficiary Eligibility:

State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, individuals, small businesses, profit organizations, private organizations, quasi-public nonprofit organizations, other private institutions/organization, general public, native American organizations, farmers/ranchers/agriculture producers, and land/property owners.

Credentials/Documentation:

(1) A detailed written technical proposal including background data regarding the applicant, technical approach proposed to accomplish the work, a scope of work that separates the work into major tasks, type of personnel implementing the proposal, experience in performing this type of work, benefits to be received by implementation of the project(s), environmental impact(s), an estimate of the amount of water that will reach the impacted desert terminal lake as a result of accomplishing the work, how that amount of water was estimated, timeline(s), the level of cooperation with other parties involved in the proposal, and other information that may be useful for proposal evaluation. (2) A detailed cost proposal by project including a budget covering labor categories, salaries and wages with estimated hours, fringe benefits, travel, equipment, supplies, subcontracts, indirect cost rates, other funding sources and commitments, cost-sharing, value of in-kind contributions of goods and services, and a narrative discussion.

Preapplication Coordination:

Funding is allowed for work that will provide water to three specified desert terminal lakes in Nevada. An Environmental Impact Statement or Environmental Assessment may be required depending on the nature of the proposal and its impact on the environment. Summit and Walker Lakes Preapplication Coordination: Although it is not mandatory, Reclamation

strongly encourages offerors to submit a pre-proposal to eliminate the possibility of submitting a full proposal that would not be considered for award. The pre-proposal should describe 1) how the proposal will provide water to the terminal lake, 2) the quantity of water anticipated to be provided, 3) the associated estimated cost, 4) potential environmental impacts, 5) state, local and other permits or approvals needed to implement the proposal. Pyramid Lake Preapplication Coordination: On a periodic basis, a pre-proposal solicitation announcement is issued by Reclamation; the initial solicitation occurred in FY05. This program is excluded from coverage under E.O. 12372. No additional solicitation is planned in FY06.

Application Procedure:

Funding is allowed for work that will provide water to three specified desert terminal lakes in Nevada. For Summit Lake, Reclamation will only accept proposals from the Summit Lake Paiute Tribe, since the lake is entirely within the reservation boundaries and any proposal affecting the lake would need the consent of the Tribe. For Walker Lake, Reclamation will accept applications after the applicant provides enough preapplication information to Reclamation to assure that the proposed work will provide water to Walker Lake, the associated cost is reasonable, and it is likely Reclamation can satisfy its federal Indian trust, endangered species, environmental, and other responsibilities. For Pyramid Lake, a Request for Proposals (RFP) is issued periodically by Reclamation. Discretionary funding opportunities will be posted on Grants.gov. Submission of a complete technical proposal and a project budget proposal in accordance with the instructions in the RFP is mandatory. In addition, applicants must submit all applicable SF424 forms, which are referenced in the RFP.

Award Procedure:

For Summit Lake and Walker Lake, proposals are evaluated using a merit-based review process. For Pyramid Lake, proposals received in response to the RFP are reviewed on the basis of a competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the RFP. Reclamation will make awards to the highest rated proposals based on the amount of funding available each solicitation period. Reclamation reserves the right to prioritize projects based on availability of funds and to ensure balance among the program objectives listed in the RFP.

Deadlines:

Contact Reclamation for solicitation and proposal dates and deadlines.

Range of Approval/Disapproval Time:

Contact Reclamation for the range of time when proposals are approved or disapproved.

Appeals:

None. Reclamation will, however, provide all applicants with information on why their proposals were not selected.

Renewals:

Funding is available until all funds have been expended for this program. Additional funding for the program is at the discretion of Congress. Any request for a time extension must be in writing in accordance with the provisions stated in the agreement. On March 2, 2006, the Commissioner of Reclamation proposed to Congress that \$88 million of unobligated Desert Terminal Lakes Program funding be used for a budget rescission; until this is resolved by Congress, no funds will be available beyond those now being processed or that have been previously legislatively earmarked.

Formula and Matching Requirements:

This program has no statutory formula or matching requirements. Applicants are encouraged to cost share with other funding partners when possible.

Length and Time Phasing of Assistance:

There is no time restriction placed on the use of the funds. A schedule will be established between Reclamation and the recipient at the time of award. Any request for a time extension must be in writing in accordance with the provisions stated in the agreement.

Reports:

The recipient must furnish quarterly and final financial reports; quarterly, annual and final performance reports; and significant development reports as needed.

Audits:

In accordance with the provisions of OMB Circular A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Nonprofit organizations," nonfederal entities that expend \$500,000 or more in a year in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in OMB Circular A-133.

Records:

The recipient shall maintain project records in accordance with applicable OMB Circular regulations.

Account Identification:

Obligations:

(Grants and Cooperative Agreements) FY 07 \$7,000,000; FY 08 est. \$75,000,000; and FY 09 est. \$20,000,000.

Range and Average of Financial Assistance:

Will be provided in the RFP issued and future updates.

PROGRAM ACCOMPLISHMENTS:

During FY04, 4 of 8 earmarked proposals were awarded in the amount of \$1,633,000.00 and two (2) other projects in the amount of \$2,396,811.00. During FY05, 2 earmarked proposals were awarded in the amount of \$1.5 million. During FY06 it is anticipated that \$95 million of earmarked funding will be awarded, along with two other projects in the amount of \$1.5 million. It is estimated that proposals will be issued in subsequent fiscal years until the funding is expended. The number of awards will be based on the funding requested in the proposal and based on the merit to the program.

Colorado River Basin Salinity Control Act, Public Law 93-320, 59 Stat. 1219, as amended; Section 2, Public Law 98-569; Section 1, Public Law 104-20; Title III, Subtitle D, Chapter 4, Public Law 104-127, 110 Stat. 1006; Public Law 106-459, 114 Stat. 1987; 43 U.S.C. 1571 and 43 U.S.C. 1592(c).

OBJECTIVES:

To provide financial and technical assistance to: (1) identify salt source areas; (2) develop project plans to carry out conservation practices to reduce salt loads; (3) install conservation practices to reduce salinity levels; (4) carry out research, education, and demonstration activities; (5) carry out monitoring and evaluation activities; and (6) to decrease salt concentration and salt loading which causes increased salinity levels within the Colorado River and to enhance the supply and quality of water available for use in the United States and the Republic of Mexico. Such programs shall consist of cost-effective measures and associated works to reduce salinity from saline springs, leaking wells, irrigation sources, industrial sources, erosion of public and private land, or other sources.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

Eligible owners or operators in approved project areas may receive assistance to treat salinity problems.

Applicant Eligibility:

Federal, Interstate, Intrastate, State, Local, Sponsored organizations, Public nonprofit institution/organizations, Federally Recognized Indian Tribal Government, Individual/Family, Minority Group, Specialized Group, Small Business, Profit Organization, Other private institution/organization, general public, and Native American Organizations.

Beneficiary Eligibility:

Any person in the Colorado River Basin will benefit who uses or reuses water for irrigation, domestic, municipal or industrial water supply, or for fish and wildlife habitat.

Credentials/Documentation:

Some projects may require compliance with the National Environmental Policy Act and Endangered Species Act. Information regarding whether these requirements must be met will be included in the funding opportunity announcement posted on www.grants.gov.

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, Intergovernmental Review of Federal Programs. Award Procedure:

Reclamation will solicit proposals and award funding through a Request for Application (RFA) process. The RFA will request proposals from public and private sectors that would control salinity based on cost per ton. The proposals will be ranked based on their cost effectiveness for preventing salt from entering the Colorado River system. The ranking would consider risk factors that might affect the project's performance. Upon receipt of applications/proposals by the date identified in the announcement(s), the applications will be reviewed to determine if application/proposal(s) are consistent with requirements identified in the announcements. The application/proposal(s) are reviewed against identified criteria by a Federal technical team of experts, that may include representatives of states as advisors. Based on the review, a ranking will be defined. Negotiations will be conducted and/or awards will be made based on recommendations from the technical experts. Award will be based on those applications best meeting the needs of the program, including cost and risk factors.

Deadlines:

Varies by project. Deadline information will be included in all funding opportunity announcements posted on www.grants.gov.

RELATED PROGRAMS:

10.070, Colorado River Basin Salinity Control Program.

EXAMPLES OF FUNDED PROJECTS:

Salinity Improvement Project; Identifying Sources of Salt and Water in Grand Valley, CO; Eden Valley Salinity Project.

CRITERIA FOR SELECTING PROPOSALS:

In 1984, the Salinity Control Act was amended to direct the Secretary of the Interior to give preference to units which reduce salinity at the least cost per unit of salinity reduction (or cost-effectiveness). Cost-effectiveness is defined as the Salinity Program's annual cost per ton of salt prevented from entering the Colorado River system. Conceptually, cost-effectiveness is analogous to determining the cost per mile to own and operate a car. That computation combines the annual expenses (loan payments, gas, maintenance, etc.) and divides by the miles traveled each year. The key to understanding this approach is to appreciate that the government evaluates all projects as if the money is borrowed from a loan institution and repaid in annual installments over the life of the project. This economic evaluation principle is required by the "Economic and Environmental Principles Guidelines for Water and Related Land Resources Implementation Studies", March 1983. This method lends consistency in the comparison of non-federally financed alternatives (which must borrow funds) to Federally financed projects. Each proposal will be evaluated by a technical review panel in accordance with the following criteria and corresponding percentage weights: (a) Technical merit - those passing will be evaluated further, (b) Cost effectiveness 70 percent of the annual cost for each ton of salt load reduction, expressed in dollars per ton, (c) Performance risk 30 percent of performance risk will evaluate the cost and effectiveness risks of the proposal. More detailed information will be included in each funding announcement or may be obtained from the Salinity Control Program contacts listed above.

15.510 COLORADO UTE INDIAN WATER RIGHTS SETTLEMENT ACT

EXAMPLES OF FUNDED PROJECTS:

Strawberry Reservoir Sport Fish Management - Utah: Biologists with the Utah Division of Wildlife Resources are managing the most popular sport fishery in Utah with 75% of the funding coming from the Sport Fish Restoration Fund. Strawberry Reservoir is 17,000 surface acres at maximum pool. Approximately 1.4 million angler hours of fishing occur on Strawberry Reservoir annually. In 2004, the average summer catch rate was 0.61 fish per hour. This was the third highest catch rate ever recorded for Strawberry Reservoir going back to 1947. Two full time biologist and many days of volunteer help from Strawberry Anglers (a volunteer angling group) manage this project. Perry R. Bass Marine Fisheries Station - Texas: Through funds from the Sport Fish Restoration program, the Perry R. Bass Marine Research Facility continues operation and maintenance practices to provide research on several saltwater species. In addition to the innovative marine research, the associated hatchery annually produces 4.5 million fry/fingerling of red drum and spotted sea trout. These fish generate more than 300,000 angler days annually along the Texas Gulf Coast.

CRITERIA FOR SELECTING PROPOSALS:

The State, Commonwealth, or territorial agency having lead responsibility for the management of the State's, Commonwealth's, or territorial's fish resources must submit the projects. Prohibited activities are law enforcement and public relations.

Applicant Eligibility:

Participation is limited to State, Commonwealth, or territorial agencies with lead management responsibility for fish and wildlife resources. States, Commonwealths, and territories must pass laws (assent legislation) for the conservation of wildlife, which include a prohibition against diversion of license fees paid by hunters for purposes other than the administration of the State, Commonwealth, or territorial fish and wildlife agency.

Beneficiary Eligibility:

General Public (While direct participation is limited to fish and wildlife agencies, the general public will ultimately benefit from these wildlife conservation measures.)

Credentials/Documentation:

States, Commonwealths, or territories must notify the Secretary of the desire to participate annually. The State, Commonwealth, or territorial fish and wildlife Director must furnish a certification of the number paid hunting-license holders. Allowable costs are determined in accordance with 43 CFR Part 12, Subpart C, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments."

Regional Directors will consider differences of opinion concerning the eligibility of proposals. Final determination rests with the Director of the Fish and Wildlife Service.

Renewals:

Grantees may renew projects on an annual basis if justified and if funds are available.

Formula and Matching Requirements:

Formula-based apportionment; 50 percent based on land area of the State, Commonwealth, or territory and 50 percent based on paid hunting license holders; no State may receive more than 5 percent or less than one-half of 1 percent of the total apportionment; the Commonwealth of Puerto Rico is apportioned up to one-half of 1 percent; and Guam, U.S. Virgin Islands, American Samoa, and the Commonwealth of Northern Mariana Islands each receive up to one-sixth of 1 percent of the total apportionment. One-half of the 11-12.4 percent excise tax on archery equipment and 10 percent excise tax on handguns, pistols, and revolvers make up the funding for Hunter Education program. The other one-half of the excise tax collected are for wildlife restoration purposes. Hunter Education funds are formula-based apportionment based on population of the States. No State may receive more than 3 percent or less than 1 percent of the total Hunter Education funds apportioned. Commonwealth of Puerto Rico, Guam, U.S. Virgin Islands, American Samoa, and the Commonwealth of Northern Mariana Islands receive up to one-sixth of 1 percent of the total apportionment. Statistical factors used for fund allocation are (1) States' percentage share of land area from 2000 Census of Population; (2) States' percentage share of number of paid hunting license holders, from the source annually certified by each State's fish and wildlife agency; (3) State's percentage share of population (hunter education) from the source 2000 Census of Population. Statistical factors used for eligibility do not apply for this program. States may be reimbursed up to 75 percent of the total project cost. Commonwealths of Puerto Rico and the Northern Mariana Islands, and the territories of Guam, the U.S. Virgin Islands, and American Samoa must not exceed 25 percent and may be waived at the discretion of the Regional Director. EXAMPLES OF FUNDED PROJECTS:

The Wildlife Restoration program has provided a stable Federal funding source for State Fish and Wildlife agencies for over 70 years. This funding stability is critical to the recovery of many United States' wildlife species. Some examples of activities planned by State, Commonwealth, and territorial fish and wildlife agencies in FY 2008 include: operation and maintenance of 89 wildlife management areas in Georgia that provide approximately one million acres habitat for wildlife and related wildlife recreation such as hunting and wildlife viewing; manage hunter education and safety programs in 50 States, the U.S. Virgin Islands, Commonwealth of Puerto Rico; continued population surveys on black bear, wild turkey, white-tailed deer, moose, and waterfowl in Vermont; enhancement of 10,200 acres of shallow wetland and wet meadow habitat types unique to Carson Lake, Nevada; and design and implementation of landscape scale habitat improvement projects in critical wildlife areas throughout New Mexico.

CRITERIA FOR SELECTING PROPOSALS:

The State, Commonwealth, or territorial agency having lead responsibility for the management of the State's Commonwealth's, or territorial's wildlife resources must submit the projects. The State, Commonwealth, or territorial agency selects those projects submitted for funding under the program. If approved, projects must meet the basic criteria outlined in the regulations and the Fish and Wildlife Service Manual.

