3. **Limitation on Expenditures for Conservatorship Suits.** To the extent allowed by federal regulation, federal funds may be used by the department in conjunction with funds provided by counties with which the department has child welfare contracts, to pay for legal representation for children or their parents in suits in which the department is seeking to be named conservator. No general revenue funds appropriated to the department may be used to make such payments.
  
4. **Appropriation of Funds from Counties, Cities, and Other Local Sources.** All funds received by the department from counties, cities, and other local sources and all balances from such sources as of August 31, 2007, are hereby appropriated for the biennium ending August 31, 2009 (estimated to be \$0), for the purpose of carrying out the provisions of this Act.
  
5. **Accounting of Support Costs.** The State Comptroller shall establish separate accounts from which certain support costs shall be paid. The Department of Family and Protective Services is hereby authorized to make transfers into separate accounts from line item strategies in order to pay for these expenses in an efficient and effective manner. Only costs not directly attributable to a single program may be budgeted in or paid from these accounts. Items to be budgeted in and paid from these accounts include but are not limited to: postage, occupancy costs, equipment repair, telephones, office printing costs, supplies, freight and transport costs, telephone system costs, and salary and travel costs of staff whose function supports several programs. The department shall be responsible for monthly allocations of these costs to the original strategies.
  
6. **Tertiary Prevention of Child Abuse Programs.** From the amounts appropriated above, the Department of Family and Protective Services shall allocate up to \$120,000 each fiscal year of the biennium for continuation of a statewide network of community-based, volunteer-driven programs for prevention, intervention, and aftercare services of abused children.
  
7. **Foster Care Rates.**

- b. The department may also use funds in Strategy A.2.10, Foster Care Payments, to recommend alternate service provision intake and investigation that will consider expansion of contract services, regional planning, service outcomes, and appropriate funding mechanisms to be tested in pilot projects. Such pilot approaches to innovative service delivery shall be designed in conjunction with providers, approved by the Health and Human Services Commission, and funded at no increased cost to the State. The department may include a modification of rates for new pilot approaches implemented in this manner.
  - c. The department may utilize up to \$9,641,896 from funds appropriated above in Strategy A.2.10, Foster Care Payments, for the Relative and Other Designated Caregiver Monetary Assistance Program. The department shall conduct ongoing evaluations of the program.
- 8. Fund Transfers for Funds Consolidation.** For the purpose of funds consolidation, federal and other funds may be transferred into the General Revenue Fund from Department of Family and Protective Services Fund 37. The initial deposit of federal funds shall be made into Fund 37 and no direct expenditures shall be made from this fund.
- 9. Substitute Care Permanency Goal.** It is the intent of the Legislature that whenever possible, the department shall utilize state and/or federal funds currently being expended for substitute care to cover the cost of assuring permanent homes where appropriate for foster children.

  - b. **Federal Issues.** The Department of Family and Protective Services shall notify the Legislative Budget Board and the Governor on a timely basis about emerging issues that could result in the loss of more than \$1 million in federal revenue assumed in the appropriations act.
  - c. **Monthly Financial Reports.** The Department of Family and Protective Services shall submit the following information to the Legislative Budget Board and the Governor on a monthly basis:
    - (1) Information on appropriated, budgeted, expended, and projected funds, by strategy and method of finance.

Drug Use Review Board, Pharmaceutical and Therapeutics Committee, Public Assistance Health Benefits Review and Design Committee, and Guardianship Advisory Board.

To the maximum extent possible, the Commission shall encourage the use of videoconferencing and teleconferencing and shall schedule meetings and locations to facilitate the travel of participants so that they may return the same day and reduce the need to reimburse members for overnight stays.

