Freedom of Information Act (FOIA) ID# 9401

Dear FOIA Officer,

Under the Freedom of Information Act, 5 U.S.C. § 552, as amended, I am requesting clearly releasable portions of the documents regarding all contracts awarded under Contract # DEAC0494AL8500 the STRATEGICALLY HARDENED FACILITY DEFEAT (SHFD) requirement, awarded to Sandia National Laboratory. Specifically, I am requesting copies of the following information/documents:

- Awarded contract
- All related attachments and modifications
- All task/delivery/purchase orders
- List of proposal submitters

Whenever possible, please refer to FOIA ID 9401 in any response letter, email, fax, or invoice.

If possible, I would prefer to receive the documents in electronic format. If not, hard copies of responsive documents will be more than adequate. If your office does not maintain these public records, please let me know who does and include the proper custodian's name and address.

Your response is respectfully requested within 20 working days of your receipt of this letter. §552(a)(6)(A)(1). If all or any part of this request is denied, please cite each specific exemption that justifies your withholding of information

I hereby agree to assume all the search, duplication, and review fees in the amount of \$100. Please notify me if the cost of fulfilling my request will exceed that amount.

Thank you for your assistance,

Re: DeNuke Contracting Services, Inc., et al v. EnergX, LLC, et al  
U.S. District Court, E.D. Tenn. No. 3:07-cv-114

Ladies and Gentlemen:

This law firm has been retained by DeNuke Contracting Services, Inc. ("DeNuke") in a lawsuit against EnergX, LLC ("EnergX") arising from a subcontract on a Department of Energy ("DOE") project.

It is our understanding that your office investigated <sup>Fluor</sup> EnergX and/or its <sub>Fluor</sub> at some point between 1998 and 2005, for alleged improprieties at a DOE site in or near Hanford, Washington while he was working for Fluor Hanford, Inc. We have been advised, however, that no final report was generated in this investigation, and indeed none appears on your website at [www.ig.energy.gov](http://www.ig.energy.gov).

On behalf of DeNuke and pursuant to the Freedom of Information Act, 5 U.S.C. § 552, we hereby request copies of any and all materials in your possession, custody or control relating to any such investigation regardless of format or media. This request is intended to include, without limitation:

1. Charges of misconduct or similar complaints;
2. Affidavits, transcripts, notes and case files;

3. Recommendations and/or determinations; and
4. Documents provided to you by either,                      or any complainants; and
5. Identities and/or statements of any witnesses to, or persons who have knowledge of, the acts complained of in the charges or complaints.

If you deny all or any part of this request, please cite the specific exemptions which you believe justify your refusal to release the information and advice of the appeal procedures available under the law. DeNuke will assume financial responsibility for time used in searching for the documents and for reasonable copying charges.

I would appreciate your handling this request as quickly as possible and look forward to hearing from you within the 10-day period stipulated by law and regulation.

Thank you for your attention to this matter.

Sincerely,

Kate E. Tucker

## COMMITTED TO ELECTING A DEMOCRATIC SENATE

Congress wrote the Freedom of Information Act so that the American people, who do not have the power of subpoena, are guaranteed a broad right to know about the operations and activities of their government and its officials, consistent with personal privacy. Therefore, please release any material that may be reasonably separated and released, as provided by Agency rules in the Code of Federal Regulations. In particular, information regarding individuals (other than the members of Congress listed in this request) should be redacted where disclosure would be an unwarranted invasion of individual privacy. [Per the exemption provided by Congress in 5 U.S.C. 552(b)(6)]

I also request that you state the specific legal and factual grounds for withholding any documents or portions of documents. And please identify each document that falls with scope of this request but is withheld from release.

If requested documents are located in, or originated in, another installation or bureau, please refer this request or any relevant portion of this request to the appropriate installation or bureau.

To the extent that the information is available in electronic format, I would be willing to receive that information on computer disk or CD-ROM, particularly if providing the information reduces the time or expense involved. Otherwise, I would expect to receive the information in paper form.

