APPENDIX B

Footnotes

Footnote

Detail

36 Civil penalty - \$100-\$500 for each violation, administrative penalty - may not exceed \$1,000 for each violation, each day of a continuing violation constitutes a separate violation

37 Civil penalty - \$100-\$500 for each violation, administrative penalty - may not exceed \$1,000 for each violation, each day of a continuing violation constitutes a separate violation

38 Civil penalty - \$500 for each violation, each day of a continuing violation constitutes a separate ground for recovery; administrative penalty - \$1,000 - \$5,000

39 Equal to 1.5 times the renewal fee or \$1,312.50 for each parent and branch.

40 \$15 Certification fee / \$5 duplicate fee.

40a SBEC is not automatically appropriated 100 percent of collected revenue. In FY 2005, it had a sum certain appropriation of about \$19 million (including supplemental funds in HB 10). So while they may well have collected fee revenue in excess of their estimates - it was not appropriated to the agency.

41 All fees collected are deposited into funds 960, 864, and 855 which are trust funds.

42 Number of individuals/groups assessed range from 9,251 to 9,268 per month.

42a Fees assessed for the use of a credit, charge, or debit card to pay fees and penalties.

42b Violations punishable by fines of NLT \$300 or more than \$500 if vehicle gross weight more than 5,000 pounds and not more than 10,000 pounds; or NLT \$500 or more than \$1,000 if vehicle gross weight is 10,000 pounds or more over allowable gross weight. For fines beginning at \$300, an amount equal to 50 percent of the fine to General Revenue Fund (No. 0001) and 50 percent to municipal or county treasury unless the offense occurred within 20 miles of an international border, in which event the entire amount deposited in municipal or county treasury for road maintenance

42c Each fiscal year, a municipality may retain from fines collected for violation of any highway law set forth in this Act, an amount equal to 30 percent of their revenue for the preceding fiscal year from all sources other than federal funds and bond proceeds, as shown by audit performed under Section 103.001, Local Government Code. After municipality has retained that amount, they shall send to the treasury any portion of a fine collected that exceeds \$1.

42d Fines from Municipal enforcement related to commercial motor vehicle safety standards violations may be retained by a municipality in an amount NTE 110 percent of actual expenses for enforcement during the preceding year, as determined by the Comptroller after review of the municipal audit. Fines that exceed this limit are sent to the treasury

42e Various rates on each delivery based on cargo tank capacity, ranging from \$10 for tanks less than 2,500 gallons to \$40 for tanks between 8,000 and 10,000 gallons, plus additional charges for tanks over 10,000 gallons. The fee will no longer be collected after fiscal 2007.

Footnote**Detail**

- 42f Of each administrative fee on loans collected by a financial institution, a fee of \$1.00 for non-real property loans and \$0.50 for secondary mortgage loan;

- (2) 1.5 cents per one-half standard box, or other container that is one-half the size of a standard container, that is sold, transported, or delivered for transportation; or
- (3) 2.5 cents per 80-pound lot, or portion of an 80-pound lot, that is sold, or transported in bulk.

66 Private-Purpose Trust Funds which are outside of the appropriation process.

67 Late Fees vary by applicable fee being assessed.

Footnote

Detail

68 In some cases, the "amount assessed" is satisfied by non-cash equivalents, such as the completion of continuing education to prevent future violations. The "Total Amount Collected in FY 2005" does not reflect the satisfaction of penalties through non-cash equivalents. In addition, it does not reflect the collection of penalties that will be paid through payment agreements extending into FY 06.

69 Cash collections upon closing during FY 05 are shown in survey. Amounts in financial reports are shown as earned based on relevant work performed, and so will differ.

70 Such fees shall not exceed 1% of the value placed upon the water right or right to use water by the depositor upon deposit into the bank, and 1% of the value of the water right or right to use water transferred while on deposit in the water bank.

71 Collected by the Texas Department of Public Safety.

72 Collected by the Texas Comptroller of Public Accounts.

73 The assessed amount is not adjusted for refunds, debits, or credits.

74 Many of these fees are for occupational licenses with 2 or 3 year terms, and many of the license holders are paying \$35 annually rather than \$70 every 2 years or \$105 every three years.

75 Some assessments are for multiple letters at \$75 each.

76 Air emissions upset & maintenance fees are not assessed separately but rather are included in the air emissions assessment and segregated at a later date. Therefore both amounts collected should be compared jointly with the amount assessed.

77 Fees with +# is to be interpreted as the additional \$ amount for each additional day assessed.

78 **Private Educational Institution Fees**

The General Appropriations Act (H.B. No. 1, 78th Legislature, Regular Session, for the FY 2004-05 biennium) includes in Article VII for the Texas Workforce Commission the FY 2005 appropriation of \$854,338 of Proprietary School Fees, and amounts for employee fringe benefits (i.e., appropriations for Retirement and Group Insurance to the Employees Retirement System and for Social Security and Benefit Replacement Pay to the Comptroller of Public Accounts). Education Code §132.221(a) and (b) provide that the cost of administration of the Career Schools or College chapter (i.e., Education Code, Chapter 132) shall be included in the appropriation for the Texas Workforce Commission, and that fees collected by the commission shall be used to help defray the cost and expense of administering the Career Schools or College chapter. Education Code §132.2415(c) provides that if, at the end of a fiscal year, the commission determines that the commission has collected Career Schools or College fees "...in excess of the amount necessary to defray the expenses of administering..." the Career Schools or College chapter, the commission may transfer any portion of the "excess amount" to the Career School or College Tuition Trust Account. Such transfer for FY 2004 (executed on August 31, 2004) was \$644,042. Within the limitations of Subchapter I (Protection of Tuition) there may be a transfer for FY 2005 which may not exceed the difference between the total amount collected in FY 2004 and the cost of administering the Career Schools or College chapter.

79 **3723 – Fees for Examination & Audits**

The rate per day or hour for an examiner's service, and should be computed on the basis of working time in the month. Divide the number of working days (or hours) in the month into the examiner's gross salary. Subsistence charge is computed on per diem as charged on an expense account. The traveling expense charge is computed on travel at regular mileage allowance. Other charges may be assessed on a case by case basis. Examples include subpoena fees if the employer continually refuses to submit reports or produce records, or those expenses allowed on Form F-5. Expenses should be prorated to insure that an equitable portion of expenses is charged to the employer. Additional incidental expenses on the same trip should not be charged.

80 **Unemployment Compensation Penalties**

Footnote

Detail

The General Appropriations Act (H.B. No. 1, 78th Legislature, Regular Session, for the FY 2004-05 biennium) includes in Article VII for the Texas Workforce Commission the FY 2005 appropriation of \$5,200,498 of GR Dedicated-- Unemployment Compensation Special Administration Account No. 165, and amounts for employee fringe benefits (i.e., \$2,505,627 as appropriations for Retirement and Group Insurance to the Employees Retirement System and \$1,528,316 as appropriations for Social Security and Benefit Replacement Pay to the Comptroller of Public Accounts. Additionally, the General Appropriations Act includes in Article VII for Reimbursements to the Unemployment Compensation Benefit Account the FY 2005 appropriation of \$4,929,661 of GR Dedicated-- Unemployment Compensation Special Administration Account No. 165 for unemployment compensation benefits paid to former employees of the State of Texas.

81 **3770 – Child Labor Admin Penalties**

§ 51.033. ADMINISTRATIVE PENALTY.

- (a) If the commission determines that a person who employs a child has violated this chapter or a rule adopted under this chapter, the commission may assess an administrative penalty against that person as provided by this section.
- (b) The penalty for a violation may be in an amount not to exceed \$10,000.
- (c) The amount of the penalty shall be based on: (1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of any prohibited acts; (2) the history of previous violations; (3) the amount necessary to deter future violations; (4) efforts to correct the violation; and (5) any other matter that justice may require.
- (d) If, after examination of a possible violation and the facts relating to that possible violation, the commission determines that a violation has occurred, the commission shall issue a preliminary determination that states the facts on which the determination is based, the fact that an administrative penalty is to be imposed, and the amount of the penalty.

82 **Labor Law Judgments and Settlements**

Labor Code §61.063 and §61.064 provide that following a commission order becoming final, a party required to pay wages must pay that amount to the commission. If, after judicial review, it is determined that some or all of these wages are not owed, then the commission shall remit that amount to the paying party, plus interest accrued. After a claim is adjudicated or otherwise resolved, then the commission shall pay the claimant the wages collected plus any interest earned.

83 The total amount collected in FY 2005 may not match the amount assessed in FY 2005 due to collections received from prior fiscal years. In addition, amounts portrayed are derived from TxDOT internal systems and in many cases may not reconcile to amounts in the Uniform Statewide Accounting System (USAS). This is primarily due to timing differences between internal systems and USAS (ex. Vehicle Registration, is collected at the county and immediately posted in the Registration and Titling System (RTS), however, a county may hold the state portion for up to 60 days before remitting to be processed in USAS).

84 In some cases, TxDOT's internal systems do not capture data by the fee classifications as they are listed in statute. For those instances, transaction and revenue estimates were developed based on a percentage of transaction volume and amount collected.

- 151 1/10 of 1% of the aggregate amount of securities described as being offered for sale, but in no case more than \$500
- 152 From 1/2 up to total amount of original application fee and required renewal fee
- 153 TexasOnline Subscription fees not included.

