New Mexico looks forward to making further improvements in the four education reform areas of increasing teacher effectiveness and distributing highly qualified teachers to high need schools; using career data systems to track progress and foster continuous improvement; establishing career ready standards and high quality student assessments; and implementing effective interventions with low performing schools.

Please contact Katherine Miller, Secretary, Department of Finance and Administration, at (505) 827-4985, should you have any questions.

PART 3: INITIAL BASELINE DATA FOR EDUCATION REFORM ASSURANCES

SPECIAL NOTES:

- In completing this portion of the application, please refer to Appendix B – Instructions for Part 3: Initial Baseline Data for Education Reform Assurances.
- The data described in Appendix B for two of the education reform assurances in Part 2 of the application – the Improving Assessments Assurance and the Improving Standards Assurance – are the most current available baseline data for these areas. Thus, the Department is not inviting States to submit additional information with respect to these two assurances.
- The Governor or his/her authorized representative should confirm whether the initial baseline data sources described in Appendix B for the four assurances referenced below – Achieving Equity in Teacher Distribution; Improving Collection and Use of Data; Improving State Academic Content and Student Achievement Standards; and Supporting Struggling Schools – reflect the State’s current status with respect to these assurances. A State that confirms the use of these initial baseline data sources does not have to submit additional baseline data with this application. If a State elects not to use the identified data sources for one or more of these four assurances, it must submit other initial baseline data for that assurance.

The Governor or his/her authorized representative confirms that the data sources that are currently available to the Department and described in Appendix B are a reasonable reflection of the current status of the State with respect to the following education reform assurances that he/she provided in Part 2 of the Application (*check only those assurances for which the State accepts the data described in Appendix B*):

- Achieving Equity in Teacher Distribution Assurance.
- Improving Collection and Use of Data Assurance.
- Improving Standards Assurance.
- Supporting Struggling Schools Assurance.

PART 4, SECTION A: MAINTENANCE-OF-EFFORT (MOE) ASSURANCE

SPECIAL NOTES:

- In completing Part 4 of the application, please refer to Appendix C – Instructions for Part 4: Maintenance of Effort.
- The Governor or his/her authorized representative should check only those MOE requirements that he or she anticipates the State will meet. If the Governor or his/her authorized representative anticipates that the State will be unable to meet one or more of the requirements, he or she must sign the additional waiver assurance in Part 4, Section B.
- For the purpose of determining MOE, State support for public institutions of higher education (IHEs) must not include support for capital projects or for research and development or tuition and fees paid by students.

The Governor or his/her authorized representative assures the following (*check appropriate assurances that apply*):

- X In FY 2009, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- X In FY 2010, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- X In FY 2011, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- X In FY 2009, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.
- X In FY 2010, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.
- X In FY 2011, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.

---OR---

 To the best of his/her knowledge and based on the best available data, the State will be unable to meet any of the above-referenced maintenance-of-effort requirements.

- States that anticipate meeting all of the Stabilization program MOE requirements should not complete the waiver assurance in this section of the application. *See* Appendix C – Instructions for Part 4: Maintenance of Effort. The criterion for a waiver of the MOE requirements is provided in Appendix C.
- The Department will be providing additional guidance to States regarding the process for applying for waivers of the Stabilization program MOE requirements.

The Governor or his/her authorized representative assures the following:

To the best of his/her knowledge and based on the best available data, the State meets or will meet the eligibility criterion for a MOE waiver for each of the Stabilization program MOE requirements that the Governor or his/her authorized representative anticipates the State will be unable to meet.

4. Restoration Amounts

Based on the Worksheets included in Appendix D, calculate and provide the amount of Education Stabilization funds that the State will use to restore the levels of State support for elementary, secondary, and postsecondary education in FYs 2009 and 2010. As explained in the Instructions in Appendix D, a State must determine the amount of funds needed to restore fully the levels of State support for elementary, secondary, and postsecondary education in FY 2009 before determining the amount of funds available to restore the levels of such support in FY 2010.

