American Recovery & Reinvestment Act
Competitive Grant Alerts

Updated August 26th, 2009

TABLE OF CONTENTS

1. CDC – Centers for Disease Control

1.1 No grants currently available through grants.gov through grants.gov through grants.gov

2. CNCS – Corporation for National and Community Service

2.1 No grants currently available through grants.gov

3. DHS – U.S. Department of Homeland Security

3.1 TSA Advanced Surveillance Program

3.2 FY 2009 American Recovery and Reinvestment Act Fire Station Construction Grant Program

3.3 FY 2009 American Recovery and Reinvestment Act Port Security Grant Program

3.4 FY 2009 American Recovery and Reinvestment Act Transit Security Grant Program – Capital Projects

4. DOC – U.S. Department of Commerce

4.1 Recovery Act - State Broadband Data and Development Grant Program Modification 3

4.2 National Institute of Standards and Technology Recovery Act Measurement Science and Engineering Fellowship Program Grant

4.3 EDA Recovery Act Funding

5. DOD – U.S. Department of Defense

5.1 RECOVERY ACT, ARL-PHOTOVOLTAICS

6. DOE – U.S. Department of Energy

*6.1 **NEW** RECOVERY ACT-Advanced Research Projects Agency – Energy (ARPA-E) Modification 9*

*6.2 **NEW** Recovery Act - Systems Level Technology Development, Integration, and Demonstration for Efficient Class 8 Trucks (SuperTruck) and Advanced Technology Powertrains For Light-Duty Vehicles (ATP-LD) Modification 3*

*6.3 **NEW** Recovery Act - Building America Energy Efficient Housing Partnerships Modification 4*

6.4 RECOVERY ACT-Advanced Research Projects Agency – Energy (ARPA-E) Modification 7

6.5 Recovery Act: Large Wind Turbine Drivetrain Testing Facility Modification 4

6.6 Recovery Act: Community Renewable Energy Deployment Modification 2

6.7 Recovery Act-Resource Assessment and Interconnection-Level Transmission Analysis and Planning Modification 1

6.8 RECOVERY ACT (ARRA)-Applications for Phase I SBIR/STTR Grants Annual Phase I Small Business Innovation Research (SBIR) Small Business Technology Transfer (STTR)

6.9 Recovery Act (ARRA) - Early Career Research Program Modification 3

6.10 Recovery Act Funding for Expansion of Infrastructure for Higher Ethanol Blends

6.11 Recovery Act: Site Characterization of Promising Geologic Formations for CO2 Storage Modification 2

6.12 Recovery Act: Geologic Sequestration Training and Research Modification 3

6.13 Recovery Act - Enhancing State Government Energy Assurance Capabilities and Planning for Smart Grid Resiliency Modification 3

6.14 Recovery Act: Wind Energy Consortia between Institutions of Higher Learning and Industry Modification 5

6.15 Recovery Act: Clean Coal Power Initiative – Round 3 Modification 3

- 6.16 *Recovery Act - Systems Level Technology Development, Integration, and Demonstration for Efficient Class 8 Trucks (SuperTruck) and Advanced Technology Powertrains For Light-Duty Vehicles (ATP-LD) Modification 2*
- 6.17 *Recovery Act: Carbon Capture and Sequestration... Modification 3*
- 6.18 *Recovery Act Local Energy Assurance Planning (LEAP) Initiative*
- 6.19 *Recovery: State Energy Efficient Appliance Rebate Program (SEEARP)*
- 6.20 *Recovery Act: Development of Algal/Advanced Biofuels Consortia*
- 6.21 *Recovery Act: Community Renewable Energy Deployment*
- 6.22 *Recovery Act: Large Wind Turbine Drivetrain Testing Facility Modification 2*
- 6.23 *Recovery Act - Early Career Research Program*
- 6.24 *Recovery Act: Hydroelectric Facility Modernization Modification 1*
- 6.25 *Recovery Act: Geologic Sequestration Training and Research*
- 6.26 *Recovery Act: Advanced Energy Efficient Building Technologies*
- 6.27 *Recovery Act - Building America Energy Efficient Housing Partnerships*
- 6.28 *Recovery Act - Solid State Lighting U.S. Manufacturing -Round 1*
- 6.29 *Recovery Act-Energy Efficiency and Conservation Block Grants - Formula Grants Modification 15*
- 6.30 *Recovery Act-Smart Grid Investment Grant Program Modification 2*
- 6.31 *Recovery Act-Smart Grid Demonstrations Modification 2*
- 6.32 *Recovery Act - Energy Efficiency and Conservation Block Grants - Formula Grants Modification 14*
- 6.33 *Recovery Act: Large Wind Turbine Drivetrain Testing Facility Grant*
- 6.34 *Recovery Act - Energy Efficiency and Conservation Block Grants - Formula Grants Modification 14*
- 6.35 *Recovery Act: Wind Energy Consortia between Institutions of Higher Learning and Industry Modification 1*
- 6.36 *Recovery Act: Energy Efficient Information and Communication Technology Modification 1*
- 6.37 *Recovery Act - Geothermal Technologies Program: GroundSource Heat Pumps Modification 1*
- 6.38 *Recovery Act (ARRA) - Industrial Energy Efficiency Modification 3*
- 6.39 *Recovery Act - State Electricity Regulators Assistance*
- 6.40 *Recovery Act-Resource Assessment and Interconnection-Level Transmission Analysis and Planning*
- 6.41 *Recovery Act - Enhancing State Government Energy Assurance Capabilities and Planning for Smart Grid Resiliency*
- 6.42 *Recovery Act: Clean Coal Power Initiative - Round 3*
- 6.43 *Recovery Act - Systems Level Technology Development, Integration, and Demonstration for Efficient Class 8 Trucks (SuperTruck) and Advanced Technology Powertrains For Light-Duty Vehicles (ATP-LD)*
- 6.44 *Recovery Act: Carbon Capture and Sequestration*
- 6.45 *Recovery Act - Geothermal Technologies Program: Ground Source Heat Pumps*
- 6.46 *Recovery Act: Solar Market Transformation*
- 6.47 *Recovery Act: High Penetration Solar Deployment*
- 6.48 *Recovery Act: Geothermal Technologies Program*
- 6.49 *Recovery Act: National Laboratory Call for Foundational Photovoltaics and Concentrating Solar Power Research and Development*
- 6.50 *Recovery Act - Demonstration of Integrated Biorefinery Operations*
- 6.51 *Clean Cities FY09 Petroleum Reduction Technologies Projects for the Transportation Sector*

7. DOI - U.S. Department of the Interior

- 7.1 *Recovery Act - Biological Control Agent Development Project*
- 7.2 *Recovery Act - Trail Development and Maintenance*
- 7.3 *Recovery Act - Fence Modification Utilizing Youth Groups*
- 7.4 *Recovery Act - Challis Travel Plan Implementation Utilizing Youth Groups*
- 7.5 *RECOVERY ACT - Repair Ice Age Trail Modification 1*
- 7.6 *Recovery Act - Repair Ice Age Trail*
- 7.7 *Recovery Act (ARRA) - Seismic Upgrades Modification 8*
- 7.8 *Recovery Act - Fish Passage*
- 7.9 *Recovery Act - National Fish Habitat Action Plan*

8. DOL – U.S. Department of Labor

- 8.1 *Recovery Act - Pathways Out of Poverty Modification 2*
- 8.2 *Recovery Act - Energy Training Partnership Grants Modification 1*
- 8.3 *Recovery Act - State Energy Sector Partnership (SESP) and Training Grants Modification 1*
- 8.4 *Recovery Act - Green Capacity Building Grants Modification 1*
- 8.5 *Recovery Act-Health Care Sector and Other High Growth and Emerging Industries*
- 8.6 *Recovery Act – State Labor Market Information Improvement Grants*

- 8.7 *Recovery Act – Energy Training Partnership Grants*
- 8.8 *Recovery Act – Pathways Out of Poverty*
- 8.9 *Recovery Act – State Energy Sector Partnership (SESP) and Training Grants*
- 8.10 *Recovery Act – Green Capacity Building Grants*

3. DHS – U.S. Department of Homeland Security

3.1 TSA Advanced Surveillance Program

Brief Description

- Expected Number of Awards: 5
- Estimated Total Program Funding: \$7,800,000

The Administrator of the Transportation Security Administration in consultation with the Airport Authority is required to deploy personnel and provide airport screening including screen and inspect all passengers and their baggage. The requirement also provides for technical support and financial assistance to airports to defray the costs of enhancing security operations. The Transportation Security Administration received \$1 billion specifically for the procurement and installation of checked baggage explosives detection systems and checkpoint explosives detection equipment to accelerate the installations at locations with completed design plans.

3.2 FY 2009 American Recovery and Reinvestment Act Fire Station Construction Grant Program

Brief Description

- Expected Number of Awards: 70
- Estimated Total Program Funding: \$210,000,000

The purpose of the FY 2009 ARRA SCG is to create or save jobs in recession-hit areas and achieve other purposes stated in ARRA, and achieve AFG goals of firefighter safety and improved response capability/capacity based on need through the construction, renovation or modification of fire stations.

3.3 FY 2009 American Recovery and Reinvestment Act Port Security Grant Program

Brief Description

- Expected Number of Awards: 200
- Estimated Total Program Funding: \$150,000,000

The ARRA PSGP is one tool in the comprehensive set of measures authorized by Congress and implemented by the Administration to strengthen the Nation's critical infrastructure against risks associated with potential terrorist attacks. The Maritime Transportation Security Act of 2002, as amended, established the PSGP to implement Area Maritime Transportation Security Plans and facility security plans among port authorities, facility operators, and State and local government agencies required to provide port security services.

3.4 FY 2009 American Recovery and Reinvestment Act Transit Security Grant Program – Capital Projects

Brief Description

- Expected Number of Awards: 50
- Estimated Total Program Funding: \$150,000,000

The American Recovery and Reinvestment Act (ARRA) Transit Security Grant Program (TSGP) will focus on the use of visible, unpredictable deterrence through the funding of Operational Packages for canine teams, mobile explosives detection screening teams, and Anti-Terrorism teams both due to their effectiveness in reducing risk to transit systems and their potential for job creation. In addition, funding will be provided for capital projects including Multi-User High-Density Key Infrastructure Protection, Single-User High-Density Key Infrastructure Protection, Key Operating Asset Protection, and Other Mitigation Activities.

4. DOC – U.S. Department of Commerce

4.1 Recovery Act - State Broadband Data and Development Grant Program Modification 3

Brief Description:

- Expected Number of Awards: 56
- Estimated Total Program Funding: \$240,000,000

The State Broadband Data and Development Grant Program is a competitive, merit-based matching grant program that implements the joint purposes of the Recovery Act and the Broadband Data Improvement Act through the award of grants. This Program is designed to fund projects that gather comprehensive and accurate state-level broadband mapping data, develop state-level broadband maps, aid in the development and maintenance of a national broadband map, and fund statewide initiatives for broadband planning.

Current Closing Date for Applications: The application window for this program closes on August 14, 2009, at 11:59 p.m. Eastern Time (ET). Any request from a potential applicant for a waiver of this application window closing date must adequately describe the extraordinary circumstances preventing the submission of an application by this deadline and any relevant information supporting the request. Please note that NTIA will not favorably consider any request for additional time that would exceed submission by September 1, 2009, at 11:59 p.m. ET. To be considered timely, any such request must be submitted in writing no later than August 14, 2009, at 11:59 p.m. ET, to Anne W. Neville, Program Director, State Broadband Data and Development Grant Program, National Telecommunications and Information Administration, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Room 4716, Washington, DC, 20230. Applicants may also fax a waiver request to 202-501-0536 or attach a scanned copy of the signed letter to an email and email to broadbandmapping@ntia.doc.gov. Requests for a waiver of the application window closing date will be considered on a case-by-case basis and requesters will be notified in writing of the agency's decision.

4.2 National Institute of Standards and Technology Recovery Act Measurement Science and Engineering Fellowship Program Grant

Brief Description:

Recovery Act Measurement Science and Engineering Fellowship Program: The U.S. Department of Commerce, National Institute of Standards and Technology, announces the availability of up to \$20 million to award from

one to five cooperative agreements for a fellowship program(s) to bring scientists and engineers at all stages of their careers to participate in research training or collaboration at NIST programs in Gaithersburg, Maryland, Boulder, Colorado and Charleston, SC. The recipient(s) will work jointly with NIST to identify candidates for fellowships. NIST will collaborate with the recipient(s) to select Fellows for particular research opportunities based on criteria developed in cooperation with the recipient(s). The recipient(s) will provide all stipends, benefits, administrative support, and other expenses associated with the fellowships using the funds from the cooperative agreements.

4.3 EDA Recovery Act Funding

Brief Description:

Under this federal funding opportunity (FFO) announcement, EDA is soliciting applications for the EDA American Recovery Program under the auspices of PWEDA. Specifically, the FFO pertains to applications for funding under EDA's Public Works and Economic Adjustment Assistance programs only. Under this FFO, EDA will give priority consideration to those applications that will significantly benefit regions "that have experienced sudden and severe economic dislocation and job loss due to corporate restructuring," as stipulated under the Recovery Act. EDA provides financial assistance to distressed communities in both urban and rural regions. Such distress may exist in a variety of forms, including high levels of unemployment, low income levels, large concentrations of low-income families, significant declines in per capita income, large numbers (or high rates) of business failures, sudden major layoffs or plant closures, trade impacts, military base closures, natural or other major disasters, depletion of natural resources, reduced tax bases, or substantial loss of population because of the lack of employment opportunities. EDA's experience has shown that regional economic development to help alleviate these conditions is effected primarily through investments and decisions made by the private sector. Under the EDA American Recovery Program, EDA will help restore, replace and expand economic activity in regions that have experienced sudden and severe economic dislocation and job loss due to corporate restructuring, and prioritize projects that will diversify the economic base and lead to a stronger, more globally competitive and resilient regional economy. EDA's economic development activities help create jobs by encouraging business inception and growth.