Footnote

Detail

- 154 Subscription fees on renewals for dentists, dental hygienists, dental faculty and dental hygiene faculty doubled in January, 2005.
- 155 Renewal fees: 90 days or less- 1 1/2 times the normal renewal fee. More than 90 days but less than 1 year, 2 times the normal renewal fee. One year or more- may not renew, must reapply.
- 156 Renewal fees: 90 days or less- 1/2 of the renewal fee. More than 90 days but less than 1 year- 1 time the initial registration fee. One year or more- may not renew, must reapply.
- 157 Fee is based on asset size.
- 158 Per TIC Article 1.16 reimbursement based on expenses attributable to a specific examination including employees' salaries and expenses
- 159 Fee is based on purchase price. \$500 fee for first \$9,900,000 plus \$250 per each \$10 million, capped at \$5,000
- 160 \$150 or \$75 if annual gross premium receipts were less than \$450,000
- 161 \$250 or \$125 if annual gross premium receipts were less than \$450,000
- 162 Amount is dependent on what is charged in other states
- 163 The fee for a HMO form filing submitted requiring approval will be \$100. The fee for a HMO filing submitted that is exempt from approval is charged \$50. The rates are set by rule in the Texas Administrative Code
- 164 The fee for a Life/Accident form filing submitted requiring approval will be \$100. The fee for a Life/Accident form filing submitted that is exempt from approval is charged \$50. The rates are set by rule in the Texas Administrative Code
- 165 Amount is based on the following calculation: examination fund balance + expected examination reimbursement fee revenue - examination function obligations. Rates are then set to recover the amount needed based on estimated admitted assets and gross premium receipts for domestic insurance companies
- 166 Amount is based on the following calculation: premium finance fund balance + expected premium finance fee revenue - premium finance function obligations. Rates are then set to recover the amount needed based on estimated loan dollar volume for premium finance companies
- 167 Various amounts as dictated by TIC § 202.051 and 28 TAC 7.1301
- 168 Registration fee set to recoup costs associated with seminar
- 169 The Commissioner may direct the holder of the authorization to pay an administrative penalty under Chapter 84. The penalty for one violation may not exceed \$25,000, unless a greater or lesser penalty is specified by the TIC or another insurance law of this state. The amount of the penalty is based on several factors; e.g., the seriousness of the violation, the hazard or potential hazard created to the welfare of the public, the economic harm to the public, the history of previous violations, etc.
- 170 Amounts paid are determined by the court

Footnote

Detail

- 171 Amount is Federal salaries paid times the indirect cost rate. Indirect cost rate changes annually.
- 172 Amounts submitted in not based on a fee amount. The amount submitted is recorded as revenue.
- 173 Amounts will be based on the amount of warrants that expire due to the statute of limitations
- 174 Income from the Catastrophe Reserve Trust fund of not less than \$1 million and not more than ten percent of the investment income
- 175 Based on charges established by the State Building & Procurement Commission. Charges primarily consist of copy charges of \$.10/page, programming personnel - \$28.50/hour, other personnel - \$15.00/hour
- 176 The amount is to reimburse the state for the actual expense of printing the publication or printed matter
- 177 Net proceeds of property sold
- 178 The fees shall be in amounts sufficient to cover but not exceed the costs of rehabilitating an entity
- 179 Reimbursement based on costs salaries and fringe benefits paid for the Liquidation Allocated function
- 180 Reimbursement based on costs paid for the Title Allocated function

- 194 Liability funds kept in deferred account until invoice is received from insurance company for payment.
- 195 Maximum of \$158 per semester.
- 196 The exact date is not accessible, however the rates have been the same since before 1998.
- 197 The total amount collected does not equal the amount remitted to the State. Before being remitted to the State, the TPEG set-aside is taken out of the amount collected.
- 198 Students who were enrolled prior to summer 2002 are only assessed \$6 per semester credit hour.
- 199 Student who were enrolled prior to summer 2002 are only assessed \$12.50 per semester credit hour.
- 200 Assessed to undergraduate students only.
- 201 Assessed to students taking courses using distance ed resources.
- 202 Assessed to international students only.
- 203 Legislative Maximum Allowed- At least equal to but no more than twice the following maximum rates. Resident: \$48 per semester credit hour; Non-Resident: \$306 per semester credit hour.
- 204 Designated Tuition: \$46 per semester credit hour, \$828 Fall/Spring Max, \$552 Summer Max.
- 205 Computer Access Fee: \$7.50 per semester credit hour, \$135 Fall/Spring Max, \$90 Summer Max.
- 206 Collected to cover cost of Student Services: \$21.25 per semester credit hour, \$250 Fall/Spring Max, \$250 Summer Max.
- 207 Student Center Fee: \$3 per semester credit hour, \$36 Fall/Spring max, \$18 Summer max.

Footnote

Detail

- 208 This fee is assessed against certain enrolled students, based on their enrollment status.
- 209 This fee is assessed against certain enrolled students based on enrollment status, and certain agency employees based on optional participation.
- 210 See AFR Schedule B-2. Not on C-1-DET because amount is transferred to TAMU College Station.
- 211 Number of individuals or groups assessed are shown per week.
- 212 Minimum tuition for resident of Texas \$120. Tuition per credit hour for Resident of Texas \$30.
- 213 Minimum tuition for non-resident of Texas \$300. Tuition per credit hour for Non-Resident of Texas \$60.
- 214 Student service fee minimum \$10 for up to 8 credit hours. \$15 for 9+ credit hours.
- 215 Building use fee is \$12 per credit hour.
- 216 Workforce development tuition is calculated by multiplying teacher's salary X number of hours instruction X 30% overhead for a minimum of 6 students.
- 217 Lifetime learning tuition is calculated by multiplying teacher's salary X number of hours instruction X 30% overhead by 6 minimum students.
- 218 Duplicated fee reported both by agency and Comptroller of Public Accounts.

Agency

Comments

ARTICLE I: GENERAL GOVERNMENT

303	Tx Building and Procurement Commission	The Training and Certification Program makes the following efforts to collect money owed on outstanding balances. 30 Days after class completion, students who have not paid are sent a "Payment Reminder" email. If we do not receive payment after 60 days students are emailed a 2nd reminder email with the fiscal person cc'd if we have their information. If we do not receive payment after 90 days, we contact the agency via phone and try to find someone to help us secure payment.
306	Tx State Library and Archives Commission	In addition to the usual invoice showing current and past amounts due, we also send a reminder letter to any state agency or local government any party of whose invoice is more than 90 days past due. We do this until any part of an invoice amount is more than 180 days past due. At that point we call the agency or local government records management officer and, working through them, attempt to get the past due amounts paid. If that does not work we make personal contact with the government's chief fiscal officer. In rare cases, we contact the head of the agency or local government. We have only been able to not collect in 3 or 4 instances over the last four years, and these cases involved abolished state agencies or defunct private organizations. The amounts in question cumulatively totaled less than \$2000.
327	Employees Retirement System	For Social Security Program and Original 457 Plan vendors, the collection process is as followed: A second notice is sent 60 days after the original invoice was sent. The notice informs the entity that non payment would result in notifying the Comptroller of Public Accounts, which will further result in barring the Comptroller in issuing warrants or transfers of electronic funds to that entity as long as the debt remains delinquent. If further assistance would be necessary, the Attorney General's Office would be contacted for collection.
356	Tx Ethics Commission	<p><u>Requests for information:</u> First, a reminder letter is sent to the requestor. If payment is still not received, a letter is sent to the requestor indicating that no further requests will be filled until the balance due is paid. These amounts are very small as we request partial payment in advance on larger requests. The collection rate for requests for information is very high.</p> <p><u>Late fines:</u> If a report is due and either not filed or filed late, a letter is sent to the filer notifying them that a late penalty has been assessed. This letter is sent 15 days after the deadline. When payment is received, the collection process stops. If we receive an affidavit raising a defense as to the lateness, the account is placed on hold until validation is made regarding the defense. First, the commission staff determines whether it has the authority to administratively waive the fine. If staff does not have that authority then the defense is presented to the commission. If the fine is waived, the collection process ends. If the defense is rejected, the filer has 30 days to pay the fine before being referred to the Office of the Attorney General for collection. If we don't hear from the filer within 15 days (from the date of the last letter), another late letter goes out informing the filer that he is being referred to the Office of the Attorney General for collection. If we receive an affidavit of defense after the filer receives the second late letter, the account is placed on hold until a determination is made whether to waive the fine or to present the filer's defense before the commissioners.</p> <p>If the fine is waived, the collection process ends. If the defense is rejected, the filer has 30 days to pay the fine. If we haven't heard from the filer after sending the 1st and 2nd late letters, the filer will be sent to the Office of the Attorney General for collection. An affidavit of defense, or a request for reconsideration of a determination by the commission, can be received at any time and will be considered unless the Office of the Attorney General has begun litigation proceedings. Of the 629 fines assessed in FY '05, 328 had been paid to the Commission as a result of our collection efforts and 195 had been referred to the Office of the Attorney General for collection as of 8/31/05. Of those 195 referred to the Attorney general, 32 had been paid as of 8/31/05.</p>

ARTICLE II: HEALTH & HUMAN SERVICES

537 Tx Department of State Health Services

Administrative Penalties (AP) that have not been collected is due to one of the two following scenarios: 1) The licensee has defaulted and have not paid as agreed or ordered; or 2) The licensee has agreed to a monthly payment plan. As such APs are not paid in full until 12 months or more after the Agreed Order was signed assessing the AP. In the case where the Licensee has failed to timely respond or pay administrative penalties proposed in the Notice of Violation (NOV) or assessed in an Agreed Order, one or more of the following actions are taken: 1) A Demand Letter or Default Order is issued; 2) The Department may propose to revoke or refuse to renew a license; and/or 3) Refer to the Office of Attorney General (OAG) for collection.

ARTICLE III: HIGHER EDUCATION

738 University of Texas at Dallas

We are utilizing two new Internet skip tracing tools to locate students with outstanding balances. The first tool Metronet, an Experian product, has been in production since fall of 2004. The second tool, Public Data.com, went into production October of 2005. The students often move and change their location, therefore these tools will assist us in contacting students who maybe unaware of their balances. These products will also assist us with the due diligence process ensuring that those students who choose to ignore balances are notified of the consequences. Additional collection efforts include a dedicated Tuition and Fee Collections Counselor who contacts students personally, through letters/emails, final demand letters; after which, the unpaid balances are turned over to outside collection agencies. The additional personnel was added to our collections efforts October of 2005. The ultimate goal of our collection efforts is to contact each account personally with the smaller accounts being contacted through skip tracing and letters. All accounts which do not set up a repayment schedule will be forwarded to outside collection agencies for the final stage of the collections effort. If the agencies are unsuccessful the accounts are sent to The Office of General Counsel for legal action. With a concerted collection effort utilizing the latest collection tools, a more focused internal collections effort, additional collections personnel, and the use of outside collection agencies; the collections department will be able to maximize collections while ensuring full circle collections efforts have been completed.

743 University of Texas at San Antonio

Place "Holds" on students transcripts, Mail out 3 reminder letters prior to collection process, Place "Hold" with a collection agency, Report to credit bureaus, Place a "Hold" with the State of Texas Comptroller. Accounts receivables balances are written off after one year and emergency loans are written off after two years.

