7. **Higher Education Institutions Participating in the Employees Retirement System Group Benefit Program.** General Revenue funds appropriated herein shall be supplemented by funds appropriated elsewhere in this Act for employees enrolled in the State Kids Insurance Program (SKIP) to provide for a premium-sharing structure comparable to the Children's Health Insurance Program (CHIP). Institutions of higher education participating in the Employees Retirement System Group Benefit Program paying for health insurance costs from non-General Revenue Funds shall provide the same levels of premium-sharing for SKIP enrollees as provided for those higher education employees with health insurance paid from General Revenue Funds.
8. **Administrative Accountability**
  - a. In each state fiscal year of the biennium, an institution of higher education, including a system office, may not spend funds appropriated to the institution by this Act unless, not later than December 1, the institution submits to the Legislative Budget Board, the chair of the House Appropriations Committee, and the chair of the Senate Finance Committee a report that includes the total number of persons holding high-ranking administrative positions at the institution.

**SPECIAL PROVISIONS RELATING ONLY TO

- d. Not later than the seventh day after the date an institution of higher education submits the report required by subsection (a), the institution shall make a copy of the report available for public inspection in the library of the institution.

**Sec. 6. Expenditure Provisions.** The expenditure of the appropriations made in this Article or authorized in law for institutions of higher education, except bequests and gifts specifically designated to be in some manner handled otherwise, shall be subject to the provisions of this section which follow and with exceptions only as specifically noted:

- 1. **Annual Operating Budgets Required.** It is expressly provided that the governing board of each of the institutions of higher education named herein shall approve on or before September 1, 2007 and 2008, an itemized budget covering the operation of the ensuing fiscal year, which budget shall be prepared within the limits of the revenue available. Each institution's operating budget shall contain a section(s) which provides budget amounts and the method of finance for each listed informational item of appropriated funds contained in this Act. A copy of each budget, and any subsequent amendments thereto, shall be filed with the Legislative Reference Library and the institution's general library to be available for public inspection. Copies of each budget shall also be filed with the Legislative Budget Board, the Governor, and the Texas Higher Education Coordinating Board by December 1 of each fiscal year.
  
- 2. **Clearing Accounts.** At their option, the institutions may use their local depository bank account in lieu of the special clearing account, authorized by Education Code, § 51.008(b), provided that the general requirements set out in therein, for deposits and transfers to the state treasury, are complied with.
  
- 3. **Revolving Funds.**
  - a. Each institution affected by this section, at its option, is hereby authorized to maintain a revolving fund to facilitate the payment of nominal expenses and to pay bills within cash discount periods. The institutions may use the revolving fund for regular monthly payrolls as well as for weekly and special payrolls. Disbursements from the revolving funds are to be reimbursed from respective items of educational and general appropriation made herein, the Comptroller of Public Accounts being hereby authorized to make such reimbursements on claims filed with her by the institutions under her regularly prescribed procedures

except that one voucher and one warrant may cover any number of claims for this purpose. These reimbursement claims shall meet the same requirements as other claims against state appropriations, and each institution shall prepare such a reimbursement claim as at the close of business on the last day of each month and as many times during the month as may be expedient in order to make unnecessary the maintaining of an unreasonably large revolving fund.

- b. The respective governing board shall determine the amounts of the revolving funds to be set up for each institution, and may increase or decrease the amounts if necessary. Such governing board shall designate a depository bank for each revolving fund, and shall specify the officers and/or employees to sign checks drawn on each such fund. The depository bank for each revolving fund shall be required to secure the deposit as provided by law.
        - c. Appropriations to all institutions of higher education and systems, except funds identified exclusively for salaries, may be used to reimburse any revolving fund operated for the benefit of one or more parts or component units of an institution or system, such as a motor pool for managing automotive vehicles authorized by this Act, a feed supply center, an office supply or laboratory supply center, a computer center, or any other operations of a similar nature established by authority of the governing board of said institution or system.
4. **Local Depositories.** The governing boards of the respective institutions for which appropriations are made in this Article are hereby authorized to select depository banks for the safekeeping of funds which are authorized, by statute, to be maintained outside the state treasury. The boards shall require depository banks to furnish adequate surety bonds or securities to be posted for the assurance of safety of such deposits. The depository bank or banks so selected are hereby authorized to pledge their securities for assurance of safety for such funds. All such local funds shall be deposited in these depositories within seven (7) days from date of collection. The governing boards may require the depository so designated and selected to pay interest on deposits at a rate to be agreed upon by said depositories and said boards.
5. **Investment Reports.**
  - a. The governing board of each of the educational institutions named in this Article shall file with the State Auditor, Comptroller of Public Accounts, Legislative Budget Board, and the Governor an annual report of all investment transactions involving endowment funds, short-term and long-term investment funds, and all other securities transactions, in a method prescribed by the State Auditor's Office. Copies of such reports shall be available for public inspection. In addition to the annual report, each institution shall publish on its website quarterly investment reports in any format it deems appropriate.
  - b. The governing boards of each educational institution named in this Article must adopt formal investment policies. Each governing board shall submit to the Legislative Budget Board and State Auditor's Office a copy of their investment policy by December 31 of each year.
6. **Central Services Accounts.**
  - a. Out of funds appropriated in this Article, the governing boards of the university systems and their component units, and institutions of higher education may employ persons to serve two or more parts or component units of the system or institution and may pay their salaries in whole or in part from the informational items of appropriation made herein to any component unit. The governing boards are authorized to establish accounts from which salaries and expenses for the administration and supervision of the units of the system or institution may be paid and to require the units, including any other agency the administration of which it may be charged with by law, to pay into this account from any general revenue, local, or institutional funds their proportionate share as determined by the board for the expense of such administration and supervision. The Comptroller of Public Accounts is authorized to set up an account for each of the systems or institutions and to deposit in the account funds to the amount authorized by the governing boards and executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is

authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment, or travel incidental to the administration and supervision of the respective units.

- b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:

Texas A&M University System Central Services Account  
The University of Texas System Central Services Account  
University of Houston System Central Services Account  
Texas Tech University System Central Services Account  
University of North Texas System Central Services Account  
Texas State University System Central Services Account

- c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.

7. **Utility Revolving Funds.** The governing boards of Texas Woman's University, West Texas A&M University, all components of the University of Houston System, Texas State University System, Texas Tech University System, University of North Texas System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established in Education Code, § 55.11, and the creation and maintenance of any such revolving fund is hereby authorized.

8. **Appropriation Expenditure Authorization.**

- a. The educational and general appropriations made in this Act to the general academic teaching institutions, health related institutions, and Texas State Technical College may be expended for the following purposes, including, but not limited to: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support; Operation and Maintenance of Plant; Scholarships; Staff Benefits; Organized Activities; and Patient Care. Major repairs and rehabilitation of buildings and facilities may be purchased from appropriated funds, but may not be purchased from general revenue funds that are not expressly identified or allocated for such purposes.
- b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises, unless specifically authorized in this Act.

9. **Tuition Revenue Bonds and Revenue Bonds.** Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences centers for revenue or tuition revenue bond retirement may be expended only to reimburse institutions or centers for debt retirement authorized by Education Code § 55.17 through § 55.17592 and § 55.19 and any additional authorization enacted by the Eightieth Legislature. Any funds in excess of the amount expended for debt retirement shall be reverted to the General Revenue Fund at the end of each fiscal year.

**Sec. 7. Recruitment of Students.** No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

**Sec. 8. Television Stations Prohibited.** None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction, or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

(Continued)

**Sec. 9. Intercollegiate Athletics.** The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall use the appropriations in this Act to make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution; and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

**Sec. 10. Prohibition Against Additional Museums.** None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants, or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use educational and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

### **Sec. 11. Method of Financing Scholarships.**

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of Education Code § 56.031 to § 56.039, cited as the Texas Public Educational Grants Program.
2. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.
3. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.
4. Out of the additional funds appropriated for the 2008-09 biennium for the informational strategy described as "Scholarships," the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color, or ethnicity of the student recipient.

**Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited.** None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

### **Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.**

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 35

## **SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES OF HIGHER EDUCATION**

percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 35 percent in the case of The University of Texas Law School, Texas Tech University Law School, and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.

2. In addition, The University of Texas Southwestern Medical Center at Dallas may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.
3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

**Sec. 14. Off-campus Instruction.** General academic institutions may use the funds appropriated in this Act to teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Governor and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.
2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M University's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston, are not considered to be off-campus.
3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of

Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

**Sec. 15. Medical School Enrollment.** None of the funds appropriated above to The University of Texas System medical colleges, the University of North Texas Health Science Center at Fort Worth, or the Texas Tech University Health Sciences Center College of Medicine may be used for the education of first year medical students unless the first year class enrollment of undergraduate medical students in the fiscal years ending August 31, 2008, and August 31, 2009, is no less than 200 students at The University of Texas System medical colleges and 100 students at the University of North Texas Health Science Center at Fort Worth and the Texas Tech University Health Sciences Center College of Medicine. This provision shall not be construed as requiring any school of medicine to accept an unqualified applicant. In the event that a school of medicine falls below the required first year class enrollment of undergraduate medical students by more than 5 percent for fiscal years 2008 and 2009, the school shall report to the Legislative Budget Board the reasons for failing to meet the required enrollment. This information should be taken into account when preparing the appropriation recommendations for the Eighty-first Legislature.

**Sec. 16. Tuition and Other Educational and General Local Fee Collection.** No institution of higher education shall receive appropriations through formula funding in this Act unless it collects from each student whose semester credit hours are to be included in formula funding calculations all tuition and all fees in accordance with the installment tuition and fee payment plan provided for by the Education Code, (Chapter 54, as amended) on or before the end of the 20th class day for each regular semester and the 15th class day for each summer session. Valid contracts with the United States Government for instruction of eligible military personnel and valid contracts with private business and public service-type organizations or institutions such as hospitals may be considered as collections

thereunder but subject to adjustments after final payment thereof. Financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

**Sec. 17. Compliance with Uniform Recruitment and Retention Strategy.** Institutions of higher education shall use the appropriations in this Act to give top priority and consideration to compliance with the spirit and mandates of the Uniform Recruitment and Retention Strategy.

**Sec. 18. Formula Variable and Educational and General Income Audits.** The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board shall clearly define all variables used by the Eightieth Legislature in arriving at formula appropriations for fiscal years 2008 and 2009. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making fiscal years 2008 and 2009 formula appropriations are subject to audit by the State Auditor. The State Auditor shall report any differences from data submitted by the institutions to the Coordinating Board, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2008 and 2009 are subject to audit by the State Auditor.

The State Auditor may request the assistance of an institution's internal auditor in performing the audits described in this section.

**Sec. 19. System Offices Funding Authorized.** Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System, and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.

**Sec. 20. Annual Reports of Health Related Institutions Practice Plans.** As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library, and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

**Sec. 21. Self-insurance Funds.** Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Government Code § 2259.001 for a risk otherwise insurable by the institution of higher education shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in § 51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

**Sec. 22. Un-sponsored Charity Care Reporting Requirement.** The public health-related institutions listed in Sec. 22, 1. Financially Indigent, shall use the appropriations in this Act to include in their biennial legislative appropriations request information including the actual amount of uncompensated charity care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the definition of un-sponsored charity care set forth in the following sub-sections.

1. **Financially Indigent.** Un-sponsored charity care shall include unreimbursed services to the financially indigent. Financially indigent shall mean uninsured or underinsured patients accepted for care with no obligation or a discounted obligation to pay for services rendered based on a teaching hospital's or clinic's formal eligibility system which may include: (a) income levels and means testing or other criteria for determining a patient's inability to pay; or (b) other criteria for determining a patient's inability to pay that are consistent with the hospital's or clinic's mission

and established policy. The federal poverty level shall serve as an index for the threshold below which patients receiving care at The University of Texas Southwestern Medical Center at Dallas, The University of Texas Medical Branch at Galveston, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, The University of Texas M.D. Anderson Cancer Center, The University of Texas Health Center at Tyler, Texas A&M University System Health Science Center, The Texas Tech University Health Sciences Center, and The University of North Texas Health Science Center are deemed financially indigent. Financially indigent services include both noncovered services and contractual allowances for patients eligible for the Medicaid program and for the Children with Special Health Care Needs program, services provided under county indigent care contracts (Sec. 23), and services provided under other state or local government programs with eligibility indexed to the federal poverty level.

