White Paper – ARRA 09 Air Guard Operation and Maintenance

This paper provides information about Air National Guard (ANG) Operation and Maintenance (O&M) funding as it relates to the American Recovery and Reinvestment Act of 2009 (ARRA), the State of Wyoming and the Wyoming National Guard.

ANG O&M funds under this Act are designated to improve, repair and modernize Department of Defense (DOD) facilities, restore and modernize real property to include barracks and invest in the energy efficiency of DOD facilities. These are federal funds allocated to the Department of Defense (DOD). The National Guard Bureau (NGB) through the Director of the ANG (DANG) manages the funds for DOD and executes the funds through the office of the United States Property and Fiscal Officer (USPFO) of each of the respective states, territories and the District of Columbia.

The ARRA includes \$25,848,000 for ANG O&M projects. These funds will remain available until September 30, 2010.

The DANG strategy is to distribute these funds based upon the current ANG O&M funding plan. This will result in the WY ANG not receiving any direct funding as a result of the ARRA; however, and as with MILCON, this will move Wyoming projects up in the plan and may increase O&M funding as early as October 1, 2009 or not later than October 1, 2010.
