July 2009

Bulletin 2719

Employee Benefits Survey

Overview

The National Compensation Survey (NCS) provides comprehensive measures of occupational earnings, compensation cost trends, the incidence of benefits, and detailed benefit provisions. This bulletin presents estimates of the detailed provisions of employer-provided health plans in private industry in 2008. Under the NCS program, information on the incidence and provision of benefits is published in several stages. An earlier summary provided data on the incidence of (access to and participation in) selected benefits and detailed provisions of paid holidays, life insurance plans, and some other benefit plans, as well as on employer and employee shares of contributions to medical care premiums and their average amounts. Similar data for civilian, private industry, and State and local government workers for March 2009 will be issued later this year.

Questions regarding these data and recent and historical NCS benefits data can be addressed by calling the information line at (202) 691–6199 or by e-mailing to NCSInfo@bls.gov. Information is available to sensory-impaired individuals on request, (Voice phone: (202) 691–5200; Federal Relay Service: 1 (800) 877–8339). Data requests also may be sent by mail to the U.S. Bureau of Labor Statistics, Division of Compensation Data Analysis and Planning, 2 Massachusetts Avenue, NE, Room 4175, Washington, DC 20212. Material in this publication is in the public domain and, with appropriate credit, may be reproduced without permission.

Table 1. Medical care benefits: Plan type, private industry workers, National Compensation Survey, 2008

(All workers participating in medical care plans = 100 percent)

Characteristic	Total	Fee-for-service plan					
		Total	Traditional	Preferred provider organization	Point of service plan	Exclusive provider organization	Not determinable
All workers	100	78	4	58	10	5	(¹)

¹ Less than 0.5 percent.

² The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ The deductible is the amount of covered expenses that an individual or family must pay before any charges are paid by the medical care plan. Deductibles that apply separately to a specific category of expenses, such as deductible for each hospital admission, were excluded.

² Represents the initial coinsurance in plans that have 100 percent coverage after the individual pays a specified dollar amount toward expenses. For example, the plan pays 80 percent until the individual's out-of-pocket expenses reach \$1,000, and then coverage is 100 percent.

³ The out-of-pocket maximum is the annual limit on the amount of covered expenses that a participant or a family must pay after the deductible has been satisfied. Once reached, covered expenses are fully reimbursed for the rest of the year.

⁴ Less than 0.5 percent.

⁵ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ The deductible is the amount of covered expenses that an individual or family must pay before any charges are paid by the medical care plan. Deductibles that apply separately to a specific category of expenses, such as deductible for each hospital admission, were excluded.

² Less than 0.05.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are

based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ The deductible is the amount of covered expenses that an individual or family must pay before any charges are paid by the medical care plan. Deductibles that apply separately to a specific category of expenses, such as deductible for each hospital admission, were excluded.

² Less than 0.05.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are

based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ The deductible is the amount of covered expenses that an individual or family must pay before any charges are paid by the medical care plan. Deductibles that apply separately to a specific category of expenses, such as deductible for each hospital admission, were excluded.

² Less than 0.05.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation

Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ Represents the initial coinsurance in plans that have 100 percent coverage after the individual pays a specified dollar amount toward expenses. For example, the plan pays 80 percent until the individual's out-of-pocket expenses reach \$1,000, and then coverage is 100 percent.

² The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States,

2007." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ The out-of-pocket maximum is the annual limit on the amount of covered expenses that a participant or a family must pay after the deductible has been satisfied. Once reached, covered expenses are fully reimbursed for the rest of the year.

² The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation

Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ The out-of-pocket maximum is the annual limit on the amount of covered expenses that a participant or a family must pay after the deductible has been satisfied. Once reached, covered expenses are fully reimbursed for the rest of the year.

² The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation

Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ The deductible is the amount of covered expenses that an individual or family must pay before any charges are paid by the medical care plan. Deductibles that apply separately to a specific category of expenses, such as deductible for each hospital admission, were excluded.

² Represents the initial coinsurance in plans that have 100 percent coverage after the individual pays a specified dollar amount toward expenses. For example, the plan pays 80 percent until the individual's out-of-pocket expenses reach \$1,000, and then coverage is 100 percent.