RELATED PROGRAMS:

15.605, Sport Fish Restoration Program; 15.611, Wildlife Restoration; 15.634, State Wildlife Grants.

EXAMPLES OF FUNDED PROJECTS:

A variety of projects were funded through the Cooperative Endangered Species Conservation Fund in FY 2008, including Habitat Conservation Planning Assistance grants to develop Habitat Conservation Plans (HCP) across the country in areas ranging from the bottomland forests of Arkansas to sagebrush-steppe habitat in Utah. These HCPs will benefit a wide range of plants and animals, including the endangered Butte County meadowfoam, threatened Monetary spineflower, endangered Ivory-billed woodpecker and endangered Indian bat. Most of the HCPs will address multiple species, many of them on a city, county or large watershed basis. Recovery Land Acquisition grants awarded in fiscal year 2008 will be used to acquire and protect important forest, riparian, coastal, desert, wetland, and mountain areas that represent critical portions of species' last remaining habitats. Some of these acquisitions support more than one endangered or threatened species, as well as, provide important habitat for migratory birds, other plants, and wildlife. For example, acquisition of property in northern Idaho will benefit grizzly bear, mountain caribou, bull trout, Canada lynx, and gray wolf. The acquisition of relatively pristine coastal dune, coastal prairie and riparian wetlands habitats in California will enhance recovery of three federally listed species: Western snowy plover, Howell's spineflower, and Menzie's wallflower. HCP Land Acquisitions in fiscal year 2008 will be used to help acquire vital habitat for threatened and endangered species ranging from red-cockaded woodpecker in Georgia to the Lake Erie water snake in Ohio. The land acquired under the HCP Land Acquisition program are purchased only from willing sellers, and are intended to complement but not replace the conservation responsibilities contained in the HCP.

CRITERIA FOR SELECTING PROPOSALS:

Proposals for grant funding must be submitted by the State fish and wildlife agency. The State must have an approved cooperative agreement with the Secretary of the Interior which provides for sharing responsibilities for endangered species, prior to receiving Cooperative Endangered Species Conservation Fund (section 6 of the Endangered Species Act) funds. Individual project proposals must compete with other State submissions for funding.

EXAMPLES OF FUNDED PROJECTS:

New Jersey Grassland Habitat Project - The grant restored early successional habits on selected wildlife management areas in New Jersey. Within three years, approximately 715 acres of scrub-shrub, native warm-season grasslands, and savanna developed, largely on existing fallow agricultural lands. A variety of wildlife species benefited from this working, including one Federal candidate species (Argos skipper), at least 9 State-listed species (red-headed woodpecker, grasshopper, savanna, Henslow's and vesper sparrows; upland sandpiper, bobolink, frosted elfin, and loggerhead shrike), three specials of special concern (Eastern meadowlark, American kestrel, and yellow-breasted chat); and four important game species (bobwhite quail, cottontail rabbit, woodcock, and wild turkey). Oregon East Alton Baker Park Habitat Restoration - This grant restored degraded habitats (Willamette River Riparian Forest Upland Prairie) on 237 acres in East Alton Baker Park in Eugene, OR. It protected and enhanced wildlife habitat and provided accessible, high quality public educational opportunities. The habitat enhancement benefited a number of species of concern, including Spring Chinook Salmon, Western Meadowlark, Western Pond Turtles, Townsend big-eared bats, and many others. Reintroduction of Osprey into Suitable Sites along the Missouri River in South Dakota - This grant evaluated the first year of hatching of osprey chicks at suitable sites along the Missouri River. The work contributes toward increasing the numbers of nesting new pairs and distribution of nesting ospreys in South Dakota. The long-term goal is restoration of this species to the point that it can be removed from the State list of threatened species.

CRITERIA FOR SELECTING PROPOSALS:

The State, Commonwealth, or territorial agency having lead responsibility for the management of the State's, Commonwealth's, or territorial's wildlife resources must submit the projects. The State, Commonwealth, or territorial agency selects those projects submitted for funding under the program. If approved, projects must meet the basic criteria outlined in the regulations and the Fish and Wildlife Service Manual.

15.626 HUNTER EDUCATION AND SAFETY PROGRAM

FEDERAL AGENCY:

FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

Pittman-Robertson Wildlife Restoration Act of 1937, 50 Stat. 917 as amended; 16 U.S.C. 669h-1.

OBJECTIVES:

To provide Section 10 funds for the enhancement of hunter, bow, and archery education programs and the enhancement or construction of firearm shooting ranges and archery ranges.

TYPES OF ASSISTANCE:

Formula Grants.

USES AND USE RESTRICTIONS:

Section 10 funds supplement Section 4(c) Hunter Education funds, thereby enhancing Hunter Education. The Congressional Record affirms that Section 10 funds should be used to: hire additional staff for Hunter Education programs; provide additional materials for Hunter Education courses; enhance and modernize materials as needed; investigate new technologies and delivery methods; develop and evaluate home study courses; create advanced hunter education courses; perform programmatic evaluations and monitoring of hunter education classes; and improve and enhance training for Hunter Education instructors. This policy is consistent with what Congress intended when they passed the Pittman-Robertson Wildlife Restoration Act. It provides States, Commonwealths and territories with flexibility, while enhancing hunting and shooting activities and projects. Again, these funds may be used for the enhancement of hunter education programs and construction of ranges until the State, Commonwealth, or territory obligates all of their Section 4(c) Hunter Education funds apportioned to them for hunter education and safety as stated in 16 U.S.C. 669c. Ineligible activities include law enforcement and public relation.

Applicant Eligibility:

Participation is limited to State, Commonwealth or territorial agencies with lead management responsibility for fish and wildlife resources. States, Commonwealths, and territories must pass laws (assent legislation) for the conservation of wildlife which include a prohibition against diversion of license fees paid by hunters for purposes other than the administration of the State, Commonwealth, or territorial fish and wildlife agency.

Beneficiary Eligibility:

General Public (While direct participation is limited to fish and wildlife agencies, the general public will ultimately benefit from these hunter safety programs.)

Credentials/Documentation:

States, Commonwealths, or territories must notify the Secretary the desire to participate annually. The State, Commonwealth, or territorial fish and wildlife Director must furnish a certification of the number of paid hunting-license holders. Allowable costs are determined in accordance with 43 CFR Part 12, Subpart C, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments."

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State, Commonwealth or territory for more information on the process required by the State, Commonwealth, or territory requires when applying for assistance, if the State, Commonwealth, or territory selected a program for review.

Application Procedure:

Grantees will submit a grant proposal that includes a narrative statement describing the need, objectives, benefits, approach, and estimated cost for the proposed grant along with the standard application forms furnished by the Federal agency and required by 43 CFR Part 12, Subpart C, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments" and the Fish and Wildlife Service Manual. For further instructions and forms go to <http://wsfrprograms.fws.gov/subpages/toolkitfiles/toolkit.pdf> or www.grants.gov.

Award Procedure:

The Regional Director of the Fish and Wildlife Service or his or her designee approves or disapproves proposed grants. Regional Offices are responsible for notification of grant approval to the grantee.

Deadlines:

None.

Range of Approval/Disapproval Time:

Approximately 30 days.

Appeals:

Regional Directors will consider the differences of opinion about eligibility of proposals. Final determination rests with the Director of the U.S. Fish and Wildlife Service.

Renewals:

Grantees may renew projects on an annual basis if justified and if funds are available.

Formula and Matching Requirements:

One-half of the 11 percent manufacturer's excise tax on bows, arrows, and archery equipment and 10 percent manufacturer's excise tax on handguns,

pistols, and revolvers makeup the funding for the Hunter Education program.

The other one-half of the manufacturer's excise tax are for wildlife restoration purposes including the 11 percent manufacturer's excise tax on firearms and ammo. Formula-based apportionment; based on State population compared to the total U.S. populations using last census figures; No State may receive more than 3 percent on less than 1 percent of the total Hunter Education funds apportioned; and the Commonwealth of Puerto Rico, Guam, U.S. Virgin Islands, American Samoa, and the Commonwealth of Northern Mariana Islands receive up to one-sixth of 1 percent of the total apportionment. Statistical factors used for fund allocation are (1) States' percentage share of land area from the 2000 Census of Population; (2) States' percentage share of the number paid hunting license holders, from the source annually certified by each State's fish and wildlife agency; (3) States' percentage share of population (hunter education) from the source 2000 Census of Population. Statistical factors used for eligibility do not apply for this program. States may be reimbursed up to 75 percent of the total project cost. Commonwealths of Puerto Rico and the Northern Mariana Islands, the territories of Guam, the U.S. Virgin Islands, and the American Samoa must not exceed 25 percent and may be waived at the discretion of the Regional Director. The non-Federal share could come from license fees paid by hunters. Matching and cost-sharing requirements are discussed in 50 CFR 80.12, 43 CFR 12.64 and 43 CFR 12.923.

Length and Time Phasing of Assistance:

Apportioned funds are available for obligation for a period of one year. Balances remaining un-obligated after one year are returned to be reapportioned to States, Commonwealths, and territories that obligate all of the funds apportioned to them under section 4(c) and section 10 of the Pittman-Robertson Wildlife Restoration Act for hunter safety related activities. For more information, see the Hunter Education Guide at <http://wsfrprograms.fws.gov/subpages/toolkitfiles/toolkit.pdf>.

RELATED PROGRAMS:

15.630, Coastal Program.

EXAMPLES OF FUNDED PROJECTS:

Typical wetland restoration and enhancement techniques involve restoring the natural hydrology of a site through the blocking of surface ditches, breaking sub-surface drain tiles, building shallow berms to trap water, filling in concentration pits, removing eroded sediment which fills in basins, installing grass buffers, or installing fences along wetlands or stream corridors that prevent cattle grazing within the stream or wetland. Other wetland enhancement activities include working with the landowners to better manage the wetlands through the use of grazing, haying, discing, and burning. Upland restoration and enhancement and riparian areas are restored and enhanced through re-seeding or planting native grass, forbs, woody shrubs and trees. The installation of cross fencing along with providing alternative sources of water, assist landowners develop grassland/grazing management plans that have greater benefits for wildlife. Removing barriers to fish migration and using natural channel design techniques is the main focus of the Partners Program in-stream restoration work. Riparian fencing and improved grazing systems compliments stream restoration work.

CRITERIA FOR SELECTING PROPOSALS:

In general, projects must benefit Federal trust species, involve on-the-ground habitat restoration, and be cost-effective. Specific criteria for reviewing and ranking projects were established in the national Partners policy, at <http://www.fws.gov/policy/640fw1.html>. The program gives high priority to proposed projects that benefit the National Wildlife Refuge System and/or species at risk. Projects also receive priority if they: were identified as priority

by Service ecosystem teams; reduce habitat fragmentation; conserve globally or nationally imperiled habitats; and are self-sustaining. Also take a look at the annual Notice of Availability of Federal Assistance referenced in <http://grants.gov>.

15.636 ALASKA SUBSISTENCE MANAGEMENT

FEDERAL AGENCY:

FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

Alaska National Interest Lands Conservation Act (ANILCA) of 1980, Title VIII, Public Law 96-487, 16 U.S.C. 3101-3233, Section 809. Fish and Wildlife Coordination Act (16 U.S.C. 661 to 666).

The Fisheries Resource Monitoring Program (Monitoring Program) funds approximately 80 studies annually to provide information on stock status and trends, harvests, and traditional ecological knowledge to manage and regulate Federal subsistence fisheries. The Partners for Fisheries Monitoring Program (Partners Program) strengthens Alaska Native and rural involvement subsistence fisheries and research. The program provides funds directly to Alaska Native and rural organizations to hire fishery biologists, social scientists, and educators to implement fisheries monitoring projects and rural internship programs. The Liaison and Staff Support Grant to the State of Alaska is directed specifically to the Alaska Department of Fish and Game. The

grant defrays salary and travel expenses that occur in support of the coordination between State and Federal subsistence fish and wildlife programs.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS:

Funds may be used for approved fish and wildlife subsistence management, fisheries monitoring and traditional ecological knowledge projects.

Applicant Eligibility:

An individual/family, profit organization, other private institution/organization, public nonprofit institution/organization; an officer, employee, agent, department or instrumentality of the Federal government, of the State of Alaska, municipality or political subdivision of the State of Alaska; Federally recognized Indian Tribal Government (including any Native village as defined in the Alaska Native Claims Settlement Act).

An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure:

The standard SF-424 application forms required by 2 CFR Part 215.12, and the Department of Interior Code of Federal Regulations at 43 CFR Part 12, Subpart F, or its revisions, must be used. For both the Monitoring and Partners programs, a Request for Proposal (RFP) will be posted biennially on <http://fedbizopps.gov> and <http://grants.gov>. Complete application information can be found on the Office of Subsistence Management (OSM) website at: <http://alaska.fws.gov/asm/fisindex.cfm> or, if unable to access the website a proposal package containing specific requirement information can be requested from Attn: Kathleen Orzechowski, Program Specialist, Office of Subsistence Management, Fisheries Division, 3601 C Street, Suite 1030, Anchorage, Alaska 99503. For the Liaison and Staff Support Grant, a Request for Proposal will be posted annually on <http://grants.gov> APPLY. Information can be requested from Attn: Greg Risdahl, Wildlife Biologist, Office of Subsistence Management, Fisheries Division, 3601 C Street, Suite 1030, Anchorage, AK 99503.

Award Procedure:

For the Monitoring Program, an inter-agency technical review committee evaluates and ranks proposals, and, for those selected for further consideration, subsequently the full investigation plans. The committee develops a draft monitoring program from the highest priority projects, based on their technical review and available funds. The draft monitoring plan is reviewed by ten regional advisory councils and the public. An inter-agency staff committee reviews all recommendations, and reconciles differences between staff and public recommendations. The Federal Subsistence Board approves biennial monitoring plans with the benefit of both a technical recommendation by the Technical Review Committee and public review by the Regional Advisory Councils. For the Partners Program, an internal review committee evaluates proposals and makes recommendations for funding. The committee evaluations are based on the criteria outlined in the request for federal assistance. The review committee ranks proposals and the assistant regional director selects proposals that best support the program within available funding. Once a Monitoring Program project or Partners Program position is selected for funding, a funding instrument, i.e., notice of award, between Fish and Wildlife Service and the recipient is drafted by the OSM. The award is processed by OSM through the contracting office and sent to the recipient for signature. The award is considered executed when signed copies of the agreement are received from the recipient and the contracting office has obligated funds to the agreement. The awards are administered by OSM. For the Liaison and Staff Support Grant, the Alaska Department of Fish and Game is the only non-Federal entity with management authority over fish and wildlife resources. This grant agreement is not open to competition outside the Alaska Department of Fish and Game.