2. **Medically Indigent.** Unsponsored charity care shall include unreimbursed services to the medically indigent. Medically indigent shall mean patients who are responsible for their living expenses, but whose medical and hospital bills, after payment by third-party payers, where applicable, exceed: (a) a specified percentage of the patient's annual gross income (i.e., catastrophic medical expenses) in accordance with a teaching hospital or clinic's formal eligibility system in such instances where payment would require liquidation of assets critical to living or earning a living; or (b) the criteria for determining a patient's inability to pay as established by the public health-related institutions listed in Sec. 22, 1. Financially Indigent.
3. **Charity Care Determination.** The determination that a patient is financially or medically indigent shall occur within 120 days of the patient's discharge from the hospital or clinic setting or within 120 days of the third party payor settlement.
4. **Contractual Adjustments.** The contractual adjustments to commercial contracts, managed care contracts, and Medicare for the public health-related institutions listed in Sec. 22, 1. Financially Indigent, shall not be counted as unsponsored charity care.
5. **Bad Debt.** Bad debts shall not be counted as unsponsored charity costs. Bad debts shall include the uncollected billed charges for services rendered to patients who do not qualify under the definition of unsponsored charity care.
6. **Patient Income Eligibility Guidelines.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall use the federal poverty level indexed at an agreed-upon level as the guideline for determining indigent patient status, and those institutions' eligibility guidelines regarding copayment by patients deemed financially or medically indigent shall be the same.

The University of Texas Southwestern Medical Center at Dallas, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, Texas A&M University System Health Science Center, the Texas Tech University Health Sciences Center, and The University of North Texas Health Science Center may use as a basis for reporting indigent care statistical samples derived from indigent care determinations made by their affiliated teaching hospitals and designed to estimate the amounts of charity care provided using the definitions established by The University of Texas hospitals noted above.

7. **Physician Practice Plan Upper Payment Limit.** Any amounts received by the Physician Practice Plan from Upper Payment Limit shall be counted as payments received for unsponsored charity care.

### Sec. 23. County Indigent Care Contracts.

1. **Contracts Required.** It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.
2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Board and the Governor at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county

STATE AGENCIES OF HIGHER EDUCATION**

pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

**Sec. 24. Ethics Policy.**

1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board an ethics policy which has been adopted by the board of regents. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.
2. The ethics policy adopted by each board of regents shall include specific provisions regarding sexual harassment.

**Sec. 25. Driscoll Children's Hospital.** No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases, or in assuming the direct care of those children. This rider language shall not restrict the traditional referral patterns utilized by physicians to refer patients to health-related institutions.

**Sec. 26. Participation in Drug Development Research Projects.** A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under § 576.022, Health and Safety Code.

**Sec. 27. Post Tenure Review.** None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Post tenure policies shall include review procedures to determine that a tenured faculty member is performing consistently at an acceptable, professional level and a mechanism whereby a faculty member is informed of any deficiencies and provided opportunities to effectively improve his or her performance.

**Sec. 28. General Academic Funding.** Appropriations made in this Act for formula funding for general academic institutions will consist of four formulas and supplemental items.

1. **Instruction and Operations Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2008-09 biennium is \$59.02.

Weighting is determined by the following matrix:

2. **Teaching Experience Supplement.** For the 2008-09 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.
3. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy. The average rate per square foot is \$6.19.
4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, organized activities, scholarships, tuition revenue bond payments, Skiles Act bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.
5. The General Academic Instruction and Operations and Infrastructure formulas shall incorporate the Higher Education Coordinating Board's October 2006 recommendations for mission-specific formula funding for Texas A&M University at Galveston.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2008.

**Sec. 29. Health Related Institutions Funding.** Appropriations made in this Act for formula funding for health related institutions shall consist of three formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of \$10,841:

| <u>Program</u>     | <u>Weight Per Student</u> |
|--------------------|---------------------------|
| Allied Health      | 1.000                     |
| Biomedical Science | 1.018                     |
| Nursing            | 1.138                     |
| Pharmacy           | 1.670                     |
| Public Health      | 1.721                     |
| Dental             | 4.601                     |
| Medical            | 4.753                     |

Instructional programs with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health-related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model

developed by the Texas Higher Education Coordinating Board. The rate per square foot is \$7.98 for all health related institutions, excluding The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Center at Tyler. For these two institutions, the per square foot rate is \$7.20.

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall be included in the total funding for hospital and patient care activities.

3. **Research Funding.** The health-related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of \$1,412,500 plus 1.5 percent of its research expenditures as reported to the Texas Higher Education Coordinating Board.
4. **Graduate Medical Education Formula.** The Graduate Medical Education Formulas shall provide funding on a per medical resident basis. Funding is based on a base value of \$11,268 per medical resident in an accredited program. Appropriations for Graduate Medical Education for fiscal year 2008 are \$5,634 per resident and appropriations for fiscal year 2009 are \$5,634 per resident.
5. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health-related institutions bill pattern titled Graduate Medical Education (GME) shall be spent to increase the number of resident slots in the State of Texas as well as faculty costs relating to GME. In addition, each health-related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.
6. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Hospital and clinic operations shall be funded through a combination of hospital and clinic revenue and general revenue.
7. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2008.
8. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:
  - a. **Pilot program.** It is the intent of the Eightieth Legislature that the General Revenue Operations formula funding provided to The University of Texas M.D. Anderson Cancer Center in Strategy A.4.1, Cancer Center Operations is part of a Pilot Program as described below. The University of Texas M.D. Anderson Cancer Center has a statutory mission to eliminate cancer through patient care, research, education, and prevention. General Revenue funds appropriated to The University of Texas M.D. Anderson Cancer Center in Strategy A.4.1, Cancer Center Operations, shall be based on the total number of Texas cancer patients served at The University of Texas M. D. Anderson Cancer Center. General Revenue appropriations for fiscal years 2008 and 2009 shall be based on the number of total Texas cancer patients served in 2004. The rate per patient shall be \$2,900 in fiscal year 2008 and \$2,900 in fiscal year 2009 for Strategy A.4.1, Cancer Center Operations. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium. The Higher Education Coordinating Board shall monitor and report the validity in funding The University of Texas M.D. Anderson Cancer Center in this manner by December 1, 2008. In the event the report indicates that this new methodology of funding The University of Texas M.D.

Anderson Cancer Center's Operations formula funding is not appropriate, then it is the intent of the Eightieth Legislature to return funding its cancer center operations to the previous mission specific calculation and funding.

- b. The University of Texas Health Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with respiratory diseases. General Revenue funds appropriated to The University of Texas Health Center at Tyler in Strategy A.1.1, Medical Education and Research Items, shall be based on the number of new primary chest disease diagnoses each year in Texas as reported by participating Texas hospitals in the Texas Hospital Association Patient Data System program. General Revenue appropriations for fiscal year 2008 shall be based on the number of new primary chest disease diagnoses reported in 2004, and General Revenue appropriations for fiscal year 2009 shall be based on the number of new primary chest disease diagnoses reported in 2005. The rate per primary chest diagnosis shall be \$6.68 for fiscal year 2008 and \$6.18 for fiscal year 2009.
- c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

**Sec. 30. Optional Retirement Program Differential.** Included in the appropriation to institutions of higher education in this act are general revenue amounts to offset local funds used for the optional retirement program employer contributions between 6.58 percent and 7.31 percent of salaries for employees who were on the state payroll or who were employed by a Public Community or Junior College as of August 31, 1995. These general revenue amounts are included in the funding formulas for general academic institutions and two-year institutions and in the base funding for other institutions of higher education.

**Sec. 31. Indirect Cost Recovery Earned by Texas A&M System Agencies.** The Texas A&M University System agencies shall report to the Legislative Budget Board in their Legislative Appropriations Requests for the 2010-11 biennium all indirect cost recovery revenue earned on research grants and contracts including amounts collected by the Research Foundation.

**Sec. 32. Fire Safety Projects at Institutions of Higher Education.** Because of the urgent nature of these projects, it is the intent of the Legislature that institutions of higher education that have major fire safety projects, identified by the State Fire Marshal's Office as not meeting the requirements of the National Fire Protection Association, *Life Safety Code 101*, 2006 Edition, remedy the fire safety issues and complete any related construction and renovation projects as soon as practical. Institutions shall consult with the State Fire Marshal's Office and develop a time line for completion of the projects. Institutions shall implement the interim safety precautions recommended by the State Fire Marshal's Office. The State Fire Marshal shall submit periodic reports to the House Appropriations Committee and Senate Finance Committee on the progress of institutions in remedying the fire safety issues.

Institutions of higher education shall notify parents of students living in dormitories identified by the State Fire Marshal's Office. The notice shall contain information about the actions needed to rectify noncompliance and the time frame in which the institution plans to make improvements in order to comply.

**Sec. 33. Funding for Physical Education Courses.** No funds appropriated under this act shall be used for contact hours or semester credit hours for students who are registered solely for physical education, weight lifting, group exercises, aerobics, or related courses; have registered for the same such course more than once; and are not seeking a degree plan or certificate of completion of a course of study.

**Sec. 34. Faculty Salary Increase Report.** The Texas Higher Education Coordinating Board shall report the average salary increase provided to faculty at each general academic institution to the Legislative Budget Board and Governor by January 31 of each fiscal year on a form prescribed by the Texas Higher Education Coordinating Board.

**Sec. 35. Endowed Chairs.** Out of funds appropriated to the Texas Higher Education Coordinating Board for Baylor College of Medicine, Houston; University of Texas Health Science Center at Houston; and University of Texas Medical Branch at Galveston, each may expend up to \$1,000,000 out of funds appropriated in this Act to fund one endowed chair or professorship for spinal cord injury research.

**Sec. 36. Nursing School Enrollment.** The Legislature encourages institutions of higher education who receive state appropriations not to reduce the number of student full-time equivalents enrolled in programs preparing students for licensure as registered nurses in state fiscal years ending August 31, 2008, and August 31, 2009, below the number of student full-time equivalents enrolled for the state fiscal year ending August 31, 2007. This provision shall not be construed as requiring any school to accept an unqualified applicant to its professional nursing program. In the event that a school falls below the required number of students enrolled in professional nursing program by more than 5 percent for the state fiscal year ending August 31, 2008, and the state fiscal year ending August 31, 2009, the school shall report to the Legislative Budget Board and the Texas Higher Education Coordinating Board the reasons for failing to meet the required enrollment.

**Sec. 37. Endowed Programs.** A state university that, within five years of receiving a donation, diminishes its financial support from local funds for a program created or endowed by the donor shall notify the donor in accordance with the donor agreement. If the agreement so provides, then upon application by the donor, the university shall return the donation or endowment.

**Sec. 38. Student Travel Policy.** Each governing board of an institution of higher education shall use the appropriations above to adopt a policy regulating travel that is undertaken by one or more students presently enrolled at the institution to reach an activity or event that is located more than 25 miles from the institution that is organized and sponsored by the institution and that is funded by the institution, and the travel is undertaken using a vehicle owned or leased by the institution or required by a student organization registered at the institution.

**Sec. 39. Special Item Support.** Any appropriations made to special item support strategies throughout this article are intended to supplement existing programs and may not be used to supplant funds.

**Sec. 40. Informational Listing - Permanent Funds and Endowments.** The following is an informational list of the amounts used to capitalize Permanent Funds and Endowments created by House Bills 1676 and 1945, Seventy-sixth Legislature, and does not make appropriations.

**Sec. 42. The Juvenile Probation Commission shall certify or transfer state funds to the Texas Department of Family and Protective Services so that federal financial participation can be claimed for Title IV-E services provided by counties. The Juvenile Probation Commission shall direct necessary general revenue funding to ensure that the federal match for the Title IV-E Social Security Act is maximized for use by participating counties. Such federal receipts are appropriated to the Juvenile Probation Commission for the purpose of reimbursing counties for services provided to eligible children.
- 5. Juvenile Boot Camp Funding.** Out of the funds appropriated above in Strategy B.1.2, Harris County Boot Camp, the amount of \$1,000,000 annually may be expended only for the purpose of providing a juvenile boot camp in Harris County.

- 7. Funding for Progressive Sanctions.**
- a. Out of the funds appropriated above in Strategy A.1.2, Progressive Sanctions Levels 1-3, \$10,200,000 in fiscal year 2008 and \$10,200,000 in fiscal year 2009 can be distributed only to local probation departments for funding juvenile probation services associated with sanction levels described in §§ 59.003(a)(1), 59.003(a)(2), and 59.003(a)(3) of the Family Code, or for salaries of juvenile probation officers hired after the effective date of this Act. The Juvenile Probation Commission shall no later than March 1 of each fiscal year submit an expenditure report for the prior fiscal year reflecting all secure post-adjudication placement costs to the Legislative Budget Board and the Governor.
- 8. This requirement shall not be waived by the commission unless the juvenile board demonstrates to the satisfaction of the commission that unusual, catastrophic, or exceptional circumstances existed during the year in question to adversely affect the level of county fiscal effort. If the required local funding level is not met and no waiver is granted by the commission, the commission shall reduce the allocation of state aid funds to the juvenile board by the amount equal to the amount that the county funding is below the required funding.

An additional \$500,000 shall be set aside in a reserve fund for each fiscal year of the biennium to allow mandated and non-mandated counties to apply for additional funds on a grant basis.