To help assess my status for copying and mailing fees, please note that I am a representative of a political organization gathering information for research purposes only, disclosure of this information is likely to be in the public interest and is not for commercial activities. I am willing to pay all reasonable costs incurred in locating and duplicating these materials. Please contact me prior to processing to approve any fees or charges incurred in excess of \$150.

Dear Officer:

Pursuant to the provisions of the Federal Freedom of Information Act, 5 U.S.C. § 552, I hereby submit this request for information. For purposes of this request, the term "documents" includes all written, printed, typed or other graphic matter, and all mechanical and electronical recordings or transcripts thereof, including, but not limited to, all bills, receipts, records, books, accounts, photographs, videos, analyses, test results and data, logs, monitoring logs, charts, x-rays, diagrams, blueprints, maps, memoranda of conversations or other communications, diaries, invoices, surveys, ledgers, microfilms, purchase orders, bills, cancelled checks, contracts or agreements, shipping orders, invoices, correspondence, internal memoranda, and computer disks, tapes or printouts.

I hereby request the following:

1. Copies of any and all documents related to any federal assistance requested or received by Changing World Technologies, Inc., ConAgra Foods, Inc., Renewable Environmental Solutions, or Gas Technology Institute, Inc. (also known as "GTI") (collectively, "Companies"), for a demonstration of thermal depolymerization and chemical reformation, commercial demonstration plant, thermal conversion process commercial demonstration plant or other U.S. Department of Energy ("DOE") funded project including, but not limited to:
  - a. Any applications for federal assistance and related communications or other documents;
  - b. Any financial award received by Companies;
  - c. Any and all documents related to any federal assistance requested or received by Companies including any reports on any money that was disbursed or spent (and how it was spent), any analysis of the proposed funding, or any discussion of whether to fund the thermal depolymerization plant constructed near Carthage, Missouri; the turkey plant near Longmont, Colorado, the poultry plant near Enterprise, Alabama, the onion-dehydration plant near Fernley, Nevada and any related projects funded or proposed to be funded in part by the DOE.

Preferred Form or Format: electronic file or paper copies

Type of Requester (if provided):

Affiliated with an educational or noncommercial scientific institution, and this request is made for scholarly or scientific purpose and not for commercial use.

Fees and Fee Waivers:

I request a waiver or reduction of fees.

Waiver or Reduction of Fees Factors (if provided):

1. The subject of the request: Whether the subject of the requested records concerns "the operations or activities of the government."

We are seeking a better understanding of how the Mississippi Congressional delegation and Governor have informed or affected the operations and policies of the Department of Energy.

2. The informative value of the information to be disclosed: Whether the disclosure is "likely to contribute" to an understanding of government operations or activities.

We believe that this information will show whether and how Mississippi elected officials have contributed to DOE decisions and policies

3. The contribution to an understanding by the general public of the subject likely to result from disclosure, taking into account your ability and intent to disseminate the information to the public in a form that can further understanding of the subject matter.

We will post the findings of this request to our website and other websites. In addition, we will share interesting findings with our 25,000 members via our newsletter and also share the results of this request with interested local media.

4. The significance of the contribution to public understanding: Whether the disclosure is

likely to contribute "significantly" to public understanding of government operations or activities.

The Department of Energy has many significant activities taking place in the state of Mississippi, including grants to research universities and selection of the state for location of a strategic petroleum reserve site. Insight into the operations of the DOE would contribute significantly to the public's understanding of these operations and activities.

5. The existence and magnitude of a commercial interest: Whether the requester has a commercial interest that would be furthered by the requested disclosure, and, if so

We are a 501(c)(3) organization and have no commercial interest in this request. All information received through this FOIA request will be distributed to anyone who requests it free of charge.