PROGRAM ACCOMPLISHMENTS:

The Monitoring and Partners programs provide critical information needed for the management and regulation of Alaska's subsistence resources, as directed by the ANILCA. The Monitoring Program provides over \$4 million annually for research and monitoring projects in Alaska. Approximately 80 projects are conducted annually. Projects provide information on over 70 fish populations important for subsistence fishers, who annually consume over 220 pounds of fish per person in rural Alaska. Over 100 Alaska Native and rural organizations have participated in the program. By providing sound scientific data, building capacity in rural organizations forging partnerships, and promoting local involvement, the Monitoring Program has enabled Federal and State governments to better manage fisheries and provide for subsistence uses. Through the Partners for Fisheries Monitoring Program, the U.S. Fish and Wildlife Service is building the capability and expertise of Alaska Native organizations to participate more fully in subsistence fishery management. With both Monitoring and Partners programs, subsistence fisheries are actively managed and sustained, proposed regulatory changes are analyzed, local concerns are addressed, conflicts among user groups are minimized, and Alaska Native and rural organizations are meaningfully involved in subsistence fisheries management and monitoring. Successful partnerships among government, Alaska Native, and other organizations have promoted more effective information collection, promoted internships and mentoring in rural Alaska, and improved local understanding and support for the subsistence management program. The Liaison and Staff Support Grant provides for effective dual management and coordination between the Alaska Department of Fish and Game and the Office of Subsistence Management. The grant provides funding for the State to meet its responsibilities to maintain healthy fish and wildlife

resources while providing contained harvest opportunities for Alaska residents. In addition to the development of State and Federal harvest regulations, i.e., seasons, harvest limits, and methods and means, dual management also includes the recognition of customary and traditional uses and subsistence use amounts, as well as the sharing of harvest data. More specifically it is intended to protect and promote the sustained health of fish and wildlife populations, to ensure conservation and stability in fisheries and wildlife management and to include meaningful public involvement.

EXAMPLES OF FUNDED PROJECTS:

Monitoring Program: There are more than 330 known steelhead streams in Southeast Alaska. The numbers of adult fish in these streams were estimated in the late 1980s. Most populations are thought to be quite small, with an annual run size of 100 or fewer adult steelhead. Approximately 56 streams are estimated to have run sizes of more than 200 fish, of which 12 are thought to contain more than 500 fish. Several systems may contain adult runs of 1,000 or more fish. Of the approximately 330 steelhead streams in Southeast Alaska, 75 are located on Prince of Wales Island. A three-year project to assess adult steelhead populations through the use of weirs on five Prince of Wales Island streams concluded in 2007 and a final report is being prepared. The data gathered will help ensure careful management of steelhead stocks. The steelhead population assessment project is a cooperative effort of the Alaska Department of Fish and Game, the Organized Village of Kasaan, the Bureau of Indian Affairs, and the Forest Service. A study documenting traditional methods of harvest, use and processing of steelhead was completed in 2005. This was a cooperative effort of the Alaska Department of Fish and Game, Craig Community Association, Klawock Cooperative Association, and Hydaburg Cooperative Association. Partners Program: The success of the Fisheries Resource Monitoring Program depends upon a well informed public, and support of the program and resulting projects within rural communities. However, most rural communities and organizations do not have the capacity to meaningfully participate in the program, and many people do not understand how the program operates. Within the Kuskokwim region, Kuskokwim Native Association was recently awarded two positions, a fishery biologist and an educator position. The biologist will serve as a co-investigator on seven Monitoring Program projects and serve as a mentor for rural college student interns. The educator will mentor students working on Monitoring Program projects during the summer and assist students in the fall while they bring what they learned into their classrooms.

CRITERIA FOR SELECTING PROPOSALS:

For the Monitoring Program, each proposal is evaluated using the following four criteria: (1) Strategic Priorities: Studies must be responsive to identified issues and information needs. All projects must have a direct association to a Federal subsistence fishery, and either the subsistence fishery or fish stocks in question must occur in waters within or adjacent to Federal public lands. (2) Technical and Scientific Merit: Technical quality of the study design must meet accepted standards for information and collection, compilation, analysis, and reporting. Studies must have clear objectives, appropriate sampling design, correct analytical procedures, and specified progress and final reports. (3) Investigator Ability and Resources: Investigators Ability and Resources: Investigators and their organizations should have demonstrated technical and administrative expertise to complete prior studies, or have co-investigators or appropriate partnerships with other organizations to meet all requirements of the study. (4) Partnership-Capacity Building: Studies must include appropriate partners and contribute to building capacities of rural organizations, local communities, and residents to participate in fisheries resource management. Investigators and their organizations should be able to demonstrate the ability to maintain effective local relationships and a commitment to capacity building. For the Partners Program, each proposal is evaluated using the following equally weighted criteria: (1) Ability to successfully implement the program as described. (2) Strategic priority and past performance of the Monitoring Program project. (3)

Letters of support from tribal and rural organizations, government agencies, project investigators, and schools/universities. (4) Annual and total cost of the proposal, including the use of in-kind or matching contributions that either decrease cost or expand support for implementing the Partners Program. (5) Past performance on implementing Monitoring Program projects. (6) Past performance on current or past agreements with the Office of Subsistence Management. (7) Previous experience in mentoring, training, and supervising personnel. (8) Past and current accounting practices to ensure deliverables and accountability. (9) The following items must be included in the application for successful submission and review. Each of these items carries a "Go/No-Go" impact: lack of direct linkage of a Monitoring Program project, enrollment in CCR; affirming in writing in your application that you have enrolled in CCR; providing your DUNS Number; submission of completed SF-424, SF-424A, and SF-424B package; and submission of indirect rate documentation (the agreement, the pool, and the base) if requesting reimbursement for indirect costs, unless no indirect reimbursement is being requested. For the Liaison and Staff Support Grant, the Alaska Department of Fish and Game is the only non-federal entity with management authority over fish and wildlife resources. This grant agreement is not open to competition outside the Alaska Department of Fish and Game.

FEDERAL AGENCY:

FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

Marine Turtle Conservation Act of 2004, Public Law 108-266.

OBJECTIVES:

To assist in the conservation of marine turtles and the nesting habitats of marine turtles in foreign countries by supporting and providing financial resources for projects to conserve the nesting habitats, conserve marine turtles in those habitats, and address other threats to the survival of marine turtles.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

Project work should occur in foreign countries (outside of the United States) that have within their boundaries marine turtle nesting habitats and be conducted by any person or group with the demonstrated expertise required for the conservation of marine turtles. Grants and payments may be used for the conservation of any bird species protected by the Migratory Bird Treaty Act and occurring in the Fish and Wildlife Service (FWS) Region 3 (Upper Midwest, including IL, IN, IA, MI, MN, MO, OH, and WI). Special emphasis will be placed on the bird species listed in USFWS Region 3's Fish and Wildlife Resource Conservation Priorities document (<http://www.fws.gov/midwest/News/documents/priority.pdf>) as these species are experiencing known or suspected population declines, are recreationally important, or are causing biological or social conflicts. Implementing national, regional, and flyway bird conservation plans, including the Partners in Flight North American Landbird Conservation Plan (<http://www.partnersinflight.org>), U.S. Shorebird Conservation Plan (<http://shorebirdplan.fws.gov>), North American Waterbird Conservation Plan (<http://www.waterbirdconservation.org>), North American Waterfowl Management Plan (<http://www.fws.gov/birdhabitat/NAWMP/index.shtml>), and Mississippi Flyway waterfowl management plans, is the FWS's highest priority, and proposals related to the priorities identified in these plans and Bird Conservation Region and state-level bird conservation planning efforts will receive the greatest funding consideration. Proposals should address one or more of the following activities: (a) Population surveys and monitoring to determine the status, trends, and distribution of bird species and groups of concern. Emphasis will be placed on landscape-level applications of standardized inventory and monitoring protocols (e.g., Breeding Bird Atlases, national marshbird call playback surveys). Local-scale monitoring (e.g., local land management units) activities will generally not be a focus of this grant program; (b) Applied research, including studies of habitat requirements, limiting factors, and population responses to habitat conservation activities; development of new monitoring techniques and programs for poorly-surveyed species; and use of Geographic Information Systems, bird habitat modeling, and similar tools to identify bird habitat focus areas and further bird conservation planning efforts; (c) Compilation of technical information, such as status reviews of bird species of concern and development of habitat management and restoration guidelines.

Applicant Eligibility:

Federal, State and local government agencies; Federally-recognized Indian Tribal governments; private nonprofit institutions/organizations; and public nonprofit institutions/organizations.

Note that the FWS may circulate proposals to others for review.

Award Procedure:

The Regional Migratory Bird Program Chief convenes a committee of FWS biologists to review, rank, and select proposals for funding. Once a proposal is accepted, a grant agreement is written and work can begin.

Deadlines:

Contact the Regional Office for application deadlines. Funding decisions are made at least annually.

Range of Approval/Disapproval Time:

GEOLOGICAL SURVEY, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

National Geologic Mapping Reauthorization Act of 1999, Public Law 106-148.

OBJECTIVES:

To produce geologic maps of areas in which knowledge of geology is important to the economic, social, or scientific welfare of individual States. STATEMAP supports: (1) projects which produce new geologic maps with attendant explanatory information including correlation of map units, description of map units and symbols, stratigraphic columns, geologic sections, and other pertinent information; and (2) projects which compile existing geologic data in a digital form at a scale of 1 to 100,000 for inclusion in the National Digital Geologic Map Database. OBJECTIVES OF EDMAP: Provide funding for graduate students in academic research programs, through cooperative agreements, that involve geologic mapping and scientific data analysis as major components; expand research and educational capacity of graduate programs that teach earth science students the techniques of geologic mapping and field data analysis; and facilitate the publication and distribution of geologic maps generated in field-based graduate academic research programs.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

STATEMAP Two types of projects are supported by this program: (1) those which produce new geologic maps with attendant explanatory information, and (2) those which compile existing geologic data in a digital form at a scale of 1 to 100,000 for inclusion in the National Geologic Map Database. Only one application will be accepted from each State, however, each proposal can have four sub-projects; three for new geologic mapping and one for compilation. State proposals cannot include in-kind services by the Geological Survey. Travel to meetings of professional societies is not an acceptable expense for the program, nor are funds intended for the purchase of computer hardware, software, or other nonexpendable property. EDMAP Only one cooperative agreement will be awarded to each academic institution, but the agreement may consist of more than one project, more than one faculty supervisor and several students. Proposals cannot include a request for in-kind services by the Geological Survey. Funds are not intended for the purchase of capital equipment.

However, if approved the proposal will be funded for the first year only. Funding for year two will be determined through the annual competitive announcement.

Formula and Matching Requirements:

The STATEMAP program is required by Public Law 106-148 to be carried out on a 1:1 matching basis; each recipient must match each Federal dollar with a nonfederal dollar. The nonfederal share may be contributions of services or cash provided to contractors to perform geologic mapping or other services directly applicable to proposed work on the project. The specific source(s) of the State contribution, such as State legislative appropriation, must be provided in the proposal. The EDMAP program is required by Public Law 106-148 to be carried out on a 1:1 matching basis; each recipient must match each Federal dollar with a nonfederal dollar. States may transfer funds to third parties to carry out historic preservation activities such as surveys, preservation plans, National Register nominations, architectural plans and specifications, historic structures reports, and engineering studies necessary to restore properties listed on the National Register of Historic Places, and for acquisition or repair of these properties. Development projects must comprise one or more of the 4 allowable treatments defined in the "Secretary of the Interior's Standards for the Treatment of Historic Properties" (36 CFR 78). These treatments are preservation, restoration, rehabilitation, and reconstruction. Major reconstruction is not eligible. PROGRAM ACCOMPLISHMENTS:

See 15.914, National Register of Historic Places for the number of historic districts, individual properties, and National Historic Landmarks nominated because of the Historic Preservation Fund Grants-in-Aid Program. Since 1968, over \$1.3 billion has been awarded to 50 States and Territories, the National Trust, and Tribes. Over 850 subgrants were awarded by 59 State and Territorial grantees in Fiscal Year 2003. These categorical matching grants administered by the National Park Service provide partial funding support to State Historic Preservation Offices (SHPOs) in carrying out statutory responsibilities under the National Historic Preservation Act, as amended, for the following types of activities: (1) conducting a comprehensive survey of historic properties (12.4 million acres and 123,000 properties assessed) and maintaining inventories of information gained from such survey; (2) nominating properties to the National Register of Historic Places (1,450 nominations); (3) assisting and advising Federal and State agencies and local governments in carrying out their historic preservation responsibilities (e.g., 105,000 Federal projects reviewed); (5) cooperating with local governments in developing local historic preservation programs (total of 1,431 Certified Local Governments (CLGs); and (6) advising and assisting in the evaluation of proposals for rehabilitation projects that may qualify for Federal tax incentives (e.g., 3,400 Federal Tax Credit applications

reviewed). Some of the indicators of program success or outcome include: historic resources saved, customers satisfied, timely responses to requests, and increases in grant products such as those noted above.

TYPES OF ASSISTANCE:

Advisory Services and Counseling.

USES AND USE RESTRICTIONS:

Properties recognized as National Historic Landmarks will, upon application by the owner or administrator, be awarded a bronze plaque attesting to the property's national significance. At the same time, the applicant is requested to observe certain simple preservation precepts with regard to the property. Should subsequent occurrences alter the historic qualities of the property, landmark status may be revoked and the plaque removed. Automatic listing of National

Historic Landmark properties in the National Register of Historic Places affords a degree of Federal protection under Section 106 of the Historic Preservation Act of 1966, and fulfills one of the prerequisites for Federal assistance under the National Register grants-in-aid program (see 15.904). Certain landmarks are also made eligible for Federal tax benefits and protections and technical preservation assessment and assistance.

Applicant Eligibility:

Anyone may suggest that a property be considered for inclusion in an appropriate National Historic Landmark theme study, provided the property has a high degree of historic integrity and potential national significance with relation to some broad facet of American history. The owner of the property may be an individual, government, or corporate body. Properties of only State or local significance do not qualify.

Beneficiary Eligibility:

Anyone may suggest that a property be considered for inclusion in an appropriate National Historic Landmark theme study, provided the property has a high degree of historic integrity and potential national significance with relation to some broad facet of American history. The owner of the property may be an individual, government, or corporate body. Properties of only State or local significance do not qualify.

Credentials/Documentation:

Request should be supported by full discussion of national significance of property and documented integrity.

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

Application Procedure:

If the property is not listed in the National Register of Historic Places, write the National Historic Landmarks Survey giving a brief resume of the history of the property and its present condition and advising what assistance can be provided in the nomination process. If the property is already listed in the National Register, provide a brief resume of the historical facts that justify consideration of national significance. Properties nominated to, or already listed in, the National Register of Historic Places at a national level of significance by the State Historic Preservation Officer may be reviewed by the National Historic Landmarks Survey staff.

