PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all

DESCRIPTION

customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNA-SJC-IS

TEXAS GAS SERVICE COMPANY South Jefferson County Service Area RATE SCHEDULE
 WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Jefferson County, Texas including Port Arthur, Nederland, Groves & Port Neches : 10, 20, and 40. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Supersedes Same Rate Schedule Dated Meters Read On and After August 27, 2004 (Cities of Nederland, Port Neches and Groves) April 28, 2006

1-1-INC-SJC-IS-COG

TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1-INC South Jefferson County Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Jefferson County Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component,

TARIFF CODE: DS RRC TARIFF NO: 7612

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7612

RATE SCHEDULESCHEDULE IDDESCRIPTION

either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts

TEXAS GAS SERVICE COMPANY
South Jefferson County Service Area
RATE SCHEDULE 1-1
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales and standard transportation service rate schedules of Texas Gas Service Company (the Company) currently in force in the Company's service area within the incorporated areas of Port Arthur, Nederland, Groves and Port Neches, Texas (individually the City and collectively the Cities).

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, and federal income taxes. The actual percentage change in the revenue requirement in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in the revenue requirement is computed by comparing the revenue requirement for the current calendar year to the revenue requirement for the most recent rate case or the most recent cost of service adjustment filing.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and cash working capital approved in the most recent general rate case.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7612

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Investment Tax Credit (remaining unamortized credit) Multiplied by: Tax Factor (.35/(1-.35) or .53846) Less: Investment Tax Credit (from most recent general rate case)

4. Cost of Service Adjustment Rate The total amount to be collected through the cost of service adjustment rate (the Adjustment Amount) will be the sum of the amounts from Sections C.1 through C.3 (the revenue requirement) less the revenue requirement from the most recent rate case or the most recent cost of service adjustment filing. The difference shall be allocated among all customer classes in the same manner as approved in the most recent general rate case. For each customer class, seventy percent (70%) of the Adjustment Amount will be collected by adjusting monthly customer charges. This will be accomplished by dividing 70% of the Adjustment Amount by the total number of current calendar year bills to determine a per bill rate. This rate will be added to the current customer charge on the applicable rate schedule. Thirty percent (30%) of the Adjustment Amount will be collected by adjusting the volumetric rate of all customer classes. This will be accomplished by dividing 30% of the Adjustment Amount by total weather-normalized volumes for the applicable calendar year to determine a per unit rate. This rate will be added to the current volumetric rate(s) per Ccf on the applicable rate schedule.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

This Cost of Service Adjustment Clause does not limit the legal rights and duties of the Cities, and shall be presumed not approved unless and until the City has taken affirmative action thereupon. The Cities will have a period not to exceed ninety (90) days from the date of filing within which to review and approve or deny the proposed annual rate adjustment. If the Cities do not make a final determination within 90 days, the proposed annual rate adjustment will be considered to have been denied. Upon approval, the annual rate adjustment will take effect with the first billing cycle of August of each year.

SCHEDULE ID	DESCRIPTION
1-1-INC-SJC-IS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1-INC South Jefferson County Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Jefferson County Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the appropriate regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1.

DESCRIPTION

A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October. Supersedes Same Sheet Dated

1-1-SJC-IS-COSAdj

TEXAS GAS SERVICE COMPANY
South Jefferson County Service Area
RATE SCHEDULE 1-1
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales and standard transportation service rate schedules of Texas Gas Service Company (the Company) currently in force in the Company's service area within the incorporated areas of Port Arthur, Nederland, Groves and Port Neches, Texas (individually the City and collectively the Cities).

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, and federal income taxes. The actual percentage change in the revenue requirement in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in the revenue requirement is computed by comparing the revenue requirement for the current calendar year to the revenue requirement for the most recent rate case or the most recent cost of service adjustment filing.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross

TARIFF CODE: DS RRC TARIFF NO: 7614

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and cash working capital approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Investment Tax Credit (remaining unamortized credit) Multiplied by: Tax Factor (.35/(1-.35) or .53846) Less: Investment Tax Credit (from most recent general rate case)

4. Cost of Service Adjustment Rate The total amount to be collected through the cost of service adjustment rate (the Adjustment Amount) will be the sum of the amounts from Sections C.1 through C.3 (the revenue requirement) less the revenue requirement from the most recent rate case or the most recent cost of service adjustment filing. The difference shall be allocated among all customer classes in the same manner as approved in the most recent general rate case. For each customer class, seventy percent (70%) of the Adjustment Amount will be collected by adjusting monthly customer charges. This will be accomplished by dividing 70% of the Adjustment Amount by the total number of current calendar year bills to determine a per bill rate. This rate will be added to the current customer charge on the applicable rate schedule. Thirty percent (30%) of the Adjustment Amount will be collected by adjusting the volumetric rate of all customer classes. This will be accomplished by dividing 30% of the Adjustment Amount by total weather-normalized volumes for the applicable calendar year to determine a per unit rate. This rate will be added to the current volumetric rate(s) per Ccf on the applicable rate schedule.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

This Cost of Service Adjustment Clause does not limit the legal rights and duties of the Cities, and shall be presumed not approved unless and until the City has taken affirmative action thereupon. The Cities will have a period not to exceed ninety (90) days from the date of filing within which to review and approve or deny the proposed annual rate adjustment. If the Cities do not make a final determination within 90 days, the proposed annual rate adjustment will be considered to have been denied. Upon approval, the annual rate adjustment will take effect with the first billing cycle of August of each year.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

DESCRIPTION

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNA-SJC-IS

TEXAS GAS SERVICE COMPANY South Jefferson County Service Area RATE SCHEDULE
 WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Jefferson County, Texas including Port Arthur, Nederland, Groves & Port Neches : 10, 20, and 40. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Supersedes Same Rate Schedule Dated Meters Read On and After August 27, 2004 (Cities of Nederland, Port Neches and Groves) April 28, 2006

PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE NO. 1-1

COST OF

GAS CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7625

RATE SCHEDULESCHEDULE IDDESCRIPTION

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7625

RATE SCHEDULESCHEDULE IDDESCRIPTION

over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7625

RATE SCHEDULESCHEDULE IDDESCRIPTION

shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7625

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7626

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7626

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master

	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7627

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7627

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to

DESCRIPTION

customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-SoJef-OS-COG		TEXAS GAS
	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7628

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7628

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7628

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-INC-SJC-IS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1-INC South Jefferson County Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Jefferson County Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the appropriate regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or</p>

DESCRIPTION

charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1.

DESCRIPTION

A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October. Supersedes Same Sheet Dated

1-1-SJC-IS-COSAdj

TEXAS GAS SERVICE COMPANY
South Jefferson County Service Area
RATE SCHEDULE 1-1
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales and standard transportation service rate schedules of Texas Gas Service Company (the Company) currently in force in the Company's service area within the incorporated areas of Port Arthur, Nederland, Groves and Port Neches, Texas (individually the City and collectively the Cities).

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, and federal income taxes. The actual percentage change in the revenue requirement in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in the revenue requirement is computed by comparing the revenue requirement for the current calendar year to the revenue requirement for the most recent rate case or the most recent cost of service adjustment filing.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross

TARIFF CODE: DS RRC TARIFF NO: 7635

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and cash working capital approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Investment Tax Credit (remaining unamortized credit) Multiplied by: Tax Factor (.35/(1-.35) or .53846) Less: Investment Tax Credit (from most recent general rate case)

4. Cost of Service Adjustment Rate The total amount to be collected through the cost of service adjustment rate (the Adjustment Amount) will be the sum of the amounts from Sections C.1 through C.3 (the revenue requirement) less the revenue requirement from the most recent rate case or the most recent cost of service adjustment filing. The difference shall be allocated among all customer classes in the same manner as approved in the most recent general rate case. For each customer class, seventy percent (70%) of the Adjustment Amount will be collected by adjusting monthly customer charges. This will be accomplished by dividing 70% of the Adjustment Amount by the total number of current calendar year bills to determine a per bill rate. This rate will be added to the current customer charge on the applicable rate schedule. Thirty percent (30%) of the Adjustment Amount will be collected by adjusting the volumetric rate of all customer classes. This will be accomplished by dividing 30% of the Adjustment Amount by total weather-normalized volumes for the applicable calendar year to determine a per unit rate. This rate will be added to the current volumetric rate(s) per Ccf on the applicable rate schedule.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

This Cost of Service Adjustment Clause does not limit the legal rights and duties of the Cities, and shall be presumed not approved unless and until the City has taken affirmative action thereupon. The Cities will have a period not to exceed ninety (90) days from the date of filing within which to review and approve or deny the proposed annual rate adjustment. If the Cities do not make a final determination within 90 days, the proposed annual rate adjustment will be considered to have been denied. Upon approval, the annual rate adjustment will take effect with the first billing cycle of August of each year.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is

DESCRIPTION

defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNA-SJC-IS

TEXAS GAS SERVICE COMPANY South Jefferson County Service Area RATE SCHEDULE
WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Jefferson County, Texas including Port Arthur, Nederland, Groves & Port Neches : 10, 20, and 40. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. SCHEDULE ID	DESCRIPTION
PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE NO. 1-1

COST OF

GAS CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7640

RATE SCHEDULESCHEDULE IDDESCRIPTION

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7640

RATE SCHEDULESCHEDULE IDDESCRIPTION

over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7640

RATE SCHEDULESCHEDULE IDDESCRIPTION

shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7640

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7641

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer;

DESCRIPTION

(C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-SoJef-OS-COG		TEXAS GAS
	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7642

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7642

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

	<p>defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:</p> <p>(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-SoJef-OS-COG		TEXAS GAS
	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7643

RATE SCHEDULE

DESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7643

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7643

RATE SCHEDULE

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-SoJef-OS-COG		TEXAS GAS
	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7644

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7644

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7644

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7645

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the

DESCRIPTION

last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. <u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-SoJef-OS-COG		TEXAS GAS
	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7646

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7646

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-SoJef-OS-COG		TEXAS GAS
	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7647

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7647

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7647

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
	<p>customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:</p> <p>(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. <u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-SoJef-OS-COG		TEXAS GAS
	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7648

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7648

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7648

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer;

DESCRIPTION

(C) the date or dates on which the surcharge was billed to customers; and (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-SoJef-OS-COG		TEXAS GAS
	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7649

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7649

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is

DESCRIPTION

defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. <u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-SoJef-OS-COG		TEXAS GAS
	SERVICE COMPANY	
		South Jefferson County
	Service Area - Gulf Coast Region	
		RATE
	SCHEDULE NO. 1-1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7650

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7650

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

DESCRIPTION

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE
SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to

DESCRIPTION

customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

SCHEDULE ID	DESCRIPTION									
EDR-EPSvcA-IS-EcDev	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE EDR ECONOMIC DEVELOPMENT RATE A. APPLICABILITY This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1. B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region. D. EDR RATE The EDR rate: During each Monthly Billing Period All Ccf @ \$.002 per Ccf All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1. Supersedes Same Rate Schedule Dated Meters Read On and After September 3, 2004 (City of El Paso) February 15, 2008 September 29, 2004 (Cities of Anthony, Clint, Vinton, Socorro & Horizon City)</p>									
IRA-EPSvcA-IS-IRAAdj	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE IRA INTERIM RATE ADJUSTMENT 2007 A. APPLICABILITY This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, C-1, T-1. B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code. C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period: Rate Schedule Customer Class IRA</p> <table border="1"> <tr> <td>10</td> <td>Residential</td> <td></td> </tr> <tr> <td>\$ 0.30</td> <td>20 Commercial</td> <td></td> </tr> <tr> <td></td> <td>21 Commercial A/C</td> <td>\$ 1.00</td> </tr> </table>	10	Residential		\$ 0.30	20 Commercial			21 Commercial A/C	\$ 1.00

	\$ 60.50		T-1	Transportation

\$ 60.50 All applicable fees and taxes will be added to the above rate. D. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

E. FILING WITH THE REGULATORY AUTHORITY 1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment. 2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment. 3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment. 4.

In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law. 5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area. 6. The Company shall file a rate case not later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective. 7. The provisions under Section 104.301, Subchapter G of the Texas

1-1-INC-EPSvcA-IS-CO	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be</p>

otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULESCHEDULE IDDESCRIPTION

rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7654

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general

service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report to demonstrate that gas costs were acquired during ordinary and atypical periods at the lowest prudently incurred price and necessary to provide reliable service to retail customers.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

DESCRIPTION

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area. B. DEFINITIONS 1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed. 2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period. 4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7655

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE EDR ECONOMIC DEVELOPMENT RATE A. APPLICABILITY This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1. B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region. D. EDR RATE The EDR rate: During each Monthly Billing Period All Ccf @ \$.002 per Ccf All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1. Clint, Vinton, Socorro & Horizon City)

IRA-EPSvcA-IS-IRAAdj

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE IRA INTERIM RATE ADJUSTMENT 2007 A. APPLICABILITY This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, C-1, T-1. B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period: Rate Schedule Customer Class IRA

10	Residential				
\$ 0.30		20	Commercial		
	\$ 1.00	21		Commercial A/C	
		\$ 1.00	25		Public Authority
		\$ 3.21	26		
Public Authority A/C			\$ 3.21	27	
Municipal Water Pumping			\$ 18.63	40	
Industrial				\$ 12.51	
SS		Stand By Service			\$
12.51	C-1	Cogeneration			
	\$ 60.50	T-1	Transportation		
		\$ 60.50			

the above rate. D. COMPUTATION OF IRA RATE The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area. E. FILING WITH THE REGULATORY

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

AUTHORITY 1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment. 2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment. 3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment. 4.