5. DOD – U.S. Department of Defense

5.1 RECOVERY ACT, ARL-PHOTOVOLTAICS

Brief Description

- Expected Number of Awards: 2
- Estimated Total Program Funding: \$3,000,000

The American Recovery and Reinvestment Act is an unprecedented effort to jumpstart our economy, save and create millions of jobs, and put a down payment on addressing long-neglected challenges so our country can thrive in the 21st century. The fundamental research solutions sought through this announcement are intended to revive the renewable energy industry and provide the capital over the next three years to eventually double domestic renewable energy capacity. Offerors should be mindful of this objective in their responses to this announcement. The U.S. Army Research, Development and Engineering Contracting Center, Research Triangle Park Contracting Division on behalf of the U.S. Army Research Laboratory, Sensors and Electron Devices Directorate (SEDD) is soliciting white papers for Novel Materials and Device Development for High Efficiency Solar Photovoltaics and intends to award no more than two assistance instruments or contracts. Research and Development solutions are sought for new semiconductor materials and device architectures for high efficiency (>30%) solar photovoltaic solutions that will provide power for charging batteries (during daylight hours) for small autonomous systems and enable extended runtimes on unattended ground sensors and surveillance cameras. The photovoltaic solution for these applications will be geared towards Army's high value systems and high value missions and must address compact, conformable and a light weight substrate with a small volume.

6. DOE – U.S. Department of Energy

6.1 **NEW** RECOVERY ACT-Advanced Research Projects Agency – Energy (ARPA-E) Modification 9

Brief Description:

- Award Ceiling: \$20,000,000
- Award Floor: \$500,000

Advanced Research Projects Agency ı Energy (ARPA-E). ARPA-E is a new organization within the Department of Energy (DOE), created specifically to foster research and development (R D) of transformational energy-related technologies. Transformational technologies are by definition technologies that disrupt the status quo. They are not merely better than current technologies, they are significantly better. This FOA supports the Nation apos;s need for transformational energy-related technologies to overcome the threats posed by climate change and energy security, arising from its reliance on traditional uses of fossil fuels and the dominant use of oil in transportation.

6.2 NEW Recovery Act - Systems Level Technology Development, Integration, and Demonstration for Efficient Class 8 Trucks (SuperTruck) and Advanced Technology Powertrains For Light-Duty Vehicles (ATP-LD) Modification 3

Brief Description:

- Award Ceiling: \$110,000,000
- Award Floor: \$44,000,000

The goal of Area of Interest 1 is to develop and demonstrate a 50% improvement in overall freight efficiency on a heavy-duty Class 8 tractor-trailer measured in ton-miles per gallon. This improvement will be achieved through the application of advanced vehicle system technologies and advanced engine technologies. At least 20% of the improvement will be through the development of an engine capable of achieving 50% Brake Thermal Efficiency (BTE). Over the 3 to 5 year period of this activity, the selected participants will develop, test, and ultimately demonstrate these advanced technologies on a full-scale vehicle. A pathway to compliance with prevailing federal safety and environmental regulations must be shown. Candidate vehicle system technologies may include reductions in aerodynamic drag, vehicle mass, and rolling resistance, and other technologies as appropriate. Electrical or mechanical drivetrain hybridization, including energy storage/regeneration and main engine idle and other ancillary load reductions, may also be considered. In an effort to bring the best possible resources to bear on this transformational vehicle development, teams are expected to include but are not limited to a vehicle OEM, engine manufacturers and critical suppliers. The project will be organized in phases with well-defined stage gates at the end of each phase. An in-depth review will be held at the end of each phase and a determination made concerning continuing the project into the next stage. Changes to DOE program priorities as well as the current state of technology and the marketplace will be factors considered when making decisions to proceed. The goal of Area of Interest 2 is to accelerate the development of cost-competitive engine and powertrain systems for light-duty vehicles capable of attaining breakthrough thermal efficiencies while meeting future emissions standards. Development of the engine and powertrain system can include improvements to in-cylinder combustion, engine mechanics, waste heat recovery, friction reduction, emission control, fuels, materials, electrification, and reduced ancillary load requirements. The engine system can be designed to accommodate a hybrid system, CVT or other advanced transmission.

6.3 NEW Recovery Act - Building America Energy Efficient Housing Partnerships Modification 4

Brief Description:

- Award Ceiling: \$31,250,000
- Award Floor: \$2,500,000

The Department of Energy (DOE), National Energy Technology Laboratory (NETL), on behalf of the Office of Energy Efficiency and Renewable Energy's (EERE's) Building Technologies (BT) Program, is seeking applications for Industry Teams to implement the Building America Program's research program for new and existing homes. This Funding Opportunity Announcement also offers a limited opportunity for Industry Teams to focus on stimulating the existing home retrofit market. This FOA includes two (2) Program Areas of Interest. Program Areas of Interest Area of Interest 1 - Building America Teams Area of Interest 2 ; Building America Retrofit Teams

6.4 RECOVERY ACT-Advanced Research Projects Agency – Energy (ARPA-E) Modification 7

Brief Description:

- Award Ceiling: \$20,000,000

Advanced Research Projects Agency ; Energy (ARPA-E). ARPA-E is a new organization within the Department of Energy (DOE), created specifically to foster research and development (R and D) of

transformational energy-related technologies. Transformational technologies are by definition technologies that disrupt the status quo. They are not merely better than current technologies, they are significantly better. This FOA supports the Nation's need for transformational energy-related technologies to overcome the threats posed by climate change and energy security, arising from its reliance on traditional uses of fossil fuels and the dominant use of oil in transportation.

6.5 Recovery Act: Large Wind Turbine Drivetrain Testing Facility Modification 4

Brief Description:

- Award Ceiling: \$45,000,000

This Funding Opportunity Announcement is for the design and construction of a large dynamometer facility for testing 5 to 15 MW rated drivetrains, with supporting systems, and the operation and maintenance of these facilities for the benefit of wind stakeholders nationwide. The proposed facility can be new construction or involve the design and modification of an existing building suitable for electrical, mechanical, and other physical needs associated with a dynamometer test stand. Overhead cranes, access doors, and other facility infrastructure suitable for accommodating associated components and equipment will be required. It is envisioned that the facility will include sufficient office space for permanent staff and visiting users as well as conference rooms, lunch room, restrooms, computer stations, etc. Applicants will be required to submit detailed multi-phase plans including concept designs, preliminary designs, engineering procurement and construction contract management, and operation and maintenance. DOE envisions awarding a single \$45 Million financial assistance grant award on a competitive basis. This \$45 million program is to assist in the design and construction of an accredited dynamometer testing facility capable of performing Highly Accelerated Life Testing (HALT) of 5 to 15MW rated wind turbine drive trains and generators, including all required supporting systems. As HALT is assumed to require at least a 30% overload in the rated torque of the test article, the dynamometer facility will require a minimum capacity of 20MW to support testing of a 15MW rated drivetrain. The facility should incorporate features to accommodate large direct drive generators in addition to generator/gearbox drivetrain configurations. In addition, the capability to simultaneously impart dynamic and/or steady off-axis loads (bending, radial and axial loads) to the low speed shaft of the test article will be required. It is anticipated that the facility will incorporate multiple test bays, permitting simultaneous, independent testing of two 7.5MW rated drivetrains. It is expected that the test bay dynamometers would be coupled to obtain a single test capability of up to 15MW rated drivetrains. The facility should incorporate the necessary electrical infrastructure to permit interconnection of the test article at all common system operating voltages. The facility should also be capable of testing generator system response to grid anomalies and for grid code compliance. Independent accreditation of the facility to conduct certification testing in accordance with applicable wind turbine design standards will be required.

6.6 Recovery Act: Community Renewable Energy Deployment Modification 2

Brief Description:

- Award Ceiling: \$21,450,000
- Award Floor: \$5,000,000

This is a restricted eligibility. In accordance with 10 CFR 600.6(b), eligibility for award is restricted to state and local governments, Indian Tribes and Tribal Energy Resource Development Organizations or Groups. The full Funding Opportunity Announcement (FOA) is posted in FedConnect, and is found by going to <https://www.fedconnect.net> and clicking on "Search Public Opportunities". Under "Search Criteria", select "Issuing Office", enter "Golden Field Office", then click on "Search". Once the screen comes up, locate the appropriate Announcement. In order to be considered for award, you MUST follow the instructions contained in the Announcement. The purpose of this FOA is to move EERE toward one of its goals to improve knowledge and to promote acceleration of market adoption of renewable energy (RE) technologies. This FOA supports implementation of the Recovery Act by creating jobs, promoting economic recovery, and investing in renewable energy infrastructure. Projects should address the technical, economic, and policy barriers to implementing a combination of renewable energy technologies into one integrated solution for a community to reduce its carbon footprint. Projects should support and enable the deployment goals across the portfolio of EERE's renewable energy programs, with the intent of creating examples that can be further replicated by other communities, nationally and internationally.

6.7 Recovery Act-Resource Assessment and Interconnection-Level Transmission Analysis and Planning Modification 1

Brief Description

The objective of this Funding Opportunity Announcement is to facilitate the development or strengthening of capabilities in each of the three interconnections serving the lower 48 states of the United States, to prepare analyses of transmission requirements under a broad range of alternative futures and develop long-term interconnection-wide transmission expansion plans. The interconnections are the Western Interconnection, the Eastern Interconnection, and the Texas Interconnection.

6.10 Recovery Act Funding for Expansion of Infrastructure for Higher Ethanol Blends

Brief Description:

- Estimated Total Program Funding: \$5,500,000

A link to the full Funding Opportunity Announcement is found by scrolling to the bottom of this page. This funding opportunity announcement aims to increase the availability and use of potential gasoline/ethanol blends up to E85 (85 % ethanol) through two Topic Areas: (1) Refueling Infrastructure for Ethanol Blends – cost-shared projects to modify, upgrade, or expand the infrastructure at retail fueling locations to accommodate gasoline-ethanol blends up to E85; (2) Outreach for Ethanol Blends – projects which will increase public awareness of the benefits, safety, and use of ethanol blends as a transportation fuel. Background: The President’s Management Agenda – This funding opportunity announcement is for grants for renewable fueling infrastructure development and education and outreach. The Department’s Strategic Plan identifies five – Strategic Themes. The Biomass and Biorefinery Systems R D Program supports the following goals from Theme 1, Energy Security: Strategic Goal 1.1, Energy Diversity: Increase our energy options and reduce dependence on oil, thereby reducing vulnerability to disruptions and increasing the flexibility of the market to meet U.S. needs. Strategic Goal 1.2, Environmental Impacts of Energy: Improve the quality of the environment by reducing greenhouse gas emissions and environmental impacts to land, water, and air from energy production and use. The infrastructure and outreach supported by this funding opportunity announcement will contribute to these goals by increasing the infrastructure necessary for expanded renewable fuel use and expedited deployment of biofuels. This helps the nation expand its renewable energy infrastructure while reducing its greenhouse gases emissions, fossil energy consumption and dependence on foreign oil. Applications for this Funding Opportunity Announcement must be accessed, completed, and submitted through Grants.gov at <http://www.grants.gov> to be considered for award. Questions regarding the content of the announcement should be submitted through the – Submit Question – feature of the DOE Industry Interactive Procurement System (IIPS) at <http://e-center.doe.gov>. VERY IMPORTANT: Applications must be submitted through Grants.gov to be considered for award. You cannot submit an application through Grants.gov unless you are registered. Please read the registration requirements carefully and start the process immediately. Remember you have to update your CCR registration annually.

6.11 Recovery Act: Site Characterization of Promising Geologic Formations for CO2 Storage Modification 2

Brief Description:

- Award Floor: \$3,000,000

THIS FOA HAS BEEN AMENDED ONE (1) TIME TO EXTEND THE APPLICATION DUE DATE TO AUGUST 10, 2009. Projects under this Funding Opportunity Announcement (FOA) will be funded, in whole or in part, with funds appropriated by the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, (Recovery Act or Act). The Recovery Act's purposes are to stimulate the economy and to create and retain jobs. The Act gives preference to activities that can be started and completed expeditiously. Accordingly, special consideration will be given to projects that promote and enhance the objectives of the Act, especially job creation, preservation and economic recovery, in an expeditious manner. YOU MUST SUBMIT YOUR APPLICATION THROUGH FEDCONNECT TO BE CONSIDERED FOR AN AWARD. The following paragraphs are for informational purposes ONLY. ALL questions must be submitted through FedConnect. Application preparation instructions, additional programmatic background information, merit review criterion, etc. are included in the Body of the FOA which can be located in the upper right hand corner of the FedConnect Home Page for this specific FOA (DE-FOA-0000033). YOU MUST FOLLOW THE INSTRUCTIONS CONTAINED IN THE BODY OF THE FOA TO BE CONSIDERED FOR AN AWARD. The purpose of this FOA is to focus on regional site characterization of a minimum of 10 distinct "high-potential" (described in the next paragraph) geologic formations. Geologic storage formations can be saline formations, depleting/depleted oil fields, or coals seams. Each application submitted in response to this FOA should focus on a minimum of one specific site, formation, or area not previously characterized with public data, unless a strong case can be made for further characterization for deficiencies in the available data sets. It is anticipated that a minimum of 10 awards will be made, for a total site characterization of a minimum of 10 distinct "high-potential" geologic formations. It is expected that these characterization projects will increase our understanding of the potential for these formations to safely and permanently store CO2. To be a distinct "high-potential" geologic formation, the target formation should be representative of the regional geology that could be used to store CO2 emissions from sources where CO2 could be captured and economically transported. The site should have the potential to store at least 30 million tons of CO2 and should be able to accept CO2 from a large commercial source over the lifetime of the source. The formation should represent a significant storage opportunity in the region with appropriate structure and geology (seals) to protect against adverse impacts on the overlying formation or risks to Underground Sources of Drinking Water (USDW) and the surface.