Award Procedure:

When the property has been investigated, findings, in the form of a thorough NHL nomination form, are presented to the National Park System Advisory Board which evaluates the property's national significance and high integrity and recommends a final action to the Secretary of the Interior. Owners of proposed landmarks are contacted prior to a landmark study, given an opportunity to comment on a final study, and then notified after designation of the landmark.

Deadlines:

Varies with dates of twice yearly Advisory Board meetings. National Historic Landmarks Survey staff sets deadlines for nominations before Advisory Board meetings.

Range of Approval/Disapproval Time:

Determined by scheduling of theme studies, availability of staff or funds, and proximity to twice yearly Advisory Board meetings.

15.914 NATIONAL REGISTER OF HISTORIC PLACES

(National Register)

FEDERAL AGENCY:

NATIONAL PARK SERVICE, DEPARTMENT OF THE INTERIOR

AUTHORIZATION:

National Historic Preservation Act of 1966, as amended, Public Law 89-665, 16 U.S.C. 470, 80 Stat. 915 et seq.; Executive Order 11593, May 13, 1971; Tax Reform Act of 1976, Public Law 94-455; Public Law 94-442; 90 Stat. 1519; Revenue Act of 1978; Public Law 95-600; National Historic Preservation Act Amendments of 1980; Public Law 96-515; Tax Treatment Extension Act of 1980; Public Law 96-541; Economic Recovery Tax Act of 1981, Public Law 97-340; Tax Reform Act of 1984, Public Law 98-369; Tax Reform Act of 1986, Public Law 99-514; National Historic Preservation Act Amendments of 1992, Public Law 102-575; Executive Order 13287, March 3, 2003.

OBJECTIVES:

To expand and maintain the National Register of Historic Places for planning, preservation, research, public education and tourism efforts; to make the information on districts, sites, buildings, structures and objects of historical, architectural, archeological, engineering and cultural significance more accessible to the public in order to increase and broaden the public's understanding of the information, foster a national preservation ethic, and to promote greater appreciation of America's heritage; to coordinate with Federal agencies, State and Tribal preservation offices, and the Advisory Council on Historic Preservation in the implementation of laws and policies pertaining to historic preservation; and to establish liaison with and give guidance to communities under Title I of the Housing and Community Development Act of 1974 (see 14.218).

TYPES OF ASSISTANCE:

Advisory Services and Counseling.

USES AND USE RESTRICTIONS:

Professional advice is provided in determining whether a property qualifies for inclusion in the National Register according to the Criteria for Evaluation contained in 36 CFR Part 60. Listing does not affect the range of actions an owner may take, as long as Federal funding, licensing or assistance is not involved and no governmental unit receives any authority or control over the property, including its use and disposition. However, if a Federal project might have an effect on a property listed or eligible for listing, the agency involved must provide the Advisory Council on Historic Preservation a reasonable opportunity to comment pursuant to 36 CFR Part 800. Registered properties also become eligible to receive grants from the Historic Preservation grant-in-aid program of the Department of the Interior (see 15.904), when funding is available, to receive home improvement loans from the Department of Housing and Urban Development under Title I of the National Housing Act as amended on October 18, 1974, or to participate in the community grant program provided by the Housing and Community Development Act of 1974. Major Federal tax advantages can be received on certain rehabilitation expenditures for "certified historic structures" and for charitable contributions for conservation purposes of partial interests in historic properties.

Applicant Eligibility:

Eligible applicants are the States and territories as defined in the National Historic Preservation Act, operating under programs administered by State Historic Preservation Officers appointed by the Governors (listed in Appendix IV of the Catalog); or the Tribal Preservation Officers; Federal agencies required to nominate and consider historic properties within their jurisdiction or as a result of the National Environmental Policy Act of 1969 and Executive Order 11593, and the National Historic Preservation Act operating under programs

administered by representatives (listed in Appendix IV of the Catalog) appointed by the heads of the agencies; and, in States without approved State Historic Preservation Programs, persons and local governments. Applicants eligible for Federal Tax benefits include owners of individually listed properties and properties certified by the Secretary of Interior as being historic and in a district certified as historic.

Beneficiary Eligibility:

Public and private owners of historic properties listed in the National Register of Historic Places or of properties certified by the Secretary of Interior as being historic and in a district certified as historic.

Credentials/Documentation:

Nominations are submitted on standard nomination forms provided upon request to the State Historic Preservation Officers, Federal Preservation Officers, and Tribal Preservation Officers who must certify that each property was properly nominated. Procedures for National Register nominations are found in 36 CFR Part 60. Request for determinations of eligibility must be adequately documented as described in Appendix A of 36 CFR Part 63. Requests for certification of historic properties must be documented as described in Section 36 CFR Part 67 and requests for certification of State and local statutes and districts must be documented as described in Section 36 CFR Part 67. To participate in the program, each State must have an approved review board, an approved State staff, and an accepted State historic preservation plan.

Preapplication Coordination:

For National Register nominations the signature of the State Historic Preservation Officer on the nomination form certifies that the State review board has reviewed the nomination and that all applicable procedures, including notification to the property owner at least once during the nomination process, have been followed. The signature of the Federal Preservation Officer for Federal property or the Tribal Preservation Officer on Tribal lands on the nomination form certifies that the property has been nominated in compliance with the National Historic Preservation Act. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Anyone may prepare a National Register nomination. After the property is approved by the State Historic Preservation Officer, Tribal Preservation Officer, or Federal Preservation Officer, the nomination form or letter of request for a determination of eligibility should be forwarded to the Keeper of the National Register, National Park Service, Department of the Interior, 1849 C Street, NW, Mail Stop 2280, Washington, DC 20240. Nominations submitted for review are announced in the Federal Register to provide a period of comment. Documentation for certification for Federal tax benefits of historic buildings and structures, State and local statutes and districts should be forwarded to the appropriate State Historic Preservation Office, which sends it to the appropriate National Park Service Office.

Award Procedure:

The professional review staff of the National Register determines whether the properties meet the National Register criteria as contained in 36 CFR Part 60. Properties that meet the criteria are then officially listed in the National Register and become eligible for Federal tax benefits and Historic Preservation Fund grants when they are available.

Deadlines:

None.

Range of Approval/Disapproval Time:

After nomination by State, 45 days at Federal level.

Appeals:

A nomination returned to the States, Tribes, or Federal agencies may be resubmitted, depending upon the reason for its rejection. Appeals for listing and removal may be made in accord with 36 CFR 60.

CRITERIA FOR SELECTING PROPOSALS:

Criteria for Evaluation: The following criteria are designed to guide the States and the Secretary of the Interior in evaluating potential entries (other than areas of the National Park System and National Historic Landmarks) to the National Register: The quality of significance in American history, architecture, archeology, engineering, and culture is present in districts, sites, building, structures, and objects that possess integrity of location, design, setting, materials, workmanship, feeling, and association, and; (A) that are associated with events that have made a significant contribution to the broad patterns of our history; or (B) that are associated with the lives of persons significant in our past; or (C) that embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or (D) that have yielded, or may be likely to yield, information important in prehistory or history. Ordinarily cemeteries, birthplaces, or graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original locations, reconstructed historic buildings, properties primarily commemorative in nature, and properties that have achieved significance within the past 50 years shall not be considered eligible for the National Register. However, such properties will qualify if they are integral parts of districts that do meet the criteria or if they fall within the following categories. (A) a religious property deriving primary significance from architectural or artistic distinction or historical importance; or (B) a building or structure removed from its original location but which is significant primarily for architectural value, or which is the surviving structure most importantly associated with a historic person or event; or (C) a birthplace or grave of a historical figure of outstanding importance if there is no other appropriate site or building directly associated with his productive life; or (D) a cemetery which derives its primary significance from graves of persons of transcendent importance, from age, from distinctive design features, or from association with historic events; or (E) a reconstructed building when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and when no other building or structure with the same association has survived; or (F) a property primarily commemorative in intent if design, age, tradition, or symbolic value has invested it with its own historical significance, or (G) a property achieving significance within the past 50 years if it is of exceptional importance.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

Acquisition and development grants may be used for a wide range of outdoor recreation projects, such as picnic areas, inner city parks, campgrounds, tennis courts, boat launching ramps, bike trails, outdoor swimming pools, and support facilities such as roads, water supply, etc. Facilities must be open to the general public and not limited to special groups. Development of basic rather than elaborate facilities is favored. Fund monies are not available for the operation and maintenance of facilities. Grants are also available to States only for revising and updating existing SCORPs preparation of new plans and for statewide surveys, technical studies, data collection and analysis and other planning purposes which are clearly related to SCORP refinement and improvement. Every site acquired or developed with assistance under this program must remain available and accessible for public outdoor recreation use in perpetuity.

Applicant Eligibility:

For planning grants, only the State agency formally designated by the Governor or State law as responsible for the preparation and maintenance of the Statewide Comprehensive Outdoor Recreation Plan is eligible to apply. (Treated as States in this regard are the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, the Northern Mariana Islands, and Guam.) For acquisition and development grants, the above designated agency may apply for assistance for itself, or on behalf of other State agencies or political subdivisions, such as cities, counties, and park districts. Additionally, Indian tribes which are

organized to govern themselves and perform the function of a general purpose unit of government qualify for assistance under the program. Individuals and private organizations are not eligible.

Beneficiary Eligibility:

The general public. For planning grants, same as Applicant Eligibility.

Credentials/Documentation:

The State Liaison Officer (SLO), appointed by the Governor to administer the program in the State, must furnish assurance that the project is in accord with the State Comprehensive Outdoor Recreation Plan; i.e., that it meets high priority recreation needs shown in the action program portion of the plan. The State's apportionment balance of fund monies must be adequate for the project, and the sponsoring agency must permanently dedicate the project to public outdoor recreation and assume responsibility for operation and maintenance. SCORPs must cite the State's legal authority to participate in the Land and Water Conservation Fund program. Costs will be determined in accordance with 43 CFR Part 12, Subpart C, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." Section 12.62 (of the common rule), identifies Federal cost principles for determining allowable costs.

Preapplication Coordination:

The standard application forms furnished by the Federal agency and required by 43 CFR Part 12, Subpart C, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," must be used for this program. Applicant is required to furnish basic environmental information or evaluation. Assessment by the National Park Service will determine whether an environmental impact statement will be prepared. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. This program is covered under OMB Circular No. A-102.

Application Procedure:

Project proposals are submitted to the National Park Service through the State liaison officer designated by the Governor. The State Liaison Officer has the initial prerogative of determining acquisition and development project eligibility, priority need, and order of fund assistance within the State. This program is excluded from coverage under OMB Circular No. A-110.

Award Procedure:

Proposals are reviewed by the NPS field office, where final action may be taken.

Deadlines:

Formula and Matching Requirements:

The Land and Water Conservation Fund Act specifies that not more than 50 percent of the project cost may be federally financed. Under certain conditions, all or part of the project Sponsor's matching share may be from certain other Federal assistance programs, such as Title I Community Development, Appalachia and all other Regional Commissions. Forty percent of the first \$225 million; thirty percent of the next \$275 million; and twenty percent of all additional appropriations is apportioned equally among the States. The remaining appropriation is apportioned on the basis of need. This program has maintenance of effort (MOE) requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Funds are available for obligation during the fiscal year in which appropriated and for the two following fiscal years. The assistance period for individual projects varies and may be extended. Complex projects may be broken down into stages, with one being initially approved and the remainder qualified for activation at a later date. Except for project preparation costs, all costs must be incurred within the project period. Planning projects may not be phased.

Reports:

State inspection reports are submitted every 5 years on completed projects stating whether the properties acquired and/or developed with fund assistance are used in accordance with the agreement. For planning projects, end products are specified in the application for assistance. Reports are required with billings.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Nonprofit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

RELATED PROGRAMS:

15.916, Outdoor Recreation Acquisition, Development and Planning; 15.918, Disposal of Federal Surplus Real Property for Parks, Recreation, and Historic Monuments; 15.919, Urban Park and Recreation Recovery Program.

EXAMPLES OF FUNDED PROJECTS:

Develop new trails and greenways; conserve and restore river resources, access and views; convert abandoned railways to multi-purpose trails; promote and develop systems of trails and greenways; preserve open space; and establish new conservation organizations and alliances. Examples of Rivers and Trails projects include: (1) The Lakes-To-Locks Water Trail in Puget Sound includes over 100 miles of shoreline and 100 launch and landing sites. The Rivers & Trails Program worked with the Washington Water Trails Association to build a broad-based constituency, to provide assistance in trail development, marketing, and map publication, and to help empower our partners to see their project goals come to life. (2) In New York, a 15-mile multi-use trail is being planned to connect four state parks and the communities of Ithaca and Trumansburg. Rivers & Trails has facilitated community involvement in the planning for the Black Diamond Trail, one success of which was to organize a Community Volunteer Work Day bringing together a local hospital, college students, youth groups and neighbors. (3) Along the Los Angeles River, Rivers & Trails worked with Los Angeles County to complete a master plan which has spun off multiple open space projects. For example, the opening of the one-mile Los Feliz section was celebrated by volunteers, neighborhood residents, and representatives of government associated with the project. The Los Angeles River offers an example of an effort enjoying lasting success. (4) Rivers & Trails Philadelphia based staff developed one of our first partnerships with the health care community in a project known as Wyoming Valley Wellness Trails in Luzerne county, Pennsylvania. The project focused on the development of a sustainable partnership to implement a trail system in a region with a strong community health initiative and provided opportunities for public participation through workshops and information meetings.

CRITERIA FOR SELECTING PROPOSALS:

(1) Initial project partners are identified and a lead project partner is designated. Note: The lead partner may be a federal agency, state or local agency, tribe, non-profit organization, or citizens' group. Federal agencies, including the National Park Service, maybe the lead partner only in collaboration with a nonfederal partner. (2) Project has specific, partner- defined goals and anticipated measurable results that are: clearly stated; support the National Park Service mission and RTCA mission and strategic plan goals; protect important natural resources or enhance outdoor recreation opportunities; and will have results that occur within an appropriate timeframe. (3) There is a commitment by lead project partners to significant public involvement and outreach in the project. (4) Roles and contributions of initial project partners, including RTCA, are identified. There is a commitment by initial project partners to cooperate and to provide or obtain the resources necessary to implement the project. (5) There is

evidence of broad support for the project. Preference is given to a project that also: (a) provides physical connections among resources; (b) includes an NPS area as an actively involved project partner; (c) includes both natural resource conservation and outdoor recreation; (d) partners with a health organization.

16.100 DESEGREGATION OF PUBLIC EDUCATION**FEDERAL AGENCY:**

CIVIL RIGHTS DIVISION, DEPARTMENT OF JUSTICE

AUTHORIZATION:

Civil Rights Act of 1964, as amended, Title IV, Public Law 88-352, 42 U.S.C. 2000(c), Title VI, 42 U.S.C. 2000(d), Title IX, 42 U.S.C. 2000(h-2); Equal Educational Opportunities Act of 1974, Public Law 93-380, 20 U.S.C. 1701, et seq.; Education Amendments of 1972, Title IX, Public Law 92-318, 20 U.S.C. 1681.