³ The out-of-pocket maximum is the annual limit on the amount of covered expenses that a participant or a family must pay after the deductible has been satisfied. Once reached, covered expenses are fully reimbursed for the rest of the year.

⁴ Less than 0.5 percent.

⁵ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

³ The out-of-pocket maximum is the annual limit on the amount of covered expenses that a participant or a family must pay after the deductible has been satisfied. Once reached, covered expenses are fully reimbursed for the rest of the year.

⁴ Less than 0.05.

⁵ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebss/glossary20082009.htm.

¹ Services incurred in the outpatient department of a hospital.

² Plans that provide post-hospitalization care only to patients who were previously hospitalized and are recovering without need of the extensive care provided by a general hospital.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ Services incurred in the outpatient department of a hospital.

² Plans that provide post-hospitalization care only to patients who were previously hospitalized and are recovering without need of the extensive care provided by a general hospital.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

1 Detoxification is the systematic use of medication and other methods under medical supervision to reduce or eliminate the effects of substance abuse.

2 Rehabilitation is designed to alter abusive behavior in patients once they are free of acute physical and mental complications.

3 The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the

estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ Provides preventive pediatric care, routine pediatric care, and routine pediatric immunization for children two years and younger.

² The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States,

2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ Limits may be set in terms of dollar or day ceiling on benefits, a requirement that the participant pay a percentage of costs (coinsurance), or a requirement that the participant pay a specific amount (deductible or copayment) before reimbursement begins or services are rendered.

² Less than 0.5 percent.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ Limits may be set in terms of dollar or day ceiling on benefits, a requirement that the participant pay a percentage of costs (coinsurance), or a requirement that the participant pay a specific amount (deductible or copayment) before reimbursement begins or services are rendered.

² Less than 0.05.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ Less than 0.5 percent.

² The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ Limits may be set in terms of dollar or day ceiling on benefits, a requirement that the participant pay a percentage of costs (coinsurance), or a requirement that the participant pay a specific amount (deductible or copayment) before reimbursement begins or services are rendered.

² Less than 0.05.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the

"National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ Substance abuse treatment benefits provide inpatient and outpatient care for alcohol or drug dependency.

² Inpatient detoxification is the systematic use of medication and other methods under medical supervision to reduce or eliminate the effects of substance abuse.

³ Inpatient rehabilitation is designed to alter abusive behavior in patients once they are free of acute physical and mental complications.

⁴ Outpatient rehabilitation includes treatment in one or more of the following: outpatient department of a hospital, residential treatment center, organized outpatient clinic, day-night treatment center, or doctor's office.

⁵ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

¹ Inpatient detoxification is the systematic use of medication and other methods under medical supervision to reduce or eliminate the effects of substance abuse.

² Inpatient rehabilitation is designed to alter abusive behavior in patients once they are free of acute physical and mental complications.

³ Outpatient rehabilitation includes treatment in one or more of the following: outpatient department of a hospital, residential treatment center, organized outpatient clinic, day-night treatment center, or doctor's office.

⁴ The percentile groupings are based on the average wage for each occupation

surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ Inpatient detoxification is the systematic use of medication and other methods under medical supervision to reduce or eliminate the effects of substance abuse.

² Inpatient rehabilitation is designed to alter abusive behavior in patients once they are free of acute physical and mental complications.

³ Outpatient rehabilitation includes treatment in one or more of the following: outpatient department of a hospital, residential treatment center, organized outpatient clinic, day-night treatment center, or doctor's office.

⁴ The percentile groupings are based on the average wage for each occupation

surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ Preventative services include dental exams, cleanings, and other preventive care.

² Coverage for dental procedures may be subject to scheduled allowance, deductible, or coinsurance provisions, in addition to maximum dollar limitations.

³ Basic services include dental services such as fillings, dental surgery, periodontal care, and endodontics.

⁴ Major services include dental procedures such as crowns and prosthetics.

⁵ Less than 0.5 percent.

⁶ The percentile groupings are based on the average wage for each occupation surveyed, which

may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ Coverage for orthodontia care benefits may be subject to scheduled allowance, deductible, or coinsurance provisions, in addition to maximum dollar amounts.

