## Update on WCSC Priority Watersheds

March 6, 2008

3

## Update on Priority Watershed

- Mustang Creek was selected by the WCSC in December 2007 for WPP development
- TSSWCB, LNRA, and Extension met in early January to discuss WPP
- This discussion led to delaying any stakeholder process due to lack of data in the watershed and potential for significant contribution from WWTFs
- February 2008, LNRA submitted a proposal to the TSSWCB for a SWQM project for the Mustang Creek Watershed funded by FY2008 319 grant money in order to better understand nutrient loadings and sources, and support sufficient stakeholder commitment

## Update on WCSC priority Watersheds

### Plum Creek Watershed Partnership

- On February 19, 2008 the Steering Committee met to finalize and sign the WPP and authorize the submittal of the WPP for state and federal consistency review. The meeting was a celebration of the time and effort stakeholders had put into the development of the WPP. Steering Committee members were recognized for their leadership.