OBJECTIVES:

To secure equal educational opportunity for persons regardless of race, color, religion, sex, or national origin.

TYPES OF ASSISTANCE:

Provision of Specialized Services.

USES AND USE RESTRICTIONS:

The Justice Department may go to court to obtain an order to desegregate a public school (elementary or secondary levels) or public college. The Attorney General may initiate legal proceedings to further orderly desegregation upon receiving a meritorious written complaint from (1) any parent or group of parents whose minor children are being deprived by a school board of equal protection of the laws; or (2) any individual or parent of an individual who has been denied admission to or not permitted to continue in attendance at a public college or university because of race, color, religion, sex or national origin. The Attorney General must certify that the suit will materially further the orderly process of desegregation. The Attorney General may also intervene in any case in which the plaintiff alleges a denial of equal protection of the law on the basis of race, color, religion, sex, or national origin. In addition, the Attorney General may litigate Title VI, Title IX (of the Education Amendments of 1972), Section 504 of the Rehabilitation Act of 1973 referrals received from the Department of Education, previously the Department of Health Education and Welfare, to vindicate the rights of individuals excluded from participation in, denied the benefits of, or subjected to discrimination under any program or activity receiving Federal financial assistance on account of their race, color, sex, national origin, or disability. The Attorney General may also go to court to ensure that school districts take appropriate steps to overcome language barriers that impede equal participation in the district's instructional program pursuant to the Equal Educational Opportunities Act.

Applicant Eligibility:

Parent or group of parents in the case of public schools. An individual or his/her parents in the case of a public college.

PROGRAM ACCOMPLISHMENTS:

Among the Section's most important priorities is its responsibility to monitor approximately 240 school districts currently covered by desegregation orders in cases in which the United States is a party. To ensure that districts comply with their obligations, the Section routinely reviews matters relating to student assignment, faculty assignment and hiring, transportation policies, extracurricular activities, the availability of equitable facilities, and the distribution of resources. The Section also routinely responds to requests by other parties to modify court orders to reflect current circumstances, and to requests by parties, as well as courts, regarding unitary status and the ultimate dismissal of the lawsuit. As a result of these activities, the Section obtained various types of relief including: improved facilities for minority students; the elimination of one-race classrooms and schools; the desegregation of faculty and recruitment of minority faculty and staff; more equitable transportation routes for minority students; the elimination of segregative transfers; and the elimination of race-based extracurricular activities. Also, where appropriate, EOS has agreed that school districts have eliminated the vestiges of the dual system to the extent practicable and thus the district has achieved unitary status. For instance, in FY 2008, in *Graham and United States v. Evangeline Parish Sch. Bd. (W.D. LA)*, the Division filed a motion for further relief because of the poor facilities at a majority-black high school and the failure of the district to provide agreed upon programming. The parties are engaging in discovery and the case is set for a hearing. In *U.S. v. Claiborne Parish Sch. Dist. (LA)*, EOS has reached an agreement with the district to close a virtually one-race school and re-assign students on a desegregated basis to the extent practicable. In *United States v. McComb Mun. Sep. Sch. Sys. (MS)*, the court issued a decision resolving our motion for further relief and the district's motion for unitary status. The court agreed that the district could not be declared unitary in the area of student assignment because its student assignment policies at Otken and Kennedy elementary schools violated the governing desegregation order and federal law. The court further ruled that it could not grant the district unitary status with respect to its homecoming court, because new policies that replaced the district's prior race-based regime had not been in place for a reasonable period of time. The court asked the district to formulate new student assignment policies for Otken and Kennedy and submit them to the United States for approval. We have received a plan for the district and are in the process of providing the district with comments and drafting a consent decree. In *Monteilh and United States v. St. Landry Parish Sch. Bd. (LA)*, the Division conducted a review of the district's personnel assignment, at the request of the court. The Division notified the District that it operated dual principal assignment which was inconsistent with its constitutional obligations to desegregate. The court ordered the District to reassign its principals in a manner that furthered desegregation. The district has since reassigned principals for the 2008-2009 school year. Other notable achievements in safeguarding the educational opportunities for all students in FY 2008 included: (1) since the start of FY 2001, initiating over 275 case reviews; (2) continuing to monitor school districts under court order and notifying 41 school districts regarding compliance concerns and working to resolving those concerns; (3) filing motions seeking relief in Crisp County, Georgia, Chicago, Illinois, and Evangeline Parish, Louisiana; (4) working with parties in longstanding desegregation cases to ensure that requests for unitary status were properly evaluated and agreeing to unitary status in 29 cases where our efforts helped achieve unitary school systems; and (6) opposing requests for declarations of unitary status in cases, and attempting where appropriate to resolve the cases amicably. The Section continued its efforts in cases involving religious discrimination. Specifically, investigations were opened into complaints alleging discrimination on the basis of religion in, among other areas, freedom of expression, religious dress, access to facilities, and harassment. For instance, we are negotiating a settlement agreement addressing the harassment of a student based on religion and national origin, in addition to the district's overall anti-harassment policies. To ensure equal educational opportunities for English Language Learners (ELL), the Section, as part of a nationwide effort,

opened four investigations in FY 2008 and is actively pursuing ongoing investigations in school districts in California, Colorado, Connecticut, Illinois, Massachusetts, New York, and Virginia. These districts have significant or new ELL populations. The purpose of the investigations is to ensure that ELL students are receiving proper services to enable them to overcome language barriers that impede equal participation in the school districts educational programs. In U.S. v. Chicago Bd. of Educ. (IL), the Section filed a motion to enforce the ELL provisions of the August 2006 Second Amended Consent Decree because the Chicago Public Schools (CPS) have failed to comply with the following ELL provisions: (1) CPS has not demonstrated that a significant number of its special education ELLs are appropriately served; (2) CPS has not provided thousands of ELLs with appropriate or timely ELL services; and (3) CPS has failed to provide native language instruction and materials for many of its Transitional Bilingual Education programs. At the court's direction, the parties are negotiating the content and format of EOS' requested relief. In Lau v. Hopp (CA), the Section is negotiating a consent decree with the San Francisco Unified School District addressing outstanding ELL issues.

The Attorney General does not, as such, represent specific individuals, though the public interest is served by obtaining relief for them through pattern or practice or 706 referral lawsuits. CIVIL RIGHTS DIVISION, DEPARTMENT OF JUSTICE

AUTHORIZATION:

Civil Rights Act of 1964, as amended, Title II and Title III; Civil Rights Act of 1968, as amended, Title VIII, Public Law 90-284, Fair Housing Amendments Act of 1988, Public Law 100-430, 42 U.S.C. 3601; Equal Credit Opportunity Act of 1974, Public Law 93-495; Equal Credit Opportunity Act of 1976, Public Law 94-239; 15 U.S.C. 1691; Religious Land Use and Institutionalized Persons Act of 2000, Public Law 106-274, 42 U.S.C. 2000cc.; Servicemembers Civil Relief Act of 2003, Public Law 108-189, 50 U.S.C App. 501.

OBJECTIVES:

The Fair Housing Act provides freedom from discrimination on the basis of race, color, religion, sex, national origin, handicap and familial status in connection with the sale, rental, and financing of housing and other related activities. The Equal Credit Opportunity Act (ECOA) prohibits discrimination in credit transactions on the basis of race, color, religion, national origin, sex, marital status, or age (provided the applicant has the capacity to contract), because all or a part of the applicant's income is derived from a public assistance program, or

because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. Title II of the 1964 Civil Rights Act prohibits discrimination on the basis of race, color, national origin and religion in places of public accommodation, which are defined to include hotels, motels, restaurants, gas stations, and places of entertainment. Title III prohibits the denial of equal protection rights in public facilities. Section 2 of the Religious Land Use and Institutionalized Persons Act (RLUIPA) prohibits local governments from significantly burdening the exercise of religion or discriminating against religious institutions in their land use and zoning decisions. The Servicemembers Civil Relief Act provides for the temporary suspension of judicial and administrative proceedings and civil protections in areas such as housing and credit for military personnel while they are on active duty.

TYPES OF ASSISTANCE:

Provision of Specialized Services.

USES AND USE RESTRICTIONS:

The Fair Housing Act, which is found in Title VIII of the Civil Rights Act of 1968, as amended by the Fair Housing Amendments Act of 1988, is designed to ensure freedom from discrimination in the sale, rental and financing of housing, and other related activities. The Act provides two major avenues of enforcement by the Department. First, the Attorney General has independent authority to bring civil actions in Federal courts whenever he/she has reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of discrimination or when he/she has reasonable cause to believe any group has been denied such rights in a case of general public importance. Under its pattern or practice authority, the Department may seek appropriate injunctive relief, actual and punitive damages for any persons injured by the discrimination, and civil penalties of up to \$55,000 against a defendant for the first violation and up to \$110,000 for subsequent violations of the Act. Second, the Department also has authority to seek relief on behalf of individuals in certain circumstances, as follows. The Department of Housing and Urban Development (HUD) is required to investigate and conciliate any complaint of housing discrimination filed with that agency. If it cannot be conciliated, HUD is authorized to file an administrative charge if it determines there is reasonable cause to believe the Fair Housing Act has been violated. At that point, either party may elect to have such charge heard in Federal court, and if such election is made, the Department of Justice brings suit in Federal court on behalf of the complainant and may seek actual and punitive damages in such an action. Aside from enforcement by the Federal government, private suits alleging illegal discrimination may be filed in the appropriate Federal or State court within two years of alleged discrimination. The ECOA, as amended, is designed to prohibit certain types of discrimination in all aspects of credit transactions. Persons who believe that they are victims of such discrimination may file complaints with one of the appropriate Federal regulatory agencies or may bring the information to the attention of the Attorney General. The Department of Justice is authorized to institute litigation in Federal court when a matter is referred to the Attorney General by an agency responsible for administrative enforcement of the Act or when he/she has reasonable cause to believe that one or more creditors are engaged in a pattern or practice of discrimination in violation of the Act. The Act gives the United States authority to seek actual and punitive damages for any persons aggrieved by the discrimination. In addition, an aggrieved person may institute suit in a Federal court pursuant to the ECOA. Title II of the 1964 Civil Rights Act is designed to prohibit discrimination in certain kinds of public accommodations. It gives the Attorney General authority to bring a legal action when he/she determines that there is reasonable cause to believe that any person or group is engaged in a pattern or practice of discrimination which violates the provisions of Title II. Remedies available in such cases are limited to injunctive relief and the Department does not have authority to seek monetary relief. Private individuals also may bring legal action under Title II. In addition, there are other civil rights laws which give such individuals authority to take legal action against public accommodations not covered by Title II. Title III allows the Attorney General to file a civil action in federal district court after receiving a written complaint from an individual who alleges the denial of equal protection rights in a public facility, but is unable to initiate or maintain an independent action. 42 U.S.C. 2000b(a). The Religious Land Use and Institutionalized Persons Act passed in September, 2000 prohibits State and local governments from using their authority to burden the exercise of religion, exclude religious assemblies from their jurisdictions, or discriminate against religious institutions. It gives the Attorney General the authority to seek injunctive or declaratory relief for violations of the Act. Private individuals may also bring actions under the statute. The Servicemembers Civil Relief Act of 2003 provides for the temporary suspension of judicial and administrative proceedings and civil protections in areas such as housing and credit for military personnel while they are on active duty.

16.104 PROTECTION OF VOTING RIGHTS

FEDERAL AGENCY:

CIVIL RIGHTS DIVISION, DEPARTMENT OF JUSTICE

AUTHORIZATION:

Voting Rights Act of 1965, Public Law 89-110, 42 U.S.C. 1973-1973bb-1; Voting Rights Act Amendments of 1970, 1975, and 1982; Voting Rights Language Assistance Act of 1992; Public Laws 91-285, 94-73, 97-205, and 102-344; 42 U.S.C. 1971, 42 U.S.C. 1974; Uniformed and Overseas Citizens Absentee Voting Act, Public Law 99-410, 42 U.S.C. 1973ff; Voting Accessibility for the Elderly and Handicapped Act, Public Law 98-435, 42 U.S.C. 1973ee; National Voter Registration Act of 1993, Public Law 103-31, 42 U.S.C. 1973gg, Help America Vote Act of 2002, 42 U.S.C. 15301; Fannie Lou Hamer, Rosa Parks, and Coretta Scott King Voting Rights Act Reauthorization and Amendments Act of 2006, Public Law 109-246, 120 Stat. 577.

OBJECTIVES:

To provide protection of an individual's right to register and vote in all local, State and Federal elections without discrimination based on race, color, membership in a language minority group, or age. To assure the rights of persons who are disabled or are unable to read or write to receive assistance in voting from a person of their choice. To assure the right to vote in Federal elections to United States citizens residing overseas. To assure access to voter registration and to polling places for the elderly and handicapped, and to assure compliance with the National Voter Registration Act of 1993. To ensure that States and local government units responsible for administration of federal elections meet minimum election administration standards.

TYPES OF ASSISTANCE:

Provision of Specialized Services.

USES AND USE RESTRICTIONS:

The Voting Rights Act of 1965, as amended, prohibits state and local governments from imposing or applying any voting standard, qualification, prerequisite, or procedure in a manner that results in a denial or abridgment of the right of any U.S. citizen to vote on account of race or color or because an individual is a member of a language minority group. The VRA bans the use of literacy and similar tests as a prerequisite to voter registration or voting, authorizes voters in need of assistance in voting (because of illiteracy or disability) to receive help from the person of their choice (other than their employer or union leader), and lets registered voters vote for president even if they change their residence shortly before a presidential election. Certain specially covered States and political subdivisions are required to submit any voting changes either to the District Court for the District of Columbia for a declaratory judgment that the changes do not have a discriminatory purpose or effect, or, in the alternative, to the U.S. Attorney General, who has 60 days in which to object to the proposed changes. Changes to which the Attorney General has objected are legally unenforceable unless a subsequent declaratory judgment is issued by the District Court for the District of Columbia. The VRA requires certain counties (under formulas in the act) to provide voting and election information bilingually and authorizes the Attorney General to send Federal voting observers to certain designated counties to monitor election day polling place activities to prevent discrimination. Under the Uniformed and Overseas Citizens Absentee Voting Act, 42 U.S.C. 1973ff, the Attorney General enforces the right of U.S. citizens living outside of the United States to vote in Federal elections. Under the Voting Accessibility for the Elderly and Handicapped Act, 42 U.S.C. 1973ee, the States must provide accessible registration and voting facilities for Federal elections. Under the National Voter Registration Act of 1993, 42 U.S.C. 1973gg, the States must conduct voter registration for Federal elections by mail and through motor vehicle and other agencies. Under the Help America Vote Act of 2002, 42 U.S.C. 15301, the States must administer federal elections in accord with minimal voting systems standards, requirements for provisional voting and voting information and requirements for computerized, statewide voter registration lists and voters who register by mail.

