List of Board-approved Evaluation Credentialers As of 2/10/06

- Texas accepts educational evaluations only from the credentialers on this page.
- Credentialers are independent organizations not connected to the Board. The Board has no authority over them, and does not set their fees or processing times. The credentialing process can take from 4 -12 months, depending on a number of factors. Before you submit your materials to a credentialer, we recommend that you contact each credentialer for specific information about how long the process can take, what documentation is required from you and your university, and what the fees are for evaluation and for revision of an evaluation at a later date.
- If you disagree with the credentialer's evaluation, you may appeal that decision to the Board in writing. If you are not satisfied with the time your evaluation is taking, or the responsiveness of the credentialer, we recommend that you consider contacting one of the other credentialers.
- The credentialer must send a copy of your evaluation directly to the Board. We cannot comment on your evaluation until we receive our copy from the credentialer.