The remaining funds shall be allocated for distribution to the counties mandated by § 37.011(a) Texas Education Code, at the rate of \$79 per student per day of attendance in the JJAEP for students who are required to be expelled as provided under § 37.007, Texas Education Code, and are intended to cover the full cost of providing education services to such students. Counties are not eligible to receive these funds until the funds initially allocated at the beginning of each fiscal year have been expended at the rate of \$79 per student per day of attendance. Counties in which populations exceed 72,000 but are 125,000 or less, may participate in the JJAEP and are eligible for state reimbursement at the rate of \$79 per student per day.

The Juvenile Probation Commission may expend any remaining funds for summer school programs in counties with a population over 72,000 which are funded as mandated counties in Chapter 37. Funds may be used for any student assigned to a JJAEP. Summer school expenditures may not exceed \$3.0 million in any fiscal year.

**JUVENILE PROBATION COMMISSION**  
(Continued)

The amount of \$79 per student day for the JJAEP is an estimated amount and not intended to be an entitlement. Appropriations for JJAEP are limited to the amounts transferred from the Foundation School Program pursuant to TEA Rider 35. The amount of \$79 per student per day may vary depending on the total number of students actually attending the JJAEPs. Any unexpended or unobligated appropriations shall lapse at the end of fiscal year 2009 to the Foundation School Fund No. 193.

The Juvenile Probation Commission may reduce, suspend, or withhold Juvenile Justice Alternative Education Program funds to counties that do not comply with standards, accountability measures, or Texas Education Code Chapter 37.

- 11. The county is eligible to receive funding from the Juvenile Probation Commission at the rate of \$79 per day per student for students who are required to be expelled under § 37.007, Texas Education Code, and who are expelled from a school district in a county that does not operate a JJAEP.
- 12. Use of JJAEP Funds.** None of the funds appropriated above for the support of JJAEPs shall be used to hire a person or entity to do lobbying.
- 13. JJAEP Accountability.** Out of funds appropriated above in Strategy D.1.1, Juvenile Justice Alternative Education Programs (JJAEP), the Juvenile Probation Commission shall ensure that Juvenile Justice Alternative Education Programs are held accountable for student academic and behavioral success. The Juvenile Probation Commission shall submit a performance assessment report to the Legislative Budget Board and the Governor by May 1, 2008. The report shall include, but is not limited to, the following:
  - a. an assessment of the degree to which each JJAEP enhanced the academic performance and behavioral improvement of attending students;
  - b. a detailed discussion on the use of standard measures used to compare program formats and to identify those JJAEPs most successful with attending students;
  - c. the percent of eligible JJAEP students statewide and by program demonstrating academic growth in the Texas Assessment of Knowledge and Skills (TAKS);
  - d. standardized cost reports from each JJAEP and their contracting independent school district(s) to determine differing cost factors and actual costs per each JJAEP program by school year;
  - e. average cost per student attendance day for JJAEP students. The cost per day information shall include an itemization of the costs of providing educational services mandated in the Texas Education Code § 37.011. This itemization shall separate the costs of mandated educational services from the cost of all other services provided in JJAEPs. Mandated educational services include facilities, staff, and instructional materials specifically related to the services mandated in Texas Education Code, § 37.011. All other services include, but are not limited to, programs such as family, group, and individual counseling, military-style training, substance abuse counseling, and parenting programs for parents of program youth; and
  - f. inclusion of a comprehensive five-year strategic plan for the continuing evaluation of JJAEPs which shall include oversight guidelines to improve: school district compliance with minimum program and accountability standards, attendance reporting, consistent collection of costs and program data, training, and technical assistance needs.
- 14.   - a. Each principal, supervisor, and classroom teacher employed in an institution operated by the Youth Commission shall receive a monthly salary to be computed as follows: The applicable monthly salary rate specified in § 21.402, Texas Education Code, as amended, shall be multiplied by ten to arrive at a ten month salary rate. Such rate shall be divided by the number of days required in § 21.401, Texas Education Code, for 10-month employees, and the resulting daily rate shall be multiplied by the number of on-duty days required of Youth Commission educators, resulting in the adjusted annual salary. The adjusted annual salary is to be divided by 12 to arrive at the monthly rate. Salary rates for educational aides commencing employment before September 1, 1999, shall be calculated in the same manner, using 60 percent of the salary rate specified in § 21.402, Texas Education Code.
  - b. The Youth Commission may authorize salary rates at amounts above the adjusted annual salary determined in the preceding formula, but such rates, including longevity for persons commencing employment on September 1, 1983, or thereafter, and excluding hazardous duty pay, shall never exceed the rates of pay for like positions paid in the public schools of the city in which the Youth Commission institution is located. Any authorized local increments will be in addition to adjusted annual salaries.
  - c. There is hereby appropriated to the Youth Commission from any unexpended balances on hand as of August 31, 2008, funds necessary to meet the requirements of this section in fiscal year 2009 in the event adjustments are made in the salary rates specified in the Texas Education Code or in salary rates paid by the public schools where Youth Commission facilities are located.

  - c. The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending under this section.

3. **Contingency Cash Flow.** If the Legislative Budget Board and Governor determine after review of relevant information that cash flow difficulties will occur as a result of the appropriations made above, the board and Governor may authorize the Texas Commission on Environmental Quality (TCEQ) to temporarily expend General Revenue funds for the purpose of meeting the temporary cash flow needs of the TCEQ, limited to the amounts appropriated above. The transfer of funds shall be repaid to the General Revenue Fund by the end of the fiscal year in which the funds were transferred under procedures and standards established by the Comptroller of Public Accounts.
4. **Authorization: Aircraft Chartering.** Notwithstanding any other provision of this Act, the Texas Commission on Environmental Quality is authorized to spend appropriated funds for the chartering of aircraft for the purposes of monitoring environmental quality, and the enforcement of environmental and water rights laws of the State.
5. **Local Air Pollution Grants Allocation.** Out of the amounts appropriated above out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, an amount not less than \$2,800,000 in each year of the biennium shall be utilized to fund grants or cooperative agreements with eligible local air pollution programs under Health and Safety Code, § 382.0622. It is provided, however, that the combined federal and state share of the funding for any such local air pollution programs shall not exceed 67 percent of the total allocation to the programs, with the local share being based on the local dollars allocated pursuant to maintenance-of-effort requirements for federal air pollution grants.
6. **Fee Revenue: Pollution Control Equipment Exemptions.** Pursuant to Tax Code, § 11.31, included in amounts appropriated above out of the General Revenue Fund in Strategy C.1.3, Pollution Prevention, Recycling, and Innovative Programs, is \$133,600 each fiscal year from fee revenue collected beginning with the effective date of this Act for the purpose of determining whether pollution control equipment is exempt from taxation.

In addition to amounts appropriated above, any amounts collected by the Texas Commission on Environmental Quality pursuant to Tax Code, § 11.31 on or after September 1, 2007, in excess of \$133,600 in each fiscal year of the biennium are hereby appropriated to the agency.

7. **Authorization: Operating Fund.** The Texas Commission on Environmental Quality (TCEQ) is hereby authorized to make transfers from any appropriation made to TCEQ into a single account in the General Revenue Fund known as the "Texas Commission on Environmental Quality Operating Fund" for the purpose of making expenditures for which appropriations were made in this Act. After the expenditures have been made from the fund and as soon as the proper strategies have been identified, TCEQ shall process adjustments to the Comptroller in summary accounts to facilitate accurate cost allocations; provided, however, that each special account and fund shall be used for the purposes as now described by law and nothing shall be done to jeopardize or divert the special accounts and funds or any portion thereof including federal aid.

## COMMISSION ON ENVIRONMENTAL QUALITY

(Continued)

- 8. Appropriation: Air Quality Planning.** Included in amounts appropriated above out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, is \$5,075,000 for the biennium for air quality planning activities to reduce ozone and other federally designated criteria pollutants as approved by the Texas Commission on Environmental Quality (TCEQ) in areas including Austin, Corpus Christi, Longview-Tyler-Marshall, San Antonio, and Victoria. These activities may include identifying, inventorying, and monitoring of current pollution levels; modeling future pollution levels; and the identification, quantification, and implementation of potential pollution reduction through appropriate controls. The areas receiving funds shall coordinate with the TCEQ to ensure that these activities are consistent with agency monitoring, inventory and modeling approaches and infrastructure.
- 9. Appropriations Limited to Revenue Collections: Occupational Licensing.** It is the intent of the Legislature that fees, fines and other miscellaneous revenues deposited to the TCEQ Occupational Licensing Account No. 468 as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for strategy item A.2.4, Occupational Licensing, as well as the "Other direct and indirect costs" associated with this strategy, appropriated elsewhere in this Act. "Other direct and indirect costs" for strategy A.2.4, Occupational Licensing, are estimated to be \$335,538 for fiscal year 2008 and \$337,118 for fiscal year 2009. The plan must demonstrate how each state park will contribute to the overall goal of increasing state park system revenue by \$8.0 million annually. The department must notify the Legislative Budget Board and the Governor before it increases state park user fees in the 2008-09 biennium, and the department is not authorized to generate the \$16.0 million in enhanced collections appropriated in this provision from increases in state park user fees, unless the proposed fee increase is a result of a comprehensive fee analysis as recommended in the State Auditor's Office Report No. 07-021 and has been reviewed by the Legislative Budget Board at least 30 days before the Commission takes formal action on the increase.

Any fiscal year 2008 unexpended balances from additional revenue collections in excess of the Biennial Revenue Estimate as of August 31, 2008 are hereby appropriated for the fiscal year beginning September 1, 2008. If the Comptroller finds the information sufficient to support the projection of additional revenues, a finding of fact to that effect shall be issued to reflect the additional revenue available for each General Revenue-Dedicated account. In the event the Comptroller issues a finding of fact that additional revenue is available, the TPWD shall notify the Legislative Budget Board, the Governor, and the Comptroller of Public Accounts the purposes for which the additional revenue is budgeted.

4. To notify the Governor, Legislative Budget Board, and the State Auditor at least six months before closing or transferring any state park.

(c) Out of funds appropriated above, the department shall redirect agency resources to add 16.0 auditor positions in the Internal Audit Division in order to implement the recommendations contained in the State Auditor's *An Audit Report on Financial Processes at the Parks and Wildlife Department* Report No. 07-021. The department shall maintain an internal auditing program in compliance with the provisions of the Texas Internal Auditing Act, which shall incorporate, at a minimum, the assignment of an internal auditor at each regional park office. Each internal auditor assigned pursuant to this provision shall report either directly to the members of the Texas Parks and Wildlife Commission or to the internal auditor appointed pursuant to Government Code § 2102.006.

An internal auditor whose duty station is assigned pursuant to this provision may consider suggestions from a Parks Regional Director in developing proposals for the department's annual audit plan.

(d) Out of funds appropriated above, the Comptroller may not release \$17,103,744 for the 2008-09 biennium (\$8,845,221 in fiscal year 2008 and \$8,258,523 in fiscal year 2009)<sup>18</sup> without prior written notification from the Legislative Budget Board and the Governor that the department has satisfactorily adhered to the implementation plan required above. The department should report its progress in implementing the recommendations to the Legislative Budget Board, the Governor, and the State Auditor no later than July 1, 2007 and July 1, 2008 before appropriations may be released and available by September 1 of each fiscal year in the 2008-09 biennium.

**30. Business Plan for Construction or Repair of Facilities.** Prior to proceeding with the construction or repair of facilities with funds appropriated by this Act, the Texas Parks and Wildlife Department (TPWD) shall submit a plan to the Legislative Budget Board by September 30, 2007 which includes the following elements:

- a. The results of a study contracted with a private vendor having expertise in public attendance and collections to determine whether repairs or new construction will increase park attendance and generate additional revenue to cover costs;
- b. The status of controls to ensure park visitation data is accurate and to enhance collections from park visitors;
- c. Clearly defined criteria and methodologies to identify health and safety repair needs and a list of identified projects meeting the criteria;
- d. Cost estimate for each facility;
- e. Estimated construction timeline for each facility;
- f. The potential savings from using more economical materials for historic structural repairs; and,
- g. An analysis of capital repairs or new construction, which consider, among others factors, the following:
  - (1) whether a public need exists that warrants repairs or new construction;
  - (2) whether repairs or new construction will enhance or maintain the recreational benefits or preserve the historical significance of sites; and,
  - (3) whether an adjacent state park or historic site can serve the demand for recreational opportunities.

The Texas Parks and Wildlife Department shall not proceed with the construction or repair of TPWD facilities with funds appropriated by this Act until the Legislative Budget Board is

provided with and approves a plan which specifically addresses the elements in this provision. Further, TPWD shall provide monthly reports to the Legislative Budget Board and the Governor that identify all facility repair and constructions projects for which actual costs have varied from original cost estimates by 10 percent or more at any point during a project's lifespan; and any related changes in project cost estimates.