750 University of Texas at Tyler

Student debts such as installments and emergency loans are sent to a collection agency once the following letters have been sent in an attempt to collect the debt: 1. Reminder letter of the debt prior to it being due. 2. Past due letter sent after the payment has been missed. 3. Collection letter sent saying the debtor has 30 days to make arrangements or the debt will be sent to a collection agency. Interest is accrued on emergency loans but we will waive those fees to get the debt paid in full. A minimal late fee is charged on the two installment payments if they are missed. We allow a student with a past due debt to reenroll if they pay half of the old debt and make payment arrangements for the remaining balance. We also allow a student to reenroll if they have already been approved for financial aid for the upcoming semester and it is enough to cover the current tuition and fees and the past due debt.

Agency

Comments

744	University of Texas Health Science Center at Houston	Student accounts that remain unpaid have blocks placed on their records prior to the end of the academic term. Students with holds are not allowed to register until the account is cleared. Students who received financial Aid via loans are processed through the Loan Collections Department. The Due Diligence process begins with notifications sent out 15 & 30 days after an account is delinquent. Accounts that remain delinquent after multiple letters and courtesy phone call are turned over to a commercial collection agency for minimum of 1 year. Accounts that remain delinquent and are returned from the collection agency and turned over to the Office of General Counsel for further collection attempts. Accounts that remain uncollected after OGC processing are submitted for writte off to either the ferderal agency or institutional director. The UTHSC-Houston remains in compliance with the federal standard of less than a 5 % default rate.
729	University of Texas Southwestern Medical Center at Dallas	UT Southwestern Medical Center makes every effort to work with students regarding the timely payment of tuition and fees. If a student is delinquent in paying, the Legal Department at UTSW is contacted and provided with the information. In addition, paperwork is submitted to place the student on warrant hold in the Comptroller's Warrant Hold system. Only 1 Allied Health student was delinquent with past due payments at the end of FY05 for a total of \$204.00.
723	University of Texas Medical Branch	During Fiscal Year 2005 approximately less than 1% of all tuition and fees was not collected. The majority of this amount is from outstanding tuition. Warrant holds and registration holds are placed on student accounts with outstanding balances from previous semesters. Students are charged a late payment fee and expected to pay outstanding balances before registering upcoming semesters or requesting transcripts. Warrant holds are also placed with the Comptroller's Office. Transcripts are withheld from the students until balance is paid. Student outstanding balance maintained in Student Information System until amount is paid.
736	University of Texas Pan American	Accounts are considered delinquent at 90 days old. Students with balances are mailed two statements each semester. Delinquent accounts are submitted to the Texas Identification Number System (TINS) maintained by the Office of the State Comptroller for establishment of a warrant hold pursuant to TEX. GOV'T CODE ANN. §403.055 (Vernon Supp. 2003). The university's threshold for submission to TINS is currently \$250. Prior to reporting a debt to TINS, the university sends a notice to inform the debtor of the procedure and to give the debtor another chance to pay and avoid a warrant hold . So far, this notice has been successful in encouraging debtors to settle their obligations. The university may lower the TINS submission threshold in the future to further increase collections. The university writes all student receivables which are over five (5) years old off of the financial records. This is a book entry which affects the receivable control accounts only. These debts are still maintained in the student receivables system and are not actually forgiven. To date, a total of \$282,087 of student debt has been written off in this manner.
739	Texas Tech University Health Sciences Center	Debt Prevention: A signed Student Payment Agreement is obtained from each enrolled student Students who fail to make required tuition and fee payments by the 20th class day (15th class day for summer terms) are cancelled from their enrollment for the current term. Debt Collection: Students who fail to make full payment of tuition and fees are placed on hold by the institution to prevent the student from future registrations and obtaining official transcripts. Institution contracts with an external collection agency for collection efforts after the student exits the institution. Aged receivables are reviewed after each term and at the end of each fiscal year to adjust collection procedures as needed.

Comments

737 Angelo State University

Each semester, a report is generated listing students with outstanding balances from the previous semester. Students are sent a letter advising them their account is in internal collections and to contact the university to set up payments. If we receive no response, the student is sent a second letter stating their account will be reported to a national credit bureau within 10 days if a payment plan is not set up. If this is not successful, a third letter is sent giving the student 10 days to respond. If we receive no response, the account is referred to a third party collection agency in 30 days. Once the account is referred to a collection agency, the agency sends all correspondence to the student.

753 Sam Houston State University

The majority of our uncollected accounts consist of emergency tuition and fee loans (ETFL), second and third installment payments and parking fines. Interest accrues on the ETFLs, and short-term loans, but the late fees for tuition & fees, housing & dining, etc., are assessed only once and do not increase based on the delinquency of the account. When an account is over 90 days past due, and therefore the student is not enrolled, we accept partial payments and will put an account into a "repayment" status as long as the student is making regular payments. While in this status, we do not report the account to the credit bureau. In order to increase collections, we are contracting with an outside collection agency in fiscal year 2006.

Currently, delinquent accounts are reported electronically to a nation-wide credit bureau and reported by FTP to the comptroller's office for warrant hold. We do not write individual accounts off as uncollectible on our subsidiary ledger (student receipt system), but receivables are adjusted for bad debt on the general ledger and the AFR based on historical collections information. The most effective means of collecting at this time is holding transcripts and blocking registration. Our collections have also increased since we began taking credit card payments.

754 Texas State University - San Marcos

Payment of 50% of mandatory fees is required prior to the beginning of each semester and the remaining 50% of the fees due may be placed on an installment plan. Collection efforts include placement of holds on delinquent accounts, barring registration for subsequent semesters and barring receipt of official transcripts. Holds are placed with the state comptroller also. Delinquent accounts are worked in house for 90 - 120 days after the end of each semester. Uncollected accounts are referred to a commercial collection agency.

714 University of Texas at Arlington

The University of Texas at Arlington utilizes the following methods to collect the fees, fines, and penalties that are more than ninety days past due: (1) Transcript holds are placed on all past due accounts (2) Various delinquent notices are mailed to students (3) Monthly account statements are mailed, with assessment of Delinquent Accounts Receivable Fee (4) Students who owe prior semester debt, regardless of the age of the debt, are required to pay all past due amounts, plus the minimum required current semester payment to prevent withdraw for non-payment in subsequent semesters. Write-off occurs when a student is no longer enrolled, and any portion of the student's account is past due 90 days. Upon write-off, transcript and enrollment holds are placed on student accounts, and they are submitted to a collection agency, with collection fee assessment. Each collection agency maintains the account for one year, credit bureau reporting, and returns the account to the University after one year of no activity. The University continues submitting the student's account to a total of five agencies, until the debt is collected. Debt in excess of \$250, not collected by collection agencies, is forwarded to the Office of General Counsel for litigation.

Past Due Collection Summary

(As Submitted by Agencies)

Agency

Comments

Tuition & Fee Collection Procedures: Students who have unpaid tuition and fee bills at the time of designated payment due dates have their registration cancelled. Therefore, all enrolled students must pay their original registration bill (1/2 of the bill amount if they choose the installment plan). Students who have unpaid add bills or installment bills have a "financial bar" placed on their account. This prohibits them from registering for the next semester, receiving grades or transcripts until the balance is paid in full. At the end of each semester, students with past due tuition and fee balances are contacted, and informed that the balance will be reported as delinquent to a credit bureau. Students are given the opportunity to sign a payment agreement, which, if maintained, will prevent the negative credit report but will not remove the financial bar. At the present time we do not have official procedures for the writing off of delinquent tuition.

721 University of Texas at Austin

Students are blocked from registration and transcripts and are assessed late payment penalties when charges on their account are not paid by the due date. Students who withdraw from the university are sent a letter informing them of any remaining balance after all adjustments have been made. Within one semester, letters are sent to students who are no longer enrolled and still have a balance on their account. When the student has not been enrolled at the university for one full semester, the account is placed with our Student Debt Management office for debt recovery efforts which include: 1. Monthly billing statements 2. Skip tracing 3. Collection letters 4. Phone calls 5. Credit bureau reporting 6. Monthly repayment agreements 7. Placement with one or more external collection agencies for debt recovery
In addition to these standard processes for all students, we also have debt recovery efforts for graduating students that begin during their last enrolled term. These include: 1. Notifications by email 2. Certified letter 3. Phone calls 4. Contacts by their departments 5. Withholding diplomas for those who fail to respond

711 Texas A&M University - College Station

Accounts that are unpaid at the end of the semester are turned over to collection agencies that the University contracted with during Spring 2005 to assist with collection efforts. Accounts are not turned over to the collection agencies until after the end of the registration period for the following term as payment of prior balances or a repayment agreement is a requirement for future enrollment at the University. All accounts with balances at the end of the semester are placed on State hold. An allowance for uncollectibles is set up for receivables that are one year old and receivables are written off after two years. Transcripts are not released until outstanding balance is paid in full.

715 Prairie View A&M University

During fiscal year 2005, approximately 99.6% of all fees assessed were collected. While this represents a fairly high collection rate, the remaining .4% remains a substantial sum of money. We perform the following actions each year in order to collect fee balances owed: Four student billings are mailed out during each semester. After the due date for fees has passed, students' accounts are blocked. This effectively eliminates the students' ability to register for future courses or obtain transcripts of their past course work. Students are reinstated in good standing after receipt of the past due balances. Past due collection letters are mailed approximately 30 days after the end of each semester. These letters offer a chance to set up payment arrangements. We work with students to allow them to continue to attend school as long as a formal payment plan is agreed to. Accounts 90 to 120 days past due are turned over to an external collection company, Todd, Bremer, and Lawson, Inc. The company collects both the original fees and their own collection costs.

713 Tarleton State University

Past Due Collection Summary

(As Submitted by Agencies)

Agency

Comments

Once the due date has past, letters are sent to all students who have an outstanding balance and their accounts are placed on hold with the university. If the balance is less than one hundred \$100 the students transcripts are place on hold. If the balance is greater than one hundred dollars then the student is unable to register for another term plus their transcripts will not be released. After the census date for the next semester all outstanding balances from the prior term are placed on hold with the State of Texas if their balance is greater than five dollars. Letters are generated and mailed to the student to inform them of this new action. Forty-five to sixty days after state holds have been placed on the outstanding accounts those that are \$150 or more are sent to a third party collection agency. Letters are generated and mailed to the student to inform them that their account has been sent to a collection agency. For accounts that are smaller than \$150, past due billing statements are sent to them.

