% POP USED IN ANALYSIS = percent of the district's population that lives in census block groups located entirely within the district or in block groups where a majority of the population lives in the district.

NATIVE TEXAN = percent of the estimated total population that was born in Texas.

FOREIGN BORN = percent of the estimated total population that was born outside the United States.

NON-CITIZEN = percent of the estimated total population who are not citizens. "Citizens" are persons who indicated on the census questionnaire that they were native-born U.S. citizens or were foreign-born and had become naturalized citizens. Those who had begun but not completed the naturalization process were not classified as citizens.

SPEAKS OTHER THAN ENGLISH AT HOME = percent of the estimated population age 5 and over that speaks a language other than English at home. Persons who reported speaking a language other than English at home may also speak English.

DOES NOT SPEAK ENGLISH WELL = percent of the estimated population age 5 and over that does not speak English well or at all.

MOVED SINCE 1995--WITHIN TEXAS = percent of the estimated population that lived in Texas in 1995, but had moved and lived in a different house or apartment.

MOVED SINCE 1995--TO TEXAS = percent of the estimated population that lived in another state or country in 1995 and had moved to Texas.

This report is one of a series of summaries prepared by the Texas Legislative Council of data reported by the U.S. Bureau of the Census from the long-form questionnaire for the 2000 census. The questionnaire was sent to one in six households nationwide. Reports compiling census data by individual district are also available (contact Redistricting Support Services at 463-6622).