In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law. 5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area. 6. The Company shall file a rate case not later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective. 7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151. Supersedes Rate Schedule ICR dated Meters Read On and After September 3, 2004 (City of El Paso) September 5, 2008 Rate Schedule IRA dated July 22, 2008 (Cities of Anthony, Clint, Vinton, Socorro & Horizon City)

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B)

DESCRIPTION

the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,</p>

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULESCHEDULE IDDESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7656

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

Supersedes Rate Schedules Meters Read On and After 21 and 23 dated August 30, 2006 February 15, 2008

EDR-EPSvcA-IS-EcDev

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE EDR ECONOMIC DEVELOPMENT RATE A. APPLICABILITY This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1. B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region. D. EDR RATE The EDR rate: During each Monthly Billing Period All Ccf @ \$.002 per Ccf All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1. Supersedes Same Rate Schedule Dated Meters Read On and After September 3, 2004 (City of El Paso) February 15, 2008 September 29, 2004 (Cities of Anthony,

IRA-EPSvcA-IS-IRAAdj

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE IRA INTERIM RATE ADJUSTMENT 2007 A. APPLICABILITY This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, C-1, T-1. B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period: Rate Schedule Customer Class IRA

10	Residential				
\$ 0.30		20	Commercial		
	\$ 1.00	21		Commercial A/C	
		\$ 1.00	25		Public Authority
		\$ 3.21	26		
Public Authority A/C			\$ 3.21	27	
Municipal Water Pumping			\$ 18.63	40	
Industrial				\$ 12.51	
SS		Stand By Service			\$
12.51	C-1	Cogeneration			
	\$ 60.50	T-1	Transportation		
		\$ 60.50			

the above rate. D. COMPUTATION OF IRA RATE The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area. E. FILING WITH THE REGULATORY

AUTHORITY 1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment. 2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment. 3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment. 4.

In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law. 5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area. 6. The Company shall file a rate case not later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective. 7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151. Supersedes Rate Schedule ICR dated Meters Read On and After September 3, 2004 (City of El Paso) September 5, 2008 Rate Schedule IRA dated July 22, 2008 (Cities of Anthony, Clint, Vinton, Socorro & Horizon City)

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B)

DESCRIPTION

the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

DESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE EDR ECONOMIC DEVELOPMENT RATE A. APPLICABILITY This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1. B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region. D. EDR RATE The EDR rate: During each Monthly Billing Period All Ccf @ \$.002 per Ccf All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1. IRA-EPSvcA-IS-IRAAdj

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE IRA INTERIM RATE ADJUSTMENT 2007 A. APPLICABILITY This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, C-1, T-1. B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period: Rate Schedule Customer Class IRA

10	Residential			
\$ 0.30	20	Commercial		
	\$ 1.00	21	Commercial A/C	
		\$ 1.00	25	Public Authority
		\$ 3.21	26	
Public Authority A/C			\$ 3.21	27
Municipal Water Pumping			\$ 18.63	40
Industrial				\$ 12.51
SS	Stand By Service			\$
12.51	C-1	Cogeneration		
	\$ 60.50	T-1	Transportation	
		\$ 60.50		

the above rate. D. COMPUTATION OF IRA RATE The amount the Company shall

adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the

Company's latest effective rates for this area. E. FILING WITH THE REGULATORY AUTHORITY 1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment. 2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment. 3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment. 4.

In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law. 5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area. 6. The Company shall file a rate case not later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective. 7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151. Supersedes Rate Schedule ICR dated Meters Read On and After September 3, 2004 (City of El Paso) September 5, 2008 Rate Schedule IRA dated July 22, 2008 (Cities of Anthony, Clint, Vinton, Socorro & Horizon City)

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

DESCRIPTION

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area. B. DEFINITIONS 1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed. 2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period. 4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULESCHEDULE IDDESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE
EDR ECONOMIC DEVELOPMENT RATE A. APPLICABILITY This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1. B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region. D. EDR RATE The EDR rate: During each Monthly Billing Period
All Ccf @ \$.002 per Ccf All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1. Supersedes Same

IRA-EPSvcA-IS-IRAAAdj

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE IRA INTERIM RATE ADJUSTMENT 2007 A. APPLICABILITY This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, C-1, T-1. B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period: Rate Schedule Customer Class IRA

10	Residential			
\$ 0.30	20	Commercial		
	\$ 1.00	21	Commercial A/C	
		\$ 1.00	25	Public Authority
		\$ 3.21	26	
Public Authority A/C		\$ 3.21	27	
Municipal Water Pumping		\$ 18.63	40	
Industrial			\$ 12.51	
SS	Stand By Service			\$
12.51	C-1	Cogeneration		
	\$ 60.50	T-1	Transportation	
		\$ 60.50		

D. COMPUTATION OF IRA RATE The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7658

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area. E. FILING WITH THE REGULATORY AUTHORITY 1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment. 2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment. 3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment. 4.

In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law. 5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area. 6. The Company shall file a rate case not later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective. 7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151. Supersedes Rate Schedule ICR dated Meters Read On and After September 3, 2004 (City of El Paso) September 5, 2008 Rate Schedule IRA dated July 22, 2008 (Cities of Anthony, Clint, Vinton, Socorro & Horizon City)

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1)

DESCRIPTION

of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. Source Note: The provisions of this 8.201 adopted to be effective September 8, 2003, 28 TexReg 7682; amended to be effective November 24,

SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7659

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 27 MUNICIPAL WATER PUMPING SERVICE RATE APPLICABILITY Applicable to gas used in internal combustion engines by various municipal agencies in El Paso County, Texas. This rate is only available to full requirements customers of Texas Gas Service Company. TERRITORY The incorporated areas of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas COST OF SERVICE RATE During each monthly billing period: A Customer Charge of \$75.00 plus The First 5000 Ccf \$.07134 per Ccf All Over 5000 Ccf .06134 per Ccf Prompt Payment Provision: None. Above rates are net. Cost of Gas Component: In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1-1-INC multiplied by the total Ccf consumed during the billing month. Taxes: Plus applicable taxes and fees (including franchise fees) related to above. CONDITIONS 1. Delivery of gas hereunder may be interrupted or curtailed at the discretion of the Company, in case of shortage or threatened shortage of gas supply from any cause whatsoever, to conserve gas for other consumers. 2. The applicability section of this rate notwithstanding, if a customer, other than a full requirement customer, pays a standby charge pursuant to Rate Schedule S.S., Texas Gas Service Company will maintain facilities and supply capability to serve said customer. If standby payments are current, the customer will qualify for this rate. Supersedes Rate Schedules Meters Read On and After 27 and 30 dated August 30, 2006 February 15, 2008

EDR-EPSvcA-IS-EcDev

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE EDR ECONOMIC DEVELOPMENT RATE A. APPLICABILITY This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1. B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region. D. EDR RATE The EDR rate: During each Monthly Billing Period All Ccf @ \$.002 per Ccf All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1. Clint, Vinton, Socorro & Horizon City)

IRA-EPSvcA-IS-IRAAdj

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE
IRA INTERIM RATE ADJUSTMENT 2007 A. APPLICABILITY This Interim Rate
Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service
Company (Company) currently in force in the incorporated areas of El Paso, Anthony,
Clint, Vinton, Socorro and Horizon City, Texas. Applicable rate schedules include
10, 20, 21, 25, 26, 27, 40, SS, C-1, T-1. B. PURPOSE Section 104.301, Subchapter
G of the Texas Utility Code, effective on September 1, 2003, provides for an
interim adjustment in a gas utility's monthly customer charge or initial block
usage rate to recover the cost of changes in the utility's infrastructure
investment and related expenses and revenues for providing gas utility service.
The filing date of the utility's most recent rate case establishing rates for the
area in which the interim rate adjustment will apply shall be no more than two
years prior to the date the utility files its initial interim rate adjustment
application for that area. The interim adjustment shall be recalculated on an
annual basis, unless the utility files a written request and obtains approval from
the regulatory authority to suspend the operation of the interim adjustment rate
schedule for any year. This rate schedule establishes the interim adjustment
provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. BILLING The following Interim Rate Adjustments will be added to the
applicable Rate Schedule Customer Charge for each monthly billing period: Rate
Schedule Customer Class IRA

10	Residential				
\$ 0.30	20	Commercial			
	\$ 1.00	21	Commercial A/C		
		\$ 1.00	25	Public Authority	
		\$ 3.21	26		
Public Authority A/C			\$ 3.21	27	
Municipal Water Pumping			\$ 18.63	40	
Industrial				\$ 12.51	
SS	Stand By Service				\$
12.51	C-1	Cogeneration			
	\$ 60.50	T-1	Transportation		
		\$ 60.50	All applicable fees and taxes will be added to		

the above rate. D. COMPUTATION OF IRA RATE The amount the Company shall

adjust its utility rates upward or downward under this rate schedule each calendar
year is based on the difference between the value of the invested capital for the
preceding calendar year and the value of the invested capital for the calendar year
preceding that calendar year. The value of the invested capital is equal to the
original cost of the investment at the time the investment was first dedicated to
public use minus the accumulated depreciation related to that investment. Based
on the difference between the values of the invested capital amounts as determined
above, the Company may adjust only the following related components of its revenue
requirement: return on investment, depreciation expense, ad valorem taxes, revenue
related taxes and incremental federal income taxes. The factors for these
components shall be the same as those established in the Company's most recent rate
case for the service area in which this interim rate adjustment is to be
implemented. The revenue requirement calculated pursuant to this rate schedule
shall be allocated among the Company's customer classes for this service area in
the same manner as the cost of service was allocated among customer classes in the
Company's latest effective rates for this area. E. FILING WITH THE REGULATORY

DESCRIPTION

AUTHORITY 1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment. 2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment. 3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment. 4.

In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law. 5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area. 6. The Company shall file a rate case not later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective. 7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151. Supersedes Rate Schedule ICR dated Meters Read On and After September 3, 2004 (City of El Paso) September 5, 2008 Rate Schedule IRA dated July 22, 2008 (Cities of Anthony, Clint, Vinton, Socorro & Horizon City)

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B)

DESCRIPTION

the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE ID	DESCRIPTION
1-1-INC-EPSvcA-IS-CO	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 1-1-INC COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.</p> <p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.</p> <p>3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component,</p>

DESCRIPTION

Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7660

RATE SCHEDULESCHEDULE IDDESCRIPTION

following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE NO. 40 INDUSTRIAL SERVICE RATE APPLICABILITY Applicable to industrial consumers and to consumers not otherwise specifically provided for under any other rate schedule. This rate is only available to full requirements customers of Texas Gas Service Company. TERRITORY The incorporated areas of El Paso, Anthony, Clint, Horizon City, Socorro, and Vinton, Texas COST OF SERVICE RATE During each monthly billing period: A Customer Charge of \$71.50 plus - The First 100 Ccf No charge The Next 400 Ccf \$.14450 per Ccf The Next 2500 Ccf .13451 per Ccf All Over 3000 Ccf .06366 per Ccf Prompt Payment Provision: None. Above rates are net. Cost of Gas Component: In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1-1-INC multiplied by the total Ccf consumed during the billing month. Taxes: Plus applicable taxes and fees (including franchise fees) related to above. CONDITIONS 1. Subject in all respects to applicable laws, rules and regulations from time to time in effect. 2. The applicability section of this rate notwithstanding, if a customer, other than a full requirements customer, pays a standby charge pursuant to Rate Schedule S.S., Texas Gas Service Company will maintain facilities and supply capability to serve said customer. If standby payments are current, the customer will qualify for this rate. Supersedes Rate Schedules Meters Read On and After 40 and 42 dated August 30, 2006 February 15, 2008

EDR-EPSvcA-IS-EcDev

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE EDR ECONOMIC DEVELOPMENT RATE A. APPLICABILITY This Economic Development Rate (EDR) rate schedule shall apply to the following rate schedules for the incorporated areas of the El Paso Service Area: 10, 20, 21, 25, 26, 27, 40, C-1 and T-1. B. TERRITORY Incorporated Areas of the El Paso Service Area - Cities of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas C. PURPOSE This rate schedule provides for the recovery of costs that TGS incurs related to economic development in the El Paso Service Area. Successful economic development will only occur to the extent that the community and its corporate partners provide the necessary support to attract new businesses and industries to this region. New businesses and industries will increase employment, spur growth and local business expansion, create a more robust economy and improve the quality of life for the region. D. EDR RATE The EDR rate: During each Monthly Billing Period All Ccf @ \$.002 per Ccf All applicable fees and taxes will be added to the EDR rates. D. BILLING 1. The EDR rate shall be included as a component of the Company's Cost of Gas (per Ccf rate) for rate schedules: 10, 20, 21, 22, 25, 26, 27, 40 and C-1. 2. The EDR rate shall be added to the applicable cost of service usage charge (per Ccf rate) for rate schedules: T-1. Supersedes Same Rate Schedule Dated Meters Read On and After September 3, 2004 (City of El Paso) February 15, 2008 September 29, 2004 (Cities of Anthony,

