

FAST Option for Obtaining Fingerprint Cards

Fingerprint Applicant Service of Texas (FAST) is a Texas Department of Public Safety program that provides electronic capture of your fingerprints. This is the fastest and highest quality option available to Concealed Handgun Licensing (CHL) applicants.

Applicants using the FAST program will benefit from the system's state of the art technology resulting in 98% of fingerprint submissions accepted without reject (compared to approx. 75% with traditional ink). FAST locations are in professional environments throughout the state as opposed to traditional law enforcement facilities.

Service is available now and the FAST agent, Integrated Biometric Technology (formerly Identix Identification Services, IIS) locations can be found throughout the state of Texas. You can schedule an appointment online, www.ibtfingerprint.com or by phone, (888) 467-2080. When scheduling online, select **Option B – Fingerprint Cards**, or if scheduling via phone, please request **Fingerprint Cards** or "**Print and Go**".

If you choose not to use the FAST service, you may still take the agency supplied fingerprint cards to any law enforcement agency that rolls applicant fingerprints.
