Dear Sir!!!

F.T.C.

Regarding - Made in U.S.A. Policy  
Comments!!

I can't believe what I'm reading and hearing about this policy that you are trying to put over on the American public, as well as any other country, that expects made in the U.S.A. to mean just that (though there made here, in the U.S.A.)

That's what we have you the Federal Trade Commission, to make sure made in the U.S.A. means what it says, and to stand up to these companies that want to benefit from our country's U.S.A. label, the American people are tired of being sold down the river, and having jobs sent out of the country.

## II

I can't believe this one will pass, it certainly never would if voted on by the American people.

Our standards are the highest in the world - let's keep them that way, no watering down.

"Thank God" our Attorney General Frankie Sue Del Papa is joining in the campaign to keep "Made in the U.S.A." standards high - as I, and all my friends are.

All of America should see thru this and join in too

How do your job, and stop this farce
