The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Andrews, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

 PIPELINE SAFETY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE
 TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
 Rule 8.201 Pipeline Safety Program Fees

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9268

RATE SCHEDULESCHEDULE IDDESCRIPTION

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this

subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-INC-Andrews-IS-COG	TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region
INC	RATE SCHEDULE NO. 1- COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated area of its Andrews, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this cost of gas clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.	
2. Commodity Cost - The cost of purchased gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extended to the next following June). The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases	

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9269

RATE SCHEDULESCHEDULE IDDESCRIPTION

the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Andrews, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following general service rate schedules of Texas Gas Service Company in its Andrews Service Area: 10, 20, 40, and 48. The WNC shall be effective during the September through May billing cycles.B. PURPOSEThe WNC refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.C. WNC MECHANISMIn order to reflect weather effects in a timely and accurate manner, the WNC adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNC volume adjustment is priced at the current cost of service rate per Ccf to determine a WNC revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.D. FILING WITH THE CITIESThe Company will file with the City monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. Supersedes Rate Sheet Dated Meters Read On and After

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-INC-Andrews-IS-COG	TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region
INC	RATE SCHEDULE NO. 1- COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated area of its Andrews, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this cost of gas clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.	
2. Commodity Cost - The cost of purchased gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extended to the next following June). The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

or operation of this Cost of Gas Clause, and (d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9270

RATE SCHEDULESCHEDULE IDDESCRIPTION

the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts (1) over the same period of time as the over or under charge occurred, (2) over the same number of units sold during the period of the over or under charge, or (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth (a) the Andrews, Texas Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues gathered by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

 PIPELINE SAFETY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE
 TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
 Rule 8.201 Pipeline Safety Program Fees

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety program

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9270

RATE SCHEDULESCHEDULE IDDESCRIPTION

fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing:

- (A) the pipeline safety program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator.

WNC-Andrews-IS

TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region RATE SCHEDULE
WNC WEATHER NORMALIZATION CLAUSEA. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following general service rate schedules of Texas Gas Service Company in its Andrews Service Area: 10, 20, 40, and 48. The WNC shall be effective during the September through May billing cycles.B. PURPOSEThe WNC refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.C. WNC MECHANISMin order to reflect weather effects in a timely and accurate manner, the WNC adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNC volume adjustment is priced at the current cost of service rate per Ccf to determine a WNC revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.D. FILING WITH THE CITIESThe Company will file with the City monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. Supersedes Rate Sheet Dated Meters Read On and After

SCHEDULE ID	DESCRIPTION
5-INC-SouthTx-IS-COG	<p>TEXAS GAS SERVICE COMPANY South Texas Service Area - Central Texas Region RATE SCHEDULE 5-INC COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Texas Service Area including Cuero, Gonzales, Luling, Lockhart, Shiner, Yoakum and Nixon.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, a Reconciliation Component, and applicable fees and taxes, including franchise fees.</p> <p>2. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this cost of gas clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of franchise fees and applicable taxes and, (e) the total amount of</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account during September an amount equal to the average balance multiplied by six percent (6%).

DESCRIPTION

F. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement.

G. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 5. A summary of charges related to uncollectible accounts as described in Section B. 5. (e). This report shall be filed concurrently with the Cost of Gas Statement for October.

H. FIXED COST OF PURCHASED GAS - PILOT PROGRAM The Company may elect to offer a fixed price program to a select or limited group of customers for a specific period of time in order to study the participation levels, billing capability, and management issues of such a program should it be offered on a larger scale in the future. In this program, the Company will purchase and designate a specific package of gas at a fixed price for the program. The Company will select a specific group of customers and offer them the option to switch to the fixed cost of purchased gas for the duration of the program. The customers who elect to participate in this program must participate in the program for the entire duration of the program. Customers who participate in this program will have a fixed cost of purchased gas component of the cost of gas but will still be responsible for other charges in the cost of gas clause. At the end of the program, the customers who participated in the program will receive normal cost of gas charges as described in this cost of gas clause. Any difference in the amount of gas purchased and designated for this program and the amount of gas consumed by the participants in the program will be considered as gas purchased by the Company to provide service to general service customers as described in B. 5. Reconciliation Audit and B. 7.Reconciliation Account of this Cost of Gas clause. Participants in this plan may be required to sign up or the ABC Plan.

SCHEDULE IDDESCRIPTION

PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
 Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
 establishes a pipeline safety inspection fee, to be assessed annually against
 operators of natural gas distribution pipelines and pipeline facilities and natural
 gas master metered pipelines and pipeline facilities subject to the Commission's
 pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
 amount of revenue estimated to be collected under this section does not exceed the
 amount the Commission estimates to be necessary to recover the costs of
 administering the pipeline safety program under Texas Utilities Code, Chapter 121,
 excluding costs that are fully funded by federal sources, for any fiscal year.
 (b) The Commission hereby assesses each operator of a natural gas distribution
 system an annual pipeline safety program fee of \$0.50 for each service (service
 line) reported to be in service at the end of each calendar year by each system
 operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
 of each year. (1) Each operator of a natural gas distribution system shall
 calculate the total amount of the annual pipeline safety program fee to be paid to
 the Commission by multiplying the number of services listed in Part B, Section 3,
 of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
 due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
 a natural gas distribution system shall remit to the Commission on March 15 of each
 year, the amount calculated under paragraph (1) of this subsection. (3) Each
 operator of a natural gas distribution system shall recover, by a surcharge to its
 existing rates, the amount the operator paid to the Commission under paragraph (1)
 of this subsection. The surcharge: (A) shall be a flat rate, one-time
 surcharge; (B) shall not be billed before the operator remits the
 pipeline safety program fee to the Commission; (C) shall be applied in
 the billing cycle or cycles immediately following the date on which the operator
 paid the Commission; (D) shall not exceed \$0.50 per service or service
 line (For calendar year 2009 the annual pipeline safety program fee, effective with
 meters read on and after March 31, 2009, Texas Gas Service Company will bill all
 customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
 line) ; and (E) shall not be billed to a state agency, as that term is
 defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
 last billing cycle in which the pipeline safety program fee surcharge is billed to
 customers, each operator of a natural gas distribution system shall file with the
 Commission's Gas Services Division and the Safety Division a report showing:
 (A) the pipeline safety program fee amount paid to the Commission; (B)
 the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge. (5) Each
 operator of a natural gas distribution system that is a utility subject to the
 jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
 shall file a generally applicable tariff for its surcharge in conformance with the
 requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
 Amounts recovered from customers under this subsection by an investor-owned natural
 gas distribution system or a cooperatively owned natural gas distribution system
 shall not be included in the revenue or gross receipts of the system for the
 purpose of calculating municipal franchise fees or any tax imposed under Subchapter
 B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject
 to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3,

DESCRIPTION

Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RCE-Rider-STX-ISOS

TEXAS GAS SERVICE COMPANY
South Texas Service Area - Central Texas Region
RATE SCHEDULE RCE-RIDER
RATE CASE EXPENSE SURCHARGE

A. APPLICABILITY

The Rate Case Expense Surcharge (RCE) rate as set forth in Section (B) below is pursuant to Final Order in GUD 9790. This rate shall apply to the following rate schedules of Texas Gas Service Company in the incorporated and unincorporated areas served in Central Texas South Service Area including Cuero, Gonzales, Luling, Lockhart, Shiner, Yoakum and Nixon, Texas: 15, 25, 35, 1E, 2E, 3E, T-2 and T-3.

B. RCE RATE

All Ccf during each billing period: \$0.0119 per Ccf

This rate will be in effect until all approved and expended rate case expenses are recovered under the applicable rate schedules.

C. OTHER ADJUSTMENTS

Taxes: Plus applicable taxes and fees (including franchises fees) related to above.

WNA STX-ISOS

TEXAS GAS SERVICE COMPANY
South Texas Service Area - Central Texas Region
RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Cuero, Gonzales, Lockhart, Luling, Shiner, Yoakum and Nixon: 15 and 25 as well as general service rate schedules 1E and 2E for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, a Reconciliation Component, and applicable fees and taxes, including franchise fees.

2. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this cost of gas clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of franchise fees and applicable taxes and, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers

during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account during September an amount equal to the average balance multiplied by six percent (6%).

F. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement.

G. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the

DESCRIPTION

Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 5. A summary of charges related to uncollectible accounts as described in Section B. 5. (e). This report shall be filed concurrently with the Cost of Gas Statement for October.

H. FIXED COST OF PURCHASED GAS - PILOT PROGRAM The Company may elect to offer a fixed price program to a select or limited group of customers for a specific period of time in order to study the participation levels, billing capability, and management issues of such a program should it be offered on a larger scale in the future. In this program, the Company will purchase and designate a specific package of gas at a fixed price for the program. The Company will select a specific group of customers and offer them the option to switch to the fixed cost of purchased gas for the duration of the program. The customers who elect to participate in this program must participate in the program for the entire duration of the program. Customers who participate in this program will have a fixed cost of purchased gas component of the cost of gas but will still be responsible for other charges in the cost of gas clause. At the end of the program, the customers who participated in the program will receive normal cost of gas charges as described in this cost of gas clause. Any difference in the amount of gas purchased and designated for this program and the amount of gas consumed by the participants in the program will be considered as gas purchased by the Company to provide service to general service customers as described in B. 5. Reconciliation Audit and B. 7.Reconciliation Account of this Cost of Gas clause. Participants in this plan may be required to sign up or the ABC Plan.

DESCRIPTION

operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9282

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Cuero, Gonzales, Lockhart, Luling, Shiner, Yoakum and Nixon: 15 and 25 as well as general service rate schedules 1E and 2E for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

TEXAS GAS SERVICE COMPANY
 South Texas Service Area - Central Texas Region
 RATE SCHEDULE 5-INC
 COST OF GAS CLAUSE

A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its South Texas Service Area including Cuero, Gonzales, Luling, Lockhart, Shiner, Yoakum and Nixon.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, a Reconciliation Component, and applicable fees and taxes, including franchise fees.
2. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this cost of gas clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of franchise fees and applicable taxes and, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and

TARIFF CODE: DS RRC TARIFF NO: 9283

RATE SCHEDULESCHEDULE IDDESCRIPTION

unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of franchise fees and applicable taxes, and (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account during September an amount equal to the average balance multiplied by six percent (6%).

F. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9283

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement.

G. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 5. A summary of charges related to uncollectible accounts as described in Section B. 5. (e). This report shall be filed concurrently with the Cost of Gas Statement for October.

H. FIXED COST OF PURCHASED GAS - PILOT PROGRAM The Company may elect to offer a fixed price program to a select or limited group of customers for a specific period of time in order to study the participation levels, billing capability, and management issues of such a program should it be offered on a larger scale in the future. In this program, the Company will purchase and designate a specific package of gas at a fixed price for the program. The Company will select a specific group of customers and offer them the option to switch to the fixed cost of purchased gas for the duration of the program. The customers who elect to participate in this program must participate in the program for the entire duration of the program. Customers who participate in this program will have a fixed cost of purchased gas component of the cost of gas but will still be responsible for other charges in the cost of gas clause. At the end of the program, the customers who participated in the program will receive normal cost of gas charges as described in this cost of gas clause. Any difference in the amount of gas purchased and designated for this program and the amount of gas consumed by the participants in the program will be considered as gas purchased by the Company to provide service to general service customers as described in B. 5. Reconciliation Audit and B. 7.Reconciliation Account of this Cost of Gas clause. Participants in this plan may be required to sign up or the ABC Plan.

DESCRIPTION

Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a

natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNA STX-ISOS

TEXAS GAS SERVICE COMPANY
South Texas Service Area - Central Texas Region
RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Cuero, Gonzales, Lockhart, Luling, Shiner, Yoakum and Nixon: 15 and 25 as well as general service rate schedules 1E and 2E for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

 RATE SCHEDULE 5
 COST OF GAS CLAUSE

A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) currently in force in the Company's South Texas Service Area within the unincorporated areas of Cuero, Gonzales, Luling, Lockhart, Shiner, Yoakum and Nixon, Texas.

B. DEFINITIONS
 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, a Reconciliation Component and related

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9284

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

fees and taxes.

2. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3 of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of fees and taxes, and (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

operation of this Cost of Gas Clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of fees and applicable taxes, and (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account during September an amount equal to the average balance multiplied by six percent (6%).

F. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; (d) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (e) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement.

G. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year

DESCRIPTION

and the status of the operations of the Cost of Gas Clause to date. 4. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 5. A summary of charges related to uncollectible accounts as described in Section B. 5. (e). This report shall be filed concurrently with the Cost of Gas Statement for October.