PROGRAM ACCOMPLISHMENTS:

The Civil Rights Division's Voting Section vigorously enforces the Voting Rights Act ("VRA") and other laws that protect the right to vote. Primary enforcement efforts in FY 2007 were (1) monitoring of elections to ensure compliance with federal voting rights laws; (2) litigation to enforce federal voting rights laws; (3) the administrative review of voting changes pursuant to Section 5 of the Voting Rights Act; (4) enforcement responsibility for Title III of the Help America Vote Act ("HAVA"); and (5) enforcement of the Uniformed and Overseas Citizens Absentee Voting Act ("UOCAVA") and (6) enforcement of the National Voter Registration Act (NVRA). During the past few years, the Civil Rights Division has significantly increased its election monitoring activities, particularly in the use of Departmental staff in those areas of the country where the Attorney General cannot send federal observers because the jurisdictions are not subject to the special provisions of the Voting Rights Act. In FY 2007, the Voting Section coordinated and monitored elections in 91 jurisdictions located in 24 different states. Overall, the Department covered 107 elections with 479 Department personnel and the assignment of 875 federal observers. The Division continues to establish new landmarks in protecting the voting rights of individuals with limited English proficiency. Section 203 of the Voting Rights Act requires certain jurisdictions to provide bilingual voting materials and assistance to American Indians, Asian Americans, Alaskan Natives, and/or persons of Spanish heritage. In FY 2007, lawsuits included actions to protect persons of Spanish heritage in the City of Philadelphia, PA; Galveston County, City of Earth, Littlefield ISD, Post ISD, Seagraves ISD, and Smyer ISD, TX, and Kane County, IL, and protection for Korean Americans in the City of Walnut, CA. Meanwhile, the Division continued to enforce the provisions of Section 2 of the Voting Rights Act, which provides that the right to vote may not be denied or abridged on account of race or color, or because of membership in a language minority group. In the Fiscal Year, the Division filed a lawsuit against the Village of Port Chester, NY and successfully resolved lawsuits against Osceola County, FL, Noxubee County, MS, and the City of Euclid, OH. The Division also continued its enforcement of the NVRA, a law designed to expand registration opportunities for all citizens and to ensure proper maintenance of voter registration lists. Two cases remain pending against the State of New York for failure to provide adequate voter registration opportunities to voters, including public assistance agencies and at public college offices that provide services to persons with disabilities. The Division also brought a NVRA and HAVA lawsuits against the States of New Jersey regarding the State's list maintenance practices which was successfully resolved and brought HAVA and NVRA claims against Cibola County, NM which were also resolved. The Division continues to be active in enforcing the Help America Vote Act of 2002 (HAVA). On January 1, 2006, requirements for voting system standards and statewide voter registration databases took effect. The Division is working to ensure that states comply with the new requirements. During FY 2007, with new provisions under the Help America Vote Act taking effect, the Division received 5,817 submissions of voting changes for administrative review under Section 5 of the VRA; 44 of these were redistricting plans. The Division is working to ensure that states promptly comply with the new requirements. In 2006, the Division was able to enter into a settlement agreement with the state of California. Negotiations are pending with several other states. During FY 2006, with new provisions under the Help America Vote Act taking effect, the Division received 7,216 submissions of voting changes for administrative review under Section

5 of the VRA; 75 of these were redistricting plans.

PROGRAM ACCOMPLISHMENTS:

Civil Rights of Institutionalized Persons Act (CRIPA): covers public institutions, including prisons, jails, juvenile justice facilities, mental retardation facilities, psychiatric hospitals and nursing homes. From May 1980, when CRIPA was enacted, through May 2008, the Division investigated conditions in over 453 nursing homes, mental health facilities, centers for persons with developmental disabilities, residential schools for children with disabilities, jails, prisons, and juvenile justice facilities. Presently, the Section has open CRIPA investigations and cases involving approximately 200 facilities. Our work regarding over one third of those facilities is in the investigative stage, including 55 new investigations of 88 facilities initiated since January 2004. The Section also has undertaken a nursing home initiative to address constitutional violations in publicly operated nursing homes, and a juvenile justice initiative to protect the federal rights youth confined to juvenile justice facilities. From FY 1998 to date, we have settled over 95 percent of our CRIPA cases. Since FY 2003 alone, the Section conducted over 711 on-site inspections of institutions. In addition, we have resolved many investigations pre-suit because jurisdictions voluntarily corrected the identified problems. In FY 2007 and the three-quarters of FY 2008, CRT conducted over 200 investigatory and compliance tours, and handled CRIPA matters and cases involving over 205 facilities in 32 States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Territories of Guam and the Virgin Islands. SPL also continued its investigations of 105 facilities, and monitored the implementation of consent decrees, settlement agreements, memoranda of understanding, and court orders involving over 100 facilities. During FY 2007-08, SPL opened 25 new investigations of 53 facilities, including a country-wide investigation involving 19 juvenile facilities, and obtained ten settlement agreements and issued 18 findings letters. Moreover, the Section continues to participate in a pre-CRIPA case regarding persons with developmental disabilities residing in approximately 200 community-based facilities in the District of Columbia. Police Misconduct: The Section continues to play a major role in promoting law enforcement management policies and practices that foster police integrity through its outreach, technical assistance and enforcement efforts under 42 U.S.C. 14141 and the Safe Streets Act. The Section has open investigations of 10 law enforcement agencies. The subject matter of the investigations usually includes allegations of a pattern or practice of excessive force or discriminatory policing tied to management deficiencies. The investigations are complex, usually requiring the review of voluminous records, extensive interviews, creation and analysis of sophisticated databases, and the use of police practices and other consultants. Investigations also include provision of technical assistance through the continuing identification of deficient policies and management practices and, in some instances, direct technical assistance presentations to agency personnel by our police practices consultants. In six of our seven lawsuits alleging a pattern or practice of police misconduct, consent decrees were negotiated and were lodged simultaneously with our complaints; the seventh lawsuit was ultimately resolved by an out of court settlement. In addition, eight other investigations have resulted in out-of-court settlements including police departments in the District of Columbia, Prince George's County, MD, Detroit, MI, and Villa Rica, GA. The settlements require the adoption and implementation of policies and procedures designed to prevent excessive force, improper searches and seizures, and other misconduct. Finally, during FY 2007 and into FY 2008, we focused our resources on vigorously monitoring the enforcement of its eight existing settlement agreements to ensure timely, compliance with the terms of those agreements. As a result, we successfully and timely terminated our police reform settlements with Mt. Prospect, Illinois (January 2007); Prince George's County, MD (March 2007), and Cincinnati, OH

(April 2007), and Cleveland, OH (March 2008). We also expect to successfully conclude our settlement with the District of Columbia's Metropolitan Police Department in June 2008.

In FY 2007, The Department entered into comprehensive settlement agreements with Mandalay Corporation and with Circus Circus Mississippi, Inc., resolving investigations into the accessibility of the Mandalay Bay Casino Resort in Las Vegas and the Gold Strike Casino Resort in Tunica Resorts, Mississippi. Both resorts, subsidiaries of MGM Mirage, were constructed after the ADA Standards for Accessible Design went into effect. Under the agreements, each casino resort has agreed to ensure that its facility complies with the new construction standards of the ADA, ensuring that guests and visitors with disabilities have access to a total of four hotels, more than 6,500 guest rooms and suites, 36 restaurants and bars, 3 theaters, more than 30 specialty shops, 3 convention centers, an events center seating up to 12,000 people, and other amenities. The Department entered into a settlement agreement with Doctor Associates Inc. (DAI), the privately held corporation that franchises more than 20,000 Subway sandwich shops throughout the United States. Because the individual Subway shops are franchisees, the agreement recognizes that DAI will facilitate the efforts to ensure compliance while the individual Subway shops will be responsible for removing barriers to access at more than 20,000 Subway shops nationwide. The U.S. District Court for the Eastern District of Pennsylvania approved an agreement resolving a lawsuit against Philadelphia for violating the ADA in providing emergency medical care. The Department intervened in a lawsuit filed by an individual alleging that paramedics employed by the city refused to provide him with appropriate medical care upon learning of his HIV status. Under the agreement, Philadelphia will provide paramedics employed by the city with ongoing training on nondiscriminatory treatment of patients with infectious diseases, specifically HIV/AIDS. The city also agreed to pay \$50,000 in damages to the plaintiff. Much of the Department's enforcement effort focuses on resolution without litigation or formal agreements. For example, under a contract the Department refers complaints to professional mediators who have been trained in the legal requirements of the ADA. This has resulted in many mediated agreements. The Department's successful enforcement and educational efforts are detailed in quarterly reports published by the Section and available online. The Technical Assistance Program, mandated under Section 506 of the ADA, provides answers to questions and free publications to businesses, state and local governments, people with disabilities, and the general public. In FY 2007, more than 47,000 calls to the ADA Information Line were answered by ADA Specialists who assisted callers in applying the ADA to their own unique situations. The Section develops and disseminates free ADA publications, provides training and information at meetings nationwide, and carries out a variety of outreach and educational initiatives to reach audiences affected by the ADA. The Section's technical assistance publications range from detailed technical assistance manuals to basic Question-and-Answer booklets and illustrated guides addressing specific topics. Publications can be obtained 24 hours a day through a free fax-on-demand service or through the Section's ADA Website. This web site, one of the top five in the Department, received almost 57 million visits to its pages and graphics in FY 2007. The Section also chairs an ADA Technical Assistance Coordinating Committee and works with other agencies to coordinate technical assistance activities nationwide. In FY 2007, continued development of Expanding Your Market, a new series of concise, reproducible documents offering resources for businesses working to improve

access and everyday examples of how accessibility can serve diverse market segments. The first four publications in the series are titled Customers with Disabilities Mean Business, Tax Incentives for Businesses, Accessibility Benefits Older Adult Customers and Building a Diverse Customer Base. The Section participated in 71 speaking and outreach events reaching more than 250,000 people in FY 2007, including sending staff to distribute information and answer questions at 11 national conferences and one state fair to promote public awareness of the ADA. The Section also publishes annually an article about the ADA-related tax credits and deductions in an IRS newsletter that reached more than seven million businesses nationwide. In FY 2007, the ADA Business Connection conducted four Leadership meetings in New York City, Washington, DC, Charlotte, NC, and Chicago, IL. This initiative, headed by the Assistant Attorney General for Civil Rights, seeks to improve access to goods and services and increase employment of people with disabilities by fostering increased understanding of ADA requirements within the business community and increased dialogue and cooperation between the business and disability communities.

16.110 EDUCATION AND ENFORCEMENT OF THE ANTIDISCRIMINATION PROVISION OF THE IMMIGRATION AND NATIONALITY ACT

FEDERAL AGENCY:

OFFICE OF SPECIAL COUNSEL FOR IMMIGRATION RELATED UNFAIR EMPLOYMENT PRACTICES, CIVIL RIGHTS DIVISION, DEPARTMENT OF JUSTICE

AUTHORIZATION:

Immigration and Nationality Act, 8 U.S.C. Section 1324b.

OBJECTIVES:

To educate employers and workers about their rights and responsibilities under the Immigration and Nationality Act (INA), which prohibits employment discrimination based on citizenship status and national origin, and unfair documentary practices with respect to verification of employment eligibility.

TYPES OF ASSISTANCE:

Project Grants; Provision of Specialized Services; Investigation of Complaints.

USES AND USE RESTRICTIONS:

The anti-discrimination provisions of the INA prohibit employment discrimination based upon national origin and citizenship status against U.S. citizens and other legally authorized workers with respect to hiring, firing, and recruitment or referral for a fee, and unfair documentary practices during verification of employment eligibility. The INA also prohibits retaliation for the purpose of interfering with any right or privilege secured by the anti-discrimination provisions, or because an individual has participated in a proceeding to enforce those provisions. The Office of Special Counsel for Immigration-Related Unfair Employment Practices (OSC) was created by Congress to enforce these provisions, and to educate the public about its responsibilities and rights under the law. The goal of OSC's grant program is to educate workers and employers about the anti-discrimination provisions of the INA in order to reduce incidents of employment discrimination. Grants are open to all applicants including labor and immigrant organizations, small and large businesses and associations, employer groups and associations, public service or community-based organizations, faith-based organizations and state and local government agencies. The INA's prohibition against citizenship status discrimination applies to employers with more than three employees, and covers: (1) U.S. citizens and nationals; (2) lawful permanent residents; (3) temporary residents under the Immigration Reform and Control Act of 1986, including Special Agricultural Worker program (SAW) and Replenishment Agricultural Worker program (RAW); (4) refugees and (5) asylees. The INA's prohibition against national origin discrimination applies to employers with four to 14 employees and covers U.S. citizens, and all individuals with work authorization. Employers with 15 or more employees are subject to Title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e, et seq., which also prohibits discrimination on the basis of national origin, and is enforced by the U.S. Equal Employment

Opportunity Commission (EEOC). Charges incorrectly filed with OSC are automatically referred to the EEOC and vice versa. The INA's prohibition against unfair documentary practices applies to employers with more than three employees, and protects U.S. citizens and all individuals with work authorization.

Applicant Eligibility:

The OSC welcomes grant proposals from organizations such as local, regional, and national ethnic and immigrant rights advocacy organizations, labor organizations, trade associations, industry groups, professional organizations, state and local government agencies, employer organizations and associations, and others, including for-profit entities, that provide information services to potential victims of discrimination and/or employers.

Beneficiary Eligibility:

The educational efforts under the grant should be cost effective and directed to (1) work-authorized non-citizens (since this group is especially vulnerable to employment discrimination); (2) citizens who are most likely to become victims of prohibited employment discrimination under the INA; and/or (3) employers, especially small businesses.

In fiscal year 2007, the Office of Special Counsel continued to conduct outreach activities, including providing grant funds to community-based and nonprofit organizations and government entities to educate employers, employees, immigrant service providers and the general public about employer and immigrant rights and responsibilities under the anti-discrimination provision. OSC staff members made numerous educational presentations across the country, which included presentations sponsored by the U.S. Equal Employment Opportunity Commission, OSC grantees, state and local fair employment practices agencies, unions, and employer and worker organizations. Directly and through its grantees, OSC participated in 843 outreach presentations during the

fiscal year. In addition, the OSC maintained its 50 memoranda of understanding (MOUs) with state and local jurisdictions to promote the protection of immigrant worker rights. During the fiscal year, OSC initiated 165 charges of discrimination and independent investigations, ultimately resolving 89 matters through dismissal, settlement or letters of resolution. In addition, OSC received over 29,797 calls on its worker and employer hotlines, and was able on many occasions to save the jobs of authorized workers or assist employers in modifying their employment eligibility verification procedures to comply with the anti-discrimination provision of the Immigration and Nationality Act.

No funds are granted to outside organizations to provide these services.