- 31. State Park System Study.** The Texas Parks and Wildlife Department (TPWD) shall conduct a study that will accomplish the following goals:
1. The study will determine the resources and steps necessary to meet a definition of a high quality state park system. The criteria that should be used include:
    - a. condition of facility infrastructure,
    - b. frequency of maintenance schedule,
    - c. amenities available,
    - d. facilities with high demand/utilization,
    - e. facilities with a high return on investment,
    - f. facilities where a higher fee may be charged without impacting utilization, and
    - g. any other criteria that the TPWD determines is appropriate.
  2. It will identify those parks that meet those criteria; those parks that could meet that criteria with upgrades, the cost of those upgrades and additional revenue generated as a result of upgrades; and finally those parks that should be transferred to a non-state entity or closed. Another factor that the TPWD should consider is the degree to which the recreational value of a park to its visitors justifies its operating costs.
  3. Based on that analysis, the TPWD shall determine the savings associated with transferring or closing the identified parks; and how the savings could be used to improve the remaining state parks so they meet the criteria for a high quality state park system.

The TPWD shall produce a work plan that indicates how the study will be conducted and report will be produced, with a study process timeline. The work plan should be submitted to the Legislative Budget Board and the Governor no later than January 1, 2008. The work plan and the actual work plan implementation should provide ample opportunity for public input and comments. A progress update that indicates the extent to which the TPWD has implemented its work plan should be submitted to the Governor and the Legislative Budget Board no later than July 1, 2008. The final report that is produced as a result of the study should contain findings and conclusions relevant to the first and second goals stated above. The report should specifically indicate how the TPWD determined the cost estimates and other significant factors that formed the basis for the report's findings and conclusions. It should also identify how the TPWD implemented its work plan, plus the methodology, steps, and processes that were involved in order to arrive at the report's findings and conclusions. The study final report should be submitted to the Legislative Budget Board and the Governor no later than October 1, 2008.

The Texas Parks and Wildlife Department (TPWD) is not authorized to expend General Obligation Bonds for project repairs until an initial naval engineering assessment of the condition of the ship has been completed and proposed courses of action and related costs for additional repairs have been reviewed and approved by the Legislative Budget Board. If the project is approved, TPWD shall file a report with the Legislative Budget Board, the Governor, and the Battleship TEXAS Foundation within 30 days following November 30, February 28, May 31, and August 31 of

### 5. **Limitation on Use of Funds.**

- a. State agencies that are appropriated funds from the receipts collected pursuant to the Comprehensive Tobacco Settlement Agreement and Release, including distributions from funds, shall submit a budget by November 1 of each year of the biennium to the Legislative Budget Board and the Governor. This budget shall describe the purposes and amounts for which such funds will be expended by the state agency. No funds described in this budget may be expended by the state agency or institution of higher education until the Legislative Budget Board and the Governor receive the budget.
- b. These reports should include, at a minimum, an income statement and balance sheet for each fund, and a summary of the investment return of the fund during the preceding fiscal year.

### 6. **Coordination with Texas Water Development Board.** The Office of Rural Community Affairs (ORCA) and the Texas Water Development Board (TWDB) shall continue to coordinate funds as outlined in a Memorandum of Understanding (MOU) so as to assure that none of the funds appropriated above are expended in a manner that aids the proliferation of colonias or are otherwise used in a manner inconsistent with the intent of the Economically Distressed Areas Program (EDAP) operated by the Texas Water Development Board (TWDB), and maximize delivery of the funds and minimize administrative delay in their expenditure. The MOU shall be amended, if necessary, prior to the distribution of the Colonia Fund in fiscal years 2008 and 2009. None of the funds appropriated above for Strategy A.1.1, Provide Grants, may be expended in EDAP-eligible counties that have not adopted, or not enforcing, the Model Subdivision Rules established pursuant to § 16.343 of the Water Code. No later than September 15, 2008, ORCA and the TWDB shall submit a joint report to the Legislative Budget Board that describes and analyzes the effectiveness of projects funded as a result of coordinated Colonia Fund/EDAP efforts including an estimate of the amount each agency has saved by reduced duplication of efforts. If there is an insufficient number of TWDB EDAP projects ready for Colonia Economically Distressed Areas Program (CEDAP) connection funding within 12 months after ORCA receives the federal letter of credit, the CEDAP funds may be transferred at ORCA's discretion as stated within the current Community Development Block Grant action plan.

### 7. **Colonia Set-Aside Program Allocation.** The Office of Rural Community Affairs (ORCA) shall continue the Community Development Block Grant (CDBG) Colonia Set-Aside Program by allocating not less than 10 percent of the yearly allocation of CDBG funds for eligible activities to assist in providing for the housing, planning, and infrastructure needs in colonias. From this 10 percent yearly allocation, \$2,000,000 shall be reserved to provide financial assistance to units of general local government located in economically distressed areas as defined by § 17.921, Water Code, to pay for residential service lines, hookups, and plumbing improvements associated with being connected to a water supply or sewer service system, any part of which is financed under the economically distressed areas program established under Subchapter J, Chapter 16, Water Code and Subchapter K, Chapter 17, Water Code.

In addition, ORCA shall allocate 2.5 percent of the CDBG monies to support the operation of the Colonia Self-Help Centers and shall transfer such funds to the Department of Housing and Community Affairs.

### 8. **Administration of Public Health Funds.** Funds are appropriated above out of the Permanent Fund for Rural Health Facility Capital Improvement for the purpose of implementing House Bill 1676, Seventy-sixth Legislature, 1999. - 3. Renegotiation of Lump Sum Contract.** Appropriations made above in Strategy A.1.1, Conduct Hearings, include \$938,860 in fiscal year 2008 and \$938,860 in fiscal year 2009 in Interagency Contracts to fund the Natural Resources Division for the purpose of conducting hearings for the Texas Commission on Environmental Quality (TCEQ). The State Office of Administrative Hearings (SOAH) and TCEQ may not enter into a contract for an amount less than the specified amounts herein above. If SOAH determines, at the end of each fiscal year, that the amount paid under the contract exceeds the funding necessary for the Natural Resources Division, it shall refund the difference. If SOAH determines that these amounts are insufficient to fund the Natural Resources Division it may enter into negotiations with the TCEQ in order to renegotiate an interagency contract in a manner which will provide it with additional funds, provided that SOAH shall not be appropriated any state funds from such renegotiated interagency contract until it gives prior written notice to the Legislative Budget Board and the Governor, accompanied by written permission of the TCEQ.
- 4. Benefit Collection.** Agencies that enter into contracts with the State Office of Administrative Hearings (SOAH), for the purpose of performing the hearings function, and make payments to SOAH from funding sources other than General Revenue, must reimburse SOAH for employee benefit costs for salaries and wages. These reimbursements to SOAH will then be paid to the General Revenue Fund in proportion to the source of funds from which the respective salary or wage is paid.
- 5. Contingency Appropriation for Expanded Jurisdiction.** Contingent on the enactment of legislation by the Eightieth Legislature transferring the hearings functions of other state agencies to the State Office of Administrative Hearings (SOAH), or otherwise expanding the jurisdiction of the office, SOAH is hereby authorized to expend funds transferred to the office from those agencies or funds appropriated for the purpose of handling the expanded jurisdiction, pursuant to provisions elsewhere in this Act. Appropriations authorized pursuant to this provision may be expended only to implement the transferred functions or expanded jurisdiction. All funds collected by SOAH as payment for, or reimbursement of, the office's costs of providing services to other state agencies or governmental entities, or others as directed by the Legislature, are appropriated to SOAH for its use during the biennium.
- 6. Hearings Activity Report.** By May 1st and November 1st of each fiscal year, the State Office of Administrative Hearings (SOAH) shall submit to the Legislative Budget Board and the Governor a report detailing hearings activity conducted during the prior two fiscal year quarters. The report shall indicate, for each agency served, the person hours allocated to the agency's cases and the cost, both direct and indirect, of conducting the hearings. The report shall also indicate, for each agency served, the number of cases received, the number of cases disposed of, the number of administrative fine cases disposed of and the median number of days between the date a case is received by SOAH and the date the case is finally disposed of, during the reporting period.
- 7. Interagency Contract for Administrative Law Judge Training.** Out of funds appropriated above, the State Office of Administrative Hearings shall contract in the amount of \$25,000 for training of Administrative Law Judges. Any amounts not expended as of August 31, 2008, are appropriated for the fiscal year beginning September 1, 2008. The State Office of Administrative Hearings' travel expenses, including travel expenses incurred by staff for out-of-state travel related to Administrative Law Judge training, are limited to the amount established in this rider.
- 8. Contingency for Additional Self-directed Semi-independent Agency Pilot Projects.** Contingent upon additional agencies added as a self-directed semi-independent (SDSI) agency

pilot project by the Legislature during the 2008-09 biennium, any agency added as a SDSI pilot project that is listed in Rider 9 shall be removed from the exemption granted in Rider 9 below.

**9. Billing Rate for Workload.**

- a. Unless otherwise provided, amounts appropriated above and elsewhere in this Act for funding for the payment of costs associated with administrative hearings conducted by the State Office of Administrative Hearings (SOAH) are based on an hourly rate of \$100 per hour for each hour of work performed during each fiscal year as reflected by the SOAH's Legislative Appropriation Request and Hearings Activity Report to the Eightieth Legislature.
- b. Notwithstanding other provisions in this act, amounts for the payment of costs associated with administrative hearings conducted by SOAH for the Comptroller of Public Accounts shall be established through an interagency contract between the two agencies. The contract shall provide funding for hearings on tax issues conducted by Master Administrative Law Judge IIs in a separate tax division within SOAH that have expertise in state tax and shall specify the salaries of the judges within the division.
- c. Amounts appropriated above in Strategy A.1.1, Conduct Hearings, to SOAH from the General Revenue Fund include funding in each year of the biennium for billable casework hours performed by SOAH for conducting administrative hearings at the rate determined by SOAH and approved by the Legislature for the following agencies that do not have appropriations for paying SOAH costs for administrative hearings and are not subject to subsection (a) of this Section:

**4. Contingency Appropriation: State Regulatory Response.**

a. Amounts appropriated above to the Department of Banking not to exceed \$5,550,432 each fiscal year in General Revenue in Strategy D.1.1, Contingency Regulatory Response, and 56.5 Full-Time-Equivalents (FTE) positions each fiscal year included above in the "Number of Full-Time-Equivalents (FTE)" are contingent upon a finding of fact by the Finance Commission that additional resources are needed by the Department of Banking because:

- (1) the number of exams required for the state-chartered commercial banking industry under the jurisdiction of the Department of Banking, determined either as a function of assets, number of institutions, expanded specialty areas, or relative proportion of problem banks or problem bank assets in the state system, increases to a point where additional appropriations are required to maintain adequate regulation of the industry;
- (2) federal regulatory resources applied to the Texas state-chartered commercial banking industry, determined as a function of assets, have been reduced; or
- (3) the Department of Banking is unable to maintain adequate supervision of the industry and is unable to meet its examination frequency performance measures due to reductions in the quality or quantity of its examination staff, resulting either from examiner turnover, or an inability to recruit adequately qualified examiners because of salary levels.

b. None of the funds appropriated above in Strategy D.1.1, Contingency Regulatory Response, above may be expended and none of the 56.5 Full-Time-Equivalents (FTE) positions each fiscal year included above in the "Number of Full-Time-Equivalents (FTE)" may be used by the Department of Banking unless the Finance Commission files a finding of fact with the Governor and the Legislative Budget Board and neither the Governor nor the Legislative Budget Board issues a written disapproval not later than:

### Sec. 5.08. **Limitation on Travel Expenditures.**

- (a) In this section "travel" refers only to travel outside the state of Texas, except as provided by Subsection (k) of this section.
- (b) (1) None of the funds appropriated by this Act may be expended, without the prior approval of the Legislative Budget Board, for travel purposes if such expenditure would cause the agency's or institution's travel expenditures for that fiscal year to exceed the greatest of:
  - (A) 125 percent of that agency's or institution's fiscal year 2000 amount of travel expenditures; or
  - (B) 100 percent of that agency's or institution's fiscal year 2000 amount of travel expenditures plus \$10,000; or
  - (C) 100 percent of that agency's or institution's fiscal year 2000 amount of travel expenditures plus any excess travel expenditure amounts approved by waiver.
- (2) The general limitations provided by this subsection apply in addition to the limits of any additional agency specific limitation.
- (3) In the event that a state agency or institution had, as determined by the Comptroller, no expenditures for travel outside the state of Texas during fiscal year 2000, the general limitations provided by Subsection (b)(1) shall not apply, but out-of-state travel spending may not exceed in either year of the biennium the amount spent for that purpose in the last state fiscal year in which out-of-state travel occurred.