H. FIXED COST OF PURCHASED GAS - PILOT PROGRAM The Company may elect to offer a fixed price program to a select or limited group of customers for a specific period of time in order to study the participation levels, billing capability, and management issues of such a program should it be offered on a larger scale in the future. In this program, the Company will purchase and designate a specific package of gas at a fixed price for the program. The Company will select a specific group of customers and offer them the option to switch to the fixed cost of purchased gas for the duration of the program. The customers who elect to participate in this program must participate in the program for the entire duration of the program. Customers who participate in this program will have a fixed cost of purchased gas component of the cost of gas but will still be responsible for other charges in the Cost of Gas Clause. At the end of the program, the customers who participated in the program will receive normal cost of gas charges as described in this Cost of Gas Clause. Any difference in the amount of gas purchased and designated for this program and the amount of gas consumed by the participants in the program will be considered as gas purchased by the Company to provide service to general service customers as described in B. 5. Reconciliation Audit and B. 7. Reconciliation Account of this Cost of Gas Clause. Participants in this plan may be required to sign up for the ABC Plan.

RATE SCHEDULESCHEDULE IDDESCRIPTION

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, a Reconciliation Component and related fees and taxes.

2. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3 of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions

of this Cost of Gas Clause reduced by the amount of fees and taxes, and (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of fees and applicable taxes, and (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account during September an amount equal to the average balance multiplied by six percent (6%).

F. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; (d) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (e) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement.

G. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type

GAS SERVICES DIVISION

DESCRIPTION

of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 5. A summary of charges related to uncollectible accounts as described in Section B. 5. (e). This report shall be filed concurrently with the Cost of Gas Statement for October.

H. FIXED COST OF PURCHASED GAS - PILOT PROGRAM The Company may elect to offer a fixed price program to a select or limited group of customers for a specific period of time in order to study the participation levels, billing capability, and management issues of such a program should it be offered on a larger scale in the future. In this program, the Company will purchase and designate a specific package of gas at a fixed price for the program. The Company will select a specific group of customers and offer them the option to switch to the fixed cost of purchased gas for the duration of the program. The customers who elect to participate in this program must participate in the program for the entire duration of the program. Customers who participate in this program will have a fixed cost of purchased gas component of the cost of gas but will still be responsible for other charges in the Cost of Gas Clause. At the end of the program, the customers who participated in the program will receive normal cost of gas charges as described in this Cost of Gas Clause. Any difference in the amount of gas purchased and designated for this program and the amount of gas consumed by the participants in the program will be considered as gas purchased by the Company to provide service to general service customers as described in B. 5. Reconciliation Audit and B. 7. Reconciliation Account of this Cost of Gas Clause. Participants in this plan may be required to sign up for the ABC Plan.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9285

RATE SCHEDULESCHEDULE IDDESCRIPTION

calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the

RATE SCHEDULE RCE-RIDER
RATE CASE EXPENSE SURCHARGE

A. APPLICABILITY

The Rate Case Expense Surcharge (RCE) rate as set forth in Section (B) below is pursuant to Final Order in GUD 9790. This rate shall apply to the following rate schedules of Texas Gas Service Company in the incorporated and unincorporated areas served in Central Texas South Service Area including Cuero, Gonzales, Luling, Lockhart, Shiner, Yoakum and Nixon, Texas: 15, 25, 35, 1E, 2E, 3E, T-2 and T-3.

B. RCE RATE

All Ccf during each billing period: \$0.0119 per Ccf

This rate will be in effect until all approved and expended rate case expenses are recovered under the applicable rate schedules.

C. OTHER ADJUSTMENTS

Taxes: Plus applicable taxes and fees (including franchises fees) related to above.

D. CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

WNA STX-ISOS

TEXAS GAS SERVICE COMPANY
South Texas Service Area - Central Texas Region
RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Cuero, Gonzales, Lockhart, Luling, Shiner, Yoakum and Nixon:

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9285

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

15 and 25 as well as general service rate schedules 1E and 2E for the unincorporated areas. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

TEXAS GAS SERVICE COMPANY
South Texas Service Area - Central Texas Region
RATE SCHEDULE 5
COST OF GAS CLAUSE

A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) currently in force in the Company's South Texas Service Area within the unincorporated areas of Cuero, Gonzales, Luling, Lockhart, Shiner, Yoakum and Nixon, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9286

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

clause, consisting of the Commodity Cost, a Reconciliation Component and related fees and taxes.

2. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3 of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of fees and taxes, and (c) the total amount of refunds made to customers during the period and any other revenues

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalance provisions under the transportation rate schedule(s) net of fees and applicable taxes, and (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period.

C. **COST OF GAS** In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. **DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT** If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. **PAYMENT FOR FUNDS** Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account during September an amount equal to the average balance multiplied by six percent (6%).

F. **COST OF GAS STATEMENT** The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the Reconciliation Component; (d) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and (e) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement.

G. **ANNUAL RECONCILIATION REPORT** The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas

Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 5. A summary of charges related to uncollectible accounts as described in Section B. 5. (e). This report shall be filed concurrently with the Cost of Gas Statement for October.

H. FIXED COST OF PURCHASED GAS - PILOT PROGRAM The Company may elect to offer a fixed price program to a select or limited group of customers for a specific period of time in order to study the participation levels, billing capability, and management issues of such a program should it be offered on a larger scale in the future. In this program, the Company will purchase and designate a specific package of gas at a fixed price for the program. The Company will select a specific group of customers and offer them the option to switch to the fixed cost of purchased gas for the duration of the program. The customers who elect to participate in this program must participate in the program for the entire duration of the program. Customers who participate in this program will have a fixed cost of purchased gas component of the cost of gas but will still be responsible for other charges in the Cost of Gas Clause. At the end of the program, the customers who participated in the program will receive normal cost of gas charges as described in this Cost of Gas Clause. Any difference in the amount of gas purchased and designated for this program and the amount of gas consumed by the participants in the program will be considered as gas purchased by the Company to provide service to general service customers as described in B. 5. Reconciliation Audit and B. 7. Reconciliation Account of this Cost of Gas Clause. Participants in this plan may be required to sign up for the ABC Plan.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3,

of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Andrews, Texas

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9287

RATE SCHEDULESCHEDULE IDDESCRIPTION

Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this cost of gas clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

2. Commodity Cost - The cost of purchased gas multiplied by the Purchase Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extended to the next following June). The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9287

RATE SCHEDULESCHEDULE IDDESCRIPTION

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9287

RATE SCHEDULESCHEDULE IDDESCRIPTION

longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the Andrews, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.

DESCRIPTION

2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.

3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1993 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Andrews-OS-COG	TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region
1	RATE SCHEDULE NO. COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Andrews, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this cost of gas clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
2. Commodity Cost - The cost of purchased gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extended to the next following June). The audit shall determine:	
(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9288

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the Andrews, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

DESCRIPTION

(e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1993 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
	<p>operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Andrews-OS-COG	TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region
1	RATE SCHEDULE NO. COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Andrews, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this cost of gas clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
2. Commodity Cost - The cost of purchased gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extended to the next following June). The audit shall determine:	
(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9289

RATE SCHEDULESCHEDULE IDDESCRIPTION

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the Andrews, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1993 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

DESCRIPTION

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Andrews-OS-COG	TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region
1	RATE SCHEDULE NO. COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Andrews, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this cost of gas clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
2. Commodity Cost - The cost of purchased gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extended to the next following June). The audit shall determine:	
(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9290

RATE SCHEDULESCHEDULE IDDESCRIPTION

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the Andrews, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1993 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

PIPELINE SAFETY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE
TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS
CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY
Rule 8.201 Pipeline Safety Program Fees

(a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety program

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9290

RATE SCHEDULESCHEDULE IDDESCRIPTION

fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2008 the annual pipeline safety program fee, effective with meters read on and after March 31, 2008, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-Andrews-OS-COG	TEXAS GAS SERVICE COMPANY Andrews Service Area - West Texas Region
1	RATE SCHEDULE NO. COST OF GAS CLAUSE
A. APPLICABILITY	
This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Andrews, Texas Service Area.	
B. DEFINITIONS	
1. Cost of Gas - The rate per billing unit or the total calculation under this cost of gas clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
2. Commodity Cost - The cost of purchased gas multiplied by the Purchase Sales Ratio.	
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the reconciliation audit.	
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve month period (the period covered by such review for the initial year of operation of this clause shall begin with the month in which this clause first becomes effective and extended to the next following June). The audit shall determine:	
(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those

revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchases/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedule, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation, for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If, on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the Andrews, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

DESCRIPTION

(e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. PRIOR BALANCE

Any over recovered or under recovered balance in the correcting account, as provided for by the purchased gas adjustment clause in effect prior to the effective date of this cost of gas clause, remaining at the end of the month in which this clause becomes effective shall be divided by the general service sales volumes (adjusted for the effects of weather, growth, and conservation) sold during the period commencing with the month in which this clause first becomes effective and extending through the next following September. The result of this division will be included in the Cost of Gas for the second month succeeding the month in which this clause becomes effective, and each month thereafter through the month of September 1993 as the initial Reconciliation Component. The Cost of Gas for the first month succeeding the month in which this clause becomes effective shall contain no Reconciliation Component.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each

DESCRIPTION

operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9292

RATE SCHEDULESCHEDULE IDDESCRIPTION

This Cost of Gas Clause shall apply to all rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Crane, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August 1984. The audit for this period shall determine:

(a) the balance of the correcting account by August 31, 1983,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9292

RATE SCHEDULESCHEDULE IDDESCRIPTION

(b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,

(d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and

(e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9292

RATE SCHEDULESCHEDULE IDDESCRIPTION

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the El Paso, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues gathered by the

Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-Crane-OS-COG		TEXAS GAS SERVICE
	COMPANY	
		Crane Service Area - West
	Texas Region	
		RATE SCHEDULE
	NO. 1	
		COST OF GAS
	CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Crane, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.	
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9293

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August 1984. The audit for this period shall determine:

(a) the balance of the correcting account by August 31, 1983,

(b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,

(d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and

(e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9293

RATE SCHEDULESCHEDULE IDDESCRIPTION

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9293

RATE SCHEDULESCHEDULE IDDESCRIPTION

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the El Paso, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,

DESCRIPTION

due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-Crane-OS-COG		TEXAS GAS SERVICE
	COMPANY	
		Crane Service Area - West
	Texas Region	
		RATE SCHEDULE
	NO. 1	
		COST OF GAS
	CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Crane, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.	
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9294

RATE SCHEDULESCHEDULE IDDESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August 1984. The audit for this period shall determine:

(a) the balance of the correcting account by August 31, 1983,

(b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,

(d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and

(e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9294

RATE SCHEDULESCHEDULE IDDESCRIPTION

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9294

RATE SCHEDULESCHEDULE IDDESCRIPTION

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the El Paso, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall

calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-Crane-OS-COG		TEXAS GAS SERVICE
	COMPANY	
		Crane Service Area - West
	Texas Region	
		RATE SCHEDULE
	NO. 1	
		COST OF GAS
	CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Crane, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.	
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9295

RATE SCHEDULESCHEDULE IDDESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August 1984. The audit for this period shall determine:

(a) the balance of the correcting account by August 31, 1983,

(b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,

(d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and

(e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9295

RATE SCHEDULESCHEDULE IDDESCRIPTION

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9295

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the El Paso, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE
SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION
PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
establishes a pipeline safety inspection fee, to be assessed annually against
operators of natural gas distribution pipelines and pipeline facilities and natural
gas master metered pipelines and pipeline facilities subject to the Commission's
pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
amount of revenue estimated to be collected under this section does not exceed the
amount the Commission estimates to be necessary to recover the costs of
administering the pipeline safety program under Texas Utilities Code, Chapter 121,
excluding costs that are fully funded by federal sources, for any fiscal year.
(b) The Commission hereby assesses each operator of a natural gas distribution
system an annual pipeline safety program fee of \$0.50 for each service (service
line) reported to be in service at the end of each calendar year by each system
operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
of each year. (1) Each operator of a natural gas distribution system shall
calculate the total amount of the annual pipeline safety program fee to be paid to
the Commission by multiplying the number of services listed in Part B, Section 3,
of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
a natural gas distribution system shall remit to the Commission on March 15 of each

DESCRIPTION

year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-Crane-OS-COG		TEXAS GAS SERVICE
	COMPANY	
		Crane Service Area - West
	Texas Region	
		RATE SCHEDULE
	NO. 1	
		COST OF GAS
	CLAUSE	
	A. APPLICABILITY	
	This Cost of Gas Clause shall apply to all rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its Crane, Texas Service Area.	
	B. DEFINITIONS	
	1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.	
	2. Purchase Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.	
	3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.	
	4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9296

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August 1984. The audit for this period shall determine:

(a) the balance of the correcting account by August 31, 1983,

(b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,

(d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and

(e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9296

RATE SCHEDULESCHEDULE IDDESCRIPTION

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9296

RATE SCHEDULESCHEDULE IDDESCRIPTION

For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

- (a) the El Paso, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e).

The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and

CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9297

RATE SCHEDULESCHEDULE IDDESCRIPTION

This Cost of Gas Clause shall apply to all rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its McCamey, Texas Service Area.

B. DEFINITIONS

1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.

2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.