If a third party collection agency is unable to collect a debt that the university has turned over to them the account is proposed for write off unless the amount is greater than \$4,999.99. Those accounts that are greater than \$4999.99, they are sent to the Attorney Generals Office for permission to write off. The students account will still remain on hold with the university and the state until the debt is paid in full. Write off from FY 1997 through FY 2005 are \$180,821.

During fiscal year 2005, approximately one percent of tuition and fees were not collected because of the following:

- A. Students withdrawing at a prorated rate without completely paying their balance due
- B. Students on financial aid not remaining enrolled or not attending classes past the 60% point of the semester(s), thus owing tuition and fees
- C. Students on a deferred payment plan, not meeting the last payment due at the end of the semester

The university requires placement of registration and transcript hold on the student's account as soon as an expense becomes past due. The past due student accounts are then administered by the university's internal collection department utilizing the following procedures.

1. The collection department sends out monthly statements to the students; followed up with telephone calls. Once contact is established with the student(s), counseling and payment arrangements are made to assist the students in paying off their debt. If no response is received from the student within a six month period, a letter is mailed to the student informing him/her that the account will be referred to our contracted collection agency. The letter provides information as to the consequences and costs that will be incurred after the referral to the collection agency. Language is included to persuade the student to make payments prior to the referral.
2. Accounts are referred to the collection agency at least once a year. On the average, 50 accounts are referred to the collection agency each year. The collection agency collects approximately 33% of all the referred accounts. The collection agency works very closely with the university when collecting these student accounts.
3. The university re-calls the accounts that have been at the collection agency for a year without any activity. The university collection department renews their collection efforts for an additional six months. The timeline for the administration of past due student accounts covers a period of two years (6 months internal, 12 months at collection agency, 6 months interaal). After this period, delinquent student accounts are submitted to the Claims Division at the State Comptroller's Office using TINS (Taxpayer Identification Number) for identification purpose. It is at this point that the student accounts are written off. The accounts reported to the Claims Division at the State Comptroller's Office are placed on State Hold. Accounts on State Hold are reviewed by every state agency each time a state refund/voucher/award is issued to the student. The state agencies notify each other whenever a state refund is about to be issued to student accounts on State Hold. In fiscal year 2005, four student accounts reported on State Hold were paid.

Past Due Collection Summary

Agency

Comments

761	Texas A&M International University	Texas A&M International University has an internal collections process established. Loans are provided to students each semester for payment of tuition, fees and books. Students are invoiced up to three times per semester, depending on the type of loan. Subject invoice provides the current balance owed, as well as, when payment is due. If loans are in default a demand letter is sent to the students seeking payment within 60 days. If loans are not repaid after the 60 day period, they are referred to a collection agency.
757	West Texas A&M University	Email messages are sent to students after the end of the semester notifying them that restrictions have been placed on their account so that they cannot register or receive a transcript. Ninety (90) days after the close of the semester, letters are sent to students informing them that we are preparing their accounts to be sent for collection and are giving them six weeks to make payment arrangements. Within two months of notification, the student accounts are turned over to the Credit Bureau of the High Plains for collection (first placement). When the CBHP determines the account uncollectible based on their collection efforts, the account is rotated to National Credit Management (second placement).
751	Texas A&M University - Commerce	Texas A&M University - Commerce has a formal collection procedure that assigns debts to an outside collection agency after 120 days if in-house collection efforts are not successful. Unpaid fees are written off at the end of each fiscal year if more than 12 months delinquent. Collection efforts continue past that point through outside collection agencies.
764	Texas A&M University - Texarkana	In FY 2005 less than .4% of Tuition and Fees were not collected. The university sends statements for uncollected tuition and fees as well as calling students. The students are blocked in the Student Information System. The block prevents students from enrolling again, using the library, or obtaining transcripts.
752	University of North Texas	<p>Students who fail to make full payment of fees, fines and penalties by the end of a semester are blocked from obtaining official transcripts and are required to submit the outstanding payment with the initial amount owed in future semesters in which they enroll. Additional internal collection efforts to collect unpaid fees, fines and penalties begin at the end of each semester and include phone calls and written correspondence. The individuals are counseled by trained employees who analyze their situations and often have the option of arranging a payment agreement. The individuals must complete monthly payments until the outstanding amounts are cleared. Individuals completing the payments on-time are not assessed additional delinquent payment fees.</p> <p>Some unpaid fees, fines and penalties are assigned to external collection agencies if internal collection efforts are not successful. Aged receivables are reviewed annually to analyze collection results and to adjust procedures as needed. Uncollected amounts are not removed from student accounts. Collection efforts continue until the outstanding amounts are repaid.</p>

Comments

A signed Student Payment Agreement is obtained from each enrolled student on payment option plan or emergency enrollment loan. Students who fail to make required tuition and fee payments by the 20th class day (15th class day for summer terms) are cancelled from their enrollment for the current term. Students who fail to make full payment of tuition and fees are placed on hold by the institution to prevent the student from future registrations and obtaining official transcripts. Institution contracts with an external collection agency for collection efforts after the student exits the institution. Aged receivables are reviewed after each term and at the end of each fiscal year to adjust collection procedures as needed.

733 Texas Tech University

Business Office, Financial Aid and Registrar Office place holds on student files. Returned checks are collected by an outside agency. Student receivables are turned over to collection agency for collection. Any payment arrangements are accepted. Students are given extensions to pay by signing an extended agreement. Students are called to attempt final collection before accounts are turned over to the collection agency.

787 Lamar State College - Orange

Student tuition and fees have a very high collection rate due to the ability to block the student from future services, including graduation, registration for future courses, copies of transcripts, etc. Collection procedures include the blocks described above, placing the student on state hold one semester after the original due date, and finally, turning them over to an external collection agency after one year.

709 Texas A&M University System Health Science Center

We have placed the students with unpaid balances on hold (which means they cannot register, receive a transcript or a refund. In addition, they have been sent three emails in an effort to collect the unpaid balance. The current policy being enforced is to notify the students that have not paid in full prior to the 1st day of class. The following departments are copied on the email: Student Affairs, the school, Financial Aid, and Registration. On the 1st day of class, a second email is sent that informs the student that they must pay by 5:00 PM or they will be dropped and they would have to pay a \$250 reinstatement fee. On the second day of class another email is sent notifying the student that they are being dropped and then they are dropped from the class. The above departments are copied on the email.

763 University of North Texas Health Science Center

During fiscal year 2005 approximately 10% of all fees, fines or penalties were not collected. The majority of these fees were payment plans, penalties and emergency loans. What we have found is that when individuals can not make full payments, they will choose to make no payment at all. The addition of late fees compounds the burden on the individual and their willingness to make no payment at all. In an effort to increase our collection rate we have done the following: We are now providing payment plan agreements for individuals which meet the following terms: 1. The fine, fee, or penalty is greater than \$50 and less than \$1000; and 2. The individual can make an initial payment of 50% of the total fine, fee, or penalty; and 3. The payment plan agreement can not exceed 6 months.

71B Texas State Technical College - Harlingen

We will be verbally advising individuals of their payment options, as well as providing a printed sheet with the same options at the time in which the fee, fine, or penalty is assessed. We believe that these new payment options will help increase our collection rate from 90% in fiscal year 2005 to 95% in fiscal year 2006. We will regularly monitor our collection rate to make any necessary adjustments to our collection plan.

Comments

71C Texas State Technical College - West Texas	<p>During fiscal year 2005 approximately 20% of all fees, fines, or penalties assessed were not collected. The majority of these fees were penalties that require the person being fined to either make payment at a central location or mail in their payment such as our "Onsite Failure to Comply" fines. What we have found is that when individuals can not make full payments, they will choose to make no payment at all. The addition of late fees compounds the burden on the individual and their willingness to make no payment at all. In an effort to increase our collection rate we have done the following: We are now providing payment plan options for individuals which meet the following terms: 1. The fine, fee, or penalty is greater than \$500, but less than \$1,000; and 2. The individual can make an initial payment of 50% of the total fine; and 3. The payment plan can not exceed 6 months.</p> <p>We are waiving any and all late fees. This is contingent upon the individual making payment arrangements before the due date of the fee, fine, or penalty. If the individual attempts to make payment arrangements after the due date, a 2% fee will be assessed and calculated into the payment plan. We will be verbally advising individuals of their payment options, as well as providing a printed sheet with the same options at the time in which the fee, fine, or penalty is assessed. We believe that these new payment options will help increase our collection rate from 80% in fiscal year 2005 to 90% in fiscal year 2006. We will regularly monitor our collection rate to make any necessary adjustments to our collection plan.</p>
71D Texas State Technical - Waco	<p>TSTC Waco actively pursues collections for 120 days by sending out statements each month. At the end of 120 days these accounts are written off and turned over to our collection agency for further collection efforts.</p>
71E Texas State Technical College - Marshall	<p>We send monthly bills to individuals who owe a balance. When an amount owed is more than 90 days old, we use a three-step collection process. The first step is to send a past due letter notifying the individual that their account is past due and requesting that the individual either pay their balance in full or contact us to make payment arrangements. If we do not get a response to the first letter, we send a second letter notifying the individual that their account is seriously past due and is being reviewed for collection and requesting the individual to contact us. If we still have not received a response to the second letter, we send a third letter (return receipt requested) notifying the individual that if they do not contact us within seven days they will be turned over to a collection agency for collection of their account.</p>
735 Midwestern State University	<p>We mail past due notices on a monthly basis and do not let students register for a subsequent semester of school if they owe a balance to the university. The students are also unable to obtain an official transcript if they owe a balance to the university. After six to nine months of inactivity, accounts are turned over to professional collection agencies for collection.</p>
756 Sul Ross State University	<p>Sul Ross State University employs the following steps to collect fees, fines and penalties that are more than ninety days past due: 1. We place registration and transcript holds on students accounts the first day the account becomes delinquent. We send the student an email notifying them of the past due balance and the resulting holds. 2. Many accounts are collecting during the registration process the next semester. After late registration in the following semester, we begin our formal in-house collections process. 3. The first step of in-house collections is a series of 2 letters sent to the student permanent address. 4. The next step is a certified letter sent to the student permanent address and/or a phone call to the student permanent address. 5. In cases where in-house measures have failed, the student is submitted to an external collection agency. 6. After 4 years with the collection agency, accounts with little or no activity are recalled and written off as uncollectible.</p>

Agency

Comments

During a recent review of collection results, we discovered a significant number of the accounts ultimately sent to the collection agency were from students who withdrew. We have since modified our procedures for withdrawn students to include a certified letter within 2 weeks of the student's withdrawal. Preliminary results show about 80% success rate for this new procedure.