6.12 Recovery Act: Geologic Sequestration Training and Research Modification 3

Brief Description:

- Award Ceiling: \$300,000
- Award Floor: \$100,000

Projects under this FOA will be funded, in whole or in part, with funds appropriated by the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, (Recovery Act or Act). The Recovery Act's purposes are to stimulate the economy and to create and retain jobs. The Act gives preference to activities that can be started and completed expeditiously. Accordingly, special consideration will be given to projects that promote and enhance the objectives of the Act, especially job creation, preservation and economic recovery, in an expeditious manner. The Department of Energy's (DOE's) Carbon Sequestration Program within the Office of Fossil Energy's (FE's) Coal Program involves two key elements for technology development and research: 1) core R D and 2) infrastructure. The core R D element contains five focal areas for carbon sequestration technology development: 1) capture, 2) geologic carbon storage, 3) monitoring, verification, and accounting (MVA), 4) carbon dioxide (CO2) use, and 5) simulation and risk assessment. Core R D is driven by technology needs and is accomplished through laboratory and pilot-scale research aimed at developing new technologies and new systems for CO2-emission mitigation. The Infrastructure element includes large-scale projects and the Regional Carbon Sequestration Partnerships (RCSPs). An awareness of current and completed research and development activities in the carbon sequestration area will be important to achieving the proper balance of integration with other funded activities. For additional information on DOE's carbon sequestration activities, please visit: http://www.netl.doe.gov/technologies/carbon_seq/index.html. Carbon capture and storage (CCS) technologies offer great potential for reducing CO2 emissions and mitigating global climate change.

6.13 Recovery Act - Enhancing State Government Energy Assurance Capabilities and Planning for Smart Grid Resiliency Modification 3

Brief Description:

- Award Ceiling: \$3,572,526
- Award Floor: \$205,257

This initiative, called "The Enhancing State Government Energy Assurance Capabilities and Planning for Smart Grid Resiliency Initiative" (hereinafter called the State EA Initiative) focuses on developing new, or refining existing, plans to integrate new energy portfolios (renewables, biofuels, etc) and new applications, such as Smart Grid technology, into energy assurance and emergency preparedness plans. Better planning efforts will help contribute to the resiliency of the energy sector, including the electricity grid, by focusing on the entire energy supply system, which includes refining, storage, and distribution of fossil and renewable fuels.

Current Closing Date for Applications:

6.15 Recovery Act: Clean Coal Power Initiative – Round 3 Modification 3

Brief Description:

LETTERS OF INTENT ARE REQUESTED NO LATER THAN July 24, 2009. PLEASE SEE PAGE 18 OF THE FOA FOR DETAILS.*** The purpose of this amendment is to 1) re-open the FOA originally issued on August 11, 2008, 2) provide a second Application Due Date (closing date) of August 24, 2009 at 8:00 PM Eastern Time, and 3) make associated programmatic and administrative changes. Additionally, this amendment makes certain changes to the Model Cooperative Agreement.*** The Clean Coal Power Initiative (CCPI) is a cost-shared collaboration between the Government and industry to increase investment in low-emission coal technology by demonstrating advanced coal-based, power generation technologies, consistent with the Energy Policy Act of 2005, Public Law 109-58 (EPACT 2005). The CCPI goal is to accelerate the readiness of advanced coal technologies for commercial deployment, thus ensuring that the United States has clean, reliable, and affordable electricity and power. By overcoming technical risks associated with bringing advanced technology to the point of commercial readiness, the CCPI accelerates the development of new coal technologies for power and hydrogen production, contributes to proving the feasibility of integrating carbon dioxide (CO₂) management and power production and facilitates the movement of technologies into the marketplace that are emerging from the core research and development activities. CCPI directly supports the Climate Change Technology Program to reduce emissions of CO₂, a greenhouse gas. For this Announcement, DOE's specific objective is to demonstrate advanced coal-based technologies that capture and sequester, or put to beneficial use, CO₂ emissions. DOE's goals are to demonstrate at commercial scale in a commercial setting, technologies that (1) can achieve a minimum of 50% CO₂ capture efficiency and make progress toward a target CO₂ capture efficiency of 90% in a gas stream containing at least 10% CO₂ by volume, (2) make progress toward capture and sequestration goal of less than 10% increase in the cost of electricity (COE) for gasification systems and less than 35% for combustion and oxycombustion systems all as compared to current (2008) practice, and (3) capture and sequester or put to beneficial use a minimum of 300,000 tons per year of CO₂ emissions using a thirty day running average to determine if the project successfully meets the CO₂ capture efficiency and the capture and sequestration or beneficial use rate requirements of this Announcement. DOE is currently developing large scale field tests of geologic CO₂ sequestration in the U.S., on the order of 1 million tons of CO₂ per year under a separate program. DOE is interested in allowing demonstration projects under CCPI to integrate with the sequestration field tests, which may already be fully operational by the time the CCPI projects come on-line. A project performer could, for example, attempt to integrate a CCPI project with a sequestration field test to supply lower-cost CO₂, and reduce the cost of either or both projects. This would require careful cooperation or integration of the management of both projects.

6.16 Recovery Act - Systems Level Technology Development, Integration, and Demonstration for Efficient Class 8 Trucks (SuperTruck) and Advanced Technology Powertrains For Light-Duty Vehicles (ATP-LD) Modification 2

Brief Description:

- Expected Number of Awards: 11
- Award Ceiling: \$110,000,000
- Award Floor: \$44,000,000

The goal of Area of Interest 1 is to develop and demonstrate a 50% improvement in overall freight efficiency on a heavy-duty Class 8 tractor-trailer measured in ton-miles per gallon. This improvement will be achieved through the application of advanced vehicle system technologies and advanced engine technologies. At least 20% of the improvement will be through the development of an engine capable of achieving 50% Brake Thermal Efficiency (BTE). Over the 3 to 5 year period of this activity, the selected participants will develop, test, and ultimately demonstrate these advanced technologies on a full-scale vehicle. A pathway to compliance with prevailing federal safety and environmental regulations must be shown. Candidate vehicle system technologies may include reductions in aerodynamic drag, vehicle mass, and rolling resistance, and other technologies as appropriate. Electrical or mechanical drivetrain hybridization, including energy storage/regeneration and main engine idle and other ancillary load reductions, may also be considered. In an effort to bring the best possible resources to bear on this transformational vehicle development, teams are expected to include but are not limited to a vehicle OEM, engine manufacturers and critical suppliers. The project will be organized in phases with well-defined stage gates at the end of each phase. An in-depth review will be held at the end of each phase and a determination made concerning continuing the project into the next stage. Changes to DOE program priorities as well as the current state of technology and the marketplace will be factors considered when making decisions to proceed.

6.17 Recovery Act: Carbon Capture and Sequestration... Modification 3

Brief Description:

Full FOA Title is Recovery Act: Carbon Capture and Sequestration from Industrial Sources and Innovative Concepts for Beneficial CO₂ Use The CO₂ Capture and Sequestration (CCS) and CO₂ use is a cost-shared collaboration between the Government and industry to increase investment in clean industrial technologies and sequestration projects. In accordance with the American Recovery and Reinvestment Act of 2009, and Section 703 of Public Law 110;140, for this Funding Opportunity Announcement, DOE's two specific objectives, identified as Technology Areas, are to demonstrate: (1) Large-scale industrial CCS projects from industrial sources and (2) Innovative concepts for beneficial CO₂ use. The Applicants shall clearly identify the technology area under which the application is being submitted. Technology Area 1 - Large-scale industrial CCS projects from industrial sources: The objective is to demonstrate advanced technologies that capture and sequester carbon dioxide emissions from industrial sources into underground formations.

6.18 Recovery Act Local Energy Assurance Planning (LEAP) Initiative

Brief Description:

- Expected Number of Awards: 50

A goal of the American Recovery and Reinvestment Act of 2009 (ARRA), in part, is to: “facilitate recovery from disruptions to the energy supply” and “enhance reliability and quicker repair of outages.” This initiative will create jobs at the local level and allow Cities to have well-developed, standardized energy assurance and resiliency plans that they can rely on during energy emergencies and supply disruptions. City governments will address energy supply disruption risks and vulnerabilities in their plans to lessen the devastating impact that such incidents have on the economy and the health and safety of citizens. This initiative, (restricted to U.S. cities) called “Local Energy Assurance Planning” (hereinafter called the LEAP Initiative) focuses on developing new, or refining existing, plans to integrate new energy portfolios (renewables, biofuels, etc) and new applications, such as Smart Grid technology (<http://www.oe.energy.gov/smartgrid.htm>), into energy assurance and emergency preparedness plans. Better planning efforts will help contribute to the resiliency of the energy sector, including the electricity grid, by focusing on the entire energy supply system, which includes refining, storage, and distribution of fossil and renewable fuels.

6.19 Recovery: State Energy Efficient Appliance Rebate Program (SEEARP)

Brief Description

- Expected Number of Awards: 56
- Estimated Total Program Funding: \$296,000,000

The Recovery Act provides \$296M to implement Section 124 of the Energy Policy Act of 2005 (EPA 2005) establishing DOE support for States rebate programs for residential ENERGY STAR appliance products (those that represent improvements in efficiency compared to the majority of products in the market). States will receive formula-based funding to establish or supplement established ENERGY STAR appliance rebate programs. Federal funds, awarded from this FOA, may be used to pay up to 50% of the administrative costs to carry out the rebate program. The Appliance Rebate Program Objectives are: * Save energy by encouraging appliance replacement through consumer rebates * Make rebates available to consumers * Enhance existing rebate programs by leveraging ENERGY STAR national partner relationships and local program infrastructure * Keep administrative costs low while adhering to monitoring and evaluation requirements * Promote state and national tracking and accountability * Use existing ENERGY STAR consumer education and outreach materials

6.20 Recovery Act: Development of Algal/Advanced Biofuels Consortia

Brief Description

- Expected Number of Awards: 3
- Estimated Total Program Funding: \$85,000,000

The Department of Energy (DOE) Office of Energy Efficiency and Renewable (EERE) Energy through the Office of Biomass Program announces a notice of availability of funding for establishing Consortia for two primary topic areas, development of Algae Based Biofuels, and development of Advanced Cellulosic Biofuels. The intended purpose of this Funding Opportunity Announcement (FOA) is to serve three primary goals of EERE: 1) increase the viability and deployment of renewable energy technologies, 2) spur the creation of a domestic bio-industry, and 3) dramatically reduce dependence on imported oil.

6.21 Recovery Act: Community Renewable Energy Deployment

Brief Description

- Expected Number of Awards: 4
- Estimated Total Program Funding: \$21,450,000

The purpose of this FOA is to move EERE toward one of its goals to improve knowledge and to promote acceleration of market adoption of renewable energy (RE) technologies. This FOA supports implementation of the Recovery Act by creating jobs, promoting economic recovery, and investing in renewable energy infrastructure. Projects should address the technical, economic, and policy barriers to implementing a combination of renewable energy technologies into one integrated solution for a community to reduce its carbon footprint. Projects should support and enable the deployment goals across the portfolio of EERE's renewable energy programs, with the intent of creating examples that can be further replicated by other communities, nationally and internationally. Eligible renewable energy technologies for purposes of this FOA include but are not limited to, electric or thermal energy generated from solar, wind, biomass, landfill gas, ocean (including tidal, wave, current, and thermal), geothermal, or new hydroelectric generation capacity achieved from increased efficiency or additions of new capacity at an existing hydroelectric project, as defined in EPAct 2005.

6.23 Recovery Act - Early Career Research Program

Brief Description

All types of domestic entities are eligible to apply, except other Federal agencies, Federally Funded Research and Development Center (FFRDC) Contractors, and nonprofit organizations described in section 501(c)(4) of the Internal Revenue Code of 1986 that engaged in lobbying activities after December 31, 1995. The Principal Investigator must be an untenured Assistant Professor on the tenure track at a U.S. academic institution as of the deadline for the application. No more than ten (10) years can have passed between the year the Principal Investigator's Ph.D. was awarded and the year of the deadline for the application (for the present competition, those who received doctorates no earlier than 1999 are eligible). Each Principal Investigator may only submit one Office of Science Early Career Research Program application per annual competition. Additionally, a Principal Investigator may not participate in more than three Office of Science Early Career Research Program competitions. Applications must be submitted through a U.S. academic institution. A companion announcement describes the Early Career Research Program opportunity for full-time DOE national laboratory employees. An employee with a joint appointment between a university and a DOE national laboratory must apply through the institution that pays his or her salary and provides his or her benefits. Eligibility exemptions will not be granted. There can be no co-Principal Investigators and letters of recommendation are not allowed.

6.24 Recovery Act: Hydroelectric Facility Modernization Modification 1

Brief Description:

- Expected Number of Awards: 10
- Estimated Total Program Funding: \$32,000,000

This is a restricted eligibility to industry members or industry-led partnerships within the hydropower industry. The full Funding Opportunity Announcement (FOA) is posted in FedConnect, and is found by going to <https://www.fedconnect.net> and clicking on *Search Public Opportunities*. Under *Search Criteria*, select *Issuing Office*, enter *Golden Field Office*, then click on *Search*. Once the screen comes up, locate the appropriate Announcement. In order to be considered for award, you MUST follow the instructions contained in the Announcement. The Department of Energy is soliciting applications from industry members or industry-led partnerships that propose to develop, deploy, and test hydropower projects that would modernize the existing hydropower infrastructure in the U.S. and increase both the quantity and value of hydropower generation, including environmental performance. The program will focus on supporting the deployment of turbines and control technologies to increase and maximize system generation at existing non-Federal hydroelectric facilities. Financial assistance will be provided to a variety of hydropower projects that can be developed without significant modifications to dams and with a minimum of regulatory delay. Projects should be able to demonstrate improved environmental performance, such as a reduction in the rate of fish mortality at project sites or an increase in concentration of dissolved oxygen surrounding the project sites. Proposed projects should be able to demonstrate improved quantity and quality (value) of energy produced, through increased efficiency and enhanced environmental performance. Projects that propose to use advanced technologies that improve upon on technologies or operations in common use are preferred.

6.25 Recovery Act: Geologic Sequestration Training and Research

Brief Description:

- Award Ceiling: \$300,000
- Award Floor: \$100,000

Grant applications from universities, colleges, and college-affiliated research institutions and Historically Black Colleges and Universities and Other Minority Institutions (HBCU/OMI) are sought to provide training opportunities for graduate and undergraduate students that will provide the human capital and skills required for implementing and deploying CCS technologies. Training can be accomplished through fundamental research in the CCS technology area. Fundamental research is needed to advance science in: simulation and risk assessment; monitoring, verification, and accounting; geological related analytical tools; methods to interpret geophysical models; well completion and integrity for long-term CO2 storage; and CO2 capture.