**Re: Freedom of Information Act Request**

Via Certified Mail

Dear Mr. Lopez:

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. 552, I am requesting copies of two historic Atomic Energy Commission (AEC) contracts, one with General Electric covering the operation of the Knolls Atomic Power Laboratory (KAPL) in Schenectady, New York, and the other with Westinghouse Electric covering the operation of the Bettis Atomic Power Laboratory (BAPL) in West Mifflin, Pennsylvania. Both contracts likely date back to the late 1940s, and I believe the numbers associated with each are as follows:

- **W-31-109-ENG-52.** This contract between the AEC and GE covered the operation of the KAPL facility in Schenectady, New York, and was likely executed in the late 1940s.
- **AT-(11-1)-GEN-14.** This contract between the AEC and Westinghouse Electric covered the operation of the BAPL facility in West Mifflin, Pennsylvania, and was likely executed between 1948 and 1950.

In addition, I am also requesting copies of any amendments or modifications to these contracts, as well as any earlier draft versions, should they be located in the course of your review.

To the extent that any relevant documents are classified, I request that they be declassified and/or sanitized for our review. If there are classified documents that will not be declassified and/or sanitized, I request that you identify any and all such documents by listing date, author, recipient(s), and unclassified subject matter. I would also appreciate receiving any materials that can be released as soon as possible, rather than waiting for all responsive documents to clear the review process.

Dear DOE Folks,

Thanks for all your work. I was just looking on the FOIA section of your website and wondered if you might have time for a question.

I'm interested in the response of the Secretary of Energy and the DOE to the GAO report on "Peak Oil". As far as I understand it, Secretary Bodman replied in some detail to a letter of inquiry from Senator Feinstein earlier this year. (I believe it was in February.)

Is there any possibility that I might obtain a copy of the letter from Secretary Bodman to Senator Feinstein regarding his response (and the DOE's response) to the GAO report?

I appreciate any help you might be able to provide me.

Best wishes,

Phyllis

DOE collects and periodically issues reports containing general information (including total dollar amounts and number) concerning Work for Others (WFO) agreements that the DoE labs enter into with private firms and other research entities.

We would like to acquire more detailed information concerning these agreements for a current research project. Specifically, we are requesting the following:

- 1) A [list of firms which have had WFO agreements with DOE labs for the years 2000, 2001, and 2002] (note: we are requesting these three years to avoid requesting information pertaining to open contracts - all contracts from these years should be closed). We request that the list include the dollar value of the individual firm contracts.
- 2) We request general information concerning the trendlines in the dollar amount and number of contracting firms entering into WFO agreements with DOE labs for the last eight years (note: this second item does not request specific firm information for this full period)

Dear Department of Energy FOIA Officer:

I request information from your Department (Department of Energy) under the Freedom of Information Act. The category of my request qualifies as *news media*, as I am the writer of an online column (DotGovWatch.com) and I am conducting research for an article.

The records I seek are descriptions of all mailing lists requested of your Department, independent agencies, and national laboratories under FOIA since January 1, 2003. For each mailing list requested, I would like the following information:

1. When the request was made
2. What mailing list was requested
3. Who requested the mailing list
4. What company the requestor was affiliated with, if any
5. For what purpose was the mailing list requested
6. Whether your agency provided the mailing list
  - a. *If yes:* The criteria for which, if any, names and contact information were redacted
  - b. *If no:* What justification was given for exemption
7. What kinds of data were provided (names, phone numbers, email addresses, etc.)
8. The total number of people whose data was provided
9. The total FOIA processing fees charged to the requestor

Items numbered one through five above may be in the format of either a summary paragraph or the contents of the original request letter.

I am not able to pay a processing fee for this request. Should there be an associated fee, I request to be considered for a Fee Waiver. The information I am requesting will significantly contribute to the public's understanding of the operations and activities of the government. I am researching whether the federal government's current implementation of FOIA threatens the privacy of the American public. I will subsequently publish my findings publicly, freely, and without any commercial value whatsoever to myself at DotGovWatch.com.