Students are blocked from registration and transcripts and are assessed late payment penalties when charges on their account are not paid by the late date. Students who withdraw from the university are sent a letter informing them of any remaining balance after all adjustments have been made. Within one semester, letters are sent to students who are no longer enrolled and still have a balance on their account. When the student has not been enrolled at the university for one full semester, the accounts are monitored by Accounts Receivable personnel and outside contracted collection agencies as follows: 1. Monthly billing statements 2. Telephone Calls 3. Collection letters 4. Credit Bureau Reporting 5. Skip Tracing 6. Monthly repayment agreements.

In addition to these standard processes for all students, we also have debt recovery efforts for graduating students that begin during their last enrolled term. These include: 1. Telephone Calls 2. E-mails 3. Contacts by the Admissions and Records office 4. Contacts by their departments 5. Withholding diplomas for those who fail to respond .

Approximately 30 days after a semester is completed and the student is no longer enrolled the student is sent a letter stating the amount owed and telling them they have 30 days to pay the account in full or make arrangements to setup a payment plan. If paid this ends the collection effort; if not paid as a result of this letter, then a second, stronger letter is mailed to the student stating that we have not received the payment and he now has 30 days to pay or a collection fee of 25% will be added to the total owed. If the student pays that ends the collection effort; if the student does not pay, then a 3rd letter is sent telling the student that the 25% collection fee has now been added to his/her account and instructing them to contact the collection department as soon as possible. The account is then sent to the collection department for processing. The Collection department attempts to contact the student through emails, letters, and phone calls. All attempts are documented.

There should be at least two phone attempts and 3 written communication attempts. Approximately 180 days without any resulting payment and the account will be turned over to an outside collection agency contracted with the university for this purpose.

The university attempts to collect any outstanding student tuition or fees within state guidelines. Once a student is past due on any financial obligation, they are placed on a stop roster. This stop prevents the students from registering for the next semester. Students are allowed to register by becoming current with payments or working out agreeable repayment plans. If necessary extremely past due amounts can be placed with outside collection agencies. Once a past due amount is two years old and additional collection efforts have been exhausted, the debt is written off in accordance with generally accepted accounting principles. The student does remain on the stop roster and is prohibited from obtaining transcripts or other university services in the future. For the fiscal year ending August 31, 2005, approximately \$113,000.00 of tuition and fees was written off.

Comments

765 University of Houston - Victoria	<p>During FY05, after the University's Bursar's Office initial 90 day efforts of contacting overdue accounts in writing at least three times, students were informed that after 90 days, their accounts will be turned over to an outside commercial collection agency who would impose substantial additional fees. At the same time, the University submits delinquent accounts to the credit bureau. UHV is a relatively small university with a total student population of 2,500 students. Due to limited resources, if there has been no reponse to the University's internal collection efforts, individual student files are processed and forwarded to the collection agency (formerly General Revenue Corporation). The collection agency works assigned accounts for a period of one year. After that one year period, accounts having no activity are returned by the collection agency to the University.</p> <p>During FY05, UHV submitted a Request for Proposal on the Open Market for a new collection agency. The intent was to insure compliance with State Attorney General requirements regarding the use of collection agencies, as well as to secure a collection agency who would impose less additional collection fees on assigned accounts. Collection services were recently awarded to Windham Professionals, beginning FY06. Their collection fee, which is added to the student account, is a more reasonable 22%.</p> <p>In the interim, between changing collection agencies in FY05, UHV offered students with delinquent accounts an incentive plan to satisfy their debts:</p> <ol style="list-style-type: none"> 1. No collection fee would charged; 2. Payment plans could be initiated by the student with minimum payments of \$50 monthly. <p>As a result of this interim FY05 program, approximately 33% of delinquent accounts responded to the program and 12% of accounts older than 90 days, paid in full.</p>
704B Alvin Community College	Business Office and Registrar Office holds are placed on student files. Returned checks are collected by an outside agency.
704D Angelina College	Business Office and Registrar Office holds are placed on student files. Returned checks are collected by an outside agency.
704E Austin Community College	Business Office and Registrar Office holds are placed on student files. Returned checks are collected by an outside agency.
704M Collin County Community College	Business Office and Registrar Office places holds on student files. Returned checks are collected by Justice of the Peace Court.
704N Dallas County Community College District	In 2005, Dallas County Community College District (District) collected approximately 94.7% of its student receivables. Historically, the District has sent letters to those with past-due accounts and blocked students from further registration and/or obtaining transcripts and other records. To further enhance its collection efforts, the District has contracted with collection agencies to pursue collection of receivables that are at least 90 days past due.
704Q Frank Phillips College	Business Office and Registrar Office holds are placed on student files. If we have delinquent student receivables they are turn over to collection agencies and/or filed with County office in small claims court.
704R Galveston College	During fiscal year, 2004-2005 Outstanding Institutional Loans for tuition and fees totalling \$12,331 or .01% of tuition and fees are not collected. We are currently sending out monthly invoices for outstanding Institutional loans. Late fees are assessed when student comes in to make payment. Therefore there are no outstanding late fees for the unpaid Institutional Loans.

Comments

704T Hill College	We offer installment payment plans for room and board and tuition and fees. If a student gets very far behind on his food payment we cut off his meal ticket. If that does not get a response we remove him from the dorm. We place a hold on grades and transcripts for all students who have an outstanding balance owed to the college. We turn all returned checks over to the District Attorney for collection.
704V Howard College	<p>Currently, Howard College turns over delinquent accounts related to tuition and fees that have had no payment activity to the college for 6 months to an outside collection agency. We wait 6 months because that will always pick up the next main semester's registration, and because of transcript holds, we are able to collect on outstanding installment plans. The collection agency has our approval to use a moderately aggressive approach in trying to collect on the account. The outside collection agency was given approval last year to begin reporting delinquent accounts to national credit reporting agencies which will affect the ability for these people to qualify for loans and credit cards. We have seen an increase of collections since last year. For returned checks, if the check hasn't been cleared through the business office within 10 business days, the person is turned into the appropriate county attorney's office. If they do not clear the attorney's office within their stated time frame, a warrant is issued for their arrest.</p> <p>All accounts are written off when we turn them into the collection agency. If the account is collected, the debt is reinstated onto the student's account into a bad debt recovery account. Howard College averages around \$20,000 a year in bad debt.</p>
704AC North Central Texas College	Business Office and Registrar Office holds are placed on student files. Returned checks are collected by an outside agency. If we have delinquent student receivables they are turned over to collection agency.
704AD North Harris Community College	Business Office and Registrar Office places holds on student files. Return checks are collected by Justice of the Peace Court.
704AE Northeast Texas Community College	<p>During the period September 1, 2004 thru August 31, 2005, an estimated 2% of tuition/fee revenues are deemed not collected. Tuition must be paid prior to the first class day. Fees related to tuition can be paid at that time or students are given the opportunity to sign an installment where the final payment is due prior to the beginning of the eleventh week of class. We have found that students who have dropped out of class and have signed an installment do not remember to make those remaining payments. Any fee/fine/penalty that is assessed to a student is recorded on that student account and that account is put on hold until payment is received. When an account is placed on hold, all privileges and requests are no longer given until that account is in good standing. Typically, these balances do straighten out as students return for future semesters. Students who have signed an installment for payment of tuition/fees may not be written off.</p> <p>These unpaid balances remain on their account until payment is received. Students may log onto the college website and view their individual account. Students are encouraged to make use of the online features of registration and bill paying.</p> <p>Northeast Texas Community College at on time did contract with a collection agency to aid in the collection of students accounts and has gotten away from this due to turn over in both the agency and the college's business office. Research needs to be done on acquiring an agency that may be more user friendly and less time consuming while providing a high rate of collections.</p>
704AG Panola College	Business Office and Registrar Office places holds on student files. Return checks are collected by Justice of the Peace Court.

Comments

704AJ	San Jacinto College District	For the fiscal year 2005 San Jacinto College experienced an assessed but not collected rate of approximately 8.5% The majority of the uncollected fees related to Installment Payment Plans and associated late payment penalties. In an effort to increase our collection rate we have implemented the following: (1) Emails to students one week prior to the due date of the Installment Payment Plan. (2) Delinquent Notice letters sent to students: (a) after 30 days past due. (b) after 60 days past due. (3) When a debt is at least 120 days past due the debt is submitted to the District's collection agency. The collection agency adds an additional 28% charge for their collection services. (4) The Director of Accounting and Financial Services or the Comptroller reviews any appeals by students regarding delinquencies. The College regularly monitors the delinquencies in a effort to keep the delinquencies to a minimum.
704AM	Southwest Texas Junior College	Business Office and Registrar Office holds are placed on student files. Returned checks are collected by an outside agency. If we have delinquent student receivables they are turned over to collection agencies for follow up. Payment plans are optional for all students with a default rate of approximately 2.5%. An outside entity will be handling all future payment plan arrangements to ensure a higher collection rate. Workforce Education Tuition varies based on costs of providing each course with the base amount being zero.
704AN	Tarrant County College	Business Office and Registrar Office holds are placed on student files. After one registration cycle, if we have delinquent student receivables they are turn over to collection agencies.
704AO	Temple College District	The Student Accounting Office and the Financial Aid Office put holds on student files. Returned checks, delinquent installment plans, short term institutional loans are turned over to outside collection agencies.
704AU	Victoria College	Business Office, Registrar Office and Financial Aid Office holds are placed on student files. Returned checks are given 10 business days to pay, then they are sent to the County Criminal District Attorney's Office for collection. If we have delinquent student installment notes, they are put on hold and given until after the next long semester registration period to pay. If they do not pay by that time, they are turned over to a collection agency.
704AX	Wharton County Junior College	Business Office and Registrar Office holds are placed on student files. Returned checks are collected by an outside agency.
704AR	Trinity Valley Community College	Business Office and Registrar Office holds are placed on student files. Returned checks are collected by an outside agency.
704AL	South Texas College	During fiscal year 2005 approximately 3.6% of all revenues and fees were not collected. The non-payment of revenue and fees were composed of students defaulting in one or a combination of STC's Emergency Loan, Installment Plan and/or reversal of Financial Aid. Currently STC practices internal collections and use the following tactics: - Mailed statements - Courtesy calls to notify students a balance is coming due - Past due phone notification once an account is in default - Collection calls - After STC has worked on a past due account for an average of 3 months it is then transferred over to a third party collection agency. - Once an account is at a third party collection agency the student's balance is turned over to the credit bureau within a month to reflect the student's credit worthiness. - Students with delinquent accounts will be denied registration and have holds placed on their records until payment is rendered.
704AI	Ranger College	Offical records are not released until the fee is paid. Periodic statements are sent to all students.