DESCRIPTION

Clint, Vinton, Socorro & Horizon City)

IRA-EPSvcA-IS-IRAAdj

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE
IRA INTERIM RATE ADJUSTMENT 2007 A. APPLICABILITY This Interim Rate
Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service
Company (Company) currently in force in the incorporated areas of El Paso, Anthony,
Clint, Vinton, Socorro and Horizon City, Texas. Applicable rate schedules include
10, 20, 21, 25, 26, 27, 40, SS, C-1, T-1. B. PURPOSE Section 104.301, Subchapter
G of the Texas Utility Code, effective on September 1, 2003, provides for an
interim adjustment in a gas utility's monthly customer charge or initial block
usage rate to recover the cost of changes in the utility's infrastructure
investment and related expenses and revenues for providing gas utility service.
The filing date of the utility's most recent rate case establishing rates for the
area in which the interim rate adjustment will apply shall be no more than two
years prior to the date the utility files its initial interim rate adjustment
application for that area. The interim adjustment shall be recalculated on an
annual basis, unless the utility files a written request and obtains approval from
the regulatory authority to suspend the operation of the interim adjustment rate
schedule for any year. This rate schedule establishes the interim adjustment
provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. BILLING The following Interim Rate Adjustments will be added to the
applicable Rate Schedule Customer Charge for each monthly billing period: Rate
Schedule Customer Class IRA

10	Residential			
\$ 0.30	20	Commercial		
	\$ 1.00	21	Commercial A/C	
		\$ 1.00	25	Public Authority
		\$ 3.21	26	
Public Authority A/C		\$ 3.21	27	
Municipal Water Pumping		\$ 18.63	40	
Industrial			\$ 12.51	
SS	Stand By Service			\$
12.51	C-1	Cogeneration		
	\$ 60.50	T-1	Transportation	
		\$ 60.50		

the above rate. D. COMPUTATION OF IRA RATE The amount the Company shall
adjust its utility rates upward or downward under this rate schedule each calendar
year is based on the difference between the value of the invested capital for the
preceding calendar year and the value of the invested capital for the calendar year
preceding that calendar year. The value of the invested capital is equal to the
original cost of the investment at the time the investment was first dedicated to
public use minus the accumulated depreciation related to that investment. Based
on the difference between the values of the invested capital amounts as determined
above, the Company may adjust only the following related components of its revenue
requirement: return on investment, depreciation expense, ad valorem taxes, revenue
related taxes and incremental federal income taxes. The factors for these
components shall be the same as those established in the Company's most recent rate
case for the service area in which this interim rate adjustment is to be
implemented. The revenue requirement calculated pursuant to this rate schedule
shall be allocated among the Company's customer classes for this service area in
the same manner as the cost of service was allocated among customer classes in the
Company's latest effective rates for this area. E. FILING WITH THE REGULATORY

DESCRIPTION

AUTHORITY 1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment. 2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment. 3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment. 4.

In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law. 5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area. 6. The Company shall file a rate case not later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective. 7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151. Supersedes Rate Schedule ICR dated

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B)

DESCRIPTION

the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE ID	DESCRIPTION
PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. COST OF GAS

CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7669

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

associated services. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers. . For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component and taxes and fees, including franchise fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period.

The audit shall determine:

(a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7669

RATE SCHEDULESCHEDULE IDDESCRIPTION

over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause.
Entries shall be made monthly to reflect,

(a) the total amounts paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph G below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7669

RATE SCHEDULESCHEDULE IDDESCRIPTION

for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are related to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.)

The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7669

RATE SCHEDULE

DESCRIPTION

- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the fees (including franchise fees) and taxes; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section G, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

	CLAUSE	COST OF GAS
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. RATE SCHEDULESCHEDULE IDDESCRIPTION

of Gas Clause, consisting of the Commodity Cost, a reconciliation component and taxes and fees, including franchise fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period.

The audit shall determine:

(a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause.

Entries shall be made monthly to reflect,

(a) the total amounts paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

RATE SCHEDULESCHEDULE IDDESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph G below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are related to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7670

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.)

The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the fees (including franchise fees) and taxes; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section G, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file

revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

PSF-All-ISOS-PipeFee TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of

DESCRIPTION

a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the

		COST OF GAS
	CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.	
	2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers. . For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.	
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost	

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 7671

RATE SCHEDULESCHEDULE IDDESCRIPTION

of Gas Clause, consisting of the Commodity Cost, a reconciliation component and taxes and fees, including franchise fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period.

The audit shall determine:

(a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause.

Entries shall be made monthly to reflect,

(a) the total amounts paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7671

RATE SCHEDULESCHEDULE IDDESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph G below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are related to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7671

RATE SCHEDULESCHEDULE IDDESCRIPTION

Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.)

The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the fees (including franchise fees) and taxes; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section G, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file

revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator

DESCRIPTION

paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. 		COST OF GAS
	CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.	
	2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers. . For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.	
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost

RATE SCHEDULESCHEDULE IDDESCRIPTION

of Gas Clause, consisting of the Commodity Cost, a reconciliation component and taxes and fees, including franchise fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period.

The audit shall determine:

(a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause.

Entries shall be made monthly to reflect,

(a) the total amounts paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7672

RATE SCHEDULESCHEDULE IDDESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph G below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are related to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7672

RATE SCHEDULESCHEDULE IDDESCRIPTION

Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.)

The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the fees (including franchise fees) and taxes; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section G, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file

DESCRIPTION

revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

PSF-All-ISOS-PipeFee TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the

		RATE SCHEDULE NO.
	1-1	
	Texas Region	El Paso Service Area - West
	of 4	Page 1
	CLAUSE	COST OF GAS
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.	
	2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers. . For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.	
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost

RATE SCHEDULESCHEDULE IDDESCRIPTION

of Gas Clause, consisting of the Commodity Cost, a reconciliation component and taxes and fees, including franchise fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period.

The audit shall determine:

(a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause.

Entries shall be made monthly to reflect,

(a) the total amounts paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

RATE SCHEDULESCHEDULE IDDESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph G below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are related to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7673

RATE SCHEDULESCHEDULE IDDESCRIPTION

Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.)

The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the fees (including franchise fees) and taxes; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section G, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file

revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all

DESCRIPTION

customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. 		COST OF GAS
	CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.	
	2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers. . For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.	
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost

of Gas Clause, consisting of the Commodity Cost, a reconciliation component and taxes and fees, including franchise fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period.

The audit shall determine:

(a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause.

Entries shall be made monthly to reflect,

(a) the total amounts paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7674

RATE SCHEDULESCHEDULE IDDESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph G below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are related to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7674

RATE SCHEDULESCHEDULE IDDESCRIPTION

Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.)

The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the fees (including franchise fees) and taxes; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section G, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file

DESCRIPTION

revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service

DESCRIPTION

line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge. (5) Each

operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6)

Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a

natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas

master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last

billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected

from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. 		RATE SCHEDULE NO.
	1-1	
	Texas Region	El Paso Service Area - West
	of 4	Page 1
	CLAUSE	COST OF GAS
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.	
	2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers. . For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.	
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost

of Gas Clause, consisting of the Commodity Cost, a reconciliation component and taxes and fees, including franchise fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period.

The audit shall determine:

(a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause.

Entries shall be made monthly to reflect,

(a) the total amounts paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7676

RATE SCHEDULESCHEDULE IDDESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph G below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are related to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7676

RATE SCHEDULESCHEDULE IDDESCRIPTION

Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.)

The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the fees (including franchise fees) and taxes; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section G, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file

revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

DESCRIPTION

amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master

meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. IRA-EPSvcA-IS-IRAAdj	<p>TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE IRA INTERIM RATE ADJUSTMENT 2007 A. APPLICABILITY This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, C-1, T-1. B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code. C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period: Rate Schedule Customer Class IRA</p> <table border="1"> <tr> <td>10</td> <td>Residential</td> <td></td> </tr> <tr> <td>\$ 0.30</td> <td>20</td> <td>Commercial</td> </tr> <tr> <td></td> <td>\$ 1.00</td> <td>21 Commercial A/C</td> </tr> </table>	10	Residential		\$ 0.30	20	Commercial		\$ 1.00	21 Commercial A/C

the above rate. D. COMPUTATION OF IRA RATE All applicable fees and taxes will be added to the amount the Company shall

adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented.

The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area. E. FILING WITH THE REGULATORY AUTHORITY 1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment. 2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment. 3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment. 4.

In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law. 5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area. 6. The Company shall file a rate case not later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective. 7. The provisions under Section 104.301, Subchapter G of the Texas

1-1-INC-EPSvcA-IS-CO

TEXAS GAS SERVICE COMPANY
El Paso Service Area - West Texas Region
RATE SCHEDULE NO. 1-1-INC
COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its El Paso Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. Transportation costs shall be inclusive of all upstream transportation costs imposed by the transportation service providers and shall include, but not be limited to, pipeline reservation charges, transportation commodity charges, applicable line loss charges, balancing charges, penalties, and any other related costs and expenses. The Cost of Purchased Gas shall also include any surcharge or refund the Company may receive from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. No costs of natural gas financial instruments purchased from or sold to companies affiliated with the Company shall be allowed.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RATE SCHEDULESCHEDULE IDDESCRIPTION

otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment to correct any known and quantifiable under or over collection prior to the end of the reconciliation period.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component, Economic Development Rate, FERC Intervention Costs, Uncollectible Cost of Gas and applicable taxes and fees, including franchise fees.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and/or commodity balancing provisions under the transportation rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs and (g) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for upstream pipeline and /or commodity balancing provisions under the transportation

RATE SCHEDULESCHEDULE IDDESCRIPTION

rate schedule(s) including but not limited to balancing service rate and stranded capacity charges net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of FERC Intervention Costs.

8. Economic Development Cost Recovery - The rate per billing unit pursuant to Rate Schedule EDR.

9. FERC Intervention Costs - costs prudently incurred from outside vendors and attorneys after January 1, 2008 for the purpose of protecting the interest of sales customers in the El Paso Service Area in connection with negotiating Federal Energy Regulatory Commission (FERC) related issues with upstream pipelines or intervention and participation in proceedings at the FERC. FERC Intervention Costs may also include prudently incurred internal travel expenses related to this purpose.

10. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas and recorded in Account No. 1910106 as of the end of each reconciliation period. C. BILLING OF COST OF GAS In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Vinton only a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement Agreement payments allocated to the Village of Vinton are collected by the Company in accordance with the Settlement Agreement.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph F below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the monthly balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 7677

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the monthly balance multiplied by six percent (6%).

F. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost storage, or gas stored except as prudently and necessarily needed to serve general sales customers in this service area.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Economic Development Rate; (f) the fees (including franchise fees) and taxes; and (g) the Cost of Gas which is the total of items (b) through (f). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall be verified under oath and include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general

service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The summary shall include monthly detail and statement of all amounts included other than the gas purchased in sufficient detail for evaluation. The detail for any FERC Intervention costs activities performed and costs incurred on behalf of El Paso Service Area sales customers. This report shall be filed concurrently with the Cost of Gas Statement for December. The Company shall provide complete detail within 20 days of request by a representative of the City of El Paso or other municipality.

I. SUPPORTING MATERIAL ACCOMPANYING ANNUAL RECONCILIATION REPORT

The Company shall file supporting materials with its Annual Reconciliation Report to demonstrate that gas costs were acquired during ordinary and atypical periods at the lowest prudently incurred price and necessary to provide reliable service to retail customers.

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region
 RATE SCHEDULE C-1 ELECTRICAL COGENERATION AND ENERGY CONSERVATION RATE
 APPLICABILITY Service under this rate schedule is available to any customer who enters into a contract with the Company to use natural gas for the purpose of cogeneration. Cogeneration is defined as the use of thermal energy to produce electricity with recapture of by-product heat in the form of steam, exhaust heat, etc. for industrial process use, space heating, food processing or other purposes.
 TERRITORY This rate shall be available throughout the Company's El Paso Service Area.
 COST OF SERVICE RATE During each monthly billing period: A Customer Charge of \$240.00 plus -

	Oct. - April	May - Sept.	Winter
Summer The First	5,000 Ccf \$.07108 per Ccf	\$.06107 per Ccf	The Next
95,000 Ccf	.06108 per Ccf	.05106 per Ccf	The Next 300,000 Ccf
.05108 per Ccf	.04107 per Ccf	All Over 400,000 Ccf	.04108 per Ccf
.03106 per Ccf	Cost of Gas Component: In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1-1-INC multiplied by the total Ccf consumed during the billing month. CONDITIONS 1. Gas taken under this rate shall be used exclusively for the purpose of cogeneration as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered. 2. This rate will not be available for standby use. 3. For the purpose of this rate, the annual load factor must be 60 percent or greater. The annual load factor is defined as the customer's total annual consumption divided by the customer's peak month consumption times twelve. If less than 60 percent load factor occurs for a twelve-month period, the rate charged will revert back to the rate that the customer would have otherwise been served under. A continuous twelve-month period of 60 percent or better load factor must precede a return to the cogeneration rate. 4. To qualify for the summer discounts, the customers' peak summer months load must be at least 75 percent of the customers' peak winter months load. Failure to meet this requirement will result in an adjustment to the customers' October bill equal to

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each

DESCRIPTION

year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total

SCHEDULE ID	DESCRIPTION
PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. COST OF GAS

CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7679

RATE SCHEDULESCHEDULE IDDESCRIPTION

associated services. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers. . For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component and taxes and fees, including franchise fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period.