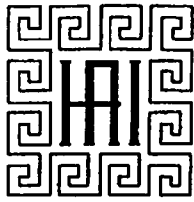

Please either mail or email correspondence and the final information to my address or email address above.

Sincerely,

  
Coby Logen

**Re: Freedom of Information Act Request**

Dear Mr. Lopez:

Pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. §552), I am requesting copies of historical contracts and contract-related material in the possession, custody, or control of the U.S. Department of Energy (DOE) relating to contract work performed by North American Aviation's (NAA) Atomic International Division (also known as North American Rockwell and Rockwell International Corporation) at the Santa Susana Field Laboratory (SSFL) near Canoga Park, California, from ca. 1948 to 2000<sup>1</sup>

I am also interested in obtaining copies of any DOE or Atomic Energy Commission (AEC) contracts and contract-related material with NAA for historical work procured at NAA's Canoga Park facility, which is located in close proximity to SSFL. I understand that NAA's SSFL-related procurement activities were based at Canoga Park, meaning that contracts involving rocket testing at SSFL were likely let to Canoga Park.

Documents responsive to this research request may include, but are not limited to, contracts for work at Santa Susana; reactor licenses to operate reactors at SSFL; and documents relating to testing, real property records, and site inspections.

I understand that in the 1950s and 1960s, the AEC let several contracts with NAA as part of the AEC's Five-Year Reactor Development Program and the Sodium Graphite Reactor Experiment. AEC historical contract numbers with NAA include, but are not necessarily limited to:

FOIA 2008-000488

<sup>1</sup> In this context, "contract" is not limited to a core document but encompasses any and all contract amendments, change orders, or other documents that served to alter the contract in any way over time.

Murkowski regarding an Alaska Natural Gas Pipeline. I specifically request any and all records relating to contacts from outside parties relating to this letter, including among others, Sen. Ted Stevens, Sen. Lisa Murkowski, Gov. Frank Murkowski, Rep. Don Young, the Office of Vice President, and any other officials within the executive branch. I would also like records of any contacts with outside private parties, including any representatives of British Petroleum, ConocoPhillips, ExxonMobil, Veco. This should include any lawyers or lobbyists representing them.

Preferred Form or Format: Paper records

Type of Requester (if provided):

A representative of the news media affiliated with Newsweek and the request is made as part of news gathering and not for commercial use.

Type of Media (if provided):

Magazine

Fees and Fee Waivers:

I request a waiver or reduction of fees.

Waiver or Reduction of Fees Factors (if provided):

1. The subject of the request: Whether the subject of the requested records concerns "the operations or activities of the government."

This request involves the operations and activities of the government.

2. The informative value of the information to be disclosed: Whether the disclosure is "likely to contribute" to an understanding of government operations or activities.

The records are likely to contribute to an understanding of government activities.

4. The significance of the contribution to public understanding: Whether the disclosure is likely to contribute "significantly" to public understanding of government operations or

FOIA-2008-000493

activities.

The disclosure of these records may contribute significantly to a public understanding of this issue and related matters through publication of a story in Newsweek. .

5. The existence and magnitude of a commercial interest: Whether the requester has a commercial interest that would be furthered by the requested disclosure, and, if so no commercial interest

Expedited Processing:

I believe a compelling need exists to warrant expedited processing because there is:

an urgency to inform the public concerning actual or alleged Federal Government activity exists (this option available ONLY for requesters primarily engaged in disseminating information)

Specific Justification for Expedited Processing:

The events surrounding the Alaska Natural Gas Pipeline issue and efforts by various federal officials on its behalf have been identified as a likely issue to arise in the upcoming trial of Sen. Ted Stevens, due to begin Sept. 22. The Justice Department last week quoted from an excerpt from an intercepted phone conversation in which Sen. Stevens said he was "going to try and see if I can get...the Secretary of Energy...up there to explain why its necessary that they act before we act." For a full understanding of this matter, it would be necessary to see the records requested.