5. **Assessments to Health and Human Services Agencies.** The Health and Human Services Commission shall notify the Legislative Budget Board and the Governor by November 1 of each fiscal year of the annual amount of funds to be transferred by interagency contract by each agency under the authority of the Health and Human Services Commission in Government Code, Chapter 531. The report shall provide an explanation of each contract.
6. **Vendor Drug Rebates - Medicaid and CHIP.** All references in this rider to rebate revenue refer to vendor drug rebates as well as supplemental rebates earned via the preferred drug lists (methods of finance include Vendor Drug Rebates-Medicaid, Vendor Drug Rebates-CHIP, and Vendor Drug Rebates-Supplemental Rebates).
  - a. **Medicaid.** The Health and Human Services Commission is authorized to expend Medicaid rebate revenues appropriated above in Strategy B.2.2, Medicaid Vendor Drug Program, pursuant to the federal requirements of the Omnibus Budget and Reconciliation Act of 1990 as well as rebates collected in excess of federal requirements pursuant to state law;
  - b. **CHIP.** The Health and Human Services Commission is authorized to expend CHIP rebate revenues and related interest earnings appropriated above in Strategy C.1.5, CHIP Vendor Drug Program;
  - c. **Rebates as a First Source of Funding.** Expenditures for the Medicaid and CHIP Vendor Drug Programs shall be made from rebates received in fiscal years 2008 and 2009. As rebates are generated, expenditures to support the Medicaid and CHIP Vendor Drug Programs shall be made from rebate revenues. In the event rebate revenues are not available for expenditure, General Revenue may be used to support both Vendor Drug Programs until rebate revenues are available.
  - d. **Appropriation.** In addition to rebate revenues appropriated above in Strategy B.2.2, Medicaid Vendor Drug Program, and Strategy C.1.5, CHIP Vendor Drug Program, the Health and Human Services Commission is appropriated Medicaid and CHIP vendor drug rebates generated in excess of those amounts, subject to the following requirements:
    - (1) Vendor drug rebates shall be expended prior to utilization of any General Revenue available for the purpose of the CHIP or Medicaid Vendor Drug Programs.
    - (2) In the event General Revenue has been expended prior to the receipt of vendor drug rebates, the Commission shall reimburse General Revenue. The Commission shall reimburse the General Revenue Fund with vendor drug rebates on a monthly basis in order to prevent accumulation of vendor drug rebates.
  - e. **Limited Use of Rebates.** Rebates generated by the Medicaid program shall only be used for the Medicaid program. Rebates generated by the CHIP program shall only be used for the CHIP program.
7. **Medicaid Subrogation Receipts (State Share).** For the purposes of this provision, Medicaid Subrogation Receipts are defined as tort settlements related to the Medicaid program. Amounts defined as Medicaid Subrogation Receipts are to be deposited into the General Revenue Fund, Object No. 3802. The Commission is authorized to receive and expend Medicaid Subrogation Receipts. Expenditures shall be made from recoupments and interest earnings received in fiscal year 2008 and fiscal year 2009. The use of the state's share of Medicaid Subrogation Receipts is limited to funding services for Medicaid clients. - b. In the event General Revenue has been expended prior to the receipt of the state's share of Medicaid Subrogation Receipts, the Commission shall reimburse General Revenue. This process shall be completed on a monthly basis in order to prevent accumulation of Medicaid Subrogation Receipt balances.

The preceding paragraph shall be the exclusive appropriation authority for receipts from the above identified sources, and none of these receipts shall be appropriated by a provision of Article IX of this Act.