## TRAVEL REGULATIONS (Continued)

- (c) The Legislative Budget Board may consider requests from agencies which demonstrate circumstances which would make such reductions in actual travel impractical or inefficient in accomplishing the goals and strategies contained in their appropriations pattern. Such circumstances may include: new or expanded programs, law enforcement, tax collection activities, statutorily mandated travel, or other pressing public purposes.
- (d) The Comptroller shall prescribe accounting procedures and reporting requirements to administer this section and to ensure that expenditures for travel by all state agencies and institutions of higher education are properly reported and monitored.
- (e)
  - (1) Upon notification by the Comptroller that a state agency or institution of higher education has exceeded the travel cap limit as specified in Subsection (b) of this section for two consecutive fiscal years without the written approval of the Legislative Budget Board, the state agency or institution of higher education may not pay or reimburse with funds appropriated by this Act, a travel expense for travel to conventions, conferences, or seminars except as provided by this Subsection (e).
  - (2) The Comptroller may allow a state agency or institution of higher education to reimburse or pay a travel expense incurred by an employee on or after the date the agency or institution receives notice of its exceeding the limits if:
    - (A) the expense is incurred while the employee is returning to the employee's designated headquarters;
    - (B) the reimbursement or payment is necessary to prevent unreasonable hardship to the employee; or
    - (C) the expense is incurred while the employee is completing official state business that the agency or institution deems critical to fulfillment of the agency's or institution's constitutional or statutory duties.
  - (3) The Comptroller shall notify the Legislative Budget Board if the Comptroller allows such a payment or reimbursement. The notification must include the reason that the payment or reimbursement is allowed. The Legislative Budget Board may then direct the Comptroller to reduce the agency's or institution's appropriation by the amount of the payment or reimbursement if in the Legislative Budget Board's opinion the payment was the result of an agency failing to comply with the notification by the Comptroller.
- (f) All documents filed by an appointed officer under this section are public information. In this section, the term "public information" has the meaning provided by Chapter 552, Government Code.
- (g) In this section "appointed officer" includes all persons included under the definition provided by Chapter 572, Government Code, except that for the purposes of the definition of "appointed officer," the term "state agency" also includes a council of governments, a local workforce development board, or a mental health mental retardation community center that uses funds appropriated by this Act to pay for the transportation, meals, lodging, or other travel expenses of its employees or officials. For the purpose of this provision, the term "council of governments" shall include a council of governments, a regional planning commission, or similar regional planning agency created under Chapter 391, Local Government Code.
- (h) An appointed officer may not receive reimbursement from funds appropriated by this Act for expenses related to travel before filing with the Texas Ethics Commission copies of all documents that will be submitted to the Comptroller and Legislative Budget Board in support of the travel expense claim.
- (i) Funds appropriated by this Act may not be used to pay expenses for a trip to foreign countries, except for Canada or Mexico, unless the board or commission of each state agency and institution of higher education has approved the travel before departure. A copy of the approval must be attached to each travel voucher submitted to the Comptroller. By October 1 of each year, each agency and institution of higher education must submit a report on all foreign travel with required approvals to the Governor and the Legislative Budget Board.

## TRAVEL REGULATIONS

(Continued)

- (j) In implementing this rider, state agencies shall review their travel policies in order to ensure that travel which is critical to the delivery of services consistent with the mission of the agency is not affected.
- (k) Travel expenses incurred within the Washington, D.C. area by the Office of State-Federal Relations (OSFR) and by state agencies and institutions of higher education that are represented by their employees in the Washington, D.C. office of OSFR shall be considered in-state travel for the purpose of calculating the agencies' compliance with out-of-state travel limitation provisions.

### Sec. 5.09. **Travel and Per Diem of Board or Commission Members.**

- (a) As authorized by § 659.032, Government Code, the per diem of state board and commission members consists of:
  - (1) compensatory per diem, if specifically authorized by law, at \$30 per day; and
  - (2) at the rates provided by this Act for state employees, expense per diem, which includes:
    - (A) reimbursement of actual expenses for meals, at the rates provided by this Act for state employees;
    - (B) lodging at the rates provided by this Act for state employees;
    - (C) transportation at the rates provided by this Act for state employees; and
    - (D) incidental expenses.
- (b) If a law enacted after former Article 6813f, VTCS, (September 1, 1983), authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem is the amount provided by Subsection (a).
- (c) A full-time employee paid from funds appropriated by this Act may not be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.

### Sec. 5.10. **Travel of Advisory Committee Members.**

- (a) For the purpose of this section, the term "advisory committee" has the meaning assigned by § 2110.001, Government Code.
- (b) In addition to the limits placed on reimbursement of advisory committee member expenses by this section and to the extent not otherwise limited by this Act or other law, a member of a state agency advisory committee may be reimbursed, at the rates specified in this Act for a state employee, for actual expenses for meals, lodging, transportation, and incidental expenses.
- (c) The funds appropriated by this Act may not be expended to reimburse a member of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless the expenditures for an advisory committee are within the limits provided by this section and other law and are:
  - (1) specifically authorized by this Act; or
  - (2) approved by the Governor and the Legislative Budget Board subsequent to the effective date of this Act.
- (d) The limitations provided by this section do not apply to an advisory committee established by the governing board of a retirement system trust fund.
- (e) The limitations provided by this section apply only to an advisory committee that is subject to Chapter 2110, Government Code.
- (f) Unless otherwise specifically provided for in this Act or by the written authorization of the Legislative Budget Board and Governor, and pursuant to Government Code, § 2110.004, total amounts expended in each fiscal year of the biennium for reimbursement of expenses for an advisory committee authorized to be reimbursed elsewhere in this Act by agencies and institutions, out of funds appropriated to those entities, may not exceed one hundred and twenty-

five percent (125%) of total expenditures for reimbursement of the same advisory committee by the agency or institution in fiscal year 2003.

### **PART 6. GENERAL LIMITATIONS ON EXPENDITURES**

Sec. 6.01. **Definitions.** In this Act “unexpended balance” or the abbreviation “UB” means the unobligated balance remaining in an appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to “unexpended balance” or “UB” is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 2008, unless another meaning is clearly indicated.

Sec. 6.02. **Interpretation of Estimates.** In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act may not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

Sec. 6.03. **Excess Obligations Prohibited.**

- (a) An agency specified in this Act may not incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named.
- (b)<sup>5</sup> As a specific exception to Subsection (a) the Comptroller of Public Accounts may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request.
- (c) A determination made by the Comptroller of Public Accounts under Subsection (b) may be made for obligations incurred for the purchase or lease of automated information system equipment only if the agency has on file with the Legislative Budget Board a Biennial Operating Plan, including any amendments to the Biennial Operating Plan, and the plan has been approved by the Legislative Budget Board.
- (d) If this section is violated, the State Auditor shall certify the fact of the violation and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount equivalent to the over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation.
- (e) This provision is specified pursuant to § 10, Article XVI, Texas Constitution.

Sec. 6.04. **Interpretation of Legislative Intent.** Funds appropriated by this Act shall be expended, as nearly as practicable, for the purposes for which appropriated. In the event an agency cannot determine legislative purpose from the pattern of appropriations, the agency shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for this state.

Sec. 6.05. **Comptroller’s Duty to Pay.** The Comptroller may not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 6.06. **Last Quarter Expenditures.**

- (a) A state agency or other governmental unit using funds appropriated by this Act may not expend during the last quarter of a fiscal year more than one-third of the funds appropriated for that fiscal year.
- (b) Specifically exempted from Subsection (a) are:
  - (1) expenditures contracted for in previous quarters;
  - (2) funds required by statute, rule or regulation to be expended on a different time frame;

---

<sup>5</sup> Rider modified to reflect the transfer of the procurement program from the Texas Facilities Commission (formerly the Texas Building and Procurement Commission) to the Comptroller of Public Accounts by HB 3560, 80<sup>th</sup> Legislature, Regular Session.

## GENERAL LIMITATIONS ON EXPENDITURES (Continued)

- (3) seasonal employment of personnel;
  - (4) construction contracts;
  - (5) contracts dealing with purchases of food, medicines, or drugs;
  - (6) expenditures related to the Children with Special Health Care Needs program operated by the Department of State Health Services; and
  - (7) expenditures occasioned by disaster or other Act of God.
- (c) The funds exempted, under Subsection (b) may not be considered in the computation of the total funds appropriated in a fiscal year for the purpose of applying Subsection (a).

### Sec. 6.07. **Employee Benefit and Debt Service Items.**

- (a) Funds appropriated in the various Articles of this Act for “Employees Retirement System,” “Social Security State Match,” “Benefit Replacement Pay,” “Texas Public Finance Authority-G.O. Bond Debt Service Payments,” and “Lease-Payments to the Texas Public Finance Authority” may be transferred between Articles to a like appropriation item without limitation as to the amount of such transfer.
- (b) An agency to which an appropriation listed under Subsection (a) is made may pool such appropriations, made in the various Articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

### Sec. 6.08. **Benefits Paid Proportional by Fund.**

- (a) Unless otherwise provided, in order to maximize balances in the General Revenue Fund, payment for benefits paid from appropriated funds, including “local funds” and “education and general funds” as defined in § 51.009 (a) and (c), Education Code, shall be proportional to the source of funds.
- (b) Unless otherwise specifically authorized by this Act, the funds appropriated by this Act out of the General Revenue Fund may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries or wages are paid from a source other than the General Revenue Fund. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Comptroller determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund.
- (c) The Comptroller, after consulting with the Legislative Budget Board and the State Auditor’s Office, shall develop rules to provide for the administration of this section.
- (d) Each agency or institution of higher education (including a community or junior college) having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller and the State Auditor a report demonstrating proportionality. The report shall be filed before November 20th following the close of the fiscal year for the salaries, wages, and benefits of the preceding year ended August 31. The report shall be in a format prescribed by the Comptroller in collaboration with the Legislative Budget Board and the State Auditor’s Office. The State Auditor shall at least biennially review agency and institution (including a community or junior college) compliance with the requirements of this section if the agency or institution (including a community or junior college) receives funds appropriated under Articles II, III, or VI of this Act. The Comptroller, on receipt of notification from the State Auditor of amounts disproportionately paid from General Revenue Fund appropriations, shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from sources other than the General Revenue Fund.

Sec. 6.09. **Appropriations from Special Funds.** Notwithstanding other provisions of this Act, appropriation amounts from special funds or special accounts in the General Revenue Fund are specifically limited to amounts not to exceed the actual balances and revenues available to each such fund or account.

## GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

### Sec. 6.10. Limitation on State Employment Levels.

- (a) Without the written approval of the Governor and the Legislative Budget Board, a state agency or institution of higher education may not use funds appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the figure indicated by this Act for that state agency or institution.
- (b) A request by a state agency or institution of higher education to exceed or reduce the FTE limitations established by this section must be submitted by the governing board of the state agency or institution of higher education and must include at a minimum:
  - (1) the date on which the board approved the request;
  - (2) a statement justifying the need to exceed or reduce the limitation;
  - (3) the source of funds to be used to pay any additional salaries; and
  - (4) an explanation as to why the functions of any proposed additional FTEs cannot be performed within current staffing levels.
- (c) For the purpose of Subsection (a), the number of FTEs employed by a state agency (not including an institution of higher education or an affiliated entity, the State Preservation Board, Parks and Wildlife Department, Texas School for the Blind and Visually Impaired, Texas School for the Deaf, and Texas Commission on Environmental Quality) for a fiscal quarter:
  - (1) shall be determined in accordance with the report filed pursuant to § 2052.103, Government Code;
  - (2) shall include only employees paid with funds appropriated through this Act;
  - (3) shall not include overtime hours; and
  - (4) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.
- (d) For the purpose of Subsection (a), the number of FTEs employed by the State Preservation Board, Texas Commission on Environmental Quality, the Parks and Wildlife Department, the Texas School for the Blind and Visually Impaired, the Texas School for the Deaf, or an institution of higher education or an affiliated entity, for a fiscal year:
  - (1) shall be determined in accordance with the reports filed pursuant to § 2052.103, Government Code;
  - (2) shall be an average of the four reports filed for that fiscal year;
  - (3) shall include only employees paid with funds appropriated through this Act;
  - (4) shall not include overtime hours; and
  - (5) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.
- (e) This section shall not apply to appropriations made by this Act to the:
  - (1) Office of the Governor; or
  - (2) Comptroller when that agency has determined by a cost/benefit analysis that an outsourcing or contracting arrangement provides savings to this State.

## GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (f) The limitations on FTEs under this section do not apply to a state agency or institution in instances of employment, including employment of temporary or contract workers, directly associated with events declared disasters by the Governor. Each state agency or institution shall annually notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this section.
- (g)
  - (1) The limitations on FTEs under this section do not apply to a state agency or institution in an instance of employment, including employment of a temporary or contract worker, if the FTEs associated with that project are not included in the number of FTEs allowed in the agency's bill pattern and the employees are associated with:
    - (A) implementation of a new, unanticipated project that is 100 percent federally funded; or
    - (B) the unanticipated expansion of an existing project that is 100 percent federally funded.
  - (2) With regard to the exemption from the FTE limitations provided by this Subsection (g), a state agency or institution is exempt from the FTE limitations only for the duration of the federal funding for the employment related to the project and all salaries, benefits, and other expenses incurred related to employment must be paid from federal funds.
  - (3) This Subsection (g) does not exempt any employees associated with existing projects that are 100 percent federally funded and included in the number of FTEs allowed in the agency's bill pattern.
  - (4) Each state agency or institution shall notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this Subsection (g).
- (h) If a program is transferred from a state agency or institution of higher education, then at any time during the biennium, the Legislative Budget Board and the Governor may agree to reduce the number of FTEs paid from funds appropriated by this Act by the state agency or institution of higher education for one or more fiscal quarters to a figure below that indicated by this Act for that agency or institution.