**RE: FREEDOM OF INFORMATION ACT  
DOCUMENT REQUEST  
Cember v. Turner Construction Company  
Our File No.: 6534-5977**

Dear Sir/Madam:

This firm represents Turner Construction Company, which is being sued in the Supreme Court of New York by a plaintiff claiming exposure to asbestos materials when he was a resident of the Oak Ridge, Tennessee nuclear research facility. This exposure and residence was in the late 1940's.

It is our understanding that our client, Turner Construction Company, or a related subsidiary, "Roane-Anderson" was contracted by the federal government to provide property management, including various services, for the entire Oak Ridge, Tennessee community, in lieu of direct government management.

Accordingly, Turner Construction Company hereby requests, pursuant to the Freedom of Information Act, 5 U.S.C. 552 et seq., a full and complete copy of any contracts, agreements, and/or contract documents between either Turner Construction Company and/or its subsidiary Roane-Anderson on file with the Federal Government. We believe the contract was executed sometime in the 1940's and may have terminated sometime in the 1950's.

Turner Construction Company and this firm agrees to be responsible for any the statutory or regulatory fees that may be applicable for this search.

FOIA REQUEST  
Fee benefit requested

Dear FOI Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of the amount of fees spent for attorneys, their paralegals and other support staff by the Department of Energy (DOE) to represent defendants in the case of Natural Resources Defense Counsel, et al. v. Lockheed Martin Corp., et al., case number 99-cv-170 in U.S. District Court for the Western District of Kentucky. Along with the amounts paid, I request that you list the names of the law firms paid and how much they received during the pendency of this litigation.

I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$100. However, please notify me prior to your incurring any expenses in excess of that amount.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on legal fees spent on the Paducah Gaseous Diffusion Plant that is of current interest to the public because of the ongoing litigation brought by landowners near the plant. This information is being sought on behalf of The Associated Press for dissemination to the general public.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request.

I look forward to your reply within 20 business days, as the statute requires.

Thank you for your assistance.

Sincerely,

Dear Mr. Davenport:

This is a request under the Freedom of Information Act.

I request that certain documents removed from the Niels Bohr Library of the American Institute of Physics' Samuel A. Goudsmit Archive in December 1986 be made available to me. A list of these documents, as described by the Bohr Library, is enclosed. I am especially interested in the "Paul Rosbaud material" but would also appreciate release of the other documents.

I am a historian of physics. As part of a study why Germany never achieved an atomic bomb in World War II, I am reexamining the role that Paul Rosbaud played in conveying information about the state of research in Nazi Germany. There is reason to believe that Rosbaud, after the war, gave an account of his activities to Samuel Goudsmit and that the requested documents will shed light on this. I intend to make use of the material in a research paper to be submitted to a scholarly journal for publication.

I have examined the Goudsmit material that was returned by DOE to the Bohr Library after examination. The returned documents bear the following stamp:

CONFIRMED TO BE UNCLASSIFIED  
AUTHORITY:DOE-DPC  
BY R. HAMBURGER [inked in] 3/26/86 [and other dates in March 1986]  
[signed and dated] H.B.Schmidt 3/24/86 [and other dates in March 1986]

There is every reason to believe that the withheld documents are in possession of the Department of Energy. This supposition is confirmed by the National Archives and Records Administration to which I originally addressed my FOIA request for the release of the documents. They write:"There is no evidence that any of the records retained by DOE have since been transferred to the National Archives.