6.26 Recovery Act: Advanced Energy Efficient Building Technologies

Brief Description:

YOU MUST SUBMIT YOUR APPLICATION THROUGH FEDCONNECT TO BE CONSIDERED FOR AN AWARD. The following paragraphs are for informational purposes ONLY. ALL questions must be submitted through FedConnect. Application preparation instructions, additional programmatic background information, merit review criterion, etc. are included in the Body of the Funding Opportunity Announcement (FOA) which can be located in the upper right hand corner of the FedConnect Home Page for this specific FOA (DE-FOA-0000115). YOU MUST FOLLOW THE INSTRUCTIONS CONTAINED IN THE BODY OF THE FOA TO BE CONSIDERED FOR AN AWARD. Projects under this Funding Opportunity Announcement (FOA) will be funded, in whole or in part, with funds appropriated by the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, (Recovery Act or Act). The Recovery Act's purposes are to stimulate the economy and to create and retain jobs. The Act gives preference to activities that can be started and completed expeditiously. Accordingly, special consideration will be given to projects that promote and enhance the objectives of the Act, especially job creation, preservation and economic recovery, in an expeditious manner. The Department of Energy (DOE), National Energy Technology Laboratory (NETL), on behalf of the Office of Energy Efficiency and Renewable Energy's (EERE) Building Technologies Program (BTP), is seeking applications under six broad Areas of Interest.

6.28 Recovery Act - Solid State Lighting U.S. Manufacturing -Round 1

Brief Description:

The objective of this Funding Opportunity Announcement (FOA) is to achieve cost reduction of solid-state lighting for general illumination through improvements in manufacturing equipment, processes, or techniques. It is anticipated that success will lead to a more rapid adoption/installation of high-quality SSL products

resulting in a significant reduction of energy use and a corresponding reduction of environmental pollutants. A secondary objective is to maintain, in the case of light emitting diodes (LEDs), or establish, in the case of organic light emitting diodes (OLEDs), the manufacturing and technology base within the US.

6.29 Recovery Act-Energy Efficiency and Conservation Block Grants - Formula Grants Modification 15

Brief Description:

The American Recovery and Reinvestment Act of 2009, Public Law 111-5, appropriates funding for the Department of Energy (DOE) to issue/award formula-based grants to states, U.S. territories, units of local government, and Indian tribes under the Energy Efficiency and Conservation Block Grant (EECBG) Program. DOE's authorization for this program is set forth in Title V, Subtitle E of the Energy Independence and Security Act (EISA) of 2007. The purpose of the EECBG Program is to assist eligible entities in creating and implementing strategies to: reduce fossil fuel emissions in a manner that is environmentally sustainable and, to the maximum extent practicable, maximizes benefits for local and regional communities; reduce the total energy use of the eligible entities; and improve energy efficiency in the building sector, the transportation sector, and other appropriate sectors.

6.31 Recovery Act-Smart Grid Demonstrations Modification 2

Brief Description:

From funds made available by The American Recovery and Reinvestment Act of 2009, the DOE Office of Electricity Delivery and Energy Reliability (OE) has issued this competitive Funding Opportunity Announcement (FOA) for Smart Grid Demonstrations. Smart Grid projects will include regionally unique demonstrations to verify smart grid technology viability, quantify smart grid costs and benefits, and validate new smart grid business models, at a scale that can be readily adapted and replicated around the country. The goal of this FOA is to demonstrate technologies in regions across the States, Districts, and Territories of the United States of America that embody essential and salient characteristics of each region and present a suite of use cases for national implementation and replication. From these use cases, the goal is to collect and provide the optimal amount of information necessary for customers, distributors, and generators to change their behavior in a way that reduces system demands and costs, increases energy efficiency, optimally allocates and matches demand and resources to meet that demand, and increases the reliability of the grid. The social benefits of a smart grid are reduced emissions, lower costs, increased reliability, greater security and flexibility to accommodate new energy technologies, including renewable, intermittent and distributed sources.

6.35 Recovery Act: Wind Energy Consortia between Institutions of Higher Learning and Industry Modification 1

Brief Description

- Expected Number of Awards: 2
- Estimated Total Program Funding: \$24,000,000

This action will fund consortia between institutions of higher learning and industry that will perform focused research on critical wind energy challenges. These funds will be provided under the American Recovery and Reinvestment Act of 2009 to preserve and create jobs, promote economic recovery, and provide investments needed to increase wind energy R D. The funding will be focused on two complementary areas, but not separate topics: Topic Area 1: Partnerships for Wind Research and Turbine Reliability: Universities in regions of the country in a Power Class 3 at 50 meters or greater wind region with consistent wind resources throughout the year are encouraged to team with industry partners to establish facilities/equipment and a research agenda necessary to study major challenges facing today's wind industry. Proposals must address one or more challenges described in the 20 Percent Wind Energy by 2030 report and shall include descriptions of how the wind hardware and software will be acquired. DOE highly encourages research in turbine reliability as a topic in any consortia proposal. Topic Area 2: Wind Energy Research Development: University R D to advance material design, performance measurements, analytical models, and leveraging partnerships with industry to improve power systems operations, maintenance or repair operations, wind turbine and/or component manufacturing, and interdisciplinary system integration.

6.36 Recovery Act: Energy Efficient Information and Communication Technology Modification 1

Brief Description

- Expected Number of Awards: 15
- Estimated Total Program Funding: \$50,000,000

The energy used by our nation in telecommunications and data centers is growing at an alarming rate. As information technology and communications services continue to slowly converge, the data center and telecommunications industries face increasingly similar challenges to control the power usage of their microprocessors or servers and supporting power and cooling systems. The electricity consumed in data centers and telecom systems is already three percent of the U.S. total and growing rapidly. In the face of growing global energy demand, uncertain energy supplies, and volatile energy prices, innovative solutions are needed to radically advance the energy efficiency of these systems, which represent the engine of the American economy today. Enhanced energy efficiency in the central offices and data centers supporting our information, communications technology (ICT) systems will enhance U.S. energy and economic security. This Funding Opportunity Announcement seeks to develop new technologies to dramatically improve energy efficiency in ICT with an emphasis on new technologies that can be commercialized within the next three to five years, and to demonstrate through field testing highly energy efficient, emerging technologies that are ready for or are in the initial stage of commercial introduction.

6.37 Recovery Act - Geothermal Technologies Program: GroundSource Heat Pumps Modification 1

Brief Description

- Expected Number of Awards: 21
- Estimated Total Program Funding: \$50,000,000

Through this FOA, DOE seeks to increase the deployment of ground source heat pumps through new commercialization strategies that incorporate: 1) innovative commercial-scale or residential community technology demonstration projects; 2) data gathering and analysis related to system costs, performance, and installation techniques; and 3) a national GHP certification standard. DOE's objective is to promote ground source heat pumps via the following three Topic Areas: 1. Technology Demonstration Projects: Mid- or large-scale (i.e. provide 50-100 tons of heating and/or cooling) cost-shared technology demonstration projects that incorporate innovative business and financing strategies and/or technical approaches designed to overcome commercialization barriers that currently exist for GHPs. 2. Data Gathering and Analysis: Data gathering and analysis research papers related to system costs, performance, and installation techniques, which will provide insights into the lowest life-cycle cost applications for GHPs and assist consumers in determining project feasibility. 3. National Certification Standard: A national certification standard for the GHP industry designed to increase consumer confidence in the technology, reduce the potential for improperly installed systems, and assure product quality and performance.

6.38 Recovery Act (ARRA) - Industrial Energy Efficiency Modification 3

Brief Description

THIS AMENDMENT SUPERSEDES THE ORIGINAL ANNOUNCEMENT AND ANY PREVIOUSLY ISSUED AMMENDMENTS. THIS DOCUMENT REPRESENTS THE ANNOUNCEMENT IN FULL. It is not necessary to access the Body or any other previous versions for information. The purpose of this Amendment No. 000002 to DE-FOA-0000044 is to: 1. Correct the typographical error on the FOA cover page for the CFDA number. The correct CFDA number is 81.087. 2. Clarify the link for the Recovery Act special terms and conditions. The correct link is http://management.energy.gov/policy_guidance/1672.htm as reflected in the body of this amendment. 3. Revise and provide new information for Section VII, Questions, as reflected in the body of this amendment. The new information includes clarification regarding FedConnect procedures and viewing answers to submitted questions.

6.39 Recovery Act - State Electricity Regulators Assistance

Brief Description

- Award Ceiling: \$1,686,869
- Award Floor: \$763,577

The primary purpose of this initiative is to assist the state Public Utility Commissions (PUCs) by providing funding to increase staff to facilitate timely consideration through appropriate regulatory processes of ARRA electricity-related activities and investments. More specifically, this initiative should: 1) help state PUCs better manage the increase in dockets and other regulatory actions expected to result from ARRA electricity-related activities; 2) facilitate timely consideration by PUCs of ARRA electricity-related investments; and 3) create jobs.

6.40 Recovery Act-Resource Assessment and Interconnection-Level Transmission Analysis and Planning

Brief Description

- Expected Number of Awards: 6

The objective of this Funding Opportunity Announcement is to facilitate the development or strengthening of capabilities in each of the three interconnections serving the lower 48 states of the United States, to prepare analyses of transmission requirements under a broad range of alternative futures and develop long-term interconnection-wide transmission expansion plans. The interconnections are the Western Interconnection, the Eastern Interconnection, and the Texas Interconnection.

6.41 Recovery Act - Enhancing State Government Energy Assurance Capabilities and Planning for Smart Grid Resiliency

Brief Description

- Expected Number of Awards: 56

This initiative, called “The Enhancing State Government Energy Assurance Capabilities and Planning for Smart Grid Resiliency Initiative” (hereinafter called the State EA Initiative) focuses on developing new, or refining existing, plans to integrate new energy portfolios (renewables, biofuels, etc) and new applications, such as Smart Grid technology, into energy assurance and emergency preparedness plans. Better planning efforts will help contribute to the resiliency of the energy sector, including the electricity grid, by focusing on the entire energy supply system, which includes refining, storage, and distribution of fossil and renewable fuels

6.42 Recovery Act: Clean Coal Power Initiative - Round3

Brief Description

The Clean Coal Power Initiative (CCPI) is a cost-shared collaboration between the Government and industry to increase investment in low-emission coal technology by demonstrating advanced coal-based, power generation technologies, consistent with the Energy Policy Act of 2005. The CCPI goal is to accelerate the readiness of advanced coal technologies for commercial deployment, thus ensuring that the United States has clean, reliable, and affordable electricity and power. For this Announcement, DOE’s specific objective is to demonstrate advanced coal-based technologies that capture and sequester, or put to beneficial use, CO2 emissions. DOE’s goals are to demonstrate at commercial scale in a commercial setting, technologies that (1) can achieve a minimum of 50% CO2 capture efficiency and make progress toward a target CO2 capture efficiency of 90% in a gas stream containing at least 10% CO2 by volume, (2) make progress toward capture and sequestration goal

of less than 10% increase in the cost of electricity (COE) for gasification systems and less than 35% for combustion and oxycombustion systems all as compared to current (2008) practice, and (3) capture and sequester or put to beneficial use a minimum of 300,000 tons per year of CO2 emissions using a thirty day running average to determine if the project successfully meets the CO2 capture efficiency and the capture and sequestration or beneficial use rate requirements of this Announcement.

6.43 Recovery Act - Systems Level Technology Development, Integration, and Demonstration for Efficient Class 8 Trucks (SuperTruck) and Advanced Technology Powertrains For Light-Duty Vehicles (ATP-LD)

Brief Description

- Expected Number of Awards: 11
- Award Ceiling: \$95,000
- Award Floor: \$45,000

The goal of Area of Interest 1 is to develop and demonstrate a 50% improvement in overall freight efficiency on a heavy-duty Class 8 tractor-trailer measured in ton-miles per gallon. This improvement will be achieved through the application of advanced vehicle system technologies and advanced engine technologies. At least 20% of the improvement will be through the development of an engine capable of achieving 50% Brake Thermal Efficiency (BTE). Candidate vehicle system technologies may include reductions in aerodynamic drag, vehicle mass, and rolling resistance, and other technologies as appropriate. The goal of Area of Interest 2 is to accelerate the development of cost-competitive engine and powertrain systems for light-duty vehicles capable of attaining breakthrough thermal efficiencies while meeting future emissions standards. Development of the engine and powertrain system can include improvements to in-cylinder combustion, engine mechanics, waste heat recovery, friction reduction, emission control, fuels, materials, electrification, and reduced ancillary load requirements.

6.44 Recovery Act: Carbon Capture and Sequestration

Brief Description

The CO2 Capture and Sequestration (CCS) and CO2 use is a cost-shared collaboration between the Government and industry to increase investment in clean industrial technologies and sequestration projects. DOE' two specific objectives, identified as Technology Areas, are to demonstrate: (1) Large-scale industrial CCS projects from industrial sources and (2) Innovative concepts for beneficial CO2 use. The objective is to demonstrate advanced technologies that capture and sequester carbon dioxide emissions from industrial sources into underground formations. The large-scale CCS projects include integration of CO2 capture, transportation and sequestration incorporating comprehensive monitoring, verification accounting (MVA).

6.45 Recovery Act - Geothermal Technologies Program: Ground Source Heat Pumps

Brief Description

- Expected Number of Awards: 21
- Estimated Total Program Funding: \$50,000,000

With this announcement, The U.S. Department of Energy (DOE) Geothermal Technologies Program (GTP) will address Section 931(a)(2)(C) of the Energy Policy Act (EPA) of 2005, which includes authorization to promote the deployment of ground source heat pumps, also known as geothermal heat pumps (GHPs). Funding will be made available through the American Recovery and Reinvestment Act of 2009. Through this FOA, DOE seeks to increase the deployment of ground source heat pumps through new commercialization strategies that incorporate: 1) innovative commercial-scale or residential community technology demonstration projects; 2) data gathering and analysis related to system costs, performance, and installation techniques; and 3) a national GHP certification standard. DOE's objective is to promote ground source heat pumps via the following three Topic Areas: 1. Technology Demonstration Projects: Mid- or large-scale (i.e. provide 50-100 tons of heating and/or cooling) cost-shared technology demonstration projects that incorporate innovative business and financing strategies and/or technical approaches designed to overcome commercialization barriers that currently

exist for GHPs. 2. Data Gathering and Analysis: Data gathering and analysis research papers related to system costs, performance, and installation techniques, which will provide insights into the lowest life-cycle cost applications for GHPs and assist consumers in determining project feasibility. 3. National Certification Standard: A national certification standard for the GHP industry designed to increase consumer confidence in the technology, reduce the potential for improperly installed systems, and assure product quality and performance.