### Sec. 6.11. **Purchases of Postage.**

- (a) If the expenditures for postage by an agency, other than the Legislature or an institution of higher education, exceed \$4,000 for a fiscal year, the agency shall purchase postage only in accordance with § 2113.103(c), Government Code.
- (b) The amount received by an agency as a refund of postage used by the agency shall be deposited in the fund to the credit of the appropriation from which postage for the agency is paid and is hereby appropriated to the agency for postage use.

Sec. 6.12. **Construction Policy.** A state entity receiving an appropriation under this Act may not establish a rule or policy that is inconsistent with the legislative intent that funds appropriated by this Act for construction projects be expended only pursuant to state entity policies that provide the greatest competitive advantage to the state allowable under Chapter 2258, Government Code.

### Sec. 6.13. **Expenditures for State-Federal Relations.**

- (a) Funds appropriated by this Act may not be spent by a state agency to carry on functions for which funds have been appropriated to the Office of State-Federal Relations to perform except when an interagency contract has been executed between the Office of State-Federal Relations and the state agency.
- (b) Prior to travel to the Washington, D.C. area, including any trip with a destination to the Reagan-National, Dulles, or Baltimore Washington International airports, state agency personnel shall inform the Office of State-Federal Relations regarding:
  - (1) the timing of the trip;
  - (2) the purpose of the trip; and

(Continued)

(3) the name of a contact person for additional information.

(c) Under Subsection (b) the term “travel” is limited to only activities:

(1) involving obtaining or spending federal funds; or

(2) impacting federal policies.

### **Sec. 6.14. Research Policy.**

(a) An agency may not expend any funds appropriated by this Act for research projects of any type until the agency has adopted and filed with the Legislative Budget Board a policy that clearly establishes and protects the property rights of the state with regard to any patentable product, process, or idea that might result from such research.

(b) In order to avoid duplication, a state agency, excluding an institution of higher education, may not expend funds appropriated by this Act to conduct or support policy research on a subject within the statutory jurisdiction of another agency without providing prior written notification, to the agency that has the statutory jurisdiction, concerning a work plan and the coordination of resources.

### **Sec. 6.15. Performance Rewards and Penalties.**

(a) It is the intent of the Legislature that appropriations made by this Act be utilized in the most efficient and effective manner possible to achieve the intended mission of each state agency and institution. In order to achieve the objectives and service standards established by this Act, agencies and institutions shall make every effort to attain the designated key performance target levels associated with each item of appropriation.

(b) To support and encourage the achievement and maintenance of these appropriated annual performance levels, continued expenditure of any appropriations in this Act shall be contingent upon compliance with the following provisions:

(1) Agencies and institutions, in coordination with the Legislative Budget Board, shall establish performance milestones for achieving targets within each annual budget and performance period; time frames for these milestones and the related performance reporting schedule shall be under guidelines developed by the Legislative Budget Board.

(2) Agencies and institutions shall provide testimony as to the reasons for any performance variances to the Senate Finance Committee and the House Appropriations Committee, as determined to be necessary by those committees; assessments of agency and institution performance shall be provided to the committees under guidelines and procedures developed by the Legislative Budget Board.

(c) Upon a finding that an agency or institution has successfully met or exceeded performance expectations, or has failed to achieve expected performance levels, the Legislative Budget Board, and the Governor, may adopt a budget execution order, which may include but is not limited to, one or more of the following:

(1) Positive Incentives/Rewards - Increased funding, exemption from reporting requirements, increased funding transferability, formalized recognition or accolade, awards or bonuses, expanded responsibility, or expanded contracting authority; or

(2) Negative Incentives/Redirection - Evaluation of outcome variances for remedial plan, reduction of funding, elimination of funding, restriction of funding, withholding of funding, reduction of funding transferability, transfer of functional responsibility to other entity, recommendation for placement in conservatorship, direction that a management audit be conducted or direction that other remedial or corrective actions be implemented.

(3) The Legislative Budget Board may develop rules and procedures for the implementation of the above provisions.

(4) The Legislative Budget Board may request comments from the State Auditor’s Office regarding performance penalties and rewards.

## GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (d) To further foster, support, and reward outstanding performance, ongoing productivity improvements and innovative improvement programs, and to retain key high performing employees, qualified state agencies and institutions may expend amounts necessary from funds appropriated in this Act for the purposes of enhancing compensation for employees who directly contributed to such improvements. Only classified employees (including classified employees of institutions of higher education) are eligible for enhanced compensation, and this award shall not exceed 6.8 percent of an employee's annual base pay. To be eligible for this provision, an agency or institution must:
- (1) Achieve or exceed targets for 80 percent of the established key performance measures:
    - (A) For fiscal year 2008, eligibility shall be determined by the Legislative Budget Board based on performance reported to the Automated Budgeting and Evaluation System of Texas (ABEST) for fiscal year 2007;
    - (B) For fiscal year 2009, eligibility shall be determined by the Legislative Budget Board based on performance reported to ABEST for fiscal year 2008; and
  - (2) Have an unqualified certification for at least 70 percent of its performance measures as shown by its most recent certification review by the State Auditor's Office; and
  - (3) File a report with the Comptroller, Legislative Budget Board, Governor, House Appropriations Committee, and Senate Finance Committee describing the success of the innovative program and criteria used to assess the improvements; and
  - (4) Sixty days prior to implementation file a report with the Comptroller, Legislative Budget Board, Governor, House Appropriations Committee, and Senate Finance Committee describing in detail how the agency intends to use this flexibility to further the goals of this section.

Sec. 6.16. **Bookkeeping Entries.** Should clerical or bookkeeping errors result in any monies being expended, transferred, or deposited into incorrect funds in or with the state treasury or any monies being cleared from a trust and suspense fund to other than the proper fund, such erroneously expended, transferred, deposited, or cleared monies may be transferred to the correct funds or accounts or trust and suspense account within the state treasury on request of the administering department with the concurrence of the Comptroller, and so much as is necessary for said transfer is hereby appropriated.

Sec. 6.17. **Accounting for State Expenditures.**

- (a) Notwithstanding the various patterns of appropriation established in this Act, the Comptroller shall account for the expenditure of funds appropriated by this Act in a manner that allows for the reporting of expenditures attributable to each strategy in each agency's respective Strategic Planning and Budget Structure as approved by the Governor and the Legislative Budget Board. The information shall be recorded and maintained systematically in the state accounting system in a manner that provides for the integration of the state's budget data and the state's accounting data and to facilitate the state's budget development process.
- (b) This section does not require the deposit into and subsequent disbursement of funds from the state treasury that relate to Texas Public Education Grants, Skiles Act Debt Service, or "local funds" defined in § 51.009, Education Code, except for tuition and lab fees.

Sec. 6.18. **Fee Increase Notification.** None of the funds appropriated by this Act may be expended by an agency which increases the rate of a fee assessed by that agency unless the agency provides a notice to the payer of the fee that the fee rate was set by the agency or its governing board and not mandated by the Legislature.

Sec. 6.19. **Consolidated Funds.** Contingent on the enactment of legislation relating to the dedication of funds, the Comptroller, on approval of the Legislative Budget Board, may change an applicable agency's method of financing source name as provided in this Act to reflect changes made by the other legislation that affects the status of the funding source. No change in the amount of the appropriation would be affected by this change.

Sec. 6.20. **Demographic and Statistical Studies.** Before expending funds appropriated by the Act for the purpose of contracting for a consultant or other private assistance in performing a study required by the Legislature that includes statistical or demographic analysis of data, the agency conducting the study

## **GENERAL LIMITATIONS ON EXPENDITURES**

(Continued)

shall determine if the resources of the Texas Legislative Council or the Office of the State Demographer and the Texas State Data Center at The University of Texas at San Antonio are available to assist the agency in designing or conducting that component of the study.

Sec. 6.21. **Cost Allocations.** For the purpose of more effective and efficient identification and allocation of costs, and to effect timely payments to employees and vendors, agencies may temporarily charge salary and/or operating costs to appropriations most applicable for the expense being incurred. Upon receipt of more specific information such as personnel-time allocation information for payrolls, or allocation of office supplies or other goods and services, agencies may reimburse the original paying appropriations by transfer from the appropriation to which the expenditure should have been charged. Such transfers must be accomplished within twelve months in a manner which records appropriate expenditures to the borrowing appropriation and negative expenditures to the lending appropriation. These transfers may be in summary amounts in a manner approved by the Comptroller. Each agency must maintain adequate detailed records to support summary transfer amounts.

Sec. 6.22. **Use of Appropriations to Contract for Audits.**

- (a) Notwithstanding any other law, or other sections of this Act, none of the funds appropriated in this Act shall be used by the agencies or institutions of higher education to enter into a contract with an independent audit entity for audit services, except as specified by this section.
- (b) An agency or institution appropriated funds in this Act may use funds appropriated in this Act to:
  - (1) Enter into an interagency contract with the State Auditor's Office (SAO) for the SAO to provide audit services to the agency or institution. At the discretion of the State Auditor and the Legislative Audit Committee, the SAO may conduct the audit or the SAO may enter into a contract with an independent audit entity to conduct the audit; or
  - (2) Enter into a contract with an independent audit entity for the provision of audit services pursuant to Section 321.020, Government Code, if:
    - (A) the SAO has reviewed the scope of the proposed audit and has issued a written approval for the scope of the proposed audit, and
    - (B) the SAO has delegated the authority to enter into the proposed audit to the agency or institution, in the event the agency or institution does not have a specific statutory delegation of authority to enter into a contract for audit services.

Sec. 6.23. **Restriction on Expenditures for Lobbying Activities.**

- (a) Except as provided by Subsection (b) of this section, none of the funds appropriated under this Act may be used to compensate a lobbyist registered under Chapter 305, Government Code, for engaging in lobbying activities.
- (b) Subsection (a) of this section does not apply to the payment of compensation to a person employed by a state agency or institution.

Sec. 6.24. **Political Aid and Legislative Influence Prohibited.** The funds appropriated by this Act, regardless of source or character, may not be expended except in compliance with Chapter 556, Government Code.

Sec. 6.25. **Limitations on Use of Appropriated Funds.** Funds appropriated by this Act, other than those appropriated to an institution of higher education, may be expended only for items set out in the expenditure classifications of the Comptroller's Manual of Accounts insofar that an agency expending the appropriated funds has existing statutory authority for making the expenditures and the expenditures are not otherwise limited or prohibited in this Act.

Sec. 6.26. **Definition, Appropriation, Reporting and Audit of Earned Federal Funds.**

- (a) Definition. Earned Federal Funds are defined as all monies received in connection with each entitlement period of a federally funded contract, grant or program, excluding reimbursements under Section 8.02(c) of this Article which are not required by the governing agreement to be distributed thereon. Typically, EFF arise from recoveries of costs previously paid from a nonfederal fund source, indirect cost allocations, interest earned on federal funds, and minor sources such as the sale of fixed assets purchased with federal funds. These funds are received in

connection with a federally funded program but are not required by the governing agreement to be distributed on that program. For state accounting purposes, Earned Federal Funds are defined as revenues collected and deposited into the state General Revenue Fund (70000) as Comptroller revenue object codes 3702, 3726, 3750, 3773, 3851, and 3971.

- (b) Collected Revenue. General Revenue in the amounts specified by year below is appropriated in agency bill patterns elsewhere in this Act and is contingent on collection of Earned Federal Fund revenues by the following agencies:

The QAT shall determine approval based on an analysis of the project’s risk. The QAT may request any information necessary to determine a project’s potential risk. The QAT may waive the project review requirements for a project.

If the Comptroller finds the information sufficient to support the projection of increased revenues, a notification letter will be issued and the contingent appropriation made available for the intended purposes.

Sec. 9.06. **Texas Online Project: Cost Recovery Fees.** Any cost recovery fees, excluding subscription fees as defined in Subchapter I, Chapter 2054, Government Code, approved by the Department of Information Resources in relation to the TexasOnline Project as authorized under Chapter 2054, Government Code, are hereby appropriated to that agency from the fund to which the fee was deposited for the purpose of paying the costs associated with implementing and maintaining electronic services.   - (5) a proposed source of funds (method of financing);
  - (6) a proposed type of financing; and
  - (7) any additional related information requested by the Bond Review Board.
- (b) The Bond Review Board shall compile a statewide capital expenditure plan for the 2010–11 fiscal biennium from the information submitted by agencies and institutions in accordance with the capital planning guidelines. - (a) In the event that an agency moves from leased space to state owned space subsequent to the passage of this Act, the Comptroller shall reduce funds appropriated to each affected agency, by an amount equal to the lease costs that would have been incurred for the remainder of the biennium had the agency remained in leased space, less the costs the agency incurs for moving and the agency's tenant finish-out expenses as defined by the Texas Facilities Commission. Required moving and tenant finish-out costs incurred by an agency moving from leased space to state owned space in fiscal year 2007 may be paid from fiscal year 2008 appropriations and costs incurred in 2008 may be paid from fiscal year 2009 appropriations as necessary to facilitate the move. If obtaining a reduced lease rate requires the agency to move its location, the Comptroller shall reduce the agency's appropriations less costs the agency incurs for moving the agency's tenant finish-out expenses as defined by the Texas Facilities Commission. Required moving and tenant finish-out costs incurred by an agency moving from leased space in fiscal year 2008 may be paid from fiscal year 2009 appropriations as necessary to facilitate the move.

