**PART 3: INITIAL BASELINE DATA FOR EDUCATION REFORM ASSURANCES**

**SPECIAL NOTES:**

- In completing this portion of the application, please refer to Appendix B – Instructions for Part 3: Initial Baseline Data for Education Reform Assurances.
- The data described in Appendix B for two of the education reform assurances in Part 2 of the application – the Improving Assessments Assurance and the Improving Standards Assurance – are the most current available baseline data for these areas. Thus, the Department is not inviting States to submit additional information with respect to these two assurances.
- The Governor or his/her authorized representative should confirm whether the initial baseline data sources described in Appendix B for the four assurances referenced below – Achieving Equity in Teacher Distribution; Improving Collection and Use of Data; Improving State Academic Content and Student Achievement Standards; and Supporting Struggling Schools – reflect the State’s current status with respect to these assurances. A State that confirms the use of these initial baseline data sources does not have to submit additional baseline data with this application. If a State elects not to use the identified data sources for one or more of these four assurances, it must submit other initial baseline data for that assurance.

The Governor or his/her authorized representative confirms that the data sources that are currently available to the Department and described in Appendix B are a reasonable reflection of the current status of the State with respect to the following education reform assurances that he/she provided in Part 2 of the Application (*check only those assurances for which the State accepts the data described in Appendix B*):

\_\_\_\_X\_ Achieving Equity in Teacher Distribution Assurance.

\_\_\_\_X\_ Improving Collection and Use of Data Assurance.

\_\_\_\_X\_ Improving Standards Assurance.

\_\_\_\_X\_ Supporting Struggling Schools Assurance.

**PART 4, SECTION A: MAINTENANCE-OF-EFFORT (MOE) ASSURANCE**

**SPECIAL NOTES:**

- In completing Part 4 of the application, please refer to Appendix C – Instructions for Part 4: Maintenance of Effort.
- The Governor or his/her authorized representative should check only those MOE requirements that he or she anticipates the State will meet. If the Governor or his/her authorized representative anticipates that the State will be unable to meet one or more of the requirements, he or she must sign the additional waiver assurance in Part 4, Section B.
- For the purpose of determining MOE, State support for public institutions of higher education (IHEs) must not include support for capital projects or for research and development or tuition and fees paid by students.

The Governor or his/her authorized representative assures the following (*check appropriate assurances that apply*):

- In FY 2009, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- In FY 2010, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- In FY 2011, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- In 2009, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.
- In FY 2010, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.
- In FY 2011, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.

**--OR--**

To the best of his/her knowledge and based on the best available data, the State will be unable to meet any of the above-referenced maintenance-of-effort requirements.

**PART 4, SECTION B: MAINTENANCE-OF-EFFORT WAIVER ASSURANCE**

**SPECIAL NOTES:**

- If a State anticipates that it will be unable to comply with one or more of the Stabilization program MOE requirements referenced in Part 4, Section A of the application, the State must provide the assurance below.
- States that anticipate meeting all of the Stabilization program MOE requirements should not complete the waiver assurance in this section of the application. *See Appendix C – Instructions for Part 4: Maintenance of Effort. The criterion for a waiver of the MOE requirements is provided in Appendix C.*
- The Department will be providing additional guidance to States regarding the process for applying for waivers of the Stabilization program MOE requirements.

The Governor or his/her authorized representative assures the following:

To the best of his/her knowledge and based on the best available data, the State meets or will meet the eligibility criterion for a MOE waiver for each of the Stabilization program MOE requirements that the Governor or his/her authorized representative anticipates the State will be unable to meet.

Signature: <i>Janellen Duffy</i>	Date: <i>5/21/09</i>

**PART 4, SECTION C: MAINTENANCE-OF-EFFORT BASELINE DATA**

**SPECIAL NOTES:**

- A State has some flexibility in determining the “levels of State support” for MOE purposes. - These data may differ from the data in the levels of support for maintenance-of-effort purposes. See instructions in Appendix D.
- The term “postsecondary education” refers to public IHEs.