- 8. Appropriation Transfers and Unexpended Balances Between Fiscal Years.** In addition to the transfer authority provided elsewhere in this Act and in order to provide for unanticipated events that increase costs associated with providing Medicaid or CHIP services for eligible clients, the Health and Human Services Commission is authorized to transfer General Revenue from funds appropriated in Medicaid or CHIP strategies in fiscal year 2009 to fiscal year 2008 and such funds are appropriated to the Commission for the 2008-09 biennium. Notwithstanding the General Provisions of this Act, the Health and Human Services Commission is hereby authorized to receive and disburse in accordance with plans acceptable to the responsible federal agency, all federal moneys that are made available (including grants, allotments, and reimbursements) to the state and retain their character as Federal Funds for such purposes, and to receive, administer, and disburse Federal Funds for federal regional programs in accordance with plans agreed upon by the Health and Human Services Commission and the responsible federal agency, and such other activities as come under the authority of the Commissioner of Health and Human Services, and such moneys are hereby appropriated to the specific purpose or purposes for which they are granted or otherwise made available. Any amounts of such transferred funds not required for these payments shall be deposited by the Health and Human Services Commission to the General Revenue Fund as unappropriated revenue. By October 1 of each fiscal year, the Health and Human Services Commission shall present a schedule of projected transfers and payments to the Comptroller of Public Accounts, the Governor, and the Legislative Budget Board. The Comptroller of Public Accounts shall process all payments and transfers, unless disapproved or modified by the Legislative Budget Board or the Governor.

The use of CHIP Experience Rebates is limited to health care services for CHIP clients. CHIP Experience Rebates shall be expended as they are received as a first source, and General Revenue shall be used as a second source, to support CHIP-related programs. In the event that these revenues should be greater than the amounts identified in the method of finance above as Experience Rebates - CHIP, the department is hereby appropriated and authorized to expend these General Revenue Funds thereby made available, subject to the following requirements:

- 20. Additional Funding Sources, Medicaid.** Notwithstanding any other provisions of this Act, if the appropriations provided for a Medicaid program are not sufficient to provide for expenditures mandated by either state or federal law, after accounting for any appropriations made to the agency operating the Medicaid program, and available for transfer to the Medicaid program, the Legislative Budget Board and the Governor may provide for and are hereby authorized to direct the transfer of sufficient amounts of funds to the Health and Human Services Commission from appropriations made elsewhere in this Act.

    - (1) Before an employee can be eligible for a bonus, the employee must have been employed in the program for the related twelve months, remain employed in the program, and demonstrate performance that meets expectations.
    - (2) The commission has the authority to determine whether employees who have received bonuses under this provision are eligible for merit salary increases during a twelve-month period prior to or after receipt of the bonus.

Out of funds appropriated above in Strategy D.1.1, TANF Grants, \$61,420,229 in General Revenue is appropriated for TANF maintenance of effort for fiscal year 2008, and \$64,283,633 in General Revenue is appropriated for TANF maintenance of effort for fiscal year 2009. However, General Revenue appropriated for TANF maintenance of effort may be transferred to Strategy A.1.2, Integrated Eligibility and Enrollment, subject to the following limitations:
- a. Declines or shifts in TANF caseloads prevent the Health and Human Services Commission from expending all General Revenue appropriated for TANF maintenance of effort in Strategy D.1.1, TANF Grants, within the appropriate fiscal year;

The report shall include rebate principal and interest outstanding, age of receivables, and annual collection rates. 35. **Medical Treatments.** The Health and Human Services Commission may distribute funds for medical, dental, psychological or surgical treatment provided to a minor only if consent to treatment is obtained pursuant to Chapter 32 of the Texas Family Code. The Health and Human Services Commission shall implement Medicaid upper payment limit reimbursement to cover the actual costs incurred in providing Medicaid inpatient and outpatient services and Graduate Medical Education at children's hospitals. In the event that appropriations are insufficient to cover these Medicaid costs in all children's hospitals, the Health and Human Services Commission shall prioritize this Medicaid upper payment limit reimbursement to reduce the Medicaid losses in any children's hospital with a Medicaid patient load that exceeds 60 percent of the hospital's total inpatient days.
42. **Health Insurance Premium Payment (HIPP) Program.**

The Commission shall ensure that the reporting of uncompensated care (defined to include bad debt, charity care and unreimbursed care) by Texas hospitals is consistent for all hospitals and subjected to a standard set of adjustments that account for payments to hospitals that are intended to reimburse uncompensated care. These adjustments are to be made in such a way that a reliable determination of the actual cost of uncompensated care in Texas is produced. In pursuing this objective, the commission, in coordination with the Attorney General, and with advice from representatives from the hospital industry, will:

## HEALTH AND HUMAN SERVICES COMMISSION

(Continued)

- c. reduces the variability in the Medicaid reimbursement rates paid to hospitals for treating patients with the same diagnoses;
- d. promotes and rewards increased efficiency in the operation of hospitals;
- e. emphasizes and rewards quality of outcomes and improves the treatment of Medicaid patients through pay-for-performance principles;
- f. recognizes, through add-on payments or other methods, the unique needs of rural hospitals; and
- g. reformulates the Disproportionate Share Hospital (DSH) supplemental payment methodology to increase its focus on paying hospitals for uncompensated care and reduces the existence of the inpatient Medicaid shortfall that prevents the State from achieving this objective.

**46. Healthy Marriage Development Program.** Out of funds appropriated above in Strategy A.1.2, Integrated Eligibility and Enrollment, the Health and Human Services Commission shall devote \$7,500,000 in fiscal year 2008 and \$7,500,000 in fiscal year 2009 of TANF Federal Funds to a Healthy Marriage Development Program and similar activities that strengthen families.

Hospitals that meet the criteria as of September 1, 2007, retain this reimbursement for FFS and PCCM inpatient services.
53. **Payments to Health Centers under Medicaid Managed Care.** The Health and Human Services Commission shall require contracted Medicaid managed care organizations to make prompt payments and cost settlements with Federally Qualified Health Centers within their network. The Commission shall incorporate performance standards with these requirements in the contracts with the Medicaid managed care organizations.
54. **Staffing and Capital Authorization in Lieu of Contracted Responsibilities.**
- a. Notwithstanding any other provision in this Act, if the executive commissioner of the Health and Human Services Commission determines that a service performed as of the effective date of this Act under a contract would be more effectively performed by state personnel, the executive commissioner is authorized to adjust the agency's FTE limitation to the extent necessary to ensure the successful assumption of such contracted duties and to comply with federal performance standards. The commission must make corresponding adjustments in the scope of duties and responsibilities in the affected contract. The commission must make corresponding adjustments in the scope of the affected contract. An increase in a capital project is subject to the following requirements:

65. **Impact on Disproportionate Share Hospital Funding due to Federally Declared Natural Disasters.** It is the intent of the Legislature that the Health and Human Services Commission considers the negative impact on Disproportionate Share Hospital funding to hospitals located in counties whose population has changed as a result of a federally declared natural disaster. The commission shall develop and implement strategies to reduce PERM. In addition, the commission shall conduct a cost benefit analysis of the Medicaid Management Information System (MMIS) to determine the best solution that will comply with the Medicaid Information Technology Architecture (MITA) and other CMS technology initiatives and requirements. The commission is authorized to use technology to reduce error rates associated with PERM and may procure a new MMIS to comply with federal technology initiatives. The Health and Human Services Commission shall determine the feasibility and cost effectiveness of utilizing proven technology for these purposes, and shall implement any such procedures if they are feasible and cost-effective no later than January 1, 2008. In the event the Health and Human Services Commission determines to contract with an outside vendor for these services, it shall issue a Request for Proposal which solicits the broadest range of ideas and technological advances which can be utilized to ensure eligibility. **Sec. 32. Barber and Cosmetology Services.** The Department of State Health Services and the Department of Aging and Disability Services may charge fees for barber and cosmetology services in state mental health and mental retardation facilities provided the fees charged are consistent with an individual's ability to pay. These fees are appropriated above to the departments to offset the cost of providing barber and cosmetology services. The departments may also use patient benefit funds to offset the cost of these services for indigent clients.