SPECIAL NOTES:

- At a later date, the Department will collect data on the amount of funds, if any, that remain available to (1) restore the levels of State support for elementary, secondary, and postsecondary education in FY 2011, and (2) award subgrants to local educational agencies (LEAs) based on their proportionate shares of funding under Part A of Title I of the ESEA.
- The calculations for these data must be based on the State's total Education Stabilization Fund allocation as reflected in Appendix A and not on the State's initial Education Stabilization Fund award.
- Although the State must follow the Instructions in Appendix D, in order to determine the amount of funds that LEAs and IHEs will receive under the program (i.e., the "restoration amounts"), the Governor has discretion in determining when to release these funds to LEAs and IHEs.

- (a) Amount of the State's total Education Stabilization Fund Allocation to be used to restore the level of State support for elementary and secondary education in FY 2009 \$ 0

5. Process for Awarding Funds to Public IHEs

Additional Submission Requirement: In an attachment to the application, describe the process that the State will use to determine the amount of funding that individual public IHEs will receive from the funds that the State sets aside to restore the levels of State support for these institutions.

**PART 5, SECTION B: STATE USES OF THE
GOVERNMENT SERVICES FUND**

SPECIAL NOTES:

- Section B of Part 5 requests data on the Government Services Fund (CFDA No. 84.397).
- In this section, provide preliminary estimates of the percentage of the Government Services Fund that the State intends to spend under various broad categories (to the extent such estimates are available). The total percentages in the chart should equal 100 percent.
- To the extent such estimates are available, the estimated percentages must be based on the State's total Government Services Fund allocation and not on the State's initial Government Services Fund award.

Uses of the Government Services Fund

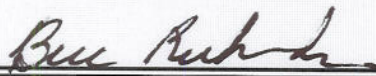

Category	Estimated Percentage of Funds to Be Used
Public Safety	
Elementary and secondary education (excluding modernization, renovation, or repair of public school facilities)	
Public IHEs (excluding modernization, renovation, or repair of IHEs)	
Modernization, renovation, or repair of public school facilities	
Modernization, renovation, or repair of IHEs	
Medicaid	
Public assistance	3%
Transportation	
Other (local projects and administrative costs)	
Undetermined	97%
TOTAL	100%

Other than a \$2 million allocation to the Human Services Department for the General Assistance program in FY10, New Mexico has not formally committed other funds from this federal appropriation to any other specific projects. Final review of potential projects to be funded is underway and the final allocation will take into consideration the FY09 revenue performance and FY10 outlook.

**PART 6: ACCOUNTABILITY, TRANSPARENCY, AND
REPORTING ASSURANCES**

The Governor or his/her authorized representative assures that the State will comply with all of the accountability, transparency, and reporting requirements that apply to the Stabilization program, including the following:

- For each year of the program, the State will submit a report to the Secretary, at such time and in such manner as the Secretary may require, that describes:
 - the uses of funds within the State;
 - how the State distributed the funds it received;
 - the number of jobs that the Governor estimates were saved or created with the funds;

 - the extent to which public IHEs maintained, increased, or decreased enrollment of in-State students, including those students eligible for Pell Grants or other need-based financial aid; and
 - a description of each modernization, renovation or repair project funded, including the amounts awarded and project costs. (ARRA Division A, Section 14008)
- The State will cooperate with any Comptroller General evaluation of the uses of funds and the impact of funding on the progress made toward closing achievement gaps. (ARRA Division A, Section 14009)

This certification will include a description of the investment, the estimated total cost, and the amount of covered funds to be used. The certification will be posted on the State's website and linked to www.Recovery.gov. A State or local agency may not use funds under the ARRA for infrastructure investment funding unless this certification is made and posted. (ARRA Division A, Section 1511)
- The State will submit reports, within 10 days after the end of each calendar quarter, that contain the information required under section 1512(c) of the ARRA in accordance with any guidance issued by Office of Management and Budget or the Department. (ARRA Division A, Section 1512(c))
- The State will cooperate with any Inspector General examination of records under the program. (ARRA Division A, Section 1515)

STATE OF NEW MEXICO
ATTACHMENT TO THE STATE FISCAL STABILIZATION FUND APPLICATION

PART 4, SECTION C: MAINTENANCE-OF-EFFORT BASELINE DATA

3. Additional Submission Requirements: In an attachment to the application –

(a) Identify and describe the data sources used in determining the levels of State support for elementary and secondary education-

Response: The data sources used in determining these levels are the New Mexico General Appropriation Acts for the corresponding years.