Comments

704U	Houston Community College System	Business Office and Registrar Office places "holds" on student files. Without settling the account, the student will not be able to register for new classes nor get official transcript of records. Check payments are generally coursed thru Telecheck, such that if there is a returned check, Telecheck reimburses the College. Delinquent student accounts are referred to an outside Collection Agency. HCCS uses guarantee check processes via TeleCheck. Additionally, delinquent payment is sent to a collection agency after a 90-day period for non collection. HCCS maintains an aging report.
704O	Del Mar College	Business Office and Registrar Office holds are placed on student files. Returned checks are collected by an outside agency. If we have deliquent student receivables they are turn over to collection agencies for collection efforts.
704L	College of the Mainland	Business Office and Registrar Office holds are placed on student files. Returned checks are collected by an outside agency.
704K	Coastal Bend College	Bills are sent to students. A hold is placed on the student's account which will prevent further registration or receipt of an official transcript until the amount due is paid. Delinquent installment notes are turned over to a collection agency.

ARTICLE IV: THE JUDICIARY

201	Supreme Court of Texas	The Supreme Court commends the clerk's office for its high collection rate of 98%. The Court's collection process is entirely in-house. When the clerk's office receives a document tendered for filing without a correct fee, the clerk's office personally contacts the individual filing the document, to the extent the contact information is available, and notifies the individual that the matter filed will be dismissed unless the correct fee is tendered within ten (10) days. If the fee is not tendered within that time period, the matter is dismissed for lack of payment. Once the matter is dismissed, the clerk's office makes no additional effort to collect the outstanding fee even though the fee technically remains "assessed". This is the primary explanation for the Court's minor collection variance. Fees for other services are due before the service is performed. If a payment for a license fee is returned to the Court for insufficient funds, the clerk's office notifies the licensee that the license may be revoked if payment is not received within thirty (30) days. This process has produced a 100 percent collection rate on licenses. The lowest collection rate for any one fee is the fee collected for direct appeals, a fee collected at a rate of 67 percent. Calculating this average, however, is not particularly helpful given the fact that only three direct appeals were filed in FY05. Because fees are collected before matters are forwarded to the Court for consideration and before a service is performed, past due fees are not tracked.
221	First Court of Appeals	During fiscal year 2005 approximately 4% of all fees assessed were not collected. Of the 474 civil appeals filed, the filing fee has not been paid in 19 appeals which are pending dismissal for failure to pay the filing fee or other dispositive action. The collection rate is 96%. Of 1576 motions filed, the filing fee was not paid for 44 motions, a 97% collection rate. Of 99 Original Proceedings filed, the filing fee was not paid in 6 cases, a 94% collection rate.

Past Due Collection Summary

(As Submitted by Agencies)

Agency

Comments

During Fiscal Year 2005 this court had a collection rate of approximately 98.66%. Only approximately 1.34% of fees were not collected. Our high collection rate can be explained as follows: The \$125 filing fee to file a civil appeal is due upon the filing of the notice of appeal. If the fee is not paid when the notice of appeal is filed, we give the party 10 days to pay the fee and notify them that their appeal will be dismissed if they do not pay. See Tex. R. App. P. 42.3. After this 10 days, if the fee is still not paid, we send a second notice giving the party another 10 days to pay the fee and again notify them that the case will be dismissed if the fee is not paid. After two warnings, if the fee is still not paid, we dismiss their appeal. The \$10 filing fee on all civil motions is due with the filing of the motion. Generally, the motion will not be submitted to the court and an order will not be released until the filing fee is paid. Fees for copies of records, tapes of oral argument, express fees to send records to the Supreme Court, and fees to retrieve case files from remote storage are due before services are rendered. The service will not be provided until the fee is paid.

222 Second Court of Appeals

On occasion we are unable to collect a filing fee even after follow up attempts are made. These are usually due from pro se litigants or government entities that are not exempt from payment. When our court issues mandate to the trial court, this court includes a bill of costs with the mandate. The bill of costs will include any unpaid filing fees for the trial court to act upon when sorting costs. In addition, we regularly monitor our unpaid fee reports and send follow up notices to parties on a regular basis.

The amount not collected in FY 2005 represented only 3% of the amount of fees assessed in FY 2005. The fees pending for fiscal year 2005 involved twenty-six cases. This consisted of 16 filing and indigent fees and 17 motion fees not paid. Of these cases 10 were pro se litigants, 3 were administrative law cases with a state agency being billed through the ITV process and 1 was a bankruptcy that is presently abated. It is our experience that pro se litigants that do not pay also do not pay the trial court or court reporter for the record and thus will end up being dismissed in this Court. Second billing has been done in all except the bankruptcy cases and several cases will probably be dismissed. At the time of mandate (final process of the appeal) a bill of costs is forwarded to the party owing the fee and to the trial court clerk for collection.

223 Third Court of Appeals

Any unpaid fees are included in the Bill of Costs presented to the responsible party at the conclusion of the case.

226 Sixth Court of Appeals

The fees pending for fiscal year 2005 involved one case. The filing fee, indigent fee and a motion fee are pending because a motion was filed requesting exemption for the filing and indigent fee. The motion is still pending with this court, although, none of the fees are 90 days old.

227 Seventh Court of Appeals

During Fiscal Year 2005 approximately 93% of the filing fees were collected. The court will continue to make an effort to collect those fees assessed but not yet collected by sending "second request" notices to the parties/counsel or dismissing the appeal for failure to pay the filing fee of \$125.00. However, occasional circumstance do once the mandate is issued (as of 10/12/05, \$705.00 written off for FY 2005).

228 Eighth Court of Appeals

The fees pending for fiscal year 2005 involved newly filed cases in August. The filing fees and indigent fees are reflected as pending because the cost bills were sent during that month which is at the end of the fiscal year.

229 Ninth Court of Appeals

Past Due Collection Summary

(As Submitted by Agencies)

Agency

Comments

230 Tenth Court of Appeals

In 2004, this Court took drastic measures in an attempt to collect unpaid fees. As a result of those measures, the payment of fees has increases tremendously. However, the Court is not always successful in collecting fees. After collecting efforts fail, the Court authorizes the fees to be written off and the cause is sometimes dismissed for failure to pay the required fee(s). The fees written off during FY2005 were Fax \$5, Motion \$100, Filing \$3,600. A total of \$3,705.

233 Thirteenth Court of Appeals

If an appellant fails to pay a filing fee, notice is given that the appeal is subject to dismissal for failure to comply with the rules. If, after notice, the appellant fails to pay the fee, the appeal is dismissed. After dismissal, efforts to collect the fee continue. Upon issuance of the mandate, the clerk of the trial court is instructed to collect the fee upon execution of judgment.

234 Fourteenth Court of Appeals

During Fiscal Year 2005, approximately 15% of all fees, fines or penalties assessed were not collected. The majority of the uncollected fees were filing fees for appeals that were not pursued by the appellant and were subsequently dismissed. A number of motion fees are similar. The motion filed becomes moot before a ruling is issued and therefore there is no incentive to pay the fee. Uncollected fees also includes fees assessed in cases involving certain governmental entities that do not pay the fee at the time of filing. The costs are pursued at the conclusion of the case based on the judgment of the case. Our fee collection efforts include the production of weekly and monthly reports of unpaid fees. Late notices are sent. Court orders may be issued and cases dismissed for non-payment of fees. The Court will continue to aggressively pursue any unpaid fees and will look for innovative procedures to reduce the percentage of uncollected fees. While fee assessment and collection is not a core function of courts, the Fourteenth Court of Appeals considers the duty of collecting fees assessed a very important responsibility.

243 State Law Library

Fines are calculated from the due date of the material borrowed until its return. FIRST NOTICE - The first overdue notice is sent two weeks from the original due date informing the patron of the overdue status of materials borrowed. SECOND NOTICE - If the borrowed materials are not returned, a second notice is sent three weeks from the original due date informing the patron that the materials remain overdue, and alerting the patron that if the borrowed materials are not returned by the fifth week from the original due date, a collection notice will be sent. COLLECTION NOTICE - Borrowers are invoiced materials that are overdue and not returned by the fifth week after due date. The maximum fine and \$75 or the actual replacement cost of the material borrowed (whichever is greater); and a \$15 non-refundable administrative fee is assessed. RETURNED LETTERS - When a notice is returned as undeliverable to the State Law Library, the letter is resent to the alternate address given at the time of registration.

In the event the second letter is returned, a Department of Public Safety detective is contacted. DPS assists us as time permits in locating the individuals whose addresses are not longer valid. The name, address(es), driver's license number or Texas ID number and birth date are forwarded to DPS. The assigned detective will attempt to contact the individuals and either encourage them to pay the outstanding charges or will obtain the library materials from them. The Office of the Attorney General may be contacted for assistance as well. Lawsuits or criminal charges for theft are a consideration if the OAG determined that the intent was to convert state property to the own versus a loan that the patron neglected to return and still might have the intent to do so but has not. Patrons with long overdue library material and outstanding collection notices are suspended from further lending privileges. FINES SCHEDULE - All material circulated have the due date stamped in an obvious place.

Past Due Collection Summary

(As Submitted by Agencies)

Agency

Comments

Borrowers are responsible for all material borrowed on their card and for returning borrowed material on time. Borrowers are also responsible for any fines or fees incurred. Fines are calculated from the due date of the material borrowed until its return. Fines are 50 cents per day per item borrowed, and continue to accrue until the item is returned or the maximum of \$12.50 per item is reached. Borrowing privileges are suspended for outstanding fines totaling \$25 or more. PAST DUE INVOICES FOR COPIES AND SERVICES - Effective February 2005 payment at time of service is required for individuals. Law firms and organizations have the option of being billed, terms 30 days net but must have a signed billing agreement on file with the SLL, copy attached. State agencies pay by interagency transfers (ITV) with several different billing options: Annually; Quarterly; Monthly; or over \$5.00 balance. Agencies must have a signed Interagency Contract on file for the current fiscal year in order to be billed.