4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August, 1984. The audit for this period shall determine:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9297

RATE SCHEDULESCHEDULE IDDESCRIPTION

- (a) the balance of the correcting account at August 31, 1983,
- (b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,
- (c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,
- (d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and
- (e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.
6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.
7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,
- (a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,
- (b) the revenues produced by the operation of this Cost of Gas Clause, and
- (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning

RATE SCHEDULESCHEDULE IDDESCRIPTION

with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the El Paso, Texas Cost of Purchased Gas;

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

DESCRIPTION

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-McCamey-OS-COG	TEXAS GAS SERVICE COMPANY Texas Region McCamey Service Area - West NO. 1 RATE SCHEDULE CLAUSE COST OF GAS
A. APPLICABILITY	
<p>This Cost of Gas Clause shall apply to all rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its McCamey, Texas Service Area.</p>	
B. DEFINITIONS	
<p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.</p>	
<p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.</p>	
<p>3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p>	
<p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.</p>	
<p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine</p>

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August, 1984. The audit for this period shall determine:

(a) the balance of the correcting account at August 31, 1983,

(b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,

(d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and

(e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

TARIFF CODE: DS RRC TARIFF NO: 9298

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

GAS SERVICES DIVISION

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the El Paso, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.

2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.

3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

DESCRIPTION

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last

SCHEDULE IDDESCRIPTION

the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August, 1984. The audit for this period shall determine:

(a) the balance of the correcting account at August 31, 1983,

(b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,

(d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and

(e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

TARIFF CODE: DS RRC TARIFF NO: 9299

RATE SCHEDULESCHEDULE IDDESCRIPTION

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

- (1) over the same period of time as the over or under charge occurred,
- (2) over the same number of units sold during the period of the over or under charge, or
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.
- G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth
- (a) the El Paso, Texas Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.
- H. ANNUAL RECONCILIATION REPORT
- The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:
1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.
 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
 3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

DESCRIPTION

amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-McCamey-OS-COG	TEXAS GAS SERVICE COMPANY Texas Region McCamey Service Area - West NO. 1 RATE SCHEDULE CLAUSE COST OF GAS
A. APPLICABILITY	
<p>This Cost of Gas Clause shall apply to all rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its McCamey, Texas Service Area.</p>	
B. DEFINITIONS	
<p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.</p>	
<p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.</p>	
<p>3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p>	
<p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.</p>	
<p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine</p>

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August, 1984. The audit for this period shall determine:

(a) the balance of the correcting account at August 31, 1983,

(b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,

(d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and

(e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

TARIFF CODE: DS RRC TARIFF NO: 9300

RATE SCHEDULESCHEDULE IDDESCRIPTION

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the El Paso, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.

2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.

3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-McCamey-OS-COG	TEXAS GAS SERVICE COMPANY Texas Region McCamey Service Area - West NO. 1 RATE SCHEDULE CLAUSE COST OF GAS
A. APPLICABILITY	
<p>This Cost of Gas Clause shall apply to all rate schedules of Texas Gas Service Company (The Company) in the unincorporated area of its McCamey, Texas Service Area.</p>	
B. DEFINITIONS	
<p>1. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable.</p>	
<p>2. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by the Company during each twelve (12) month period ending June 30 by the sum of the volumes sold to customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. For the purpose of this computation, all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.</p>	
<p>3. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p>	
<p>4. Cost of Gas - The rate per billing unit or the total calculation under this Cost of Gas Clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.</p>	
<p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the accounting month of August to determine</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

the amount of over or under collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of gas purchases or operation of this Cost of Gas Clause, and

(d) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. The period covered by the Reconciliation Audit for the initial year of operation of this clause shall begin with the month of September, 1983 and extend through the month of August, 1984. The audit for this period shall determine:

(a) the balance of the correcting account at August 31, 1983,

(b) the total amount paid for gas purchased by the Company to provide service to its customers during the period,

(c) the sum of revenues received during the period from operation of the provisions of this Cost of Gas Clause and the Cost of Gas Adjustment and base cost of gas provisions in effect prior to this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid on these revenues,

(d) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company during the period as a result of gas purchases or operation of this Cost of Gas Clause or the Cost of Gas Adjustment provision in effect prior to this Cost of Gas Clause, and

(e) an adjustment, if necessary for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of this Cost of Gas Clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas as recorded on the Company's books and records,

(b) the revenues produced by the operation of this Cost of Gas Clause, and

TARIFF CODE: DS RRC TARIFF NO: 9301

RATE SCHEDULESCHEDULE IDDESCRIPTION

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its rate schedule(s), the Company shall bill each customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the sales volumes, adjusted for the effects of weather, growth, and conservation, for the last preceding period including the December billing cycle through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR USE OF FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If the sum of the monthly balances reflects an overcollection during the period, the Company shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If the sum of the monthly balances reflects an undercollection during the period, the Company shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its customers. Similarly, the Company may surcharge its customers for retroactive payments made for gas previously delivered into the system. If the payment or refund related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the sales, adjusted for known changes including the effects of weather, growth, and conservation, made during the applicable period. With regard to amounts received or paid that are applicable to periods less than twelve (12) consecutive months, the Company may at its option refund or collect such amounts

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

(1) over the same period of time as the over or under charge occurred,

(2) over the same number of units sold during the period of the over or under charge, or

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial Statement as soon as is reasonably possible.) The Cost of Gas Statement shall set forth

(a) the El Paso, Texas Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees and taxes to be applied to revenues gathered by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending August 31.

2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.

3. A summary of all other costs and refunds made during the year and the status of the Reconciliation Account. This report shall be filed concurrently with the Cost of Gas Statement for December.

I. TRANSITION ADJUSTMENTS

Prior to the beginning of the month of December next succeeding the effective month of this clause the Company shall determine the appropriate adjustments to be made to assure that no over or under collection of the cost of purchased gas results from the transition to this clause. The details of these adjustments, if any, shall be filed with the regulatory authority concurrently with the first annual Reconciliation Report.

system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to

amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee

APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Galveston Service Area: 10, 12, 13, 20, 22, 23, 40, 42, 43. The WNC rate shall be computed and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-date weather information for annual periods beginning with September and ending with the last day of the following May billing cycle. The WNC adjustment shall be based on the following formula: $WNC\ Rate = WNC / CMV$, where $WNC = (HL / WF) - HL * BR - C + R$, where HL = Year-to-date heating load volumes; WF = Weather Factor = Year-to-date actual degree days divided by the year-to-date normal degree days; BR = Base Rate = The current base rate for the particular code; C = Year-to-date collections; R = Year-to-date refunds; CMV = Current month volumes. D. FILING WITH THE CITIES The Company will file with the Cities bi-weekly reports showing the current rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. DESCRIPTION

Galveston Service Area

- Gulf Coast Region

RATE

SCHEDULE 1-1

COST OF SERVICE

ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.

B. INTENT

The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.

C. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9306

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9306

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:
 Changes in Return on Investment Plus:
 Changes in Federal Income Taxes
 Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

TEXAS GAS SERVICE

COMPANY

Galveston Service Area

- Gulf Coast Region

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9306

RATE SCHEDULESCHEDULE IDDESCRIPTION

amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9306

RATE SCHEDULESCHEDULE IDDESCRIPTION

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9306

RATE SCHEDULESCHEDULE IDDESCRIPTION

the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9307

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

TARIFF CODE: DS RRC TARIFF NO: 9307

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:
 Changes in Return on Investment Plus:
 Changes in Federal Income Taxes
 Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

TARIFF CODE: DS RRC TARIFF NO: 9307

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per

DESCRIPTION

master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNC-GalvSvcA-IS

TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region RATE SCHEDULE WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Galveston Service Area: 10, 12, 13, 20, 22, 23, 40, 42, 43. The WNC rate shall be computed and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-date weather information for annual periods beginning with September and ending with the last day of the following May billing cycle. The WNC adjustment shall be based on the following formula: WNC Rate = WNC/D, where CMV WNC/D = Weather Normalization Clause Dollars to be collected from each billing district, by rate class. This factor shall be based on the following formula: WNC/D = [(HL/WF) - HL] *BR - C + R, where HL = Year-to-date heating load volumes; WF = Weather Factor = Year-to-date actual degree days divided by the year-to-date normal degree days; BR = Base Rate = The current base rate for the particular code; C = Year-to-date collections; R = Year-to-date refunds; CMV = Current month volumes. D. FILING WITH THE CITIES The Company will file with the Cities bi-weekly reports showing the current rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. Supersedes Same Sheet Dated

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9308

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9308

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9308

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9308

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9308

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

DESCRIPTION

operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission

shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. 	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9309

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9309

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:
 Changes in Return on Investment Plus:
 Changes in Federal Income Taxes
 Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9309

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9309

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9309

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas

master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. <u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9310

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9310

RATE SCHEDULESCHEDULE IDDESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9310

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9310

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9310

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline
 Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission
 establishes a pipeline safety inspection fee, to be assessed annually against
 operators of natural gas distribution pipelines and pipeline facilities and natural
 gas master metered pipelines and pipeline facilities subject to the Commission's
 pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total
 amount of revenue estimated to be collected under this section does not exceed the
 amount the Commission estimates to be necessary to recover the costs of
 administering the pipeline safety program under Texas Utilities Code, Chapter 121,
 excluding costs that are fully funded by federal sources, for any fiscal year.
 (b) The Commission hereby assesses each operator of a natural gas distribution
 system an annual pipeline safety program fee of \$0.50 for each service (service
 line) reported to be in service at the end of each calendar year by each system
 operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15
 of each year. (1) Each operator of a natural gas distribution system shall
 calculate the total amount of the annual pipeline safety program fee to be paid to
 the Commission by multiplying the number of services listed in Part B, Section 3,
 of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,
 due to be filed on March 15 of each year, by \$0.50. (2) Each operator of
 a natural gas distribution system shall remit to the Commission on March 15 of each
 year, the amount calculated under paragraph (1) of this subsection. (3) Each
 operator of a natural gas distribution system shall recover, by a surcharge to its
 existing rates, the amount the operator paid to the Commission under paragraph (1)
 of this subsection. The surcharge: (A) shall be a flat rate, one-time
 surcharge; (B) shall not be billed before the operator remits the
 pipeline safety program fee to the Commission; (C) shall be applied in
 the billing cycle or cycles immediately following the date on which the operator
 paid the Commission; (D) shall not exceed \$0.50 per service or service
 line (For calendar year 2009 the annual pipeline safety program fee, effective with
 meters read on and after March 31, 2009, Texas Gas Service Company will bill all
 customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service
 line) ; and (E) shall not be billed to a state agency, as that term is
 defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the
 last billing cycle in which the pipeline safety program fee surcharge is billed to
 customers, each operator of a natural gas distribution system shall file with the
 Commission's Gas Services Division and the Safety Division a report showing:
 (A) the pipeline safety program fee amount paid to the Commission; (B)
 the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge. (5) Each
 operator of a natural gas distribution system that is a utility subject to the
 jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,
 shall file a generally applicable tariff for its surcharge in conformance with the
 requirements of 7.315 of this title, relating to Filing of Tariffs. (6)
 Amounts recovered from customers under this subsection by an investor-owned natural
 gas distribution system or a cooperatively owned natural gas distribution system
 shall not be included in the revenue or gross receipts of the system for the
 purpose of calculating municipal franchise fees or any tax imposed under Subchapter
 B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject
 to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3,

Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. <u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9311

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9311

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9311

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

TARIFF CODE: DS RRC TARIFF NO: 9311

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9311

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a

natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNC-GalvSvcA-IS

TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region RATE SCHEDULE WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Galveston Service Area: 10, 12, 13, 20, 22, 23, 40, 42, 43. The WNC rate shall be computed and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-date weather information for annual periods beginning with September and ending with the last day of the following May billing cycle. The WNC adjustment shall be based on the following formula: WNC Rate = WNC/D, where CMV WNC/D = Weather Normalization Clause Dollars to be collected from each billing district, by rate class. This factor shall be based on the following formula: WNC/D = [(HL/WF) - HL] * BR - C + R, where HL = Year-to-date heating load volumes; WF = Weather Factor = Year-to-date actual degree days divided by the year-to-date normal degree days; BR = Base Rate = The current base rate for the particular code; C = Year-to-date collections; R = Year-to-date refunds; CMV = Current month volumes. D. FILING WITH THE CITIES The Company will file with the Cities bi-weekly reports showing the current rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9312

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9312

RATE SCHEDULESCHEDULE IDDESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

TEXAS GAS SERVICE

COMPANY

Galveston Service Area

- Gulf Coast Region

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9312

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9312

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9312

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission

shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNC-GalvSvcA-IS

TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region RATE SCHEDULE WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Galveston Service Area: 10, 12, 13, 20, 22, 23, 40, 42, 43. The WNC rate shall be computed and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-date weather information for annual periods beginning with September and ending with the last day of the following May billing cycle. The WNC adjustment shall be based on the following formula: $WNC\ Rate = WNC\ D$, where $CMV\ WNC\ D = Weather\ Normalization\ Clause\ Dollars\ to\ be\ collected\ from\ each\ billing\ district,\ by\ rate\ class.$ This factor shall be based on the following formula: $WNC\ D = [(HL/WF) - HL] * BR - C + R$, where $HL = Year-to-date\ heating\ load\ volumes;$ $WF = Weather\ Factor = Year-to-date\ actual\ degree\ days\ divided\ by\ the\ year-to-date\ normal\ degree\ days;$ $BR = Base\ Rate = The\ current\ base\ rate\ for\ the\ particular\ code;$ $C = Year-to-date\ collections;$ $R = Year-to-date\ refunds;$ $CMV = Current\ month\ volumes.$ D. FILING WITH THE CITIES The Company will file with the Cities bi-weekly reports showing the current rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. DESCRIPTION

Galveston Service Area

- Gulf Coast Region

RATE

SCHEDULE 1-1

COST OF SERVICE

ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.

