## Summary of Contracts for Fiscal Year 2007

The Texas Government Code (Sections 2054.008, 2166.2551, 2254.006, and 2254.0301) requires all state agencies and institutions of higher education to report to the Legislative Budget Board (LBB) information regarding any professional services, construction or consulting contract that totals \$14,000 or more, or a major information systems contract that totals \$100,000 or more. The requirement also covers any amendments, modifications, renewals, and extensions for specified contracts. Agencies are required to submit the pertinent information to the LBB no later than 10 days after entering into the contract.

In addition to the contract notification requirements contained in the Government Code, the 2006–07 General Appropriations Act (Article IX, Section 7.04) requires state agencies and institutions to report contracts that exceed \$50,000 that are not already being reported to the LBB.

During the fiscal year that ended August 31, 2007, 122 state agencies and institutions of higher education submitted information on 19,570 contracts to the LBB. These contracts represent a total value of approximately \$43.3 billion.

Ten agencies with contracts valued at \$40.5 billion represented 93.7 percent of all contracts reported (see Table 1). The top three agencies were the Texas Department of Transportation (TxDOT), with \$16.3 billion in contracts; the Health and Human Services

Commission, with \$8.7 billion, and the Teacher Retirement System, with \$5.7 billion.

For fiscal year 2007, the average number of contracts per agency was 162. The 10 agencies with the largest number of contracts (15,972) accounted for 81.6 percent of all contracts. The top three agencies were the Department of Aging and Disability Services, with 4,596; TxDOT, with 3,445; and the Health and Human Services Commission, with 2,857 contracts (see Table 2).

The 10 contracts with the largest dollar values, collectively amounting to \$9.5 billion, represented 22.0 percent of the value of all contracts reported (see Table 3). The top three contractors were Blue Cross Blue Shield of Texas (Teacher Retirement System), Aetna Life Insurance Company (Teacher Retirement System) and ACS State Healthcare, LLC (Health and Human Services Commission). The contracts were for \$2.5 billion, \$1.3 billion, and \$951 million, respectively.

As depicted in Table 4, 39 agencies reported no eligible contracts in fiscal year 2007. Table 5 lists the 11 agencies that did not respond to requests for information.

The detailed contract information contained in this report for state agencies and institutions is organized by government function. Specific detail is provided for the pertinent contractor, contract number, contract description, award/completion dates, and cost.

## Summary of Individual and Aggregate Contracts Totaling \$500,000 or More

In 2005, the Seventy-ninth Legislature approved new reporting requirements for state contracts for the 2006–07 biennium. These new requirements are in addition to the existing contract reporting requirements.

Article IX, Section 7.05 of the 2006–07 General Appropriations Act requires that all agencies and institutions of higher education report to the Legislative Budget Board the following:

- any contract, agreement, purchase order, interagency contract, interlocal agreement, or other written expression of terms of agreement or an amendment, modification, renewal, or extension of such for the purchase or sale of goods or services that was entered into or paid for, either in whole or in part, by a state agency or institution of higher education during a fiscal year, which has a value of more than \$500,000; or
- a series of contracts, agreements, purchase orders, interagency contracts, interlocal agreements, or other written expressions of terms of agreement, or amendments, modifications, renewals, or extensions of such for the purchase or sale of goods or services that was entered into or paid for, either in whole or in part, by a state agency or institution of higher education during a fiscal year which together total in value an amount greater than \$500,000 and involving both:
  - a single entity or individual; and
  - a state agency or institution of higher education.

During the fiscal year that ended August 31, 2007, 65 state agencies and institutions of higher education submitted information about contracts that meet the new requirements. Fifty-four agencies reported no eligible contracts (see Table 6); 53 agencies did not respond to requests for information (see Table 7). (It should be noted that agencies not responding may have done so because they have no contracts or series of contracts that meet this relatively high threshold.)

# Construction, Consulting, Professional Services, Major Information Systems, and Other Contracts

## Reported by State Agencies and Institutions of Higher Education to the Legislative Budget Board

*Note: This report covers contracts awarded, completed, and/or open during FY 2007. Contract information maintained by the LBB and included in this report is from information submitted by each state agency. Although every effort was made to correct obvious errors and to avoid duplicate entries, this information has not been verified by the LBB, and some inaccuracies may exist.*