² Medians include only those plans that have the specified provision.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey:

Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

¹ Amount of deductible is for each insured individual and excludes separate deductibles for orthodontic procedures. A single deductible may not apply to all covered dental procedures. If separate deductibles applied to different procedures, the sum of the deductible amounts was tabulated.

² The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey:

Occupational Earnings in the United States, 2007." See Technical Note for more details.

³ Less than 0.5 percent.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ Amount of deductible excludes separate deductibles for orthodontic procedures. A deductible may not apply to all covered dental procedures. If separate deductibles applied to different procedures, the sum of the deductible amounts was tabulated.

² The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

³ Less than 0.5 percent.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ Includes all covered dental procedures except orthodontia. Coverage for dental procedures may be subject to scheduled allowance, deductible, or coinsurance provisions, in addition to annual plan maximum. If separate annual maximums applied to different dental procedures, the sum of the maximum was tabulated.

² Less than 0.5 percent.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile

values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ Includes all covered dental procedures except orthodontia. Coverage for dental procedures may be subject to scheduled allowance, deductible, or coinsurance provisions, in addition to annual plan maximum. If separate annual maximums applied to different dental procedures, the sum of the maximum was tabulated.

² Less than 0.05.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation

Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ehs/glossary20082009.htm.

¹ Includes plans subject to copayment, cash allowance, and retail discount.

² Includes plans that provide coverage for elective purchase of contact lenses; medically necessary contact lenses (cataract surgery) normally are provided under the surgical portion of a medical plan and are not described in this table.

³ Less than 0.5 percent.

⁴ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the

estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Because of rounding, sums of individual items may not equal totals. Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.

⁴ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

Employee Benefits Survey

Technical Note

Data in this bulletin are from the National Compensation Survey (NCS), conducted by the U.S. Department of Labor, Bureau of Labor Statistics (BLS). The bulletin contains 2008 data on detailed employer-provided health benefit plan provisions for private industry workers in the United States. Excluded from the survey are Federal government workers, State and local government workers, the military, agricultural workers, private household workers, aircraft manufacturing workers, and the self-employed. Previous publications containing information on employee benefits for private industry and State and local government workers are available on the BLS website <http://www.bls.gov/ncs/ebs>.

Calculation details

For data presented by wage levels, average hourly earnings for occupations within an establishment were used to produce estimates for worker groups within six earnings percentiles: Below the 10th percentile, 10th to under the 25th percentile, 25th to under the 50th percentile, 50th to under the 75th percentile, 75th to under the 90th percentile, and the 90th percentile and greater. Individual workers can fall into an earnings category different from the average for the occupation into which they are classified. The percentile breakouts are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on wages published in “National Compensation Survey: Occupational Earnings in the United States, 2007,” U.S. Department of Labor, June 2008, bulletin 2704. Values corresponding to the percentiles used in the tables are:

Characteristic	Hourly wage percentile				
	10	25	50 (median)	75	90
Private industry workers	\$7.85	\$10.13	\$15.00	\$23.25	\$34.79

Not determinable estimates

Some tables in this bulletin contain columns with estimates classified as "not determinable." Situations that result in this classification can vary. In detailed provisions of employer-provided health care plans, the "not determinable" classification is used whenever partial information on a particular plan feature is available from the Summary Plan Description (SPD), used as a primary source of information on the provisions of a health benefit plan. For example, in table 1, workers are classified as participating in four types of fee-for-service plans. Those workers that were known to be participating in a fee-for-service plan, but the plan type was either not specified or was specified but did not fit into any of the four categories used in the table, were classified into the "not determinable" category.

Another situation in which the "not determinable" classification may be used is when workers are participating in plans in which a provision is known to exist, but no information on the specific details of this provision is available from the SPD. An example of this situation can be found in table 4. All workers in this table participate in fee-for-service plans. The majority of the workers that make up the base of this table participated in plans that specified a deductible, but a small percentage of workers participated in plans in which the deductible was mentioned but not described. These workers were classified into the "not determinable" category.

