First-year pass rate: The line labeled "First Year" shows entity first-year pass rates, based on tests taken initially during 9/98-8/99.

Cumulative pass rate: The line labeled "Cumul." indicates cumulative (two-year) pass rates, based on tests taken in 9/97-8/98.

Combined data: If the number of First-year or Cumul test takers in an ethnic or gender group is less than 30, the performance is combined with the performance for that group on the 1997-98 year report.

If the combined pass rate represents less than 30 test takers, the pass rate is not used in determining accreditation status; a pass rate based on 30 or more test takers is used for accreditation purposes.

The number of test takers is shown in parentheses; if the number of test takers is less than 10, for confidentiality the number is not shown and an asterisk is printed. Pass rates shown as asterisks indicate there were zero test takers in the group.

First-year pass rate: The line labeled "First Year" shows entity first-year pass rates, based on tests taken initially during 9/98-8/99.

Cumulative pass rate: The line labeled "Cumul." indicates cumulative (two-year) pass rates, based on tests taken in 9/97-8/98.

Combined data: If the number of First-year or Cumul test takers in an ethnic or gender group is less than 30, the performance is combined with the performance for that group on the 1997-98 year report.

If the combined pass rate represents less than 30 test takers, the pass rate is not used in determining accreditation status; a pass rate based on 30 or more test takers is used for accreditation purposes.

The number of test takers is shown in parentheses; if the number of test takers is less than 10, for confidentiality the number is not shown and an asterisk is printed. Pass rates shown as asterisks indicate there were zero test takers in the group.

First-year pass rate: The line labeled "First Year" shows entity first-year pass rates, based on tests taken initially during 9/98-8/99.

Cumulative pass rate: The line labeled "Cumul." indicates cumulative (two-year) pass rates, based on tests taken in 9/97-8/98.

Combined data: If the number of First-year or Cumul test takers in an ethnic or gender group is less than 30, the performance is combined with the performance for that group on the 1997-98 year report.

If the combined pass rate represents less than 30 test takers, the pass rate is not used in determining accreditation status; a pass rate based on 30 or more test takers is used for accreditation purposes.

The number of test takers is shown in parentheses; if the number of test takers is less than 10, for confidentiality the number is not shown and an asterisk is printed. Pass rates shown as asterisks indicate there were zero test takers in the group.

Combined data: If the number of First-year or Cumul test takers in an ethnic or gender group is less than 30, the performance is combined with the performance for that group on the 1997-98 year report.

If the combined pass rate represents less than 30 test takers, the pass rate is not used in determining accreditation status; a pass rate based on 30 or more test takers is used for accreditation purposes.

The number of test takers is shown in parentheses; if the number of test takers is less than 10, for confidentiality the number is not shown and an asterisk is printed. Pass rates shown as asterisks indicate there were zero test takers in the group.