6.46 Recovery Act: Solar Market Transformation

Brief Description

- Award Ceiling: \$6,000,000
- Award Floor: \$150,000

SETP is working to reduce market barriers and promote market expansion of solar energy technologies through non-R&D activities, including activities that provide technical, regulatory, institutional, financial and educational solutions to market transformation barriers; and efforts that accelerate demand for new solar technologies. The objectives of this Funding Opportunity Announcement (FOA) are to address current market barriers to the adoption of solar technologies; and establish a nationally coordinated effort to spread solar installation training to the local level.

6.47 Recovery Act: High Penetration Solar Deployment

Brief Description

- Award Ceiling: \$5,000,000

The objectives of this FOA are to develop the needed modeling tools and database of experience with high penetration scenarios of PV on a distribution system, develop monitoring, control and integration systems to enable cost-effective widespread deployment of small modular PV systems and demonstrate the integration of PV and energy storage into Smart Grid applications. This will accelerate the placement of high levels of PV penetration into existing or newly designed distribution circuits. The achievement of these goals will facilitate increased growth of grid-tied PV installations, thus supporting the Solar Energy Technology Program's (SETP) mission to accelerate widespread commercialization of clean solar energy technologies in the United States (U.S.).

6.48 Recovery Act: Geothermal Technologies Program

Brief Description

- Expected Number of Awards: 60
- Estimated Total Program Funding: \$170,000,000

The U.S. Department of Energy's (DOE) Geothermal Technologies Program (GTP) intends to continue its partnership with the geothermal community on geothermal systems research, exploration, demonstration, and development throughout the United States. Validation of Innovative Exploration Technologies EISA Section 613 addresses the demonstration of innovative site characterization and/or drilling exploration technologies. GTP's goal is to reduce the high level of risk during early stages of geothermal project development by funding the validation of innovative exploration activities to locate undiscovered geothermal systems and increase the reliability of site characterization to prioritize target sites for energy production. Geothermal Energy Production from Low Temperature Resources, Coproduced Fluids from Oil and Gas Wells, and Geopressured Resources EISA Section 616 addresses geothermal energy production from oil and gas fields as well as the recovery and production of geopressured resources and authorization for geothermal energy production from low temperature geothermal resources. GTP's goal is to demonstrate the technical and economic feasibility of geothermal energy production from these non-conventional geothermal resources. Geothermal Data Development, Collection, and Maintenance EAct 2005 includes authorization for continued data submission to the National Geothermal Data System (NGDS). GTP's goal is to develop, collect, and maintain data for all 50 states for the NGDS in order to make geothermal data available to the public and reduce the risk associated with initial stages of geothermal development.

6.50 Recovery Act - Demonstration of Integrated Biorefinery Operations

Brief Description:

- Expected Number of Awards: 15
- Estimated Total Program Funding: \$480,000,000

The American Recovery and Reinvestment Act of 2009 (Recovery Act) enables DOE to support renewable energy research, development, demonstration and deployment activities, which includes accelerating the development of biomass technologies. Recovery Act funds specifically assist in expediting the construction and deployment of shovel-ready projects and to create jobs. Other requirements for Recovery Act projects can be found at Recovery.gov and in the OMB guidelines. All proposals must demonstrate the understanding of and compliance with Recovery Act intentions and OMB guidelines. The intent of this Funding Opportunity

Announcement (FOA) will be to select integrated biorefinery projects that have the necessary technical and economic performance data that validates their readiness for the next level of scale-up. In general, integrated biorefineries employ various combinations of feedstocks and conversion technologies to produce a variety of products, with the main focus on producing biofuels and bioproducts. Co- or by-products can include additional fuels, chemicals (or other materials), and heat and power. For the purpose of this FOA, the term integrated biorefinery is a facility that uses an acceptable feedstock (as defined in the FOA), to produce a biofuel or bioproduct as the primary product (as defined in the FOA) and may produce other products including additional fuels, chemicals (or other materials), and heat and power as co-products. These integrated biorefineries would produce, as their primary product, a liquid transportation fuel that supports, depending on topic area, meeting the advanced, renewable or advanced biofuels portion of the Energy Independence and Security Act of 2007 (EISA) Renewable Fuel Standards (RFS) or, depending on topic area, a bioproduct that substitutes for petroleum-based feedstocks and products. DOE encourages applications that propose novel or breakthrough technologies and those that include appropriate collaboration between and among industry, academia, and DOE National Laboratories, FFRDCs (Federally Funded Research and Development Centers) or other government-funded facilities.

7.5 RECOVERY ACT - Repair Ice Age Trail Modification 1

Brief Description:

- Expected Number of Awards: 1
- Estimated Total Program Funding: \$20,000

This is a Notice of Intent to award without competition to the Ice Age Park and Trail Foundation, Inc. The maintenance work to be accomplished on three segments of the Ice Age NST is a continuation of the long-term stewardship of the trail by the volunteers of the Ice Age Park and Trail Foundation. The purpose is to repair and replace trail structures (bridges, boardwalks) that have deteriorated and become unsafe, and to provide a quality experience to those who use the trail. The local volunteers have identified this work as needed to maintain the sections they are responsible for in a safe and sustainable condition for trail users. Congress clearly intends that the Ice Age NST should be maintained by volunteers. Section 2(c) of the National Trails System Act states: "The Congress recognizes the valuable contributions that volunteers and private, nonprofit trail groups have made to the development and maintenance of the Nation's trails. In recognition of these contributions, it is further the purpose of this Act to encourage and assist volunteer citizen involvement in the planning,

development, maintenance, and management, where appropriate, of trails.” Because of the long-established partnership for the accomplishment of such work between the NPS and the Foundation, it is appropriate to award this assistance to the Foundation. The Ice Age Park and Trail Foundation staff and volunteers are uniquely qualified to do this work. Volunteer support and cost-sharing are involved in the work to be accomplished. The Foundation staff and volunteers have important technical expertise in trail and trail structures design and construction. The Foundation staff and volunteers have the relationships with the public and private owners of the lands where the work will be performed and have permission to do such work on their lands. Another entity, either for-profit or nonprofit, would not have that permission.

7.7 Recovery Act (ARRA) - Seismic Upgrades Modification 8

Brief Description

- Current Closing Date for Applications: Jul 08, 2009
- Estimated Total Program Funding: \$5,000,000

USGS will support the replacement of outdated equipment used to monitor and report on earthquake activity in the U.S. and will improve the data centers and processing capabilities that generate earthquake information products and manage seismic data. These upgrades will further the development of the Advanced National Seismic System. Systems to be upgraded will include existing urban, regional and national seismic networks.

7.8 Recovery Act - Fish Passage

Brief Description

- Expected Number of Awards: 45
- Estimated Total Program Funding: \$2,800,000

The U.S. Fish and Wildlife Service is announcing the availability of funding under the American Recovery and Reinvestment Act of 2009 for habitat restoration through the National Fish Passage Program. The Fish and Wildlife Coordination Act authorizes the Secretary of Interior to provide technical and financial assistance through the National Fish Passage Program to partners interested in restoring, enhancing, and managing fish and wildlife habitats. Under the American Recovery and Reinvestment Act of 2009 additional funding is available for habitat restoration through the National Fish passage Program These Recovery Act funds are available for habitat restoration projects that address high priority aquatic habitats. Projects must provide direct benefits to Federal Trust species (i.e., migratory birds, threatened and endangered species, inter-jurisdictional fish, certain marine mammals, and species of international concern). It is a goal of the program to secure at least 50 percent of project costs from non-Service sources, but this goal applies regionally as a whole, and does not have to be achieved on a project-by-project basis.

8. DOL – U.S. Department of Labor

8.1 Recovery Act - Pathways Out of Poverty Modification 2

Brief Description:

- Estimated Total Program Funding: \$150,000,000

The Department of Labor (DOL, or the Department) announces the availability of approximately \$150 million in grant funds authorized by the American Recovery and Reinvestment Act of 2009 (the Recovery Act) for projects that provide training and placement services to provide pathways out of poverty and into employment

within the industries described in the Supplementary Information, Part B of this SGA. Grantees selected from two separate types of applicants will be funded through this solicitation: (1) national nonprofit entities with networks of local affiliates, coalition members, or other established partners; and (2) local entities. Additional specific eligibility guidance is included in Section III.A, "Eligible Applicants and Required Partnerships." ETA intends to fund grants ranging from approximately \$3 to \$8 million for national grantees, and grants ranging from approximately \$2 to \$4 million for local grantees.

8.3 Recovery Act - State Energy Sector Partnership (SESP) and Training Grants Modification 1

Brief Description:

- Estimated Total Program Funding: \$190,000,000

The Department of Labor (DOL) announces the availability of approximately \$190 million in grant funds to State Workforce Investment Boards of the 50 States, the District of Columbia, and the U.S. territories. In order to highlight the important role States play in building a national green economy, the Department is investing in

workforce sector strategies that target energy efficiency and renewable energy industries. DOL encourages a strategic planning process that aligns the Governor's overall workforce vision, State energy policies, and local and regional training activities that lead to employment in targeted industry sectors. This strategic planning process is an opportunity to develop a statewide energy sector strategy through a comprehensive partnership and development of a Sector Plan. If an energy sector strategy is currently in place, that strategy should be reviewed and evaluated to address the requirements of this funding opportunity. As a result of this Solicitation for Grant Application (SGA), the Department is fostering the development of a national workforce that is ready to meet the demands of the energy efficiency and renewable energy industries. A portion of the funds under this SGA will be reserved for communities or regions undergoing auto industry related restructurings.

8.4 Recovery Act - Green Capacity Building Grants Modification 1

Brief Description:

- Estimated Total Program Funding: \$5,000,000

The Department of Labor (DOL) announces the availability of approximately \$5 million in grant funds for projects that build the capacity of DOL-funded training programs to ensure that targeted groups are prepared to meet the needs of our country's expanding green industries. Only active DOL-funded grantees (eligible grantees specified in the SGA) are eligible to apply. Specifically, this SGA supports capacity building for organizations to provide training for entry-level positions leading to career pathways and/or additional training in the energy efficiency and renewable energy industries.

8.5 Recovery Act-Health Care Sector and Other High Growth and Emerging Industries

Brief Description

- Expected Number of Awards: 55
- Estimated Total Program Funding: \$220,000,000

The Department of Labor (DOL, or the Department) announces the availability of approximately \$220 million in grant funds authorized by the American Recovery and Reinvestment Act of 2009 (the Recovery Act) for projects that provide training and placement services to help workers pursue careers within the industries described in the Background section, Part B of this SGA. The purpose of the high growth and emerging industries grants funded through this SGA is to teach workers the necessary skills for, and help them pursue careers in, health care and other high growth and emerging industry sectors.

8.15 Recovery Act - Green Capacity Building Grants

Brief Description

- Estimated Total Program Funding: \$5,000,000
- Award Ceiling: \$100,000
- Award Floor: \$50,000

The Department of Labor (DOL) announces the availability of approximately \$5 million in grant funds for projects that build the capacity of DOL-funded training programs to ensure that targeted groups are prepared to meet the needs of our country's expanding green industries. Specifically, this SGA supports capacity building for organizations to provide training for entry-level positions leading to career pathways and/or additional training in the energy efficiency and renewable energy industries.

8.16 Department of Labor Recovery Act Competitive Grant Opportunities

Brief Description:

- Estimated Total Program Funding: \$750,000,000

The American Recovery and Reinvestment Act provides \$750 million for a program of competitive grants for worker training and placement in high growth and emerging industry sectors. Of that amount, \$500 million is targeted for research, labor exchange, and job training projects that prepare workers for careers in energy efficiency and renewable energy as defined in the Green Jobs Act: energy efficient building, construction, and retrofitting; renewable electric power; energy efficient and advanced drive train vehicles; biofuels; deconstruction and materials use; energy efficiency assessment for residential, commercial, or industrial sector, and manufacturing of sustainable products using sustainable processes. The remaining \$250 million will be for projects in other high growth and emerging industry sectors with a priority for projects that prepare workers for careers in the health care sector and projects that are tied to industry sectors where jobs are being created as a result of Recovery Act investments such as infrastructure investments. In order to maximize the impact of these competitive grants and leverage the other investments in the Recovery Act, the Department of Labor (DOL) is collaborating with other Federal agencies and developing a multi-pronged investment approach with these funds. DOL plans to issue Solicitations for Grant Awards (SGA) no later than June 30, 2009.

10.1 Recovery Act - American Recovery and Reinvestment Act (ARRA): Tribal Transit Program Grant

Brief Description:

- Estimated Total Program Funding: \$17,000,000

FTA will be accepting discretionary applications for funds made available under the “American Recovery and Reinvestment Act, 2009” (Pub. L. 111-5; “ARRA”) to the Public Transportation on Indian Reservations Program (Tribal Transit Program). The ARRA was signed into law by President Barack Obama on February 17, 2009. Goals of the statute include the preservation and creation of jobs and promotion of an economic recovery, as well as the investment in transportation, environmental protection, and other infrastructure providing long-term economic benefits. The ARRA, Tribal Transit program purpose is to provide funding to federally recognized Indian Tribes for public transportation capital projects for use in public transportation. Under ARRA, \$17 million is available for discretionary award.