The audit shall determine:

(a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7679

RATE SCHEDULESCHEDULE IDDESCRIPTION

over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause.
Entries shall be made monthly to reflect,

(a) the total amounts paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph G below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7679

RATE SCHEDULESCHEDULE IDDESCRIPTION

for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are related to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.)

The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7679

RATE SCHEDULE

DESCRIPTION

- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the fees (including franchise fees) and taxes; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section G, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

TEXAS GAS SERVICE COMPANY
El Paso Service Area - West Texas Region
RATE SCHEDULE C-1

ELECTRICAL COGENERATION AND ENERGY CONSERVATION RATE

APPLICABILITY

Service under this rate schedule is available to any customer who enters into a contract with the Company to use natural gas for the purpose of cogeneration.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7679

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Cogeneration is defined as the use of thermal energy to produce electricity with recapture of by-product heat in the form of steam, exhaust heat, etc. for industrial process use, space heating, food processing or other purposes.

TERRITORY

This rate shall be available throughout the Company's El Paso Service Area.

COST OF SERVICE RATE

During each monthly billing period: A Customer Charge of \$109.50 plus -

		Oct. - April		May - Sept.
		Winter		Summer
The First	5,000 Ccf \$.07107 per Ccf	\$.06106 per Ccf
The Next	95,000 Ccf	.06107 per Ccf		.05105 per Ccf
The Next	300,000 Ccf	.05107 per Ccf		.04106 per Ccf
All Over	400,000 Ccf	.04107 per Ccf		.03105 per Ccf

Cost of Gas Component:

In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1-1-INC multiplied by the total Ccf consumed during the billing month.

CONDITIONS

1. Gas taken under this rate shall be used exclusively for the purpose of cogeneration as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered.
2. This rate will not be available for standby use.
3. For the purpose of this rate, the annual load factor must be 60 percent or greater. The annual load factor is defined as the customer's total annual consumption divided by the customer's peak month consumption times twelve. If less than 60 percent load factor occurs for a twelve-month period, the rate charged will revert back to the rate that the customer would have otherwise been served under. A continuous twelve-month period of 60 percent or better load factor must precede a return to the cogeneration rate.
4. To qualify for the summer discounts, the customers' peak summer months load must be at least 75 percent of the customers' peak winter months load. Failure to meet this requirement will result in an adjustment to the customers' October bill equal to the difference between the winter and summer rates times that year's total May through September consumption by that customer.
5. The curtailment priority of any customer served under this rate schedule shall be the same as the curtailment priority which would pertain if gas were used directly to provide energy for uses as defined and listed in paragraph 14.2 of the Company's Texas Rules of Service.

SCHEDULE ID	DESCRIPTION
PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE NO. 1-1

COST OF

GAS CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7680

RATE SCHEDULESCHEDULE IDDESCRIPTION

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7680

RATE SCHEDULESCHEDULE IDDESCRIPTION

over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7680

RATE SCHEDULESCHEDULE IDDESCRIPTION

shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7680

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region
RATE SCHEDULE C-1 Page 1 of 2 ELECTRICAL COGENERATION AND ENERGY CONSERVATION
SERVICE RATEAPPLICABILITY Service under this rate schedule is available to any customer who enters into a contract with the Company to use natural gas for the purpose of cogeneration. Cogeneration is defined as the use of thermal energy to produce electricity with recapture of by-product heat in the form of steam, exhaust heat, etc. for industrial process use, space heating, food processing or other purposes.TERRITORY This rate shall be available throughout the Company's Jefferson County Service Area including Port Arthur, Port Neches, Nederland, and Groves. (Excludes City of Port Arthur effective Dec 23, 2002. Excludes Cities of Groves, Nederland and Port Neches effective April 24, 2003.)COST OF SERVICE RATEDuring each monthly billing period: Nov. - Apr. May - Oct. Winter
Summer A Customer Charge of \$300.00 per meter plus - For the first
5,000 Ccf/Month - \$.1162 \$.0930For the next 15,000 Ccf/Month - \$
.1107 \$.0886For the next 30,000 Ccf/Month - \$.1052 \$.0842All Over
50,000 Ccf/Month - \$.0997 \$.0798COST OF GASIn addition to the cost of service set forth above, each customer's bill shall include the Cost of Gas for the billing month determined in accordance with the provisions of the Cost of Gas Clause, Rate Schedule No. 1-1 and 1-1-INC.CONDITIONS1. Gas taken under this rate shall be used exclusively for the purpose of cogeneration as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered.2. This rate will not be available for standby use. Supersedes Same Sheet Dated Gas Sold On and After November 30, 1988 February 13, 1992 (Revised) TEXAS GAS SERVICE COMPANY South Jefferson County Service Area - Gulf Coast Region RATE SCHEDULE C-1 Page 2 of 2 ELECTRICAL COGENERATION AND ENERGY CONSERVATION SERVICE RATE(Continued)3. RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

purpose of this rate, the annual load factor must be 60 percent or greater. The annual load factor is defined as the customer's total annual consumption divided by the customer's peak month consumption times twelve. If less than a 60 percent load factor occurs for a twelve-month period, the rate charged will revert back to the rate that the customer would have otherwise been served under. A continuous twelve-month period of 60 percent or better load factor must precede a return to the cogeneration rate.4. To qualify for the summer discounts, the customer's peak summer month's load must be at least 75% of the customer's peak winter month's load. Failure to meet this requirement will result in an adjustment to the customer's October bill equal to the difference between the winter and summer rates times that years total May through September consumption by that customer.5. The curtailment priority of any customer served under this rate schedule shall be the same as the curtailment priority which would pertain if gas were used directly to provide energy for uses as defined and listed in paragraph 14.2 of the Company's Texas Rules of Service.6. Subject in all respects to applicable laws, rules and regulations from time to time in effect. Supersedes Same Sheet Dated Gas Sold On and After November 30, 1988 February 13, 1992 (Revised)

SCHEDULE ID	DESCRIPTION
PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. COST OF

GAS CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7681

RATE SCHEDULESCHEDULE IDDESCRIPTION

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its South Jefferson County Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, other purchased gas expenses, and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7681

RATE SCHEDULESCHEDULE IDDESCRIPTION

over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7681

RATE SCHEDULESCHEDULE IDDESCRIPTION

shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7681

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. I.

PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clauses for the South Jefferson County Service Area in effect prior to the effective date of this Cost of Gas Clause, remaining at the end of the month in which this Cost of Gas Clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) to be sold during the period commencing with October 1, 1988 and extending through the next following June.

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7682

RATE SCHEDULESCHEDULE IDDESCRIPTION

A. APPLICABILITY

This Cost of Gas Clause shall apply to all General Service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its El Paso, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average prudently incurred cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation and storage and associated services. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during the twelve (12) month period ending June 30 by the sum of the volumes sold to customers. . For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the Commodity Cost, a reconciliation component and taxes and fees, including franchise fees. The Cost of Gas applicable to the Company's General Service customers in the City of El Paso includes the full amount of franchise fees the Company is required to pay the City of El Paso attributable to gas sold and consumed in the city limits of El Paso pursuant to applicable franchise ordinances. General Service customers in the unincorporated areas and environs are excluded from franchise fees and gross receipts tax.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period.

The audit shall determine:

(a) the total prudently incurred amount paid for Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments,

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7682

RATE SCHEDULESCHEDULE IDDESCRIPTION

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause.
Entries shall be made monthly to reflect,

(a) the total amounts paid for the Cost of Purchased Gas as defined in Section B.1. of this Cost of Gas Clause,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the cost of gas incurred during the billing period. The cost of gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the cost of gas was over or under collected for each month including any cost of gas inventory in storage and margins on non utility transactions as described in paragraph G below within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during October an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 7682

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

multiplied by nine percent (9%). However cost of gas in inventory shall not be included prior to September 24, 2002. If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during October an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are related to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. NON-UTILITY TRANSACTIONS

The aggregate net margins generated by the company from all Non-utility Transactions shall be divided between the Company and ratepayers with the Company retaining thirty three and one third percent (33 1/3%) of aggregate annual Net Margins generated from such activities and sixty-six and two-thirds percent (66 2/3%) shall be credited to customers in the month during which the transaction closes. For purposes of this provision, Non-Utility Transactions shall mean the following transactions to the extent that such transactions pertain to natural gas supplies, storage, and transportation capacity allocated to customers within the El Paso Service Area: off-system sales of natural gas, releases of transportation or storage capacity, financial arbitrage of storage inventories, trading of natural gas inventories, and use of financial instruments pertaining to purchase, storage, and/or transportation of natural gas, so long as such instruments are not intended to hedge the cost of system supplies. Non-utility Transactions shall not include any transaction conducted by any affiliate of the company. For purposes of this provision, Net Margins shall mean revenues from the aggregate of all Non-Utility Transactions, less the costs to the Company of such transactions, including related taxes, commissions, transaction fees, and transfer fees. The Net Margins allocated to ratepayers shall be credited to the ratepayers once per year through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from such activities and no such losses shall be paid by the ratepayers. This provision does not permit the Company to include in the calculation of gas

TARIFF CODE: DS RRC TARIFF NO: 7682

RATE SCHEDULESCHEDULE IDDESCRIPTION

cost the cost of storage, or gas stored in storage except as prudently and necessarily needed to serve general sales customers in this service area.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.)

The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the fees (including franchise fees) and taxes; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas; shall include a detailed description of any transactions described in Section G, Non-Utility Transactions, of this Cost of Gas Rate Schedule, including any revenues or costs to the extent known, and shall include a detailed description of the financial instruments executed or utilized by the company as described in the Section B.1. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. The Company shall not file revised Cost of Gas Statements on dates other than listed above without specific regulatory authority.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time</p>

DESCRIPTION

surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. IRA-EPSvcA-IS-IRAAdj

TEXAS GAS SERVICE COMPANY El Paso Service Area - West Texas Region RATE SCHEDULE IRA INTERIM RATE ADJUSTMENT 2007 A. APPLICABILITY This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the incorporated areas of El Paso, Anthony, Clint, Vinton, Socorro and Horizon City, Texas. Applicable rate schedules include 10, 20, 21, 25, 26, 27, 40, SS, C-1, T-1. B. PURPOSE Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. BILLING The following Interim Rate Adjustments will be added to the applicable Rate Schedule Customer Charge for each monthly billing period: Rate Schedule Customer Class IRA

DESCRIPTION

SS	Stand By Service	\$
12.51	C-1 Cogeneration	
	\$ 60.50 T-1 Transportation	

All applicable fees and taxes will be added to the above rate.

D. COMPUTATION OF IRA RATE The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

E. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.
2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.
3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.
4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.
5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.
6. The Company shall file a rate case not later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.
7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1-INC South Jefferson County Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Jefferson County Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and

DESCRIPTION

swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the appropriate regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October

DESCRIPTION

billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October. Supersedes Same Sheet Dated

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

contract with the Company to use natural gas for the purpose of cogeneration. Cogeneration is defined as the use of thermal energy to produce electricity with recapture of by-product heat in the form of steam, exhaust heat, etc. for industrial process use, space heating, food processing or other purposes.

TERRITORY This rate shall be available throughout the Company's Jefferson County Service Area including Port Arthur, Port Neches, Nederland, and Groves. COST OF SERVICE RATE During each monthly billing period: Nov. - Apr. May - Oct.

	Winter	Summer	A Customer Charge of \$300.00 per meter	
plus - For the first	5,000 Ccf/Month -	\$.1162	\$.0930	For the next
15,000 Ccf/Month -	\$.1107	\$.0886		For the next
.1052	\$.0842	All Over	50,000 Ccf/Month -	\$.0997
				\$.0798

COST OF GAS In addition to the cost of service set forth above, each customer's bill shall include the Cost of Gas for the billing month determined in accordance with the provisions of the Cost of Gas Clause, Rate Schedule No. 1-1 and 1-1-INC. OTHER ADJUSTMENTS Taxes: Plus applicable taxes and fees (including franchise fees) related to above. CONDITIONS 1. Gas taken under this rate shall be used exclusively for the purpose of cogeneration as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered. 2. This rate will not be available for standby use. 3. For the purpose of this rate, the annual load factor must be 60 percent or greater. The annual load factor is defined as the customer's total annual consumption divided by the customer's peak month consumption times twelve. If less than a 60 percent load factor occurs for a twelve month period, the rate charged will revert back to the rate that the customer would have otherwise been served under. A continuous twelve month period of 60 percent or better load factor must precede a return to the cogeneration rate. 4. To qualify for the summer discounts, the customer's peak summer month's load must be at least 75% of the customer's peak winter month's load. Failure to meet this requirement will result in an adjustment to the customer's October bill equal to the difference between the winter and summer rates times that years total May through September consumption by that customer. 5. The curtailment priority of any customer served under this rate schedule shall be the same as the curtailment priority which would pertain if gas were used directly to provide energy for uses as defined and listed in paragraph 14.2 of the Company's Texas Rules of Service. 6. Subject in all respects to applicable laws, rules and regulations from time to time in effect. Supersedes Same Sheet Dated Meters Read On and After December 23, 2002 (City of Port Arthur only) April 28, 2006 August 27, 2004 (Cities of Nederland, Groves & Port Neches)

1-1-INC-SJC-IS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-1-INC South Jefferson County Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Jefferson County Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from</p>

SCHEDULE IDDESCRIPTION

the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined E.