  - (1) essential to accomplish or achieve a strategy or outcome target established by this Act; or
  - (2) required by law.
- (b) Any funds received and collected from any charges specifically authorized by statute for the productions, publications, or records are hereby appropriated to the agency issuing the productions, publications, or records for use during the year in which the receipts are collected. The Comptroller shall credit such receipts to the like appropriation item from which the original costs are paid.

Sec. 12.03. **Limitation on Expenditures for Purchases and Conversions of Alternative Fuel Vehicles.** A state agency, including an institution of higher education, that is required to meet the percentage requirements for vehicles capable of using alternative fuels under Chapter 2158, Government Code, may expend funds appropriated by this Act for the purpose of meeting the percentage requirements only if the agency purchases or converts a vehicle that uses the most cost-effective, fuel efficient and mechanically efficient alternative fuel source.

### Sec. 12.04. **Lost Property.**

- (a) A state agency or institution of higher education must annually report to the Legislative Budget Board and the Comptroller the value of property lost or missing from the possession of the agency or institution of higher education. The Legislative Budget Board and the Comptroller may prescribe forms and dates for reporting.
- (b) The Comptroller shall withhold from the General Revenue Funds, General Revenue–Dedicated Funds, or Other Funds appropriated to the state agency or institution of higher education by this Act an amount equal to 50 percent of the value of the lost property originally purchased with those funds provided that the loss falls outside the standards promulgated by the American Society for Testing and Materials. State agencies participating in the Master Lease Purchase Program shall cooperate in the timely transfer of lease payments to the Texas Public Finance Authority. The absence of specific Master Lease payment appropriations, identified in an agency's capital budget, does not release an agency from lease payment obligations.

Sec. 12.06. **Vehicle Fleet Management.**<sup>13</sup> It is the intent of the Legislature that all state agencies and institutions shall adopt rules or policies to implement the State Vehicle Fleet Management Plan issued by the Office of Vehicle Fleet Management of the Comptroller of Public Accounts. In accordance with the State Vehicle Fleet Management Plan, the Office of Vehicle Fleet Management shall not grant a waiver for vehicle purchases for those agencies that have not adopted rules or procedures as required by § 2171.1045, Government Code. It is the intent of the Legislature that agencies follow recommendations in the State Vehicle Fleet Management Plan regarding replacing state vehicles when they reach 6 years (72 months) of service or 100,000 miles, whichever comes first. Circumstances may warrant exceptions to this policy based on economic factors for the state, as in the case of vehicles with excessive maintenance costs or unusually low maintenance costs. The interoperable communications equipment shall be subject to guidelines established by the United States Department of Homeland Security, Office of Domestic Preparedness.
- (d) Except as provided by Subsection (e) of this section, after the establishment of a interoperable communications system by all seven of the state agencies listed under Subsection (b) of this section, no federal communications interoperability grants or funds provided to the State of Texas for distribution to local, county, or municipal government agencies shall be spent by those local, county, or municipal government agencies for new radio equipment purchases unless such funds are first used for equipment to connect to an interoperable system established by the state agencies. The interoperable communications equipment shall be subject to guidelines established by the United States Department of Homeland Security, Office of Domestic Preparedness.
- (e) (1) A state or local entity may use any funds not otherwise restricted to replace broken or failing communications equipment and maintain an existing communications system until an interoperable system can be created.

## PART 13. OTHER PROVISIONS

Sec. 13.01. **Employee Meal Authorization.** State agencies providing institution-based services, including the Texas Department of Criminal Justice, the Department of Aging and Disability Services, the Department of State Health Services, the Texas Youth Commission, the Texas School for the Blind and Visually Impaired, and the Texas School for the Deaf, may provide meals to employees working in institutional settings and may charge a fee at costs established by the agencies that does not exceed the direct and indirect costs of preparation.

Sec. 13.02. **Bank Fees and Charges.** From interest income appropriated by this Act, amounts may be used for the purpose of paying bank fees and charges as necessary.

### Sec. 13.03. **Appropriation: Temporary Assistance for Needy Families (TANF) Federal Funds.**

- (a) For the biennium beginning September 1, 2007, in addition to sums appropriated elsewhere by this Act, the balance of all available TANF federal funds allocated to the State is hereby appropriated for the purposes for which the TANF block grant is made. In the event of an expenditure requirement related to fiscal penalties, caseload growth, or other program needs (such as meeting work participation targets or increasing the capacity to serve TANF recipients facing time-limited benefits), the funds appropriated by this provision and/or the balance of all available TANF federal funds appropriated elsewhere by this Act may be expended and/or transferred as appropriate by the Single State Agency for TANF, subject to the written prior approval of the Governor and the Legislative Budget Board.

## OTHER PROVISIONS

(Continued)

- (b) The expenditure of TANF federal funds is hereby limited to those amounts specifically identified and appropriated by this Act, unless specific written approval is made by the Legislative Budget Board and Governor.

### Sec. 13.04. **Incentive and Productivity.**

- (a) Net annual savings or revenues realized from employee suggestions implemented by a state agency under rules promulgated by the State Council on Competitive Government must be allocated by the state agency as follows:
  - (1) An amount not to exceed \$5,000 or 10 percent of the annual net savings or revenues attributable to a suggestion implemented by a state agency shall be available for the payment of employee awards under an employee awards program.
  - (2) The remaining amount, equal to at least 90 percent of the original annual net savings or revenues from amounts appropriated to the agency in the fiscal year(s) in which the savings or revenues were realized, shall be retained by the agency to pay for agency operations.
- (b) The net savings or revenues realized in a fiscal year are to be considered encumbered by the agency implementing the suggestion for purposes of carrying out the allocation of funds listed in Subsection (a). The amounts encumbered shall be accounted for in the following manner:
  - (1) Upon implementation of an approved employee suggestion, an agency shall establish a Savings Measurement Account for that suggestion and transfer into this account the share of the projected net first-year savings or revenues attributable to the suggestion during that fiscal year. All balances in these accounts as of August 31, 2007, are appropriated for fiscal year 2008, and all balances in these accounts as of August 31, 2008, are appropriated for fiscal year 2009. At the beginning of the following fiscal year, the agency shall transfer into the Savings Measurement Account the remaining share of the projected net savings or revenues for each approved suggestion.
  - (2) At the conclusion of the implementation period for an approved and implemented suggestion, the amount of net savings or revenues certified by the agency and the State Council on Competitive Government shall be compared with the balance in the Savings Measurement Account for that employee suggestion. If the certified net savings or revenue amount exceeds the balances in the Savings Measurement Account, the additional funds shall be derived from that agency's current year appropriations. If the certified net savings or revenue amount is less than the balance in the Savings Measurement Account, the excess amount deposited is available to the agency for expenditures in the current fiscal year for the same purposes as the original source appropriations. The certified net savings or revenues shall be transferred in accordance with Subsection (a).
- (c) In the event that agencies identify statutory, federal or constitutional restrictions on the use of funds in accounts where savings or revenues were generated by approved employee suggestions, agencies are authorized to substitute other funding and appropriation sources for the \$5,000 or 10 percent employee award portion under Subsection (a). All such substitutions for statutory, federal, or constitutional restrictions shall be reviewed and approved by the Comptroller before the substitution of \$5,000 or 10 percent from other funds is adopted.
- (d) The Comptroller and the State Council on Competitive Government shall jointly develop rules for the above provisions of this section.

Sec. 13.05. **Appropriations from State Tax Revenue.** The appropriations from state tax revenue not dedicated by the Constitution for the 2008–09 biennium shall not exceed the Texas Constitution's Article VIII, § 22 limit of \$62,829,000,336 established by the Legislative Budget Board pursuant to § 316.002, Government Code. The limit on appropriations that can be made for the 2008–09 biennium is subject to adjustments resulting from revenue forecast revisions or subsequent appropriations certified by the Comptroller to the 2006–07 biennial appropriations from state tax revenue not dedicated by the Constitution. The Comptroller may adjust the composition of fund and account balances without any net change in balances or change in appropriations so as to ensure compliance with the limit set forth in Article VIII, § 22 of the Texas Constitution.

Sec. 13.06. **Contingency Rider.** It is the intent of the Legislature that appropriations made in this Act be expended only for purposes and programs specifically funded in the Act, and contingency appropriations made for legislation adopted by the Eightieth Legislature be the sole source of funding for

implementation of that legislation. No state agency or institution of higher education is required to reallocate or redistribute funds appropriated in this Act to provide funding for programs or legislation adopted by the Eightieth Legislature for which there is not specific appropriation or contingency provision identified in this Act.

Sec. 13.07. **Informational Items.** Object of expense (OOE) listings contained in this Act, and other informational listings are not appropriations, and are merely informational listings that are intended to qualify or direct the use of funds appropriated in agency strategies, or are incidental to the appropriation made in the agency strategies.

Sec. 13.08. **Strategic Sourcing.**<sup>14</sup> Out of funds appropriated elsewhere in this Act, the Comptroller of Public Accounts and the Department of Information Resources shall implement strategic sourcing initiatives that result in better value for the state for commonly purchased goods and services. A quarterly report on the progress of implementing strategic sourcing initiatives shall be submitted to the Governor and Legislative Budget Board beginning December 1, 2007. A report, in a format prescribed by the Legislative Budget Board, of the savings resulting from strategic sourcing should be submitted to the Governor and Legislative Budget Board before October 1, 2008 and quarterly thereafter.

- (a) Subject to any specific restriction in another provision of this Act, an appropriation contained in this Act may be transferred from one appropriation item to another appropriation item in an amount not to exceed 12.5 percent of the appropriation item from which the transfer is made for the fiscal year, at the discretion of the chief administrative officer of the state agency or institution.
- (b) As a specific exception to Subsection (a), funds appropriated for capital budget items are subject to restrictions contained elsewhere in this Act.
- (c) Funds appropriated by this Act in items of appropriation that are part of a Goal for “Indirect Administrative and Support Costs” or “Indirect Administration” may also be transferred from one appropriation item to another appropriation item within that same Goal without limitation as to the amount of such a transfer.
- (d) Appropriations made by this Act to each state agency or institution of higher education are not subject to transfer between agencies or institutions except under the provisions of interagency contract, budget execution statutes, or specific rider or statutory authorization.

Sec. 14.02. **Transfers for Contract Services.** Funds appropriated in the various Articles of this Act for “Employees Retirement System,” “Social Security State Match,” and “Benefit Replacement Pay” may be transferred between Articles for similar appropriation items for the purpose of paying employee benefits costs incurred by higher education institutions when those institutions have contracted to provide services to state agencies.

**Sec. 14.03. Limitation on Expenditures - Capital Budget.**

- (a) Contained in appropriations made to certain agencies by this Act are amounts identified as the “Capital Budget.” Except as provided under this section, none of the funds appropriated by this Act, in excess of amounts restricted to capital budget purposes, may be expended for capital budget purposes without the prior approval of the Governor and Legislative Budget Board.

## AGENCY DISCRETIONARY TRANSFER PROVISIONS

(Continued)

- (g) Appropriations restricted to capital budget purposes and not identified in a "Capital Budget" as being for lease payments to the master lease purchase program (MLPP) or for other lease-purchase payments may be utilized to make lease payments under MLPP or for other lease or installment payments only if the agency to which the appropriation is made provides a report to the Comptroller specifying the sum of the lease payments to be made during the biennium for the Capital Budget item being acquired. The Comptroller shall reduce the appropriation made by this Act for the Capital Budget item in an amount equal to the difference between the appropriated amount and the sum of the lease payments for the biennium and deposit that amount into the unappropriated balance of the original funding source. TO ALL TO WHOM THESE PRESENTS SHALL COME:

House Bill 1, the General Appropriations Act, having been duly certified by the Comptroller of Public Accounts pursuant to Article III, Section 49a of the Texas Constitution, has been presented to me for action. The bill would appropriate approximately \$152.5 billion from all funding sources, including \$73.9 billion from the General Revenue Fund for the fiscal biennium beginning September 1, 2007. General revenue spending would increase by \$8.3 billion or 12.6 percent compared to the current biennium.