B. INTENT

The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.

C. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9313

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9313

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9313

RATE SCHEDULESCHEDULE IDDESCRIPTION

amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9313

RATE SCHEDULESCHEDULE IDDESCRIPTION

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9313

RATE SCHEDULESCHEDULE IDDESCRIPTION

the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9314

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:
 Changes in Return on Investment Plus:
 Changes in Federal Income Taxes
 Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

TARIFF CODE: DS RRC TARIFF NO: 9314

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9314

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

TARIFF CODE: DS RRC TARIFF NO: 9314

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per

DESCRIPTION

master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNC-GalvSvcA-IS

TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region RATE SCHEDULE WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Galveston Service Area: 10, 12, 13, 20, 22, 23, 40, 42, 43. The WNC rate shall be computed and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-date weather information for annual periods beginning with September and ending with the last day of the following May billing cycle. The WNC adjustment shall be based on the following formula: WNC Rate = WNC/D, where CMV WNC/D = Weather Normalization Clause Dollars to be collected from each billing district, by rate class. This factor shall be based on the following formula: WNC/D = [(HL/WF) - HL] * BR - C + R, where HL = Year-to-date heating load volumes; WF = Weather Factor = Year-to-date actual degree days divided by the year-to-date normal degree days; BR = Base Rate = The current base rate for the particular code; C = Year-to-date collections; R = Year-to-date refunds; CMV = Current month volumes. D. FILING WITH THE CITIES The Company will file with the Cities bi-weekly reports showing the current rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. Supersedes Same Sheet Dated

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9315

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9315

RATE SCHEDULESCHEDULE IDDESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

GAS SERVICES DIVISION

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9315

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9315

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9315

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later

than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. 	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9316

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

- Depreciation and Amortization Expense (Account No. 403-405)
- *Taxes Other Than FIT (Account No. 408)
- **Distribution Expenses (Account Nos. 870-894)
- Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9316

RATE SCHEDULESCHEDULE IDDESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9316

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9316

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9316

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas

DESCRIPTION

master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9317

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9317

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:
 Changes in Return on Investment Plus:
 Changes in Federal Income Taxes
 Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9317

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9317

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9317

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

RATE SCHEDULESCHEDULE IDDESCRIPTION

SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual

DESCRIPTION

inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.	
	B. INTENT	
	The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9318

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9318

RATE SCHEDULESCHEDULE IDDESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9318

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9318

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9318

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a

natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNC-GalvSvcA-IS

TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region RATE SCHEDULE WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Galveston Service Area: 10, 12, 13, 20, 22, 23, 40, 42, 43. The WNC rate shall be computed and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-date weather information for annual periods beginning with September and ending with the last day of the following May billing cycle. The WNC adjustment shall be based on the following formula: WNC Rate = WNC/D, where CMV WNC/D = Weather Normalization Clause Dollars to be collected from each billing district, by rate class. This factor shall be based on the following formula: WNC/D = [(HL/WF) - HL] * BR - C + R, where HL = Year-to-date heating load volumes; WF = Weather Factor = Year-to-date actual degree days divided by the year-to-date normal degree days; BR = Base Rate = The current base rate for the particular code; C = Year-to-date collections; R = Year-to-date refunds; CMV = Current month volumes. D. FILING WITH THE CITIES The Company will file with the Cities bi-weekly reports showing the current rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE

 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9319

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

- Depreciation and Amortization Expense (Account No. 403-405)
- *Taxes Other Than FIT (Account No. 408)
- **Distribution Expenses (Account Nos. 870-894)
- Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

COMPANY

Galveston Service Area

- Gulf Coast Region

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9319

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

DESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission

shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNC-GalvSvcA-IS

TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region RATE SCHEDULE WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Galveston Service Area: 10, 12, 13, 20, 22, 23, 40, 42, 43. The WNC rate shall be computed and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-date weather information for annual periods beginning with September and ending with the last day of the following May billing cycle. The WNC adjustment shall be based on the following formula: $WNC\ Rate = WNC/D$, where $CMV\ WNC/D = Weather\ Normalization\ Clause\ Dollars\ to\ be\ collected\ from\ each\ billing\ district,\ by\ rate\ class.$ This factor shall be based on the following formula: $WNC/D = [(HL/WF) - HL] * BR - C + R$, where HL = Year-to-date heating load volumes; WF = Weather Factor = Year-to-date actual degree days divided by the year-to-date normal degree days; BR = Base Rate = The current base rate for the particular code; C = Year-to-date collections; R = Year-to-date refunds; CMV = Current month volumes. D. FILING WITH THE CITIES The Company will file with the Cities bi-weekly reports showing the current rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. Supersedes Same Sheet Dated Meters Read On and After July 1, 1993 August 1, 1996

RATE

SCHEDULE 1-1

COST OF SERVICE

ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.

B. INTENT

The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.

C. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9320

RATE SCHEDULESCHEDULE IDDESCRIPTION

actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9320

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related TaxesThe sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating ExpensesPlus:

Changes in Return on InvestmentPlus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate)

5. Cost of Service Adjustment RateThe amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9320

RATE SCHEDULESCHEDULE IDDESCRIPTION

audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9320

RATE SCHEDULESCHEDULE IDDESCRIPTION

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9320

RATE SCHEDULESCHEDULE IDDESCRIPTION

payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9321

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9321

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:
 Changes in Return on Investment Plus:
 Changes in Federal Income Taxes
 Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9321

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

TARIFF CODE: DS RRC TARIFF NO: 9321

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9321

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region
RATE SCHEDULE 23 COMMERCIAL SERVICE RATE APPLICABILITY Service under this rate schedule is available to any customer whose primary business activity at the location served is not provided for under any other rate schedule. TERRITORY All customers in the incorporated area of Bayou Vista, Texas. COST OF SERVICE RATE During each monthly billing period: A Customer Charge of \$15.00 plus - All Ccf per monthly billing @ \$.2467 per Ccf Other Applicable Schedules: In addition to the Cost of Service set forth above, each customer's bill shall include: 1. The Cost of Gas for the billing month as determined in accordance with Rate Schedule 1-INC. 2. Adjustments in accordance with provisions of the Weather Normalization Clause, Rate Schedule WNC. CURTAILABILITY Service under this rate schedule may be curtailed to protect service to residential customers in accordance with the Company's rules. Commercial customers using more than 15,000 Ccf in any month may be curtailed first in this class. OTHER CONDITIONS 1. Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority. 2. The rate schedule may be used for special unmetered service such as gas street lights. The total hourly rated consumption of all gas burning appliances included, expressed in Ccf, at the location, shall be multiplied by 731 to determine the average monthly consumption of the service. The result, rounded to the next highest Ccf shall then be billed the rates provided in this rate. Supersedes Same Rate Sheet Dated Meters Read On and After July 1, 2008 June 30, 2009

DESCRIPTION

establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per

DESCRIPTION

master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNC-GalvSvcA-IS

TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region RATE SCHEDULE WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Galveston Service Area: 10, 12, 13, 20, 22, 23, 40, 42, 43. The WNC rate shall be computed and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-date weather information for annual periods beginning with September and ending with the last day of the following May billing cycle. The WNC adjustment shall be based on the following formula: WNC Rate = WNC/D, where CMV WNC/D = Weather Normalization Clause Dollars to be collected from each billing district, by rate class. This factor shall be based on the following formula: WNC/D = [(HL/WF) - HL] *BR - C + R, where HL = Year-to-date heating load volumes; WF = Weather Factor = Year-to-date actual degree days divided by the year-to-date normal degree days; BR = Base Rate = The current base rate for the particular code; C = Year-to-date collections; R = Year-to-date refunds; CMV = Current month volumes. D. FILING WITH THE CITIES The Company will file with the Cities bi-weekly reports showing the current rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNC collections or refunds. Supersedes Same Sheet Dated

	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9322

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9322

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:
 Changes in Return on Investment Plus:
 Changes in Federal Income Taxes
 Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9322

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9322

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9322

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge. (5) Each

operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6)

Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per

master meter system no later than June 30 of each year. (2) The Commission

shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. <u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9323

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9323

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9323

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

TARIFF CODE: DS RRC TARIFF NO: 9323

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9323

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>	
	C. EFFECTIVE DATE	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9325

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9325

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9325

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

TARIFF CODE: DS RRC TARIFF NO: 9325

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9325

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a

natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. WNC-GalvSvcA-IS

TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region RATE SCHEDULE WNC WEATHER NORMALIZATION CLAUSE. APPLICABILITY The Weather Normalization Clause (WNC) shall apply to the following General Service rate schedules of Texas Gas Service Company in its Galveston Service Area: 10, 12, 13, 20, 22, 23, 40, 42, 43. The WNC rate shall be computed and adjusted monthly for each billing district. B. PURPOSE The WNC is designed to refund and/or surcharge over-collections and/or under-collections of revenue due to colder and/or warmer than normal weather, as established in the Company's most recent rate filing. C. WNC MECHANISM In order to reflect weather variances in a timely and accurate manner, the WNC rate shall be calculated separately for each billing district, by rate code. Monthly WNC adjustments shall be based upon year-to-date weather information for annual periods beginning with September and ending with the last day of the following May billing cycle. The WNC adjustment shall be based on the following formula: WNC Rate = WNC/D, where CMV WNC/D = Weather Normalization Clause Dollars to be collected from each billing district, by rate class. This factor shall be based on the following formula: WNC/D = [(HL/WF) - HL] *BR - C + R, where HL = Year-to-date heating load volumes; WF = Weather Factor = Year-to-date actual degree days divided by the year-to-date normal degree days; BR = Base Rate = The current base rate for the particular code; C = Year-to-date collections; R = Year-to-date refunds; CMV = Current month volumes. D. FILING WITH THE CITIES The Company will file with the Cities bi-weekly reports showing the current rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-1-GalSvA-IS-COSAdj		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area
	- Gulf Coast Region	
		RATE
	SCHEDULE 1-1	
		COST OF SERVICE
	ADJUSTMENT CLAUSE	
	A. APPLICABILITY	
	<p>This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas.</p>	
	B. INTENT	
	<p>The intent of the Cost of Service Adjustment Clause is to reduce the frequency of costly and lengthy general rate cases that both the Cities and the Company must endure in order to adjust rates. This clause is not intended to supplant the current ratemaking and regulatory process, but rather supplement this process. Full rate cases are generally called for when significant changes (either decreases or increases) have occurred in, for example, invested capital and equipment, operating costs, cost of capital, or the customer base. The impact of inflation or deflation on the overall well-being of the Company is constantly occurring, but may not warrant a full rate hearing until such time as one or more of these items has significantly changed and would thereby adversely affect the Company or the ratepayer. The mechanism for providing this interim relief is that of adjusting rates annually to reflect changes in the cost of service compared to the most recent rate case. Any rate adjustment is to be limited to the lesser of the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), published by the U.S. Bureau of Labor Statistics during the calendar year, and the actual percentage change in the revenue requirement after gross-ups, as described in Section D. The Clause is not intended to provide complete and total rate relief, but is to provide a measure of relief until such time as a complete rate case and rate design undertaking are warranted.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9326

RATE SCHEDULESCHEDULE IDDESCRIPTION

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than May 15, with rate adjustments to be effective the first billing cycle of July each year.

D. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. The actual percentage change in the revenue requirement after gross-ups in any year shall not exceed the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the current calendar year. The actual percentage change in the revenue requirement after gross-ups is computed by comparing the revenue requirement after gross-ups for the current calendar year to the revenue requirement after gross-ups for the prior calendar year. The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses - Operating expenses will be determined by the ending balances for the applicable calendar year.

The applicable expenses are:

Depreciation and Amortization Expense (Account No. 403-405)

*Taxes Other Than FIT (Account No. 408)

**Distribution Expenses (Account Nos. 870-894)

Customer Related Expenses (Account Nos. 901-916)

Administrative & General Expenses (Account Nos. 920-932, except 928)

Interest on Customer Deposits (Account No. 431)*

Based on last city-approved depreciation methods and lives.** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment - The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of:

Net Plant in ServicePlus:

Other Rate Base Items*Less:

Customer Deposits (Account No. 235)

Customer Advances (Account No. 252)

Contributions in Aid of Construction (Account No. 271)

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9326

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories, prepayments, and Petty Cash levels approved in the most recent general rate case.