**Sec. 33. Language Interpreter Services.** In order to compensate employees of state mental health and mental retardation facilities for assuming the duty of providing interpreter services to consumers whose primary language is not English, facilities of the Department of State Health Services and the Department of Aging and Disability Services, upon written authorization of the commissioner or his/her designee, may, from funds appropriated above, increase the salary of classified employees by an amount equal to a one step increase, or 3.4 percent, so long as the resulting salary rate does not exceed the rate designated as the maximum rate for the applicable salary group. This increase shall be granted only for the regular provision of interpreter services above and beyond the regular duties of the position, and shall be removed when these services are, for whatever reason, no longer provided by the employee or when they are no longer needed by the facility. Salary increases provided for this purpose are not merit increases and shall not affect an employee's eligibility to receive a merit increase. This authorization also includes employees who provide interpreter services in American Sign Language.

**Sec. 34. State-Owned Housing.** The Superintendent, Medical Director, Assistant Superintendent for Programs, and Director of Plant Maintenance at each state mental health and mental retardation facility are authorized to live in state-owned housing at a rate determined by the Department of State Health Services or the Department of Aging and Disability Services. The commission is authorized to license the use of any copyright-protected material, trademark, trade secrets, and any patented technology relating to mental health or mental retardation program activities. The authorization provided under this provision does not include any mineral royalties. Fees collected in the sale of training materials described under (a) above may be in excess of the actual reproduction cost incurred by the commission and shall be used to recoup the costs associated with developing the training materials. Fifty percent of the fees collected in licensing of any patented technology shall be

**Sec. 37. Limit on Spending New Generation Medication Funds.**

- a. It is the intent of the Legislature that the Department of State Health Services and the Department of Aging and Disability Services utilize funds appropriated for New Generation Medications for no other purpose than the provision of New Generation Medications. This limitation shall apply to funds appropriated for New Generation Medications in the following strategies at the Department of State Health Services: B.2.1, Mental Health Services for Adults, B.2.2, Mental Health Services for Children, B.2.4, NorthSTAR Behavioral Health Waiver, and C.1.3, Mental Health State Hospitals; and in the following strategy at the Department of Aging and Disability Services: A.8.1, MR State Schools Services.
- b. Notwithstanding the limitation described above, the department shall allow a local mental health or mental retardation authority to expend an amount not to exceed 15 percent of its New Generation Medication funds on support programs that are related to the administration of New Generation Medications, provided, however, that an authority using its New Generation Medication funds for support services must meet its contracted performance target for persons served with New Generation Medications and that the availability of New Generation Medication funds to expend on services must result from cost efficiencies achieved by the authority.
- c. To the extent that the local authorities are able to obtain private sector donations of medications for clients and/or financial contributions for the purchase of New Generation Medications in Strategies B.2.1 and B.2.2, and they meet or exceed their contracted performance targets for persons served with New Generation Medications, they may expend up to an equivalent amount from these strategies on direct services to clients.

**Sec. 38. Purchasing of Medication.** The Department of State Health Services and the Department of Aging and Disability Services shall require local mental health and mental retardation authorities to document their effort to make needed medications available to consumers at the lowest possible prices and to utilize the most cost effective medication purchasing arrangement available. It is the intent of the Legislature that the Department of State Health Services and the Department of Aging and Disability Services shall provide technical assistance to community centers as necessary to maximize efficiency.

**Sec. 39. Donations from Individuals, Community Groups and Volunteer Services Councils.** It is expressly provided that the Department of State Health Services and the Department of Aging and Disability Services, in accordance with § 533.001 of the Health and Safety Code and to the extent permitted by law, may accept donations for permanent improvements at the state mental health

Permanent improvements are defined as an improvement to a state facility that involves construction, building system(s), and/or landscaping.

**Sec. 40. Contracted Medical Services.** Out of funds appropriated above, the Department of State Health Services (DSHS) and the Department of Aging and Disability Services (DADS) shall not pay more than the approved reimbursement rate set by the Health and Human Services Commission for hospital services provided to an indigent DSHS or DADS consumer in a private or public hospital.

