In 2004, the Appellate Section of the State Bar of Texas and the Courts of Appeals worked together to identify key information needed by appellate attorneys and pro se litigants to practice effectively before the court. To assist the court in this effort, the Appellate Section collected and formatted the relevant information and published it in the Appellate Advocate in February 2005. This information was updated in March 2007 and the court intends to keep the information current for the use of persons with matters before the court.