11.5 Teacher Quality Partnership Grants Program Recovery Act (ARRA) CFDA 84.405A

Brief Description:

- Expected Number of Awards: 25
- Estimated Total Program Funding: \$143,000,000

Eligible Applicant: An eligible applicant must be an "eligible partnership" as defined in section 200(6) of the HEA. The fiscal agent of the grant may be any of the partners as described in section 200 of the HEA. The eligible partnership means an entity that-- (1) Must include each of the following: (i) A high-need LEA. (ii) A high-need school or consortium of high-need schools served by the high-need LEA, or, as applicable, a high-need ECE program. (iii) A partner institution. (iv) A school, department, or program of education within such partner institution, which may include an existing teacher professional development program with proven outcomes within a four-year IHE that provides intensive and sustained collaboration between faculty and LEAs consistent with the requirements of Title II of the HEA. (v) A school or department of arts and sciences within

such partner institution; and (2) May include any of the following: (i) The Governor of the State. (ii) The State educational agency. (iii) The State board of education. (iv) The State agency for higher education. (v) A business. (vi) A public or private nonprofit educational organization. (vii) An educational service agency. (viii) A teacher organization. (ix) A high-performing LEA, or a consortium of high-performing LEAs, that can serve as a resource to the partnership. (x) A charter school (as defined in section 5210 of the ESEA). (xi) A school or department within the partner institution that focuses on psychology and human development. (xii) A school or department within the partner institution with comparable expertise in the disciplines of teaching, learning, and child and adolescent development. (xiii) An entity operating a program that provides alternative routes to State certification of teachers.

11.6 Statewide Longitudinal Data Systems - Recovery Act (ARRA) CFDA 84.384A Modification 3

Brief Description:

- Estimated Total Program Funding: \$245,000,000

Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Purpose of Program: These supplemental funds, appropriated under the American Recovery and Reinvestment Act of 2009 (ARRA), are intended to help stimulate the American economy. The Statewide Longitudinal Data Systems program provides grants to State Education Agencies to enable them to design, develop, and implement statewide, longitudinal data systems to efficiently and accurately manage, analyze, disaggregate and use individual student data. As provided for under ARRA, funding provided under this competition is to be used for Statewide data systems that, in addition to K-12 data, also include postsecondary and workforce information. The purpose of ARRA is (1) To preserve and create jobs and promote economic recovery; (2) To assist those most impacted by the recession; (3) To provide investments needed to increase economic efficiency by spurring technological advances in science and health; (4) To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and (5) To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases. Award recipients are legally obligated to meet specific reporting requirements established by the Act. Applications for grants under the Statewide Longitudinal Data Systems competition, CFDA Number 84.384A, must be submitted electronically using e-Application, accessible through the Department's e-Grants Web site at: <http://e-grants.ed.gov>. While completing your electronic application, you will be entering data online that will be saved into a database. You may not e-mail an electronic copy of a grant application to us.

11.7 Office of Innovation and Improvement; Overview Information: Teacher Quality Partnership Grants Program – Recovery Act (ARRA) CFDA (84.405A): Modification 2

Brief Description

- Expected Number of Awards: 50
- Estimated Total Program Funding: \$100,000,000

These supplemental funds, appropriated under the American Recovery and Reinvestment Act of 2009 (ARRA), are intended to help stimulate the American economy. The Teacher Quality Partnership program seeks to improve the quality of new teachers working in high-need local educational agencies (LEAs) and high-need schools by creating successful and high-quality model Pre-Baccalaureate Teacher Preparation programs and/or Teaching Residency programs for those qualified to begin teaching. Projects may also include a school leadership component to train superintendents, principals, early childhood educator program directors and other school leaders in high-need or rural LEAs. Initiatives to support development of digital education content, to improve the quality of pre-baccalaureate teacher preparation programs, and/or to enhance the quality of pre-service training for prospective teachers are also supported.

11.8 Teacher Quality Partnership Grants Program; (ARRA Program) CFDA 84.405A

Brief Description

- Expected Number of Awards: 35
- Estimated Total Program Funding: \$143,000,000

The purposes of the Teacher Quality Partnership (TQP) Grants Program are to improve student achievement; improve the quality of new and prospective teachers by improving the preparation of prospective teachers and enhancing professional development activities for new teachers; hold teacher preparation programs at institutions of higher education (IHEs) accountable for preparing highly qualified teachers; and recruit highly qualified individuals, including minorities and individuals from other occupations, into the teaching force. More specifically, the TQP Grants Program seeks to improve the quality of new teachers by creating partnerships among IHEs, high-need school districts (local educational agencies (LEAs)) their high-need schools, and/or high-need early childhood education (ECE) program. These partnerships would create model teacher preparation programs at the pre-baccalaureate level through the implementation of specific reforms of the IHE's existing teacher preparation programs, and/or model teaching residency programs for individuals with strong academic and/or professional backgrounds but without teaching experience. The TQP Grants Program may also

support school leadership programs to train superintendents, principals, ECE program directors, and other school leaders in high-need or rural LEAs.

11.9 Office of Elementary and Secondary Education; Overview Information: Impact Aid Discretionary Construction Program – Recovery Act (ARRA) CFDA 84.401 Modification 2

Brief Description:

- Expected Number of Awards: 40
- Estimated Total Program Funding: \$60,000,000

Grants awarded under the Impact Aid Discretionary Construction Grant Program provide funds for emergency repairs and modernization of school facilities to certain eligible local educational agencies (LEAs) that receive Impact Aid funds. Approved construction activities, include the preparation of drawings and specifications for school facilities; erecting, building, acquiring, altering, remodeling, repairing, or extending school facilities. The final selection criteria for the competitive grants will be announced in the Federal Register notice. The selection criteria that the Department will consider are (in the order they appear in the ARRA):

- The current health and safety risk of a facility to school students and personnel;
- The facility's capacity to support the needs of the current enrollment;
- The facility's capacity to provide a comprehensive educational program that meets current State standards;
- The extent to which projects would use energy-efficient and recyclable materials;
- The use of non-traditional or alternative building methods to expedite construction and maximize cost efficiency;
- The feasibility of completing the project within 24 months; and
- The availability of other resources for the project.

To be eligible for these grants, an LEA must:

1. Be eligible to receive funds under section 8002 (Payments for Federal Property) or 8003 (Basic Support Payments) of the Impact Aid program for fiscal year (FY) 2008; and
2. Have a total taxable assessed value of real property that may be taxed for school purposes of less than \$100 million or have an average assessed value of real property per pupil that may be taxed for school purposes that is less than the State average.

11.11 Office of Elementary & Secondary Education; Overview Information: Teacher Incentive Fund Program- Recovery Act (ARRA) CFDA 84.385 Modification 2

Brief Description:

- Expected Number of Awards: 15
- Estimated Total Program Funding: \$200,000,000

The purpose of the Teacher Incentive Fund is to support programs that develop and implement performance-based teacher and principal compensation systems, based primarily on increases in student achievement, in high-need schools. The goals of the Teacher Incentive Fund program include:

- Improving student achievement by increasing teacher and principal effectiveness;

- Reforming teacher and principal compensation systems so that teachers and principals are rewarded for increases in student achievement;
- Increasing the number of effective teachers teaching poor, minority, and disadvantaged students in hard-to-staff subjects; and
- Creating sustainable performance-based compensation systems.

The purpose of ARRA is (1) To preserve and create jobs and promote economic recovery; (2) To assist those most impacted by the recession; (3) To provide investments needed to increase economic efficiency by spurring technological advances in science and health; (4) To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and (5) To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases. Award recipients are legally obligated to meet specific reporting requirements established by the Act.

11.12 Office of Postsecondary Education; Overview Information: Teacher Quality Partnership Grants Program – Recovery Act (ARRA) CFDA (84.405A)

Brief Description:

- Expected Number of Awards: 50
- Estimated Total Program Funding: \$100,000,000

These supplemental funds, appropriated under the American Recovery and Reinvestment Act of 2009 (ARRA), are intended to help stimulate the American economy. The Teacher Quality Partnership program seeks to improve the quality of new teachers working in high-need local educational agencies (LEAs) and high-need schools by creating successful and high-quality model Pre-Baccalaureate Teacher Preparation programs and/or Teaching Residency programs for those qualified to begin teaching. Projects may also include a school leadership component to train superintendents, principals, early childhood educator program directors and other school leaders in high-need or rural LEAs. Initiatives to support development of digital education content, to improve the quality of pre-baccalaureate teacher preparation programs, and/or to enhance the quality of pre-service training for prospective teachers are also supported. To provide grants to promote improvements in the quality of new teachers, with the ultimate goal of increasing student achievement in the nation's K-12 classrooms. Partnership grants are designed to promote significant improvements in teacher education by strengthening the vital role of K-12 educators in the design and implementation of effective teacher education programs, and by increasing collaboration among these educators and institutions of higher education, and departments of arts and sciences.

11.13 State Incentive “Race-to-the-Top Fund”

Brief Description:

- Estimated Total Program Funding: \$4,350,000,000

The Race-to-the-Top Fund will help States drive substantial gains in student achievement by supporting States that are: (a) effectively using other ARRA funds; and (b) making significant progress on the following four education reform goals:

- Increase teacher effectiveness and address inequities in the distribution of highly qualified teachers;
- Establish and use a pre-K-through-college-and-career data system to track progress and foster continuous improvement;
- Make progress towards rigorous college- and career-ready standards and high-quality assessments that are valid and reliable for all students, including limited English proficient students and students with disabilities; and
- Provide targeted, intensive support and effective interventions to turn around schools identified for corrective action and restructuring.

As part of the process for making grant awards under this competition, the Department may propose that the two factors be taken into consideration: (1) whether a State is complying with the Stabilization program MOE requirements (unless the Secretary has granted the State an MOE waiver); and (2) whether a State reduced the proportion of total State revenues spent on education and, if so, whether there were any exceptional or uncontrollable circumstances contributing to the year-to-year decreases, the extent of the decline in available financial resources, and any changes in demand for services.

15.1 American Recovery and Reinvestment Act of 2009, State Grants to Promote Health Information Technology Planning and Implementation Projects Modification 7

Brief Description:

- Expected Number of Awards: 50
- Estimated Total Program Funding: \$564,000,000

The State Cooperative Agreements to Promote Health Information Technology: Planning and Implementation Projects are to advance appropriate and secure health information exchange (HIE) across the health care system. Awards will be made in the form of cooperative agreements to states or qualified State Designated Entities (SDEs). The purpose of this program is to continuously improve and expand HIE services over time to reach all health care providers in an effort to improve the quality and efficiency of health care. Cooperative agreement recipients will evolve and advance the necessary governance, policies, technical services, business operations and financing mechanisms for HIE over a four year performance period. This program will build off of existing efforts to advance regional and state level HIE while moving towards nationwide interoperability. Total funding for this initiative is \$564,000,000. States (including territories) or their non-profit SDEs may apply, as designated by the state. No more than one award will be made per state. States may choose to enter into multi-state arrangements.

15.2 American Recovery and Reinvestment Act of 2009, Health Information Technology Extension Program: Regional Centers Modification 8

Brief Description:

- Expected Number of Awards: 70
- Estimated Total Program Funding: \$598,000,000

On February 17, 2009, the President signed the American Recovery and Reinvestment Act of 2009 (ARRA). Title XIII of Division A and Title IV of Division B of ARRA, together cited as the Health Information Technology for Economic and Clinical Health Act (HITECH Act), include provisions to promote meaningful use of health information technology to improve the quality and value of American health care. The HITECH Act also established the Office of the National Coordinator for Health Information Technology (ONC) within the U.S. Department of Health and Human Services (HHS) as the principal federal entity responsible for coordinating the effort to implement a nationwide health information technology (health IT) infrastructure that allows for the use and exchange of electronic health information in electronic format. The HITECH Act (Title IV in Division B of ARRA) authorizes incentive payments for eligible Medicare and Medicaid providers? meaningful use of certified electronic health record (EHR) technology. In 2015, providers are expected to have adopted and be actively utilizing an EHR in compliance with the ?meaningful use? definition or they will be subject to financial penalties under Medicare (per Sections 4101(b) and 4102(b) of ARRA). The detailed criteria to qualify for meaningful use incentive payments will be established by the Secretary of HHS (hereafter referred to as the Secretary) through the formal notice-and-comment rulemaking process. For access to the most current publicly available information about meaningful use, please visit the Meaningful Use section of the ONC programmatic website at: <http://healthit.hhs.gov/meaningfuluse>. Providers seeking to meaningfully use EHRs face a variety of challenging tasks. Those tasks include assessing needs, selecting and negotiating with a system vendor or reseller, implementing project management, and instituting workflow changes to improve clinical performance and ultimately, outcomes. Past experience has shown that robust local technical assistance can result in effective implementation of EHRs and quality improvement throughout a defined geographic area. Section 3012 of the Public Health Service Act (PHSA), as amended by ARRA (see Appendix A), authorizes a Health Information Technology Extension Program (Extension Program). By statute, the Extension Program consists of a national Health Information Technology Research Center (HITRC), and Regional Extension Centers (Regional Centers). (For a discussion of the HITRC and its relationship to the Regional Centers, see Appendix B.1.) This funding opportunity announcement seeks applications from qualified entities to serve as Regional Centers within the Extension Program. (For information about additional priority grant programs authorized by the HITECH Act to address critical, short-term prerequisites to achieving the vision of a transformed health system where every American benefits from secure, interoperable EHRs, see Appendix B.2.)

15.7 Health Resources & Services Administration ARRA - State Primary Care Offices

Expected Number of Awards: 53

Estimated Total Program Funding: \$2,000,000

The purpose of this new formula award is to assist State Primary Care Offices (PCO) in the coordination of activities within their state/ U.S. Territory as it relates to the delivery of primary care services and the recruitment and retention of critical health care providers. The American Recovery & Reinvestment Act (ARRA) funds dedicated to strengthening the primary care workforce administered through the National Health Service Corps (NHSC) represents a significant increase in support activities by the PCOs in order to meet the demand to recruit new clinicians into the program and facilitate matching them to eligible sites. As part of ongoing NHSC Site Recruitment and Retention (R&R) application process, PCOs currently review all site applications for NHSC R&R assistance. The doubling of the NHSC field strength as the result of ARRA funding will result in a concurrent doubling of workload for PCOs to meet this increased demand for new and renewal of previously approved sites.

