TABLE SNR01. Highest incidence rates of total nonfatal occupational injury and illness cases, private industry, 2005

Industry ²	NAICS code ³	2005 Annual average employment ⁴ (thousands)	Incidence rate	
			2004	2005
Beet sugar manufacturing	311313	6.3	_	18.3
Light truck and utility vehicle manufacturing		72.6	16.3	517.8
Iron foundries	331511	61.2	17.0	17.1
Truck trailer manufacturing	336212	35.7	12.4	16.8
Prefabricated wood building manufacturing	321992	26.7	10.6	⁵ 14.3
Travel trailer and camper manufacturing	336214	45.4	12.6	14.1
Flat glass manufacturing	327211	13.1	7.4	13.6
Framing contractors	23813	168.1	11.2	13.4
Truss manufacturing	321214	49.3	14.3	13.3
Aluminum foundries (except die-casting)	331524	22.5	13.2	13.3
Iron and steel forging	332111	25.8	11.3	13.3
Heavy duty truck manufacturing	33612	37.9	_	13.1
Manufactured home (mobile home) manufacturing	321991	46.5	15.4	12.9
Animal (except poultry) slaughtering		148.4	13.3	12.6
Couriers	4921	512.9	13.1	12.4
Aluminum die-casting foundries		27.2	_	12.1
Boat building	336612	60.6	11.9	12.1
Hog and pig farming	1122	17.1	16.9	12.0
Cut stone and stone product manufacturing	327991	27.4	8.9	11.8
Steel wire drawing	331222	9.5	_	11.5
Glass container manufacturing		18.1	9.3	_11.3
Amusement parks and arcades	7131	153.9	14.1	⁵ 11.3
Secondary smelting and alloying of aluminum	331314	6.4		11.2
Ship building and repairing	336611	91.7	13.5	⁵ 10.9
Private industry ⁶		109,127.0	4.8	⁵ 4.6

¹ The incidence rates represent the number of injuries and illnesses per 100 full-time workers and were calculated as: (N/EH) x 200,000, where

= number of injuries and illnesses

EΗ total hours worked by all employees during the

calendar year

200,000 = base for 100 equivalent full-time workers (working 40 hours per week, 50 weeks per year) States, 2002.

³ North American Industry Classification System — United States, 2002

Employment is expressed as an annual average and is derived primarily from the
BLS-Quarterly Census of Employment and Wages (QCEW) program.
A statistical significance test indicates that the difference between the 2005 incidence

⁶ Excludes farms with fewer than 11 employees.

NOTE: Dash indicates data not available.

SOURCE: Bureau of Labor Statistics, U.S. Department of Labor October 2006

 $^{^2}$ High rate industries were those having the highest incidence rate of total recordable cases of injuries and illnesses and at least 500 total recordable cases at the most detailed level of publication, based on the North American Industry Classification System -- United

rate and the 2004 rate is statistically significant at the 95 percent confidence level.