\* See Appendix D Worksheets for further guidance on how such increases affect a State’s “use of funds” calculations.

## 2. State's Primary Education Funding Formulae

As explained in the Instructions in Appendix D, a State must determine the amount of funds needed to restore fully the levels of State support for elementary, secondary, and postsecondary education in FY 2009 before determining the amount of funds available to restore the levels of such support in FY 2010.

### SPECIAL NOTES:

- At a later date, the Department will collect data on the amount of funds, if any, that remain available to (1) restore the levels of State support for elementary, secondary, and postsecondary education in FY 2011, and (2) award subgrants to local educational agencies (LEAs) based on their proportionate shares of funding under Part A of Title I of the ESEA.
- The calculations for these data must be based on the State's total Education Stabilization Fund allocation as reflected in Appendix A and not on the State's initial Education Stabilization Fund award.
- Although the State must follow the Instructions in Appendix D, in order to determine the amount of funds that LEAs and IHEs will receive under the program (i.e., the "restoration amounts"), the Governor has discretion in determining when to release these funds to LEAs and IHEs.

**PART 5, SECTION B: STATE USES OF THE  
GOVERNMENT SERVICES FUND**

- Section B of Part 5 requests data on the Government Services Fund (CFDA No. 84.397).
- In this section, provide preliminary estimates of the percentage of the Government Services Fund that the State intends to spend under various broad categories (to the extent such estimates are available). The total percentages in the chart should equal 100 percent.
- To the extent such estimates are available, the estimated percentages must be based on the State's total Government Services Fund allocation and not on the State's initial Government Services Fund award.

## PART 7: OTHER ASSURANCES AND CERTIFICATIONS

The Governor or his/her authorized representative assures or certifies the following:

- The State will comply with all applicable assurances in OMB Standard Forms 424B and D (Assurances for Non-Construction and Construction Programs), including the assurances relating to the legal authority to apply for assistance; access to records; conflict of interest; merit systems; nondiscrimination; Hatch Act provisions; labor standards; flood hazards; historic preservation; protection of human subjects; animal welfare; lead-based paint; Single Audit Act; and the general agreement to comply with all applicable Federal laws, executive orders and regulations.

## ATTACHMENT I

### From Part 4, Section C:3

**Please identify and describe the data sources used in determining the levels of State support for elementary and secondary education:**

The levels of State support for elementary and secondary education were based on budgeted and actual State aid appropriation data for the applicable fiscal year, and excluded amounts for nonpublic schools, adult education, and preschool. Amounts include debt service aid and on-behalf payments for fringe benefits.

**Please identify and describe the data sources used in determining the levels of State support for public IHEs.**

The levels of support for institutions of higher education were based on budgeted and actual appropriation data for the applicable fiscal years. Operating support and fringe benefits paid on behalf of employees at public colleges and universities were included. Based on discussions with the U.S. Department of Education and guidance received from that office on May 14 and 15, 2009, Tuition Aid Grant (TAG) payments to public colleges and universities were included in the calculations. Similarly, New Jersey Student Assistance Reward Scholarships (NJSTARS) payments to public colleges and universities were included in the calculations on Maintenance of Effort and the gap calculations. (The NJSTARS program is funded in the same way that the TAG program is funded, directly to the IHEs. State support for the NJSTARS program included in the MOE calculation and the gap calculation represents less than 1% of total state support for IHEs.) Operating support and student assistance paid to non-public colleges and universities, as well as student assistance paid directly to students in all sectors was excluded. In addition debt service paid by the state on behalf of IHEs and administrative support for the Commission on Higher Education and the NJ Higher Education Student Assistance Authority were excluded.

### Part 5, Section A:2

#### **New Jersey's Primary Education Funding Formula**

New Jersey's primary education funding formula is a formula for equalization aid, which was created under the new school funding formula signed into law in January 2008. The state aid component of the adequacy budget for each school district in New Jersey is referred to as equalization aid.

