

WASHINGTON, Dec. 19, 2007 -- In the interest of sustainable operations, the Departmental copier and duplicating services is, by default, printing on both sides of the paper (duplex) unless otherwise instructed by the customer.

This applies to all staffed copy centers and the central Duplicating Center (located in room 0556-S). Customers using self-service walk-up stations are encouraged to use duplex printing whenever possible.

The implementation of this practice will reduce paper consumption and improve energy efficiency.

For more information, contact John Crew, Director, Office of Operations, Departmental Administration 202-720-3937 or john.crew@usda.gov.