3. Federal Income Taxes - Calendar year federal income taxes will be calculated as follows:

Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case)

Less:

Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base)

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

Less:

Investment Tax Credit (from most recent general rate case)

Excess:

Deferred Taxes (from most recent general rate case)

4. Revenue Related Taxes The sum of the calculations performed in compliance with the provisions of

Sections D.1, D.2, and D.3 will be adjusted by the revenue related tax factor based on the effective tax rates from the last general rate case calculated as follows:

Changes in Operating Expenses Plus:

Changes in Return on Investment Plus:

Changes in Federal Income Taxes

Multiplied By: Tax Factor (effective rate/(1-effective rate))

5. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections D.1 through D.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

E. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than forty-five (45) days within which to review the proposed annual rate adjustment prior to its taking effect with bills rendered on or after July 1st of each year. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9326

RATE SCHEDULESCHEDULE IDDESCRIPTION

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9326

RATE SCHEDULESCHEDULE IDDESCRIPTION

transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9326

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission

shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULESCHEDULE IDDESCRIPTION

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

- (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,
- (b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid on those revenues,
- (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
- (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9327

RATE SCHEDULESCHEDULE IDDESCRIPTION

volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
 (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
 (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9327

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

- (1) over the same period of time as the over- or under-charge occurred,
- (2) over the same number of units sold during the period of the over- or under-charge, or it may
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-GalvSvcA-OS-PGA		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area -
	Gulf Coast Region	
		RATE
	SCHEDULE 1	
		PURCHASED GAS ADJUSTMENT
	CLAUSE	
	A. APPLICABILITY	
	This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
	(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

on those revenues,
 (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
 (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
 (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
 (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9328

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9328

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source for month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-GalvSvcA-OS-PGA		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area -
	Gulf Coast Region	
		RATE
	SCHEDULE 1	
		PURCHASED GAS ADJUSTMENT
	CLAUSE	
	A. APPLICABILITY	
	This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
	(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9329

RATE SCHEDULESCHEDULE IDDESCRIPTION

on those revenues,
 (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
 (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
 (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
 (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9329

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9329

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source for month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6)

DESCRIPTION

Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-GalvSvcA-OS-PGA		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area -
	Gulf Coast Region	
		RATE
	SCHEDULE 1	
		PURCHASED GAS ADJUSTMENT
	CLAUSE	
	A. APPLICABILITY	
	This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
	(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9330

RATE SCHEDULESCHEDULE IDDESCRIPTION

on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9330

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9330

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the

DESCRIPTION

jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE ID	DESCRIPTION
PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE 1

PURCHASED GAS ADJUSTMENT

CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9331

RATE SCHEDULESCHEDULE IDDESCRIPTION

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

- (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,
- (b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid on those revenues,
- (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
- (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9331

RATE SCHEDULESCHEDULE IDDESCRIPTION

volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
 (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
 (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9331

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

- (1) over the same period of time as the over- or under-charge occurred,
- (2) over the same number of units sold during the period of the over- or under-charge, or it may
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall

include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9332

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9332

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source for month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. <u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-GalvSvcA-OS-PGA		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area -
	Gulf Coast Region	
		RATE
	SCHEDULE 1	
		PURCHASED GAS ADJUSTMENT
	CLAUSE	
	A. APPLICABILITY	
	This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
	(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9333

RATE SCHEDULESCHEDULE IDDESCRIPTION

on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9333

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9333

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source for month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9334

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9334

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

Company's rules and regulations on file with the regulatory authority.2. The rate schedule may be used for special unmetered service such as gas streetlights. The total hourly rated consumption of all gas burning appliances included, expressed in Ccf, at the location, shall be multiplied by 731 to determine the average monthly consumption of the service. The result, rounded to the next highest Ccf shall then be billed the rates provided in this rate. Supersedes Sheet Dated Bills Rendered On and After January 28, 1986 June 9, 1988

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the

DESCRIPTION

jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. SCHEDULE 1

PURCHASED GAS ADJUSTMENT

CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9335

RATE SCHEDULESCHEDULE IDDESCRIPTION

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

- (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,
- (b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid on those revenues,
- (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
- (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9335

RATE SCHEDULESCHEDULE IDDESCRIPTION

volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
 (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
 (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9335

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

- (1) over the same period of time as the over- or under-charge occurred,
- (2) over the same number of units sold during the period of the over- or under-charge, or it may
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall

SCHEDULE 2A

COMMERCIAL AIR

CONDITIONING SERVICE RATE

AVAILABILITY Service under this rate schedule is available to all commercial customers who have and regularly operate a gas fired air conditioning system. TERRITORY All of the Company's service area in the unincorporated areas of Galveston, Texas. COST OF SERVICE RATE During each monthly billing period: A Customer Charge of \$5.00 plus - Apr. - Oct. Nov. - Mar. All Ccf per monthly billing @ \$.0700 per Ccf \$.1384 per Ccf Cost of Gas Component: In addition to the Cost of Service set forth above, each customer's bill shall include an amount equal to the Cost of Gas for the billing month as determined in accordance with Rate Schedule No. 1 multiplied by the total Ccf consumed during the billing month. CURTAILABILITY Service under this rate schedule may be curtailed to protect service to residential customers in accordance with the Company's rules. Commercial customers using more than 15,000 Ccf in any month may be curtailed first in this class. OTHER CONDITIONS 1. Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority. 2. Service under this schedule applies only to usage from a separately metered gas-fired air conditioning system. Non-air conditioning usage is subject to the cost of service rate on Schedule 2Z. 3. Air conditioning equipment must be inspected and verified as to capacity by qualified company personnel. Initial Rate June 10, 1988

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-GalvSvcA-OS-PGA		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area -
	Gulf Coast Region	
		RATE
	SCHEDULE 1	
		PURCHASED GAS ADJUSTMENT
	CLAUSE	
	A. APPLICABILITY	
	This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
	(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9336

RATE SCHEDULESCHEDULE IDDESCRIPTION

on those revenues,
 (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
 (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
 (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
 (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9336

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9336

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source for the month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
	<p>(D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. <u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-GalvSvcA-OS-PGA		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area -
	Gulf Coast Region	
		RATE
	SCHEDULE 1	
		PURCHASED GAS ADJUSTMENT
	CLAUSE	
	A. APPLICABILITY	
	This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
	(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

on those revenues,
 (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
 (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
 (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
 (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9337

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9337

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source for the month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9338

RATE SCHEDULESCHEDULE IDDESCRIPTION

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

- (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,
- (b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid on those revenues,
- (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
- (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9338

RATE SCHEDULESCHEDULE IDDESCRIPTION

volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
 (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
 (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9338

RATE SCHEDULESCHEDULE IDDESCRIPTION

multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

- (1) over the same period of time as the over- or under-charge occurred,
- (2) over the same number of units sold during the period of the over- or under-charge, or it may
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall

include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9339

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9339

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source for the month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

DESCRIPTION

(D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>	
1-GalvSvcA-OS-PGA		TEXAS GAS SERVICE
	COMPANY	
		Galveston Service Area -
	Gulf Coast Region	
		RATE
	SCHEDULE 1	
		PURCHASED GAS ADJUSTMENT
	CLAUSE	
	A. APPLICABILITY	
	This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.	
	B. DEFINITIONS	
	1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.	
	2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.	
	3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.	
	4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.	
	5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:	
	(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,	
	(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid	

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9340

RATE SCHEDULESCHEDULE IDDESCRIPTION

on those revenues,
 (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
 (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
 (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
 (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9340

RATE SCHEDULESCHEDULE IDDESCRIPTION

revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9340

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source for the month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
C-1-GalSvA-ISOS-Cgen	<p>TEXAS GAS SERVICE COMPANY Galveston Service Area - Gulf Coast Region RATE SCHEDULE C-1 ELECTRICAL COGENERATION AND ENERGY CONSERVATION SERVICE</p> <p>RATEAPPLICABILITY Service under this rate schedule is available to any customer who enters into a contract with the Company to use natural gas for the purpose of cogeneration. Cogeneration is defined as the use of thermal energy to produce electricity with recapture of by-product heat in the form of steam, exhaust heat, etc. for industrial process use, space heating, food processing or other purposes.TERRITORY This rate shall be available throughout the Company's Galveston Service Area.COST OF SERVICE RATEDuring each monthly billing period: Oct. - April May - Sept. Winter Summer A Customer Charge of \$100.00 per meter plus - For the first 5,000 Ccf/Month - \$.1139 \$.0854For the next 15,000 Ccf/Month - \$.1071 \$.0803For the next 30,000 Ccf/Month - \$.0968 \$.0726All Over 50,000 Ccf/Month - \$.0797 \$.0598COST OF GASIn addition to the cost of service set forth above, each customer's bill shall include the Cost of Gas for the billing month determined in accordance with the provisions of the Cost of Gas Clause, Rate Schedule No. 1 for unincorporated areas and Rate Schedule No. 1-INC for incorporated areas..CONDITIONS1. Gas taken under this rate shall be used exclusively for the purpose of cogeneration as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered.2. This rate will not be available for standby use. 3. For the purpose of this rate, the annual load factor must be 60 percent or greater. The annual load factor is defined as the customer's total annual consumption divided by the customer's peak month consumption times twelve. If less than a 60 percent load factor occurs for a twelve month period, the rate charged will revert back to the rate that the customer would have otherwise been served under. A continuous twelve month period of 60 percent or better load factor must precede a return to the cogeneration rate.4. To qualify for the summer discounts, the customer's peak summer month's load must be at least 75% of the customer's peak winter month's load. Failure to meet this requirement will result in an adjustment to the customer's October bill equal to the difference between the winter and summer rates times that years total May through September consumption by that customer.5. The curtailment priority of any customer served under this rate schedule shall be the same as the curtailment priority which would pertain if gas were used directly to provide energy for uses as defined and listed in paragraph 14.2 of the Company's Texas Rules of Service.6. Subject in all respects to applicable laws, rules and regulations from time to time in effect. September 16, 1986</p>

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas

TEXAS GAS SERVICE

COMPANY

Galveston Service Area -

Gulf Coast Region

RATE

SCHEDULE 1

PURCHASED GAS ADJUSTMENT

CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9341

RATE SCHEDULESCHEDULE IDDESCRIPTION

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

- (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,
- (b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid on those revenues,
- (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and
- (d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

- (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
- (b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9341

RATE SCHEDULESCHEDULE IDDESCRIPTION

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9341

RATE SCHEDULESCHEDULE IDDESCRIPTION

effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

- (1) over the same period of time as the over- or under-charge occurred,
- (2) over the same number of units sold during the period of the over- or under-charge, or it may
- (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

RATE

SCHEDULE 1-INC

PURCHASED GAS

ADJUSTMENT CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9341

RATE SCHEDULESCHEDULE IDDESCRIPTION

franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9341

RATE SCHEDULESCHEDULE IDDESCRIPTION

contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

(a) the Cost of Purchased Gas;

(b) that cost multiplied by the Purchase/Sales Ratio;

(c) the amount of the cost of gas caused by any surcharge or refund;

(d) the Reconciliation Component;

(e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and

(f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.

2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.

