Electricity Facts Label CPL Retail Energy, Small Non-Residential POLR Service Service Area – AEP Texas Central

January 2009

	TOTAL AVERAGE ELECTRICITY PRICE*						
			Average Monthly Use				
Electricity Price	Average Annual price per kWh		1,500 kWh	2,5000 kWh	3,500 kWh		
			21.5¢	20.9¢	20.9¢		
	* This price disclosure is based on minimum service prices - your average price for electricity will vary according to your usage and the components shown in the POLR rate formula below:						
	POLR Rate (in \$ per KWh) = (Non-bypassable charges + POLR customer charge + POLR demand charge + POLR energy charge)/kWh used						
	 Where: Non-bypassable charges shall be all TDSP and other non-bypassable charges and credits for the appropriate customer class in the applicable service territory, including ERCOT administrative charges, nodal fees or surcharges, replacement reserve charges attributable to POLR load, and applicable taxes from various taxing or regulatory authorities, multiplied by the level of kWh and KW used, where appropriate.