15.8 Recovery Act Limited Competition: Small Business Catalyst Awards for Accelerating Innovative Research (R43): Modification 2

Brief Description:

This NIH Funding Opportunity Announcement (FOA), supported by funds provided to the NIH under the American Recovery and Reinvestment Act of 2009 (Recovery Act or ARRA), Public Law 111-5, invites grant applications from small business concerns that propose to accelerate innovation through high risk, high reward research and development (R and D) that has commercial potential and is relevant to the mission of the NIH. The Small Business Catalyst Award for Accelerating Innovative Research funding opportunity seeks to encourage fresh research perspectives and approaches to serve the mission of NIH. The outcomes of the research supported should have potential to lead to products that will improve public health and create significant value and economic stimulus.

15.9 Recovery Act Limited Competition: Biomedical Research, Development, and Growth to Spur the Acceleration of New Technologies (BRDG-SPAN) Pilot Program (RC3): Modification 2

Brief Description:

- Award Ceiling: \$1,000,000

The purpose of this pilot program is to address the funding gap between promising research and development (R and D) and transitioning to the market -- often called the Valley of Death -- by contributing to the critical funding needed by applicants to pursue the next appropriate milestone(s) toward ultimate commercialization; i.e., to carry out later stage research activities necessary to that end. This program aims to accelerate the transition of research innovations and technologies toward the development of products or services that will improve human health, help advance the mission of NIH and its Institutes and Centers (ICs), and create significant value and economic stimulus.

15.12 Health Resources & Services Administration ARRA - Facility Investment Program Modification 6

Brief Description:

- Expected Number of Awards: 100
- Estimated Total Program Funding: \$525,000,000

Funds made available by the American Recovery and Reinvestment Act (ARRA or Recovery Act) will support health center efforts to expand their capacity to provide primary and preventive health services to medically

underserved populations nationwide as well as create employment opportunities in underserved communities over the next 2 years. This funding opportunity will award approximately \$525 million, through competitive grants, for a one-time facility improvement opportunity to support existing section 330 funded health centers.

15.18 Strengthening Communities Fund - State, Local, and Tribal Government Capacity Building Program

Brief Description:

- Expected Number of Awards: 48
- Estimated Total Program Funding: \$12,000,000

On November 19, 2001, the President and Congress enacted the Aviation and Transportation Security Act (ATSA), P.L. 107-71, 115 Stat. 597, which established TSA as a new Federal agency. ATSA provides authority to the Administrator of the Transportation Security Administration to secure all modes of transportation including carrying out chapter 449 of Title 49 United States Code relating to civil aviation security. This responsibility includes day-to-day Federal security screening operations for passenger air transportation and intrastate air transportation, enforce security-related regulations and requirements; inspect, maintain and test security facilities, equipment, and systems and oversee the implementation and ensure the adequacy of security measures at airports and other transportation facilities. Pursuant to 49 U.S.C. § 44903(h) the Administrator of the Transportation Security Administration in consultation with the Airport Authority is required to deploy personnel and screen and inspect all passengers and their baggage. The requirement also provides for technical support and financial assistance to small and medium airports to defray the costs of enhancing security operations. On February 17, 2009, The American Recovery and Reinvestment Act of 2009 (Public Law 111-5) was enacted to assist those most impacted by the recession by creating and preserving jobs and promoting economic recovery. The funding was specified for multiple areas of national interest. The Transportation Security Administration received \$1 billion specifically for the procurement and installation of checked baggage explosives detection systems and checkpoint explosives detection equipment to accelerate the installations at locations with completed design plans.

15.19 Strengthening Communities Fund - Nonprofit Capacity Building Program

Brief Description:

- Expected Number of Awards: 34
- Estimated Total Program Funding: \$34,000,000

This funding opportunity is being made available under Section 1110 of the Social Security Act, and Title VIII of the American Recovery and Reinvestment Act (ARRA) of 2009, P.L. 111-5. The Administration for Children and Families (ACF), Office of Community Services (OCS), announces that applications will be accepted for new cooperative agreements to experienced organizations to provide nonprofit organizations serving as project partners, with capacity building training, technical assistance, and competitive financial assistance. The focus of this program is to build the capacity of funded projects' nonprofit partners in order to address the broad economic recovery issues present in their communities, including helping low-income individuals secure and retain employment, earn higher wages, obtain better-quality jobs, and gain greater access to state and Federal benefits and tax credits. Lead organizations will assist nonprofit organizations working in distressed communities with capacity building activities that support economic recovery. Specifically, lead

organizations will assist grassroots organizations working in distressed communities with capacity building activities in five critical areas: 1) organizational development, 2) program development, 3) collaboration and community engagement, 4) leadership development, and 5) evaluation of effectiveness. Capacity building activities are designed to increase an organization's sustainability and effectiveness, enhance its ability to provide social services, and create collaborations to better serve those in need. Successful applicants will be subject to reporting requirements consistent with the American Recovery and Reinvestment Act (ARRA) of 2009 Standard Terms and Conditions. In addition, successful applicants will use a quarterly performance progress report (SF- PPR) format specific to Strengthening Communities Fund (SCF) awards.

15.20 NCMHD Dissertation Research Award to Increase Diversity (R36)

Brief Description:

- Estimated Total Program Funding: \$500,000

This NIH Funding Opportunity Announcement (FOA), supported by funds provided to the NIH under the American Recovery & Reinvestment Act of 2009 (Recovery Act or ARRA), Public Law 111-5, invites applications to support qualified pre-doctoral students to pursue research careers in any area relevant to the research mission of the NCMHD (i.e., minority health and health disparities research) and simultaneously increase the diversity of this workforce. Mechanism of Support. This FOA will utilize the NIH Dissertation Research (R36) grant mechanism Funds Available and Anticipated Number of Awards. NCMHD intends to commit \$ 500,000 under this FOA. We anticipate that 3-5 awards will be made for fiscal year 20 09, pending the number and quality of applications and availability of funds.

15.21 NCMHD Community Participation in Health Disparities Intervention Research Planning Phase (R24)

Brief Description:

- Estimated Total Program Funding: \$7,000,000

The NIH has received new funds for Fiscal Years (FYs) 2009 and 2010 as part of the American Recovery and Reinvestment Act of 2009 (Recovery Act or ARRA), Public Law 111-5. This is one of a number of NIH initiatives supported by that Recovery Act funding. The NIH National Center on Minority Health and Health Disparities (NCMHD) has designated up to \$7 million for Community-Based Participatory Research (CBPR) planning grants to support community participation in health disparities intervention research.

15.22 NCMHD Exploratory Centers of Excellence (P20)

Brief Description

- Estimated Total Program Funding: \$6,000,000

The NIH has received new funds for Fiscal Years (FYs) 2009 and 2010 as part of the American Recovery & Reinvestment Act of 2009 (Recovery Act or ARRA). This is one of a number of NIH initiatives supported by that Recovery Act funding. This NIH Funding Opportunity Announcement (FOA), issued by the National Center on Minority Health and Health Disparities (NCMHD), NIH, invites grant applications from eligible institutions/organizations that propose to establish an Exploratory NCMHD Center of Excellence (COE). NCMHD COE awards provide funding for hiring staff, researchers, community members, and trainees with the goal of augmenting and expanding the capacity and infrastructure of the institution and community to engage in research improving the health of nation and for preparing the next generation of researchers. Activities should be proposed that will benefit from significant 2-year funds without the expectation of continued NIH funding beyond two years. The activities supported by these NCMHD COE grants should have high short-term impact, and a high likelihood of enabling growth and investment in biomedical research and development, public health, and health care delivery. Applications are invited from institutions seeking support to 1) establish novel partnerships for community engagement/outreach efforts to eliminate health disparities, 2) establish new or enhance current research training infrastructure and capacity, including pipeline training programs, to prepare future biomedical, biobehavioral, and clinical researchers from minority, rural or low social and low economic status populations, and 3) to hire newly-recruited faculty to develop a research project within the context of the NCMHD Centers of Excellence program. To be eligible for the COE in this FOA, applicant institutions are expected to have existing federal research support and/or research infrastructure as reflected in a level of NIH institutional funding of less than \$80 million for the year 2008. Mandatory Cores: Each NCMHD Exploratory COE (P20) must contain two cores: a mandatory Administrative Core, and one additional core selected from the following: Community Engagement/Outreach Core or Research Training/Education Core or a Research Core. If

a Research Core is proposed, a single research project must be proposed. NCMHD will only support a single research project.

15.23 Recovery Act Limited Competition: Academic Research Enhancement Award (R15)

Brief Description:

This NIH Funding Opportunity Announcement (FOA) is supported by funds provided to the NIH under the American Recovery & Reinvestment Act of 2009 (Recovery Act or ARRA), Public Law 111-5. The purpose of the Academic Research Enhancement Award (AREA) program is to stimulate research in educational institutions that provide baccalaureate or advanced degrees for a significant number of the Nation's research scientists, but that have not been major recipients of NIH support. These AREA grants create opportunities for scientists and institutions otherwise unlikely to participate extensively in NIH programs, to contribute to the Nation's biomedical and behavioral research effort. AREA grants are intended to support small-scale health-related research projects proposed by faculty members of eligible, domestic institutions. Mechanism of Support. This FOA will utilize the Academic Research Enhancement Award (AREA) R15 award mechanism. Funds Available and Anticipated Number of Awards. It is estimated that up to 50 awards will be made in FY 2010. The total amount awarded and the number of awards will depend upon the quality, duration, and costs of the applications received. Budget and Project Period. Applicants may request up to a total of \$300,000 direct costs plus applicable Facilities and Administrative (F&A)/ indirect costs. Use the modular budget for direct cost amounts up to \$250,000 and the detailed budget for direct costs amounts above \$250,000. The total project period for an application submitted in response to this funding opportunity may be up to three (3) years.

15.24 NIH Announces the Availability of Recovery Act Funds for Administrative Supplements Providing Summer Research Experiences for Students and Science Educators

Brief Description:

The National Institutes of Health (NIH) announces the opportunity for investigators and United States institutions/organizations with active NIH Research Grants to request administrative supplements for the purpose of promoting job creation, economic development, and accelerating the pace and achievement of scientific research. These supplements will also encourage students to seriously pursue research careers in the health related sciences, as well as provide elementary, middle school, and high school teachers, community college faculty, and faculty from non-research intensive institutions with short term research experiences in NIH-funded laboratories. Support for these supplements will come from funds provided to NIH through the American Recovery and Reinvestment Act of 2009 (“Recovery Act” or “ARRA”), Public Law 111-5. In addition, Recovery Act funds allocated to NIH specifically for comparative effectiveness research (CER) may be available to support supplements. Projects receiving these funds will need to meet this definition of CER: “a rigorous evaluation of the impact of different options that are available for treating a given medical condition for a particular set of patients. Such a study may compare similar treatments, such as competing drugs, or it may analyze very different approaches, such as surgery and drug therapy.” Such research may include the development and use of clinical registries, clinical data networks, and other forms of electronic health data that can be used to generate or obtain outcomes data as they apply to CER. This announcement is one of three ARRA administrative supplement/competitive revision notices issued by NIH. Approximately \$1 billion of ARRA funds will be obligated by September 30, 2010 to support requests submitted in response to these three notices or any reissuance of these notices. This administrative supplement solicitation encourages submissions in all scientific and programmatic areas funded by NIH. Support may be requested for up to 2 years for qualified grants (see eligibility section in the full announcement).

15.25 NIH Announces the Availability of Recovery Act Funds for Administrative Supplements

Brief Description:

The National Institutes of Health (NIH) announces the opportunity for investigators and United States institutions/organizations with active NIH Research Grants to request administrative supplements for the purpose accelerating the tempo of scientific research on active grants. Support for these supplements will come from funds provided to NIH through the American Recovery and Reinvestment Act of 2009 (“Recovery Act” or “ARRA”), Public Law 111-5. Consistent with the intent of the Recovery Act, the purpose of this program is to promote job creation and economic development along with accelerating the pace and achievement of scientific research. In addition, Recovery Act funds allocated to NIH specifically for comparative effectiveness research (CER) may be available to support supplements. Projects receiving these funds will need to meet this definition of CER: “a rigorous evaluation of the impact of different options that are available for treating a given medical condition for a particular set of patients. Such a study may compare similar treatments, such as competing drugs, or it may analyze very different approaches, such as surgery and drug therapy.” Such research may include the development and use of clinical registries, clinical data networks, and other forms of electronic health data that can be used to generate or obtain outcomes data as they apply to CER. This announcement is one of three ARRA administrative supplement/competitive revision notices issued by NIH. Approximately \$1 billion of ARRA funds will be obligated by September 30, 2010 to support requests submitted in response to

15.26 Recovery Act Limited Competition: Extramural Research Facilities Improvement Program (C06) Modification 3

Brief Description:

- Estimated Total Program Funding: \$300,000,000

This FOA issued by the National Center for Research Resources, National Institutes of Health, solicits applications from institutions that propose to expand, remodel, renovate, or alter biomedical or behavioral research facilities. The major objective of this FOA is to facilitate and enhance the conduct of Public Health Service-supported biomedical and behavioral research by supporting the costs of improving non-Federal basic research, clinical research, and animal facilities to meet the biomedical or behavioral research, research training, or research support needs of an institution. Since the funds for this FOA come from the American Recovery and Reinvestment Act of 2009 (the Recovery Act), Pub. L. No. 111-5, it is expected that all awards will be expended expeditiously and that applicants will consider green/sustainable technologies and design approaches. Awards are expected to create and/or maintain American jobs.

15.27 Recovery Act Limited Competition: Core Facility Renovation, Repair, and Improvement (G20)

Brief Description:

- Estimated Total Program Funding: \$300,000,000

This FOA issued by the National Center for Research Resources, National Institutes of Health, solicits applications from institutions that propose to renovate, repair, or improve core facilities. For the purpose of this FOA, a core facility is defined as a centralized shared resource that provides access to instruments or

technologies or services, as well as expert consultation to investigators supported by the core. The major objective of this FOA is to upgrade core facilities to support the conduct of PHS supported biomedical and/or behavioral research. Support can be requested to alter and renovate (A&R) the core facility as well as to improve the general equipment in the core facility or to purchase general equipment for specialized groups of researchers. Specialized equipment over \$100,000 in cost cannot be requested as part of this FOA. In situations when similar core facilities exist in different departments at an institution, funding can be requested in support of centralizing these core facilities. This FOA is issued under the American Recovery and Reinvestment Act of 2009 (Recovery Act), Pub. L. No. 111-5. It is expected that all awards will be expended expeditiously and that applicants will consider the use of green technologies and design approaches. Awards are expected to create and/or maintain American jobs.