#### **Adequacy Budget**

The adequacy budget is the base component of New Jersey's funding formula. It is comprised of a base per pupil amount (\$9,971 for Fiscal Year 2010) and incorporates factors for:

- (1) grade level – Elementary 1.00, Middle School 1.04, High School 1.17;
- (2) free or reduced lunch students – 0.47 to 0.57 additional weight depending on district concentration;
- (3) limited English proficiency students – 0.50 additional weight;
- (4) students that are both free or reduced lunch and limited English proficient – free or reduced lunch weight plus 0.125;
- (5) special education – district enrollment x 14.69% x \$11,262 x 2/3;<sup>2</sup> and
- (6) speech therapy – district enrollment x 1.897% x \$1,118.

Based on the student characteristics and the corresponding factors above, each district has a unique adequacy budget. The sum of each district's local fair share and state equalization aid, described below, is equal to the district's adequacy budget.

#### *Local Fair Share and Equalization Aid*

The local fair share is the amount a district is capable of raising locally, determined using district wide property and income wealth factors. In cases where local fair share is less than the district's adequacy budget, the state provides equalization aid in the amount that local fair share is less than the district's adequacy budget. For districts where local fair share is greater than the district's adequacy budget, equalization aid is not provided.

$$\text{Adequacy Budget} = \text{Local Fair Share} + \text{Equalization Aid}$$

#### **Please Note:**

The level of State support through the primary formula aid amounts used in Part 5, Section A are from the state aid notifications provided to school districts that were the basis for their budget development. Due to timing differences in the actual payment of aid to districts, these amounts differ from the amounts included in the level of State support in Part 4, Section C.

---

<sup>2</sup> The remaining 1/3 of special education funding is a categorical program.

## ATTACHMENT III

### From Part 5, Section A:5

#### **Description of the process that the State will use to determine the amount of funding that individual public IHEs will receive from the funds that the State sets aside to restore the levels of State support for these institutions:**

As permitted in the guidance for the State Fiscal Stabilization Fund, the State will impose specific eligibility requirements on the public IHEs for the use of State Fiscal Stabilization Fund dollars. The State intends to make the SFSF dollars available to public IHEs through an application process to restore the cuts that were proposed in the Governor's proposed budget that was unveiled on March 10, 2009. However, in order for the public IHEs to access the SFSF funds to restore those cuts, the public IHEs will have to demonstrate that they have mitigated tuition increases that would have been imposed had funding been provided at the level originally proposed in the Governor's budget message dated March 10, 2009. In addition, there may be other conditions that the public IHEs must meet to access the SFSF funds, including implementing some of the cost-saving measures that have been adopted at the state level. Lastly, the public IHEs will have to demonstrate their ability to track and monitor the use of ARRA funds to comply with the federal statute and guidance, including the requirements in Parts 6 and 7 of this application.

The Honorable Arne Duncan  
Secretary of Education  
U.S. Department of Education

Washington, DC 20202

Dear Secretary Duncan,

This correspondence is to submit an amendment to New Jersey's application for the State Fiscal Stabilization Fund available as a result of the American Recovery and Reinvestment Act (ARRA) of 2009. Yesterday, via conference call, representatives from New Jersey state government spoke with James Butler and other representatives from the U.S. Department of Education to discuss New Jersey's application. During this call, we were asked to resubmit information in the "State Uses of Education Stabilization Fund" section, which is included in this transmittal.

The attachment is an amendment to page 7, Part 5, Section A, subsection 1(e). The first number "prior enacted" represents the previously planned, as of October 1, 2008, level of state support for elementary and secondary education in FY 2010 provided through the State's primary elementary and secondary education funding formulae. The second number "projected" was included in the previously submitted application and represents the level of State support for elementary and secondary education in FY 2010 provided through the State's primary elementary and secondary education funding formulae contained in the Governor's proposed budget for FY 2010.

Thank you again for your commitment to preserving educational opportunities for the students across New Jersey and the rest of the country, and thank you for the continued assistance of your staff with reviewing our application.

Sincerely,

A handwritten signature in black ink that reads "Janellen Duffy".