**Sec. 41. Efficiencies at Local Mental Health and Mental Retardation Authorities.** It is the intent of the Legislature that the local mental health and mental retardation authorities that receive allocations from the funds appropriated above to the Department of Aging and Disability Services and the Department of State Health Services shall maximize the dollars available to provide services by minimizing overhead and administrative costs and achieving purchasing efficiencies. Among the strategies that should be considered in achieving this objective are consolidations among local authorities and partnering among local authorities on administrative, purchasing, or service delivery functions where such partnering may eliminate redundancies or promote economies of scale. Local mental health and mental retardation authorities shall also maximize third party billing opportunities, including Medicare and Medicaid.

It is the Legislature's intent that local authorities not expend funds appropriated to the Department of Aging and Disability Services in Strategy A.4.2, MR Community Services, or Strategy A.4.5, MR In-Home Services, to supplement the rate-based payments they receive to fund their costs as providers of waiver or ICF-MR services.

**Sec. 42. Equal Opportunity Principles in Contracting for Social Services.** The Legislature intends that each state agency that contracts with or makes a grant to a nongovernmental entity to provide social services, using money appropriated by this Act, enter the contract or make the grant in a manner that is consistent with the equal opportunity principles and safeguards provided by federal law under 42 U.S.C. § 604a.

**Sec. 43. - a. Funds related to consolidated programs and support services shall be returned to the Department of Aging and Disability Services (DADS), the Department of Assistive and Rehabilitative Services (DARS), the Department of Family and Protective Services (DFPS), and the Department of State Health Services (DSHS). These funds will be matched with available federal funds and expended under interagency memoranda between HHSC and each agency.
- b. Transfer limitations elsewhere in this Act do not apply to this provision.
- c. By July 1 preceding the start of each fiscal year, the agencies of Article II shall provide a report by strategy that reduces funding at HHSC and increases funding by the same amount at DADS, DARS, DFPS, and DSHS.

- f. This transfer shall not result in a change in total funding in Article II.

**Sec. 45. Exemption of Federal Funds from Article IX, Capital Budget Provisions.** To comply with the legislative intent to maximize the use of federal funds and to fulfill grant requirements for the receipt and expenditure of federal funds, the Department of Aging and Disability Services, the Department of Assistive and Rehabilitative Services, the Department of Family and Protective Services, the Department of State Health Services, and the Health and Human Services Commission are hereby exempted from the Capital Budget Rider Provisions contained in Article IX of this Act, "Limitations on Expenditures - Capital Budget," when federal funds are received in excess of amounts identified in the agency's Capital Budget Rider and when such funds are designated for the purchase of capital items. The agency shall notify the Legislative Budget Board and the Governor upon receipt of such federal funds, including the amount received and the items to be purchased, and shall not expend such funds without approval of the Legislative Budget Board and the Governor. The proposed expenditure shall be considered to be approved if neither the Legislative Budget Board nor the Governor issues a written disapproval not later than:

- a. the 10th business day after the date the staff of the Legislative Budget Board concludes its review of the proposed expenditures and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor; and

**Sec. 51. Provision of Services for Individuals with Traumatic Brain Injury and Spinal Cord Injury through Medicaid.**

- a. Out of funds appropriated above in Strategy B.3.4, Comprehensive Rehabilitation, the Department of Assistive and Rehabilitative Services, in conjunction with the Health and Human Services Commission, the Department of Aging and Disability Services, and the Texas Traumatic Brain Injury Advisory Council, shall determine whether services provided under the Comprehensive Rehabilitation Services Program could be provided in a more cost-effective manner through the Medicaid program, and evaluate cost-effectiveness of such inclusion by using one of the following methods:

  - (3) through a Medicaid State Plan Amendment.

The agencies shall include the following components in the evaluation:

Not later than 30 days following the close of each fiscal quarter, the agencies shall report to the Legislative Budget Board and the Governor, the actual number of slots filled and actual expenditures for each prior quarter.

