- A Detailed Comparison: TRS to CA\$HLINK II
- Release Timelines
- Reports & File Transmissions
- Preparing Your Agency for Transition to TRS

# A Detailed Comparison: TRS to CA\$HLINK II

## CA\$HLINK II

- A deposit reporting application
- Supports multiple functions including deposit reporting, Fedwire and REX transaction processing, cash concentration, and voucher corrections
- Does not support reporting of Treasury Account Symbols (TAS) & Business Event Type Codes (BETC)

## TRS

- Will report both deposits & detail of collection transactions
- Solely a reporting solution for deposits and the detail of collection transactions
- Will support reporting of classification codes to GWA

## TRS & Other Treasury Initiatives

- TRS will receive data from a limited number of sources.
- Other Treasury initiatives will consolidate legacy data sources into modernized collection channels.
- Obtaining all of your agency's data through TRS is dependent on having data reported through these Treasury sources:
  - Over-the-counter collections need to be reported through either Treasury General Account Deposit Reporting Network (TGAnet) or Paper Check Conversion (PCC).
  - Lockbox transactions that are settled through financial agents need to be reported through Electronic Check Processing (ECP).
  - Corrections and adjustments need to be reported to TRS by the channel application instead of being reported directly into CA\$HLINK II.

# Reports & File Transmissions

- TRS generates reports via a commercial off-the-shelf product called Business Objects (BO)
- Reports can be accessed online and downloaded into PDF, Excel and CSV formats
- User can customize standard reports with search criteria and save to a personal folder
- Reports can be scheduled

## The TRS Reporting Horizon

- TRS report development continues.
- Additional specialized reports are planned for:
  - Credit card transactions
  - Automated Clearing House (ACH) transactions
- What other general reports would be useful?

- Files are formatted in FMS Standard XML Schema
- Agency selects content
- Agency selects parameters
- Files can be:
  - Pushed via Connect:Direct
  - Downloaded from TRS application

# Preparing Your Agency for Transition to TRS

Identify preparation activities or actions that your agency will need to take to prepare for TRS:

- Will you need to enroll in other Treasury sources—over-the-counter collections from either TGA.net or PCC—to receive all data through TRS?
- What policies do you have that may be impacted?
- What processes do you have that may be impacted?
- What system-to-system interfaces may be impacted?

**TRS**

## Transaction Planning Activity (continued)

- What reports and data downloads may your agency need to modify or develop?
- Will work redesign activities be necessary?
  - Will new skills be needed?
  - Will job descriptions require rewriting?
  - Will any jobs require reclassification?
- Will the agency require budget modifications?
- What other changes are suggested?
