## Expressing Daily Loads in TMDLs

Thursday, December 6, 2007

Eastern: 2-4 pm Central: 1-3 pm Mountain: 12-2 pm Pacific: 11 am-1 pm Alaska: 10 am-12 pm

Sponsored by U.S. EPA, Office of Wetlands, Oceans, and Watersheds

**Description:** This webcast will introduce EPA's recently released draft document, *Options for Expressing Daily Loads in TMDLs*. The webcast is designed to provide information to TMDL practitioners regarding options for developing appropriate daily load expressions during the TMDL process. In particular, the webcast will address the calculation of daily loads for TMDLs that use allocation time frames that are greater than daily (e.g., annual, seasonal). The session will:

- Review the process for developing daily load expressions
- Provide examples and highlight the implementation benefits of identifying daily loads
- Address impacts of the daily loads requirement to the NPDES community
- Provide the opportunity to pose questions to EPA staff and program experts

**Registration:** You must register in advance to participate in this free Webcast. [To register, please click this link.](#) If you prefer to gather and attend as part of a group of co-workers, only one registrant per group is required.

**Note:** Your computer *must have the capability of playing sound* to attend this webcast.