### Re: Freedom of Information Act Request

Via Certified Mail

Dear Mr. Lopez:

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. 552, I am requesting copies of the following Source and Special (SS) Material Shipping Forms (Form AEC-101):

- KAB-KZA-51 (dated 4/19/1965)
- KAB-KZA-77 (dated 3/10/1966)
- KAB-KZA-81 (dated 6/07/1966)

I understand that these forms are essentially records of transfers of SS material between two SS stations in the mid-1960s. I believe that 'KAB' was at that time the Nuclear Management SS Station Code Symbol for Metals & Controls, Inc., Nuclear Products, Attleboro, Massachusetts. Likewise, I believe that 'KZA' in this context represents Knolls Atomic Power Laboratory (KAPL) in Schenectady, NY.

I also understand that the data contained within these forms may be stored within the U.S. Department of Energy's Nuclear Materials Management and Safeguard System (NMMSS) database. If your agency is unable to locate any or all of the three above-listed forms, I request that you provide me with the data contained within these shipping forms. Such data may include but is not limited to: qualitative descriptions of material transferred (including level of enrichment) from Metals & Controls, Inc., to the Knolls Atomic Power Laboratory, contract and/or subcontract number(s), project number(s), and information on the weight or volume of material transferred.

To the extent that any relevant documents are classified, I request that they be declassified and/or sanitized for our review. If there are classified documents that will not be declassified and/or sanitized, I request that you identify any and all such documents by listing date, author,

FOIA-2008-000503

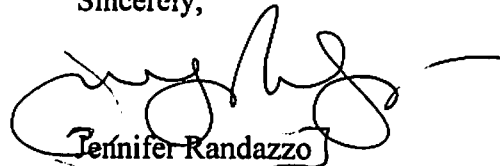

recipient(s) and unclassified subject matter. I would also appreciate receiving any materials that can be released as soon as possible, rather than waiting for all responsive documents to clear the review process.

History Associates Incorporated (HAI) agrees to pay all reasonable and standard processing fees authorized by 5 U.S.C. 552(a)(4)(A) and the applicable regulations up to \$100. Should the fees exceed this amount, please call me with an estimate of the total costs in order that specific expenditures beyond \$100 can be authorized.

Should you have any questions or concerns regarding this request, please contact me at (301) 279-9697 or [jrandazzo@historyassociates.com](mailto:jrandazzo@historyassociates.com).

Re: FOIA Request for "Newell v. Pace Iron Works, et al."  
Second Judicial District Cause No. D-0202-CV-2008-03497

Via Fax, U.S. Mail and e-mail to ISIAH.SMITH@hq.doe.gov

Dear Mr. Smith,

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552 et seq., we hereby submit the following request for information. If the Department of Energy (DOE) has a particular form or format for such requests, please let us know.

These requests, in general, pertain to DOE policies on hoisting, rigging and crane use and to two workplace accidents at DOE locations, particularly:

- 1) March 23, 2003 ("the Sandia accident") at the Sandia National Laboratories (SNL) involving injuries from a staircase that fell during installation.
- 2) June 28, 2006. ("the TA-50 accident") at the Los Alamos National Laboratories (LANL) involving injuries from a staircase that fell during installation.

**FOIA Requests**

1. Any documents<sup>1</sup>, reports, advisories or bulletins issued by DOE in response to the Sandia accident or the TA-50 accident.
2. Any documents, reports, or communications to or from DOE regarding the TA-50 Tank Farm project, also referred to as the "TA-50 Pump House" project, or the Waste Management and Risk Mitigation Project (WMRM) Project, which is a component of the Cerro Grande Rehabilitation Project (CGRP) at LANL.

FOIA 2008-000505

<sup>1</sup>As used in this request, the term "document" includes both physical and electronic forms of written communication, including e-mail, whether printed or not.