The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the</p>

DESCRIPTION

pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. TEXAS GAS SERVICE

COMPANY

Galveston Service Area -

Gulf Coast Region

RATE

SCHEDULE 1

PURCHASED GAS ADJUSTMENT

CLAUSE

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

- (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,
- (b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees and taxes paid on those revenues,
- (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9342

RATE SCHEDULESCHEDULE IDDESCRIPTION

or operation of this purchased gas adjustment clause, and
(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,
(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and
(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9342

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,
 (2) over the same number of units sold during the period of the over- or under-charge, or it may
 (3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9342

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for

RATE SCHEDULESCHEDULE IDDESCRIPTION

volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9342

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9342

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. PURCHASED GAS

ADJUSTMENT CLAUSE

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9343

RATE SCHEDULESCHEDULE IDDESCRIPTION

A. APPLICABILITY

This purchased gas adjustment clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of its Galveston Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this purchased gas adjustment clause, consisting of the commodity cost, a reconciliation component and related fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June determined by the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over- or under-collection occurring during such twelve month period. The audit shall determine:

(a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period,

(b) the revenues received from operation of the provisions of this purchased gas adjustment clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues,

(c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this purchased gas adjustment clause, and

(d) an adjustment, if necessary, for lost and unaccounted-for gas during the period which exceeds five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes metered into the Company's Galveston area system for sales and transportation customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers and delivered to transportation customers and the known volumes of gas that may be otherwise accounted for, including but not limited to Company used gas, liquid extraction, meter errors due to inaccurate calibration or temperature fluctuations and accidental discharges of gas from the Company's system during the same period. All transportation customers shall pay for lost and

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9343

RATE SCHEDULESCHEDULE IDDESCRIPTION

unaccounted-for gas based on the difference between measured volumes and volumes multiplied by the purchase/sales ratio computed for the Galveston area distribution system in the previous reconciliation audit. Credit for lost and unaccounted for volumes invoiced to transportation customers for payment in kind shall reduce the volumes purchased for system supply. For the purpose of this computation, all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that, over time, it will neither over- nor under-collect revenues as a result of the operation of the purchased gas adjustment clause. Entries shall be made monthly to reflect,

(a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records,

(b) the revenues produced by the operation of this purchased gas adjustment clause including credit for lost and unaccounted-for gas revenues as invoiced to transportation customers for payment at system weighted average cost of gas, and

(c) refunds, payments, or charges provided for herein or as approved by the regulatory authority.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. The cost of gas shall be adjusted monthly considering all items listed in paragraph G of this tariff so as to minimize the balance in the reconciliation account on an annual basis. Notwithstanding anything herein to the contrary, in addition to the Cost of Gas, the Company shall bill each general service customer in the incorporated areas of Galveston and Bayou Vista only, a surcharge of \$0.06 per Ccf during the billing period in accordance with the Settlement Agreement and Release dated February 15, 2001 by and among the Company and the Cities represented in the Class Action Lawsuit known as Cause No. C-4558-95-G-2 (Settlement Agreement). The Surcharge shall be effective only until the Settlement payments allocated to each of the incorporated areas of Galveston and Bayou Vista, in accordance with the Settlement Agreement, are collected by the Company.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9343

RATE SCHEDULESCHEDULE IDDESCRIPTION

beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by nine percent (9%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's suppliers are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. If the payment or refund is related to gas purchased by the Company for a period of twelve (12) consecutive months or longer, the total amount recovered or refunded shall be divided by the general service sales, adjusted for known changes including the effects of weather, growth, and conservation, made to general service customers during the applicable period. With regard to amounts received or paid that are applicable to a period less than twelve (12) consecutive months, the Company may, at its option, refund or collect such amounts

(1) over the same period of time as the over- or under-charge occurred,

(2) over the same number of units sold during the period of the over- or under-charge, or it may

(3) include the entire amount in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

DESCRIPTION

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth

- (a) the Cost of Purchased Gas;
- (b) that cost multiplied by the Purchase/Sales Ratio;
- (c) the amount of the cost of gas caused by any surcharge or refund;
- (d) the Reconciliation Component;
- (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and
- (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily limited to:

1. A tabulation of volumes of gas metered into the system for sale or transportation and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and transportation volumes delivered and related purchased gas adjustment clause revenues.
3. A summary of all other costs and refunds made during the year and the status of the operations of the purchased gas adjustment clause for the year to date. This report shall be filed on or before October 1 of each year.

CAC-CTX-IS-Conser	<p>TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE CAC CONSERVATION ADJUSTMENT CLAUSE A. APPLICABILITY The Conservation Adjustment Clause (CAC) shall apply to all rate schedules of Texas Gas Service Company (Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. The CAC rate shall be adjusted annually and applied to subsequent usage for each customer class. B. COMPUTATION OF CAC RATE The CAC rate for a given year will be separately calculated for each individual customer class according to the following: CAC Rate = (BCD + PYUC) or (BCD - PYOC)</p> <p>NV BCD = Budgeted conservation dollars for each individual rate class during the upcoming fiscal year. These dollars will be submitted for the City of Austin's approval 30 days prior to the beginning of the upcoming fiscal year. If no action is taken by the City of Austin within 30 days, the budget will automatically be approved. PYUC = Accumulated under collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. PYOC = Accumulated over collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class. C. FILING WITH THE CITY OF AUSTIN The following documents will be filed with the City of Austin: a) A schedule indicating the new CAC rates for each of the effected rate classes, to be filed within 30 days of implementation. b) An annual report of the prior fiscal year collections and disbursements, to be filed within 90 days of the prior fiscal year end. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated September 24, 2002 (Austin) December 23, 2002 (Sunset Valley)</p>

DESCRIPTION

Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a

DESCRIPTION

natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RCR-CTX-IS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR
RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas: 10, 20, 22, 30, 32, 40, 42, 48, CNG-1 and T-1. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPCR + PPRC NV CPCR = Relocation costs for the current recovery period. PPRC = Under collection or over collection from any prior RCR rates. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. RCR rates may be revised each quarter. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for the rate schedules listed in Section A above. E. WNA-CTX-IS

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE WNA
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of the Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills: 10, 20, 22, 40, 42, and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula: $WNA\ Rate = WNAD$, where
 CV $WNAD =$ Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

formula: $WNAD = (HDD\ Diff * CB * WF) * COS\ rate$, where HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period. CB = Number of customers billed for the billing period. WF = Weather factor determined for each rate schedule in the most recent rate case. CV = Current Volumes for the billing period. D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) This Rate Schedule Replaces Weather Normalization Clause: WNC dated 7/1/93 (for CTX - excluding Cedar Park)

1-INC-CTX-IS-COG

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE NO. 1-INC
Central Texas Service Area
COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.
3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. Companies affiliated with the Company shall not be allowed to charge fees for transactions related to natural gas financial instruments utilized for purposes in this Cost of Gas Clause and hence can not realize a profit in this regard. The Cost of Purchased Gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG).
4. Reconciliation Component - The amount to be returned to or recovered from

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9458

RATE SCHEDULESCHEDULE IDDESCRIPTION

customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B (3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of Pipeline Integrity costs during the period and (g) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), (e) total amount of Uncollectible Cost of Gas during the period, and (f) total amount of Pipeline Integrity costs during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

9. Pipeline Integrity Costs - the costs incurred in order to comply with the Texas Railroad Commission's Pipeline Integrity Assessment and Management Plan rule, 16 Tex. Admin. Code Section 8.101 and any other future Railroad Commission rules related to integrity management plans.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9458

RATE SCHEDULESCHEDULE IDDESCRIPTION

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including the gains and losses from hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers

DESCRIPTION

and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period. 5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date. 7. A description of pipeline integrity costs during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-INC-CTX-IS-COG	TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-INC Central Texas Service Area COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.
3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. Companies affiliated with the Company shall not be allowed to charge fees for transactions related to natural gas financial instruments utilized for purposes in this Cost of Gas Clause and hence can not realize a profit in this regard. The Cost of Purchased Gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG).
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9459

RATE SCHEDULESCHEDULE IDDESCRIPTION

(per Section B (3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of Pipeline Integrity costs during the period and (g) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), (e) total amount of Uncollectible Cost of Gas during the period, and (f) total amount of Pipeline Integrity costs during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

9. Pipeline Integrity Costs - the costs incurred in order to comply with the Texas Railroad Commission's Pipeline Integrity Assessment and Management Plan rule, 16 Tex. Admin. Code Section 8.101 and any other future Railroad Commission rules related to integrity management plans.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including the gains and losses from hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of

DESCRIPTION

hedging activities stated as costs to the average residential and commercial customer during the period. 5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date. 7. A description of pipeline integrity costs during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

CAC-CTX-IS-Conser

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE CAC CONSERVATION ADJUSTMENT CLAUSE A. APPLICABILITY The Conservation Adjustment Clause (CAC) shall apply to all rate schedules of Texas Gas Service Company (Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. The CAC rate shall be adjusted annually and applied to subsequent usage for each customer class. B. COMPUTATION OF CAC RATE The CAC rate for a given year will be separately calculated for each individual customer class according to the following: CAC Rate = (BCD + PYUC) or (BCD - PYOC)
 NV BCD = Budgeted conservation dollars for each individual rate class during the upcoming fiscal year. These dollars will be submitted for the City of Austin's approval 30 days prior to the beginning of the upcoming fiscal year. If no action is taken by the City of Austin within 30 days, the budget will automatically be approved. PYUC = Accumulated under collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. PYOC = Accumulated over collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class. C. FILING WITH THE CITY OF AUSTIN The following documents will be filed with the City of Austin: a) A schedule indicating the new CAC rates for each of the effected rate classes, to be filed within 30 days of implementation. b) An annual report of the prior fiscal year collections and disbursements, to be filed within 90 days of the prior fiscal year end. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated September 24, 2002 (Austin) December 23, 2002 (Sunset Valley)

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee

RCR-CTX-IS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas: 10, 20, 22, 30, 32, 40, 42, 48, CNG-1 and T-1. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: $RCR\ Rate = CPRC + PPRC \cdot NV$ CPRC = Relocation costs for the current recovery period. PPRC = Under collection or over collection from any prior RCR rates. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. RCR rates may be revised each quarter. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for the rate schedules listed in Section A above. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of an RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-RIDER RELOCATION COST RECOVERY RATE A. APPLICABILITY The Relocation Cost Recovery (RCR) rate, as set forth in Section (B) below and pursuant to Rate Schedule RCR, shall apply to the rate schedules as listed in Section A of Rate Schedule RCR for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. B. CURRENT RCR RATE Effective Date RCR Rate Meters Read On and After December 02, 2008 (9th RCR Filing) \$ 0.0093 per Ccf (Note 1)
Total RCR Rate \$ 0.0093 per Ccf All applicable fees and taxes will be added to the above rate. Note 1: The 9th filing RCR rate is applicable to Austin, Cedar Park, Rollingwood, Sunset Valley and West Lake Hills only. Future Central Texas Service Area RCR rate filings will be filed with all the cities listed in Section A above. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated December 02, 2008 and replaces Rate Sch RCR-Rider dated 12/29/03 (Kyle)

WNA-CTX-IS

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of the Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills: 10, 20, 22, 40, 42, and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula: $WNA\ Rate = WNAD,$ where
 $CV\ WNAD =$ Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula: $WNAD = (HDD\ Diff * CB * WF) * COS\ rate,$ where $HDD\ Diff = (Normal\ HDD - Actual\ HDD),$ the difference between normal and actual heating degree days for the billing period. $CB =$ Number of customers billed for the billing period. $WF =$ Weather factor determined for each rate schedule in the most recent rate case. $CV =$ Current Volumes for the billing period. D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the

SCHEDULE ID	DESCRIPTION
PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority

TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9470

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s).

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2.

DESCRIPTION

A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS, its parent company ONEOK, Inc., nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. I. QUARTERLY IMBALANCE REPORTS The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information: 1. Monthly imbalances by supplier and the system total, 2. Cumulative imbalance by supplier and the system total, 3. Amount of cash transactions between the Company and gas supplier for each month, and 4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices. Supersedes Same Sheet Dated Meters Read On and After December 23, 2002 June 2, 2008

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s). C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly

DESCRIPTION

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last

RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPRC / NV CPCR = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s). C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly

DESCRIPTION

balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS, its parent company ONEOK, Inc., nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. I. QUARTERLY IMBALANCE REPORTS The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information: 1. Monthly imbalances by supplier and the system total, 2. Cumulative imbalance by supplier and the system total, 3. Amount of cash transactions between the Company and gas supplier for each month, and 4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices. Supersedes Same Sheet Dated Meters Read On and After December 23, 2002 June 2, 2008

DESCRIPTION

excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the

RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: $RCR\ Rate = \frac{CPRC}{NV} \times CPRC$ NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPRC NV CPRC = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR collections. TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of

TARIFF CODE: DS RRC TARIFF NO: 9473

RATE SCHEDULESCHEDULE IDDESCRIPTION

Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s).

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS, its parent company ONEOK, Inc., nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. I. QUARTERLY IMBALANCE REPORTS The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information: 1. Monthly imbalances by supplier and the system total, 2. Cumulative imbalance by supplier and the system total, 3. Amount of cash transactions between the Company and gas supplier for each month, and 4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices. Supersedes Same Sheet Dated Meters Read On and After December 23, 2002 June 2, 2008

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s). C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly

DESCRIPTION

balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS, its parent company ONEOK, Inc., nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. I. QUARTERLY IMBALANCE REPORTS The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information: 1. Monthly imbalances by supplier and the system total, 2. Cumulative imbalance by supplier and the system total, 3. Amount of cash transactions between the Company and gas supplier for each month, and 4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices. Supersedes Same Sheet Dated Meters Read On and After December 23, 2002 June 2, 2008

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1,

DESCRIPTION

due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of

RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPRC NV CPRC = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR collections. RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory</p>

authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s). C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly

DESCRIPTION

balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS, its parent company ONEOK, Inc., nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. I. QUARTERLY IMBALANCE REPORTS The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information: 1. Monthly imbalances by supplier and the system total, 2. Cumulative imbalance by supplier and the system total, 3. Amount of cash transactions between the Company and gas supplier for each month, and 4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices. Supersedes Same Sheet Dated Meters Read On and After December 23, 2002 June 2, 2008

DESCRIPTION

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last

RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = $\frac{CPRC}{NV}$ CPRC = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-INC-CTX-IS-COG	TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-INC Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. Companies affiliated with the Company shall not be allowed to charge fees for transactions related to natural gas financial instruments utilized for purposes in this Cost of Gas Clause and hence can not realize a profit in this regard. The Cost of Purchased Gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9476

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(per Section B (3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of Pipeline Integrity costs during the period and (g) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), (e) total amount of Uncollectible Cost of Gas during the period, and (f) total amount of Pipeline Integrity costs during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