Interpreting the tables

Most of the tables in this bulletin exhibit the percentage of all employees participating in a particular benefit plan or the percentage covered by a specific provision. The base of each table is indicated by the statement under the title that indicates what subset of workers equals 100 percent. For example, table 1 indicates that all workers participating in medical care plans equal 100 percent. Fee-for service plans account for 78 percent of participants and health maintenance organizations, 22 percent of participants.

Other tables provide data on average values. For example, table 35 indicates the median number of days or visits covered per year for mental health care benefits. In the tables, the average value is based only on those who were affected by the provision; employees without such coverage were not included in the calculation of an average value. In table 35, only workers participating in plans with specified day limits were included.

Finally, some tables contain data on percentages of workers and average values. For example, table 3 indicates both the type and dollar amount of annual individual deductible in fee-for-service plans. The base of this table is all workers participating in fee-for-service plans. The non-shaded estimates are percentages of workers by the type of deductible (e.g., fixed deductible, variable deductible, etc.). To indicate values rather than percentages, the columns with median deductible amounts are shaded.

Survey response

The 2008 survey included a sample of approximately 3,900 establishments. Classifications in Appendix table 1 are defined as follows:

Responding. The establishment provided information on at least one usable occupation. An occupation is classified as usable if the following data are present: occupational characteristics (full- or part-time schedule, union or nonunion status, and time or incentive pay type); work schedule; and wage data.

Refused or unable to provide data. The establishment did not provide earnings, occupational classification, worker characteristics, and work schedule data for any occupation.

Out of business or not in survey scope. An out of business establishment is no longer in operation. Establishments not in the survey scope include farm and private households, the self-employed, the Federal government, and locations of an establishment out of the sampled area.

Also excluded are establishments with no workers within the survey scope (if all employees are also owners, for example).

Obtaining information

Information on the survey scope, sample design, data collection, survey estimation, and reliability of estimates, technical references, and survey definitions are available in Chapter 8 of the *BLS Handbook of Methods*, available online at: <http://www.bls.gov/opub/hom/home.htm>.

Definitions of major plans, key provisions, and related benefit terms used by the National Compensation Survey are provided in the *Glossary of Employee Benefit Terms*, available online at: <http://www.bls.gov/ncs/ebs/glossary20082009>.

For research articles on employee benefits, see the *Monthly Labor Review* or *Compensation and Working Conditions Online*, at the BLS Web sites <http://www.bls.gov/opub/mlr/home.htm> and <http://www.bls.gov/opub/cwc/home.htm>. For information on the North American Industry Classification System (NAICS) and the Standard Occupational Classification (SOC) system, including background information, see the BLS Web sites <http://www.bls.gov/bls/naics.htm> and <http://www.bls.gov/soc/home.htm>, respectively.

Appendix table 1. Survey establishment response

Appendix table 2. Numbers of workers represented

Appendix table 1. Survey establishment response, private industry, National Compensation Survey, 2008

Establishments	Number of establishments
Total in sampling frame ¹	5,346,939
Total in sample	3,866
Responding	2,550
Refused or unable to provide data	986
Out of business or not in survey scope	330

¹ The list of establishments from which the survey sample was selected (sampling frame) was developed from State unemployment insurance reports and is based on the 2007 North American Industry Classification System (NAICS). For private industries, an establishment is usually a single physical location.

Appendix table 2. Number of workers¹ represented, private industry, National Compensation Survey, 2008

Occupational group ²	Estimated number of workers
All workers	108,094,300
Management, professional, and related	26,856,600
Management, business, and financial	9,169,300
Professional and related	17,687,300
Service	21,623,300
Sales and office	30,378,900
Sales and related	12,195,700
Office and administrative support	18,183,200
Natural resources, construction, and maintenance	10,267,000
Construction, extraction, farming, fishing, and forestry ..	5,413,600
Installation, maintenance, and repair	4,853,400
Production, transportation, and material moving	18,968,500
Production	10,134,100
Transportation and material moving	8,834,400

¹ The number of workers represented by the survey are rounded to the nearest 100. Estimates of the number of workers provide a description of the size and composition of the labor force included in the survey. Estimates are not intended,

however, for comparison to other statistical series to measure employment trends or levels.

² The 2000 Standard Occupational Classification system is used to classify workers.
