Notes:

- \$ The "ratio" displays the number of units of QS that yield one pound of 2001 IFQ.
- \$ QS Pools include small amounts of QS in "Reserve" (QS that is yet to be issued) and QS that is ARestricted@ (QS that has been issued, but which does not yield IFQ to its holder).
- \$ TACs do not include pounds that have been set aside for the CDQ program.
- \$ Halibut weights are displayed in net pounds, sablefish weights in round pounds.