TYPES OF ASSISTANCE:

Provision of Specialized Services.

USES AND USE RESTRICTIONS:

The Community Relations Service (CRS) employs conciliation, mediation, technical assistance, and training techniques to provide free services to communities in preventing, reducing, and resolving racial and ethnic conflicts. Through technical assistance, CRS provides subject matter expertise to communities by providing such services as: participating in and facilitating community meetings and task forces; and sponsoring, cosponsoring, or making presentations at conferences and forums. CRS conducts training in such areas as community policing, police/community relations, response to hate crimes, and conflict resolution techniques (e.g., law enforcement mediation). CRS also develops resource materials and prepares articles for publication on preventing and resolving racial and ethnic conflicts in communities.

Applicant Eligibility:

CRS provides services without cost assistance to representatives of groups or communities or Federal, State or local government agencies that seek to resolve, reduce or prevent conflicts related to race, ethnicity, or national origin. CRS does not provide grants to communities for conciliation and mediation

16.202 PRISONER REENTRY INITIATIVE DEMONSTRATION (OFFENDER REENTRY)**FEDERAL AGENCY:**

OFFICE OF JUSTICE PROGRAMS, BUREAU OF JUSTICE ASSISTANCE, DEPARTMENT OF JUSTICE

AUTHORIZATION:

H.R. 5548, as approved under H.R. 4577, the Consolidated Appropriations Act of 2001, 42 U.S.C. 3793w, Public Law No. 90-351, Title I, Part FF.

OBJECTIVES:

The Offender Reentry Initiative (Reentry Grant Program) is a combined federal effort to assist jurisdictions in facing the challenges presented by the return of offenders from prison to the community. The goal is to support the effective delivery of pre-release assessments and services, and to develop transition plans in collaboration with other justice and community-based agencies and providers, for supervised and non-supervised non-violent offenders. The current initiative addresses the continuing problem of offenders entering the community after incarceration with little or no surveillance, accountability, or resource investment.

TYPES OF ASSISTANCE:

Project Grants (Discretionary).

USES AND USE RESTRICTIONS:

The Reentry Initiative encourages the development of model reentry programs that begin in correctional institutions and continue through an offender's transition (release) to and stabilization in the community. These programs provide for individual reentry plans that address issues confronting offenders as they return to their communities. The initiative encompasses three phases and is implemented through appropriate programs. Phase 1-Protect and Prepare: Institution-Based Programs, Phase 2-Control and Restore: Community-Based Transition Programs Phase 3-Sustain and Support: Community-Based Long-Term Support Programs.

Applicant Eligibility:

An applicant must select a lead agency responsible for the operational aspects of the grant. The applicant must also establish a multidisciplinary collaborative partnership, which includes members of faith-based and/or community organizations; e.g., State and local corrections agencies, the State and local mental health and substance abuse agencies, and the State and local Workforce Investment Boards (WIB). The partnership must select the lead agency to serve as the applicant and the fiscal agent or grantee. If the lead agency designates another to serve as fiscal agent, the lead will remain as grantee with ultimate responsibility for the grant. The lead agency and/or fiscal agent must be a State or tribal agency's unit of government. Federally Recognized Indian Tribes must establish a partnership that includes (but is not limited to) entities or agencies that address corrections, criminal justice, law enforcement, employment services, substance abuse, and mental health. Tribes may involve State level agencies as their key partners, although this is not a requirement. Eligibility is limited to jurisdictions in which grants were awarded to community- and faith-based organizations through the U.S. Department of Labor's FY 2005 Prisoner Reentry Initiative (See www.dol.gov/opa/media/press/eta/eta20052123list.htm). State agencies are encouraged to partner with local and regional jails when submitting applications, or to serve as a pass-through for funding. All applicants must coordinate applications with their community- and faith-based partners.

Beneficiary Eligibility:

State, units of local government, and federally recognized tribes.

Credentials/Documentation:

The applicant must submit a completed Application for Federal Assistance (Standard Form 424), including signed assurances that it will comply with statutory and administrative requirements. The applicant is also required to submit a description that includes the goals of the program, the implementation process, timetable for implementation, how the State will coordinate substance abuse treatment activities at the State and local levels, and the State's law or policy requiring substance abuse testing of individuals in correctional residential substance abuse treatment programs.

Preapplication Coordination:

A considerable amount of preapplication coordination is required amongst the required and suggested stakeholders. For State applicants, this program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected

the program for review. The Offender Reentry Program (Prisoner Reentry Initiative (PRI)) strengthens urban communities characterized by large numbers of returning, nonviolent prisoners. With the support of several federal agencies, PRI is designed to reduce recidivism by helping returning inmates find work and access other critical services in their communities.

Application Procedure:

All competitive grant applications must be submitted electronically at: <http://www.grants.gov/>.

Award Procedure:

All applications will be peer reviewed. The BJA Director will then make award recommendations to OJP's Assistant Attorney General, who will make a final determination.

Deadlines:

See solicitation for deadline. Faxed or mailed applications or supplemental materials will not be accepted.

Range of Approval/Disapproval Time:

Applications will generally be approved or denied within 120 days of receipt of a completed application.

Appeals:

None.

Renewals:

Subject to congressional appropriations.

16.309 LAW ENFORCEMENT ASSISTANCE-NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM

(NICS)

FEDERAL AGENCY:

FEDERAL BUREAU OF INVESTIGATION, DEPARTMENT OF JUSTICE

AUTHORIZATION:

Gun Control Act, 18 U.S.C. Chapter 44, Public Law 103-159; National Firearms Act, 26 U.S.C. Chapter 53.

OBJECTIVES:

To provide a system so that any Federal Firearm Licensee (FFL) could gain information, by telephone or by other electronic means, on whether receipt of a firearm by a prospective buyer would violate Federal or State laws through the proper completion of Bureau of Alcohol Tobacco and Firearms (ATF) Form 4473.

TYPES OF ASSISTANCE:

Provision of Specialized Services.

USES AND USE RESTRICTIONS:

The NICS Operations Center conducts NICS background checks by analyzing and evaluating criminal history records to determine whether the transfer of a firearm to an individual may violate State or Federal law. The staff at the Operations Center provides technical and operational support to users, provides customer service to FFLs and State Point of Contacts (POCs), processes appeals of denied transactions, and prepares management and statistical reports on the operation of the NICS.

Applicant Eligibility:

All persons purchasing firearms.

Beneficiary Eligibility:

The Federal Firearm Licensees and American public.

Credentials/Documentation:

Initial request for services must be from a licensed and enrolled FFL. For checks performed by the FBI, FFLs may contact the NICS Operation Center by telephone via a toll-free number or, in the future, electronically by computer. If a NICS background check results in no matching records, the transfer will be allowed, and the FFL will be provided with a unique NICS Transaction Number (NTN). If one or more matching records are found, an FBI examiner will review the record(s) to determine if the subject of the record may be identical with the prospective purchaser and to determine if the record contains information which may prohibit the sale of the firearm. If so, the transfer will be denied, and the prospective buyer will be advised of the process for appealing the decision if he/she believes it is incorrect. The FBI may contact local, State, and Federal law enforcement agencies and courts to resolve questions about an individual who appears to be prohibited from purchasing a firearm, as well as to request

clarification regarding information in a prior record or disposition. After analyzing all information, the FFL is then contacted with a "Proceed" or a "Deny" status.

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

The accuracy of the criminal history records and the POF data is critical to the NICS Program since this is the information that the NICS bases its decision on whether the transfer of the firearm would violate state or federal laws. Furthermore, the internal audit staff conducts audits to determine the accuracy of data submitted by federal agencies for inclusion in the NICS Index.

16.320 SERVICES FOR TRAFFICKING VICTIMS

FEDERAL AGENCY:

OFFICE OF JUSTICE PROGRAMS, OFFICE FOR VICTIMS OF CRIME, DEPARTMENT OF JUSTICE

AUTHORIZATION:

22 USC 7105(b)(2)(A).

OBJECTIVES:

To provide assistance to victims of severe forms of trafficking (i.e., sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age; or the recruitment, harboring, transportation, provision or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the

purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery) without regard to the immigration status of the victim. A set aside of the total appropriation for the following purposes is as follows: three percent for research, evaluation, and statistics; two percent for training and technical assistance; and one percent for management and administration of grant funds.

TYPES OF ASSISTANCE:

Project Grants; Direct Payments for Specified Use.

USES AND USE RESTRICTIONS:

Funding under this program is intended primarily, but not exclusively, to meet victims' pre-certification needs. Pre-certification refers to the period of time between when trafficking victims are initially identified by law enforcement and officially certified by the Federal government as such. In FY 04, 10 cooperative agreements to provide comprehensive victim services were awarded under this program. During FY 05, OVC made one award of \$281,595 to support training and technical assistance to victim service organizations to enhance their services to trafficking victims. OVC also made one award of \$499,155 to a grantee for the provision of comprehensive services. Beginning in 2004, OVC joined with its sister agency, the Bureau of Justice Assistance (BJA) to support an expanded strategy of funding anti-trafficking task forces in cities throughout the country known to have a high concentration of trafficking victims. This task force strategy focuses on enhancing law enforcement's ability to identify and rescue victims of human trafficking; providing law enforcement with the resources and training to identify and rescue victims of trafficking; and to ensuring that comprehensive services are available wherever trafficking victims are found. OVC and BJA released a joint competitive solicitation in FY 06 that resulted in the creation of 10 new law enforcement task forces and funding for victim service provision in areas where new task forces were formed. In FY 07, BJA awarded supplemental funding to six task forces. BJA has provided funding to 42 local and state law enforcement anti-trafficking task forces across the country. This year, OVC awarded supplemental funding to 13 Services for Trafficking Victims grantees to continue providing services to pre-certified trafficking victims. To date, OVC has funded 31 victim service agencies to provide a wide range of services to trafficking victims in the United States. Comprehensive Services awards support the creation and/or enhancement of collaborative networks that will provide critical services for trafficking victims within a given community or region. These awards are intended to build community-based networks of comprehensive, integrated, and culturally appropriate services for trafficking victims. Applicants must demonstrate to capacity to quickly mobilize resources to accommodate the needs of potentially large numbers of victims and the ability to coordinate with other trafficking programs and other service providers. OVC anticipates releasing a competitive solicitation to fund new cooperative agreements to provide comprehensive victim services contingent on the availability and amount of FY 2008 funding. In order to receive Department of Justice funding support and the assistance of the local U.S. Attorney, local law enforcement agencies and victim services providers are required to enter into a Memorandum of Understanding with all task force members committing themselves to collaborating together on investigations and assistance to victims.

Applicant Eligibility:

The Attorney General may make grants to States, Indian tribes, units of local government, and nonprofit, non-governmental victims service organizations.

Beneficiary Eligibility:

Eligible victim assistance agencies. Eligibility depends on the nature of the grant but may include a wide variety of public and private nonprofit agencies.

Credentials/Documentation:

Applications for this program must be submitted electronically via Grants.gov; at a time specified by the Office for Victims of Crime, Office of Justice Programs and must contain the following certification and assurances: (1) assure that the applicant will provide such accounting, auditing, monitoring and evaluation procedures as may be necessary, and keep such records as the Office of Justice Programs may prescribe, to assure fiscal control, proper management and efficient disbursement of Federal funds; (2) assure that the applicant will adhere to the audit and financial management requirements set forth in the effective edition of the OJP Financial Guide; (3) assure that the applicant will comply with all applicable nondiscrimination requirements including civil rights compliance, non-discrimination against eligible applicants that are faith or community-based organizations, services to persons with Limited English Proficiency, and protection of human research subjects; (4) certify that the applicant will comply with certifications regarding Lobbying, Debarment, Suspension, and Drug-Free Workplace Requirements (OJP Form 4061/6); and other responsibility matters; and, (5) certify that the information in the application is correct and that the applicant will comply with all applicable provisions of the Victims of Crime Act and other Federal laws, (including subtitle A, Title II of the Americans with Disabilities Act (ADA) 1990) regulations, and circulars. Costs will be determined in accordance with OMB Circular No. A-87 or OMB Circular No. A-133.

The standard application form furnished by the Federal agency in accordance with 28 CFR, Part 66 (Common Rule) must be used for all grants made by the Office for Victims of Crime. This program is excluded from coverage under

Eligible applicants must match the Trafficking Victims Protection Act grant program funds with a 25 percent cash contribution or the value equivalent of an in-kind contribution(s). In-kind match refers to the value of something received or provided that does not have a cost associated with it.

Length and Time Phasing of Assistance:

Fiscal Year 2003, 2004, 2005, 2006 and 2007 trafficking funds may be carried for obligation by the grantee for the duration of their grant award. Funds are released via electronic funds transfer. All organizations that expend financial assistance of \$500,000 or more in any fiscal year must have a single audit for that year in accordance with OMB Circular No. A-133, as amended, unless the audit condition on the award says otherwise. These audits are due to the cognizant Federal agency not later than 9 months after the end of the grantee's fiscal year.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to a grant shall be retained for a period of 3 years.

Obligations:

FY 07 \$9,872,280; FY 08 \$9,400,000; and FY 09 est not available.

Range and Average of Financial Assistance:

In FY 08, OVC may award grants ranging from \$200,000 to \$500,000 for 1-3 years to support services to trafficking victims. Additional awards to support research and evaluation and training and technical assistance may be made.

PROGRAM ACCOMPLISHMENTS:

Since the inception of the program over 1,900 pre-certified trafficking victims have been served by grantee recipients. Grantees have also provided substantive training on trafficking to over 89,000 individuals, including law enforcement officers. OVC now funds a total of 31 direct service projects, as well as one project that provides mobile services. Comprehensive services grants provide direct services to meet the broad range of needs of trafficking victims, including case management; legal services; medical, dental, and mental health services; advocacy, emergency and longer-term housing; education and job skills training; and interpreter services. The specialized services grants provide a quickly mobilized single service over a broad geographical area, such as mental health assessment and crisis intervention. OVC continues to coordinate closely with the Office for Refugee Resettlement at the Department of Health and Human Services through periodic coordination meetings to ensure that their respective programs for trafficking victims, outreach efforts, and training and technical assistance priorities for trafficking grantees are not duplicative and proactively address issues that arise from the field on service provision to trafficking victims. Funding from this program was previously transferred to the National Institute of Justice to support a ground-breaking evaluation of three of the OVC funded comprehensive service sites. Final results were completed this year. Through its Training and Technical Assistance Center, OVC has developed substantive resources for its grantees to collect data and track performance of their projects.