I will sign this budget because of the many good things it does to move Texas forward. This bill increases border security funding by more than \$100 million, invests an additional \$146 million in college financial aid, provides funding for a new film incentive program, provides more money for the Children's Health Insurance Program, expands our investment in clean air programs, and provides hundreds of millions of dollars for teacher incentive programs. It also funds increases for our classrooms, mentoring for the children of prisoners, and important criminal justice priorities.

While I support many of the investments in the budget, I am concerned this budget is not transparent, continues billions of dollars of accounting gimmicks, and misses several opportunities.

Texas started this legislative session with the largest projected surplus in state history. This was an ideal time to expand the 2006 property tax cuts and get the state's fiscal house in order for the future.

The large surplus should have removed all pressure to continue budget tricks such as collecting funds for a specified purpose but saving balances in those funds to balance the overall budget.

While some progress was made, such as finally ending the Telecommunication Infrastructure Fee in 2008, appropriating all specialty license plate revenue for its intended purpose, and partially implementing the System Benefit Fund to provide low income electric discounts, other changes to improve Texas were missed. Texans will miss out on an additional \$1.2 billion worth of highway projects because most of the state police are still funded from the State Highway Fund. Trauma capabilities won't be as far reaching as they could be because not all dedicated trauma funds are appropriated. And more than \$3 billion in dedicated accounts will continue to be used to balance this budget, while \$2.5 billion that should have been returned to taxpayers will be left in state coffers.

I also encourage the legislature to strengthen its fiscal note estimating process. Many appropriations made in this Act are based on fiscal notes or estimates that say "no significant fiscal impact" or "cannot be determined," sometimes despite conflicting information from the implementing agency or entity. For example, the fiscal note for House Bill 3107, the so-called "funds consolidation bill" which is relied upon to shift billions in fund balances to certify the state budget, carries a fiscal note that says the impact to the state cannot be estimated. Senate Bill 453, which requires the Texas Department of Criminal Justice to test inmates for HIV, was estimated to have no

SECRETARY OF STATE

significant fiscal impact despite the clear costs of the program. Finally, the Higher Education Coordinating Board estimated the cost of House Bill 589, which makes it easier for university branch campuses to become free-standing institutions and receive additional state dollars, at \$7.6 million for fiscal years 2008-2009 and \$15 million for fiscal years 2010-2011. Yet, astonishingly, and without any explanation, the Legislative Budget Board's fiscal note asserts "no fiscal implication to the state is anticipated." Ignoring the obvious fiscal impact of these and other bills does not add to making the state budget the clear, transparent document it should be for the citizens of Texas.

In February, I released my proposed budget which embodied the principles of disciplined governance and truth-in-budgeting. I proposed a lower spending limit, greater transparency in higher education funding, and an end to flawed budget practices such as deferring payments and using dedicated balances for budget certification. My line-item vetoes for both bills total \$639.5 million in general revenue and \$646.5 million in all funding sources, including \$562.9 million in general revenue and \$570.0 million in all funding sources from House Bill 1 and \$76.6 million in general revenue and all funding sources from House Bill 15.

I am now more gravely concerned about appropriations for higher education than I was in February. Although some positive steps occurred, such as increasing financial aid by nearly \$146 million and providing initial funding for a higher education incentive initiative, both fell far short of my expectations from the Eightieth Legislature.

Our process of funding higher education is seriously flawed. During the past several biennia, the legislature has moved away from the equitable statutory formula funding system to greater reliance on the inequitable use of political earmarks. Formulas developed by the Texas Higher Education Coordinating Board are fair; they are not developed in a vacuum. Scores of senior administrators from all institutions participate in advisory committees that evaluate quantifiable financial data and come to an agreement on distributive formulas. The formulas are reviewed by professionals who, in turn, forward them to an accountable board for adoption. However, once the formulas are used by legislative staff in the introduced versions of the appropriations bill, institutions pressure their local delegations for special consideration and thwart the objective professional process. Legislators provide special earmarks for their local institutions with no consideration of the best use of scarce resources to meet statewide goals and needs. From 1986-87 to 2006-07, special items and excellence funding grew from \$63.8 million to \$908.2 million, an increase of 1,323.2 percent. In 1986-87, special items represented 2.1 percent of the schools' total general revenue appropriations. By 2006-07, this percent was 14.9 percent. After I publicly denounced this kind of porkbarrel spending, the legislature added another \$255.4 million and cut virtually nothing. In 2008-09, special items will constitute 19.5 percent of total general revenue funding. This is unacceptable.

Institutions come to expect pork as a permanent way to support operations. They rely on pork to sustain operations above levels they can safely expect from equitable formula funding – equitable in the sense that this is the amount their peers and the Texas Higher Education Coordinating Board (THECB) deem appropriate to maintain an academic program or physical facility.

In February, I called for a clear, unambiguous appropriations format for all institutions and recommended ending lump sum funding. The adoption would have increased accountability to state budget writers, taxpayers and students seeking to address the cost of education at state colleges and universities. A new pattern would have made it easier for schools to identify statewide trends to justify requests for funding to address specific needs. My new pattern broke down enormous, vague line items such as "Operations

SECRETARY OF STATE

JUN 15 2007

Support" into understandable elements such as "Faculty Salaries," "Library," "Building Maintenance," and "Utilities." Not only would this new budget pattern have provided greater clarity in how tax dollars are used, it would have allowed increased precision in allocating dollars for justified purposes. This, too, was ignored while political earmarks received even more money. The major rationale used for not providing greater transparency is fear that I, and future governors, might use our constitutional right to gubernatorial line-item veto. The universities and legislators fear that governors may use the power of veto capriciously or irresponsibly. To which I counter: Any governor's line-item veto can in no way be more irresponsible than the legislature's decades-long practice of funding Special Items with absolutely no accountability or justification whatsoever to the taxpayers of Texas.

I called for an increase of \$362.8 million, or 60.3 percent in need- and performance-based financial aid. Contrary to deliberately misleading public statements by some, this aid was in the form of grants for students willing to work to get and keep it. This is not a novel concept in America: "I will give you money, but I expect something in return," which in this case was maintaining a "B" average. If you fell below a "B," the "grant" would have become an interest-free loan, which was a great deal any way you look at it. My proposal was criticized as too strenuous for students in certain members' districts, a nauseating testament to what President George W. Bush has justly called "the soft bigotry of low expectations."

The funding process used by the legislature to write this appropriations act is antiquated, unfair, and keeps Texas from adequately competing at national and global levels. Texas is shackled by provincialism, preventing the creation of the workforce and laboratory innovations needed to meet the demands of the Twenty-first Century economy. This must stop.

I urge my fellow state leaders to use the select commission on higher education and global competitiveness created by House Concurrent Resolution 159 as the vehicle for change and use it to modernize how we address funding and deliver vital post-secondary services. This commission is charged with drafting a Texas Compact that reflects a long-term vision and a step-by-step plan to attain specific goals. I hope that those appointed to the commission understand the urgency I feel and that the Eighty-first Legislature will rise above local interests and work for the good of the state as a whole. Texans deserve no less. Texans expect no less.

I hereby object to and veto the following items from House Bill 1, and include a statement of my objections to each of those items.

**Article I – General Government**

|  | \$2,288,188 | <del>\$2,288,188</del> |

*This veto deletes a portion of Indirect Administration for the Texas Building and Procurement Commission. House Bill 3560 transferred the procurement functions of that agency to the Comptroller of Public Accounts and sound fiscal management dictates that the agency's administrative funds be cut because of diminution of statutory responsibility.*

**Article II – Health and Human Services**

| <u>Health and Human Services Commission</u> | <u>2008</u>   | <u>2009</u>   |
|---|---------------|---------------|
| B.2.3. Medicare Federal Give Back           | \$292,916,177 | \$297,195,288 |

*This veto deletes the second year of the appropriation to fund the state's contribution to the Medicare Part D benefit for recipients eligible for Medicaid and Medicare services (i.e., dual eligibles). Although I believe that all funding for this purpose is unnecessary, I am leaving the fiscal year 2008 appropriation to preserve flexibility and allow the Health and Human Services Commission the option to transfer funds to more important purposes if necessary. As I stated in 2005, I strongly support the federal assumption of prescription drug costs for dual eligibles. Texas has been a full partner in the success of implementing and ensuring a smooth transition of dual eligible individuals to the Part D benefit. In fact, Texas stepped in when the initial implementation ran into administrative roadblocks and spent state funds to ensure that no dual eligible went without their medications.*

*However, I continue to object to the Centers for Medicare and Medicaid Services' interpretation of the state payment formula (i.e., clawback) and believe it penalizes states like Texas that have taken innovative steps to provide Medicaid drug benefits, control drug cost increases, and manage overall program costs trends. It is worth noting that state clawback payments are projected to increase over the next few years, while the federal government sends out press releases touting the larger-than-predicted savings produced by the program. Texas will continue to partner with other states that share these concerns to pursue an equitable approach to sharing the savings in a way that is not an unconstitutional raid on state treasuries.*

**Article III – Education**

| <u>Higher Education Group Insurance Contributions</u> | <u>2008</u> | <u>2009</u>   |
|---|-------------|---------------|
| C.1.29. Pub Community/Jr Colleges                     | 153,979,799 | \$153,979,799 |

*This veto deletes fiscal year 2009 funding for Higher Education Employees Group Insurance Contributions for Public Community/Junior Colleges. A budget rider states that "the funds appropriated by this Act out of the General Revenue Fund may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages if the salaries or wages are paid from a source other than the General Revenue Fund." Community colleges have violated this provision, using millions of state dollars annually to pay the benefits of non-state paid employees. To get money for these employees, community colleges falsified their appropriations requests. As a result, their appropriation for fiscal years 2008-09 is approximately \$126 million too high. Community colleges have unexpended balance authority, so they can apply proportionality in fiscal year 2008 and fund most of fiscal year 2009 with fiscal year 2008 savings and the rest with increases provided for instruction and operations.*

| <u>Higher Education Coordinating Board</u> | <u>2008</u> | <u>2009</u> |
|--|-------------|-------------|
| E.1.3. New Community College Campuses      | \$1,676,325 | \$1,607,182 |

*This veto deletes an appropriation for contact hour enrollment generated at certain new community college campuses. There are two appropriations associated with enrollment expansion, and only one is needed. The remaining item for two-year enrollment growth (Texas Higher Education Coordinating Board, strategy E.1.2., Two-Year Enrollment Growth) is more equitable because it takes into account the whole district, not just an isolated, handpicked campus.*

*This veto deletes the following special item appropriations:*

- *Quantitative Study at THECB. This study would develop a pilot system to track and improve student college readiness and progress from high school to college entry to workforce development. THECB can do this within existing resources. It was appropriated \$24.6 million for the College Readiness Initiative in addition to the \$14.9 million provided for fiscal year 2007. These and other funds available to the agency can be used for this purpose.*
- *Museum of Fine Arts at Angelo State University. This special item would contribute little to the goals of "Closing the Gaps." *bond debt service, compared to the university statewide average of 18.4 percent. If this initiative is a priority, the university can use its \$18.9 million appropriated for Institutional Enhancement.*

- *Extend Program Delivery at Texas Cooperative Extension. These funds would increase the number of county extension agents, which are not a state priority.*
- *Obesity Research (Scott & White Temple) at the Agricultural Experiment Station. (The rider incorrectly identifies the "Texas Agriculture Extension Service.") Two appropriations are made for obesity research, and only one is needed. The other is for \$18 million at The University of Texas Southwestern Medical Center at Dallas. One of my priorities is increasing collaboration among the agencies and institutions of higher education. The Experiment Station can collaborate with Southwestern.*
- *San Antonio Life Science Institute at The University of Texas at San Antonio. Before the state makes the investment required to create more tier-one research institutions, we need a long-term vision and plan. - *Engineering Program at West Texas A&M University. The university did not request this special item. Furthermore, it already receives a disproportionate share of special item and excellence funding. Special items represent 26.7 percent of its total general revenue budget, less tuition revenue bond debt service, compared to the university statewide average of 18.4 percent. If this initiative is a priority, the university can use its \$31.3 million appropriated for Institutional Enhancement.*
- *Public Health Expansion at The University of Texas Health Science Center at Houston. Funds are provided elsewhere for increasing the number of nursing graduates, which is a more critical need.*
- *San Antonio Life Science Institute at The University of Texas Health Science Center at San Antonio. *These vetoes delete the fiscal year 2009 appropriation for Contracted Temporary Capacity and the appropriations for Other Support Services at the Texas Department of Criminal Justice (TDCJ). The amount of general revenue funds appropriated to TDCJ grew by almost 10 percent from the 2006-2007 biennium. Much of this substantial increase will support probation, parole, and substance abuse treatment. To the extent this funding reaches our non-violent offenders and reduces recidivism, I support it because it will reduce the future prison population. Yet, I cannot ignore the fact that, during the biennium, the average number of incarcerated offenders is only expected to grow by 2 percent and the average number of offenders under active parole supervision or adult probation is only expected to grow by 5 percent. In that context, a 10 percent increase is unreasonable and is reduced by this veto.*