3. Any communications or documents exchanged between DOE offices<sup>2</sup>, including the Los Alamos Site Office (LASO) regarding the Sandia accident or the TA-50 accident.
4. Any communications between or documents exchanged between DOE offices or entities and LANL, the University of California, or the contractor now known as Los Alamos National Security (LANS) relating to either the Sandia accident or the TA-50 accident.
5. Any investigations or reports relating to the Sandia accident or the TA-50 accident.
6. Any reports or entries made into the DOE's Occurrence Reporting and Processing System (ORPS) regarding the Sandia accident or the TA-50 accident.
7. Any policies, procedures, rules or regulations that were promulgated by DOE in response to either to the Sandia accident or the TA-50 accident.
8. Any documents created or held by the DOE's **Office of Health, Safety and Security (HS-10)** relating in any way to the Sandia accident or the TA-50 accident, including, but not limited to:
  - a. Documents created or held by the Office of Corporate Safety Analysis.
  - b. Documents created or held by the Office of Worker Safety and Health Policy, including those created by or directed to or from **Mr. Patrick F. Finn**
  - c. Documents created or held by the Office of Corporate Safety Programs, including those created by or directed to or from **Mr. David K. Pegram**
  - d. Documents held by, created by, or directed to or from the DOE's *Construction Safety Advisory Committee*
  - e. Documents held by, created by, or directed to or from the DOE's *Hoisting and Rigging Technical Advisory Committee*
9. Any documents sent to or from LANL, LANS, Sandia National Laboratories (SNL), the Sandia Site Office (SSO), or the Los Alamos Site Office (LASO) regarding the Sandia accident or the TA-50 accident.
10. Any documents sent to or from the DOE's observer on the LANL Accident Investigation Team, **Mr. Eric Trujillo** regarding workplace safety, the Sandia Accident or the TA-50 Accident.
11. Any DOE policies, manuals, directives or other authority relating to hoisting, rigging or crane use.
12. Any DOE policies, manuals, directives or other authority relating to the procurement of (or contracting for) hoisting, rigging or crane services.

Re: Request under the FOIA, in reply refer to Archive # 20081008DOE006

Dear Ms. Lawson:

Pursuant to the Freedom of Information Act (FOIA), I hereby request disclosure of any records--reports, working papers, or transcripts of discussions--relating to a "Nuclear Safeguards Symposium" held at Los Alamos National Laboratory during October 1969. Presenters at the symposium included Atomic Energy Commissioner C. E. Larson.

If you regard any of this material as potentially exempt from the FOIA's disclosure requirements, I request that you nonetheless exercise your discretion to disclose them. As the FOIA requires, please release all reasonably segregable nonexempt portions of documents. To permit me to reach an intelligent and informed decision whether or not to file an administrative appeal of any denied material, please describe any withheld records (or portions thereof) and explain the basis for your exemption claims.

As a representative of the news media, the National Security Archive qualifies for "representative of the news media" status under 5 U.S.C. Sec. 552(a)(4)(A)(ii)(II) and, therefore, may not be charged search and review fees. (See *National Security Archive v. U.S. Department of Defense*, 880 F.2d 1381 (D.C. Cir. 1989), cert denied, 110 S Ct. 1478 (1990)). This request is made as part of a scholarly and news research project that is intended for publication and is not for commercial use. For details on the Archive's research and extensive publication activities please see our website at [www.nsarchive.org](http://www.nsarchive.org).

To expedite the release of the requested documents, please disclose them on an interim basis as they become available to you, without waiting until all the documents have been processed. If you have any questions regarding the identity of the records, their location, the scope of the request or any other matters, please call me at (202) 994-7032. I look forward to receiving your response within the twenty-day statutory time period.

Sincerely Yours,

Re: Information about nuclear collaboration between Argentina, Israel and Germany in the late fifties/ 1960. How Israel got uranium for Dimona?

Dear Mr. Hagerty,

Barbara Cullen from US NRC gave me the advice to contact you to receive the information referring to nuclear collaboration between Argentina, Israel and Germany in the late fifties/ 1960 and Nazi war criminal Adolf Eichmann.