ARTICLE V: PUBLIC SAFETY & CRIMINAL JUSTICE

Document Sales:

This fee type is generated by authorized users provided through TEX. GOV'T CODE §411.088(a)(2) via submission of fingerprint cards and or applicant demographics for obtaining criminal history information. Approximately 20% of the \$148,600 as uncollected is not yet delinquent over 90 days. The remaining 80% is being handled internally utilizing the following procedures:

1. Initial invoice (billed in the first 10 days of month preceding service)
2. Second invoice (billed in the second 10 days of third month preceding service)
3. Phone contact
4. Service disabled until rectified
4. Account turned over to Attorney General's Office

Sex Offender Registration Reimbursement:

TEX. CODE CRIMINAL PROCEDURE 62.045 Provides TxDPS with the authority to collect the cost associated with the Neighborhood Sex Offender Registrant Notification Program. "(c) The department shall establish procedures for a person with respect to whom notice is provided under subsection (a), other than a person subject to registration on the basis of an adjudication of delinquent conduct, to pay to the department all costs incurred by the department in providing the notice. The person shall pay those costs in accordance with the procedures established under this subsection." Presently, TxDPS does not have adequate personnel resources to initiate collection of delinquent debts from the registrants. Due to the mobile nature of the registrants and the poor compliance rate with the reimbursement requirement, it would take extensive departmental resources to affect total or near total compliance with the reimbursement requirement.

1. Initial Invoice
2. Offer payment installments
3. Debt turned over to Attorney General's Office
3. Debt turned over to Attorney General's Office

Agency

Comments

409 Texas Commission on Jail Standards

During Fiscal year 2005 approximately 90% of all assessed fees were collected. Agency staff ensures that all vital information is taken at the time the order is placed, which ensures a more timely collection of amounts owed. An invoice is sent out with every order and every quarter all customers with outstanding balances are sent an additional notice. Less than 1% of assessed fees are more than 90 days past due. In an effort to even further reduce our low rate of overdue payments, we have also begun to conduct telephonic reminders and send follow-up letters to all past due accounts.

696 Texas Department of Criminal Justice

The Inmate Health Care Co-payments are imposed on certain offender-initiated medical visits. TDCJ is responsible for collecting this fee from the offender. Medical services that are provided to an offender are not based upon the offender's ability to pay this fee. The Local Funds System was created to provide an automatic collection process of this fee. The fee is automatically taken from the offender's Trust Fund Account. If the balance in the offender's account is insufficient, the System will deduct 50% of each deposit (if available) made to the offender's account until the total amount is paid. The Supervision Fees are assessed when an offender is placed on mandatory supervision or parole. The individuals who are assessed these fees include active parolees, absconders, detainer and pre-revocation status offenders. The Parole Officers are responsible for the collection of these fees.

ARTICLE VI: NATURAL RESOURCES

305/317 General Land Office and Veterans' Land Board

The majority of the fees imposed by the General Land Office (GLO) and Veterans' Land Board are for tangible items such as archival maps and booklets, or for services such as research, application fees and coastal lease fees and appraisals, therefore the fee must be received in house before any service is provided to the customer. This greatly reduces the number of penalties and fines that the agency must pursue collection for.

When penalties are assessed, the GLO has various collection procedures. Oil Spill violations result in an administrative penalty to the responsible party as well as cleanup cost reimbursement. For outstanding oil spill cleanup cost reimbursements, two demand letters are sent by certified mail to the responsible party. If we are still not compensated and the spill is consistent with the National Contingency Plan, the agency is reimbursed by the National Pollution Funds Center. Ineligible cases are closed as "uncollectible" if the amount is less than \$1,000. Those over \$1,000 are referred to the Attorney General's Office (AGO) for collection. Penalties are imposed by Notice of Violation and Order to Pay letter from the agency's Legal Dept. Unpaid penalties less than \$1,000 are closed as "uncollectible". Those over \$1,000 are referred to the Attorney General's Office. The referrals to the Attorney General's Office is typically after eight months of effort by the GLO. The GLO will always work with the responsible party by allowing payment plans

The Veterans Land Board can write off unpaid balances due by State Veterans Home former residents when it appears that collection of the amount would either be unjust or further collection efforts would not be economically viable. Prior to this action, the Financial Manager works with the GLO legal staff to propose a reasonable settlement or payment plan. If this plan is not implemented, the file will be forwarded to the AGO for further collection proceeding. If the AGO does not implement collection proceedings, the financial manager recommends that the account be written off, which will occur only upon approval by Agency Executive Management. Among all homes, a total of 17.3% of the accounts are delinquent. Land loans that are not paid will accrue penalties and interest once they become delinquent. After a determined number of days in delinquency status, the veteran's property is in danger of forfeiture. The veterans is notified several times of their delinquency, then receives by certified mail notification the property is in forfeiture and ordered for sale.

Agency

Comments

Coastal Lease agreement delinquent accounts are reviewed and addressed quarterly. The Professional Services division works with the lease managers to ensure that lease payments are kept current. Some delinquencies are addressed during the renewal process, requiring past due balances to be paid before a new term is approved. When there is difficulty with collecting balances or when circumstances involve bankruptcies or litigation, Professional Services works through our Legal Division to collect past due amounts as well. Only 2.7% of these accounts are delinquent past 90 days.

455 Railroad Commission of Texas

The Commission assesses very few fees. In fact, a majority of the fees it collects are associated with licenses, permits, etc. that one needs in order to engage in some specific activity. If the fees are not paid, licenses, permits, etc. are not issued and the requesting party may not engage in the requested activities. If it is determined that no permitted activities have occurred, then fines and violation penalties are assessed. The Commission's collection rate for such fines and/or violation penalties is approximately 50%. Any amounts that are not collected are referred to the Attorney General.

Pipeline Safety Fee (3553) - This fee is truly assessed. The Commission is actively pursuing the receipt of the \$25,652, which is collectively due from 57 different entities. Approximately 40% of this amount has been collected in FY 06. Additionally, the Commission may assess additional penalties if it deems it necessary.

582 Texas Commission on Environmental Quality

During FY 2005 approximately 6% of all assessed (billed) fees and administrative penalties were not collected. However, this figure should be adjusted for aged administrative penalties that were incorporated into the TCEQ's Accounts Receivable System in FY 2005 as "balance forward" invoices. These amounts were actually assessed in prior fiscal years. Adjusting for this effect results in a non-collection rate of only 2.3% of all assessed (billed) fees and administrative penalties. It should be noted as well that most of TCEQ's fees are either self-paid or are collected by another state agency (DPS and Comptroller); this narrative refers only to fees directly billed and collected by the TCEQ.

The fees with the highest rates of assessed but uncollected amounts are the Underground Storage Tank Registration fee (UST - 8.3%) and the Dry Cleaning Registration fee (DCR - 11.2%). The UST fee has been collected since 1988 and has historically had a higher incidence of uncollectible accounts. This can be attributed to the number of small businesses that have to pay this fee and frequent changes of tank ownership. Registration certificates required to receive delivery of fuel into the tanks are now withheld if outstanding fees or penalties are owed.

The DCR fee has only been collected since 2004 and collection issues generally can be traced to the growing pains of a new program, particularly with respect to the need for a public face on enforcement and compliance initiatives. Additionally, TCEQ's automated collection processes were not available for this fee until FY 2006, when statute and system programming were harmonized to produce quarterly invoices. Consequently, late fees, delinquent letters, warrant hold, and assignment to litigation or the collection agency will ramp up in FY 2006.

Fees that appear to have low collection rates include: Voluntary Clean-up (VCP), Innocent Landowners (ILP), On-site Wastewater Treatment Research Council (WTR), and Sludge Transporters (WMS). VCP and ILP are billed monthly; therefore, much of the uncollected FY 2005 amount was billed in August 2005. WMS was billed in July 2005 and was not due until August 31. WTR is billed quarterly and outstanding invoices are primarily the result of an August billing due in September 2005.

New Collection Efforts in FY 2005:

In November 2004, the TCEQ contracted with a collection agency to collect delinquent fees and administrative penalties that did not meet the Attorney General (AG) thresholds for amount owed or age of account. In late February 2005, TCEQ began placing accounts with the collection agency. In approximately 6 months, the collection agency collected approximately \$550,000 in delinquent fees and penalties for the TCEQ.

Agency

Comments

TCEQ Financial Administration and Litigation Divisions have implemented an identification and case referral process that results in more timely referral of collection cases to the AG.

TCEQ's Enforcement Process Review resulted in a recommendation and pending policy that will prevent the issuance of permits to customers with delinquent fees and penalties in excess of \$200. The policy is pending approval; however, on-line Crystal reports of delinquent accounts are refreshed daily and are available now to all TCEQ staff.

Uncollectible Accounts:

The Texas Constitution does not allow TCEQ to "write-off" uncollected amounts; however, TCEQ follows the AG's collection procedures in 1 TAC, Chapter 59. Two demand letters are sent on a delinquent account. Accounts are then placed on warrant hold. Once an account is delinquent for 90 days, the account is referred to the TCEQ Litigation Division if the account meets thresholds for amount and age. If not, the account is referred to the collection agency.

If the AG or TCEQ Litigation Division determine that the account is uncollectible, the account is flagged as such in TCEQ's Accounts Receivable system. After 120 consecutive days of nonpayment, the collection agency returns referred accounts back to TCEQ. These accounts are also flagged as uncollectible. This designation prevents additional overt collection activities such as the mailing of billing statements and demand letters. However, warrant hold and TCEQ review processes for issuing permits may still result in collection of the account. As of August 31, 2005, TCEQ had \$7,866,298 flagged as uncollectible or bankrupt.

ARTICLE VII: BUSINESS & ECONOMIC DEVELOPMENT

332 Texas Department of Housing and Community Affairs
On occasion, the Texas Department of Housing and Community Affairs experiences low fee collection relating to its Multi-Family Administrative Fees. This low collection is attributable to "developers" having cash flow problems and unpaid fees. The Department mails past due notices to its "developers" who are 45 days delinquent and subsequent calls are made after 60 days delinquent to development owners and/or management companies. Contact is continuous until collection issues are resolved. To further increase the chances of the Department collecting its fees, "developers" with outstanding fees are ineligible to participate in future funding awards from the Department. Utilizing this rule, the Department has significantly reduced its delinquency rate among its "developers."