9. Pipeline Integrity Costs - the costs incurred in order to comply with the Texas Railroad Commission's Pipeline Integrity Assessment and Management Plan rule, 16 Tex. Admin. Code Section 8.101 and any other future Railroad Commission rules related to integrity management plans.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding

RATE SCHEDULESCHEDULE IDDESCRIPTION

the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including the gains and losses from hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of

DESCRIPTION

hedging activities stated as costs to the average residential and commercial customer during the period. 5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date. 7. A description of pipeline integrity costs during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

CAC-CTX-IS-Conser

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE CAC CONSERVATION ADJUSTMENT CLAUSE A. APPLICABILITY The Conservation Adjustment Clause (CAC) shall apply to all rate schedules of Texas Gas Service Company (Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. The CAC rate shall be adjusted annually and applied to subsequent usage for each customer class. B. COMPUTATION OF CAC RATE The CAC rate for a given year will be separately calculated for each individual customer class according to the following: CAC Rate = (BCD + PYUC) or (BCD - PYOC)
 NV BCD = Budgeted conservation dollars for each individual rate class during the upcoming fiscal year. These dollars will be submitted for the City of Austin's approval 30 days prior to the beginning of the upcoming fiscal year. If no action is taken by the City of Austin within 30 days, the budget will automatically be approved. PYUC = Accumulated under collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. PYOC = Accumulated over collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class. C. FILING WITH THE CITY OF AUSTIN The following documents will be filed with the City of Austin: a) A schedule indicating the new CAC rates for each of the effected rate classes, to be filed within 30 days of implementation. b) An annual report of the prior fiscal year collections and disbursements, to be filed within 90 days of the prior fiscal year end. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated September 24, 2002 (Austin) December 23, 2002 (Sunset Valley)

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution

DESCRIPTION

system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to

RCR-CTX-IS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas: 10, 20, 22, 30, 32, 40, 42, 48, CNG-1 and T-1. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPFC + PPRC NV CPFC = Relocation costs for the current recovery period. PPRC = Under collection or over collection from any prior RCR rates. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. RCR rates may be revised each quarter. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for the rate schedules listed in Section A above. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of an RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR collections, including any over or under collections from prior RCR rate applications. Meters Read On

WNA-CTX-IS	<p>TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of the Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills: 10, 20, 22, 40, 42, and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula: $WNA\ Rate = WNAD$, where CV $WNAD =$ Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula: $WNAD = (HDD\ Diff * CB * WF) * COS\ rate$, where $HDD\ Diff = (Normal\ HDD - Actual\ HDD)$, the difference between normal and actual heating degree days for the billing period. $CB =$ Number of customers billed for the billing period. $WF =$ Weather factor determined for each rate schedule in the most recent rate case. $CV =$ Current Volumes for the billing period. D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds. Meters Read On and</p>

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-INC-CTX-IS-COG	TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-INC Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. Companies affiliated with the Company shall not be allowed to charge fees for transactions related to natural gas financial instruments utilized for purposes in this Cost of Gas Clause and hence can not realize a profit in this regard. The Cost of Purchased Gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9478

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(per Section B (3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of Pipeline Integrity costs during the period and (g) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), (e) total amount of Uncollectible Cost of Gas during the period, and (f) total amount of Pipeline Integrity costs during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

9. Pipeline Integrity Costs - the costs incurred in order to comply with the Texas Railroad Commission's Pipeline Integrity Assessment and Management Plan rule, 16 Tex. Admin. Code Section 8.101 and any other future Railroad Commission rules related to integrity management plans.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding

RATE SCHEDULESCHEDULE IDDESCRIPTION

the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including the gains and losses from hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of

DESCRIPTION

hedging activities stated as costs to the average residential and commercial customer during the period. 5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date. 7. A description of pipeline integrity costs during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE CAC CONSERVATION ADJUSTMENT CLAUSE A. APPLICABILITY The Conservation Adjustment Clause (CAC) shall apply to all rate schedules of Texas Gas Service Company (Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. The CAC rate shall be adjusted annually and applied to subsequent usage for each customer class. B. COMPUTATION OF CAC RATE The CAC rate for a given year will be separately calculated for each individual customer class according to the following: CAC Rate = (BCD + PYUC) or (BCD - PYOC)
NV BCD = Budgeted conservation dollars for each individual rate class during the upcoming fiscal year. These dollars will be submitted for the City of Austin's approval 30 days prior to the beginning of the upcoming fiscal year. If no action is taken by the City of Austin within 30 days, the budget will automatically be approved. PYUC = Accumulated under collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. PYOC = Accumulated over collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class. C. FILING WITH THE CITY OF AUSTIN The following documents will be filed with the City of Austin: a) A schedule indicating the new CAC rates for each of the effected rate classes, to be filed within 30 days of implementation. b) An annual report of the prior fiscal year collections and disbursements, to be filed within 90 days of the prior fiscal year end. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated September 24, 2002 (Austin) December 23, 2002 (Sunset Valley)

DESCRIPTION

administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system

shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RCR-CTX-IS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas: 10, 20, 22, 30, 32, 40, 42, 48, CNG-1 and T-1. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPRC + PPRC NV CPRC = Relocation costs for the current recovery period. PPRC = Under collection or over collection from any prior RCR rates. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. RCR rates may be revised each quarter. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for the rate schedules listed in Section A above. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of an RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that

Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated December 02, 2008 and replaces Rate Sch RCR-Rider dated 12/29/03 (Kyle)</p>
WNA-CTX-IS	<p>TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of the Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills: 10, 20, 22, 40, 42, and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula: $WNA\ Rate = WNAD$, where</p> <p>CV WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula: $WNAD = (HDD\ Diff * CB * WF) * COS\ rate$, where $HDD\ Diff = (Normal\ HDD - Actual\ HDD)$, the difference between normal and actual heating degree days for the billing period. $CB =$ Number of customers billed for the billing period. $WF =$ Weather factor determined for each rate schedule in the most recent rate case. $CV =$ Current Volumes for the billing period. D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule.</p>

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-INC-CTX-IS-COG	TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-INC Central Texas Service Area COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.
3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. Companies affiliated with the Company shall not be allowed to charge fees for transactions related to natural gas financial instruments utilized for purposes in this Cost of Gas Clause and hence can not realize a profit in this regard. The Cost of Purchased Gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG).
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9479

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(per Section B (3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of Pipeline Integrity costs during the period and (g) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), (e) total amount of Uncollectible Cost of Gas during the period, and (f) total amount of Pipeline Integrity costs during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

9. Pipeline Integrity Costs - the costs incurred in order to comply with the Texas Railroad Commission's Pipeline Integrity Assessment and Management Plan rule, 16 Tex. Admin. Code Section 8.101 and any other future Railroad Commission rules related to integrity management plans.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding

RATE SCHEDULESCHEDULE IDDESCRIPTION

the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including the gains and losses from hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of

DESCRIPTION

hedging activities stated as costs to the average residential and commercial customer during the period. 5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date. 7. A description of pipeline integrity costs during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE CAC CONSERVATION ADJUSTMENT CLAUSE A. APPLICABILITY The Conservation Adjustment Clause (CAC) shall apply to all rate schedules of Texas Gas Service Company (Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. The CAC rate shall be adjusted annually and applied to subsequent usage for each customer class. B. COMPUTATION OF CAC RATE The CAC rate for a given year will be separately calculated for each individual customer class according to the following: CAC Rate = (BCD + PYUC) or (BCD - PYOC)
 NV BCD = Budgeted conservation dollars for each individual rate class during the upcoming fiscal year. These dollars will be submitted for the City of Austin's approval 30 days prior to the beginning of the upcoming fiscal year. If no action is taken by the City of Austin within 30 days, the budget will automatically be approved. PYUC = Accumulated under collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. PYOC = Accumulated over collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Cof for each rate class. C. FILING WITH THE CITY OF AUSTIN The following documents will be filed with the City of Austin: a) A schedule indicating the new CAC rates for each of the effected rate classes, to be filed within 30 days of implementation. b) An annual report of the prior fiscal year collections and disbursements, to be filed within 90 days of the prior fiscal year end. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated September 24, 2002 (Austin) December 23, 2002 (Sunset Valley)

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the

TARIFF CODE: DS RRC TARIFF NO: 9479

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee

RCR-CTX-IS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas: 10, 20, 22, 30, 32, 40, 42, 48, CNG-1 and T-1. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: $RCR\ Rate = CPCR + PPRC \cdot NV$ CPCR = Relocation costs for the current recovery period. PPRC = Under collection or over collection from any prior RCR rates. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. RCR rates may be revised each quarter. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for the rate schedules listed in Section A above. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of an RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-RIDER RELOCATION COST RECOVERY RATE A. APPLICABILITY The Relocation Cost Recovery (RCR) rate, as set forth in Section (B) below and pursuant to Rate Schedule RCR, shall apply to the rate schedules as listed in Section A of Rate Schedule RCR for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. B. CURRENT RCR RATE Effective Date RCR Rate Meters Read On and After December 02, 2008 (9th RCR Filing) \$ 0.0093 per Ccf (Note 1)
Total RCR Rate \$ 0.0093 per Ccf All applicable fees and taxes will be added to the above rate. Note 1: The 9th filing RCR rate is applicable to Austin, Cedar Park, Rollingwood, Sunset Valley and West Lake Hills only. Future Central Texas Service Area RCR rate filings will be filed with all the cities listed in Section A above. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated December 02, 2008 and replaces Rate Sch RCR-Rider dated 12/29/03 (Kyle)

WNA-CTX-IS

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of the Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills: 10, 20, 22, 40, 42, and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula: $WNA\ Rate = WNAD,$ where
 $CV\ WNAD =$ Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula: $WNAD = (HDD\ Diff * CB * WF) * COS\ rate,$ where $HDD\ Diff = (Normal\ HDD - Actual\ HDD),$ the difference between normal and actual heating degree days for the billing period. $CB =$ Number of customers billed for the billing period. $WF =$ Weather factor determined for each rate schedule in the most recent rate case. $CV =$ Current Volumes for the billing period. D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-INC-CTX-IS-COG	TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-INC Central Texas Service Area COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. Companies affiliated with the Company shall not be allowed to charge fees for transactions related to natural gas financial instruments utilized for purposes in this Cost of Gas Clause and hence can not realize a profit in this regard. The Cost of Purchased Gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG).

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9481

RATE SCHEDULESCHEDULE IDDESCRIPTION

(per Section B (3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of Pipeline Integrity costs during the period and (g) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), (e) total amount of Uncollectible Cost of Gas during the period, and (f) total amount of Pipeline Integrity costs during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

9. Pipeline Integrity Costs - the costs incurred in order to comply with the Texas Railroad Commission's Pipeline Integrity Assessment and Management Plan rule, 16 Tex. Admin. Code Section 8.101 and any other future Railroad Commission rules related to integrity management plans.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RATE SCHEDULESCHEDULE IDDESCRIPTION

the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including the gains and losses from hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of

DESCRIPTION

hedging activities stated as costs to the average residential and commercial customer during the period. 5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date. 7. A description of pipeline integrity costs during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE CAC CONSERVATION ADJUSTMENT CLAUSE A. APPLICABILITY The Conservation Adjustment Clause (CAC) shall apply to all rate schedules of Texas Gas Service Company (Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. The CAC rate shall be adjusted annually and applied to subsequent usage for each customer class. B. COMPUTATION OF CAC RATE The CAC rate for a given year will be separately calculated for each individual customer class according to the following: CAC Rate = (BCD + PYUC) or (BCD - PYOC)
 NV BCD = Budgeted conservation dollars for each individual rate class during the upcoming fiscal year. These dollars will be submitted for the City of Austin's approval 30 days prior to the beginning of the upcoming fiscal year. If no action is taken by the City of Austin within 30 days, the budget will automatically be approved. PYUC = Accumulated under collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. PYOC = Accumulated over collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Cof for each rate class. C. FILING WITH THE CITY OF AUSTIN The following documents will be filed with the City of Austin: a) A schedule indicating the new CAC rates for each of the effected rate classes, to be filed within 30 days of implementation. b) An annual report of the prior fiscal year collections and disbursements, to be filed within 90 days of the prior fiscal year end. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated September 24, 2002 (Austin) December 23, 2002 (Sunset Valley)

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee

DESCRIPTION

on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RCR-CTX-IS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas: 10, 20, 22, 30, 32, 40, 42, 48, CNG-1 and T-1. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPRC + PPRC NV CPRC = Relocation costs for the current recovery period. PPRC = Under collection or over collection from any prior RCR rates. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. RCR rates may be revised each quarter. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for the rate schedules listed in Section A above. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of an RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be

WNA-CTX-IS	<p>TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of the Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills: 10, 20, 22, 40, 42, and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula: $WNA\ Rate = WNAD,$ where</p> <p>CV WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula: $WNAD = (HDD\ Diff * CB * WF) * COS\ rate,$ where HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period. CB = Number of customers billed for the billing period. WF = Weather factor determined for each rate schedule in the most recent rate case. CV = Current Volumes for the billing period. D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the</p>