15.28 The American Recovery and Reinvestment Act of 2009 - Early Head Start Expansion

Brief Description:

- Expected Number of Awards: 600
- Estimated Total Program Funding: \$619,000,000

This grant opportunity is being made available under the American Recovery and Reinvestment Act of 2009 (P.L. 111-5). Funding will support an increase in the enrollment of additional children as well as create new teaching and other positions within Early Head Start programs. The Administration for Children and Families (ACF), Office of Head Start (OHS) solicits applications from public or private non-profit organizations, including faith-based organizations or for-profit organizations, that wish to compete for funds, including training and technical assistance funds that are available to provide Early Head Start services to pregnant women, infants and toddlers and their families. Financial assistance will be competitively awarded to public and non-profit and for-profit private entities, including Early Head Start and Head Start grantees, to provide child and family development services for low-income families with infants and toddlers ages birth to three years and pregnant women who are not currently being served by a Head Start or Early Head Start program. The first Early Head Start programs were funded to provide early, continuous, intensive and comprehensive child development and family support services. The purpose of the Early Head Start program is to enhance children's physical, social, emotional, and intellectual development; to provide support, direct services, and referrals to pregnant women; to support parents' efforts to fulfill their parental roles; and to help parents move toward self-sufficiency. Successful applicants will be subject to reporting requirements consistent with the Act and with current Head Start regulations. All interested applicants can access information that will inform the design of quality Early Head Start programs that meet the requirements of the Head Start Program Performance Standards and other regulations and the Head Start Act on the Early Childhood Learning and Knowledge Center (<http://eclkc.ohs.acf.hhs.gov>).

16.1 Native American Housing Block Grant Program under the American Recovery & Reinvestment Act 2009

Brief Description

- Estimated Total Program Funding: \$242,250,000

The Native American Housing Block Grant program, authorized by the Native American Housing Assistance and Self-Determination Act of 1996 (“NAHASDA”) assists tribes in developing, operating, maintaining, and supporting affordable housing for rental and homeownership housing. Funds can be used for acquisition, new construction, rehabilitation of affordable housing, site improvement, development and rehabilitation of utilities and infrastructure, utility services, conversion, demolition, financing, administration and planning, improvement to achieve greater energy efficiency, mold remediation, investments that leverage private sector funding or financing for renovations, and energy conservation retrofit investments.

16.2 Native American Housing Block Grant Program under Recovery Act

Brief Description

- Estimated Total Program Funding: \$10,000,000
- Award Ceiling: \$600,000

The Indian Community Development Block Grant (ICDBG) is funded through a set-aside of the Community Development Block Grant formula in title 1 of the Housing and Community Development Act of 1974. Indian tribes and Alaska Native villages may use block grants to improve housing stock, provide community facilities, make infrastructure improvements, and expand job opportunities by supporting the economic development of their communities. Activities which are eligible for funding include housing construction, rehabilitation, acquisition of land for housing, direct assistance to facilitate homeownership among low-and moderate-income persons, construction of tribal and other facilities for single or multi-use, streets and other public facilities, and economic development projects.

16.3 Neighborhood Stabilization Program 2

Brief Description:

Recipients will use the funds awarded under this notice to stabilize neighborhoods whose viability has been and continues to be damaged by the economic effects of properties that have been foreclosed upon and abandoned. In 2008, Congress appropriated funds for neighborhood stabilization under HERA. In 2009, Congress appropriated additional neighborhood stabilization funds, which are the subject of this notice. When referring to a provision of the second appropriations statute, this notice will refer to the Recovery Act; when referring to the first appropriations statute, HERA; when referring to the grants, recipients, assisted activities, and implementation rules under the Recovery Act, this notice will use the term "NSP2". When referring to the

grants, recipients, assisted activities, and implementation rules under HERA, this notice will use the term "NSP" or "NSP1" or "NSP2" is a component of the Community Development Block Grant (CDBG) program (authorized under Public the Housing and Community Development Act of 1974, 42 U.S.C. 5301 et seq. (HCD Act)). NSP2 funds will be awarded through competitions whose eligible applicants include states, units of general local government, nonprofits, and consortia of nonprofits. Any applicant may apply with a for-profit entity as its partner. There will be two competitions. Under the program round in this notice, applicants will compete for up to \$1.93 billion of NSP2 funds to carry out neighborhood stabilization programs. Under the technical assistance round in a separate notice, applicants will compete for no more than \$50 million of NSP2 funds to provide technical assistance, to include capacity building of local communities receiving NSP1 or any entity receiving NSP2 funding to carry out neighborhood stabilization. Except as described in this notice, NSP2 funds are governed by published NSP requirements in the Program Requirements Appendix (Appendix 1) to this notice. If selected, applicants under NSP2 must be able to meet those program requirements in operating their NSP2 programs.

16.4 Neighborhood Stabilization Program

Brief Description:

- Estimated Total Program Funding: \$1,980,000,000

Neighborhood Stabilization Program (NSP), round 2. Competitive grants awarded for activities eligible under division B, title III of the Housing and Economic Recovery Act of 2008 (Public Law 110-289, NSP round 1), to address home foreclosure and abandonment and for the provision of capacity building and support for NSP grantees. For programmatic funding, rating factors will include grantee capacity to execute projects, leveraging potential, and concentration of investment to achieve neighborhood stabilization. HUD must issue a NOFA with application requirements no later than May 3, 2009. Grantees will prepare an application and complete citizen participation before submitting to HUD. Applications will be due to HUD not later than 150 days after enactment. HUD will review applications and make awards shortly thereafter. Grantees must expend at least 50 percent of each grant within 2 years and 100 percent within 3 years of grant award. HUD may also utilize a portion of available funding for a competitive technical assistance program to assist NSP grantees.

16.5 Assisted Housing Stability and Energy and Green Retrofit

Brief Description:

- Estimated Total Program Funding: \$250,000,000

Grants and loans will be made available through HUD's Office of Affordable Housing Preservation (OAHP) for eligible property owners to make energy and green retrofit investments in the property, to ensure the maintenance and preservation of the property, the continued operation and maintenance of energy efficiency technologies, and the timely expenditure of funds. Physical and financial analyses of the properties will be conducted to determine the size of each grant and loan. Incentives will be made available to participating owners. The terms of the grants or loans will include continued affordability agreements. Grant and loan funds must be spent by the receiving property owner within two years. Full detail of how to apply, and grant and loan terms, will be published in a Housing Notice within 60 days of the Recovery Act being signed into law.

16.6 Public Housing Capital Fund

Brief Description:

- Expected Number of Awards: 5000
- Estimated Total Program Funding: \$995,000,000

To provide funds for the capital and management activities of Public Housing Agencies as authorized under section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) (the "Act"), with the exception that funds cannot be used for operations or rental assistance. The funds shall be awarded by competition for priority investments, including investments that leverage private sector funding or financing for renovations and energy conservation. Funds shall be obligated through competitive funding by September 30, 2009. Public housing authorities shall give priority to capital projects that can award contracts based on bids within 120 days from the date the funds are made available to the public housing authorities. Public housing agencies shall prioritize capital projects that are already underway or included in the 5-year capital fund plans required by the Act (42 U.S.C. 1437c-1(a)). Funds provided under this heading shall serve to supplement and not supplant expenditures from other Federal, State, or local sources or funds independently generated by the grantees. Notwithstanding section 9(j), public housing agencies shall obligate 100 percent of the funds within 1 year of the date on which funds become available to the agency for obligation, shall expend at least 60 percent of funds within 2 years of the date on which funds become available to the agency for obligation, and shall expend 100 percent of the funds within 3 years of such date. Milestones in the award process include the publication of the competitive Notice of Funding Availability (NOFA), the approval by HUD of applications, the signing by the public housing authority of a Capital Fund Program Amendment to the Consolidated Annual Contributions Contract (ACC) for selected applicants, the execution by of the ACC by the HUD Field Office, and the spreading of funds awarded in HUD's Line of Credit Control System (LOCCS).

16.7 Native American Housing Block Grants

Brief Description:

- Estimated Total Program Funding: \$242,500,000

The Native American Housing Block Grant program, authorized by the Native American Housing Assistance and Self-Determination Act of 1996 (“NAHASDA”) assists tribes in developing, operating, maintaining, and supporting affordable housing for rental and homeownership housing. Funds can be used for acquisition, new construction, rehabilitation of affordable housing, site improvement, development and rehabilitation of utilities and infrastructure, utility services, conversion, demolition, financing, administration and planning, improvement to achieve greater energy efficiency, mold remediation, investments that leverage private sector funding or financing for renovations, and energy conservation retrofit investments. Funds will be obligated through competitive funding by September 30, 2009. Priority will be given to projects that will spur construction and rehabilitation and will create employment opportunities for low-income and unemployed persons.

Tribes/tribally designated housing authorities (TDHE) will be required to obligate 100 percent of their funds within 1 year of the date funds are made available, expend at least 50 percent of such funds within 2 years of the date in which funds became available, and expend 100 percent of such funds within 3 years of such date. If a tribe/TDHE fails to comply with the 2 year expenditure requirement, the funds will be recaptured and reallocated by formula to tribes that have complied with this requirement. If a tribe/TDHE fails to comply with the 3 year expenditure requirement, the balance of the funds originally awarded to the tribe/TDHE will be recaptured. Milestones in the award process include the publication of a Notice of Funding Availability (NOFA), submission of an application by the tribe/TDHE, review of the application by HUD, and execution of a Funding Approval/Agreement by the tribe/TDHE. In compliance with the Recovery Act, the funds will be obligated by September 30, 2009.

29.1 Recovery Act - 2008 Aquaculture Grant Program

Brief Description:

- Estimated Total Program Funding: \$50,000,000

U.S. Department of Agriculture (USDA), Commodity Credit Corporation (CCC) is announcing the availability of funding under the American Recovery and Reinvestment Act of 2009 (Recovery Act). The Recovery Act authorizes \$50 million of CCC funds for grants to States that agree to provide assistance to eligible aquaculture producers for losses associated with high feed input costs during the 2008 calendar year. Under a forthcoming federal funding opportunity (FFO) announcement, the Recovery Act – 2008 Aquaculture Grant Program will solicit applications for grant funding. CCC will not accept applications until the FFO is published. The FFO will be posted on www.grants.gov as soon as it is available. Eligible applicants are limited to State Departments of Agriculture or similar state government entities in each State. Under the forthcoming FFO, grants to States will be made on a pro rata basis based on the amount of aquaculture feed used in each State during the 2007 calendar year, as determined by CCC. Subject to the availability of funding, CCC anticipates awarding \$50 million to States by July 2009. For additional information on the Recovery Act – 2008 Aquaculture Grant Program, please visit the USDA Recovery Act web site at www.usda.gov/recovery This synopsis will be modified when the full announcement is posted.

29.2 Recovery Act New SAM and EBT Grant

Brief Description:

U.S. Department of Agriculture, Food and Nutrition Service is announcing the availability of funding under the American Recovery and Reinvestment Act of 2009 (Recovery Act). The ARRA provides a total of \$100 million to be used by WIC State agencies to establish, improve or administer management information systems (MIS) for WIC, to include changes necessary to meet new legislative or regulatory requirements. In this funding opportunity we will provide ARRA funding to new projects for: 1) implementation of new State Agency Model (SAM) transfers; 2) new EBT planning grants; and 3) new EBT implementation grants for those WIC State agencies that have completed or nearly completed EBT planning activities. For new SAM transfers, State agencies will need to demonstrate, through their planning activities and an alternatives analysis, that a SAM transfer is the most appropriate system that meets Program needs. FNS has a waiver from OMB and will not be using Grants.gov APPLY to notify or receive applications for this grant opportunity. FNS will contact each State Agency, in writing, concerning application procedures in the near future.

29.3 Recovery Act Other WIC/MIS Projects

Brief Description:

U.S. Department of Agriculture, Food and Nutrition Service is announcing the availability of funding under the American Recovery and Reinvestment Act of 2009 (Recovery Act). The ARRA provides a total of \$100 million to be used by WIC State agencies to establish, improve or administer management information systems (MIS) for WIC, to include changes necessary to meet new legislative or regulatory requirements. In this funding opportunity we will provide ARRA funding for other WIC/MIS projects that may include, in priority order, but are not necessarily limited to:

- MIS enhancements/software changes for implementation of the new food package requirements, to include monthly reporting changes;
- MIS modifications to incorporate EBT readiness functionality and UPC database usage;
- Planning costs to assess new MIS needs, conduct alternatives analysis, etc.
- New MIS development/transfers that are outside the SAM project
- FY 2009 technology equipment purchases as outlined in the State agency's approved hardware replacement plan (FY 2010 hardware replacement needs may also be funded, but at a lower priority);
- Upgrades to technology such as conversion of current system to a web-based system, improving bandwidth or other data transmission lines, etc.;
- MIS modifications and enhancements needed to comply with Program requirements and/or improve Program management and reporting capabilities (examples include Value Enhanced Nutrition Assessment (VENA), improved vendor compliance and review reporting systems, upgrades to funding and participation reporting and forecasting tools, etc.);
- Other MIS modifications that improve communication and access to services (examples include automated participant reminder systems, video conferencing, geographic information systems, interactive training equipment, voicemail systems, etc.);
- Projects that impact multiple State agencies that can take advantage of joint procurement strategies and economies of scale; and
- Other information technology (IT) investments that improve infrastructure, promote efficiencies at the clinic and State level, reporting enhancements, and projects that support WIC's overall technology plan.

FNS has a waiver from OMB and will not be using Grants.gov APPLY to notify or receive applications for this grant opportunity. FNS will contact each State Agency, in writing, concerning application procedures in the near future.