601 Texas Department of Transportation
In FY2005, \$285,000 in Motor Carrier Penalties were assessed, and \$31, 258 of that amount was collected. The low collection amount is primarily due to the fact that many of the carriers assessed these penalties are either out of business, bankrupt, or both. In some cases the Attorney General may proceed with initiating a judgment, but as stated, many carriers in this situation simply do not have the assets to pay the penalty or will not pay the penalty, regardless of legal action.
TxDOT continues to work with the Attorney General and the Carriers to attempt to collect all past due penalties/fines.

ARTICLE VIII: REGULATORY

451 Department of Banking
Financial Institution Regulation - Two currency exchange license holders voluntarily cancelled their licenses and the fees will never be collected; one trust company certification fee was received after September 1; and the Department is attempting to collect four outstanding trust company certification fees and one trust company exam fee.

Comments

Professional Fees - Administrative action has been taken against one perpetual care cemetery for collection of the delinquent balance and three sale of check licensees paid subsequent to fiscal year end.

Insurance Companies - Administrative action has been taken against two prepaid funeral contract sellers for collection of the delinquent balances and six other prepaid funeral contract sellers were billed their assessments but chose not to renew. These funds will never be collected.

Prepaid Funeral Contracts - Two prepaid funeral contract sellers paid their assessments after fiscal year end; one prepaid funeral contract seller fine has been referred to the Attorney General's Office for collection; administrative action has been taken against two prepaid funeral contract sellers for collection of the delinquent balances; and two prepaid funeral contract sellers elected not to keep their licenses. These funds will never be collected.

464 Texas Board of Professional Land Surveying License renewals are due December 31 of each year. Surveyors can still renew and pay penalties after this date. If a surveyor does not renew, we send out reminder letters but make no other contact to collect these fees. Their license will expire and they cannot offer land surveying services. If a surveyor is assessed a fine due to a violation of our Act and Rules, most will pay promptly, some will relinquish their license. We follow up on non-compliance by registered mail.

473 Public Utility Commission The amount of \$8,000 assessed but not collected is the balance due on as payment schedule established with the company and is current on its payments.

466 Office of Consumer Credit Commissioner The Office of Consumer Credit Commissioner is a regulatory agency. We regulate finance companies, payday lenders, mortgage companies, pawnshops, motor vehicle sales finance companies, and registered creditors. The agency will not license or register an entity before all fees and/or penalties are paid.

During the renewal period if a licensee or registrant decides not to pay their fees and surrenders their license/registration, the fees would never be collected and are not considered owed. If a licensee does not pay their fees and continues to be in the business, we take administrative action against them and either collect the fees or revoke their license.

All publications and consumer education displays must be prepaid before shipping.

We currently allow applicants to pay late filing fees or administrative penalties over a 90 day time frame, if requested, but they are not allowed to be in the business and a license is not issued until all charges are paid.

456 Texas State Board of Plumbing Examiners During the 78th Legislative Session, the Board was granted the authority under Section 1301 of the Occupations Code (the Plumbing License Law) to dispense administrative fines and penalties to persons who had violated the Plumbing License Law and/or Board Rules. This was a new process for the Board which began during fiscal year 2004. As of August 31, 2005, only four (4) individuals had not paid their assessed administrative penalties. These penalties became past due during August 2005. The total amount of administrative penalties assessed during fiscal year 2005 was \$232,050. Of this amount, \$36,000 had been uncollected as of August 31, 2005, or 15.5%. The collection rate for fiscal year 2005 was 84.5%.

Agency

Comments

The Board will be forwarding these four (4) accounts to the Office of the Attorney General's Collection Division for further collection action under Section 1301.712 of the Occupations Code. Additionally, the Board has either revoked or will not renew the license or registration of a person who has not paid their administrative penalty. In cases where the individual has no license or registration, the Board's Enforcement department will be used to ensure these individuals are no longer engaged in plumbing activities in the State of Texas.

As of November 1, 2005, the Board has not written off any administrative penalties.

512 Texas State Board of Podiatric Medical
Examiners

We had several doctors who were in delinquent status at the end of the fiscal year. The amount of those delinquent individuals was \$9660. We mailed out notices to these doctors indicating that their license would be cancelled 11/01/05 if it was not renewed. TOC 202.301
During fiscal year 2005 we had three hospitals who have not paid their invoices for license verifications. The amounts of each invoice are \$5.00. We have sent out second notices to each of the three hospitals. We will not process any more license verifications for those hospitals until they pay the outstanding invoices.
Penalty fees include amounts up to \$2,500 per day per violation as issued in accordance with the board's penalty schedule. TOC 202.552 See attached schedule.

504 State Board of Dental Examiners

When renewals are sent out 60 days prior to renewal date, the licensee is notified of penalties that will be assessed if renewal not received timely. Penalty for 90 days or less 1 1/2 times the normal renewal fee. Penalty for more than 90 days, but less than 1 year 2 times the normal renewal fee. A final notice of pending cancellation is sent to all licensees who are delinquent for one year. This is sent 60 days prior to cancellation. At that point, if the licensee has not renewed, their license is cancelled and they are required to reapply for licensure.

450 Department of Savings and Mortgage Lending

Licensees were assessed \$137,500 during FY05 in penalties related to examination findings. The unpaid amount of \$39,700 is comprised of \$23,600 collected during FY06 and \$16,100 which has been appealed and is in abeyance until the hearing.

Licensees were assessed \$394,250 during FY05 in penalties related to non-filing or late filing of annual reports. Collections during FY05 included penalties collected for annual reports with initial due dates in 2003, 2004, and 2005. Most of the remaining balance is not collectible because the licensee is either no longer in the business and has chosen not to renew or because they have surrendered their license or had it revoked. The agency will not issue a license before all fees and/or penalties are paid. If a licensee does not pay their fees and continues to be in the business, we take administrative action against them and either collect the fees or revoke their license.

Licensees were assessed \$105,000 during FY05 in penalties related to non-filing of annual reports, combined with failure to respond to an order of the commissioner. These licenses have been revoked and the penalties are not deemed to be collectible. If a person decides to reenter the business, the agency will not issue a license before all fees and/or penalties are paid. If a licensee does not pay their fees and reenters the business, we take administrative action against them and collect the fees before issuing a license.

Licensees were assessed \$4,500 during FY05 in penalties related to failure to respond to a request of the agency. Much of the uncollected \$1,500 is not collectible because the agency has revoked the license and the person is no longer in the business.

Licensees were assessed \$13,750 during FY05 in penalties pursuant to agreed orders. \$1,500 was paid during FY06. \$1,000 of the remaining \$1,500 will not be collected because the person violated the order and the license has been revoked.

Past Due Collection Summary

(As Submitted by Agencies)

Agency

Comments

454 Texas Department of Insurance

During fiscal year 2005 approximately 20% or \$9 million of fees, fines, or penalties assessed by the agency were not collected. Approximately \$8.0 million (90% of the uncollected amounts) represents penalties.

The \$8 million consists of:

- \$3,036,500 - delinquent debt, already past due;
- \$4,235,500 - debt not delinquent, but may be difficult to collect; this is generally unauthorized insurance and license revocation;
- \$513,242 – penalties that are due in FY 06;
- \$118,750- penalties that are due in FY 07 or FY 08; and
- \$150,664 - penalties remaining to be paid on installment plans.

Why don't violators pay fines?

- Individuals and entities that hold no license to engage in the business of insurance have no incentive to pay fines assessed by TDI. Approximately \$7.3 million, or 90% of the \$8 Million, falls into this category.

- A subset of this category consists of agents whose licenses have been revoked. Because they are no longer eligible to sell insurance, they often refuse to comply with orders requiring payment of a fine. Many of these fines are relatively small, making collection efforts difficult to justify from a cost/benefit standpoint.

- Another subset of this group is individuals and companies who have never held a license issued by TDI. Many of the entities are located out of state or out of the country.

Some of them file bankruptcy; many of them dissolve and the principals relocate, sometimes taking on aliases. Because of TDI's aggressive action toward unlicensed entities, who often operate outside the borders of Texas, we expect that a significant percentage of fines will not be collectible.

Tools to Force Payment

- Obtain warrant hold, thereby precluding receipt by debtor of any state funds
- Revocation of license, if debtor holds a license
- Referral to Attorney General for litigation

In FY 05, TDI made significant improvements in its procedures to collect penalties pursuant to recommendations of TDI's Internal Audit Division.

Improvements in Collection Efforts

- Changes in data collection;
- Changes in personnel;
- Enhanced collection efforts through demand letters; and
- Increased communication with the Office of Attorney General regarding potential litigation against delinquent individuals.

These enhancements have produced increased collection percentages. For instance, TDI collected 30% of penalties in FY 2004. This percentage increased to 35% in FY 2005.

453 Workers' Compensation Commission

There was a significant increase in amounts due in FY 2005 due to the Compliance and Practices division completing several performance review on carriers. The Compliance and Practices division conducted follow-up audits to audits performed in 2001 and 2002 to determine if carriers had improved compliance in the timely paying or denying of medical bills. Overall most of the carriers did not improve their performance which resulted in an increase of notice of violations being issued.

Past Due Collection Summary

(As Submitted by Agencies)

Agency

Comments

Additionally, the Compliance and Practices division conducted monthly performance reviews of all first payments of temporary income benefits. These reviews also resulted in an increase penalty activity. During fiscal year 2005, approximately 41% of penalties assessed were not collected due to an increase in appeal activity by the carriers. The increase in appeal activity was expected due to the increase in penalty activity. \$4.2 million of the \$4.8 million due at August 31 is being appealed so collection efforts are on hold until the cases are adjudicated by the State Office of Administrative Hearings. Following a hearing, an administrative law judge will either 1) affirm the violation finding and order the penalty to be paid , or 2) dismiss the charge if the petitioner's evidence and arguments are persuasive enough.

The following process is in place for amounts due that are not in appeal status. Demand letters are sent when the collections are 30 and 60 days past due. After the 60 day letter is sent, the debtor is contacted and verbally informed of the warrant hold process and the effect of warrant hold. After the debt is 90 days past due, the debtor is placed on warrant hold. The Legal Services division makes a determination on debts to refer to the OAG. The DWC and OAG have agreed that debts less than \$1,500 will not be considered for referral. Other criteria used in determining referral to the OAG include lack of information concerning location and assets; age; expense to DWC and to the OAG in attempting to collect the obligation; and/or the availability of resources both within DWC and the OAG to devote to the collection of the obligation.

Each fiscal end, any remaining past due bills that have not been referred to the OAG because they do not meet DWC's referral criteria and have been outstanding over 120 days are written off as uncollectible.