(b) Identify and describe the data sources used in determining the levels of State support for public IHEs.

Response: The data sources used in determining these levels are the New Mexico General Appropriation Acts for the corresponding years and New Mexico Higher Education Department details worksheets that detail the instruction and general formula as well as direct project appropriations and that support the higher education appropriations.

PART 5, SECTION A: STATE USES OF THE EDUCATION STABILIZATION FUND

2. State's Primary Education Funding Formulae

Additional Submission Requirement: In an attachment to the application, identify and describe each of the State's primary elementary and secondary education funding formulae that were used in determining the calculations provided above for the levels of State support for elementary and secondary education.

Overview of the New Mexico Public School Funding Formula

The New Mexico public school funding formula was developed so that each school district would not have to rely exclusively on local property taxes to fund operational costs. The formula is used to distribute state dollars to support the operational expenses of a school district in an equitable manner and provides approximately 95% of the total resources statewide used for operational expenses. In the allocation process, the formula takes into account the amount of local dollars generated by each district's property tax and certain federal payments. The formula (developed in the mid-1970's) essentially uses the number of students in each school district to determine an allocation for each school district. The New Mexico legislature appropriates general fund dollars to the funding formula each year.

Components of the Formula

Within the formula, weightings specified in statute are used to convert prior year numbers of students into program units. Program units are then multiplied by a unit value to convert units

STATE OF NEW MEXICO
ATTACHMENT TO THE STATE FISCAL STABILIZATION FUND APPLICATION

into dollars. Weightings currently used in the formula for different students are as follows: Kindergarten as well as 3 and 4 year old DD students are weighted as 1.440 for a full day (half of that for a half day student); Grade 1 students are weighted as 1.200; Grade 2-3 students are weighted as 1.180; Grade 4-6 students are weighted 1.045; Grades 7-12 students are weighted 1.250. Special education students are included in the categories listed above. In addition, special education students and some of the ancillary staff are weighted in the following manner: The weighting for Ancillary special education staff full time equivalent (FTE) is 25; A/B level students are weighted .700; C/D level students are weighted 1.000; D level students are weighted 2.000; Bilingual students are weighted .500 in addition to the basic category weightings. Elementary fine art students are weighted .0500 in addition to the basic student categories. There is also a Training and Experience Index which provides an incentive to school districts to keep highly qualified teachers and staff. There are additional adjustments for students in small schools since they usually don't have economies of scale.

3. Data on State Support for Postsecondary Education

Additional Submission Requirement: In an attachment to the application, identify and describe the specific State data sources that were used in determining the calculations provided above for the levels of State support for public IHEs.

Response: The data sources used in determining these levels are the New Mexico General Appropriation Acts for the corresponding years New Mexico Higher Education Department details worksheets that detail the instruction and general formula as well as direct project appropriations and that support the higher education appropriations. In New Mexico, state support of IHEs includes:

1. Instruction and general (I&G) funding formula, including University of New Mexico health sciences Center, and excluding the I&G formula 3% scholarship program
2. Funding from the State Land and Permanent Fund
3. Statewide programs funded by the state through the Higher Education Department and allocated to the IHEs
4. Statewide and core non-formula programs funded directly by the state to the IHEs, including athletics, educational television, and programs funded from tobacco settlement funds

New Mexico did not include IHE-specific/non-core research and public service projects or nonrecurring expenditures in its computation state support of IHEs.

5. Process for Awarding Funds to Public IHEs

Additional Submission Requirement: In an attachment to the application, describe the process that the State will use to determine the amount of funding that individual public IHEs will receive from the funds that the State sets aside to restore the levels of State support for these institutions.

STATE OF NEW MEXICO
ATTACHMENT TO THE STATE FISCAL STABILIZATION FUND APPLICATION

Response: As of the date of the application, New Mexico plans to allocate the restoration amounts to those individual institutions that received a decrease in FY10 from FY09 funding levels. In FY10, New Mexico's IHE budgets, including the University of New Mexico Health Science Center, were reduced in a number of ways ranging from funding formula reductions for operations and building renewal and replacement, as well as reductions in research and public services projects. Because of significant workload growth in some institutions, 6 of 15 IHEs actually received a net increase from FY09. The funding will be allocated to the IHEs that received reductions from FY10, pro rated among the institutions on the actual reductions.