There are two factors that determine the application submission requirements for the AEAP: (1) the applicant status, i.e., government agency (Federal, State, or local), non-governmental organization, or victim service organization; and (2) the type of support requested, i.e., crisis response, consequence management, criminal justice, victim compensation, technical assistance (no direct funding). Application requirements are listed below. Application requirements for State crime victim compensation programs - Funding will be made available to State crime victim compensation programs in response to an incident of terrorism within the United States in the form of a grant. Requests for funding from State crime victim compensation programs may be made at any time in the aftermath of an incident and should include: (1) a description of the qualifying crime; (2) the projected number of claims to be paid and the projected number of claimants to receive payments; (3) the State's maximum award amount by category, i.e., medical, mental health, loss wages, funeral, etc.; and (4) SF-424, Application for

Federal Assistance and applicable assurances and forms. The request should also describe the range of expenses covered by the program and the amount of State funding available to cover victim claims. Application requirements for all other recipients of funds -All other applicants seeking Antiterrorism Emergency Reserve support are required to submit a letter of request containing the following information: (1) Type of crime and description of the criminal event; (2) Identification of the lead law enforcement agency conducting the investigation; (3) Estimated number of victims affected by the crime; (4) Description of the applicant's role in responding to the victim population since the date of the incident; (5) Description of services that funding will support and how these efforts will complement services in place or respond to an unmet need; (6) The amount of funding requested and the time frame for support; and (7) Description of outreach and coordination with other public and private entities in the process of preparing the request for assistance. To Request Training and Technical Assistance Support - Training and Technical Assistance may be requested by submitting a letter describing the nature of the problem; the type of expertise or assistance needed; the duration of assistance; and the projected outcomes of the technical assistance or training. See OVC guidelines published in the Federal Register (Vol. 67, No. 21, Thursday, January 31, 2002) for additional information on application requirements for the AEAP. ITVERP: Step 1: Identify the type of application you are applying for by marking the appropriate type at the top of the application form. In addition, a supplemental sheet must be filled out by applicants. Sections B and F should be answered by all applicants; section G should be answered by Itemized and Supplemental applicants only. Detailed instructions are included. Step 2: If you believe that you are an eligible victim of a "designated" international terrorism event, please use the following forms and information to prepare your application for reimbursement. Required Documentation: A victim is required to submit documentation that provides proof of identity, citizenship, employment, and damage/injury sustained during the international terrorism event. A victim's family member or representative is required to submit documentation of his/her relationship to the victim plus medical information or a death certificate as appropriate, in addition to the items named above. In all cases, receipts for expenses incurred in the recovery process will be required. If any of the required documents have been destroyed and are unavailable from any other source, you must provide and certify a list of destroyed documents and how each would apply to your ITVERP application.

Award Procedure:

AEAP: Upon receipt and internal review of a complete application, it is the intention of OVC to notify applicants of funding decision within 5 business days or as soon as practicable. The applicant may be notified by telephone, Internet or facsimile. ITVERP: After review of each application, the Director shall determine the eligibility of the victim or representative and the amount, if any, eligible for reimbursement, specifying the reasons for such determination and the findings of fact and conclusions of law supporting it. A copy of the determination shall be mailed to the claimant at his last known address.

Deadlines:

AEAP: The established time frames for funding are flexible and not intended to prohibit the submission of applications at a different time, if warranted. However, applicants should make every available effort to submit applications within the maximum parameters of the grant (Crisis Response Grant, up to 9 months; Consequence Management Grant, up to 18 months; Criminal Justice Support Grant, up to 36 months). ITVERP: The deadline for an application is three years from the date of the act of international terrorism. At the discretion of the Director, the deadline for filing a claim may be extended to a date not later than three years from the date of the determination that there is a reasonable indication that an act of international terrorism has occurred, under 94.21(a). For claims related to acts of international terrorism that occurred after December 21, 1988, but before the establishment of this program, the application deadline is three years from the effective date of program implementation (October 6, 2006).

Range of Approval/Disapproval Time:

AEAP: It is OVC's intention to make a funding decision within 5 business days of receipt of a complete application or as soon as practicable. ITVERP: It is OVC's intention to review and process payments as soon as practicable. For itemized and supplemental claims, range of approval/disapproval is dependant upon receipt of an official determination of a reasonable indication of an act of international terrorism from the Assistant Attorney General of National Security for a particular event, Processing time is also dependant upon timely response by claimants of any outstanding documents or information required to process claim applications. Claimants may apply for an interim emergency payment, prior to a determination under Section 94.21(a). If the Director determines that such payment is necessary to avoid or mitigate substantial hardship that may result from delaying reimbursement until complete and final consideration of an application, such payment may be made to cover immediate expenses such as those of medical care, funeral and burial, short-term lodging, and emergency transportation.

Appeals:

For both programs, hearing by the Assistant Attorney General, Office of Justice Programs.

OFFICE OF JUVENILE JUSTICE AND DELINQUENCY PREVENTION,
DEPARTMENT OF JUSTICE

AUTHORIZATION:

Juvenile Justice and Delinquency Prevention Act, Sections 221-223, 42 U.S.C. Sections 5631-5633.

OBJECTIVES:

To increase the capacity of State and local governments to support the development of more effective education, training, research, prevention, diversion, treatment, accountability based sanctions, and rehabilitation programs in the area of juvenile delinquency and programs to improve the juvenile justice system.

TYPES OF ASSISTANCE:

Formula Grants; Project Grants.

USES AND USE RESTRICTIONS:

This program, established by the Juvenile Justice and Delinquency Prevention Act of 2002, allocates formula grant funds to States and territories on the basis of their relative population under age 18. The minimum allocation to each State is \$600,000 and to the Territories is \$100,000. States/Territories must demonstrate compliance with four core requirements of the JJDP act in order to receive their full allocation of Formula Grants funds. The core requirements are: Section 223(a) (11) deinstitutionalization of status offenders; (12) separation of adults and juveniles in secure custody; (13) removal of juveniles from adult jails and lockups; and (22) the elimination of the disproportionate contact of minority juveniles, where such conditions exist. The State's allocation will be reduced by 20 percent for each core requirement with which the State is in non-compliance. Technical Assistance: Not in excess of two percent of the funds available each fiscal year to formula grants is available for grants and contracts with public and private agencies, organizations and individuals to provide assistance to States, units of general local governments, and combinations thereof, and local private agencies to facilitate compliance with Section 223 of the JJDP Act and implementation of the State Plan approved by OJJDP. Technical assistance provided under this provision must be coordinated with the State agencies designated to implement the formula grants program. To be eligible for formula grant funds, a State must submit electronically a comprehensive plan applicable to a 3-year period embodying the purposes of the Act and including provisions that: (1) provide for an advisory group appointed by the chief executive of the State to carry out specified functions and to participate in the development and review of the State's juvenile justice plan; (2) provide that juveniles who are charged with or who have committed offenses that would not be criminal if committed by an adult, or offenses which do not constitute violations of valid court orders or such non-offenders as dependent and neglected children, are removed from secure juvenile detention and secure correctional facilities; (3)

provide that juveniles alleged to be or found to be delinquent and youths within the purview of the deinstitutionalization core requirement not be confined or detained in any institution in which they have contact with adult persons incarcerated because they have been convicted of a crime or are awaiting trial on criminal charges; (4) provide that no juvenile shall be detained or confined in any jail or lockup for adults (with specified exceptions); and (5) provide for programs to eliminate the disproportionate contact of minority juveniles where such condition exists. Once the plan is approved, each State determines the specific programs to be funded. The States are responsible for processing applications for subgrants and administering funded projects. Two-thirds of funds must be passed through to units of general local government, private nonprofit agencies, and Indian Tribes performing law enforcement functions unless a waiver is granted.

Applicant Eligibility:

The Chief Executive of each State which chooses to apply for a formula grant shall establish or designate a State agency as the sole agency for supervising the preparation and administration of the plan, in accordance with the Juvenile Justice and Delinquency (JJDP) Act of 2002. Technical Assistance: Grants and contracts may only be made to agencies, organizations and individuals that have experience in providing technical assistance to State agencies in implementing State plans, and in facilitating compliance with Section 223 of the JJDP Act, Public Law 102-586.

Program accomplishments include the following: The Missing Child Hotline (1-800-THE-LOST). During FY 2007, NCMEC answered 109,004 calls on its hotline and assisted in the recovery of 11,066 children. The Child Victim Identification Program (CVIP), a mechanism to identify victims of child pornography, has been used to date to identify more than 260 children in pornographic images and videos. To date there are a total of 1,247 identified child victims in the system. NCMEC works with the private sector to distribute photos of missing children. During FY 2005, 221 children were found as a result of this program. NCMEC uses computer technology and graphic artists to age progress photos of long-term missing children. Almost 600 missing children whose photographs were computer age enhanced have been located, and 20 unidentified deceased children have been identified as a result of NCMEC's imaging specialists' work on facial reconstructions. Project Alert. NCMEC provides targeted fax distribution for missing-child posters. Utilizing the coded databases of 4 million fax numbers, NCMEC distributes more than 50,000 fax transmissions per month to law-enforcement personnel, media outlets, and the general public. Since the program's inception in 1998, the Task Forces have reviewed nearly 200,000 complaints over the last nine years, resulting in the arrest of almost 11,000 individuals across the country intent on sexually victimizing children. Once source of complaints reviewed by the ICAC Task Forces is CyberTipline referrals forwarded from the National Center for Missing Exploited Children's. The ICAC Training and Technical Assistance Program, an OJJDP supported effort, provides training to tens of thousands of law enforcement personnel and prosecutors in the United States and around the world in 17 countries. In fiscal year 2007 alone, ICAC investigations led to more than 2,400 arrests and more than 10,500 forensic examinations. To date there have been 399 successful AMBER alert child recoveries.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 2002, 55 out of 56 eligible States and territories participated in the program. The Report to Congress for FY 2003 is available through NCJRS. This report fulfills the requirements of Section 504(4) of Title V, which states that the Administrator of OJJDP shall submit a report to the Committee on Education and the Workforce, in the U.S. House of Representatives and the Committee of the Judiciary in the U.S. Senate describing activities and accomplishments of grant activities under this title; describing procedures followed to disseminate grant activity products and research findings; describing activities conducted to develop policy and to coordinate Federal agency and interagency efforts related to delinquency prevention; and identifying successful approaches and making recommendations for future activities conducted under the title. There were no State allocations of Title V funds in fiscal year 2003. More than 1,500 communities across the Nation have conducted community assessments, developed comprehensive delinquency prevention plans, and received prevention grants. In 2003, 63 communities received community team orientation training; 54 communities received data collection and analysis training, and 40 communities received program and plan development training. Fifty-five (55) communities participated in customized training and technical assistance, which included evaluation training and Model Programs Guide presentations. OJJDP has developed the Model Programs Guide and Database (http://www.dsgonline.com/mpg2.5/mpg_index.htm) which can be used by communities to locate scientifically tested and proven (evidence-based) programs and strategies to ensure that their efforts can produce measurable and positive impact. In 2002 and 2003, two issues of Title V Newsletter were distributed to all Title V subgrantees and used in local, State, and national training conferences. The themes were "sustainability" and "performance measures," two important skills areas to enhance/document success of Title V-funded prevention activities. The draft Title V National Evaluation Report is completed. This report presents the experience of the 11 national Title V evaluation communities. Lessons learned from this evaluation project will inform future implementation and evaluation of Title V-funded activities. While some communities are just beginning the grant process, others have completed the implementation of their 3-year delinquency prevention plans and are reporting encouraging results in terms of enhanced coordination of youth resources, family strengthening, school performance, and youth behavior. Supported by community-wide commitment and measurable outcomes, many projects have been sustained following their grant periods through a variety of State and local funding sources. As such, the initial seed money is creating momentum for the focused, coordinated, and long-term efforts necessary to address juvenile crime and delinquency in a meaningful way.

PROGRAM ACCOMPLISHMENTS:

OVC supports the development of training, technical assistance, and demonstration projects to expand and improve the quality of services to crime victims. In recent years, OVC has directed substantial funding to developing resources for the field that will assist victim advocates and other allied practitioners in reaching and serving victims from populations that have been largely underserved including victims with disabilities, immigrant victims, victims in rural areas or large urban centers, and victims from cultural, ethnic and racial minority groups. Serving child and adult victims of sexual assault remains problematic for many communities, and OVC continues to support several training and technical resources that foster the replication of Sexual Assault Response Teams across the nation. OVC also funds a biennial Sexual Assault Response Team (SART) National Training Conference to provide multi-disciplinary training to SART members. Various other solicitations provide funding for projects in Indian Country. These grants support victim assistance programs for Indian tribes under Federal criminal justice jurisdiction, including 28 victim assistance programs, one elder abuse demonstration program, a training and technical assistance grant for OVC's American Indian/Alaska Native grantees, tribal CASA programs, grants to support faith-based organizations which provide counseling services to American Indian/Alaska Native crime victims, and a project to provide training to tribal leaders on the critical role of their support of tribal victim assistance programs. OVC also has funded the planning and implementation of State Victim Assistance Academies to meet the entry-level educational and training needs of a broad range of victim assistance providers and allied professionals who work directly with victims of crime. OVC also supports public awareness initiatives on crime victims' rights and issues, including the annual dissemination of a resource kit to the field to assist their activities during National Crime Victims Rights Week (NCVRW) and the sponsorship of an annual NCVRW awards ceremony for exemplary service providers and organizations. During FY 2005, OVC implemented an innovative strategy to provide top-quality Public Service Announcements (PSAs) on crime victims' rights and services to every television broadcaster in the nation, incorporating the ability to track when the PSAs are aired and the estimated audience and audience demographics. During FY 2006, OVC discretionary funding continues to be directed at several areas, including the faith-based response to crime victims, implementation and enforcement of victims' rights, underserved crime victims in both urban and rural settings, a demonstration program to assist victims of identity theft, victim assistance in Indian Country, working with grass roots organizations to identify and replicate promising practices in serving victims, as well as the development and dissemination of information and training for a wide variety of practitioners who work with crime victims. In the past 3 years, OVC has funded several key projects that focus on strengthening collaboration and cross-training between victim assistance and faith-based providers, in order to improve services for crime victims. In FY07, OVC has funded discretionary programs to assist victims of identity theft and financial fraud. udi Arabia, Afghanistan and Iraq

(e.g. bombing of UN Headquarters in Baghdad.). Assistance has included toll-free information lines, Family web sites, informational briefings, travel to criminal Justice proceedings, and mental health counseling. In addition, OVC works in liaison with other Federal agencies to coordinate services for victims of terrorism; has worked with the Center for Mental Health Services at HHS to develop training for mental health service providers on assisting victims of terrorism and mass violence; is working with the Office for Domestic Preparedness to provide training to enhance the capacity of first responders to deal effectively with victims of terrorism; provides funding for a community-based assessment and planning process to help states and local communities design and implement a strategic plan for responding to victims of criminal mass violence; and provides funding to track kidnapped children taken across international borders (in parental abductions) to help their left-behind parents attend court hearings and return to the US with their children. In FY 2006, OVC will continue many of these projects as well as setting aside money in the Antiterrorism Emergency Reserve to respond to future incidents of terrorism and mass violence occurring both within the United States and abroad and to fund an International Terrorism Victim Expense Reimbursement Program.
