1. Reference is made to the 23 Feb 87 phone conversation between your Ms. Wanda Martinez and Mr. Vann Stutts of Projects Engineering Section concerning the subject aerial photography negatives.
2. The aerial photography was flown by UAM on 24 Oct 82. We are interested in obtaining the continuous tone photo negative which cover the area from the lakefront south to the pumping stations on both London and 17th St. Outfall Canals. I understand that the above coverage is contained on Role 8 of the UAM flight. If you are unable to obtain the full size negative for this work, then it is requested that you provide the photo prints so that new negatives can be made.
3. Your expedition handling of this request is appreciated. The above described negatives are needed ASAP but should be provided NLT COB 2 March 87.