**Sec. 55. Long Term Care Services under Medical Assistance Program.** The Executive Commissioner of the Texas Health and Human Services Commission in coordination with providers and advocates shall, if cost effective, develop payment categories to reimburse providers (nursing home or community based) providing long term care services under the Medical Assistance Program to recipients who:

- a. do not require acute inpatient hospital or acute rehabilitative care but still require highly skilled nursing and access to technologically advanced therapies such as ventilator care or dialysis;
- b. though stable, require diagnostics or invasive procedures or rehabilitation or extensive prescription medications, but not intensive procedures requiring an acute level of care; and
- c. have a determined course of treatment.

Services provided to recipients meeting these requirements may include, but are not limited to, ventilator care, dialysis, and an outcomes-focused interdisciplinary approach utilizing a professional team done in the most integrated setting possible. The reimbursement methodologies for these payment categories shall be based upon cost-related principles and designed to encourage: 1) sufficient capacity to meet service demands; 2) quality of care and 3) most integrated setting. If HHSC determines that a waiver or authorization from a federal agency is necessary to ensure federal matching funds for Medicaid payments made under these methodologies, HHSC shall request the waiver or authorization and delay implementing the methodologies until the waiver or authorization is granted.

**Sec. 56. **1. State Contribution to Group Insurance for Higher Education Employees Participating in the Employees Retirement System Group Benefit Program.** Funds identified above for group insurance are intended to fund:

- a. the total cost of the basic life and health coverage for all active and retired employees; and
- b. fifty percent of the total cost of health coverage for the spouses and dependent children of all active and retired employees who enroll in coverage categories which include a spouse and/or dependent children.

Institutions of higher education paying for health insurance costs from non-General Revenue funds shall provide the same levels of premium-sharing for SKIP enrollees as provided for those higher education employees with health insurance paid from General Revenue funds.

Funds appropriated for higher education employees' group insurance contributions may not be used for any other purpose.

It is further provided that institutions shall cooperate so that employees employed by more than one institution may be covered under one group policy and that said policy may be held

3. **Appropriation of Charges and Fees.** There is hereby appropriated to The University of Texas Medical Branch at Galveston all charges and fees collected for the general expenses of the medical branch hospitals, including maintenance, support, and salaries of employees for the fiscal years ending August 31, 2008 and 2009.
4. **Rates, Donations and Gifts.** The Board of Regents of The University of Texas System shall fix reasonable rates to be charged and collected by hospitals, and may make and enter into contracts for the hospitalization of the indigent sick and accept donations and gifts for the support and maintenance of the hospitals and may utilize up to \$5 million per annum of local income to match any gift made to endowments provided, however, such match will not result in any reduction in the level of services for patients or any requirement for General Revenue replacement. Any project initiated under this authorization shall not be structured in such a manner that will require future specific appropriation of General Revenue. Provided, however, that this provision shall not be construed so as to authorize, without the prior and specific approval of the Legislature, the acceptance of real property which would require an appropriation by the Legislature for maintenance, repair, or construction of buildings.
5. **Helicopter Operation.** The University of Texas Medical Branch at Galveston is authorized to lease and operate a helicopter for the purpose of transporting critically ill or emergency patients to the medical branch hospitals. No state funds are to be used for the operation of this helicopter, except where the patient served is indigent or through an interagency contract with another state agency, or unless costs are reimbursed from insurance proceeds.

The timing and form of such transfers shall be determined by the Comptroller of Public Accounts in consultation with the Health and Human Services Commission. The Legislative Budget Board is authorized to adjust the amounts of such transfers as necessary to match available federal funds.
7. **Appropriation of Costs for Health Care to Inmates.** None of the funds appropriated above shall be expended to provide or support the provision of health care to inmates of the Texas Department of Criminal Justice (TDCJ). It is the intent of the Legislature that all costs for providing health care to inmates of the TDCJ including costs of operating TDCJ hospital facilities in Galveston County and Lubbock County shall be paid from appropriations made to the TDCJ and from any financial reserves from contracts with TDCJ that are held by the university for the correctional health care services. Appropriations made to the TDCJ for the provision of inmate health care services shall be expended in accordance with Government Code, Chapter 501, Subchapter E.
8. **Support of Student and Resident Training Programs.** The University of Texas Medical Branch at Galveston may spend any revenue appropriated to the institution by this Act or from other available funds for the support and development of student and resident training programs in Austin, including the payment of compensation, travel costs, costs for leased premises, and other operating expenses.