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-INC-CTX-IS-COG	TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-INC Central Texas Service Area COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.
3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. Companies affiliated with the Company shall not be allowed to charge fees for transactions related to natural gas financial instruments utilized for purposes in this Cost of Gas Clause and hence can not realize a profit in this regard. The Cost of Purchased Gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG).
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9483

RATE SCHEDULESCHEDULE IDDESCRIPTION

(per Section B (3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of Pipeline Integrity costs during the period and (g) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), (e) total amount of Uncollectible Cost of Gas during the period, and (f) total amount of Pipeline Integrity costs during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

9. Pipeline Integrity Costs - the costs incurred in order to comply with the Texas Railroad Commission's Pipeline Integrity Assessment and Management Plan rule, 16 Tex. Admin. Code Section 8.101 and any other future Railroad Commission rules related to integrity management plans.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including the gains and losses from hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of

hedging activities stated as costs to the average residential and commercial customer during the period. 5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date. 7. A description of pipeline integrity costs during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

CAC-CTX-IS-Conser

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE CAC CONSERVATION ADJUSTMENT CLAUSE A. APPLICABILITY The Conservation Adjustment Clause (CAC) shall apply to all rate schedules of Texas Gas Service Company (Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. The CAC rate shall be adjusted annually and applied to subsequent usage for each customer class. B. COMPUTATION OF CAC RATE The CAC rate for a given year will be separately calculated for each individual customer class according to the following: CAC Rate = (BCD + PYUC) or (BCD - PYOC)
 NV BCD = Budgeted conservation dollars for each individual rate class during the upcoming fiscal year. These dollars will be submitted for the City of Austin's approval 30 days prior to the beginning of the upcoming fiscal year. If no action is taken by the City of Austin within 30 days, the budget will automatically be approved. PYUC = Accumulated under collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. PYOC = Accumulated over collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class. C. FILING WITH THE CITY OF AUSTIN The following documents will be filed with the City of Austin: a) A schedule indicating the new CAC rates for each of the effected rate classes, to be filed within 30 days of implementation. b) An annual report of the prior fiscal year collections and disbursements, to be filed within 90 days of the prior fiscal year end. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated September 24, 2002 (Austin) December 23, 2002 (Sunset Valley)

PSF-All-ISOS-PipeFee

TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of

DESCRIPTION

administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year.

(b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety program fee to the Commission;

(C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing:

(A) the pipeline safety program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year.

(3) Each operator of a natural gas master meter system

shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RCR-CTX-IS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas: 10, 20, 22, 30, 32, 40, 42, 48, CNG-1 and T-1. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPRC + PPRC NV CPRC = Relocation costs for the current recovery period. PPRC = Under collection or over collection from any prior RCR rates. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. RCR rates may be revised each quarter. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for the rate schedules listed in Section A above. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of an RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-RIDER RELOCATION COST RECOVERY RATE A. APPLICABILITY The Relocation Cost Recovery (RCR) rate, as set forth in Section (B) below and pursuant to Rate Schedule RCR, shall apply to the rate schedules as listed in Section A of Rate Schedule RCR for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. B. CURRENT RCR RATE Effective Date RCR Rate Meters Read On and After December 02, 2008 (9th RCR Filing) \$ 0.0093 per Ccf (Note 1)
Total RCR Rate \$ 0.0093 per Ccf All applicable fees and taxes will be added to the above rate. Note 1: The 9th filing RCR rate is applicable to Austin, Cedar Park, Rollingwood, Sunset Valley and West Lake Hills only. Future Central Texas Service Area RCR rate filings will be filed with all the cities listed in Section A above. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated December 02, 2008 and replaces Rate Sch RCR-Rider dated 12/29/03 (Kyle)

WNA-CTX-IS

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of the Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills: 10, 20, 22, 40, 42, and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula: $WNA\ Rate = WNAD$, where
 $CV\ WNAD =$ Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula: $WNAD = (HDD\ Diff * CB * WF) * COS\ rate$, where $HDD\ Diff = (Normal\ HDD - Actual\ HDD)$, the difference between normal and actual heating degree days for the billing period. $CB =$ Number of customers billed for the billing period. $WF =$ Weather factor determined for each rate schedule in the most recent rate case. $CV =$ Current Volumes for the billing period. D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-INC-CTX-IS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1-INC Central Texas Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY</p> <p>This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. Companies affiliated with the Company shall not be allowed to charge fees for transactions related to natural gas financial instruments utilized for purposes in this Cost of Gas Clause and hence can not realize a profit in this regard. The Cost of Purchased Gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG).</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company</p>

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9485

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

(per Section B (3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, (f) the total amount of Pipeline Integrity costs during the period and (g) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), (e) total amount of Uncollectible Cost of Gas during the period, and (f) total amount of Pipeline Integrity costs during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

9. Pipeline Integrity Costs - the costs incurred in order to comply with the Texas Railroad Commission's Pipeline Integrity Assessment and Management Plan rule, 16 Tex. Admin. Code Section 8.101 and any other future Railroad Commission rules related to integrity management plans.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding

RATE SCHEDULESCHEDULE IDDESCRIPTION

the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including the gains and losses from hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of

DESCRIPTION

hedging activities stated as costs to the average residential and commercial customer during the period. 5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date. 7. A description of pipeline integrity costs during the period and its effect on the Cost of Gas Clause to date. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

CAC-CTX-IS-Conser

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE CAC CONSERVATION ADJUSTMENT CLAUSE A. APPLICABILITY The Conservation Adjustment Clause (CAC) shall apply to all rate schedules of Texas Gas Service Company (Company) in all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas. The CAC rate shall be adjusted annually and applied to subsequent usage for each customer class. B. COMPUTATION OF CAC RATE The CAC rate for a given year will be separately calculated for each individual customer class according to the following: CAC Rate = (BCD + PYUC) or (BCD - PYOC)
 NV BCD = Budgeted conservation dollars for each individual rate class during the upcoming fiscal year. These dollars will be submitted for the City of Austin's approval 30 days prior to the beginning of the upcoming fiscal year. If no action is taken by the City of Austin within 30 days, the budget will automatically be approved. PYUC = Accumulated under collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. PYOC = Accumulated over collection from prior years for each individual rate class, or the actual amount collected in prior years minus the actual amount disbursed in prior years. NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class. C. FILING WITH THE CITY OF AUSTIN The following documents will be filed with the City of Austin: a) A schedule indicating the new CAC rates for each of the effected rate classes, to be filed within 30 days of implementation. b) An annual report of the prior fiscal year collections and disbursements, to be filed within 90 days of the prior fiscal year end. Meters Read On and After June 30, 2009 (Other Cities) July 17, 2009 (City of Cedar Park) Supersedes Same Sheet Dated September 24, 2002 (Austin) December 23, 2002 (Sunset Valley)

DESCRIPTION

system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to

RCR-CTX-IS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for all incorporated areas served by the Company in its Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills, Texas: 10, 20, 22, 30, 32, 40, 42, 48, CNG-1 and T-1. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPFC + PPRC NV CPFC = Relocation costs for the current recovery period. PPRC = Under collection or over collection from any prior RCR rates. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. RCR rates may be revised each quarter. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for the rate schedules listed in Section A above. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of an RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR collections, including any over or under collections from prior RCR rate applications. Meters Read On

WNA-CTX-IS	<p>TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of the Central Texas Service Area which includes Austin, Cedar Park, Kyle, Rollingwood, Sunset Valley and West Lake Hills: 10, 20, 22, 40, 42, and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula: $WNA\ Rate = \frac{WNAD}{CV}$, where $WNAD = (HDD\ Diff * CB * WF) * COS\ rate$, where $HDD\ Diff = (Normal\ HDD - Actual\ HDD)$, the difference between normal and actual heating degree days for the billing period. $CB =$ Number of customers billed for the billing period. $WF =$ Weather factor determined for each rate schedule in the most recent rate case. $CV =$ Current Volumes for the billing period. D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file with the Cities and the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds. Meters Read On and</p>

PSF-All-ISOS-PipeFee	<p>TEXAS GAS SERVICE COMPANY All Service Areas RATE SCHEDULE PSF PIPELINE SAFETY PROGRAM FEES TEXAS ADMINISTRATIVE CODE TITLE 16 ECONOMIC REGULATION PART 1 RAILROAD COMMISSION OF TEXAS CHAPTER 8 PIPELINE SAFETY REGULATIONS SUBCHAPTER C REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY Rule 8.201 Pipeline Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105,</p>

DESCRIPTION

shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority

DESCRIPTION

(Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPRC NV CPRC = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR collections. TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of

TARIFF CODE: DS RRC TARIFF NO: 9486

RATE SCHEDULESCHEDULE IDDESCRIPTION

Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s).

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2.

DESCRIPTION

A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS, its parent company ONEOK, Inc., nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. I. QUARTERLY IMBALANCE REPORTS The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information: 1. Monthly imbalances by supplier and the system total, 2. Cumulative imbalance by supplier and the system total, 3. Amount of cash transactions between the Company and gas supplier for each month, and 4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices. Supersedes Same Sheet Dated Meters Read On and After December 23, 2002 June 2, 2008

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s). C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly

DESCRIPTION

balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS, its parent company ONEOK, Inc., nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. I. QUARTERLY IMBALANCE REPORTS The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information: 1. Monthly imbalances by supplier and the system total, 2. Cumulative imbalance by supplier and the system total, 3. Amount of cash transactions between the Company and gas supplier for each month, and 4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices. Supersedes Same Sheet Dated Meters Read On and After December 23, 2002 June 2, 2008

DESCRIPTION

Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a

DESCRIPTION

natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = $\frac{CPRC}{NV}$ CPRC = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-

SCHEDULE ID	DESCRIPTION
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s). C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly

DESCRIPTION

balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS, its parent company ONEOK, Inc., nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. I. QUARTERLY IMBALANCE REPORTS The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information: 1. Monthly imbalances by supplier and the system total, 2. Cumulative imbalance by supplier and the system total, 3. Amount of cash transactions between the Company and gas supplier for each month, and 4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices. Supersedes Same Sheet Dated Meters Read On and After December 23, 2002 June 2, 2008

DESCRIPTION

Safety Program Fees (a) Pursuant to Texas Utilities Code, 121.211, the Commission establishes a pipeline safety inspection fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's pipeline safety jurisdiction under Texas Utilities Code, Chapter 121. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety program under Texas Utilities Code, Chapter 121, excluding costs that are fully funded by federal sources, for any fiscal year. (b) The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety program fee of \$0.50 for each service (service line) reported to be in service at the end of each calendar year by each system operator on the Distribution Annual Report, Form F7100.1-1, to be filed on March 15 of each year. (1) Each operator of a natural gas distribution system shall calculate the total amount of the annual pipeline safety program fee to be paid to the Commission by multiplying the number of services listed in Part B, Section 3, of Department of Transportation (DOT) Distribution Annual Report, Form F7100.1-1, due to be filed on March 15 of each year, by \$0.50. (2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year, the amount calculated under paragraph (1) of this subsection. (3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection. The surcharge: (A) shall be a flat rate, one-time surcharge; (B) shall not be billed before the operator remits the pipeline safety program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission; (D) shall not exceed \$0.50 per service or service line (For calendar year 2009 the annual pipeline safety program fee, effective with meters read on and after March 31, 2009, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.46, based on \$0.50 per service line) ; and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, 101.003. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101-105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of 7.315 of this title, relating to Filing of Tariffs. (6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code. (c) The Commission hereby assesses each master meter system an annual inspection fee of \$100 per master meter system. (1) Each operator of a

DESCRIPTION

natural gas master meter system shall pay the annual inspection fee of \$100 per master meter system no later than June 30 of each year. (2) The Commission shall send an invoice to each affected natural gas master meter operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter operator to receive an invoice shall not exempt the natural gas master meter operator from its obligation to remit the annual pipeline safety program fee on June 30 each year. (3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under this subsection. (4) No later than 90 days after the last billing cycle in which the pipeline safety program fee surcharge is billed to customers, each master meter operator shall file with the Commission's Gas Services Division and the Safety Division a report showing: (A) the pipeline safety program fee amount paid to the Commission; (B) the unit rate and total amount of the surcharge billed to each customer; (C) the date or dates on which the surcharge was billed to customers; and (D) the total amount collected from customers from the surcharge. (d) If an operator of a natural gas distribution system or a natural gas master meter system does not submit payment of the annual inspection fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator. Source Note: The provisions of this 8.201 adopted to be effective September 8, 2003, 28 TexReg 7682; amended to be effective November 24, 2004, 29 TexReg 10733; amended to be effective May 15, 2005, 30 TexReg 2849; amended to be effective December 19, 2005, 30 TexReg 8428; amended to be effective April 18, 2007, 32 TexReg 2136; amended to be effective November 12, 2007, 32 Tex Reg 8121 Supersedes Same Sheet Dated Meters Read On and After March 31,2008 March 31, 2009

RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = $\frac{CPRC}{NV}$ CPRC = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory</p>

authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s). C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate. E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly. F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly
