

Frequently Used Variables:  
American Time Use Survey (ATUS)  
June 2009

The American Time Use Survey (ATUS) is sponsored by the Bureau of Labor Statistics and conducted by the U.S. Census Bureau.

## Frequently Used ATUS Variables

The ATUS files have many variables and users may sometimes have difficulty determining which variables to use. This document attempts to identify those that are most frequently used. All variables are defined in the ATUS Data Dictionaries, available at: [www.bls.gov/tus/dictionaries.htm](http://www.bls.gov/tus/dictionaries.htm).

<b>Activity</b>			
Activity code	TUTIER1CODE, TUTIER2CODE, and TUTIER3CODE TRCODE TRTIER2	Activity file	The six-digit activity code is created by concatenating TUTIER1CODE, TUTIER2CODE, and TUTIER3CODE. The four-digit activity code, which is less detailed, is created by concatenating TUTIER1CODE and TUTIER2CODE.  Two additional variables are available on the 2007 and 2008 Activity files. The variable TRCODE contains the six-digit activity code, and the variable TRTIER2 contains the four-digit activity code.
