For Release: March 31, 2008

HIGHLIGHTS OF NEW YORK-NEWARK-BRIDGEPORT NATIONAL COMPENSATION SURVEY MAY 2007

Workers in the greater New York area earned an average of \$25.13 per hour in May 2007, according to new survey results from the National Compensation Survey (NCS) released by the U.S. Department of Labor's Bureau of Labor Statistics (BLS). Regional Commissioner Michael L. Dolfman noted that wage data were reported for workers in a wide range of occupational groups, including average hourly earnings of \$51.12 for management occupations and \$30.42 for construction and extraction. Business and financial operations averaged hourly wages of \$33.26. The NCS data available for the New York area include earnings for 21 major occupational groups with additional detail for selected occupations within those groups. (See table 1.)

Within the management group, public relations managers earned on average \$48.21 per hour. Carpenters, part of the construction and extraction group, averaged \$23.86 per hour. Within the business and financial operations occupational group, accountants and auditors recorded a mean wage of \$32.22 per hour, while loan officers earned \$36.44 per hour. (See table 1.)

Broad coverage of selected occupational characteristics is available from NCS for the local area. Full-time workers averaged \$26.50 per hour while their part-time counterparts earned \$13.22. Union workers earned \$26.50 and non-union workers, \$24.59. Workers in establishments with 1-99 workers averaged \$20.73 per hour, those in establishments with 100-499 workers earned \$24.53, and those in establishments with 500 or more employees earned \$31.26.

The occupational wage data available from NCS may be used by businesses for establishing pay plans, making decisions concerning plant relocation, and in collective bargaining negotiations. Individuals may use such data to help choose potential careers. NCS results also include the work level and respective earnings for occupations determined by a point factor leveling process. The four occupational leveling factors are: knowledge, job controls and complexity, contacts, and physical environment. Details on the NCS are available at <http://www.bls.gov/ncs/home.htm>.

Round-the-clock recorded messages for the **Consumer Price Index** and a variety of other **Bureau of Labor Statistics** data are available by dialing the **New York Information Office's** main telephone number: **(646) 264-3600**. For recorded messages, press '2'.

The NCS data reported here covered 1,613 establishments with one or more workers in private industry and State and local governments. Agricultural establishments, private households, the self-employed, and the Federal Government were excluded from the survey. This sample of establishments represented 9,053,100 workers in the New York-Newark-Bridgeport Combined Statistical Area defined as of December 2003 by the U.S. Office of Management and Budget (OMB). This bulletin includes a new State and local government sample that reflects this area definition. The area comprises the five boroughs of New York City, Nassau, Suffolk, Westchester, Rockland, Putnam, Dutchess, Orange and Ulster Counties in New York State; Bergen, Essex, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, and Union Counties in New Jersey; Pike County, Pennsylvania; and Fairfield, Litchfield, and New Haven Counties in Connecticut.

Survey Availability

Complete survey results are contained in the New York-Newark-Bridgeport, NY-NJ-CT-PA National Compensation Survey May 2007, which is available on the Internet in both text and PDF formats at <http://www.bls.gov/ncs/ocs/compub.htm>.

For personal assistance or further information on the National Compensation Survey data, as well as other Bureau data, contact the New York Information Office by calling (646) 264-3600 from 9:00 a.m. to 12:30 p.m. and 1:30 p.m. to 4:30 p.m. ET.

Refuse and recyclable material collectors	15.18	21.2	15.18	21.2	—	—

¹ Earnings are the straight-time hourly wages or salaries paid to employees. They include incentive pay, cost-of-living adjustments, and hazard pay. Excluded are premium pay for overtime, vacations, holidays, nonproduction bonuses, and tips. The mean is computed by totaling the pay of all workers and dividing by the number of workers, weighted by hours. See appendix A of the full bulletin for more information.

² Employees are classified as working either a full-time or a part-time schedule based on the definition used by each establishment. Therefore, a worker with a 35-hour-per-week schedule might be considered a full-time employee in one establishment, but classified as part-time in another firm, where a 40-hour week is the minimum full-time schedule.

³ Workers are classified by occupation using the 2000 Standard Occupational

Classification (SOC) system. See appendix B of the full bulletin for more information.

⁴ The relative standard error (RSE) is the standard error expressed as a percent of the estimate. It can be used to calculate a "confidence interval" around a sample estimate. For more information about RSEs, see appendix A of the full bulletin.

Note: Dashes indicate that no data were reported or that data did not meet publication criteria. Overall occupational groups may include data for categories not shown separately.
