

Boerne City Lake: What It Really Is!

an informational presentation

Kendall County contains four flood control structures.

An informational presentation will be held at the flood control structure at Boerne City Lake (Site 1) on Friday, October 16th, beginning at 8:30 am.

Our tentative agenda includes the following: history of the flood control effort in Kendall County; purpose & function of the structures; operation of the treatment facilities/multi-purpose structure at City Lake; conservation efforts needed to safeguard the structure; and specifics of grazing management upstream. If interested, CEUs will be available for those attending the last informational session.

Cost for this event is \$20.00 per person or two people for \$35.00.

Pre-registration is required - seating is limited. Payment must be made in advance.

Reservations will be accepted on a first-come, first-served basis.

A box lunch will be provided for all participants.

If you have questions or would like for us to email/mail the information/registration form to you, please email Lissie at Lissie.schneider@tx.nacdn.net; or call her at 830-249-2821.

Lissie is usually in the office on Tuesday - Thursday, 8:00 am until 1:00 pm.