DESCRIPTION

PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October. Supersedes Same Sheet Dated

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is

DESCRIPTION

defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-JacksSvcA-OS-COG		TEXAS GAS SERVICE
	COMPANY	
		Jacksboro Service Area -
	North Texas Region	
		RATE
	SCHEDULE NO. 1	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Jacksboro Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees.2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.3. Cost of Purchased Gas - The cost for gas purchased by the Company from its suppliers or the weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9148

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased of a general service customer during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extracting, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority

.7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this cost of gas clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9148

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component; and

(e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for December.

DESCRIPTION

Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a

DESCRIPTION

natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9193

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Borger, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost per Ccf for gas purchased by the Company from its supplier or the weighted average cost per Ccf for gas purchased by the Company from all sources where applicable.

2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/1(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9193

RATE SCHEDULESCHEDULE IDDESCRIPTION

over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas (as defined in Section B, Number 4) incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%) per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9193

RATE SCHEDULESCHEDULE IDDESCRIPTION

during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the Borger area, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.

2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.

DESCRIPTION

3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter</p>

B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Borg-OS-COG	TEXAS GAS SERVICE COMPANY Panhandle Region 1 RATE SCHEDULE COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Borger, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Purchased Gas - The cost per Ccf for gas purchased by the Company from its supplier or the weighted average cost per Ccf for gas purchased by the Company from all sources where applicable.	
2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/1(1 - .05) unless expressly authorized by the applicable regulatory authority.	
3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9195

RATE SCHEDULESCHEDULE IDDESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas (as defined in Section B, Number 4) incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9195

RATE SCHEDULESCHEDULE IDDESCRIPTION

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%) per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the Borger area, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9195

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)
the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each
operator of a natural gas distribution system that is a utility subject to the
jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
shall file a generally applicable tariff for its surcharge in conformance with the
requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
Amounts recovered from customers under this subsection by an investor-owned natural
gas distribution system or a cooperatively owned natural gas distribution system
shall not be included in the revenue or gross receipts of the system for the
purpose of calculating municipal franchise fees or any tax imposed under Subchapter
B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject

to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9196

RATE SCHEDULESCHEDULE IDDESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas (as defined in Section B, Number 4) incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9196

RATE SCHEDULESCHEDULE IDDESCRIPTION

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%) per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the Borger area, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter</p>

B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Borg-OS-COG	TEXAS GAS SERVICE COMPANY Panhandle Region 1 RATE SCHEDULE COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Borger, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Purchased Gas - The cost per Ccf for gas purchased by the Company from its supplier or the weighted average cost per Ccf for gas purchased by the Company from all sources where applicable.	
2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/1(1 - .05) unless expressly authorized by the applicable regulatory authority.	
3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9197

RATE SCHEDULESCHEDULE IDDESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas (as defined in Section B, Number 4) incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9197

RATE SCHEDULESCHEDULE IDDESCRIPTION

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%) per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the Borger area, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9197

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

DESCRIPTION

PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
 Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
 establishes a pipeline safety inspection fee, to be assessed annually against
 operators of natural gas distribution pipelines and pipeline facilities and natural
 gas master metered pipelines and pipeline facilities subject to the Commission's
 pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
 amount of revenue estimated to be collected under this section does not exceed the
 amount the Commission estimates to be necessary to recover the costs of
 administering the pipeline safety program under Texas Utilities Code, Chapter 121,
 excluding costs that are fully funded by federal sources, for any fiscal year.
 (b) The Commission hereby assesses each operator of a natural gas distribution
 system an annual pipeline safety program fee of \$0.50 for each service (service
 line) reported to be in service at the end of each calendar year by each system
 operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
 of each year. (1) Each operator of a natural gas distribution system shall
 calculate the total amount of the annual pipeline safety program fee to be paid to
 the Commission by multiplying the number of services listed in Part B, Section 3,
 of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
 due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
 a natural gas distribution system shall remit to the Commission on March 15 of each
 year, the amount calculated under paragraph (1) of this subsection. (3) Each
 operator of a natural gas distribution system shall recover, by a surcharge to its
 existing rates, the amount the operator paid to the Commission under paragraph (1)
 of this subsection. The surcharge: (A) shall be a flat rate, one-time
 surcharge; (B) shall not be billed before the operator remits the
 pipeline safety program fee to the Commission; (C) shall be applied in
 the billing cycle or cycles immediately following the date on which the operator
 paid the Commission; (D) shall not exceed \$0.50 per service or service
 line (For calendar year 2009 the annual pipeline safety program fee, effective with
 meters read on and after March 31, 2009, Texas Gas Service Company will bill all
 customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
 line) ; and (E) shall not be billed to a state agency, as that term is
 defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
 last billing cycle in which the pipeline safety program fee surcharge is billed to
 customers, each operator of a natural gas distribution system shall file with the
 Commission's Gas Services Division and the Safety Division a report showing:
 (A) the pipeline safety program fee amount paid to the Commission; (B)
 the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge. (5) Each
 operator of a natural gas distribution system that is a utility subject to the
 jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
 shall file a generally applicable tariff for its surcharge in conformance with the
 requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
 Amounts recovered from customers under this subsection by an investor-owned natural
 gas distribution system or a cooperatively owned natural gas distribution system
 shall not be included in the revenue or gross receipts of the system for the
 purpose of calculating municipal franchise fees or any tax imposed under Subchapter
 B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject
 to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3,

Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. 		5.000 7.523	1/ The tax rates shown in columns (b) and (c)																																																																																																																																																									
	above are rates applied to gross receipts and are in addition to the revenues derived from general service rate schedules and the PGA adjustment. However, the State Comptroller has determined that beginning February 1, 1985, these taxes are includable when calculating gross receipts. This is accomplished by applying the Billing Tax Factor to all bills rendered by the Company for service within city limits. For example, for the City of Brownsville the 6.380% Billing Tax Factor added to a basic bill of \$100.00 would equal \$106.38. Bill Including Tax

DESCRIPTION

amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee

on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNA RGV-IS

TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:
WNA Rate = WNAD, where CV WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula: $WNAD = (HDD\ Diff * CB * WF) * COS\ rate$, where $HDD\ Diff = (Normal\ HDD - Actual\ HDD)$, the difference between normal and actual heating degree days for the billing period. CB = Number of customers billed for the billing period. WF = Weather factor determined for each rate schedule in the most recent rate case. CV = Current Volumes for the billing period. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Initial Rate Meters Read On and After

TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area

RATE SCHEDULE NO. 1 COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its incorporated areas in the Rio Grande Valley Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes (including franchise fees) and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general

DESCRIPTION

service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer, in the incorporated areas of Alamo, Brownsville, Donna, La Feria, La Joya, Los Fresnos, Lyford, Mercedes, Palm Valley, Primera, Raymondville, Santa Rosa, and Weslaco only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to the incorporated areas of Alamo, Brownsville, Donna, La Feria, La Joya, Los Fresnos, Lyford, Mercedes, Palm Valley, Primera, Raymondville, Santa Rosa, and Weslaco, in accordance with the Settlement Agreement, are collected by the Company. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer, in the incorporated areas of the Rio Grande Valley Service Area a rate case expense surcharge of \$0.00511 per Ccf during the billing period in accordance with the Settlement Agreement and Term Sheet dated July 10, 2006 and the applicable city ordinance by and among the Company and the Cities in regard to the Company's Statement of Intent to Increase rates filed on March 30, 2006. The rate case expense surcharge shall be effective only until the rate case expenses are collected. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. SALE OF EXCESS GAS SUPPLY For the purposes of this section, Excess Gas Sales shall mean

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin in F.E.R.C. Account 489.3. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

H. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers. 6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period. This report shall be filed concurrently with the Cost of Gas Statement for December. Supersedes Same Sheet Dated Meters Read On and After April 28, 2006 July 31, 2006

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-RGV-IS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area</p> <p>RATE SCHEDULE NO. 1 COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its incorporated areas in the Rio Grande Valley Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes (including franchise fees) and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

or as approved by the regulatory authority , (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer, in the incorporated areas of Alamo, Brownsville, Donna, La Feria, La Joya, Los Fresnos, Lyford, Mercedes, Palm Valley, Primera, Raymondville, Santa Rosa, and Weslaco only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to the incorporated areas of Alamo, Brownsville, Donna, La Feria, La Joya, Los Fresnos, Lyford, Mercedes, Palm Valley, Primera, Raymondville, Santa Rosa, and Weslaco, in accordance with the Settlement Agreement, are collected by the Company. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer, in the incorporated areas of the Rio Grande Valley Service Area a rate case expense surcharge of \$0.00511 per Ccf during the billing period in accordance with the Settlement Agreement and Term Sheet dated July 10, 2006 and the applicable city ordinance by and among the Company and the Cities in regard to the Company's Statement of Intent to Increase rates filed on March 30, 2006. The rate case expense surcharge shall be effective only until the rate case expenses are collected. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. SALE OF EXCESS GAS SUPPLY For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1- July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin in F.E.R.C. Account 489.3. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

H. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.

This report shall be filed concurrently with the Cost of

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE
SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)
the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each

DESCRIPTION

operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNA RGV-IS

TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9225

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \text{WNAD} \times \text{CV}$$
 where $\text{WNAD} = \text{Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula: } \text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate, where } \text{HDD Diff} = (\text{Normal HDD} - \text{Actual HDD}), \text{ the difference between normal and actual heating degree days for the billing period. } \text{CB} = \text{Number of customers billed for the billing period. } \text{WF} = \text{Weather factor determined for each rate schedule in the most recent rate case. } \text{CV} = \text{Current Volumes for the billing period.}$
 D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Initial Rate Meters Read On and After July 31, 2006

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-RGV-IS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area</p> <p>RATE SCHEDULE NO. 1 COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its incorporated areas in the Rio Grande Valley Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes (including franchise fees) and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein</p>

DESCRIPTION

or as approved by the regulatory authority , (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer, in the incorporated areas of Alamo, Brownsville, Donna, La Feria, La Joya, Los Fresnos, Lyford, Mercedes, Palm Valley, Primera, Raymondville, Santa Rosa, and Weslaco only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to the incorporated areas of Alamo, Brownsville, Donna, La Feria, La Joya, Los Fresnos, Lyford, Mercedes, Palm Valley, Primera, Raymondville, Santa Rosa, and Weslaco, in accordance with the Settlement Agreement, are collected by the Company. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer, in the incorporated areas of the Rio Grande Valley Service Area a rate case expense surcharge of \$0.00511 per Ccf during the billing period in accordance with the Settlement Agreement and Term Sheet dated July 10, 2006 and the applicable city ordinance by and among the Company and the Cities in regard to the Company's Statement of Intent to Increase rates filed on March 30, 2006. The rate case expense surcharge shall be effective only until the rate case expenses are collected. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. SALE OF EXCESS GAS SUPPLY For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1- July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin in F.E.R.C. Account 489.3. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

H. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.

This report shall be filed concurrently with the Cost of

1/ The tax rates shown in columns (b) and (c) above are rates applied to gross receipts and are in addition to the revenues derived from general service rate schedules and the PGA adjustment. However, the State Comptroller has determined that beginning February 1, 1985, these taxes are includable when calculating gross receipts. This is accomplished by applying the Billing Tax Factor to all bills rendered by the Company for service within city limits. For example, for the City of Brownsville the 6.380% Billing Tax Factor added to a basic bill of \$100.00 would equal \$106.38. Bill Including Tax Adjustment \$106.38 Less: State Occupancy Tax @1.997% 2.12 City Franchise Fee @4.000% 4.26 Bill Before Tax Adjustment \$100.00

Supersedes Same Rate Sheet Dated Meters Read On and After March 31, 2009 July 30, 2009

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE
SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)
the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each

DESCRIPTION

operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-RGV-IS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE NO. 1 COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its incorporated areas in the Rio Grande Valley Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes (including franchise fees) and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein</p>

or as approved by the regulatory authority , (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer, in the incorporated areas of Alamo, Brownsville, Donna, La Feria, La Joya, Los Fresnos, Lyford, Mercedes, Palm Valley, Primera, Raymondville, Santa Rosa, and Weslaco only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to the incorporated areas of Alamo, Brownsville, Donna, La Feria, La Joya, Los Fresnos, Lyford, Mercedes, Palm Valley, Primera, Raymondville, Santa Rosa, and Weslaco, in accordance with the Settlement Agreement, are collected by the Company. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer, in the incorporated areas of the Rio Grande Valley Service Area a rate case expense surcharge of \$0.00511 per Ccf during the billing period in accordance with the Settlement Agreement and Term Sheet dated July 10, 2006 and the applicable city ordinance by and among the Company and the Cities in regard to the Company's Statement of Intent to Increase rates filed on March 30, 2006. The rate case expense surcharge shall be effective only until the rate case expenses are collected. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. SALE OF EXCESS GAS SUPPLY For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1- July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin in F.E.R.C. Account 489.3. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

H. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.