(Continued)

- a. Amounts available for distribution or investment returns in excess of the amounts estimated above are also appropriated to the institution. In the event that amounts available for distribution or investment returns are less than the amounts estimated above, this Act may not be construed as appropriating funds to makeup the difference.
  - b. All balances of estimated appropriations from the Permanent Endowment Fund for The University of Texas Medical Branch at Galveston No. 814 and of the institution's allocation from the amounts available for distribution out of the Permanent Health Fund for Higher Education No. 810, except for any General Revenue, at the close of the fiscal year ending August 31, 2007, and the income to said fund during the fiscal years beginning September 1, 2007, are hereby appropriated. 3. **Forensic Laboratory.** The University of North Texas Health Science Center at Fort Worth is authorized to conduct all blood and DNA tests associated with paternity testing for the Office of the Attorney General at a monetary rate not to exceed the monetary rate at which the Attorney General could obtain the service elsewhere to the extent permitted under federal law and regulations. The income derived from this testing is to be spent only on the Forensic Laboratory. In addition, the services of the Forensic Laboratory are available to other entities or interested parties approved by the University of North Texas Health Science Center at Fort Worth.
  
4. **Parking Garage Debt Service.** Funds appropriated in Strategy C.2.1, Tuition Revenue Bond Retirement, may be used to retire bonds authorized by the Seventy-sixth Legislature to construct a campus parking garage. Parking fee revenue generated by this facility will be accounted for and reported to the Legislative Budget Board. The fee revenue, minus operational and maintenance costs, will be counted in the appropriations process to offset the costs of servicing debt associated with this facility.
  
5. **Estimated Appropriation and Unexpended Balance.** Included in the amounts appropriated above are: (1) estimated appropriations of amounts available for distribution or investment returns out of the Permanent Endowment Fund for the University of North Texas Health Science Center at Fort Worth No. 819 and (2) estimated appropriations of the institution's estimated allocation of amounts available for distribution out of the Permanent Health Fund for Higher Education No. 810.
  - a. Amounts available for distribution or investment returns in excess of the amounts estimated above are also appropriated to the institution. In the event that amounts available for distribution or investment returns are less than the amounts estimated above, this Act may not be construed as appropriating funds to makeup the difference.
  
  - b. All balances of estimated appropriations from the Permanent Endowment Fund for the University of North Texas Health Science Center at Fort Worth No. 819 and of the institution's allocation from the amounts available for distribution out of the Permanent Health Fund for Higher Education No. 810, except for any General Revenue, at the close of the fiscal year ending August 31, 2007, and the income to said fund during the fiscal years beginning September 1, 2007, are hereby appropriated. Any unexpended appropriations made above as of August 31, 2008, are hereby appropriated to the institution for the same purposes for fiscal year 2009.
  
6. **Contingency Appropriations: Economic Development & Technology Commercialization.** Of the amounts appropriated above in Strategy D.4.2, Economic Development & Technology Commercialization, \$3,100,000 for the University of North Texas Health Science Center is contingent upon the certification by the Comptroller of Public Accounts that the joint activities of the collaboration of the University of North Texas Health Science Center and the City of Fort Worth will generate revenue to the General Revenue Fund sufficient to offset the appropriation. The Comptroller shall specify the supporting information to be provided by the collaboration and may require independent verification of the information. If the Comptroller finds the information sufficient to support the projection of increased revenues, a finding of fact to that effect shall be issued and the contingency appropriation up to the amount certified, not to exceed \$3,100,000 for the 2008-09 biennium, shall be made available for the intended purpose.