I wrote a book about laundering Nazi gold in Argentina („La conexion alemana, Buenos Aires/Barcelona 2005, „die Daimler Connection“, Hamburg 2004). In last January, Deutschlandfunk, SWR and WDR published my investigation about Adolf Eichmann, who was living in Argentina under the name of „Ricardo Klement (or: Clement)“. The main facts of my investigation you can see: <http://www.labournet.de/dcarg>

According to my investigation, Mr. Eichmann had at that time (1960) his headquarter in Bariloche, in the south of Argentina. Several German Scientists, emigrated after World War II to Argentina (among them Ronald Richter), built there an Atomic Research Centre. This nuclear research was, according to the Treaty of Paris (1954) forbidden in the Federal Republic of Germany, but not forbidden in Argentina.

As you know, after World War I, the German Reich did military research, above all referring to aircraft technology, in Sweden and the Soviet Union – this research was forbidden in Germany by the Versailles Treaties but not forbidden in Sweden and the Soviet Union.

According to my investigation (and written by his official biographer), Mr. Shimon Peres travelled to Argentina in order to receive nuclear technology and uranium for construction of Dimona reactor. The Israeli Dimona project was in danger after decision of the French government not to pass this equipment to Israel. And the US government delivered enriched uranium only for peaceful purposes („atoms for peace“) with severe safeguards. In December 1960, Chairman of AEC, John McCone, told reporters that US intelligence discovered a secret reactor in the Desert of Negev. And according to documents that I found in the German Foreign Office, US sources discovered that Germany helped Israel to build the nuclear bomb.

FOIA-2008-000508

*Bruck*

It is known that Mr. Peres (at that time defence minister) met Mr. Franz Josef Strauss (German defence minister and before minister for atomic affairs) in February 1960 in Bonn and that German Chancellor Konrad Adenauer met Mr. David Ben Gurion in March 60 in New York. The Adenauer government decided on 2nd of March 1960 to pay to the Israeli Weizmann Institute three million D-Marks for nuclear collaboration between Germany and Israel. At that time, there was no diplomatic relation between these two governments.

According to my investigation, the trip of Mr. Peres to Argentina in order to meet German (former Nazi) nuclear specialists was co-ordinated with the German government.

After detention of Mr. Eichmann, German and Israeli partnership in nuclear research got closer, while the Argentine Government signed the same day that Eichmanns detention was published by Mr. Ben Gurion - 23rd of May 1960 - a document (stamped 23rd of May), accepting the US safeguards to control that enriched uranium from the US was used only for peaceful purposes. There must be in your Department further documents about the recommendation towards the Argentine government to sign this paper and there must be further information about these German (former Nazi) Scientists in Argentina, researching on nuclear and other military questions.

It is proofed by released documents that a US authority, in this case it was CIA, was informed in 1958 where Nazi War Criminal Eichmann was living in Argentina. There are evidences that your Department or/ and the Atomic Energy Commission knew this too.

I am interested in all documents of your Department that have to do with the described circumstances, with US controls of nuclear activities in Argentina (Tucumán, Buenos Aires and Bariloche) by Argentinean and German citizens and with your efforts in order to avoid distribution of uranium and nuclear technology for non-pacific purpose. Especially, I am interested in the Israeli connection with the German government and German firms Degussa, Nukem (founded by Degussa in 1960) and Metallgesellschaft. Do you have any information about uranium trade (six tons in 1960, 10 in 1962 and 100 in 1963) from Argentina to Germany and/or to Israel? Uranium was on the CoCom list and Germany was a member, but these tons do not figure in the official statistics. May be that you can explain this.

I do not know the exact name of the file I am looking for. Of course, I know that generally you protect your sources. But in the case of a Nazi war criminal, I think, there is a right, nearly 50 years after Eichmann has been dispatched to Israel, to know what happened.

I stay until 5th of October in my German office, and the best way to connect me is by email.

I am basing this request on the Freedom of Information Act and on the Nazi War Crimes Disclosure Act and I am willing to pay the fees. If you have any question, please feel free to contact me. Thank you for your help.

Sincerely  
Dr. Gabriele Weber