This report shall be filed concurrently with the Cost of

1.070		3.000	4.242	Weslaco 1.997

1/ The tax rates shown in columns (b) and (c) above are rates applied to gross receipts and are in addition to the revenues derived from general service rate schedules and the PGA adjustment. However, the State Comptroller has determined that beginning February 1, 1985, these taxes are includable when calculating gross receipts. This is accomplished by applying the Billing Tax Factor to all bills rendered by the Company for service within city limits. For example, for the City of Brownsville the 6.380% Billing Tax Factor added to a basic bill of \$100.00 would equal \$106.38. Bill Including Tax Adjustment \$106.38 Less: State Occupancy Tax @1.997% 2.12 City Franchise Fee @4.000% 4.26 Bill Before Tax Adjustment \$100.00

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE
SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)
the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each

DESCRIPTION

operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNA RGV-IS

TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate

TARIFF CODE: DS RRC TARIFF NO: 9230

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \text{WNAD} \times \text{CV}$$
 where $\text{WNAD} = \text{Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula: } \text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate, where } \text{HDD Diff} = (\text{Normal HDD} - \text{Actual HDD}), \text{ the difference between normal and actual heating degree days for the billing period. } \text{CB} = \text{Number of customers billed for the billing period. } \text{WF} = \text{Weather factor determined for each rate schedule in the most recent rate case. } \text{CV} = \text{Current Volumes for the billing period.}$
 D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Initial Rate Meters Read On and After July 31, 2006

SCHEDULE ID	DESCRIPTION
1-ENV-RGV-OS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE NO. 1-ENV</p> <p>COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its unincorporated areas in the Rio Grande Valley Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes, if applicable and other purchased gas expenses.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued during the period for imbalances under the</p>

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9232

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of applicable fees and taxes, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9232

RATE SCHEDULESCHEDULE IDDESCRIPTION

over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account.

Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin in F.E.R.C. Account 489.3. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

DESCRIPTION

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period. This report shall be filed concurrently with the Cost of Gas Statement for December.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is

DESCRIPTION

defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNA RGV-OS

TEXAS GAS SERVICE COMPANY
 Rio Grande Valley Service Area
 RATE SCHEDULE WNA
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9232

RATE SCHEDULESCHEDULE IDDESCRIPTION

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40 as well as general service rate schedules 1Z, 2Z and 4Z for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule.

The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \quad \text{where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-ENV-RGV-OS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE NO. 1-ENV</p> <p>COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its unincorporated areas in the Rio Grande Valley Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes, if applicable and other purchased gas expenses.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued during the period for imbalances under the</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of applicable fees and taxes, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account.

Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin in F.E.R.C. Account 489.3. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

- 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all

DESCRIPTION

customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9236

RATE SCHEDULESCHEDULE IDDESCRIPTION

RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40 as well as general service rate schedules 1Z, 2Z and 4Z for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \quad \text{where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-RGV-OS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE NO. 1-ENV</p> <p>COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its unincorporated areas in the Rio Grande Valley Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes, if applicable and other purchased gas expenses.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued during the period for imbalances under the</p>

TARIFF CODE: DS RRC TARIFF NO: 9238

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of applicable fees and taxes, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9238

RATE SCHEDULESCHEDULE IDDESCRIPTION

over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account.

Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin in F.E.R.C. Account 489.3. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period. This report shall be filed concurrently with the Cost of Gas Statement for December.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the

DESCRIPTION

pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. Source Note: The provisions of this 8.201 adopted to be effective September 8, 2003, 28 TexReg 7682; amended to be effective November 24, 2004, 29 TexReg 10733; amended to be effective May 15, 2005, 30 TexReg 2849; amended to be effective December 19, 2005, 30 TexReg 8428; amended to be effective

WNA RGV-OS

TEXAS GAS SERVICE COMPANY
Rio Grande Valley Service Area
RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40 as well as general service rate schedules 1Z, 2Z and 4Z for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule.

The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \text{WNAD} \cdot \text{CV} \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} \cdot \text{CB} \cdot \text{WF}) \cdot \text{COS rate, where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

CV = Current Volumes for the billing period.

DESCRIPTION

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-RGV-OS-COG	<p>TEXAS GAS SERVICE COMPANY Rio Grande Valley Service Area RATE SCHEDULE NO. 1-ENV</p> <p>COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in its unincorporated areas in the Rio Grande Valley Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees and taxes, if applicable and other purchased gas expenses.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include the value of gas withdrawn from storage and shall include gains or losses from the utilization of natural gas financial instruments which are executed by the Company in an effort to mitigate price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount accrued during the period for imbalances under the</p>

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9241

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes received into the distribution system during the twelve (12) month period ending June 30 by the sum of the volumes delivered off the distribution system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this cost of gas clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of applicable fees and taxes, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account.

Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. SALE OF EXCESS GAS SUPPLY

For the purposes of this section, Excess Gas Sales shall mean the gas sold by the Company in excess of the gas utilized to provide natural gas sales pursuant to this Rate Schedule. Excess Gas Sales Margin shall mean the annual difference for the twelve month period ending July 31 between the revenues received from Excess Gas Sales and the cost of the Excess Gas purchased, plus any cost related to the delivery or processing of the gas to the custody transfer point of sale beyond the RGV distribution system. Annually, the Company shall reimburse the Cities served under this Rate Schedule up to a total of \$5,000 for the cost of reviewing the calculation of profits and losses attributable to Excess Gas Sales. This \$5,000 shall be deducted from the annual Excess Gas Sales Margin prior to the allocation between the Company and ratepayers. For any one-year period (August 1-July 31), the Company shall record the first \$235,543 in Excess Gas Sales Margin in F.E.R.C. Account 489.3. The \$235,543 reimburses the rate payers for all costs associated with transporting excess gas across the RGV distribution system. Any Excess Gas Sales Margin exceeding \$240,543 shall be allocated between the Company and ratepayers at the conclusion of the one-year period, with 65% going to the Company without further obligation to refund or credit, in any form, such revenue to its customers and 35% credited to customers. The Excess Gas Sales Margin allocated to ratepayers shall be credited to ratepayers through an adjustment of the Reconciliation Account as determined in the Annual Reconciliation filing. The Company shall be fully responsible for any aggregate annual net losses incurred from Excess Gas Sales and no such annual losses shall be paid by the ratepayers.

H. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

I. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A calculation of the net margin on sales of excess gas for the reconciliation period, and the amount allocated to customers.
6. A summary of all gains and losses due to the use of financial instruments during the reconciliation period. This report shall be filed concurrently with the Cost of Gas Statement for December.

DESCRIPTION

All customers in the unincorporated areas served by the Company in its Rio Grande Valley Service Area.

COST OF SERVICE RATE

During each monthly billing period:

A Customer Charge per meter per month of \$30.00 plus -

All Ccf @ \$.15741 per Ccf

OTHER ADJUSTMENTS

In addition to the Cost of Service set forth above, each customer's bill shall include the following adjustments:

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1-ENV.

Weather Normalization Adjustment: The billing shall reflect adjustments in accordance with the provisions of the Weather Normalization Adjustment Clause, Rate Schedule WNA.

Interim Rate Adjustment: The basic rates for cost of service set forth above shall be adjusted to include the amount of the Interim Rate Adjustment in accordance with the provisions of Rate Schedule IRA-ENV.

Taxes: Plus applicable taxes and fees related to above.

CONDITIONS

1. Subject in all respects to applicable laws, rules, and regulations from time to time in effect.

2. Delivery of gas hereunder may be interrupted or curtailed at the discretion of the Company, in case of shortage or threatened shortage of gas supply from any cause whatsoever, to conserve gas for residences, hospitals, schools, churches, and other human needs customers as prioritized in the Company's approved Curtailment Program.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1)

DESCRIPTION

of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNA RGV-OS

TEXAS GAS SERVICE COMPANY
Rio Grande Valley Service Area
RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in Rio Grande Valley Service Area: 10, 20, and 40 as well as general service rate schedules 1Z, 2Z and 4Z for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \text{WNAD}, \quad \text{where}$$

$$\text{CV}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \text{ where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with</p>

meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE NO.

COS

COST OF SERVICE ADJUSTMENT

PROVISION

A. APPLICABILITY

This Cost of Service Adjustment Provision applies to all general service rate schedules of Texas Gas Service Company currently in force in its Dell City, Texas Service Area.

B. EFFECTIVE DATE

Rate adjustments made in accordance with this Cost of Service Adjustment Provision will be applied to all bills rendered between July 1, 1991 and June 30, 1992, and annually thereafter beginning each July 1st.

C. RELEVANT ACCOUNTS

Calculation of the annual rate adjustment will be based on changes in the level of expenses recorded in the following accounts:

Description

Account No.

Depreciation Expense	403	
Amortization Expenses	404.1 - 407.1	
Taxes Other than FIT	408	(Excluding Gross Receipts Taxes)
Distribution Expenses	870 - 894	
Customer Accounts Expenses	901 - 916	
Administrative & General Expenses	920 - 931	
Maintenance of General Plant	932	

Cost of gas, gross receipts taxes, federal income taxes, irrigation-related expenses and return on investment will not be considered or included in the

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9242

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

calculation of the annual rate adjustment. Irrigation-related expenses will be removed from each group of accounts based on the ratios determined in the most recent rate case.

D. BASIS OF ANNUAL RATE ADJUSTMENT

Calculation of the annual rate adjustment will be based on calendar year-end data taken from the books and records of Texas Gas Service Company and reported in the General Annual Reports filed with the Railroad Commission of Texas. All annual rate adjustments will be cumulative.

E. AMOUNT OF ANNUAL RATE ADJUSTMENT

The amount of the annual rate adjustment will be determined by comparing the sum of the balances in the Relevant Accounts at the end of each of the two calendar years preceding the year during which the adjustment is made. Only dollar amounts attributable to the Dell City, Texas Service Area will be included when the adjustment is determined. The dollar amount of the net increase or decrease in the year-end balances of the Relevant Accounts will be determined by subtracting the balances from the second year preceding the rate adjustment (base year) from the balances from the first year immediately preceding the rate adjustment (prior year). The difference will be divided by the adjusted volume of gas (Ccf) sold in the Dell City, Texas Service Area during the prior year, and the resulting increase (decrease) will be added to (subtracted from) the existing consumption related rate blocks. All adjustments will be rounded up (or down) to the nearest one-hundredth of a cent per hundred cubic feet (0.01 cents/Ccf) of gas sold.

F. FILING OF ANNUAL RATE ADJUSTMENT

Texas Gas Service Company will file with the appropriate regulatory authorities its proposed annual rate adjustment accompanied by the revised rate schedules, supporting documentation, and calculations required to determine the adjustment. This filing will be made each May and will occur at least thirty (30) days prior to July 1st of the same year.

G. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The appropriate regulatory authorities will have a period of not less than thirty (30) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on and after July 1st of each year. This Cost of Service Adjustment Provision does not change or limit the legal rights or duties of the affected regulatory authorities, and Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

RATE

SCHEDULE NO. 1-INC

COST OF

GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated area of its Dell City, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company for general service customers during the twelve (12) month period ending October 31 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of October to determine the amount of over or under collection occurring during such twelve month period. The reconciliation factor effective on the October, 1985 bills will be reviewed, adjusted if necessary and made effective on bills for February through October 1986. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9242

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from February through October as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule(s), the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the February billing cycle through the October billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following February billing cycle and continuing through the next following October billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9242

RATE SCHEDULESCHEDULE IDDESCRIPTION

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall post a Cost of Gas Statement in the Company office in Dell City, Texas which will be available for inspection during regular business hours and file a copy with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the

total of items (b) through (e). The statement shall include all data necessary for the Customers or Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending October 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues for the twelve month period ending October 31.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for February.

TARIFF CODE: DS RRC TARIFF NO: 9243

RATE SCHEDULESCHEDULE IDDESCRIPTION

The reconciliation factor effective on the October, 1985 bills will be reviewed, adjusted if necessary and made effective on bills for February through October 1986. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from February through October as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule(s), the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the February billing cycle through the October billing cycle. The Reconciliation Component so determined to collect any revenue shortfall

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9243

RATE SCHEDULESCHEDULE IDDESCRIPTION

or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following February billing cycle and continuing through the next following October billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,
 (2) over the same number of units sold during the period of the over or under charge, or
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall post a Cost of Gas Statement in the Company office in Dell City, Texas which will be available for inspection during regular business hours and file a copy with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The

Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Customers or Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending October 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues for the twelve month period ending October 31.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for February.

SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)
the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each
operator of a natural gas distribution system that is a utility subject to the
jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
shall file a generally applicable tariff for its surcharge in conformance with the
requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
Amounts recovered from customers under this subsection by an investor-owned natural
gas distribution system or a cooperatively owned natural gas distribution system
shall not be included in the revenue or gross receipts of the system for the
purpose of calculating municipal franchise fees or any tax imposed under Subchapter
B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject

to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-Dell-IS-COSAdj	TEXAS GAS SERVICE COMPANY Dell City Service Area - West Texas Region RATE SCHEDULE NO. COS COST OF SERVICE ADJUSTMENT PROVISION
A. APPLICABILITY	
This Cost of Service Adjustment Provision applies to all general service rate schedules of Texas Gas Service Company currently in force in its Dell City, Texas Service Area.	
B. EFFECTIVE DATE	
Rate adjustments made in accordance with this Cost of Service Adjustment Provision will be applied to all bills rendered between July 1, 1991 and June 30, 1992, and annually thereafter beginning each July 1st.	
C. RELEVANT ACCOUNTS	
Calculation of the annual rate adjustment will be based on changes in the level of expenses recorded in the following accounts:	
Description	
Account No.	
Depreciation Expense	403
Amortization Expenses	404.1 - 407.1
Taxes Other than FIT	408 (Excluding Gross Receipts Taxes)
Distribution Expenses	870 - 894
Customer Accounts Expenses	901 - 916

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9244

RATE SCHEDULESCHEDULE IDDESCRIPTION

Administrative & General Expenses 920 - 931

Maintenance of General Plant 932

Cost of gas, gross receipts taxes, federal income taxes, irrigation-related expenses and return on investment will not be considered or included in the calculation of the annual rate adjustment. Irrigation-related expenses will be removed from each group of accounts based on the ratios determined in the most recent rate case.

D. BASIS OF ANNUAL RATE ADJUSTMENT

Calculation of the annual rate adjustment will be based on calendar year-end data taken from the books and records of Texas Gas Service Company and reported in the General Annual Reports filed with the Railroad Commission of Texas. All annual rate adjustments will be cumulative.

E. AMOUNT OF ANNUAL RATE ADJUSTMENT

The amount of the annual rate adjustment will be determined by comparing the sum of the balances in the Relevant Accounts at the end of each of the two calendar years preceding the year during which the adjustment is made. Only dollar amounts attributable to the Dell City, Texas Service Area will be included when the adjustment is determined. The dollar amount of the net increase or decrease in the year-end balances of the Relevant Accounts will be determined by subtracting the balances from the second year preceding the rate adjustment (base year) from the balances from the first year immediately preceding the rate adjustment (prior year). The difference will be divided by the adjusted volume of gas (Ccf) sold in the Dell City, Texas Service Area during the prior year, and the resulting increase (decrease) will be added to (subtracted from) the existing consumption related rate blocks. All adjustments will be rounded up (or down) to the nearest one-hundredth of a cent per hundred cubic feet (0.01 cents/Ccf) of gas sold.

F. FILING OF ANNUAL RATE ADJUSTMENT

Texas Gas Service Company will file with the appropriate regulatory authorities its proposed annual rate adjustment accompanied by the revised rate schedules, supporting documentation, and calculations required to determine the adjustment. This filing will be made each May and will occur at least thirty (30) days prior to July 1st of the same year.

G. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The appropriate regulatory authorities will have a period of not less than thirty (30) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on and after July 1st of each year. This Cost of Service Adjustment Provision does not change or limit the legal rights or duties of the affected regulatory authorities, and Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

TEXAS GAS SERVICE

COMPANY

Dell City Service Area -

West Texas Region

RATE

SCHEDULE NO. 1-INC

COST OF

GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated area of its Dell City, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company for general service customers during the twelve (12) month period ending October 31 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of October to determine the amount of over or under collection occurring during such twelve month period.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9244

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The reconciliation factor effective on the October, 1985 bills will be reviewed, adjusted if necessary and made effective on bills for February through October 1986. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from February through October as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule(s), the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the February billing cycle through the October billing cycle. The Reconciliation Component so determined to collect any revenue shortfall

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9244

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following February billing cycle and continuing through the next following October billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,
 (2) over the same number of units sold during the period of the over or under charge, or
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall post a Cost of Gas Statement in the Company office in Dell City, Texas which will be available for inspection during regular business hours and file a copy with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The

SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)
the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each
operator of a natural gas distribution system that is a utility subject to the
jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
shall file a generally applicable tariff for its surcharge in conformance with the
requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
Amounts recovered from customers under this subsection by an investor-owned natural
gas distribution system or a cooperatively owned natural gas distribution system
shall not be included in the revenue or gross receipts of the system for the
purpose of calculating municipal franchise fees or any tax imposed under Subchapter
B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject

to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE ID	DESCRIPTION
1-1-Dell-IS-COSAdj	TEXAS GAS SERVICE COMPANY Dell City Service Area - West Texas Region RATE SCHEDULE NO. COS COST OF SERVICE ADJUSTMENT PROVISION
A. APPLICABILITY	
This Cost of Service Adjustment Provision applies to all general service rate schedules of Texas Gas Service Company currently in force in its Dell City, Texas Service Area.	
B. EFFECTIVE DATE	
Rate adjustments made in accordance with this Cost of Service Adjustment Provision will be applied to all bills rendered between July 1, 1991 and June 30, 1992, and annually thereafter beginning each July 1st.	
C. RELEVANT ACCOUNTS	
Calculation of the annual rate adjustment will be based on changes in the level of expenses recorded in the following accounts:	
Description	
Account No.	
Depreciation Expense	403
Amortization Expenses	404.1 - 407.1
Taxes Other than FIT	408 (Excluding Gross Receipts Taxes)
Distribution Expenses	870 - 894
Customer Accounts Expenses	901 - 916

TARIFF CODE: DS RRC TARIFF NO: 9245

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Administrative & General Expenses 920 - 931

Maintenance of General Plant 932

Cost of gas, gross receipts taxes, federal income taxes, irrigation-related expenses and return on investment will not be considered or included in the calculation of the annual rate adjustment. Irrigation-related expenses will be removed from each group of accounts based on the ratios determined in the most recent rate case.

D. BASIS OF ANNUAL RATE ADJUSTMENT

Calculation of the annual rate adjustment will be based on calendar year-end data taken from the books and records of Texas Gas Service Company and reported in the General Annual Reports filed with the Railroad Commission of Texas. All annual rate adjustments will be cumulative.

E. AMOUNT OF ANNUAL RATE ADJUSTMENT

The amount of the annual rate adjustment will be determined by comparing the sum of the balances in the Relevant Accounts at the end of each of the two calendar years preceding the year during which the adjustment is made. Only dollar amounts attributable to the Dell City, Texas Service Area will be included when the adjustment is determined. The dollar amount of the net increase or decrease in the year-end balances of the Relevant Accounts will be determined by subtracting the balances from the second year preceding the rate adjustment (base year) from the balances from the first year immediately preceding the rate adjustment (prior year). The difference will be divided by the adjusted volume of gas (Ccf) sold in the Dell City, Texas Service Area during the prior year, and the resulting increase (decrease) will be added to (subtracted from) the existing consumption related rate blocks. All adjustments will be rounded up (or down) to the nearest one-hundredth of a cent per hundred cubic feet (0.01 cents/Ccf) of gas sold.

F. FILING OF ANNUAL RATE ADJUSTMENT

Texas Gas Service Company will file with the appropriate regulatory authorities its proposed annual rate adjustment accompanied by the revised rate schedules, supporting documentation, and calculations required to determine the adjustment. This filing will be made each May and will occur at least thirty (30) days prior to July 1st of the same year.

G. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The appropriate regulatory authorities will have a period of not less than thirty (30) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on and after July 1st of each year. This Cost of Service Adjustment Provision does not change or limit the legal rights or duties of the affected regulatory authorities, and Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

TEXAS GAS SERVICE

COMPANY

Dell City Service Area -

West Texas Region

RATE

SCHEDULE NO. 1-INC

COST OF

GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated area of its Dell City, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company for general service customers during the twelve (12) month period ending October 31 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of October to determine the amount of over or under collection occurring during such twelve month period.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9245

RATE SCHEDULESCHEDULE IDDESCRIPTION

The reconciliation factor effective on the October, 1985 bills will be reviewed, adjusted if necessary and made effective on bills for February through October 1986. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from February through October as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule(s), the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the February billing cycle through the October billing cycle. The Reconciliation Component so determined to collect any revenue shortfall

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9245

RATE SCHEDULESCHEDULE IDDESCRIPTION

or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following February billing cycle and continuing through the next following October billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,
 (2) over the same number of units sold during the period of the over or under charge, or
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall post a Cost of Gas Statement in the Company office in Dell City, Texas which will be available for inspection during regular business hours and file a copy with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The

DESCRIPTION

Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Customers or Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending October 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues for the twelve month period ending October 31.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for February.

DESCRIPTION

PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
 Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
 establishes a pipeline safety inspection fee, to be assessed annually against
 operators of natural gas distribution pipelines and pipeline facilities and natural
 gas master metered pipelines and pipeline facilities subject to the Commission's
 pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
 amount of revenue estimated to be collected under this section does not exceed the
 amount the Commission estimates to be necessary to recover the costs of
 administering the pipeline safety program under Texas Utilities Code, Chapter 121,
 excluding costs that are fully funded by federal sources, for any fiscal year.
 (b) The Commission hereby assesses each operator of a natural gas distribution
 system an annual pipeline safety program fee of \$0.50 for each service (service
 line) reported to be in service at the end of each calendar year by each system
 operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
 of each year. (1) Each operator of a natural gas distribution system shall
 calculate the total amount of the annual pipeline safety program fee to be paid to
 the Commission by multiplying the number of services listed in Part B, Section 3,
 of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
 due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
 a natural gas distribution system shall remit to the Commission on March 15 of each
 year, the amount calculated under paragraph (1) of this subsection. (3) Each
 operator of a natural gas distribution system shall recover, by a surcharge to its
 existing rates, the amount the operator paid to the Commission under paragraph (1)
 of this subsection. The surcharge: (A) shall be a flat rate, one-time
 surcharge; (B) shall not be billed before the operator remits the
 pipeline safety program fee to the Commission; (C) shall be applied in
 the billing cycle or cycles immediately following the date on which the operator
 paid the Commission; (D) shall not exceed \$0.50 per service or service
 line (For calendar year 2009 the annual pipeline safety program fee, effective with
 meters read on and after March 31, 2009, Texas Gas Service Company will bill all
 customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
 line) ; and (E) shall not be billed to a state agency, as that term is
 defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
 last billing cycle in which the pipeline safety program fee surcharge is billed to
 customers, each operator of a natural gas distribution system shall file with the
 Commission's Gas Services Division and the Safety Division a report showing:
 (A) the pipeline safety program fee amount paid to the Commission; (B)
 the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge. (5) Each
 operator of a natural gas distribution system that is a utility subject to the
 jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
 shall file a generally applicable tariff for its surcharge in conformance with the
 requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
 Amounts recovered from customers under this subsection by an investor-owned natural
 gas distribution system or a cooperatively owned natural gas distribution system
 shall not be included in the revenue or gross receipts of the system for the
 purpose of calculating municipal franchise fees or any tax imposed under Subchapter
 B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject
 to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3,

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. COST OF GAS

CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9246

RATE SCHEDULESCHEDULE IDDESCRIPTION

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Dell City, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company for general service customers during the twelve (12) month period ending October 31 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of October to determine the amount of over or under collection occurring during such twelve month period. The reconciliation factor effective on the October, 1985 bills will be reviewed, adjusted if necessary and made effective on bills for February through October 1986. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from February through October as a result of the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9246

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule(s), the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the February billing cycle through the October billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following February billing cycle and continuing through the next following October billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9246

RATE SCHEDULESCHEDULE IDDESCRIPTION

for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall post a Cost of Gas Statement in the Company office in Dell City, Texas which will be available for inspection during regular business hours and file a copy with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Customers or Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9247

RATE SCHEDULESCHEDULE IDDESCRIPTION

The reconciliation factor effective on the October, 1985 bills will be reviewed, adjusted if necessary and made effective on bills for February through October 1986. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from February through October as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule(s), the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the February billing cycle through the October billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following February billing cycle and continuing through the

SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)
the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each
operator of a natural gas distribution system that is a utility subject to the
jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
shall file a generally applicable tariff for its surcharge in conformance with the
requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
Amounts recovered from customers under this subsection by an investor-owned natural
gas distribution system or a cooperatively owned natural gas distribution system
shall not be included in the revenue or gross receipts of the system for the
purpose of calculating municipal franchise fees or any tax imposed under Subchapter
B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject

DESCRIPTION

to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. 1-Dell-OS-COG	TEXAS GAS SERVICE COMPANY Dell City Service Area - West Texas Region NO. 1 RATE SCHEDULE COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Dell City, Texas Service Area. B. DEFINITIONS 1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. 2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company for general service customers during the twelve (12) month period ending October 31 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of October to determine the amount of over or under collection occurring during such twelve month period.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9248

RATE SCHEDULESCHEDULE IDDESCRIPTION

The reconciliation factor effective on the October, 1985 bills will be reviewed, adjusted if necessary and made effective on bills for February through October 1986. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from February through October as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule(s), the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the February billing cycle through the October billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following February billing cycle and continuing through the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9248

RATE SCHEDULESCHEDULE IDDESCRIPTION

next following October billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall post a Cost of Gas Statement in the Company office in Dell City, Texas which will be available for inspection during regular business hours and file a copy with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

GAS SERVICES DIVISION

DESCRIPTION

- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Customers or Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending October 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues for the twelve month period ending October 31.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for February.

SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)
the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each
operator of a natural gas distribution system that is a utility subject to the
jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
shall file a generally applicable tariff for its surcharge in conformance with the
requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
Amounts recovered from customers under this subsection by an investor-owned natural
gas distribution system or a cooperatively owned natural gas distribution system
shall not be included in the revenue or gross receipts of the system for the
purpose of calculating municipal franchise fees or any tax imposed under Subchapter
B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject

to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Dell-OS-COG	TEXAS GAS SERVICE COMPANY Dell City Service Area - West Texas Region
	RATE SCHEDULE
NO. 1	COST OF GAS
CLAUSE	
A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Dell City, Texas Service Area.
B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.
	2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company for general service customers during the twelve (12) month period ending October 31 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of October to determine the amount of over or under collection occurring during such twelve month period.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9249

RATE SCHEDULESCHEDULE IDDESCRIPTION

The reconciliation factor effective on the October, 1985 bills will be reviewed, adjusted if necessary and made effective on bills for February through October 1986. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from February through October as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule(s), the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the February billing cycle through the October billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following February billing cycle and continuing through the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9249

RATE SCHEDULESCHEDULE IDDESCRIPTION

next following October billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during January an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall post a Cost of Gas Statement in the Company office in Dell City, Texas which will be available for inspection during regular business hours and file a copy with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

DESCRIPTION

- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Customers or Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending October 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues for the twelve month period ending October 31.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for February.

SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)
the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge. (5) Each
operator of a natural gas distribution system that is a utility subject to the
jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
shall file a generally applicable tariff for its surcharge in conformance with the
requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
Amounts recovered from customers under this subsection by an investor-owned natural
gas distribution system or a cooperatively owned natural gas distribution system
shall not be included in the revenue or gross receipts of the system for the
purpose of calculating municipal franchise fees or any tax imposed under Subchapter
B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject

to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator.  PIPELINE SAFETY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE
 TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
 Rule 8.201 Pipeline Safety Program Fees

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9250

RATE SCHEDULESCHEDULE IDDESCRIPTION

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection

fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator.

DESCRIPTION

COST OF

GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Pecos-Monahans Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extend to the next following June). The audit shall determine:

- (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,
 - (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues,
 - (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and
 - (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.
6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.C. COST OF GASIn addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville, in accordance with the Settlement Agreement, are collected by the Company.D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENTIf the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.E. PAYMENT FOR USE OF FUNDSConcurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURESIn the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the

GAS SERVICES DIVISION

DESCRIPTION

Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the El Paso, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December. (For Incorporated only) Supersedes Rate Sch. No. 1 Same Sheet Dated Meters Read On and After October 12, 1989 August 24, 2001

The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville, in accordance with the Settlement Agreement, are collected by the Company.D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENTIf the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.E. PAYMENT FOR USE OF FUNDSConcurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall

GAS SERVICES DIVISION

DESCRIPTION

credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the El Paso, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.  PIPELINE SAFETY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE
 TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
 Rule 8.201 Pipeline Safety Program Fees

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time

RATE SCHEDULESCHEDULE IDDESCRIPTION

customer charge per bill of \$0.46, based on \$0.50 per service line) ; and
 (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;

	SCHEDULE NO. 1-INC	
		Pecos-Monahans Service Area
	- West Texas Region	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Pecos-Monahans Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extend to the next following June). The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide

DESCRIPTION

service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.C. COST OF GASIn addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville, in accordance with the Settlement Agreement, are collected by the Company.D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENTIf the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.E. PAYMENT FOR USE OF FUNDSConcurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall

DESCRIPTION

credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the El Paso, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December. RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Rule 8.201 Pipeline Safety Program Fees

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

TARIFF CODE: DS RRC TARIFF NO: 9252

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator.

COST OF
GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Pecos-Monahans Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extend to the next following June). The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide

DESCRIPTION

service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.C. COST OF GASIn addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville, in accordance with the Settlement Agreement, are collected by the Company.D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENTIf the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.E. PAYMENT FOR USE OF FUNDSConcurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall

DESCRIPTION

credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the El Paso, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December. TEXAS GAS SERVICE COMPANY Pecos-Monahans Service Area - West Texas Region
 RATE SCHEDULE 40 PUBLIC SCHOOLS AND LOCAL GOVERNMENT
 APPLICABILITY Applicable to public schools and local government customers for all purposes. This rate is only available to full requirements customers of Texas Gas Service Company. TERRITORY Incorporated areas being served in the Texas counties of Reeves, Ward and Winkler. COST OF SERVICE RATED During each monthly billing period: A customer charge of \$10.94 plus All Ccf @ .1836 per Ccf
 Cost of Gas Component: In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1-INC multiplied by the total Ccf consumed during the billing month. City Franchise Fee: The Cost of Service rates shall be increased or decreased in the event that city franchise fees are increased or decreased from 2% after the effective date of these rates in accordance with Rate Schedule 1B. CONDITIONS 1. Subject in all respects to applicable laws, rules and regulations from time to time in effect. 2. Delivery of gas hereunder may be interrupted or curtailed at the discretion of the Company in case of shortage or threatened shortage of gas supply from any cause whatsoever, to conserve gas for other customers. 3. The applicability section of this rate notwithstanding, if a customer, other than a full requirements customer, pays a standby charge pursuant to Rate Schedule S-1, Texas Gas Service Company will maintain facilities and supply capability to serve said customer. If standby payments are current, the customer will qualify for this rate. Supersedes Same Sheet Dated Meters Read On and After September 25, 2001 December 26, 2001

revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance

GAS SERVICES DIVISION

with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator.

	COMPANY	
		RATE
	SCHEDULE NO. 1-INC	
		Pecos-Monahans Service Area
	- West Texas Region	
		COST OF
	GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Pecos-Monahans Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extend to the next following June). The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide

DESCRIPTION

service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.C. COST OF GASIn addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Pecos City, Barstow, Monahans, and Thorntonville, in accordance with the Settlement Agreement, are collected by the Company.D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENTIf the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.E. PAYMENT FOR USE OF FUNDSConcurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall

DESCRIPTION

credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the El Paso, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December. (For Incorporated only) Supersedes Rate Sch. No. 1 Same Sheet Dated Meters Read On and After October 12, 1989 August 24, 2001

PIPELINE SAFETY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE
TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS
CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
Rule 8.201 Pipeline Safety Program Fees

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

DESCRIPTION

safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator.

The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. COST OF GAS

CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9255

RATE SCHEDULESCHEDULE IDDESCRIPTION

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Pecos-Monahans Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extend to the next following June). The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9255

RATE SCHEDULESCHEDULE IDDESCRIPTION

Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9255

RATE SCHEDULESCHEDULE IDDESCRIPTION

longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,
 (2) over the same number of units sold during the period of the over or under charge, or
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the El Paso, Texas Cost of Purchased Gas;
 (b) that cost multiplied by the Purchase/Sales Ratio;
 (c) the amount of the cost of gas caused by any surcharge or refund;
 (d) the Reconciliation Component;
 (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
 (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this

GAS SERVICES DIVISION

cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1984 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Pec-Mon-OS-COG	TEXAS GAS SERVICE COMPANY
	Pecos-Monahans Service Area - West Texas Region
	RATE SCHEDULE NO. 1
	COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Pecos-Monahans Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extend to the next following June). The audit shall determine:	
(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9257

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9257

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the El Paso, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1984 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. <u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Pec-Mon-OS-COG	TEXAS GAS SERVICE COMPANY
	Pecos-Monahans Service Area - West Texas Region
	RATE SCHEDULE NO. 1
	COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Pecos-Monahans Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extend to the next following June). The audit shall determine:	
(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9258

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9258

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the El Paso, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9258

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1984 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE
SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each
year, the amount calculated under paragraph (1) of this subsection. (3) Each
operator of a natural gas distribution system shall recover, by a surcharge to its
existing rates, the amount the operator paid to the Commission under paragraph (1)
of this subsection. The surcharge: (A) shall be a flat rate, one-time
surcharge; (B) shall not be billed before the operator remits the
pipeline safety program fee to the Commission; (C) shall be applied in
the billing cycle or cycles immediately following the date on which the operator
paid the Commission; (D) shall not exceed \$0.50 per service or service
line (For calendar year 2009 the annual pipeline safety program fee, effective with
meters read on and after March 31, 2009, Texas Gas Service Company will bill all
customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
line) ; and (E) shall not be billed to a state agency, as that term is
defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
last billing cycle in which the pipeline safety program fee surcharge is billed to
customers, each operator of a natural gas distribution system shall file with the
Commission's Gas Services Division and the Safety Division a report showing:
(A) the pipeline safety program fee amount paid to the Commission; (B)

DESCRIPTION

the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Pec-Mon-OS-COG	TEXAS GAS SERVICE COMPANY
	Pecos-Monahans Service Area - West Texas Region
	RATE SCHEDULE NO. 1
	COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Pecos-Monahans Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extend to the next following June). The audit shall determine:	
(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9259

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9259

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the El Paso, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9259

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1984 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. DESCRIPTION

Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Pec-Mon-OS-COG	TEXAS GAS SERVICE COMPANY
	Pecos-Monahans Service Area - West Texas Region
	RATE SCHEDULE NO. 1
	COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Pecos-Monahans Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extend to the next following June). The audit shall determine:	
(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9260

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9260

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the El Paso, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9260

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. The report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1984 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

maintain facilities and supply capability to serve said customer. If standby payments are current, the customer will qualify for this rate. Supersedes Rate Schedule 4Z effective Gas Sold On and After December 27, 1989 October 19, 1992

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural

	<p>gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-INC-Nixon-IS-COG		TEXAS GAS
	SERVICE COMPANY	
		Nixon Service Area
	- Central Texas Region	
		RATE
	SCHEDULE 1-INC	
		COST
	OF GAS CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all general service rate schedules, other than industrial, of Texas Gas Service Company (The Company) in the incorporated area of its Nixon, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit of the total calculation under this clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. This amount shall not include the cost for gas purchased for industrial customers.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9265

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this cost of gas clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharge of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this cost of gas clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer, in the incorporated area of Nixon only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to the incorporated area of Nixon, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9265

RATE SCHEDULESCHEDULE IDDESCRIPTION

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

DESCRIPTION

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October.

 PIPELINE SAFETY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE
 TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
 Rule 8.201 Pipeline Safety Program Fees

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the

annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator.

WNC-Nixon-IS

TEXAS GAS SERVICE COMPANY Nixon Service Area - Central Texas Region RATE SCHEDULE
WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Central Texas South Service Area for the City of Nixon, Texas: 10, 20, and 40. The WNC rate shall be computed monthly and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-year weather information for annual periods beginning with September and ending the following August. The WNC adjustment shall be based on the following formula:
WNC Rate = WNC D where CMV WNC D = Weather Normalization Clause Dollars to be collected from each billing district, by rate class. This factor shall be BASED ON THE FOLLOWING FORMULA: WNC D = [(HL/WF) - HL]*BR - C + R, where HL = Year-to-date heating load volumes; WF = Weather Factor = Year-to-year actual degree days divided by the year-to-date normal degree days; BR = Base Rate = The current base rate for the particular class; C

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9266

RATE SCHEDULESCHEDULE IDDESCRIPTION

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

RATE SCHEDULESCHEDULE IDDESCRIPTION

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator.

WNC-Andrews-IS

TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region RATE SCHEDULE
 WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following general service rate schedules of Texas Gas Service Company in its Andrews Service Area: 10, 20, 40, and 48. The WNC shall be effective during the September through May billing cycles. B. PURPOSE The WNC refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNC adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNC volume adjustment is priced at the current cost of service rate per Ccf to determine a WNC revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the City monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. Supersedes Rate Sheet Dated Meters Read On and After

RATE SCHEDULE NO. 1-

INC

COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated area of its Andrews, Texas Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this cost of gas clause, consisting of the commodity cost, a reconciliation component and

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9266

RATE SCHEDULESCHEDULE IDDESCRIPTION

related fees (including franchise fees) and taxes.

2. Commodity Cost - The cost of purchased gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extended to the next following June). The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9266

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9266

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Andrews, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORTThe Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account.This report shall be filed concurrently with the Cost of Gas Statement for December.

RATE SCHEDULESCHEDULE IDDESCRIPTION

or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9267

RATE SCHEDULESCHEDULE IDDESCRIPTION

the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Andrews, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

RAILROAD COMMISSION OF TEXAS
 CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
 Rule 8.201 Pipeline Safety Program Fees

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9267

RATE SCHEDULESCHEDULE IDDESCRIPTION

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty

WNC-Andrews-IS	<p>TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region RATE SCHEDULE WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following general service rate schedules of Texas Gas Service Company in its Andrews Service Area: 10, 20, 40, and 48. The WNC shall be effective during the September through May billing cycles. B. PURPOSE The WNC refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNC adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNC volume adjustment is priced at the current cost of service rate per Ccf to determine a WNC revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the City monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. Supersedes Rate Sheet Dated Meters Read On and After May 1, 1993 December 1, 1999</p>

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-INC-Andrews-IS-COG	TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region
INC	RATE SCHEDULE NO. 1- COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated area of its Andrews, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this cost of gas clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.	
2. Commodity Cost - The cost of purchased gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extended to the next following June). The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases	

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9268

RATE SCHEDULESCHEDULE IDDESCRIPTION

the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT
